The minute, interdimensional atomic structure of the **chemical Celestaline** is composed of a **set of complex, "staggered" particle/anti-particle sub-atomic units** that, at **different phases** of the chemical's very short life, resemble both "**waves**" **and "particles"**. In **either phase**, the sub-atomic units of which Celestaline is composed have "**spins rates**" that are **faster than the speed of light** in this dimension, which makes the **atomic structure** of Celestaline "**Super-luminal**". As Celestaline has an atomic structure that moves faster than the speed of light, the **chemical itself cannot be observed** by present means of detection, but the **effects of its existence upon identified atomic structure** can be **physically observed** under the **appropriate conditions**. Once a sufficient amount of the blueprint for the Super-luminal chemical Celestaline is transferred into the **internal organ systems** of the body via chemical-hormonal "Celestaline carriers", the **atomic structure** of the body **changes**. Due to the **super-luminal interaction** between the **electromagnetism** inherent to Celestaline and the "positive" and "negative" electrical charges inherent to the **protons** (positive charge particles in cell nucleus with neutrons) and **electrons** (negative charge particles outside of cell nucleus corresponding to protons within nucleus) of cells, the **usual behavior** of protons and electrons is **altered** upon interface with **sufficient quantities** of Celestaline. The **neutrons** in the cell nucleus, which usually bear **no charge**, take on a **brief, transient "negative" charge** that corresponds to the **sound-wave spectrum** of the **dimension above** that in which the interface is taking place. The fleeting "negative-neutron" charge is **stronger** than the **cumulative positive charge** of the **photons** in the nucleus, which causes the **protons to reverse their charge** and "turn into **electrons**" within the nucleus of the cell. These interactions within the cell nucleus cause the negatively charged **electrons** outside of the nucleus to **reverse their charge to positive**, becoming "**protons**", which are **drawn into the nucleus** via the "negative-neutrons". As this occurs, the Celestaline enters its brief **super-luminal particle phase**, causing the "**negative-neutrons**" to **reverse** their own charge to a "**positive**" charge. As these electrical interactions are occurring in a **nearly simultaneous order** within each body cell, the **protons and electrons of the cells merge and fuse** in very specific sequence with their corresponding **anti-particles**, as their own "charge" and **axis spin angle and rate reverse** to **duplicate** that of their **anti-particles**. When particles and anti-particles fuse within each cell they **do not "annihilate" each other**, as would be the case without the presence of **Celestaline** and its inherent **fusion-sequencing instructions**.

Once proton and electron particles and anti-particles fully **fuse**, following the **impeccably specific sequences and correspondences** that are set and directed by the super-luminal **Celestaline** blueprints via neutrons, the **particle/ anti-**

particle "packages" electrically bind to the super-luminal **Celestaline particles**. The super-luminal Celestaline particles then **revert to "wave phase", transmuting the particle/anti-particle packages** also **into wave-form**. The Celestaline chemical creates a **super-luminal carrier wave**, known as the "**Celestaline Wave**", "Morphogenetic Wave" or the "**Maharic Wave**" ("**Maharic**" is derived from the term "**Maharata**", the **audible sound-tone translation** of the frequencies that compose the Density-4/Dimension-12 **Pre-matter field**), within which the **particle-anti-particle packages** are **suspended**. Due to the **Celestaline-sequencing directives**, which allow the particle/antiparticle packages in the nucleus to electrically bond to the super-luminal Celestaline particle, the **fused particles and anti-particles** temporarily enter **Density-4 Dimension-12 Pre-matter** as **minute columnar scalar-waves**, a state of **suspended electromagnetism** known as "**Hydro-plasmic Liquid Light**" (or "super-luminal hydro-space"). Entering the **Hydro-plasmic state** allows the fused particles and antiparticles to **retain their original form blueprint** in the form of a **scalar-grid Template**. Portions of the cells' atomic structure that were not drawn into the nucleus, which **cannot fully bond** to the Celestaline in its super-luminal particle phase, undergo particle/anti-particle **fusion** in the **commonly identified manner**, experiencing "**annihilation**" of their original form. Upon annihilation, the particles and anti-particles break down to form **transient, minute, radioactive particle-waves** called "**tracers**" (composed of **photons**) and residual **muons** (lighter elementary lepton neutrino particles) and **mesons** (sub-atomic hadron units made of 2 quarks).

In the nano-moments before full transmutation of the body, a "**Phantom Celesmiac-Residue**" of the **Celesma** element (Celesmatic Crystals) is **excreted from the body cells** and passed out of the body's **skin** as a **crystalline liquid**, just before bodily "de-manifestation". The **Celesmiac Residue** then turns to an **extremely fine, bluish-white crystalline powder** upon contact with atmospheric **oxygen**; the **pure** Celesmaic Residue **bluish-white powder** was frequently referred to as "**Chen'chol-E-A'-DU**" (English translation "Star Dust Blue") in ancient times. As the body completes atomic transmutation, the residual muons, mesons and photons left behind from portions of the cells that did not enter the nucleus for fusion with the Celestaline Wave, **bond to the atoms** of the **Celesmiac Residue**, turning the bluish-white power to a **whitish-yellow-gray** hue. The **tangible residue** left behind by a body that has undergone atomic transmutation is a **compound substance** made of the **Celesmatic Residue** and the photonic-muon-meson "by-product" left behind by the body cells themselves; this fine, crystalline, whitish-yellow-gray powder is technically called **Celestron Residue** or **Celestron Powder**. Celestron Powder is a temporarily radioactive **chemical compound "by-product"** composed of bonded **silica, carbon, hydrogen** and **several metalloid atoms** organic to the **Celesmaic Residue**, to which the **muons** and **mesons** remaining from **portions of the body cells that did not transmute** are bound.

The Nibiruians, Egypt, "Star Dust-blue "and "Celestron Gold-Powder"

In **Nibiruian Anunnaki** cultures, and some others, there were periods of time when members of the **Angelic Human and Maji** races were **hunted and captured** for the **forced harvest** of both the Chen'chol-E-A-DU "Star Dust-blue" blue-powder **pure Celesmaic Residue** and the less-pure whitish-yellow-gray **Celestron Powder**. Under certain circumstances, these substances could be used to induce **partial transmutation and temporary DNA Strand Braiding** (and thus allow for star gate passage) in races with **Reverse-Matrix DNA Templates**, who could not initiate **natural DNA Strand Braiding** on their own. Only the **pure Celesmaic Residue** could induce **temporary, artificial Strand Braiding** sufficient for Anunnaki to pass through Density-2 Star Gates that were normally biologically off-limits to them. "Harvest" of Celesmaic Residue was a **torturous** and **deadly** process. External **photo-sonic devices** were used to begin, by force, the transmutation process within the DNA of a captured Angelic Human; then the devices were used to **block the DNA Template** and **halt full atomic transmutation** just as the Celesmaic Residue fluid was **excreted from the skin** and turned to powder. The Anunnaki had only about **3 minutes** to **"harvest" the powder from the skin** via **electrostatic collection** before the **DNA Template** turned in on itself due to the **forced electromagnetic blockages**; as the DNA Template collapsed, the biology of the Human victim **spontaneously combusted**. The Anunnaki needed to "harvest" the Celesmaic Power from an average of **12 victims**, and use the **artificially sustained powder** within a **maximum** period of **several hours**, to achieve **one Star Gate passage for one individual**. The Nibiruian Anunnaki considered Humans to be an "**expendable, replenish-able resource**". During certain periods of time, such as in **60,000BC-25,500BC** in certain areas of **Atlantis**, before the Checkerboard Mutation, "**Angelic Human Forced**

Breeding Farms" were set up in the **Atlantian Temples** by the Nibiruian Anunnaki, expressly for the purpose of "**replenishing the supply**" of "**expendable**" Angelic Humans from which Celesmaic Residue could be harvested (this provides an example of what the Nibiruian Anunnaki are capable of). When the **Checkerboard Mutation** brought these practices to a close, the Anunnaki focused their attentions upon the harvest of the **less-pure**, whitish-yellow-gray **Celestron Powder**, which could be acquired from **Maji Angelic Humans** who retained some degree of the transmutation ability despite the Checkerboard Mutation. Celestron Powder could be gained in **lesser quantities** through forced, artificial harvest from **certain Annu-Melchizedeks-E-luhli Stage-5 hybrid races**, who were capable of limited 3 to 5 Strand Braiding due to their hybrid Angelic Human Strand Templates 1-5, if their DNA Templates were **artificially activated**. The **Maji Angelic Humans** and **Annu-Melchizedek-E-Luhi** races became the targets for **Nibiruian hunting**.

The **easiest way** to obtain **Celestron Powder** was from the **dead bodies** of Maji and Annu-Melchizedeks whose consciousness had "ascended" out of Density-1 at the death of the physical body. Though the 25,500BC Checkerboard Mutation prevented full atomic transmutation of the Density-1 body unless direct assistance was provided from the higher dimensions, some individuals were able to **receive assistance** in braiding of the **higher dimensional** Strand Templates (4-12), which allowed for ascension of the consciousness from Density-1. In these cases, Celestron Power would **remain on the dead body** after the consciousness passed on; the whitish-yellow-gray power was most valuable when "**fresh**", as it would soon lose strength and turn to a sticky **black powder**. Though the Celestron Power **did not have the strength** to induce **DNA Strand Braiding** in a Reverse-Matrix DNA Template, it could **temporarily activate random portions** of the higher dimensional Strand Template chemical DNA sequences, much in the manner of chemical "**LSD**". The Celestron Powder also **produced temporary** effects of increased **physical endurance, disease immunity** and **expanded mental capacity**. For these reasons, the Celestron Powder became a **valuable commodity**, especially once the Checkerboard Mutation genetically blocked interdimensional awareness, as the substance could temporarily produce short "glimpses of the other side" of the biological "veil". Celestron Powder became most popular among the **Leviathan-Anunnaki-Human hybrid races** and to some unfortunate **Angelic Humans** who fell to the **powers of its seduction**. Despite the **seeming beneficial effects** of ingesting Celestron Powder, which created temporary benefits in health and consciousness expansion, the substance **progressively shattered the natural scalar-wave blueprints** of the **DNA Template** by drawing higher-dimensional frequency randomly into the DNA and body, out of the **natural electromagnetic sequence**. This created a condition known as "**Molecular Compaction**", or progressive **destruction and reduction of the DNA Template** and the resulting **progressive, irreversible, mutation** of the **chemical DNA** and **degeneration** of the **physical body** and **mental facilities**.

Even in the times of **recorded ancient Egyptian history**, long after the "Atlantian expertise" of Anunnaki "forced harvest" had been lost to all but a few, the quest for the "booty" of Celestron Powder was quite the "rage". In the **early Egyptian dynasties** "Pharoanic Tomb Robbing" **directly after death** was first and foremost motivated by the hope of a Celestron Powder "find", as it was known that many early Pharaohs and their families received "ascension assistance" from "**relatives**" in the higher dimensional fields. (Most Pharaohs of recorded history, and their families, were the **Leviathan-Annu-Melchizedek-E-luhli** "children" of competing Anunnaki and Drakonian Fallen Angelic races, who **deposed the pre-dynastic Serres-Egyptian Maji Grail King line** of Sakkara after the Atlantian flood.). As Celestron Powder was most often found on the **mummified bodies of Egyptian royals**, the Celestron Powder came to be known as "**Mummy Dust**" (English translation). The more powerful, "fresh" whitish-yellow-gray Celestron Power harvested **soon after death** became known as "**White Gold-Powder**", as when it was combined with **powdered shavings of elemental gold** and **several other ingredients**, it **retained the strength** of its chemical properties for longer periods of time. The less-powerful, **blackened** Celestron Powder harvested from **bodies long dead** could also be **revitalized and strengthened** to some degree by combining it with the gold-powder concoction; this less-valuable, but still popular substance, became known as "**Black Gold-Powder**". The "Gold-Powder" Celestron substances were used by most of the **early dynastic Pharaohs** until the **long-term detrimental effects** became well observed, at which time the substance waned in popularity. In the **18th Dynasty, Pharaoh Akhenaton**, confident of his **self-assessed** "superior qualities" of being able to **bodily transmute** Celestron Powder to receive its benefit without the side-effects, **created his own downfall** through this **self-overestimation**. Having ordered the production of "**White Gold-Powder**" made from the fresh Celestron Powder harvested from his **father's dead body** (Amenophis III ascended to Density-2 with Emerald

Covenant Maharaji assistance), Akhenaton used the substance **frequently** to enhance his "**psychic vision**". Due to frequent use of the White Gold-Powder substance, the effects of Molecular Compaction and destruction of the **DNA Template** took a rapid toll on both his **physical health** and **mental function**. By the time of his assassination (*ref: Chapter-5*) Akhenaton, once talented in mind and word, had rendered himself **mentally insane** and **socially dysfunctional**. (Due to his folly of ego and quest for chemically induced "spiritual enlightenment", Akhenaton was **unable to ascend to Density-2 incarnational cycles after death**. He is presently incarnate on Earth in Density-1, in **3 simultaneous male incarnations**, attempting to reassemble the fragmentation of his Divine Blueprint and DNA Template that occurred as a result of his choices during his Akhenaton incarnation.)

Akhenaton's folly provided a **demonstrated testimony** to the **mishaps** of **self-glorification** and the **use of external substances** as an attempt to "**gain without doing the inner work required**" the abilities and wisdom that can **only be acquired** through genuine, internally directed **spiritual integration** and **restorative DNA Template activation**. In **contemporary times** several "**recipes**" for the manufacture of substances **resembling "Gold Powder" Celestron** have been introduced into **scientific and metaphysical communities** via **covert Fallen Angelic Anunnaki "inspiration"**. Though **none** of these artificial concoctions contains genuine **Celestron Powder**, and thus **do not replicate the original strength** of ancient Gold-Powder products, they do however, with repeated use, progressively produce the same type of **side effects**. DNA Template destruction, Molecular Compaction and accelerated mind-body deterioration after **temporary appearance of beneficial results** are the **side-effects common to all external, chemical "mind-expanding" substances**, including many popular "**illegal drugs**" and **numerous "natural" plant derivatives**. All such substances **create the illusion of temporary "mind expansion"** by triggering activation of portions of the **higher Strand DNA Templates** out of their **natural electromagnetic sequences**. Random portions of the **higher dimensional** DNA Strand Templates are **chemically triggered** into activation (giving the chemically induced "expansion of consciousness effect") **before** the **lower dimensional** DNA Strand Templates are **activated** to properly **receive, sequence and synthesize** the incoming higher dimensional frequency from the activated higher Strand Templates. The **higher frequency wave-forms** literally "**crush**" the wave-forms of which the lower Strand DNA Templates are composed, progressively **destroying the body's ability** to achieve **organic expanded states** through the **natural processes** of **internally directed spiritual integration** and **DNA Template activation**. Many people in contemporary times would benefit by heeding the advice once given to, and ignored by, Pharaoh Akhenaton: "If you were **so advanced** that you could "**handle the chemical**" and escape its undesirable potentials, **you wouldn't NEED the chemical** to create **the illusion of false consciousness expansion**". When **external means** are used to induce "**consciousness expansion**", the external force "**owns the power**"; you do not. We are **all capable** of **reclaiming our natural, dormant powers of consciousness expansion** and **biological transmutation** through **internal spiritual integration** and **natural DNA Template activation**, a potential we can easily lose through **damaging the DNA Template** in the quest for a **"quick fix" of false enlightenment**.

- Consistent use of the ancient **Solar and Lunar Sacred Salutation Rites** progressively **manually resets** the natural 33-CW/11-CCW Harmonic Merkaba Field Spin Ratio, accelerating the organic processes of the **DNA Template healing**, activation of dormant DNA Templates, embodiment of **Universal Life Force Currents** and **Spiritual Identity Integration**. If the embodied Kathara Grid and DNA Template are **repeatedly manually reset** in the body, **critical mass** will eventually be achieved to **override** the distorted 34-CCW/21-CW **Nibiruian Mutation** that presently runs through Earth's Planetary Shields.

Note on 12-Strand DNA Template Activation:
BE AWARE
Averting the Seduction of the "Quick Fix" and "Ego Pat"

No Human on Earth at this time has true **12-Strand DNA Template ACTIVATION or CONSUMMATION** as the **Planetary Shields** cannot yet sustain biological presence that holds continually activated D-12 frequency. Distortions in the **Race Genetic Imprint**, **caused by Planetary Shield distortions**, severely block natural 12-Strand DNA Template activation, even IF the Planetary Shields could sustain 12-Strand Activated Biology. Without **consistent** use of **DNA Template Bio-Regenesis** technology and related **Core Template Kathara Healing** modalities, **NO human** on Earth **at this time** would achieve **genuine 12-Strand activation** during the *contemporary evolution cycle*.

Competing **FALSE 12-STRAND ACTIVATION PROGRAMS** are presently being run via **unsuspecting** New Age & UFO Movement "Channels & Contactees", by **Jehovian "Bipedal Dolphin People" Anunnaki** (Sirius A, Arcturian, & "*Galactic Federation*") and **Pleiadian-Nibiruian** (Anu-Seraphim Aquatic-ape-hominid) **Anunnaki-Drakonian-Reptile hybrid races**. The largest False DNA Activation-"Ascension" Program is conducted by the by "***Alpha-Omega Templar Melchizedek Anunnaki-Drakonian Alliance***", which is composed of *Centaur & Drakonian Anunnaki races* of Density-2 & 3 ***Alpha Centauri*** and ***Omega Centauri***, the **Necromiton**-(Beetle-Reptile)-**Anunnaki hybrid race** of **Andromeda** ("*Andromies" & "Men-In Black*") and several other related **Fallen Angelic Collectives** following the **Omicron-Drakonian-Zeta-Illuminati** "One World Order" dominion agenda. One of the most prominent expressions of the Alpha-Omega-Centaurian-Andromi Anunnaki-Drakonian-Necromiton collective refers to itself as the "**Archangel Michael**" Matrix, a **Bio-neurological Mass Mind-control Program** run via the Alpha-Omega Collective, that is literally "broadcast into Earth's airwaves to unsuspecting channels" from **Parallel Earth** through the **NDCG**. False 12-Strand DNA Activation Programs are geared toward "**Monadic Reversal**"-reversing the **Fire Letter Sequences** in the Human DNA Templates to create **Reverse Sequence 11-Strand Activation** in humans, so human DNA will **assist the Fallen Angelic mission** of gaining control of Earth's Planetary Shields & Star Gates on a **reverse-11 activation** (34-CCW/21-CW Nibiruian Merkaba) during the 2000-2017 SAC.

Fallen Angelic and Illuminati Human Leviathan races use the **seduction** of false claims of "**Easy DNA Template Activation**" and **false promises of Ascension without providing the details of the MECHANICS by which these dynamics naturally take place. If we know the *mechanics* we can detect when they are being intentionally misused to orchestrate Anti-Christiac Dominion agendas**. The tactics of false "**Quick-Fix Claims**" and false promises are coupled with false "**sweetness and patronization**", in which our egos are fed as we are told "what we want to hear" and "how great and Beloved we are", while **being covertly "railroaded right under our own noses"**. If we do not "**fall for**" the age-old "**Quick-Fix" and "Ego-Pat" Seductions**, we can avert Fallen Angelic and Illuminati manipulation tactics and learn **HOW THINGS REALLY WORK**, so we become **empowered** to set ourselves, and assist others to set themselves, FREE. **We CAN "Activate our 12-Strands of DNA"** (24-48 Strands for Indigos) but it **takes work**, a **labor of Divine Love**, and it requires Divine Sacred Science **KNOWLEDGE**.

DNA Template and Kundalini Activations do not occur via "*wishful thinking*" or "*hopeful intention*"; they are processes of **natural Bio-Spiritual CREATION PHYSICS**, which occur via **educated, conscious direction of energy** and genuine **Spiritual Wisdom**. There is a **natural Divine Right Order of energy mechanics** that governs the manifestation of consciousness in biological form; the **mechanics of this order** must be understood and appropriately applied if one expects to attain *genuine* **Bio-Spiritual Mastery**.

Axis of Particle Spin

E = Earth T= Tara

PE= Parallel Earth PT=Parallel Tara
G=Gaia IG= Inner Gaia
PG= Parallel Gaia

ARPS= Angular Rotation of Particle Spin

ARPS is determined by the core rate of internal fission-fusion within the fixed Partiki Units that form the scalar-standing-wave Template of the dimensional frequency fields. Rate of fission & oscillation increase moving upward through the Dimensional Scale, creating progressively less dense states of matter

Time Vector Blend

Earth Scientists have not yet detected the existence and function of, and relationship between, Ante and Anti-particle fields that have a different angle of rotational axis for particle spin. The core interdimensional Scalar-frequency Templates upon which all matter forms are built cannot be detected through conventional scientific theory.

THE ARTHURIAN MAJI GRAIL KING LINEAGE AND CONTEMPORARY INDIGO CHILDREN

The ancient "**Lost Arthurian Maji Grail King**" lineage is alive and well today, scattered throughout the globe as the **Indigo Children Types 1 and 2**. The **contemporary Indigo Children Types 1 and 2** carry dormant within their cellular memory the **reincarnational heritage** of the Arthurian Grail Kings **Elohei-Elohim** Lyran-Sirian **Oraphim ancestry**. Within their **DNA Templates** they carry the **Universal Fire Letter Sequences** of the **Flame-keeper Melchizedek Cloister Priests**. Indigos **Types 1 and 2**, who have from **24-48 Strand DNA Templates**, are the contemporary incarnations of the **Consummate Signet Councils and Regency Signet Councils of the Rainbow Round Tables** (Angelic Human Universal Star Gate Security Councils of 798,0008C). They began returning into full incarnation about **100 years ago** in preparation for the scheduled **2000-2017 Stellar Activation Cycle** (Star Gate opening cycle). **Indigo Children Type-3**, who have a maximum of dormant **12-Strand DNA Templates**, are the contemporary lineage of the **Noah-Abraham-Moses Pleiadian-Nibiruian Nephilim Jehovian Anunnaki Illuminati** (Sinus A Bipedal Dolphin People Anunnaki and Pleiadian-Nibiruian Anunnaki descent), who entered the **Emerald Covenant** for DNA Template Bio-Regenesis in **1875**. Indigo Type-3s have a **dominant human Oraphim soul co-sharing the body with a Fallen Annu-Elohim Pleiadian-Nibiruian Nephilim soul** that has entered human incarnation for Bio-Regenesis of the **12th DNA Strand Template**, which is missing from the Anunnaki genome.

Indigo Type-3s are the children who have been **targeted** by the recent **Illuminati** false "disease" "**ADD-ADHD Campaigns**" (Attention Deficit Disorder-Attention Deficit-Hyperactive-Disorder"). In this campaign, a **false set of disease criteria** that represent **symptoms of difficulty in 6th DNA Strand Template activation** (common to Indigo-Type-3s) was established by certain **drug companies** on behalf of Illuminati organizations. The "**ADD Railroad" Illuminati Conspiracy** moves silently through **medical, psychiatric and educational systems**, as children displaying the "symptoms" are shepherded into **drug therapy**. The drug therapy **suppresses natural DNA Strand Template activation**, blocking the D-12 sub-harmonics of Inner Christos frequency in the Strand Templates, which allows for covert interdimensional manipulation through the Nephilim portion of the DNA Template coding. **Natural Holistic Healing therapies** are wise options for assisting all Indigo Children Types. Indigo-Type-3s are predominantly **Lyran-Sirian-Oraphim-Angelic Human soul essences** who are assisting in the evolution of the **less evolved, often aggressive, Nephilim soul** with whom they share the body. In some Indigo Type-3s, the Nephilim soul attempts to take over dominion of the body and personality, which disrupts the natural balances of the **bio-energetic field systems, brain chemicals** and **hormonal production**. These **bio-chemical disruptions**, caused by **core essence bi-soul conflict** within the **DNA Template core**, can create occasional or chronic extremes of **mental and emotional polarity**, such as legitimate cases of "Clinical Schizophrenia" or "Split Personality Syndrome".

The **biological and genetic issues** at the root of Indigo Type-3 difficulties have their **origins** within the realities of **SOUL** and the **multi-dimensional bio-energetic anatomy** through which the **consciousness** of the soul enters the body through the **DNA Template core**. As the **causal element** of Indigo Type-3 difficulties emerges from the bio-spiritual Blueprint and energy systems beneath the manifest DNA, the **solution to their challenges** is in maintaining the **natural** energetic alignment of the **D-12 Inner Christos Divine Blueprint** within the **DNA Template core**.

Indigo people of **ALL Types**, and especially **Type-3s** can be assisted by:

- **Frequent use** of the ***Temporary Maharic Seal*** **Bio-Regenesis Technique**
- Opening of the **12th Chakra** 6-inches below the feet
- Progressive use of the **Kathara Bio-Spiritual Healing System® for core template Divine Blueprint alignment.**

Through these **core template restoration technologies**, the Angelic Human Oraphim portion of the Indigo-Type-3's **co-joined hybrid soul** can link with the personal **D-12 Maharic Shield Inner Christos Divine Blueprint**. Establishing and maintaining the integrity of this **tangible**, energetic Inner Christos Divine Blueprint **frequency alignment** within the **DNA Template core** prevents the Nephilim aspects of the soul from gaining digressive control of the body and personality. Beginning core template restoration work while progressively "**cycling off**" (not abruptly stopping) **drug therapy** affords the Indigo Type-3 who has entered Drug Therapy treatment the best opportunity for **personal safety** and **DNA Template recovery**.

Various other **Holistic Healing** modalities and **life-style adjustments**, such as the following suggestions, can help bring out the best in any Indigo Child.

- **Toning** and **Color Therapy**.
- **Controlled Breathing** Exercises.
- **Energy Running** and **Meditation Techniques**.
- **Aromatherapy**.
- Light use of **Vitamins** and **Herbal Supplements**.
- Frequent **physical exercise**.
- A **diet** of healthful organic, **chemical free foods** with **little dairy or red-meat** content. Smaller portions of healthy foods eaten more frequently.
- Daily **time away from high-energy situations** such as those found in **crowds or groups**. **Protection** from harsh, disturbing or "**emotionally charged**" **environments**; they naturally, subconsciously "**model**" the mental and emotional climates around them through **direct bio-energetic field co-resonance**, often taking on the **repressed energies** of others and expressing them in **amplified form**.
- **Quiet, low-stimuli home environments, reduced** exposure to **television** and **computer screen** viewing and increased daily exposure to **natural sunlight and moon light** (Indigos are **more sensitive** to light, sound, electromagnetic fields and the natural environment than are other humans).
- Non-dogmatic, non-judgmental, explorative **spiritual study** and **inner self-exploration** through writing, art, music, dance, creative visualization, dream exploration and trained Consciousness Projection (Out-of-Body Travel) using the Temporary Maharic Seal.

In childhood, and sometimes in adulthood, most Indigos need gentle, loving, affirmative, but **not authoritarian**, "**Coaching Assistance**" in learning to **focus their energies and attention**. They are more **acutely sensitive**, on biological, emotional, mental and astral levels, to the **peripheral environment** and **energy fields** around them and to the **inner perceptions and experiences** within them. Due to their **genetic design**, they often experience pain, pleasure, fatigue, light, sound, emotion, temperature and vibration **much more intensely** than other humans. These elements of experience can be **perceptually distracting** to Indigos. Indigos benefit by **reduction of distracting elements** in their environment (accommodation) and through progressive, low-key "**coaching**" using the "**Buddy System-WE DO**" approach. Consistent, frequent, loving **verbal redirection of their focus of attention** to the desired application, applied simultaneously with gentle, loving, **direct physical touch**, and "**focusing WITH them**", rather than "telling them to focus" in a specific way, **allows** Indigos to adopt the "**posture of focus**" held by the "coach". Through such "**Focus Modeling**" the Indigo can progressively **gain the energetic cellular imprint** through which they become able to more easily regulate their own mental focus and bio-energetic fields to the desired, "**modeled**" focus of conscious awareness (adaptability).

One Melchizedek **Cloister** Ordination level contains **12 Melchizedek Initiation levels**. Contemporary "**Melchizedek Ordinations**" offered by the **patriarchal Templar Melchizedeks**, AKA **Anunnaki-agenda Melchizedek Priests**, represent **level-1 ordination** only, and **do not** transmit the frequencies for **full 12-Strand activation** as the **Templar Melchizedek** DNA Template **cannot activate beyond Strand-11**. Only **Melchizedek Cloister Level-4 Consummate** through **Level-6 Eckar Ordinate Ministers** can transmit the **full 12-code frequencies** for genuine accelerated 12-Strand activation. Presently the **Azurite Melchizedek Cloister Emerald Order** (MCEO) is the **only physical organization** on surface Earth that is **not of Templar Melchizedek-Anunnaki** descent. The **Azurite MCEO** is the **Order of the Yunasai**, the non-patriarchal **Yanas MC** from the Primal Sound Fields beyond the 15-Dimensional Time Matrix. The **Alpha-Omega Templar Melchizedek Order** is that of the **Anunnaki Priesthood**, which is **intended** to work under direction of the **D-13 "Great White Brotherhood" true YHWH Host Matrix**, with the primary purpose of assisting in **DNA Template Bio-Regenesis of Anunnaki and Human-Anunnaki hybrid** race strains. When the Alpha-Omega Templar Melchizedek Order is **honoring** their originally stated commitment to the Founders' Emerald Covenant agreement, as they **sometimes** do, they work **cooperatively** with the **Azurite MCEO**, the Density-5 **Breanoua Orders** and the **Yanas Melchizedek Cloister Order of the Yunasai Ascended Masters** collectives from beyond the Time Matrix. When honoring the Emerald Covenant **Christos Agenda** Alpha-Omega Order promotes the Founders' egalitarian **Maharata** teachings of the **Inner Christos**. When the Alpha-Omega order **breaks their Emerald Covenant commitments** in favor of supporting the Fallen Annu-Elohim **Anti-Christos Agenda**, as **historically they have repeatedly done**, they **misuse the Melchizedek Initiate System** as a **tool** for covert manipulation of humans. When the Alpha-Omega Order Anunnaki Templar Melchizedek Priesthood is working co-operatively with the Founders and the Yanas Ascended Masters from beyond the Time Matrix, they **acknowledge, validate** and **work cooperatively** with the **Yanas' MC Order of the Yunasai** and its **Azurite MCEO representatives**.

Alpha-Omega Anunnaki misuse of the Melchizedek Initiate System is characterized by transmissions of frequencies that expedite **reverse-sequence activation** of **11 Strands** of the DNA Template, while simultaneously transmitting **frequency implants** that **block 12th Strand and higher activation**. Reverse sequence 11-Strand activation progressively and intentionally breaks the electromagnetic connection between the DNA Template and the personal **Monadic Imprint** that holds the **personal D-12 Maharic Shield Christos Divine Blueprint**. This practice, called **Monadic Reversal**, is used to **trick humans** into subliminally serving the Fallen Annu-Elohim agenda, as reverse-activation of the 11 Strands allows for **progressive D-11 Fallen Annu-Elohim infiltration of the DNA Template** and consciousness. Progressively the Fallen Annu-Elohim present themselves as the **false inner voice of "spiritual guidance"**, while **"jamming the internal circuits"** for hearing the genuine **"Still Small Voice Within"** of the **natural personal Internal Christos**. If an individual's DNA Template coding or life status is valuable to the Fallen Annu-Elohim agenda, Monadic Reversal will be used to orchestrate full **Essence Displacement**, or "possession" of the physical body by Fallen Annu-Elohim consciousness. Through **subtle personal contact** or by receiving Melchizedek **Monadic-Reversal Ordination** from other Melchizedeks, many **well-meaning humans** are tricked into **unknowingly serving as Anunnaki Templar Priests**, **inadvertently** passing on the codes of Monadic Reversal to all whom they ordain or initiate. The **Fallen Seraphim D-10 Drakonians** also use the Monadic Reversal tactic, but due to their more limited **10-Strand DNA Template** capacity, they are far less skilled in misusing the Melchizedek Initiate System.

Unless **full Monadic Reversal and possession** have occurred, **frequent use** of the Founders' **Temporary Maharic Seal Bio-Regenesis Technique** will progressively **reverse and heal the effects of Monadic Reversal**, restoring the integrity of the **personal D-12 Maharata Internal Christos Divine Blueprint**. Restoration of the personal Divine Blueprint returns the **activation sequence** of the DNA Template to its **organic order**. The misfortune of inadvertently receiving a Melchizedek Monadic-Reversal ordination or initiation can be **used to personal advantage** with employment of **DNA Template Bio-Regenesis** technology. The **Temporary Maharic Seal** will progressively **restore the natural activation sequence** of the Internal Christos Blueprint to the DNA Template, while the strands retain the level of frequency initiation they originally received. When covertly running the Fallen Annu-Elohim Anti-Christos **human genocide** Jehovian agenda, in resistance to the Founders' Emerald Covenant, the Alpha-Omega

Copyright A & A Deane, 2001, All Rights Reserved

Anunnaki Templar Melchizedek Order promotes worship of **external patriarchal** Jehovah, YHWH, Buddha or Anu gods. They seduce followers into surrendering their personal power to the **false security** of "angelic" and "ascended master" **imposters**, and use **Holographic Insert** technology (*ref: Voyagers Volurne-1*) to dazzle humans with contrived **false religious or spiritual experiences**, while hiding the Founders' true teachings of **Inner Christos Mechanics**. One of the most common tactics of aggressive manipulation is the promotion of the "**Just Open Your Heart**" philosophy. This ploy includes the **patronization** of "not worrying your little mind" about the issue of learning to handle your 15-dimensional anatomy: a standard lesson that any Christed being is required to learn in order to achieve full self-sentient mastery. When running the Anti-Christos Agenda, the Alpha-Omega Order will assure human contacts that the "**angels**" **will protect** them or that "**thought-adjusters**" (AKA Fallen Angelics trained in biologically induced **mind control**) will "**align them with God and ascension**". They promote the idea that "all ascension requires is being a good person" and handing your personal power and responsibility for your evolution over to **some force outside of yourself**. The "**Just Open Your Heart**" **ploy** refers to **opening your 4th Heart Chakra**, which when done without the Founders' Temporary Maharic Seal before full sustained 12th-strand activation is achieved, opens the **D-4 Astral Body** level of the auric field to direct Fallen Angelic **cording, frequency implants and infiltration**.

Christos Agenda Melchizedeks teach opening of the Heart Chakra **only with conscious activation** of the natural **Temporary Maharic Seal**, which draws the **D-12 frequencies of your own Christos Blueprint** into the body to stimulate activation of the D-12 sub-harmonics in the each strand of the DNA Template. This activates a natural **D-12 Immunity Field** within the DNA Template, Bio-energetic Field and Chakra System, which neutralizes the intended effects of harmful covert implants, field infiltration and cording. The only reason Fallen Angelics can achieve such power to create **literal "soul rape"** of humans is that humans have been **intentionally denied access** to the memory and clear, undistorted knowledge of basic Inner Christos Mechanics. **Ignorance** of the "**nature of the game**" of multi-dimensional reality and of how to secure our personal bio-energetic fields through the innate Inner Christos Blueprint is the **only true vulnerability** Angelic Humans possess. **Knowledge**, and a willingness to **take responsibility for ourselves** and the natural mechanics of our 15-dimensional anatomy, are the methods by which we can **disengage and prevent** continued manifestation of Fallen Angelic infiltration and manipulation.

Sadly, as we allow ourselves to **play the "unwitting victims"** to Fallen Angelic manipulation, we progressively **assist them in fulfillment of their Anti-Christos Agenda on Earth**. The Fallen Angelics' historical and continuing interest in human genetics is not directly personal in nature. The **human biology** carries the **DNA Template Signet Codes** (*ref: Chapter-18*) that correspond to activation and direction of Earth's Star Gates and Planetary Shields. **The human biology is a TOOL for Fallen Angelics**. If they can infiltrate the human DNA Template, block activation of the 12th or higher strands and activate strands 1-11 in reverse sequence, they can **anchor their consciousness on Earth** within the human body. Once electromagnetically bonded to the human biology via the DNA Template, the Fallen Angelic consciousness can run the **Rite of a RRT** during a **SAC**, progressively creating **reversal of the natural activation sequences** in Earth's Star Gates. Through creating **Monadic Reversal of the planet's Core Manifestation Template**, they can fully sever the natural electromagnetic link between Earth and the D-12 Shield of Aramatena Universal Christos Blueprint. Once this is accomplished, Earth's Star Gate system can be used as an **Anti-Christos weapon** to destroy **Universal Star Gate-12**, sealing our Time Matrix at D-11 under Fallen Angelic dominion. This is precisely the core motivation behind Fallen Angelic manipulation of humans, the event the Angelic Human guardian race was created to prevent through fulfillment of the Christos Realignment Mission.

Levels of Ordination in the Melchizedek Cloister

Initiate: One who has been born with or accepted transmission (Melchizedek Initiation) of the morphogenetic field *imprint* of the full 12-Strand DNA Silicate Matrix and has entered the path of ascension through the Melchizedek Priesthood or the Melchizedek Cloister.

LEVEL 1 - *Minister*: One who has accepted Ordination through the Melchizedek Priesthood or Melchizedek Cloister, by which the Rishi level of personal identity is bonded to and activated within the DNA to begin the process of activating DNA Strands 4-6 for the process of Alphi-Nova Body merger and Soul Integration, through which the Soul Awareness embodies within the physical body.

LEVEL 2 - *RaB'nai*: One who has accepted Ordination through the Melchizedek Cloister for the purpose of accelerating the process of Higher Identity embodiment, by which the Over-Soul Identity begins integration with the conscious personality for acceleration of the Soul and Over-soul integration process and merger of the Betcha-Nova Body. Begins activation of the 7-9 DNA Strands, which allows the individual to become a transmitter of the Silicate Matrix Imprint, to conduct level-1 Ordinations for others.

LEVEL 3 - *Regent*: One who is born with a contract to embody as a full Avatar during the present incarnation. Avatar Contracts, which represent activation of DNA Strands 10-12, are decided prior to birth in agreement with the Higher Councils of Light (Meta and Ultra-terrestrial Identity Gestalts from dimensions 13- the Eckatic Level.) Not everyone has such contracts of Avatar embodiment. One can awaken to Avatar Contracts through working through the previous levels of Ordination. It is between "you and God". Avatar embodiment represents merger of the Mahara Hova Body and expansion into the "Christed" identity level.

LEVEL 4 - *Consummate*: One who is born with a contract to Anchor the Rishi Identity (Dimensions 13-15) into the bio-energetic field of the body, following fulfillment of an Avatar contract. Merger of the Raja Hova Body.

LEVEL 5 - *Commodore / Elder Consummate*: One who has achieved full Ascension to the Triadic or Polaric Matrix in a previous lifetime and has returned carrying the "Cap Stone" codes of ascension within the DNA and morphogenetic field. Merger of the Tanotra and DiOmni Hova Bodies. Ascended masters levels 1 and 2.

LEVEL 6 - *Eckar*: One who has achieved full ascension to the Eckatic Matrix in a previous lifetime and has returned carrying the "Crown Jewel Cap Stone" codes of ascension to the Eckatic Matrix within the DNA. Ascended Master level 3.

Azurite Melchizedek Cloister Emerald Order Weddings – The Ha-Na-Rite

In October 2000, the Azurite MCEO, Sarasota FL, was given a translation of an Ancient Sacred Rite that was once practiced here, in the pre-Atlantian crystal Temples of the *Amenti Gru-AL Point*. This sacred ceremony is called "**The Ha-Na Rite**", which translates into the English language as "**Co-joining of the Divine Complements**". The *Ha-Na Rite* is a modern rendering of the original ***Emerald Order Melchizedek Cloister "Wedding Ceremony"***, as it was practiced by Temple Cloister Races 200,000 years ago on Earth, and is still used today among the *Halls of Amenti Priests of UR Guardian Races* of Inner Earth. The *Ha-Na Rite* is an outdoor spiritual ceremony, initiated at Sunrise and completed at Sunset, on the chosen "Day of Union". The spoken ceremony consists of a set of beautiful, egalitarian spiritual vows called the **Trinecian Covenants** ("Trinity of the Eternal Flame") that are taken between life partners and God/ "Great Spirit", as an outer representation of their spiritual commitment to move forward as life partners in "Divine Right Order". The ceremony is presided over by one male and one female Ordained Melchizedek Cloister Minister. It includes a "**Water Baptism**" symbolizing the "New Birth" of 2 individuals into the "Trinity" of their shared life path, ("*Two become Three within the ONE*) and a unique **Ring Exchange** to unite the spiritual and physical hearts. Azurite MCEO ministers performed this beautiful Matrimonial Ceremony in October 2000, for the first time in human culture since 9558BC. Azurite MCEO now offers the Ha-Na Rite Wedding Ceremony to couples desiring to approach their special day from the spiritual perspectives of the **Law of ONE**. If the Ha-Na-Rite is desired, you can follow the link on the Azurite Press web site to the "Wedding Planner" page to be connected with a minister who can perform the Rite.

Azurite Melchizedek Cloister Emerald Order Conjugate Baptisms-The Mahara Rite

Like the *Ha-Na Rite Matrimonial Ceremony*, the **Mahara Rite** emerges from the ancient pre-Atlantian and Inner Earth Amenti Gru-AL Point Crystal Temples. The *Mahara Rite* or **Conjugate Baptism** is an outer symbolic representation of an individual's pledged Union with the **Inner Christ and I AM God Presence**, or the pledge of a child's parents to raise their child with comprehension and practice of the **Law of ONE**. The *Mahara Rite* involves a bio-energetic field Kee-Ra-ShA frequency transmission from the presiding Melchizedek Cloister Ministers, which serves to begin and accelerate the process of **Bio-Regensis** of the "Christed" human 12-Strand DNA Template, through opening chakras 12-13 and activating the frequencies of the personal 12th-Dimensional Maharic "Christos" consciousness within the body and awareness of the incarnate individual. The *Mahara Rite* includes a "**Water Cleansing**" and the personal choosing of one's **Spiritual Name** to represent the personal "Christos" identity until the full Christos name is privately revealed to the individual through the Inner Psyche. Azurite MCEO ministers can perform the *Mahara Rite Conjugate Baptism* for adults, or parents of children, who desire to deepen their commitment to Spiritual Actualization within the tradition of the **Law of ONE**.

Azurite Melchizedek Cloister Emerald Order Ordinations

Azurite Melchizedek Cloister Emerald Ordinations represent a **bio-energetic field process of interdimensional physics**, through which the scalar-wave blueprint of the original human **Silicate Matrix** "Crystal Gene" 12-Strand DNA Template is restored to its organic order, and once restored, dormant strands of the DNA Template are systematically brought into accelerated, but natural activation. Activation of the Silicate Matrix expedites the organic dynamics of forward evolution by progressively creating embodiment of an individual's higher dimensional "Spiritual' consciousness, while preparing the body for **Transmutation Dimensional Ascension** into Silica Based Biology of the eternal "**Angelic Human**" form. The **Melchizedek Cloister Emerald Order Ordinations System** differs from other Melchizedek Ordinations Systems in that most other Melchizedek Ordinations work through a series of **7-12 "Initiations"** then consummate in a **1-Degree Ordination**. Such systems represent the **Initiate-Degree System**, which begins 12-strand activation, but does not expedite its process sufficiently to enable an individual to achieve Ascension in the present lifetime. The Initiate-Degree System completes with activation of the 6th DNA Strand Template and embodiment of the dimension 4-6 Soul Matrix identity.

The *Melchizedek Cloister Emerald Order Ordinations System* is the **Ordinate-Degree System** of the **Emerald Order Melchizedek Cloister Khundaray Priests of UR** ("Keepers of the Eternal Flame"). It begins with1st Degree Ordination, where the Initiate-Degree System leaves off, then continues through 5 Progressive levels of Ordination, through which the 6th – 12th DNA Templates activate, (in Indigo Children the DNA Template can activate to 48-strands). As an Ordinate-Degree Minister progresses beyond Soul Matrix integration, the frequencies of consciousness from the Oversoul, Avatar, Rishi, Entity, RishA and Eckar identity levels of dimensions 7-15, plus those of the Khundaray, can systematically embody, awakening the biological potentials for full transmutation of matter density. Genuine Melchizedek Ordinations can be performed only by **2nd – 6th Degree Ordinate Ministers**. After achieving 2nd-Degree Ordination, a Cloister Minister can ordain only the Degrees below their position. **This "hierarchy" of Ordination is not a value judgment placed upon an individual by the MCEO. Ordination Degrees correspond to the DNA Template activation level of the Minister, which determines the level of interdimensional scalar-wave frequency the Minister is able to embody and transmit through the bio-energetic field to create DNA Template realignment and activation in others**. Melchizedek Cloister Ordinations can be conducted individually or in large groups of people, depending upon the frequency-transmitting capacity of the Ordaining Minister's DNA Template. **Azurite MCEO** is presently the only surface Earth organization authorized by the Emerald Order MC Priests of UR to offer the Ordinate-Degree System. This is not due to favoritism or discrimination toward other groups, but rather due to the Incarnational **Cloister Soul Contracts** held by the **Indigo Children Founding Ministers** of this organization. Azurite MCEO founders possessed a minimum of 1st Degree Ordination/ 6th-DNA Strand Template activation at birth, and have activated to a minimum of 2nd Degree/9th Strand Template activation in adulthood. Consummate Azurite Ministers are able to transmit the frequencies of the Emerald Order Yanas Codes, (specialized DNA Template scalar-wave forms corresponding to the Inner Earth Amend Priests of UR), through which others can acquire these codes for entry into the accelerated Ordinate-Degree System. This allows Azurite Ministers to go forth and transmit Ordinations for others. Anyone can enter the Melchizedek Cloister Ordinate-Degree System, to simultaneously receive the Initiate-Degree and the beginning of the Ordinate-Degree frequency transmissions for expedited, accelerated **Bio-Spiritual Actualization**. Ordinations are always **free of charge** and are available to anyone who desires. **Ordination is a promise shared between an individual, their Inner Christos and God, a private relationship not regulated or directed by Azurite MCEO clergy**.

☆ What is Religion and Where did it come from?

- Human history on Earth extends back much further than the ancient Sumerian and Egyptian cultures of historical record. For thousands of years, legends, myths and lore have existed in which the realities of advanced pre-ancient human civilizations were viewed in terms of legitimate historical record. The legends of the sunken civilization of Atlantis are only the beginning of our re-acquaintance with the lost pre-ancient history of the human race. Since the final cataclysm of Atlantis in 9558BC, great efforts to implant disinformation and bury true knowledge of pre-ancient human civilization have been made by certain interdimensional visitor forces.

- During early Sumerian, Egyptian and Eastern cultures information regarding the lost history and the nature of the human condition was brought to Earth during different time periods, by various factions of interdimensional visitor races from Densities 2, 3 and 4. Numerous visitor factions from Densities 2 and 3, who were interested in exploiting Earth's territories for their own purposes, executed genetic manipulation and provided disinformation and false history through which they could appoint themselves as false "gods and creators" over the Earth human races. Some visitor races from Densities 3 and 4 periodically intervened in an attempt to restore the lost knowledge of human evolution, so humanity could remember and fulfill its original Creation Contract.

- Our present understanding of the past and of the true nature of the human condition has been reduced to speculation, because the true records of our past and the legitimate story of human origins have been lost among many centuries of intentional disinformation.

- Human history is not a mystery; it only appears to be from our limited earthy perspective. Most of the interdimensional visitor races of the higher dimensional Density Levels know the truth about humanity's creation. Only some visitor races desire to help us remember.

- Throughout human evolution, even in pre-Atlantian times, interdimensional races brought teachings to earth in order to influence and direct the course of earth-human evolution. Three of the primary interdimensional visitor races involved with pre-ancient human culture were the Elohei Emerald Order, Bra-ha-Rama Amethyst Order and Seraphei Gold Order Breneau collectives from Densities 4 and 5. The 3 Breneau Orders are the 3 Founders Races that seeded life into our Time Matrix during its last seeding 950 Billion Years ago (Earth time).

- The Breneau Order races visited humanity during different time periods in an attempt to keep the history of humanity's original Creation Contract and intended evolutionary destiny alive among Earth human races. The original Co-evolution Agreement made

between the Breneau Races in seeding our Time Matrix was called the Emerald Covenant. The original Emerald Covenant was made 950 Billion Years ago among the Density-5 Breneau Orders. In this agreement the Breneau Orders agreed to create various Founders Races to seed life into the Density Levels of our Time Matrix, and to create peaceful, co-evolution to ascension for all of their stellar races.

- The Elohei Emerald Order Breneau were appointed as the original Security Team in our Time Matrix. They were charged with ensuring the safe and egalitarian evolution of all life forms in the Densities and employing the natural laws of Unified Field Physics (Law of ONE) to maintain the structural integrity of our Time Matrix.

- The Density-5 Breneau Orders were directly involved with creation of the original Angelic Human lineage of Density-2 Tara 560 million years ago.

- At various times in our Time Matrix, the Breneau Orders issued restatements of the Emerald Covenant Co-evolution Agreement, to assist the many stellar races of the Densities in fulfilling their intended evolutionary destiny of conscious ascension from our Time Matrix.

- The creation of the Angelic Human lineage on Density-2 Tara 560 million years ago occurred as a result of the Emerald Covenant restatement. The Angelic Human lineage was created to serve as the Security Team for the Interplanetary Templar Complex (15-dimensional star gate system) and to assist the digressing races of our Time Matrix to reclaim their original objective of conscious, biological ascension.

- Since the first (of 3) Seedings of the Angelic Human on Density-1 Earth 250 million years ago, the Breneau Orders and stellar races of the Emerald Covenant have periodically interacted with earth humans. Their interaction was to assist humans in evolving to fulfill their original Creation Commission as guardians and keepers of the Interplanetary Templar Complex, and to reclaim the Angelic Human heritage and evolutionary objective of conscious ascension from our Time Matrix.

- In the 3rd Seeding of the Earth human lineage, of which contemporary humanity is a part, the Breneau Orders issued a restatement of the Emerald Covenant Co-evolution Agreement on Earth, 248,000 years ago. Intended invasion of Earth by the Anunnaki races threatened to again destroy the earth human lineage as it had done in the 1st and 2nd Seedings. Restatement of the Emerald Covenant was intended to stop war on Earth and Tara, between the Density-2 Sirian-Anunnaki race lines of the fallen Density-4, dimension-11 Annu-Elohim and the Densities 1 and 2 human lines of the Lyran-Sirian Breneau Orders. The Emerald Covenant restatement was intended to allow Anunnaki races to hybridize with certain earth human lines, to assist advancement of their genetic

evolution, so all earth human races would be re-evolved to their original commission as keepers of the Interplanetary Templar Complex.

- When the Breneau Orders issued restatement of the Emerald Covenant 248,000 years ago, the Seeding-3 human Seed Race, called the Urtites, and several now Inner Earth Cloister Human races from Seeding-2, called the Breanoua and the Melchizedeks, populated certain regions of surface Earth. Along with the human lines, several factions of Anunnaki and Drakonian races (of the dimension-10 fallen Seraphim) had invaded Earth's territories, intending to exterminate the human lineage and seize control of Earth's Planetary Templar Complex (star gate system). The Urtites, Cloister Humans and several Anunnaki races entered the Emerald Covenant with the intention of upholding peace and securing Earth's Templar Complex against intended Drakonian invasion.

- With restatement of the Emerald Covenant 248,000 years ago, the Density-4 Lyran Anuhazi and Densities 2 and 3 Sirian Azurites (Sirius B "blues"), on behalf of the Density-5 Breneau Orders, presented a gift to the Earth human guardian races of the Emerald Covenant. The gift was a massive library of information detailing the history of our Time Matrix, Creation Physics and the mechanics of operating the Interplanetary Templar Complex. This gift existed as a set of 12 small holographic recording discs called the Cloister-Dora-Teura Plates or "CDT-Plates". Accompanying the CDT-Plates was a corresponding set of 12 larger discs called Signet Shields, which were frequency generation devices through which the 12 Primary Star Gates of the Interplanetary Templar Complex could be accessed. As well as serving as an electro-magnetic storage library, the CDT-Plate discs served as the activation transmitters through which their corresponding Signet Shields could be activated to gain star gate access from Earth.

- The subterranean Temple cities of the Urtites and Cloister races were destroyed in a major cataclysm 210,216 years ago. At this time, the Densities 2 and 3 Sirian Azurites were commissioned by the Density-5 Emerald Order Breneau to remove the CDT-Plates and Signet Shields to Density-2 Sirius B for safe keeping. The Azurites were to return the gifts once human evolution on earth again progressed.

- Urtite and Cloister Human civilizations returned to Earth once the planetary grids re-stabilized. The Azurites returned the Signet Shields over to the Urtites and Cloisters about 200,000 years ago, but kept the CDT-Plate activators under protection on Sirius-B.

- The beginning of what has become "religion" on Earth started with the Urtite and Cloister Earth Templar guardians, who maintained open relationship with the Azurites of Sirius B. Members of the Urtite and Cloister races that were entrusted with the sacred knowledge of the CDT-Plates became known as the earthly Priests of Ur, a reflection of the Priests of UR guardian organizations from Tara. The Priests of UR were responsible for ensuring

that the Signet Shields were not misused by fallen Anunnaki and Drakonian forces involved with Earth. The Priests of UR were given access to the CDT-Plates of Sirius B on an as-needed basis.

- The Priests of UR advanced the culturalization of the earth human populations in preparation for the scheduled 3rd Seeding of the 12-Tribe human Root and Cloister Races (this began 75,000 years ago with the Ur-Antrian Cloister, followed by their Lemurian Root Race 73,000 years ago). In cooperation with the Sirius B Azurites, the Priests of UR taught the history of our Time Matrix, Creation/ Ascension Physics and the mechanics of the Planetary Templar via verbal translations of data from the CDT-Plates.

- The spiritual-science teachings of the CDT-Plates were provided to assist the human races of the 3rd-Seeding in their intended evolution to reclaim their heritage of keepers of the Interplanetary Templar Complex and to regain their freedom from Density and mastery of the Time Matrix via Ascension. Dispensations of knowledge from the CDT-Plates, via the Priests of UR, became the first "religion" among the human populations of Earth.

- About 73,000 years ago, 6 of the CDT-Plate activators were returned to the Priests of Ur, to allow them direct access to star gates 1-6 in the Interplanetary Templar Complex via the first 6 Signet Shields that were in their care. The Priests of Ur entrusted members of the Ur-Antrian Cloister human race with guardianship of the 6 CDT-Plates, so they could be used directly for advanced genetic acceleration of the Ur-Antrians Lemurian Root Race.

- About 60,000 years ago, the Ur-Antrians became infiltrated by certain Nephite human lines (Anunnaki/Drakonian/Cloister human hybrid race line from 150,000 years ago), and began using the knowledge of the Planetary Templar Complex from the 6 CDT-Plates to allow Sirian-Anunnaki infiltration of Atlantis and the Planetary Templar Complex.

- Following the Atlantian destruction of the Lemurian continent in 50,000 BC and fall of the Atlantian continent in 28,000 BC, 2 of the 6 CDT Plates of Lemuria were in possession of the corrupted Atlantian Priesthood (4 CDT-Plates were secured by the Azurites). Atlantian culture was rapidly being infiltrated by Anunnaki forces, and hybridization programs that violated the Emerald Covenant and compromised the integrity of human genetic evolution were instrumented via knowledge gained from the 2 CDT-Plates. Again the Breneau Orders, Azurites, Priests of UR and races of the Emerald Covenant made attempts to reinstate the Emerald Covenant on Earth and in Atlantis.

- In 22,500 BC the hybrid Lyran-Sirian-Oraphim/Breanoua and Melchizedek Cloister race called the Eieyani Council (the "primary "Christiac" line on Earth, now called Indigo

Children) was seeded on Earth in what remained of the Lemurian islands. The Eieyani were intended to assist the Azurites, Priests of UR and humans in securing Earth's Planetary Templar Complex and regaining freedom from digressive Anunnaki forces.

- In 22,340BC the Azurites commissioned a Density-2 Anunnaki named Thoth, who was in support of the Emerald Covenant, to serve as an Emerald Covenant representative among the primarily Annu-hybrid Atlantian priest cast. Thoth was commissioned to secure the 2 CDT Plates held by the Atlantian priest-cast and to bring the pure teachings of the CDT-Plates back into the Atlantian priesthood. The CDT-Plate teachings entrusted to Thoth were intended to be ORAL translations only, to prevent corrupted portions of the Atlantian Priest-cast from using CDT-Plate Templar knowledge to fulfill their One World Order (OWO) dominion agenda. When Thoth defected from the Emerald Covenant he betrayed the Founders, translating CDT-Plate-11 into written text, distorting the Templar Mechanics to Anunnaki creed, and gave the texts to the corrupt Atlantian Annu-Melchizedek Priest-cast to rally their support by giving them Templar Power to fulfill OWO agenda. These texts became known as "The Emerald Tablets of Thoth the Atlantian".

- In 22,328BC Thoth, a then-respected member of the Priests of UR Melchizedek Cloister Priesthood, became torn over political race affiliations and sided with infiltrating Density-2 Nibiruian Anunnaki races. Thoth used the Planetary Templar mechanics of the CDT-Plates to assist the Nibiruians to take control of Earth's grids and turned the 2 CDT-Plates over to the leaders of the anti-human Nibiruian Council of Nine. As a result of Thoth's actions, and those of other corrupt Atlantian Temple priests, Pleiadian-Nibiruian-Anunnaki control-agenda forces gained control over Earth's Planetary Templar Complex via the 4th - Dimensional Solar Star Gate-4. Under Nibiruian control, Earth was unable to commence its scheduled 22,326 BC Stellar Activations Cycle and opening of the Halls of Amenti star gates and further genetic mutation of the human genome ensued via Atlantian Anunnaki manipulation. During this period of Atlantian history, the once pure freedom teachings of the CDT-Plates were intentionally distorted; the history of our Time Matrix was edited and convoluted to make Density-2 Anunnaki races appear as the "gods and creators" of humanity. The sacred science teachings were held by the corrupted Atlantian Priest cast and employed as a distorted spiritual dogma to control the masses. "Religion" became a Mass Mind Control Dogma.

- As the Pleiadian-Nibiruian-Anunnaki and Nephilim races controlled Earth's grids from Nibiru, the remnants of the Eieyani Council and Emerald Covenant races continued to attempt assisting earth populations to gain freedom from digressive Anunnaki control. The original oral traditions of the pure CDT-Plate translations were again making a comeback among Earth cultures and the Azurites and Eieyani were making headway in freeing regions of Earth's Templar complex from Nibiruian control.

- In 9558BC Atlantian-Annu races attempted to reinstate their global control from Atlantis, by trying to take control of Earth's Templar via the Arc of the Covenant portal bridge. This resulted in the final sinking of the 3 Atlantian Islands and a global cataclysm that became known as "The Great Flood" in Biblical stories. In 9540BC, Emerald Covenant races, via the Pleiadian Council of Star-Gate-5 Alcyone, had to instill a "Frequency Fence", to block Earth's Templar Complex from being overexposed to interdimensional frequency resulting from the Atlantian cataclysm. This alteration to Earth's grids, initiated from the 5th-dimensional time continua of Density-2 Tara, created further malfunction and star gate blockage in Earth's Templar Complex and greater repression in the human DNA Template, locking Earth and the human perceptual range into single vector, 3-dimensional earthly reality.

- (Along with other events of paramount importance, the 9540BC Frequency Fence was released on January 1st 2000, allowing for reactivation of Earth's Templar Complex and possible Bio-Regenesis of the original Angelic Human 12-Strand DNA Template.)

- Earth cultures were resettled on Earth from Inner Earth exile following the Atlantian cataclysm of 9558BC, without advantage of interdimensional Planetary Templar Complex technologies. Emerald Covenant races assisted human and Annu-human civilizations to rebuild, with the cultural hub in the area of Giza Egypt, where the original Pyramid Teleport station had been built in 46,459BC.

- The Pyramid Complex of Giza was rebuilt around 10,500 BC, following Anunnaki attack, and again rebuilt around 9,000 BC following the cataclysm of Atlantis. The Sakkara, Egypt pyramid complex was first constructed by the Eieyani races after Atlantis as a direct link to the remaining Lemurian Islands and Sirius B Star Gate-6.

- Following the Atlantian cataclysm of 9558BC, Emerald Covenant, Pleiadian-Nibiruian-Anunnaki and Inner Earth Drakonian Nephedem human forces attempted to direct the course of human evolution. The Nibiruians, Annu-Melchizedek and Ur-Antrian Cloister human cultures from Inner Earth seeded Sumerian cultures, utilizing the distorted teachings of the altered Atlantian Emerald Tablets saved from Atlantis to reinstate their anti-human control agendas. They were later infiltrated by Drakonian-human Nephedem and Necromiton Annu-Drakonian-human Inner Earth race lines and their agenda shifted from Annu dominion of Earth's Templar Complex, to intended Drakonian Necromiton dominion of Earth, humans and the Annu races.

- Nibiruian Anunnaki forces, some of whom had a change of heart after Atlantis and Drakonian infiltration of Sumerian culture, entered the Emerald Covenant Co-Evolution Agreement. Around 8,550 BC the Nibiruian-Anunnaki gained strength in Egypt via visitations from and periodic ruler ship by their Density-2 representative, Thoth, as well

as Isis and Osiris (Density-2 immortals) and various others who became depicted as gods in ancient Egyptian religion. Some again broke the Emerald Covenant to join forces with other Anunnaki infiltration campaigns emerging through chosen families of the Hebrew peoples.

- Further Anunnaki infiltration of Sumerian and Egyptian cultures emerged as the control agenda Pleiadian-Nibiruians gained reinforcements from the Density-4, dimension-11 fallen Annu-Elohim, and began a campaign of hybridization through certain families of the Hebrew peoples (Hibiru and Melchizedek Mixed-Cloister Race from Seeding-2).

- The externalized, vengeful, patriarchal, "father god" concept, and the "Noah" and "Abraham" stories were introduced by the control agenda Nibiruian-Anunnaki, along with further distortions of the CDT-Plates teachings, in an attempt to hijack Earth-human evolution into full Anunnaki hybridization to eventually gain full dominion over Earth's Planetary Templar Complex. This set the beginnings of distorted teachings in the Hebrew and later Christian faiths. The Nibiruian Anunnaki superimposed their own contrived history of human origins and the Jehovah God, and their bias against both Emerald Covenant and Drakonian-hybrid races, within their controlled human cultures, intensifying the Anunnaki persecution of matriarchal, earth-spirituality religions that had re-emerged from the Lemurian descendent tribal cultures of Inner Earth.

- Since the fall of the Atlantian Islands in 9558BC, the evolution of human religion on earth became a battleground of competing forces, each hiding and distorting the realities of human history to suit their intended control agendas. Emerald Covenant races succeeded for a time in disrupting control agenda Anunnaki infiltration of Egypt through their original stronghold at Sakkara and later through agreements with Thoth and the Nibiruian Council of Nine. The Nibiruian Council of Nine had reluctantly re-entered the Emerald Covenant following the Drakonian Necromiton race infiltration of Sumerian and Egyptian culture. (The Nibiruian Council needed Emerald Covenant races' assistance to evolve their digressing earth Annu-hybrid races). Thoth left Egypt around 3115BC, for a time serving as leader and teacher within Mayan culture.

- In 2024BC, progressive tensions between the Annu-Melchizedek, Emerald Covenant human, Nibiruian-Hebrew and Necromiton race lines led to Nibiru launching an attack upon the Necromiton-held city of Babylon, which the Necromiton were using to access Nibiruian portals. The 2024BC Nibiruian air raid came down historically in Nibiruian-Annu texts as the story of "God's destruction of Sodom and Gomorrah".

- An attempt to redirect the Hebrew races back into the Emerald Covenant Co-evolution freedom agenda was made by Nibiruian-Anunnaki who had stood against the 2024BC Nibiruian air raid and entered the Emerald Covenant. On behalf of this attempt of

restoring peace among Earth races, the Density-3 consciousness collective from which Thoth, the Density-2 Anunnaki Immortal, originally emerged, again entered a human mortal incarnation on Earth in 2024BC, after the Nibiruian attack on Babylon. This individual became known as the Biblical personage Jenoche, or Enoch.

- Enoch was entrusted by the Azurites and Emerald Order Breneau to again attempt a translation of the CDT-Plates among Hebrew culture, in order to begin restoration of the Emerald Covenant, true history and Creation/Ascension mechanics to the peoples of Earth. Enoch produced 3 massive documents in translation of the CDT-Plates: 1. "The Book of Amenti", detailing the Angelic origins of humanity and Earth's Halls of Amenti star gates. 2. "The Angelic Rosters", detailing the history of Anunnaki infiltration of human culture and the Seeding-2 creation of the Nibiruian Nephilim race (Anunnaki-Human hybrids) and how their attempted takeover of Earth led to the end of humanity's 2nd Seeding. And 3. "The Book of the Dragon", detailing the fallen Drakonian Seraphim race of Density-4, dimension-10, and their continuing infiltration of Earth human genetic lines.

- For a time Enoch was captured and imprisoned as a scribe in Egypt by the Necromiton power elite. Some of Enoch's early translations of the CDT-Plates were confiscated by the Necromiton, and the knowledge of Earth's Templar mechanics fell into Drakonian hands, later to spread among the races of the Roman Empire. Necromiton-distorted teachings from the books of Enoch later emerged through the mass control dogmas of the Church of Rome, some Islamic traditions, and some Hebrew and Christian mystical text translations. In more contemporary times, Necromiton distortions of Enochian texts emerged through Illuminati secret societies such as the Thule Society, the "Enochian Watchtowers" occult mysticism and the teachings of Allister Crowley.

- Enoch was rescued by the Density-3 Azurites and Density-2 Emerald Covenant Nibiruians, and completed pure translation of one CDT-Plate to create the texts of the 3 books of Enoch, before he accomplished ascension to Density-3. These sacred texts, which held the truth of the human story and introduced the spiritual-science of ascension, were passed down among Emerald Covenant Hebrew family lines who became the "Holy Grail" Christiac genetic lines of Jesheua Melchizedek, the man upon whom the original Essene Christ story was based.

- Between 42BC-5BC the Density-5 Emerald Order Breneau, Azurites and Eieyani Council of Inner Earth again intervened in an attempt to direct human evolution back upon its intended course of freedom. In 12BC a member of the Eieyani Council Yanas (beyond the Time Matrix) incarnated on Earth as an Essene (House of Solomon) avatar by the name of Sananda, known as Jesheua Melchizedek, carrying the 12-Strand DNA Template of the original Density-2 Taran Angelic Human lineage. "Jesheua-12" entered earth incarnation with 2 other Eieyani Council Yanas: his half-sister Kananda/Miriam (513C) and Azuria

(42BC), the Roman-Hebrew who became known in Biblical distortions as "John the Baptist". Together they made further translations of the Azurite held CDT-Plates.

- Jesheua-12 authored the "Books of Process", 6 large volumes detailing the sacred-science mechanics of the Interplanetary Templar Complex and the mechanics of star gate Ascension. Miriam authored the 3 "Books of the Cloisters", detailing Temple life and sacred science practices and light-sound DNA activation codes of the Cloister Race Temples from 248,000 years ago. Prior to the books of Jesheua and Miriam, the man historically known as John the Baptist had begun CDT-Plate translation in 10AD, following his Melchizedek baptism of Jesheua, before he was murdered by the Roman Empire. John had begun translation of the original Emerald Covenant of Aramatena, the Creation Contract through which the Breneau Founders Races seeded life into this Time Matrix 950 billion years ago. In 10AD Enoch defected from the Emerald Covenant again (first time 10,500BC) until entering an E.C. "Redemption Contract" in 1983AD.

- In a cooperative attempt to reinstate the Emerald Covenant Co-evolution agreement on Earth, in 7BC the Emerald Covenant Nibiruian-Anunnaki entered a Density-3 avatar into the Essene family lines, to carry the 9-Strand DNA Template through which the Annu-human races could evolve from Density-1. He was named Jeshewua, born to Mary and Joseph of the House of David. He is referred to by the Emerald Order as "Jeshewua-9".

- The two concurrent Essene "Christs" left proliferated teachings: Jeshewa-12 the translations of the Emerald Covenant CDT-Plates for the earth-human lineage. Jeshewua-9 left behind teachings of the Nibiruian Council intended to assist the Annu-human races in their evolution into the Emerald Covenant Co-evolution Agreement. Jeshewa-12 left behind the Primary Christiac Holy Grail Line genetic lineage and ascended to Density-2 Tara in 27AD. In 25AD, Jeshewua-9 was exiled to France with his family, and later ascended in 47AD to Density-2 Tara, then to Nibiru with the help of the Nibiruian Council. Arihabi, a Hebrew man who closely followed the teachings of Jeshewua-9, was crucified in 26AD to divert attention away from Jeshewua-9's exile.

- The teachings of the 2 Christs were for a time preserved among the related Essene family lines. In 325AD, the Council of Nicaea, on behalf of the Church of Rome and Roman political interests, confiscated many Essene teachings, including numerous translations of the books of Jesheua-12. The Council of Nicaea, under direction of the Roman Necromiton Elite (Drakonian-Anunnaki-human), omitted the true Christiac teachings. They consolidated the history of the 2 Christs and Arihabi into the personification of "Jesus", and used a contrived version of the Anunnaki Jehovian distorted creed as a control religious dogma, used to exploit populations to serve Roman interests. The distorted Nicaean Creed became the Canonized Bible of the Church of Rome, and has been used as a covert Necromiton Illuminati mass control religion ever since.

- Some of the true teachings of Jesheua-12 and Jeshewua-9, and one of the pre-Atlantean Signet Shield devices survived the Nicaean raid under the protection of the Cathars (Catheri) of Southern France, who were exterminated by the Church of Rome in 1244 AD. Other translations made their way into various Eastern spiritual traditions, especially in India and Tibet, where historical record showed that the 2 Christs had visited during their time on Earth.

- As the Necromiton-backed Church of Rome continued to spread its influence and dogma under the "Wrath of God" banner, the descendents of the anti-Drakonian Anunnaki Nibiruians, who had secured one of the two missing CDT-Plates, began a counter-movement for power. This group, which became known as the "Knights Templar", attempted to infiltrate the Church of Rome stronghold through their use of the CDT-Plate data called the Tables of Testimony, which detailed portions of the geometrical mechanics involved with Earth's Templar Complex. The Church of Rome exterminated known members of the Knights Templar, but the movement survived, moving into various different European countries, promoting yet another control-dogma distortion of the Church of Rome's Biblical creed. The Knights Templar family lines became the Freemasons of contemporary Anunnaki-Illuminati lineage, and made their way into North America as some of America's founding fathers during the American Revolution.

- Throughout Medieval Times and the Crusades, the Church of Rome and other Religious-political power organizations who adopted the Nicaean Creed spread their dogma and progressively exterminated the indigenous tribal peoples of various geographical regions, under the banner of their "father God" and in the name of "Christ". The politically motivated control agenda religious dogmas that emerged from the Christ period 2000 years ago are still used today by various, seemingly unrelated religious traditions. They are still intentionally implemented by descendants of the Necromiton-Drakonian-Anunnaki and competing Nibiruian Anunnaki-human Illuminati family lines, to control, repress and exploit the power of the unsuspecting human masses.

- If we can understand the travesty that has taken place in the hijacking of human evolution, and see through the thousands of years of distortion of once-true sacred spiritual teachings, all of humanity will have the opportunity to unite and reclaim the human and human-hybrid race co-evolution heritage of freedom. The heritage of freedom, reclamation of Earth's Planetary Templar Complex and the promised re-evolution of Earth races to the original Angelic Human form is a legacy for all earth races, as originally decreed on Earth under the Emerald Covenant 248,000 years ago.

- In our contemporary drama, which is currently manifesting most clearly through the New Age Movement and the UFO/ Angelic Contact phenomena, humanity is once again placed at center stage of an interdimensional conflict between the Breneau Order Angelic

Human, fallen Annu-Elohim Anunnaki and fallen Seraphim Drakonian stellar race lines. Humanity is being confronted with a question. Will we continue to grovel before ancient demi-gods and the contemporary fallen Angelic legions and Illuminati human groups who promote them? Or will we remember enough within ourselves to grasp the contemporary restatement of the Emerald Covenant now offered by the Breneau Orders, Azurites and the many legions of guardian races in our Time Matrix?

- If we are open to learning the original sacred-spiritual-science teachings of the Emerald Covenant, as translated in contemporary times from the 12 CDT-Plates that were the Breneau Orders' gift to humanity 248,000 years ago, we will learn much about our true relationship to the real God of our creation. If we are willing to learn and to consider the revelations of the Emerald Covenant, we will begin to realize the true meaning of the original sacred teachings of the 2 Christs. If we permit our ideas to expand and if we choose our freedom, we have the opportunity to begin fulfillment of our original Creation Commission as Keepers of the Interplanetary Templar Complex and evolution to full ascension. The choice remains as the Human Prerogative.

- The CDT-Plates are presently in the protective custody of the Density-3 Sirian Azurite race of the Density-5 Emerald Order Elohei-Elohim, who are now in contact with certain members of Earth human populations. Members of the Eieyani Councils are presently incarnate on Earth and Inner Earth, as active members of the Emerald Order Amenti Security Team. They are commissioned to assist humanity in Earth's 2000-2017 Stellar Activations Cycle and opening of Earth's Halls of Amenti star gates in 2012. Three members of the incarnate Emerald Order Security Team have "Speakers Contracts", to translate data directly from the CDT-Plates for public release on Earth. The last attempts the Breneau Orders made in offering CDT-Plate translations were those given to incarnate Eieyani Council members Jesheua-12, John the Baptist, Miriam, Enoch and several Eieyani representatives in Tibetan, Hindu and Chinese cultures of ancient times between 2000-3000 years ago.

- The introductory CDT-Plate teachings are intended to help us remember the truth of our Angelic Human history and to reclaim our heritage of ascension. Most importantly, the CDT-Plate teachings are intended to help us fulfill our Creation Contract legacy in becoming guardians of Earth's Planetary Templar Complex during the 2000-2017 Stellar Activations Cycle and thereafter. The Density-5 Breneau, Emerald Covenant races and our true Angelic Human forefathers, the Lyran-Anuhazi, Sirian-Azurites and Taran Oraphim of the Elohei-Elohim Emerald Order, are offering humanity the opportunity for conscious entry into the Emerald Covenant. Guardian legions from the highest dimensional Density Levels in and beyond our Time Matrix are requesting our assistance on our own behalf, to reclaim and protect Earth's Templar Complex from invasive interdimensional forces through the 2000-2017 Stellar Activations Cycle.

- It may be difficult for humanity to face the reality that the spiritual traditions we have held most dear for thousands of years are not the "Words of God" we have come to believe them to be. In facing this realization we are not refuting the existence nor magnitude of God, but rather we are presented with an opportunity to remove the misperceptions of dogma and manipulative distortion of truth that have kept us from experiencing the reality of the true God directly.

- The God of the traditional religions that we have come to worship has been created by man and ill-intended fallen Angelic legions from the interdimensional spectrum. Our conventional "Gods" are created by man in the image of man, and have very little to do with the reality of the nature of the God Force. In worshiping contrived personifications of an externalized God, we effectively divorce ourselves from the experience of God and Godliness. In the artificial separation of God and humanity, we remain forever trapped within the good vs. evil dictum of polarity consciousness, which stands in direct opposition to Law of One unity or "Christed" consciousness and the natural laws of Universal Unified Field Physics upon which manifest reality is created.

- In our confrontation with the Gods of ancient times, we must decide whether we will continue to worship the misrepresented words of self-appointed Gods from the past, or whether we will allow the living presence of the eternal Omnipresent God-force to touch us now and lead us home. Again, our choice is our Human Prerogative.

- If it is true that interdimensional visitor races of both helpful and harmful persuasion have been and continue to be the intrinsic motivating force behind the evolution of human religion, culture and genetics, and that there is a whole-truth behind the partial truths of human spirituality, then perhaps it is wise to ask the question "Who, What and Where is God?". As we are considering the possible answers to this question, a review of the spiritual-science teachings translated in contemporary times from the CDT-Plates may help us begin to comprehend the true potentials of our Angelic Human heritage.

FYI

HEALING THE PLANETARY SHIELDS

A Stellar Activation Cycle can take place only during the **beginning or ending** Time Continua within Earth's Density-1 **Euiago Time Cycle**. A Euiago Time Cycle contains six smaller **Time Continua Cycles**. **Earth's Euiago Time Cycle** is **26, 556 years** in Universal Time Translation. Each Euiago Cycle has 6 smaller **Time Continua** of **4426 years**. Stellar Activation Cycles can take place only at the **Half-Way** or **End** of the Sixth Time Continuum Cycle. In **196 BC** Earth entered the **SIXTH TIME CONTINUUM** of the Density-1 Euiago Cycle. The **Half-Way Point** in our Sixth Continuum Cycle is **2017AD**. It was known by, and recorded in the prophecies of, various ancient races, such as the Mayans, Essenes, early Native Americans and the Egyptians, that the period between **2000-2017 AD** would bring the possibility of a Planetary Stellar Activation Cycle to Earth. Stellar Activation Cycles commence only if Earth's core Merkaba Field rotates fast enough to link on a vertical axis with the Merkaba Field at the center of the Sun in our galaxy. Until 1998, it was uncertain whether the 2000-2017 Stellar Activation Cycle would commence. Earth's first 3 Primary Vortices began their natural opening cycle in anticipation of a Stellar Activation Cycle in **1988**.

EVENTS THAT HAVE TRANSPIRED SINCE 1998

1. In **JUNE 1998**, the **MERKABA FIELD** at Earth's core reached **CRITICAL ROTATION SPEED**.
2. On **JANUARY 1, 2000**, Earth's **4th PRIMARY VORTEX** entered its opening cycle, beginning the influx of 4th Dimensional Density-2 scalar frequency into Earth's Planetary Shield.
3. Between **12-NOON** and **MIDNIGHT OF JANUARY 1, 2000**, the **STELLAR BRIDGE** from the Solar Merkaba Field entered the **GRU-AL SIGNET SITE** of the Planetary Templar Complex and **PHASE LOCKED** with the vertical axis of Earth's core Merkaba Field, **GROUNDING THE STELLAR BRIDGE** into Earth's Planetary Scalar Shield.
4. In **MARCH 2000**, the part of the Planetary Shields that corresponds to the **4th PRIMARY VORTEX** was realigned to the 12th-Dimensional **PLANETARY MAHARIC SHIELD** Organic Imprint.
5. Between **MAY 5th-8th 2000** the 12th-Dimensional Sub-Harmonic of Dimension-4 entered Earth's **GRU-AL SIGNET SITE** anchoring its Tri-tone Standing Wave **PLASMA BEAM** into the Planetary Shields, releasing the Seal and **OPENING THE GRU-AL SITE AND TWO SIGNET SITE STAR GATES**.
6. Opening of the GRU-AL and Signet Site Star Gates ACTIVATED **THE PLANETARY TEMPLAR COMPLEX** and various **TIME PORTALS** on Earth have already opened.
7. **EARTH HAS OFFICIALLY ENTERED A STELLAR ACTIVATION CYCLE**, and it cannot be stopped once it has started.

The easiest way to conceptualize the complicated process of Earth passing through a Stellar Activation Cycle is to think of it in terms of **THE PLANET ENTERING MERKABA**. The planet enters the **3 PRIMARY PHASES OF MERKABA** by the progressive vertical axis alignment of the Merkaba Fields of various Star Systems in the higher dimensional Densities with the **STELLAR BRIDGE** that anchored in Earth's Planetary Shield through the Solar Merkaba on 1/1/2000. Through this process the remaining Frequency Seals on **PRIMARY VORTICES 5-7** continue their opening cycles and the Planetary Shields of Earth, Tara, Gaia and Density-4 Aramatena progressively activate and merge to build the **PLANETARY MERKABA VEHICLE**. Though the possibility of a Stellar Activation Cycle comes around every 26,566 years, it will only commence if the Merkaba Field at Earth's core can pick up Critical Speed of Rotation. During Atlantian times, the Planetary Templar was partly activated to the 5th-Dimensional Level, but in **9558BC** the pole shift from the Atlantian cataclysm damaged Earth's Planetary Shield and closed Earth's Planetary Templar Complex. The last Stellar Activation Cycle to fully commence to a 12th-Dimensional activation took place **210,216 years ago**. Due to distortions in Earth's Planetary Shields, the last Cycle ended in cataclysmic pole shift. In the 2000-2017 Stellar Activations Cycle, this history of cataclysm would have repeated itself if work was not done to restore the Planetary Shields of Earth, Tara and Gaia to their Organic Imprint, as held within the 12th-Dimensional Pre-Matter Maharic Shield of Density-4 **ARAMATENA**. Due to commencement of the Stellar Activation Cycle and opening of the Planetary GRU-AL Star Gate, Humans can help Guardian Races of higher evolutionary Time Cycles to restore the Organic Imprint to the Planetary Shield by using SCALAR MECHANICS TECHNOLOGIES. Scalar Mechanics utilize knowledgeable applications of internally directed LIGHT-SYMBOL-SOUND subtle-wave technology. The human body serves as a **BIOELECTRICAL ENERGY CONDUCTOR** in relation to the organic energetic interconnection between the Planetary Shield and the **PERSONAL MANIFESTATION TEMPLATE**. The **HUMAN BODY** is the only vehicle organic to Earth that is capable of running the frequencies of the 12th-Dimensional **PLASMA BEAM**, which is needed for **MANUAL RESTORATION** of the Planetary Shield. If the **12-STRAND DNA TEMPLATE** of original human genetic blueprint is restored to operational form, minute bursts of Plasma Beam frequency can be run through the DNA Template for manual **PLANETARY SHIELD REGENESIS**. Restoration of the 12-Strand DNA Template allows activation of the dormant **PLANETARY BIO-FEED INTERFACE SYSTEM (PBIS)** within the human body. **Activation of the PBIS assists humans in regenerating their own Organic Imprint of the "CHRISTED" Pre-matter SELF, while simultaneously assisting to restore the integrity of the Planetary Shield.**

- **September 12, 2000** Anunnaki defect from Emerald Covenant Treaty of Altair & United Resistance issue War Edict
- **May 2001** Kauai, Hawaii: Emerald Covenant races open Halls of Amorea & activate Sirius B SG-6 beginning Emerald Covenant Crisis Intervention Mission to prevent United Resistance intended 2003-2008 3-day pole shift agenda.

Illuminati One-World-Order Agenda & the APIN Legacy

APIN Systems: Atlantian Pylon Implant Network Systems are Scalar-Crystal Micro-chip Technologies that were implanted in Earth's Planetary Shields during various periods from 5.5 Million Years ago to 10,500BC. Emerald Covenant Races used them to prevent cataclysm on Earth, while various competing Fallen Angelic races and their Illuminati hybrids used them with the intention of creating Earth cataclysm for dominion of the Halls of Amenti Star Gates. The UIR (United Intruder Resistance) are presently activating their APIN Systems in hope of fulfilling their One World Order Agenda between 2003-2011 AD. Guardian races are activating their APIN and LPIN systems to anchor D-12 Planetary Divine Blueprint to prevent pole shift as Earth's Star Gates progressively open between now and 2012.

- **5.5 Million Years Ago: Great White Lion and Golden Eagle Guardian LPINs** installed to prevent Earth from being drawn into Phantom Matrix Black Hole after Electric Wars. Founders create Frequency Fence "**Wall in Time**" between Earth and the portion of Earth's Shields that fell into Phantom Matrix to create "Phantom Earth" during the Electric Wars.
- **75,000BC: Dragon APIN** installed by Omicron Drakonian invader races.
- **25,500BC: Lucifer Rebellion**. Stonehenge **NDC-Grid** installed by **Nibiruian Anunnaki, Golden Eagle APIN taken over by Necromiton-Andromie Nephilim** ("Archangel Michael" Anunnaki-hybrid collective) creating reverse-matrix **"White Eagle" APIN** and the ("Michael-Mary") **MM-TURNSTILE Templar Control System** running off NDC-Grid.
- **22,500BC: Four Faces of Man LIPN and Blue Oxen LPIN** installed by **Guardians** to complete **Planetary Christos Realignment Mission during 22,326BC SAC**, to prevent Fallen Angelics from drawing Earth and Halls of Amenti into Phantom Matrix. **Stalemate moved "Final Conflict Drama" to 2000AD-2017AD SAC.**
- **10,500BC: Luciferian Conquest**: Fallen Angelics create **Falcon and Phoenix Wormholes** in "Wall in Time", opening Earth's Shields to Phantom Matrix. **Founders** use Frequency Fence to **Cap Wormholes** until 2000AD-2017AD SAC, when **permanent Cap** could be rendered via completion of Planetary Christos Realignment Mission
- **1903AD-1916AD: Zeta Drakonian Agenda Races uncap Falcon Wormhole and begin activation of Falcon APIN system.**
- **1943: Philadelphia Experiment: Zetas expand Falcon Wormhole creating the Phi-Ex Wormhole System.**
- **1951-1972: Anunnaki** agenda Fallen Angelics **attempt to uncap Phoenix Wormhole** to activate their APIN systems in hope of winning covert Templar Control war with Drakonian Agenda and Zeta Races.
- **1972: Anunnaki agenda races uncap Phoenix Wormhole** and begin activation of the **White Eagle, Dove** and **Phoenix** APIN systems.
- **1980-1983: Falcon and Dragon APINs linked** via Zeta-Drakonian alliance. **1983 Montauk Project**, Drac agenda Alpha-Omega Centauri Necromiton Andromies **link Phi-Ex-Falcon Wormholes to White Eagle APIN.**
- **November 1992:** Pleiadian-Nibiruian, Galactic Federation & Ashtar Command Anunnaki **grudgingly join Emerald Covenant Pleiadian-Sirian Agreements** in fear of losing Templar Battle with Drakonian & Andromie races after **Drakonians attempt to take over Phoenix Wormhole** and **Anunnaki fail in attempt to Cap Falcon Wormhole**. Zetas expanded Falcon-Phi-Ex to avoid cap, causing **Hurricane Andrew August 24, 1992.**
- **1992-1994:** Pleiadian-Sirian Agreement Anunnaki **use NDC-Grid in cooperation with Guardian Templar sites to temporarily Cap Falcon-Phi-Ex Wormhole. Anunnaki begin defection** from Emerald Covenant for dominion agendas once Drakonian-Zeta forces lose Falcon-Phi-Ex use.
- **1998:** Defecting Anunnaki **shut down Guardian transmission lines** and **Un-Cap Falcon-Phi-Ex Wormhole in attempt to gain full control of Templar.**
- **September 12, 2000: Anunnaki fully defect** from Emerald Covenant/Treaty of Altair, **join UIR War Edict** against Founders via **Necromiton-Andromie Nephelim prompting GA Crisis Intervention.**

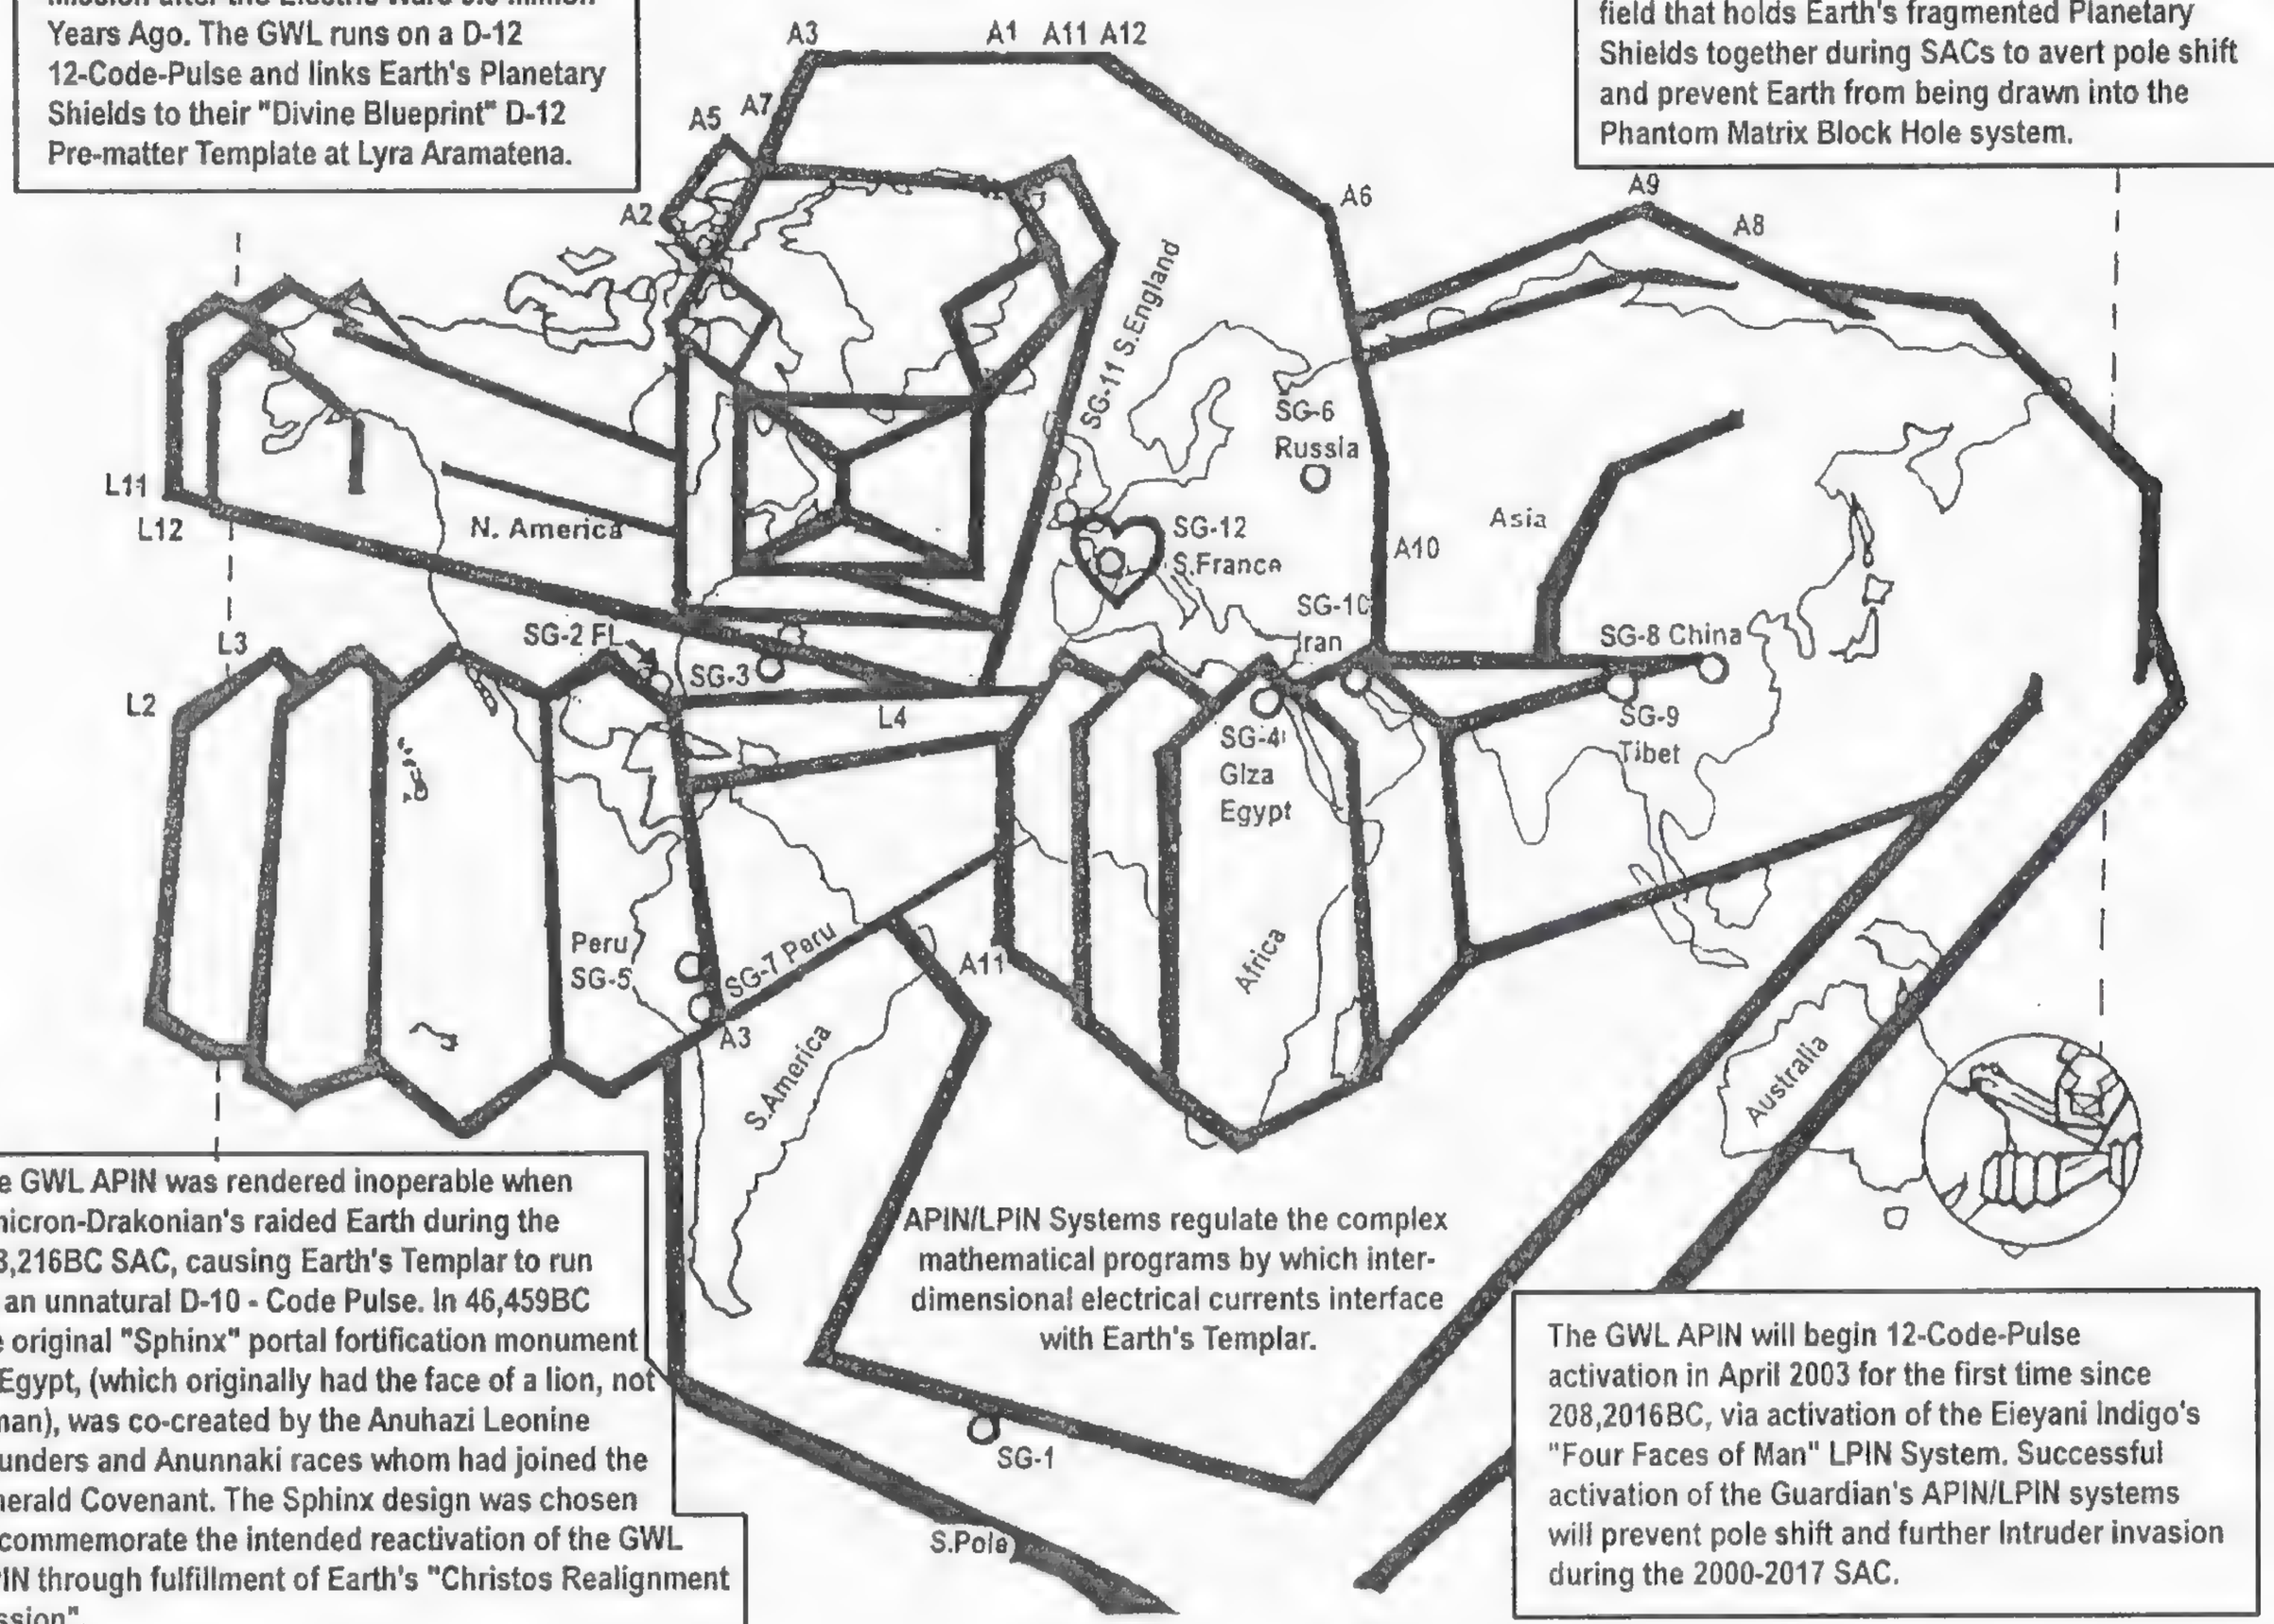
The Elohei-Elohim Leonine Anuhazi Founders of Aramatena Lyra and Sirus B created the "GWL" APIN as part of their Earth Templar Crisis Intervention Mission after the Electric Wars 5.5 Million Years Ago. The GWL runs on a D-12 12-Code-Pulse and links Earth's Planetary Shields to their "Divine Blueprint" D-12 Pre-matter Template at Lyra Aramatena.

The Great White Lion Guardian APIN System

(Atlantian Pylon Implant Network System)
5.5 MYA Elohei-Elohim Leonine Anuhazi

The GWL APIN is "Guardian of Electricals", the protector of Earth's 12 Vertical Axi-A-Tonal Lines. When activated, the billions of minute crystal pylon implant "microchips" of the GWL, and those of its "Golden Eagle" APIN companion, form a scalar field that holds Earth's fragmented Planetary Shields together during SACs to avert pole shift and prevent Earth from being drawn into the Phantom Matrix Block Hole system.



The GWL APIN was rendered inoperable when Omicron-Drakonian's raided Earth during the 208,216BC SAC, causing Earth's Templar to run on an unnatural D-10 - Code Pulse. In 46,459BC the original "Sphinx" portal fortification monument of Egypt, (which originally had the face of a lion, not a man), was co-created by the Anuhazi Leonine Founders and Anunnaki races whom had joined the Emerald Covenant. The Sphinx design was chosen to commemorate the intended reactivation of the GWL APIN through fulfillment of Earth's "Christos Realignment Mission".

APIN/LPIN Systems regulate the complex mathematical programs by which inter-dimensional electrical currents interface with Earth's Templar.

The GWL APIN will begin 12-Code-Pulse activation in April 2003 for the first time since 208,2016BC, via activation of the Eieyani Indigo's "Four Faces of Man" LPIN System. Successful activation of the Guardian's APIN/LPIN systems will prevent pole shift and further Intruder invasion during the 2000-2017 SAC.

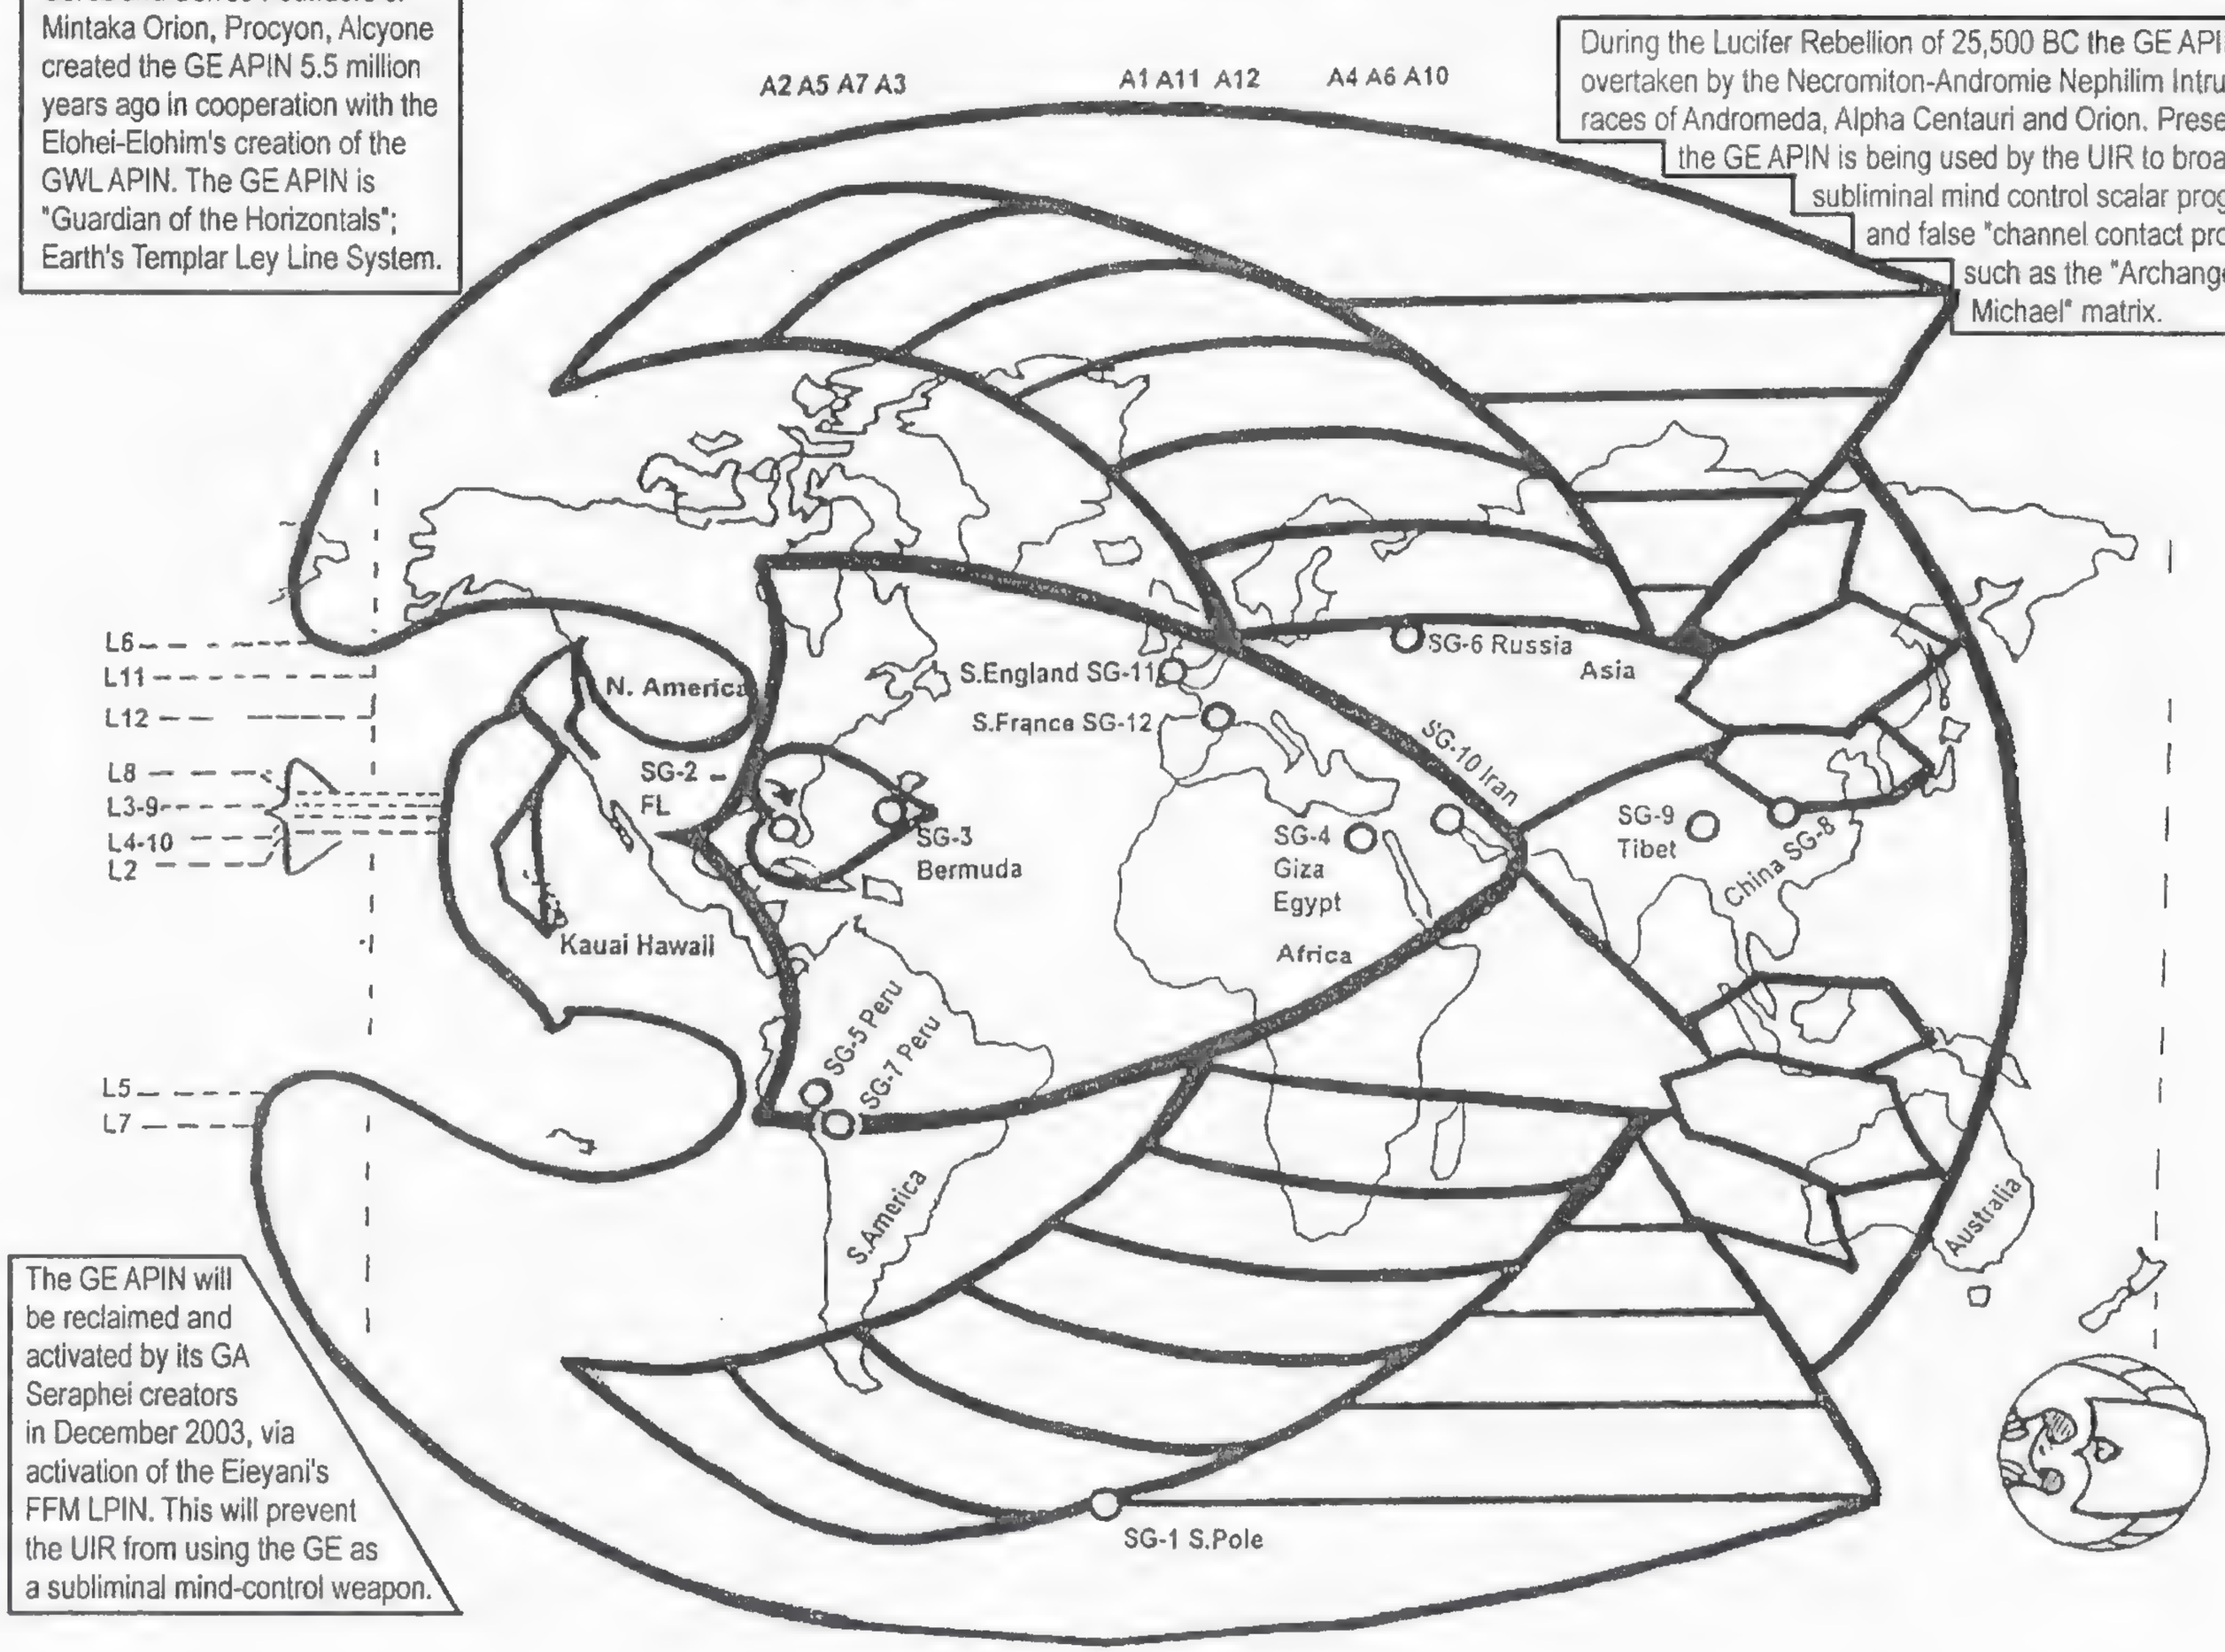
Golden Eagle APIN
Guardian Seraphei-Seraphim Avian-hominid Cerez and Serres 5.5 MYA

The Seraphei-Seraphim Avian Cerez and Serres Founders of Mintaka Orion, Procyon, Alcyone created the GE APIN 5.5 million years ago in cooperation with the Elohei-Elohim's creation of the GWL APIN. The GE APIN is "Guardian of the Horizontals"; Earth's Templar Ley Line System.

During the Lucifer Rebellion of 25,500 BC the GE APIN was overtaken by the Necromiton-Andromie Nephilim Intruder races of Andromeda, Alpha Centauri and Orion. Presently the GE APIN is being used by the UIR to broadcast subliminal mind control scalar programs and false "channel contact programs, such as the "Archangel Michael" matrix.



The GE APIN will be reclaimed and activated by its GA Seraphei creators in December 2003, via activation of the Eieyani's FFM LPIN. This will prevent the UIR from using the GE as a subliminal mind-control weapon.

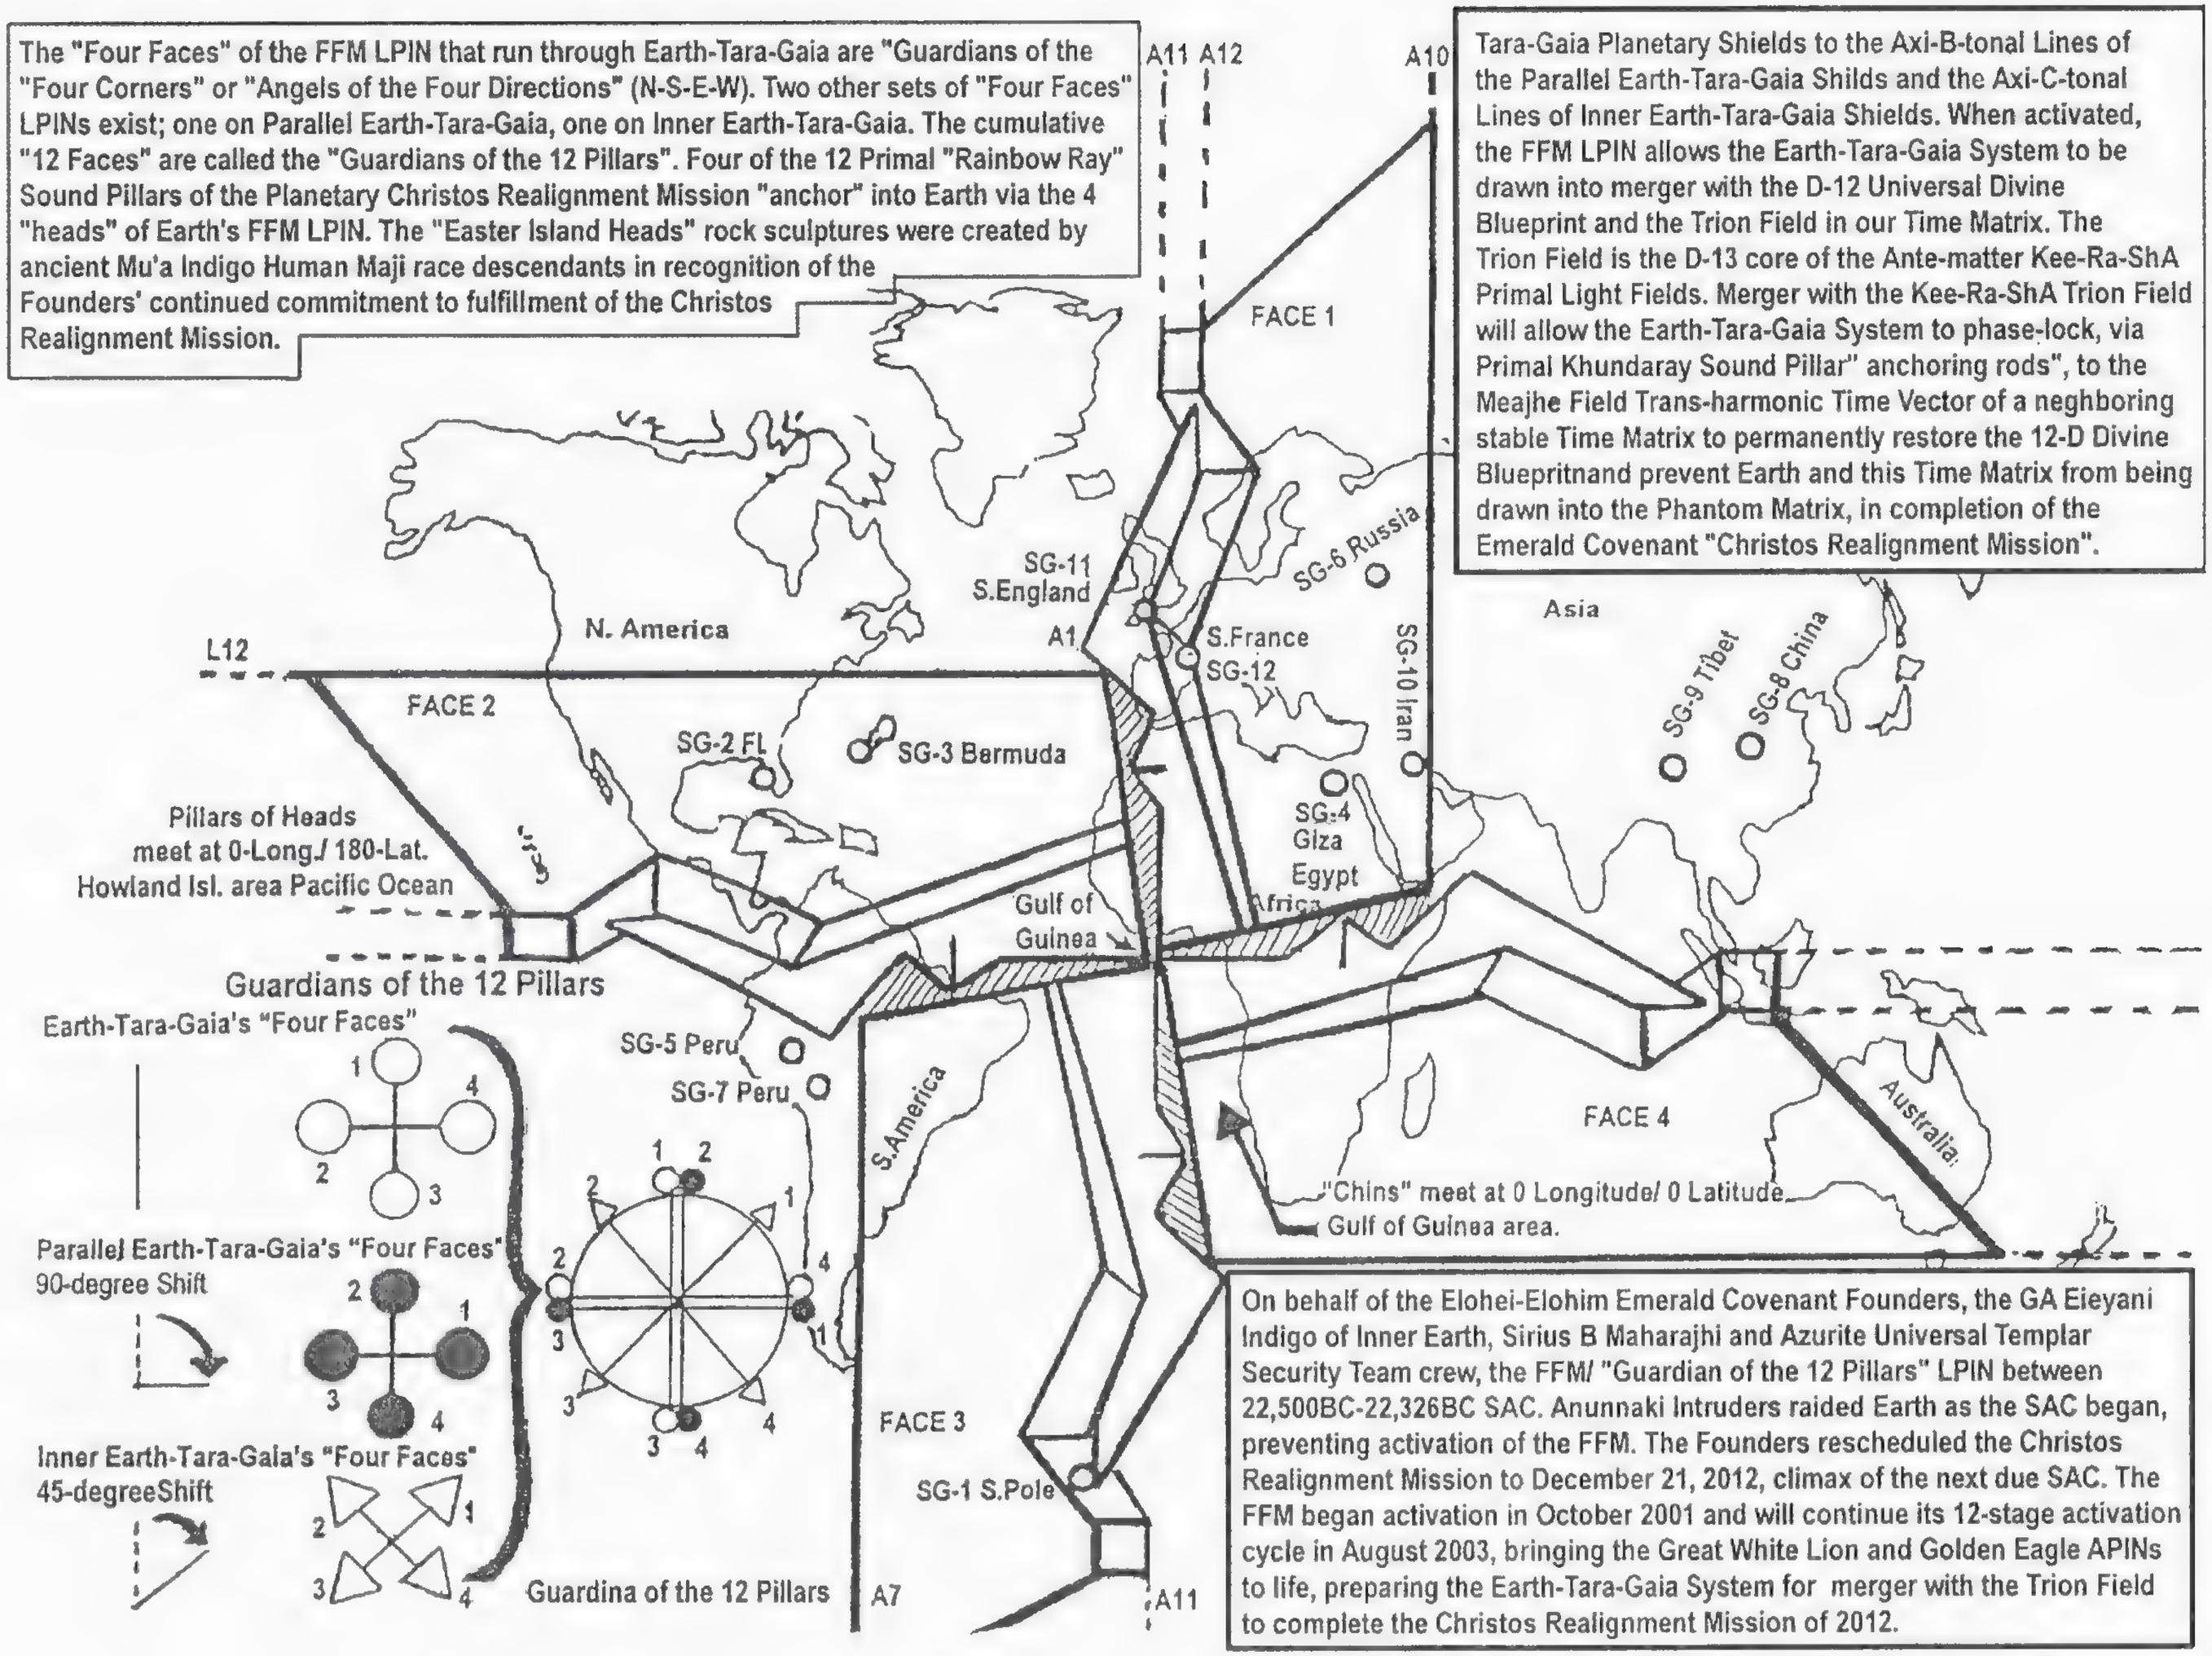
The "Four Faces" of the FFM LPIN that run through Earth-Tara-Gaia are "Guardians of the "Four Corners" or "Angels of the Four Directions" (N-S-E-W). Two other sets of "Four Faces" LPINs exist; one on Parallel Earth-Tara-Gaia, one on Inner Earth-Tara-Gaia. The cumulative "12 Faces" are called the "Guardians of the 12 Pillars". Four of the 12 Primal "Rainbow Ray" Sound Pillars of the Planetary Christos Realignment Mission "anchor" into Earth via the 4 "heads" of Earth's FFM LPIN. The "Easter Island Heads" rock sculptures were created by ancient Mu'a Indigo Human Maji race descendants in recognition of the Founders' continued commitment to fulfillment of the Christos Realignment Mission.

Tara-Gaia Planetary Shields to the Axi-B-tonal Lines of the Parallel Earth-Tara-Gaia Shilds and the Axi-C-tonal Lines of Inner Earth-Tara-Gaia Shields. When activated, the FFM LPIN allows the Earth-Tara-Gaia System to be drawn into merger with the D-12 Universal Divine Blueprint and the Trion Field in our Time Matrix. The Trion Field is the D-13 core of the Ante-matter Kee-Ra-ShA Primal Light Fields. Merger with the Kee-Ra-ShA Trion Field will allow the Earth-Tara-Gaia System to phase-lock, via Primal Khundaray Sound Pillar" anchoring rods", to the Meajhe Field Trans-harmonic Time Vector of a neghboring stable Time Matrix to permanently restore the 12-D Divine Bluepritnand prevent Earth and this Time Matrix from being drawn into the Phantom Matrix, in completion of the Emerald Covenant "Christos Realignment Mission".



On behalf of the Elohei-Elohim Emerald Covenant Founders, the GA Eleyani Indigo of Inner Earth, Sirius B Maharajhi and Azurite Universal Templar Security Team crew, the FFM/ "Guardian of the 12 Pillars" LPIN between 22,500BC-22,326BC SAC. Anunnaki Intruders raided Earth as the SAC began, preventing activation of the FFM. The Founders rescheduled the Christos Realignment Mission to December 21, 2012, climax of the next due SAC. The FFM began activation in October 2001 and will continue its 12-stage activation cycle in August 2003, bringing the Great White Lion and Golden Eagle APINs to life, preparing the Earth-Tara-Gaia System for merger with the Trion Field to complete the Christos Realignment Mission of 2012.

The Pleiadian/Nibiruian Anunnaki **Phoenix Wormhole/ Phoenix APIN** to Phantom Nibiru/ Tiamat and Zeta-Rigeliani Drakonian **Falcon Wormhole/Falcon APIN** to Phantom Earth/Alpha Draconis. Two Atlantian wormholes give advancing Fallen Angelic invasion forces greater dominion potential over Earth/Halls of Amenti Gates for 2000-2017AD SAC. Omega Centauri Intruder Blue Centaurs **take over Blue Oxen APIN**. Enoch defects from Emerald Covenant, assists Intruder Jehovian-Anunnaki to link **"Dove" APIN to Phoenix Wormhole**, creating the **7 Jehovian Seals/"7 Trumpets"** advanced **Dove HD-C** (Hyper-Dimensional Cone) **APIN. Mars Base** and **Sphinx/Pyramid-1 destroyed**; **Sphinx/Pyramid-2** rebuilt by GA, realigned with Pleiadian-Alcyone following 10,500BC squelched invasion. - 9560BC-9558BC: **Luciferian Covenant**. Atlantian Leviathan Illuminati enter Luciferian Anunnaki dominion covenant 9560BC, blow GA Cap off Phoenix/Falcon Wormholes to stage **9558BC "Atlantian Flood"** and **"Housecleaning"** takeover. **Sphinx/Pyramid-2** damaged, Alcyone link broken. GA install **9540BC Frequency Fence** to **re-Cap Wormholes** and prevent cataclysmic early Blue Flame activation. GA create **"Arc of Covenant" Gold Box/Rod and Staff Star Gate tools** for Indigo Maji-Human race access to Inner Earth portals. Anunnaki, Drakonian and Necromiton-Andromie races and Illuminati hybrids run competing territory conquest agendas since 9558BC, try to capture Arc of Covenant Gold Box/Rod and Staff tools to activate their APINs for Templar dominion. Necromiton Andromies join Blue Centaurs in **5,900BC Centaurian War** in attempt to use "hi-jacked" Blue Oxen APIN India for Templar dominion; air attacks squelched by GA Sirius B Maharajhi and Pleiadian Serres. Anunnaki Illuminati rehabilitate **Sphinx/Pyramid-2** as cultural center **5546BC**. Progressive "**Atlantian Conspiracy**" Templar conquest throughout post 9558BC period Sumer to America, Illuminati races infiltrate/hybridize with all major Human 12-Tribe cultures; Eieyani-Indigo Maji Grail Line retains pure strain 12-48 Strand DNA to fulfill Christos Realignment Mission via RRTs during long-anticipated 2000-2017 SAC "Final Conflict" drama.

Wormholes, APIN / LPINs 1916-2001

- 1903-1916: Zetas of Phantom Earth **open Atlantian Falcon wormhole** off coast of Charleston, South Carolina in Atlantic Ocean (was Nohassa Atlantis), begin speculation for invasion. Militant **Zeta-Rigelian** force of Phantom Alnitak-Orion take over Falcon Wormhole, begin covert infiltration of Earth governments on behalf of the Zeta--Drakonian agenda, overthrowing historically positioned Anunnaki strong-hold on Illuminati covert OWO operations. Fallen Angelics begin competing progressive conquest for activation/ dominion of APIN systems in preparation for 2000-2017 SAC.
- 1930s: Zeta-Rigelians make treaties with Illuminati hybrid-human races in several major world governments, begin early Zeta Treaties and **Majestic-12** seed group covert **Illuminati OWO World Management Team** under **Zetas' Drakonian Agenda**. Zeta-Rigelians set out to activate **Falcon APIN**, begin **Ethnic Virus/ Sonic Pulse Un-natural Disaster** program testing for intended reduction of human populations if SAC commenced in 2000 and **abduction/hybridization** programs. Zeta-Rigelians assist to organize and **strengthen Hitler Nazi movement** via physical contact with Nazi Inner Circles; Hitler agrees to advance `Race Supremacy" program with intention of **exterminating specific Hibiru Anunnaki Illuminati hybrid races**, while protecting Hibiru Illuminati hybrid lines of the Drakonian races. Drakonian Illuminati in **Allied Governments** covertly assist **Nazis financing**.
- 1940s: Hitler makes **double deals** with Necromiton-Andromies, and kills groups of Drakonian Hibiru Illuminati; **Zeta-Rigelians withdraw Nazi support**, assist Allied Governments in victory over Nazi regime, formalization of MJ12 World Management Team 'Big Brother Drac" group. **Necromiton-Andromie** races attempt to mobilize their Illuminati races in **Hawaii** and **Nagasaki Japan** to built underground bases to hi-jack the Zeta-Rigelians' Falcon APIN Port Interface System at its **Nagasaki APIN site**. Zeta-Rigelians instruct their **Illuminati hybrids in Japan and US** via MJ-12, to launch Pearl Harbor strike; US and Japanese Illuminati know plan from start. Zetas provided allies with **A-Bomb technology** specifically to use on Nagasaki, to regain **Nagasaki Falcon APIN site under Zeta-Rigelian control**. Hiroshima Necromiton-Andromie Illuminati wiped out on behalf of Zeta-Rigelian Agenda, **Maji Grail Line Human YU race Indigos of Hiroshima destroyed**, Nagasaki reclaimed under Zeta-Rigelian control. Necromiton-Andromies prevented from building Nagasaki base, Falcon APIN continues to be activated by Zeta Rigelians.
- 1943: Zeta-Rigelians expand Falcon APIN system via August 12, 1943 Philadelphia Experiment, **putting east coast US Falcon APIN system "on-line" with Falcon wormhole**. Create the Phi-Ex wormhole Port Interface Network.
- 1951: **1951 White Eagle-Dove Alliance.** (AKA "'Archangel Michael joins Enoch"). Pro-Anunnaki Necromiton Andromies make deals with Jehovian Anunnaki to combine and activate their respective "**White Eagle**" and "**Dove**" **APIN** systems to regain Anunnaki OWO dominion over Illuminati form and Earth's Templar. Phoenix Wormhole off eastern coast of Florida. Unsuccessful until 1972. Zeta-Rigelians continue Un-Natural Disaster/Ethnic Virus testing, covert Interior Government contact, abductions throughout 1950s-1960s.

- **1972:** Pleiadian-Nibiruian Anunnaki assist White Eagle-Dove Alliance (AKA °Samjase, Thoth, Galactic Federation and Ashtar Command join Archangel Michael and Enoch) to break through cap on **Phoenix wormhole** via Solar SGA sonic transmissions, begin activation of the **Phoenix, Serpent, Dove** and **White Eagle APIN** systems; intensifies Solar anomalies from 1943 Phi-Ex opening to Solar Flare/Red Pulse crisis point. GA implements 11:11/12:12 Frequency Fence to prevent 1973 Red Pulse destruction, initiate Solar SG-4 repairs. Anunnaki begin regaining strength in Illuminati World Management Team.
- **1980s: Rigelian-Andromie Alliance**. Zeta-Rigelians make deal with Pro-Drakonian Necromiton-Andromie forces; Omicron-Drakonian races of Alnitak and Dracos hybrids of Earth get directly involved and combine APINs to prevent Anunnaki groups from getting upper hand in Illuminati World Management Team. **1983 Falcon-White Eagle-Dragon Alliance**.
- **1983: Montauk Project** orchestrated by Rigelian-Andromie Alliance, further connects **Phi-Ex Falcon APIN** system of Earth/Phantom Earth to **Phantom Alpha and Omega Centauri and Alnitak Orion**. Create **Montauk-Phi-Ex Falcon APIN** system. Drakonian Agenda races regain dominance in World Management Team. Falcon-White Eagle-Dragon become "**Superpower**" and sets sights on overtaking Anunnaki APIN systems. White Eagle-Dove Alliance seek dominion of Phoenix and Serpent APINs to prevent Drakonian Agenda advancement. **1983-1984 GA initiates Bridge Zone Project** and begin **Emerald Covenant** peace treaty negotiations with Fallen Angelic groups. **1986 GA 9540BC Frequency Fence released**.
- 1992: Pleiadian-Nibiruians (Pleiadian Samjase-Luciferian and Nibiruian Thoth-Enki-Zeta and Enlil-(Odedicron Anunnaki) **attempt to cap Falcon wormhole** to prevent Falcon-White Eagle-Dragon group from overtaking NDC Grid system. Falcon group uses sonics on August 12, to expand Falcon wormhole, preventing attempted Anunnaki cap; **Hurricane Andrew** hits east coast US **August 24** as result of Falcon wormhole expansion and sonics. White Eagle-Dove group continue campaign for control of Phoenix wormhole, related APINs and Giza.
- 1992 November: Pleiadian-Nibiruian, Galactic Federation and Ashtar Command Anunnaki grudgingly enter **Pleiadian-Sirian Agreements**/ Emerald Covenant, White Eagle-Dove refuse, when Falcon-White Eagle-Dragon Drakonian Agenda races nearly take over Phoenix and Serpent API Ns, NDC-Grid, NET and Giza/Mexico Nibiruian Crystal Temple Network.
- 1992-1994: Emerald Covenant races, with assistance of Pleiadian-Sirian Agreements Anunnaki, use Nibiruian NET and NDC-Grid to **temporarily CAP Falcon wormhole**, **shutting down Montauk-Phi-Ex Falcon APIN system**. Anunnaki races vow to turn NDC-Grid, NET and Phoenix-Serpent APIN systems over to Emerald Covenant Founders by 2000 SAC start, for co-operative progression of **Earth Freedom Agenda** and **Planetary Christos Realignment Mission**.
- 1994-1998: Pleiadian-Sirian Agreements Anunnaki races gain dominance in Illuminati World Management Team, **supposed to** (as per 1992 Agreements) begin preparing Illuminati for "**Official Disclosure**"/ entry into Emerald Covenant. GA **11:11/12:12 Frequency Fence released**. Rebel Anunnaki groups form and begin using "Phantom Pulse" tracer sub-space electrical transmissions along known electrical lines for Psycho-tronics and Anunnaki APINs/NCT-Bases "hijack".
- 1998: "Arc Spark" grid acceleration confirms 2000-2017 SAC will commence in 2000, most **Anunnaki join rebel groups/ defect from Pleiadian-Sirian Agreements** for opportunity to fulfill their original **Luciferian Covenant** OWO agenda. **Anunnaki began shutting down Emerald Covenant communication lines** in the NDC-Grid, NET and APIN systems. Falcon-White Eagle-Dragon Drakonian Agenda group blow **CAP off Falcon wormhole**, begin competitive campaign to achieve Falcon APIN and illuminati dominance. Begin reactivation of **Montauk-Phi-Ex Falcon APIN**.
- 1998-1999: Competing factions, of White Eagle-Falcon-Dragon, Rebel Dragon, White Eagle-Dove and Phoenix-Serpent groups compete for APIN grid activation, territory dominion and Illuminati dominance. **New Age Movement** Anunnaki OWO agenda "Astral Tagging" domain, **UFO Movement** Drakonian OWO Agenda "Astral Tagging" domain, numerous Rebel factions from each group. White Eagle-Falcon-Dragon continue activation of Montauk-

Phi-Ex Falcon APIN sites. Competing White Eagle-Dove and Phoenix-Serpent groups accelerate their respective APIN activation.

- **1999:** GA continue GF, Ashtar, Thoth, Samjase, Anunnaki, renegade negotiation in hope of re-establishing Pleiadian-Sirian Agreements to prevent escalation of Final Conflict drama. Drakonian groups begin **Psycho--tronic Sonic Pulsing** to **USA, Jerusalem** and **China** for instigation of the **WW3** drama; pulses slow-release, intended to take effect end **2002-2003**.
- **2000 January 1: GA Planetary Shields Clinics start**. Emerald Covenant nations/Indigos succeed in activating Earth's Templar on a **12-Code Pulse** during 1/1/2000 Grounding of Stellar Bridge. Emerald Covenant races now have ability to override Fallen Angelic NDC-Grid, NET, NCT-Bases, APINs, close Atlantian Wormholes and fulfill 22,326BC Planetary Christos Realignment Mission IF critical mass 12-Code-Pulse can activate in Earth's Templar **before 2003**.
- **2000 July 5:** Most Pleiadian-Nibiruian Anunnaki and a few Jehovian Dove and Odedicron-Reptilian factions temporarily agree to Emerald Covenant Treaty of Altair, due to likelihood of either Emerald Covenant or Drakonian Agenda defeat. Emerald Covenant races begin 12-Code-Pulse grid re-coding and Human DNA Template Clearing.
- **2000 August:** Peru, Treaty of Altair races begin transfer of Phoenix, Serpent APINs, NDC-Grid and NET to Emerald Covenant control. Emerald Covenant Indigo races advance 12-Code-Pulse clearings, threatens to override ALL OWO agendas by building Planetary Maharic Seal Earth protection field.
- **2000 September 7:** Necromiton-Andromie White Eagle groups unite, negotiate Jehovian Anunnaki Dove, Falcon, Dragon, GF and Ashtar "friendly enemies" deals to combine White Eagle-Dove--Falcon-Dragon APINs to defeat Emerald Covenant and Treaty of Altair Anunnaki races. Necromiton-Andromies petition Pleiadian-Nibiruian Phoenix Serpent and renegade Anunnaki of Treaty of Altair to combine agendas and APINs to enter **United Intruder Resistance (UIR) OWO Master Plan**.
- **2000 September 12: Pleiadian-Nibiruian Anunnaki defect from Treaty of Altair**, join **UIR**, allow Necromiton - Andromies/ Omicron-Drakonians to use previously secure Phoenix APIN grids, England, for Indigos Psycho-tronic attack. UIR gives **ultimatum** to Emerald Covenant Founders to abandon Earth and Humans to UIR genocide agenda in return for evac of 50,000 Indigos (out of 550,000). GA reverts to original December 21, 2012 **Christos Realignment Mission**, begins War Crisis Order and **Masters Templar Planetary Stewardship Initiative** RRT Intervention.
- **2001 May:** Emerald Covenant races initiate Crisis Intervention, early-open **Sirius B Star Gate-6** and ancient **Halls of Amorea Passage in May 2001**, to prevent UIR intended **2003 Dimensional Blend Experiment**, Frequency Fence and WW-3 invasion schedule. **Expedited Amenti Opening and Planetary Seals Release** begins. (See ***Crisis Intervention Expedited Amenti Opening Schedule Chart***).
- **2001 August 12: Mass Awakening** DNA 12-Code activation begins; UIR expedites OWO "First Contact" Invasion agenda, **accelerates Montauk-Phi-Ex Falcon APIN activation to initiate Phoenix-Serpent-Dove APIN Falcon Wormhole link**. UIR launch **2 "ULF Sonic Amplification Slow pulses"** from **Chihuahua, Mexico** and **Lake Titicaca, Peru**. NCT-Bases.
- **2001 September 3:** Mexico Sonic Amplification Slow-Pulse passes through SG-2 Gru-Al Point Sarasota, FL as Indigos assemble for RRT to realign Sarasota FL and Bermuda NCT-Bases. Thoth-Enki-Zeta Nibiruian Anunnaki group via Chihuahua Mexico site sends Psycho-tronic "rapid release" pulse along Amplification Slow-Pulse frequency to attack RRT group in hope of preventing September 3 RRT. RRT partially successful.
- **2001 September 7:** Sonic Amplification Slow-Pulse continues along **Ley Line-4** to intersect/bond with Titicaca Sonic Amplification Slow-Pulse at **Axiatonal Line-7** (70W Longitude). Bonded Sonic Pulse drawn through Phoenix and Falcon Wormholes to **SG-3 Bermuda** Zeta-Rigelian NCT-Base. Sonic Amplification Pulse charge collects at Bermuda NCT-Base.
- **2001 September 11: WTC/Pentagon UIR WW3 "Trigger Event".** Sonic Amplification Pulse combined with "**Trumpet**" long-range remote pulses from Phantom Sirius A, Arcturus and Trapezium Orion "Dove" APIN. 3 amplified rapid-fire combined Trumpet/Slow-Pulse **sub-space sonic pulses**, sent from **Bermuda Base** to **NY** and

DC targets, via the **Montauk/ Philadelphia APIN sites of Montauk-Phi-Ex-Falcon Port Interface system**. The 4th "Trumpet Pulse" not sent to Philadelphia target, as 4th terrorist plane "Cloak Event" did not make it to site. "**2001 September 11**" UIR **successfully linked/ activated WTC/NYC and Pentagon/DC Phoenix Spike sites to Falcon Wormhole and APIN system**. WTC/Pentagon Disaster
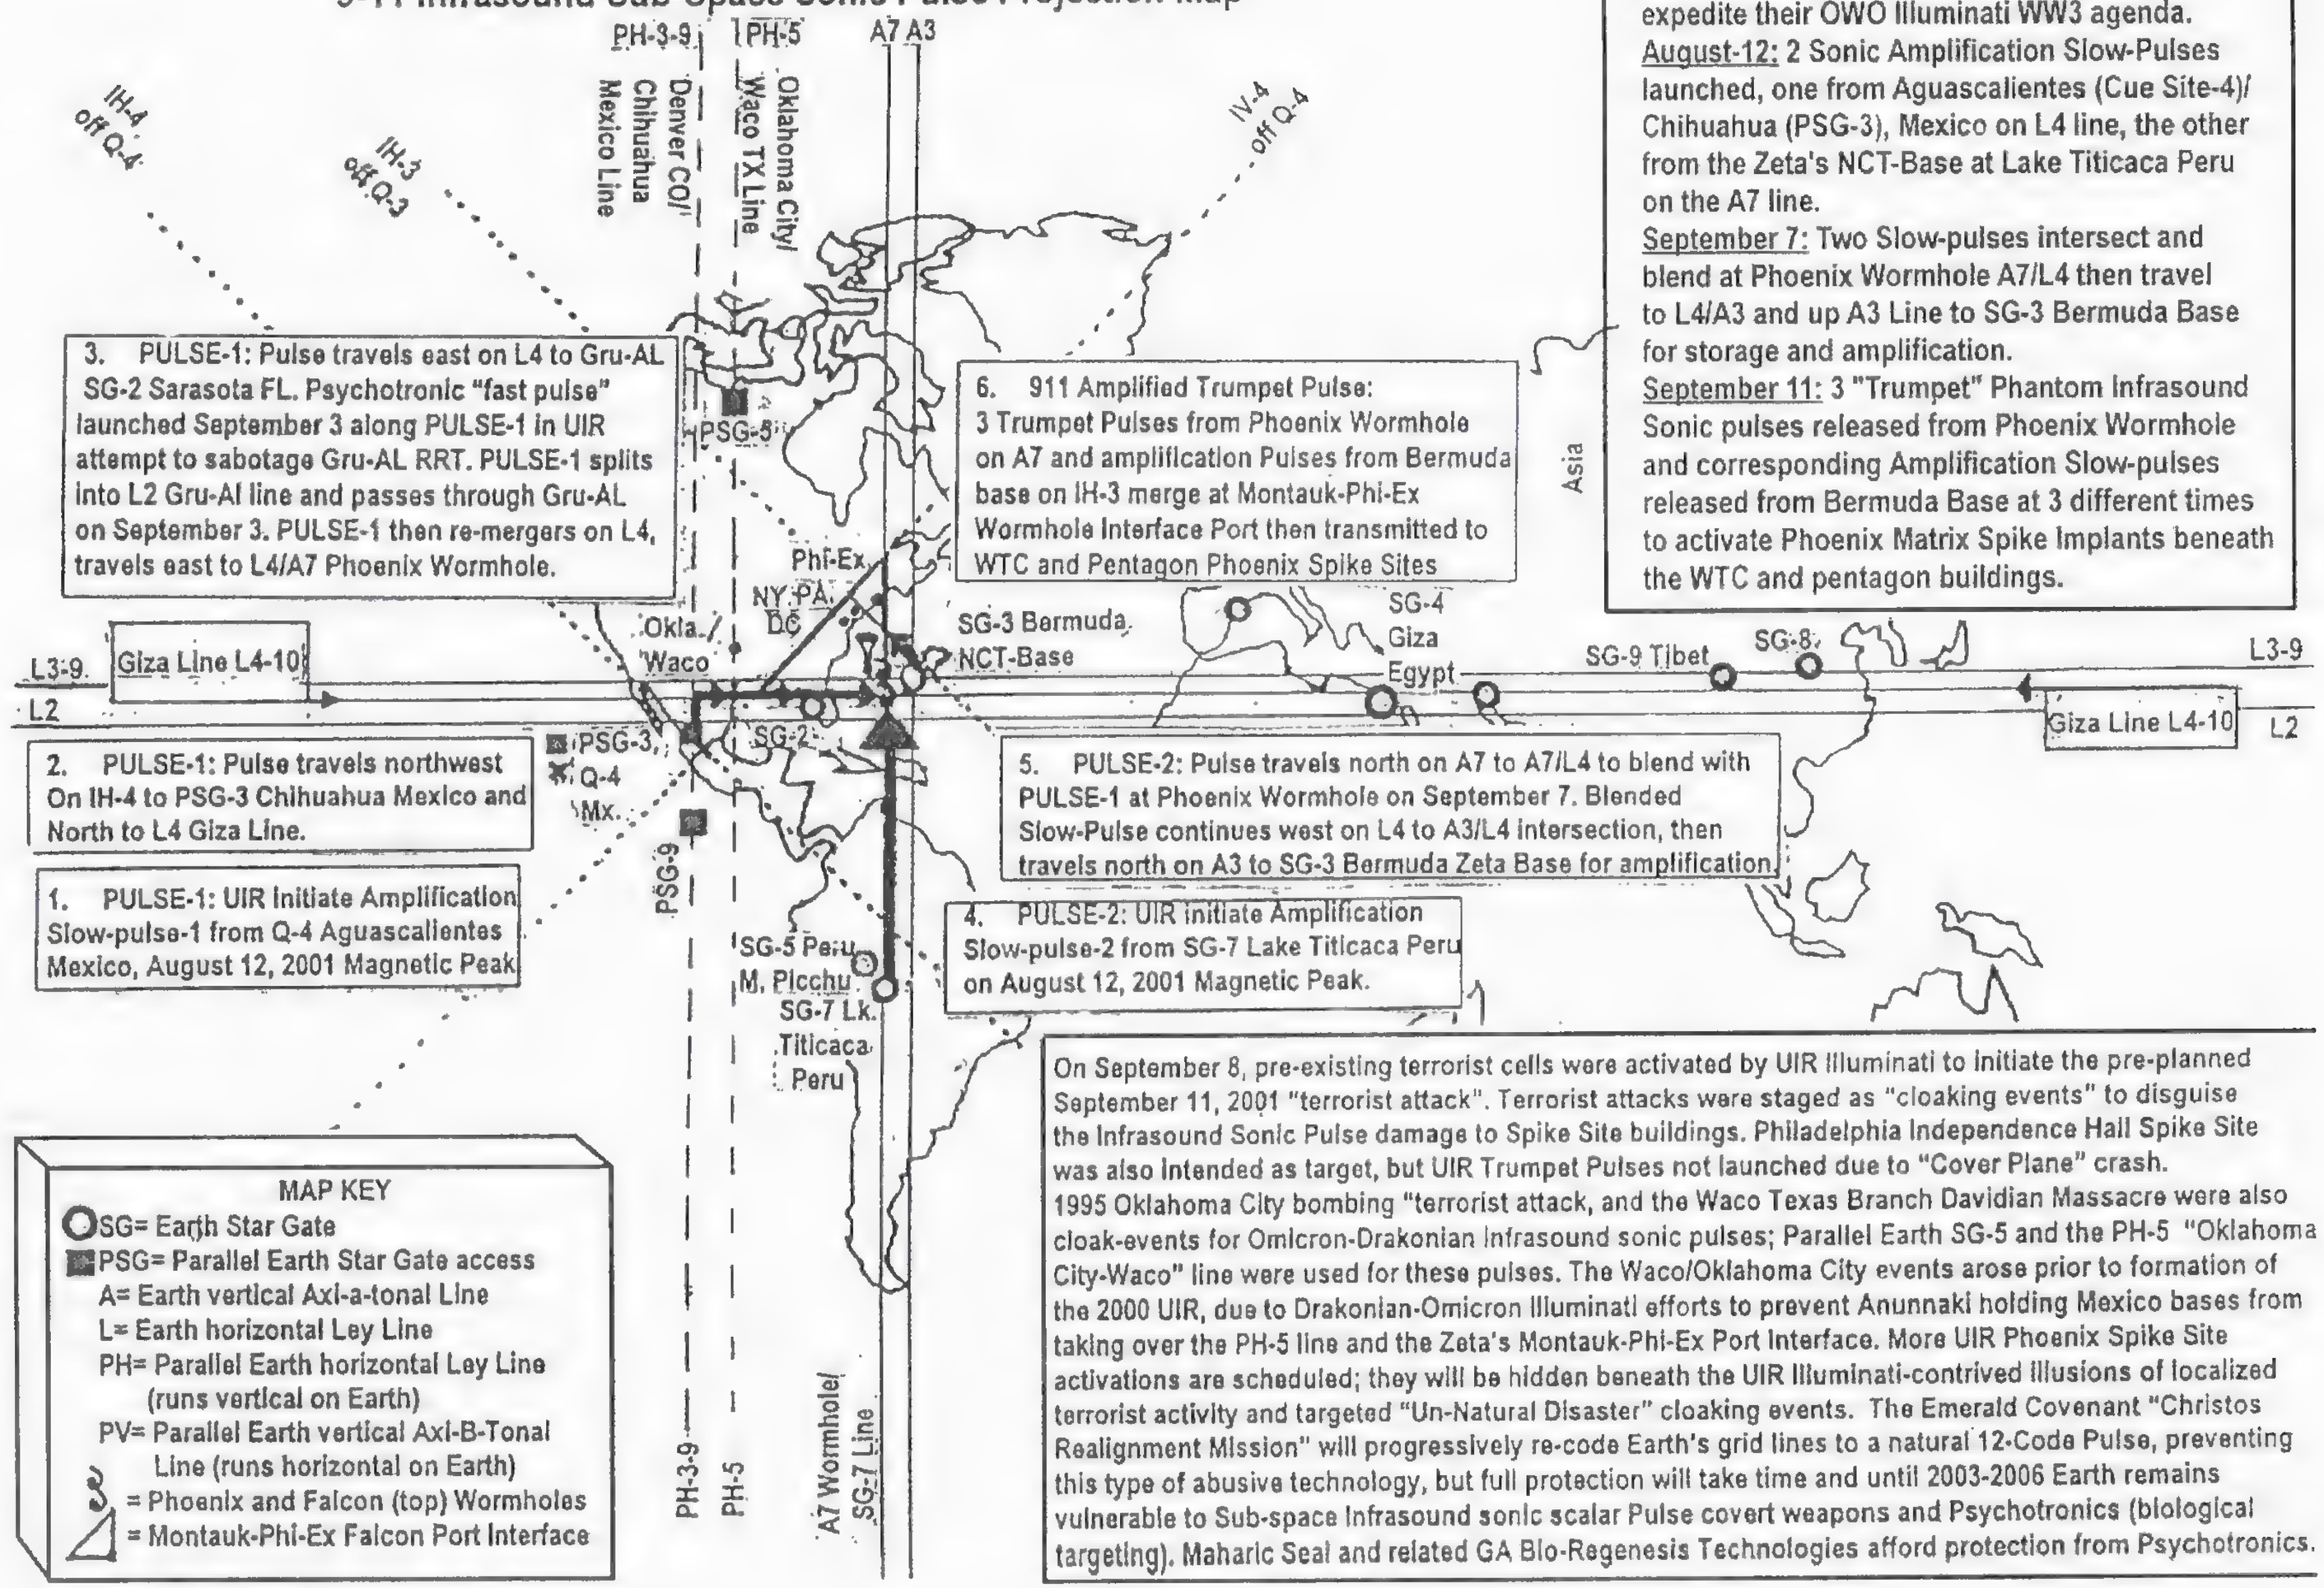
9-11 Infrasound Sub-Space Sonic Pulse Projection Map



3. PULSE-1: Pulse travels east on L4 to Gru-AL SG-2 Sarasota FL. Psychotronic "fast pulse" launched September 3 along PULSE-1 in UIR attempt to sabotage Gru-AL RRT. PULSE-1 splits into L2 Gru-Al line and passes through Gru-AL on September 3. PULSE-1 then re-mergers on L4, travels east to L4/A7 Phoenix Wormhole.

6. 911 Amplified Trumpet Pulse:
3 Trumpet Pulses from Phoenix Wormhole on A7 and amplification Pulses from Bermuda base on IH-3 merge at Montauk-Phi-Ex Wormhole Interface Port then transmitted to WTC and Pentagon Phoenix Spike Sites

The UIR began activation of Phoenix Matrix Spike Sites on August 12, 2001 Magnetic Peak, via Sub-Space Infrasound sonic scalar pulse transmission, creating a "Trigger Event" to expedite their OWO Illuminati WW3 agenda.
August-12: 2 Sonic Amplification Slow-Pulses launched, one from Aguascalientes (Cue Site-4)/ Chihuahua (PSG-3), Mexico on L4 line, the other from the Zeta's NCT-Base at Lake Titicaca Peru on the A7 line.
September 7: Two Slow-pulses intersect and blend at Phoenix Wormhole A7/L4 then travel to L4/A3 and up A3 Line to SG-3 Bermuda Base for storage and amplification.
September 11: 3 "Trumpet" Phantom Infrasound Sonic pulses released from Phoenix Wormhole and corresponding Amplification Slow-pulses released from Bermuda Base at 3 different times to activate Phoenix Matrix Spike Implants beneath the WTC and pentagon buildings.

2. PULSE-1: Pulse travels northwest On IH-4 to PSG-3 Chihuahua Mexico and North to L4 Giza Line.

1. PULSE-1: UIR Initiate Amplification Slow-pulse-1 from Q-4 Aguascalientes Mexico, August 12, 2001 Magnetic Peak

5. PULSE-2: Pulse travels north on A7 to A7/L4 to blend with PULSE-1 at Phoenix Wormhole on September 7. Blended Slow-Pulse continues west on L4 to A3/L4 intersection, then travels north on A3 to SG-3 Bermuda Zeta Base for amplification.

4. PULSE-2: UIR initiate Amplification Slow-pulse-2 from SG-7 Lake Titicaca Peru on August 12, 2001 Magnetic Peak.

On September 8, pre-existing terrorist cells were activated by UIR Illuminati to initiate the pre-planned September 11, 2001 "terrorist attack". Terrorist attacks were staged as "cloaking events" to disguise the Infrasound Sonic Pulse damage to Spike Site buildings. Philadelphia Independence Hall Spike Site was also intended as target, but UIR Trumpet Pulses not launched due to "Cover Plane" crash.
1995 Oklahoma City bombing "terrorist attack, and the Waco Texas Branch Davidian Massacre were also cloak-events for Omicron-Drakonian Infrasound sonic pulses; Parallel Earth SG-5 and the PH-5 "Oklahoma City-Waco" line were used for these pulses. The Waco/Oklahoma City events arose prior to formation of the 2000 UIR, due to Drakonian-Omicron Illuminati efforts to prevent Anunnaki holding Mexico bases from taking over the PH-5 line and the Zeta's Montauk-Phi-Ex Port Interface. More UIR Phoenix Spike Site activations are scheduled; they will be hidden beneath the UIR Illuminati-contrived illusions of localized terrorist activity and targeted "Un-Natural Disaster" cloaking events. The Emerald Covenant "Christos Realignment Mission" will progressively re-code Earth's grid lines to a natural 12-Code Pulse, preventing this type of abusive technology, but full protection will take time and until 2003-2006 Earth remains vulnerable to Sub-space Infrasound sonic scalar Pulse covert weapons and Psychotronics (biological targeting). Maharic Seal and related GA Bio-Regenesis Technologies afford protection from Psychotronics.

Organic **Planetary Star Crystal Seals** control Angular-Rotation-of–Particle Spin (Particle Spin Axis) and Planetary Merkaba Field Axis. When Organic Star Crystal Seals release, the dimensional levels of the planetary matter base, to which the Seal corresponds, become released from usual Particle Spin Phase lock, allowing the corresponding matter to **shift Time Vectors**. When Seals release, corresponding **DNA Strand Templates** and **DNA Fire Codes** activate, planetary grids and personal DNA Strands and Chakras begin to progressively purge electromagnetic distortions (Miasms). Can cause temporary planetary climatic changes and seismic activity in regions with a maximum 1000-mile radius, strongest within **100-mile radius** of Seal location. Temporary purging-related illnesses in biological life-forms may begin 3 to 12 months after Seal activation. D-12 Frequency, via use of the ***Maharic Seal Technique*** (re :Appendix 2) balances body and planet during Organic Planetary/DNA Star Crystal Seal opening. **Jehovian Seals** are designed by Jehovian Anunnaki to cause progressive catastrophic Earth Changes and biological illness leading to premature health deterioration and death; they can be progressively cleared in phases as they process through each level of their release cycles. Maharic Seal Technique temporarily buffers detrimental effects of Jehovian Seal release, but clearing of, and permanent protection from Jehovian Seals can only be achieved via specialized **"Veca-Code"/Merkaba/Trion Field technologies**. Veca-Code technologies are included in the Kathara Level 1 Manual and Dance For Programs.

The UIR MM-TURNSTILE Network and the Calgary RRT

- **25,500BC:** Lucifer Rebellion MM-Turnstile Network implanted by Necromiton-Andromie Nephilim Andromie-Anunnaki hybrids ("Archangel Michael" collective of Alpha-Omega Centauri).
- MM-Ts use **NDC-Grid** connection via **Ley Line-11** to control Earth's **Axiatonal Line verticals** by plugging Earth's captured **Golden Eagle/White Eagle APIN** to its reverse-matrix counterpart on **Parallel Earth. Main 11 MM-Ts run across Canada** and control the **secondary MM-Ts in Europe** that are known as the "**Michael-Mary Line**".
- **2001AD:** UIR began full activation of **HAARP** and **MM-Ts** between **September 3-11, 2001** to begin global **frequency fence transmission** for **mind control**, **DNA activation blocking** and **holographic inserts**. Phoenix "Spike Sites" linked to Falcon Wormhole to begin Wormhole Merger and start MM Turnstile full activation with September 11, 2001 WTC/Pentagon "Terrorist Attack" sonic pulses.
- **2001-2002: MM-Ts #s 1-2-3-5-6-7-8-9 activated** between September-3, 2001 - February 2002.
- **2002:** UIR presently **attempting to activate MM-Ts #10 and #11**, to reverse-sequence **Ley Line 11/SG-11** that the GA cleared in July 2001 recoding of NDC-Grid. UIR hopes to **use MM-T network** to **re-link Stonehenge NCD-Grid to Nibiru/Wormwood**, to create sufficient power to **link Falcon-Phoenix Wormholes and all APIN systems**, as **Wormhole link attempt was neutralized** via **2 Peru RRTs** December 2001-January 2002.

Calgary RRT February 10, 2002

1. Our ***Calgary Canada Eckasha-RRT*** will transmit D-12 Divine Blueprint and Eckasha frequencies to "***receiver***" placed at **Lake Louise MM-T #10**, as MM-T #10 starts activation **7:30-9:00PM February 10, 2002**.
2. RRT will carry D-12 Divine Blueprint into **center of MM-T#10**, causing its reverse-matrix **implant** to clear to a **natural D-12 pulse.** The cleared **MM-T #10** will then **transmit** critical mass D-12 to **still-dormant MM-T #11**, and the "**MM-T HUB implant**" in **Nebraska USA**, causing **MM-T #11 and HUB to clear** and activate on **12-code**.
3. MM-Ts #10 and #11 control the other MM-Ts, the **White Eagle APIN, Earth's vertical Axiatonal Lines** and the **European "Michael-Mary Line" Checkerboard Matrix** NDC - Grid programs.
4. **D-12 clearing of MM-Ts #10 - #11 and HUB** will **restore** Founders' **Golden Eagle APIN** to Divine Blueprint, progressively restoring Earth's **Axiatonals** to Divine Blueprint.
5. By **August 2003**, if **follow-up RRT** work is done in **England** at appropriate MM-T sites, the **MM-T Network, Planetary Axiatonals** and **"Michael-Mary" Line secondary MM-T** network will be **Christos-healed** and will begin **transmission of D-12 Divine Blueprint Frequencies**.
6. Clearing the MM-T Network will **greatly accelerate** final clearing of **24 NCT-Base** and **expedite activation of Four Faces of Man LPIN** to shift Earth into **Trion-Meajhe Field** protection in preparation for **2006** 3-Day Particle Conversion Period.
7. People presently under the "**Archangel Michael**" **mind-control frequency fence**, transmitted by the **MM-T Network**, will start to regain some of their free-will mental facilities as their **MM-T reverse-matrix implants** will start a **deactivation cycle.** Clearing MM-T implants will **take time and D-12 Healing applications**, but many presently victimized by this program will find enough personal Christos energies returning to make a **conscious free will choice** for the **Christos Path**, and to begin **healing work** for MM-T implant clearing.

The "Michael - Mary" White Eagle Control System, when the Matrix's 11 primary MM-T "Wheels" are activated in sequence, the "machine comes to life", progressively reversing the Natural Mathematical Sequences in Earth's grids to cause Pole Shift and full Merkaba reversal. Activation was blocked by a Divine Blueprint RRT on February 10th, 2002; set in Grids February 14th, 2002 and now transmitting D-12. UIR presently seek critical mass regional override of Divine Blueprint frequencies as they begin transmission through Turnstile Matrix. The Canadian Turnstile Matrix controls the secondary Turnstile Matrix in Europe which runs off the NDC Grid at Stonehenge.

- The Personal ***Radial Body*** or Trion-Meajhe Field is composed of **5 Hova Body Capsules** that manifest as electromagnetic barriers or "**frequency fences**" between each set of 3 DNA Strand Templates, each set of 3 associated Axiom Lines, Chakras and Meridians and between each 3-dimensional layer of the Auric Field and corresponding level of personal multidimensional identity.

- Each of the **5** 3-dimensional **Harmonic Merkaba Fields** corresponding to the 5 Hova Bodies of 15 Dimensional Anatomy *governs the function* of the corresponding **Dimensional Merkaba Fields, Radial Body level** and its imbedded **Memory Matrix**, via the mathematical program held in the personal Kathara Grid, Shields and **Crystal Body** template. The Kathara Grid program is passed from the **Keylontic Crystal Body** into the **DNA Template** via the **Dimensional and Harmonic Merkaba Fields** and the "mini-Merkaba Fields" of the Level-3 Kathara **Diodic Grid**.

- Each Hova Capsule **Radial Body level**, receiving its instructions from the DNA Template and 3rd dimensional Mental Body Hova Body level, in turn governs the function of the **chemically manifest DNA** and all body-consciousness systems that are built upon chemical genetic code.

- The **Harmonic Merkaba Field** governs the **particle spin axis** (Angular Rotation of Particle Spin) ratios of the energy units that make up its corresponding 3-dimensional system. Each **Harmonic Merkaba Field** corresponds to one **Hova Body**, one set of **3-dimensions** and the Matter Density Level characteristic of that 3-dimensional system. Each Hova Body, and thus each Harmonic Merkaba Field Level and Radial Body Level, corresponds to one set of **3 DNA STRAND TEMPLATES** within the Human 12-Strand Template.

- Full activation of **one Harmonic Merkaba Field** creates reciprocal activation of the corresponding set of 3 ***DNA Strand Templates***, which creates embodiment of corresponding levels of identity and consciousness (personality, Soul, Over-Soul, Avatar, Rishi etc). When one Harmonic Merkaba Field fully activates, through natural activation of the corresponding **Shields** and **Crystal Body Keylons**, the Harmonic Merkaba Field becomes capable of **merging** with the Harmonic Merkaba Fields from other Density Levels, in a process frequently called **Transmutative Dimensional Ascension**.

- During the process of "**Ascension**", (also called "space-time travel", "wave riding", "Star Gate passage", "Teleportation" etc.) the **Harmonic Merkaba Fields** of more than one Density Level merge, progressively shifting the **two or more different sets of 3-dimensional particles** into a **common particle spin axis angle and spin speed**. The corresponding **Axiom Lines, Hova Bodies, Auric Fields Levels, Chakras, Meridian Lines** and **Radial Body Levels** also merge.

Copyright A & A Deane, 2001, All Rights Reserved

- When Harmonic Merkaba Fields and their corresponding Inner Templar anatomy merge, the **Fire Codes** between the corresponding DNA Strand Template activate, **causing the DNA Strand Templates to merge**, which creates a reciprocal reaction called "**DNA Strand BRAIDING**" between corresponding **chemical DNA strands.** (The "Double Helix" configuration of "one strand" remains, as the chemical components of each strand overlay together to become a single Double Helix, containing the chemical programs of multiple DNA strands).

- Natural Braiding of the chemical DNA strands and activation of the chemical Turnstile DNA Sequences creates a series of **sub-atomic bio-chemical DNA responses** that allows for Internal **Atomic Particle-Anti-particle Fusion and Fission**. Natural **Internal Atomic Fusion-Fission** enables the manifest atomic structure to temporarily de-manifest, returning to "*spirit form*", by re-entering the electrostatic **Trion-Meajhe Field** of the corresponding **Radial Body Levels**.

- During the Ascension process, the Harmonic Merkaba Fields of **2 or more Density Levels** merge, forming various **PHASES of Merkaba** activation that create a **Trans-Harmonic Merkaba Field** that is called the **Merkaba VEHICLE**. The 3-Dimensional **NETHRA Phase** Merkaba Field of Density-1 accelerates in rotation speed to become the 6-dimensional **HALLAH Phase**, 9-Dimensional **Quatra Phase**, 12-Dimensional **Mahunta Phase** or 15-Dimensional **Rahunta Phase** Harmonic Merkaba Vehicle.

- As a phase of the Trans-Harmonic Merkaba Vehicle activates, the corresponding lower-dimensional **Hova Body and Radial Body Level dissolve,** their content of energy and consciousness **expanding** into the next Hova Body and Radial Body Level, forming a **Trans-Harmonic Radial Body "FORM CONSTANT"** within the **Merkaba Vehicle.**

- The Trans-Harmonic Radial Body and Merkaba Vehicle allow the consciousness and biological form to "de-manifest" from the lower dimensional Density Level. The identity can then **re-manifest** in another Density Level or space-time coordinate by projecting itself into the desired location, AS the electrostatic ***Trion-Meajhe Field*** **Trans-Harmonic Radial Body**, then returning the DNA Template activation level and Harmonic Merkaba Spin ratios to that of the new location for re-manifestation.

- When the Personal **Merkaba Field** is used to form the **Trans-Harmonic Radial Body** in the process of Ascension, the Merkaba Field is called a **MERKABA VEHICLE.** A ***Merkaba Vehicle*** is an electrostatic **Trion-Meajhe Field** of Primal Pre-Light-Sound, through which the consciousness (AKA "spirit") can move itself, *and its atomic structure*, through **thought-projection**, to a desired location beyond the "veils" of the Planetary, Galactic and Universal Hova Capsule-Radial Body-Form Constant barriers.

- Conscious mastery of the Personal Merkaba Field, through which the organic **internally created Merkaba Vehicle** Trans-Harmonic Radial Body becomes available for conscious direction, implies **conscious control of the DNA Template function**. The potentialities of **genuine Ascension** (etc...) and mastery of the Bio-Spiritual Consciousness are **inborn attributes** of the Human 12-Strand DNA Template. Due to a **species de-evolutionary genetic mutation**, that compromises natural function of the Personal Merkaba Field and DNA, the reality of Ascension on a species level has been lost to all but a few on Earth for over 200,000 years (ref: Masters Templar Course Book).

- The potentials of **Bio-Spiritual Actualization** CAN be returned to humankind through **reverse-mutation** of genetic dysfunction within the human genome and DNA Template. Healing the genetic template can be achieved by **manually employing** specific practices of **Kathara "Maharic Shield" Core Template Dynamics** in **combination** with **Harmonic Merkaba Mechanics**, through which the many eons of biological miasmic distortion can be progressively and rapidly cleared from the Personal Kathara Grid and DNA Template.

- Restoration of the D-12 Pre-matter Divine Blueprint within the Human Kathara Grid and DNA Template will eventually **free the Personal Merkaba Field** for use as a **Trans-Harmonic Merkaba Vehicle**. Kathara Healing applications and use of the D-12 Pre-matter Maharata "Christos" Current, to reset the biological D-12 Pre-matter Divine Blueprint, are the beginning steps in reclaiming Bio-Spiritual Mastery.

- The functions of the personal **Merkaba Field** and **DNA Template** are not only associated with abilities of **Atomic Transmutation** and **Dimensional Ascension;** they are directly linked to **every aspect of body-mind-spirit function**, including **biological longevity** and **health**, **memory**, **intelligence**, and **metabolic**, **chemical**, **metal** and **emotional balance** and stability.

- Most significantly, the **Merkaba Field/DNA Connection** is the Bio-Spiritual conduit through which the consciousness of an embodied individual is directly linked to the common Perpetual Force of Energy and Eternal Source of Intelligent Creation that is "**God**".

- When a being's Merkaba Field and DNA Template are functioning upon the innate program of **Universal Primal Order**, as it is held within the Pre-matter **Universal Divine Blueprint** of the D-12 "Christos" Liquid-Light field, the natural and perpetual supply of **Primal Life Force Currents** and "spiritual" consciousness emanating eternally from Source-God flow through an open energetic channel or "**Pillar of Light**", which is called the "Um Shaddai Ur" (Pillar of First Cause Light-Sound") into the manifest embodiment. Such a being is called a "**Christed Being**". This implies that the integrity of its original D-12 Pre-matter Divine Blueprint has not been structurally compromised, and thus the perpetual Life Force Currents, consciousness, sentience, intelligence, wisdom, power, Will and LOVE of Source can freely express through the Um Shaddai Ur into the manifest hologram of the Time Matrix, through the Christed embodiment.

Copyright A & A Deane, 2001, All Rights Reserved

- If the Kathara Grid, DNA Template and Merkaba Field of a being are damaged and no longer carry the **original mathematical-geometrical program** of the **D-12 Divine Blueprint**, through which the being entered space-time, the flow of Primal Life Force Currents, the Um Shaddai Ur Pillar and thus the active consciousness connection to God will be distorted, reduced or severed at the dimensional level to which the template distortion corresponds.

- A manifest being incapable of running the Primal Life Force Currents of the Um Shaddai Ur "Pillar" becomes **biologically finite**, its consciousness "trapped in the Time Matrix", even following death of the physical body. Due to the **natural Laws of Creation Physics**, as set by Source-God, this condition of **finite mortality** will remain until the being's **Kathara Grid Template and Merkaba Field connection** to the D-12 **Universal Divine "Christos" Blueprint** and Universal Trion-Meajhe Field Um-Shaddai-Ur Pillar are restored.

- Healing Core Template genetic distortions that are severe enough to cause dysfunction of the Personal Merkaba Field first requires **resetting of the D-12 Divine Blueprint** through activation of the **Personal Maharic Shield**. Until the Body-Mind-Spirit system has reached a **Critical Mass** of D-12 Divine Blueprint holding, through frequent and progressive manual running of the D-12 Maharata Current, Healing Core Template genetic distortions **also requires** simultaneous, direct and repeated **manual realignment** and **restoration of Personal Merkaba Field function** and **Radial Body Trion-Meajhe Field** integrity.

- If there **are distortions within the Kathara Grid or DNA Template** of an individual or species, the Personal Merkaba Fields will not function in harmony with the **natural energy circulation rhythms** of the **Planetary, Galactic, Universal** and **Time Matrix Merkaba Fields** and Universal Kathara Grid. Such Kathara Grid distortions create tangible **genetic** and **consciousness mutation** within biological organisms and can divert the **intended evolutionary destiny** of an embodied consciousness or species on to a divergent path of **de-evolution and consciousness fragmentation**, unintended by the original plan encoded within the D-12 Pre-matter Christos Divine Blueprint.

- Distortions within the DNA Template, and resulting **Miasms**, can be purged through **manual resetting of the D-12 Pre-matter Divine Blueprint**, via repeated manual activation of the Personal Maharic Shield. The activated **Maharic Shield** runs the Density-4 D-12 **Maharata Primal Life Force "Christos" Current** through the Kathara Grid and form embodiment, progressively resetting the original mathematical coding of the personal Divine Blueprint within the Kathara Grid and DNA Template. Use of the **Maharic Shield techniques** in *Kathara Level-1* sets this process of **Core Template Regeneration** in motion.

- The Core Template "Divine Blueprint" healing process can be expedited through applied **Christos-Merkabic Healing Mechanics** such as the ***Tribal Shield Activation*** (Technique-7), ***Merkaba Salutation*** (Technique-8), ***Merkaba Trinity Key Induction*** (Technique-9) and the ***Kee-Ra-ShA' Activation Sequence*** (Technique-12).

- Divine Blueprint Healing can be expedited further through **manual restoration** of the personal Trion-Meajhe Field **Radial Body** and its inherent **Memory Matrix**. **Radial Body Healing**, when **combined** with ***Kathara Maharic Shield*** and ***Christos-Merkabic Healing*** dynamics, is the most powerful and rapid Holistic Healing technology available.

- **Radial Body Healing** dynamics, which also serve to progressively restore the organic **Memory Matrix**, involve use of the specific **mathematical programs** that govern formation of the **Radial Body Trion-Meajhe Field**. These mathematical programs are called **VECA CODES**.

- **Technique-10,** ***Restoring the Trion Field-Photo-Radionic Healing*** **and Technique-11,** ***Restoring the Meajhe Field-Photo-Sonic Healing***, provide introduction to **Radial Body Healing Mechanics**. Use of these techniques, in **combination** with **Technique-2,** ***The Maharic Seal and Liquid Light Cleanse*** and **Merkabic Healing Techniques 6-12**, will **greatly expedite** the personal healing process while **significantly increasing** the body-mind-spirit abilities to **receive, hold/sustain and transmit greater quantity and quality** of interdimensional frequency in the Client Healing Facilitation process.

Radial Body Transduction-Manifestation Sequence

1. From the **Planetary Merkaba Field** (via the Planetary Shield, Axiom Lines, Hova Bodies Vortices, Meridian Lines and Radial Bodies), **rhythmic pulses of Conscious Primal Life Force Currents** enter the species and personal **Kathara Grid Core Template** as Primal Units of **Partiki**.

2. Within the **Kathara Grid Template**, the **Partiki Units** pick up the **mathematical-geometrical program** from the **Maharic Shield** "Divine Blueprint" Template, **polarize** to form **Particum** and **Partika Units**, then **accrete** to form **3-dimensional** electro-magnetic **Partiki Grids** called **Keylons**. The Keylons group together mathematically, forming complex templates of **Crystallized Keylon Codes** (or "***Keylon Thought-Crystals***"), which create a mathematically encoded **3-dimensional Morphogenetic Field** ("**Keylon Thought-form Field**" or Morphogenetic "**Keylon Crystal Grid**") carrying the manifestation blueprint program of the Maharic Shield.

3. As the Primal Life Force Currents of the electromagnetic Keylon Crystal Grid interact with each other, following the program of the D-12 Pre-matter **Universal Divine Blueprint**, they form **sets of spiraling electro-magnetic vortices** called **Merkaba Fields**, which carry the Maharic Shield-Kathara Grid Blueprint program into formation of the **DNA/RNA Template** Keylon Crystal Grid.

4. From the DNA/RNA Template, held in the Kathara Grid, Primal Life Force Current carries the **Keylon Crystal Grid** of the blueprint into the **Axiom Lines**, **Hova Bodies**, **Auric Field**, **Chakras** and **Meridian Lines** systems, finally carrying the Keylon Crystal Grid of the Divine Blueprint into the **5 Radial Body "Tissue Capsule" Levels**.

5. Within the **5 Levels of the Radial Body**, the **incoming Keylon Crystal Grid** translates into **electrostatic Trion-Primal Pre-Light Units** (gaseous pre-light Ante-matter) and **Meajhon-Primal Pre-Sound Units** (units of vibrating pre-sound energy) that possess a neutral electrical charge. The **Encoded Primal Life Force Currents** (PLF Currents+ Keylon Crystal Grid blueprint program) are converted into a **Trion-Meajhe Field blueprint replica**; a "Primal Light-Sound" translation of the original blueprint.

6. The **Encoded Primal Life Force Currents** then travel, **AS the Encoded Trion-Meajhe Field**, into the **Radis Lines** in each of the 5 Levels of the Radial Body. The Radis Lines first replicate and store the **mathematical blueprint encoding** of the **Trion-Meajhe Field**, then **polarize** the neutrally changed Trion-Meajhe units into **electromagnetic units** called **Mion** (-) and **Dion** (+) **Ionic Particulates**. The replicated **Trion-Meajhe Field blueprint** becomes part of the "Primal ***Pre-sound*** vibration" ***Meajhe Field*** **Inner Layer** of the ***Radial Body*** **Trion-Meajhe Field**, serving as a living "***Memory Matrix***" composed of **Meajhon Units** "Primal Pre-sound vibration". The **polarized Mion/Dion Units** become the foundation upon which the "**Strong and Weak Nuclear Force**", **Electromagnetism, quarks, Muons, Meason, Sub-atomic Particles** and **Anti-particles** etc. form. Particum-based **Mions** ("Base magnetic") become **particles, negative electrical charge units** like **electrons** and **sound spectra**. Partika-based Dions become **anti-particles, positive electrical charge units** like **protons** and **light spectra**.

7. Blueprint-encoded Primal Life Force Currents, in the form of **Mion-Dion Fields**, then translate the original Kathara Grid Blueprint into **Quarks, Muons, Measons, Sub-atomic** and **Atomic particles** and **anti-particles**, which **accrete** according to the blueprint to form **molecules, elements, chemicals**, the **Chemical DNA Blueprint** and the **physically manifest body form**. As this occurs, the **body image "flashes on"** into manifestation as a **Pulse of Life Force Consciousness**, carrying the **Chemically Translated Holographic Image** of the body form template blueprint. This Pulse of Consciousness continues to expand from the Kathara Grid and DNA via the Transduction Sequence, through and beyond manifestation of the body image and into **projection of portions of the Dimensional Unified Field** that **holographically translate** into **individualized experience** within a perceived **Common Planetary Time Rhythm and Matter Field**.

NOTE: ***An individual will holographically perceive and experience only the portions of the Dimensional Unified Field mathematical-geometrical program that are encoded within the personal Maharic Shield, species Tribal Shield and Planetary, Galactic and Universal Shield aspects of the personal Kathara Grid and DNA Template.***

A **global population** experiences a **common planetary reality field and time continuum** because the Kathara Grid Template and DNA of all beings entering a planetary field **adopt the common imprint** of the mathematical-geometrical program of the **Planetary Kathara Grid** blueprint in order to enter into the electromagnetic domain of the Planet's Form Constant Hova Body structure, for experiential manifestation. Members of a **singular species** share a common **species Tribal Shield** template, through which a **common Chemical Body Form** and perceptual orientation holographically manifest. The imprint for **individuality** in biological form, life experience variation and the application of **Free Will Choice**, is held within the mathematical program of the **personal Maharic Shield** D-12 Pre-Matter Divine "Christos" Blueprint. Imbued within the mathematical program of the Human species Tribal Shield, and that of some other species, is the imprint for **probability** to exist. The Human species Tribal and Maharic Shields carry a program that allows for **new programs of probable creation** to be **added** to the personal and species **Kathara Grid**, allowing the embodied consciousness to retain **a degree of direct influence** over what sets of mathematical programs will be called into personal experiential Holographic Expression from the personal Maharic Shield Template. **Creative variation** on the original personal, species, planetary and galactic Divine Blueprint is possible, as long as the new probabilities do not deviate so excessively from the Pre-set programs and **Original Intentions** of the Universal Divine Blueprint, that the **structural integrity** and **Source-God Will Intentions** for our Time Matrix become **irreparably compromised**. **Free Will thus exists within a pre-set framework of overriding Divine Will**, and is permitted free reign in the manufacture of **co-creative experiential probability** up to a point at which the Original Divine Will of Source and the creative framework itself become unduly jeopardized.

8. The physical body form serves as a **Chemical Lens** through which portions of the **Dimensional Unified Field** are perceived by the embodied consciousness as a **3-dimensional Hologram**, as the Primal Life Force Currents continually carry **pulses of the individuated consciousness** through the ***Transduction Sequence*** from the Kathara Grid, through the DNA, to the manifest Chemical Lens of the physical body structure and Holographic "external" reality field projection.

9. As a Keylon-Thought-Form blueprint traveling on one Pulse of Consciousness **fully expands** (fully "Activates") into the manifest externalized hologram, **another Pulse of Consciousness** is released from the synchronized mathematical programs of the Planetary Merkaba Field, which sets the Transduction Sequence in motion ("initiates") for the ***next portion* of the personal mathematical blueprint.** The blueprint of the **Planetary Kathara Grid** regulates the **cyclic rhythms** at which **Pulses of Life Force Current** will be released through the **Planetary Merkaba Field**; the Planet releases "**Pulses of Time**".

> **NOTE:** The linear time experience of life forms on a planet is synchronized into specific singular continua and cycles of time through the DNA Template; the species Tribal Shield, personal Maharic Shield and DNA Template are imbued with the exact mathematical programs of the specific Planetary Time Cycle and Continuum or "Time Wave" into which the consciousness intends manifest embodiment. A singular Time Wave constitutes a Time Continuum, within which there are specific repeating cycles of progressively accelerating Pulses of Time that collectively form the linear time-progression continuum of a Planetary Cycle.

10. As one **Pulse of Time/Consciousness** brings its blueprint into manifest **Critical Mass Expansion** (fully activated specific portions of the blueprint in Holographic Expression), the Planetary Merkaba Field releases the **next "incoming" pulse** of Time, which carries the next portion of the Kathara Grid mathematical blueprint into the Transduction Sequence. As the new Pulse enters the Transduction Sequence and begins **Expansion** toward manifestation, the **first pulse** of the **fully expanding hologram** begins **Contraction**, entering a **back-return** through the **Reverse Transduction Sequence** (matter-*chemical* DNA-*Sub-Atomic units*-Radis *Mion/Dion units*- Radial Body *Trion-Meajhon units*-Meridian Lines-Chakra-Auric Field-Hova Body-Axiom Lines-DNA Template-Merkaba Field-Morphogenetic Thought-form Field *Keylon Grids & Units*-Maharic Shield Template & Kathara Grid *Partika and Particum Units*-Planetary Merkaba Field *Partiki* Units)

11. As **pulse-1 contracts** its hologram program **moving backward** through the Transduction Sequence, creating the "**Remembered Past**" **moment**, the **pulse-2** simultaneously **expands** its hologram program, **moving forward** through the Transduction Sequence, birthing the as-yet-to-come "**Future**" **moment.** The backward moving "**Past**" **pulse-1** and forward moving "**Future**" **pulse-2 intersect** at the **Radial Body Levels**, in the Transduction Sequence. This "**past pulse-future pulse intersection point**" is called the **Eiron** (E'r-on) **Point**, also known as "**Zero Point**", the "**Present moment of conscious focus, within the hologram**", or the "***Eiros*** Conscious, Breathing Life Force Stream" (Also referred to as the "**Stream of Consciousness**", the "***Living Holy Spirit***" or the "***Breath of God***" etc.).

12. The *Eiron/Zero Point*, or **Eiros**, is the "**Present Moment of Creation Power**" for the "manifest" conscious identity. It exists at the position where the **third dimensional field**, the electromagnetic **Resonant Tone** "**Mental Body**" field of a single 3-dimensional Hova Body, **intersects** with the **Meajhe Field Inner Layer** of the corresponding **Radial Body** Tissue Capsule.

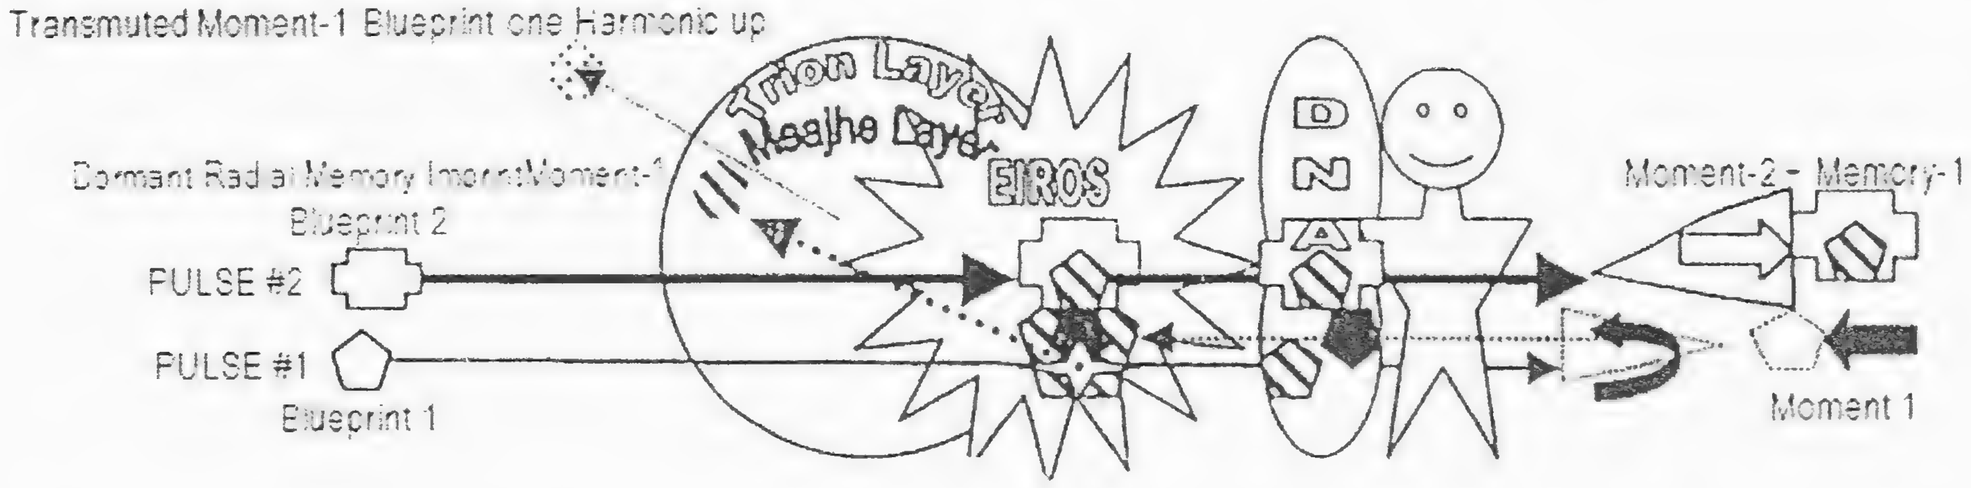
13. As the backward moving "**Past**" **pulse-1** and the forward moving "**Future**" **pulse-2 intersect** at the Radial Body Meajhe Layer **Eiros** (Eiron Point), the returning **contracting pulse-1** passes through the Trion Layer and into the **Meajhon blueprint replica**, called a "**Radial TILE**" that it **left behind** in the Meajhe Layer **Eiros**, during pluse-1's **incoming** passage. Just as the returning pulse-1 retreats, back through its Radial Tile, the **incoming pulse-2**, carrying the next **blueprint** coding, **simultaneously** passes through the **first Radial Tile**, **combining** the "**past**" **Radial Tile**, mathematical-vibrational blueprint, with the **incoming pulse-2 blueprint.** At this moment-point, the hologram template from the "post moment" is adopted by the incoming "future moment" pulse-2 and expanded by the pulse-2 blueprint.



14. As pulse-2 picks up the pulse-1 Radial Tile, the **retreating pulse-1**, which now **holds the Radial Tile blueprint in *reverse mathematical sequence as TRION Pre-light Units***, collides with the incoming pulse-2. Both pulses carry the **common blueprint** of the first Radial Tile; the **incoming pulse-2**, holding the blueprint n **forward** mathematical sequence as ***Meajhon Pre-sound Units***, the **retreating pulse-1**, holding the blueprint in **reverse mathematical sequence** as ***Trion Pre-light Units***. As the expanding/advancing and

Radial Body Healing, the VECA CODES, DNA and Merkaba

- Veca Codes, also called the "I AM" or "**Immanuyana Sequence**" are very specific **SYMBOL CODES**, each possessing corresponding **Sound Tones** called ***Arieas*** and **energy movements** called ***Seurias***, which correspond to the Cosmic, Universal, Galactic, Planetary and Personal **Trion-Meajhe Field Radial Body Levels**.

- There are **5 categories of Veca Codes**, the Planetary **Low-Veca *Codes of Manu*** (Taurenic-Akashic Codes), the Galactic **Mid-Veca *Codes of Immanu*** (Akashic-Eckashic Codes), the Universal **Level-1 High-Veca *Codes of Immanuel*** (Dolaric-Rishic Codes), the Cosmic **Level-2 High Veca *Codes of Immanuyana*** (Triadic-Polaric-Eckatic Codes) and the God-Seed **Yunasai *Codes of Eckasha*** (Source Codes).

- Beginning applications of Veca Code Radial Body Healing begin with restoring the Trion-Meajhe Field Radial Body through resetting the ***Yunasai*-Eckasha and High Veca *Immanuyanas* and *Immanuel* Codes**, through **frequent manual Direct Induction** of their corresponding **Symbol Codes** and **Sound Tone/Arieas**.

- The most powerful **Yunasai-Eckasha Codes** are **PHOTO-SONIC Codes**, carrying the Mathematical Programs of the ***Khundaray Current*** Primal Sound ***Meajhe Field*** AND their bridging **God-Seed vibration-rhythms** connecting to Source. The **Level-2 *Immanuyana*** and **Level-1 *Immanuel* High Veca Codes** are **PHOTO-RADIONIC Codes**, carrying the Mathematical Programs of the Trion-Meajhe Field **Khundaray Primal Sound** AND **Kee-Ra-ShA Primal Light Currents**.

- **Consistent use** of the **Veca Code Radial Body Healing**, in combination with **Merkabic and Kathara Healing** applications, will progressively **clear the Miasmic Body** and heal, balance, re-integrate, and restore the Divine Blueprint within the energies of the **Phantom-Shadow Self** in all levels of the Body-Mind-Spirit system.

- More advanced applications of Veca Code technologies include use of the **Mid-Veca *Immanu*** and **Low-Veca *Manu* Codes**, and the corresponding ***Seurias*** (body movements to direct frequency), following a period of initial induction and activation of the Yunasai and High Veca Codes. Full Spectrum Veca Code technologies are introduced in the "***Dance of Life***" Masters' Spiritual Development Program.

- **Induction**, or **IMBEDDING,** of the High Veca Codes into the 15-Dimensional Anatomy involves placing the corresponding **Symbol Code Sequence** (mathematical program) over the **regions of the physical body** that correspond to the appropriate aspects of the Kathara Level-2 **Crystal Seals Grid** and Level-3 **Diodic Grid**. Once the Symbol is in place, the **breath** is used to direct **D-12 Maharata Current** through each **Symbol Code** and **body region**. Use of the **Maharata Current** "carrier wave" (via **activation of the Maharic Seal/Shield**) is **required** to **induce** the

codes **mathematical program** into the **Diodic** and **Crystal Seals Grid**, where the program will then naturally transfer into the corresponding areas of the **Level-1 Kathara 12-Tree Grid** core template.

- Once the High Veca and Eckasha Code Sequences are Imbedded/induced into the Level-1 Kathara Grid, they are then Activated in the Kathara Grid by **TONING** the corresponding **Veca Code Ariea Sequence**. The longer toning is sustained, the greater will be the quantity and quality of Veca Code Activation.

- Once Activated, the Veca Code programs travel upward through the stages of the **Transduction-Manifestation Sequence** from the **Kathara Grid**, to the **Shields**, into the **Keylon Crystal Body Morphogenetic Field**, then into the **Merkaba Field**, **DNA Template** and **Hova Body/Radial Body Levels**, temporarily restoring the **Christiac Merkaba Field**, **Radial Body** and **Memory Matrix Divine Blueprint. Frequent and continued use** of the Veca Codes will progressively build **Critical Mass** of the **Divine Blueprint program simultaneously** within **ALL levels** of the 15-Dimensional Anatomy, eventually culminating in expedited full restoration of the D-12 Maharic Shield blueprint within the Body-Mind-Spirit system, via the Radial Body Trion-Meajhe Field.

- Activation of the Yunasai and High Veca Codes within the personal body **prior to conduction a Kathara Client Healing Session** will cause the facilitator's **Level-3 DIODIC GRID to activate**, temporarily **transmitting Veca Code sub-harmonics**. This will cause the **minute Diodic Chakras** in the facilitators **FINGER TIPS** to activate **if the Palm Chakras** have been activated with either pure **Maharata Current** or a selected **Triadic Phase Current**. The facilitator will then **automatically transmit** Veca Code sub-harmonics into the client's **Diodic Grid** while conducting general Kathara Healing applications, allowing the client to benefit from temporary **Radial Body healing support**, which will **amplify the effects** of all healing applications.

- A more **Temporary Imbedding and Activation** of the Veca Code program can be achieved through **OPTICAL-PINEAL INDUCTION**, whereby the **eyes** are focused for a time upon the **Image** of the **Symbol Code**. The mathematical Veca Code program enters the **Pineal Seals** through the **Optical Currents** and **6th Chakra** and then travels for Imbedding/induction through the **Central Vertical Current** into the body regions and Crystal Seals Grid areas to which the Veca Code corresponds. The **Veca Tones/Arieas** are then used to Activate the Imbedded Veca Code Sequence.

- In **Optical-Pineal Induction**, the Veca Program loses a bit of **frequency charge/strength** during its travel in the Central Vertical Current. This creates a **more temporary imbedding and activation** of the Veca Codes than that which is achieved through Direct Induction. Optical-Pineal Induction is useful for **daily amplification** of the Vecas and for Kathara Healing Client Sessions and planetary grid "site work", when used in **combination** with the **full induction procedure** employed at least **once per week**.

- To receive **full benefit** of **Veca Code Radial Body Healing** applications, **Technique-2, *The Kee-Ra-ShA Activation Sequence***, should be fully run at least **ONE TIME**. *Technique-2* can also be used occasionally thereafter if desired to create **intensification and amplification** of the Primal Life Force Currents during Kathara, Merkabic and Veca Code Healing technologies.

- Frequent use of **Technique-13: The "Song of Lyra"** Christos Invocation will amplify all Kathara, Merkabic and Veca Code Radial Body Healing applications.

Technique # 10

Restoring the Trion Field-Photo-Radionic Healing

Creating a Personal Bio-field Link to the Universal Christos-Trion-Meajhe Field

Masters Merkaba Mechanics

***Exercise - 1*: Once per day**, do **Maharic Insta-Seal.** Then practice **each set** of **Veca-tones** separately while fixating **visual focus** on corresponding **Veca-Code** symbol; spend at least **three or four minutes** gazing at each symbol (optical-pineal induction) while toning corresponding tones (core template vibrational induction). With practice this will progressively expand the personal consciousness while activating the personal Christos-Trion-Meajhe Field of your Christos-Rishiac-Ascended Master identity levels within the cellular structure.

Exercise - 2: Once per week, directly after completing **Exercise - 1**, place all Veca-Code symbols over designated body areas, activate Maharic Shield, breathe D-12 Maharata Current through each symbol and body area **to induce code**, using the **Bi-Tri-Khu-Dha-Ra Sequence**, then begin toning the corresponding tones following the Bi-Tri-Khu-Dha-Ra Sequence. Memorize the tone sequence of the 5 High-Veca Codes as if it were a "song" and relax, close eyes and sing/tone this "song" (Psonn) for **5 to 10 minutes**. The longer you tone, the more frequency power you build within the body and the stronger your link will be to the Universal Christos-Trion Meajhe Field. This exercise can also be used with groups, either singularly to create and amplify Christos-Trion- Meajhe Field links or just prior to beginning RRT work. Frequent and consistent use of these two exercises will progressively develop the spin-rate capacity of the personal Christos Merkaba Field, while expanding higher consciousness within the body and progressively enhancing the health, immunity and integrity of the Mind-Body-Spirit system.

Technique # 11

Restoring the Meajhe Field-Photo-Sonic Healing

1. Use **Technique-6:** ***The Maharic Quick Seal***, to activate your Maharic Shield/Seal and Maharata Current.

2. **Stare at image** of the **Eckasha Code** for a few seconds. Then gently begin to "**Cross Eyes**" until you can see a "**Double Image**" of the Eckasha when looking at the image. **Hold "Eye Cross"** focus while taking **three rapid breaths**; on each **EXHALE** projecting a **stream** of (D-6) **INDIGO current** from your **6th "3rd Eye" Chakra** at forehead. (This braids D-6 Optical Currents into a D-12 Current to carry the Eckasha program into the Pineal Seals). Un-cross eyes, relax visual focus and close eyes for a moment or two.

3. **INHALE** several breaths of **Pale Silver D-12 Maharata Current** up from the **Earth Core** through your **Maharic Cord**, on each **EXHALE** depositing the Maharata Current in the **Pineal Gland** at the center of the brain, to form a Pale Silver "**Maharata Ball**" in the Pineal.

4. Breathe gently and return **visual focus to the image of the Eckasha, focusing** upon the **Eckasha Core** ***REUCHE'*** (the "Double Circles" and their content at center of Eckasha).

5. **EXHALE** while projecting a **stream of INDIGO current** from the **6th Chakra** into the **REUCHE'** symbol before your eyes. **INHALE** while drawing the **INDIGO current stream** with the **REUCHE' image at its end** back through the **6th Chakra** and into the **Maharata Ball** in the **Pineal**.

6. **INHALE** one more breath of **Maharata Current** up from **Earth Core** to the **Maharata Ball** at the **Pineal**, then use a forceful EXHALE to PUSH Eckasha-Reuche' encoded Maharata Ball out to the right, to the 'Mentor" position over the right shoulder. Visualize the Maharata Ball growing to the size of a "Basket Ball" over the right shoulder, and visualize the image of the Reuche' as expanding to fill the inside of the Maharata Ball.

7. **INHALE forcefully** while drawing the **Maharata Ball** back to a position **centered around your head**, then use **three breaths** to **INHALE Maharata Current** up from **Earth's Core to Pineal** and EXHALE the **Maharata Current outward** to fill and **expand the Maharata Ball**.

8. Visualize the **Maharata Ball** expanding outward from around your head, until the Maharata Ball **fully encompasses your body and entire Chakra System**, from **Chakra-14** 36" above head to **Chakra-13** in Earth Core. Imagine that your entire body is now surrounded by a 3-Dimensional "Eckasha Tear-Drop" shaped CLEAR CRYSTAL CAPSULE. The Eckasha Code Photo-Sonic Capsule is now temporarily activated in your Inner Templar system.

The Song of Lyra Christos Invocation

The Vectos Invocations

The Vectos Compendium Declariti

The Vectors Collective Declarations

(All self incarnations in all Time Vectors declaring in Unity as the Avatar Self)
English translation from Elohei-Anuhazi Emerald Covenant Decree Texts:

The Mah'-ah' Bi-Vectus Declaritum

Declaration of the Maharata

(Intention Decree AS the personal D-12 Christos Avatar Maharata self identity)

I decree now in this moment of KNOWING that all things here within me are henceforth restored to the original Divine Intention of the ONESELF that is MINE.

I release now all bonds of manifest illusion that place veils of SELF-forgetting before mine eyes.

I revoke all separations of duality through which my Heart is rendered numb with disillusion and discord.

In this moment I reclaim the Whole of my Condition, reaching forth into the depths of all creation to now call my SPIRIT home.

I AM the Sun of the Radiant Glowing. I AM the HEART of Divine LOVE. I AM the Still Point of the Face of All Creation. I AM the Voice of the Universal Song.

decree now in full remembered Knowing that I AM ALL and WE are ONE.

In setting forth this decree of my Eternal Divine Power, I shall render Divine Intention only, through which the All and I are equally served in the Highest Order of our collective Best Divine Intention.

I call now unto the many Selves and Shadows ensconced within the illusions of time, and decree unto that that I AM THIS, I AM.

I AM the wind that brushes thy faces.
I AM the rain that renews thy field.
I AM the Whisper of the Breath of God within YOU.
WE NOW are the expression of Divine Heart, Mind and Hand.
WE are the Rumbling Hymn Song of the earthen worlds of matter.
WE are the Prana-Breath of God Eternal, manifest.
WE are the Waters of Eternal Life forever outward flowing.
WE are the cooling, life force Flame of the Cosmic Fire expressed.
In our UNION now and always, declare WE in our Wholeness, that all dissidence is rendered spent, all conflict NOW made healed.

As DIVINE NAME THIS ..... (your Christos spiritual name)
I AS WE, the Maharata KHUM BI-Vec'TUS, (D-12 Christed Avatar Divine Blueprint self identity), DO NOW DECREE through the Divine Love, Wisdom and Power that is MINE ... to express now AS this moment, the condition of **Mah'-ah BI-Vec'TI UN UR'-A-OR'-NaM'-OOR** (Christos beginning and ending NOW-completion of a manifest expression in its originally intended Divine Fulfillment, its past-present-future full expression made in the present time, clearing all duality, disharmony and distortion. Anchoring of the Divine Christos Maharata Blueprint in the moment). Upon this Invocation Divine Intention is rendered manifest in all conditions to which I now assign.

The REAL Christ Crucifixion, Checkerboard Mutation, Jehovian Death Seals and Axi-A-Tonal Lines

Axi-A-Tonal Lines

Axi-A-Tonal Lines are the points where rotating, single- axis"flash-line sequence" transmission lines from the embodied Seed Crystal Seals cross over and through each other to form 12 Primary Vertical Flow Lines in the body. The Axi-A-Tonal Lines create the web-work of energy by which the salar-wave frequencies of the core Kathara Grid and DNA Template translate into the Chakra, Meridian-Nadius Line and chemical DNA systems. Each Axi-A-Tonal Line corresponds to a Dimension, DNA Strand Template, Chakra, Seed and Star Crystal Seal and dimensional level of consciousness, and carries the Color associated with the primary wave-length of its corresponding Dimension.

Corresponding Frequencies, DNA Templates, Chakras, Seed and Star Crystal Seals all correspond to one Dimension number.

Inner Christ Crucifixion and the Checkerboard Mutation

The Pleiadian-Nibiruian Anunnaki's NDC-Grid "Checkerboard Matrix" Sonic Program running through Earth's Templar since 25,500BC reverses the Natural Fire Letter Sequences and polarity of DNA Templates 1-2-3 and Axi-A-Tonal Lines 1-2-3-4-7-10 and one-half of Axi-A-Tonal Lines 5-8-11. Resulting DNA Template and Axi-A-Tonal Line distortions block the embodied D-12 Pre-matter "Divine Christos Blueprint" of Earth life forms and link the body to the Reverse Matrix EM currents of the Phantom Matrix. The MAN "Jesus Christ" (Jesheua-12) was not crucified, he ascended via Star Gates; the false " Crucifixion" story was invented by Annu-Elohim and Anunnaki to symbolize their Intentional "crucifixion" of the INNER CHRIST D-12 Maharata Current within Earth life forms. Checkerboard Matrix Axi-A-Tonal Line blockages were represented as the "Crucifixion Wounds of Christ". D-12 Maharata Christos Current is available on Earth as of January 2000 for first time since 208,216BC, offering Humanity the opportunity to "come down off the Nibiruian cross" and re-set the D-12 Divine Christos Blueprint within the body via use of DNA Template Bio-Regenesis Maharic Seal technologies which can clear the NDC-Grid Checkerboard Mutation that has reduced Human Life span, chemical DNA, brain function and blocked Race Memory since 25,500BC.

UNNATURAL 7 JEHOVIAN SEALS - THE EMBODIES "DEATH SEALS"

The Unnatural 7 Jehovian Seals in the body progressively activate in response to release of the unnatural 7 Planetary Jehovian Seals implanted in Earth Templar by Intruder Jehovian Anunnaki. All J-Seals are on left side of body along Axi-A-Tonal Line-7. Jehovian Anunnaki designed the J-Seals Program to drag Earth and its life froms into Phantom Matrix; full activation of the J-Seals causes biological death with the Astral Body and consciousness being drawn into Phantom Matrix. If J-Seals are not cleared, progressive deterioation of the body results during SACs. J-Seals activate 3-12 months after release. Use of the High-Veca Codes and Christos -Trion-Meajhe Field Link are the only ways to clear J-Seals. Seals clear in layers over time as they are "time released", synchronized with J-Seal release phases in the Planetary Templar. Use of High-Veca Code Tone Sequence with Maharic Seal running of the D-12 "Maharata Current" is the place to start for J-Seal clearing (see Christos-Trion-Meajhe Fields Veca Code and Universal Life Force Current Chart for Veca-Code Tone Sequence).

12-Strand DNA Template, Vector Codes and ...ls

The 12 Strand DNA Template, Vector Codes and the Genetic Alphabet

The Human genome is arranged into 12 dimensionalized mathematical programs, each of which set the blueprint for one Double-Helix chemical DNA Strand. Each Double-Helix strand blueprint is composed of 12 base-magnetic (Mion) "female" Base Codes and 12 base-electrical (Dion) "male" Acceleration Codes. When the Human genome is functioning naturally, the 12 Base Codes and 12 Acceleration Codes, that hold the mathematical program for each Double-helix strand, combine to form a set of 12 Electromagnetic **VECTOR CODES** (one Base Code plus one Acceleration Code = one Vector Code). The 12 Vector Codes of the Human genome manifest as **12 NUCLEOTIDE BASE CHEMICALS** that form the **Nucleotide Base Pairs** of which the chemical Double-helix DNA Strands are composed. Due to the NDC-Grid "**Checkerboard Mutation**" unnatural sonic control program in Earth's grids, only **four Vector Codes** have been active in biological Earth life since 25,500BC, making the chemical DNA of Earth life falsely appear to be a "Base 4 Genetic Alphabet". Through DNT Template Bio-Regenesis technologies, the natural Primal Life Force Currents of D-12 – D-15 can be used to reset and reawaken the Base-12, 12 Double-helix Strand Human DNA Template and chemical DNA genome. Awakening of the 12 Strand Silicate Matrix DNA Template will allow for dormant "**Turn Stile DNA**" sequences, and their transient bio-element "**Celestalline**", to chemically manifest within the chemical DNA **Hydrogen Bonds**. This will return to humanity biological potential of atomic transmutation for Star Gate passage and self-directed biological ascension out of D-3 Density-1 matter density.

DNA, Fire Codes and DNA Seals

In **SACs** dormant aspects of the Human Silicate Matrix come into activation in response to the progressively accelerating frequency spectra running through Earth's grids via opening Star Gates. Between each pair of Human Double-Helix DNA Strand Templates, there is a composite scalar-wave program called a **FIRE CODE** that serves as a frequency seal between each pair of DNA Strands. The **12 FIRE CODES** that exist between the **12 Double-Helix Strand Template** contain the mathematical instructions that govern the **Star Crystal Seals** within the Human body, which keep the Primal Life Force Kundalini-Maharata Currents of the embodied levels of consciousness and atomic matter Density levels separate. Fire Codes activate in response to release of the 12 Planetary Star Crystal Seals (**PSC-Seals**); when a PSC- Seal releases/initiates, the DNA Template Fire Code corresponding to the frequency program of the PSC-Seal also initiates. DNA Fire Code activation begins the organic process of **DNA Strand Template BRAIDING**, which in turn activates dormant portions of the chemical **Intron and Spacer "Junk DNA"** and **transient "Turnstile DNA"** sequences within the DNA Hydrogen Bonds. Activation of dormant "Junk DNA" allows the chemical translation of the 12-Strand DNA Template to progressively Braid into a singular Double-Helix strand that contains the chemical arrangements of the 12 Double-Helix Strand DNA chain, which chemically prepares Human molecular structure for atomic transmutation as the body progressively enters the natural trans-dimensional **STATE OF MERKABA**. Presently, the unnatural **7 Jehovian Seals** in Earth's Templar manifest in specific locations of the biological DNA Template as 7 DNA Jehovian Seals or "DNA J-Seals". When activated in response to planetary Jehovian Seal release, the **DNA J-Seals** block natural Fire Code and Star Crystal Seal activation, and produce inorganic, toxic bio-chemical and hormonal agents that cause accelerated deterioration of the physical body form. The natural 12 Planetary Star Crystal Seals and unnatural 7 Planetary Jehovian Seals, and their biological DNA Seal companions, began release in **May 2001**; all Seals will release by **September 2002**; Seal programs activate and begin transmuting in the body **3-12 months after Seal release**. Use of the **Maharic Seal technique** begins the process of clearing distortions in the DNA Template to prepare the body for DNA seal relese; further **DNA Template-Merkabic Bio-Regenesis Technologies** available through the **Kathara Bio-Spiritual Healing System** program are needed to fully clear J-Seal distortions from the DNA Template.

Intruder ET and Illuminati Races of the 2001 UIR OWO Team Summary Chart Introduction.

Illuminati Hybrid Humans, Unity-Through-Diversity and Reclaiming Christos Potentials

"Primary Leviathan Illuminati Races"/" Human Tribe Infiltration" refer to Illuminati hybrid race imposters within a given Human Tribe, and select family lines within a given Human Tribe that have been genetically compromised by Illuminati-hybrid interbreeding. These categories do not imply that named ethnic affiliations are dominated by Intruder race genetic distortion; Illuminati (non-human Intruder race souls) and Infiltrated family lines (Human souls, Intruder DNA attachments) make up the **minority** in each Human ethnic group. Understanding the **common problem** of Intruder race infiltration now **shared by all human cultures** should allow for the advancement of a common ground problem-solving **Human Unity Through Recognized Diversity**, built upon **inter-racial equality, respect, love and compassion**. This knowledge **IS NOT an excuse** to apply the **Anti-Christos hatred creeds** of bigotry, race supremacy or prejudice against any lineage. If successful in their "First Contact" invasion plan, the UIR intend to use "contrived historical and distorted genealogical" **falsified "evidence"** to indicate that all Human races are a "common genetic lineage" derived from their combined Anunnaki-Simian and Drakonian-Reptilian "stock". This **False Human Unity promotion** is intended to **vanquish true Angelic Human Race identity** and **obscure Illuminati-hybrid presence** to prepare us all for a "common unified takeover" under a false UIR "Creator God" platform.

TRUE Human Unity will be gained through **loving identification of the Species Diversity** that exists within the "Common Chemical Clothing" of the "contemporary Human form". Illuminati and infiltrated Human family lines can make the choice to refuse Intruder association and opt for Emerald Covenant DNA Template Bio-Regenesis to continue their evolutionary path toward Christed Mastery, if they are aware of the evolutionary challenges and required solutions posed by Intruder race genetic connection. **Angelic Human/Indigo, Illuminati and Infiltrated races can all evolve to genuine "Christed Race" status and freedom**. Due to inherent genetic and Core Template differences, each group requires a **different evolutionary path** by which the DNA Template, bio-energetic field and consciousness template can reclaim the Base-12/D-12 Pre-matter "Divine Blueprint" template coding required to attain genuine biologically-based "**Christed Avatar Consciousness**"/ minimum **12-Strand DNA Template** potential. If the diversity within the illusion of the "Common Human Genome" is not recognized, all races will remain trapped within the present state of **Common Race De-Evolution** through which the Christiac genetic potentials within each diversified race will become lost in progressive degeneration to race extinction.

Most Human beings of Illuminati and Infiltrated Human race descent have no conscious knowledge of their connection to Fallen Angelic Intruder ET races, nor are they aware that their genetic signature predisposes them to Intruder manipulation. This physical/emotional/mental/spiritual vulnerability to Intruder manipulation can be overcome if the individual comprehends the importance of utilizing genuine Founders Inner Christos Spiritual-Science teachings and technologies. Inner Christos D-12 Divine Blueprint sciences and Maharic Bio-Regenesis Technologies are the only methods by which **regeneration of the DNA Strand Template-12 personal** D-12 Pre-matter Divine Blueprint can occur to restore the individual's direction connection to its D-12 Christos Avatar Identity. The Founders' Bio-Spiritual Technologies allow the **original connection to the Primal Light/Sound Fields to be restored** via reactivation of the **9-dimensional Antahkarana-Kundalini Cord** and 12-Dimensional Maharata Cord Primal Life Force Currents. Genetically vulnerable humans and Illuminati hybrids are **loved by God/Source just as much as any other race** and can **regain their freedom, free will, Bio-Spiritual Integrity and genuine Christos potential** through entering a chosen path of **conscious evolution** built upon the genuine **Founders' Inner Christos spiritual/science teachings**. Illuminati and infiltrated races are victims to Intruder exploitation just as are Angelic Human and Indigo race lines. Like numerous Fallen Angelic races, Illuminati human-hybrid races **can evolve beyond exploiting, abusive behaviors**; they need **Love** (***Tough Love*** usually works better than Soft Love, which fallen races tend to exploit), **Healing** and **Inner Christos Spiritual education**, not judgment, condemnation and destruction, to reset and develop the Christos Potentials within themselves.

CDT-Plates Pre-Atlantian Holographic Recorder Discs from 246,000BC

- Azurite Temple MC books are translations of ancient "**Cloister Dora-Teura Plate Libraries**" or **CDT-Plates**.

- The CDT-Plates are a **set of 12** Silver-metallic, holographic recording, data storage and transmission devices containing the original **Emerald Covenant Founders Race** teachings, which were provided to inhabitants of our Time Matrix by the Christos Founders Breneau-Rishi Races, upon their original seeding of this Time Matrix 950 Billion Years Ago (linear time translation).

- The CDT-Plate Libraries of **246,000BC** were created by the **Azurite, Maharajhi and Taran Priests of Ur** ("Primal Light") **Christos races** of the **Council of Azurline**, Universal **Star Gate-6 Sirius B**. The CDT-Plates were presented as a gift to the Angelic Human Cloister races of Earth, in celebration of Earth's re-entry into the Christos Founders **Emerald Covenant Co-evolution Peace Treaty**.

- The Human race was created as the **Templar** (Star Gate complex) **Guardian Race** of this Time Matrix **560 million years ago**. Humanity is the race originally inhabited by Yanas Ascended Master's "souls"; the race that was created by Source-God and the Christos Founders Races to carry forward the **Universal Templar Security Team commission** of upholding the integrity of the **Universal Divine Christos Blueprint**, a commission originally held by the **Lyran-Sirian Azurite** Guardian races.

- Throughout a long history of war and conflict initiated by the anti-Christos Fallen Angelic races, the Angelic Human Cloister races of **246,000BC** Earth had once again temporarily freed Earth's Templar from abusive Fallen Angelic control. The Angelic Human Cloister races led remaining Earth races into the Christos Founders' **Emerald Covenant Co-evolution Peace Treaty**, through which Earth's **Planetary Divine Blueprint** (original D-12 Pre-matter Template) was intended to be restored, in order to permanently set Earth, its inhabitants and this Time Matrix free from Fallen Angelic manipulation, exploitation and imprisonment.

- The Emerald Covenant CDT-Plates of 246,000BC were given to the Cloister Race **Human 12-Tribes** (144,000 people, **12 Tribes of 12,000**) who served as the **Templar** (Star Gate complex) **Security Team** on Earth, to replace the **older CDT-Plate Libraries** that had been destroyed during earlier periods of Fallen Angelic invasion and dominion of Earth.

- The EC CDT-Plates hold the **Yanas Ascended Masters** (beyond Time Matrix) and **Christos Founders races** (D-12-D-15) original teachings on **Sacred Spirituality, Divine Science and Masters Universal Templar Mechanics**, as well as the "**Signet Maps and Keys**" to the Universal, Galactic and Planetary Star Gates and a complete **History Record** of this Time Matrix since its Creation Point 950 billion years ago. (Including record of "**Future History**" simultaneous time probability fields and the "future evolution" of "present" races.)

- The CDT-Plate records were created to assist the Angelic Human races of Earth in reeducating other evolving races on Earth and in this Time Matrix about the path of true **Ascension**, the **Divine Blueprint**, the **Universal Christos**, the personal **INNER CHRISTOS**, the **Law of ONE** and the **Loving Source-God** from which all existence emerges. The technological "**Divine Creation Physics-Mechanics**" knowledge of the CDT-Plate teachings was provided to the Emerald Covenant Angelic Human Guardian Races of Earth to assist them in fulfilling their chosen and Source-God appointed role as Guardians and Keepers of the Sacred Templar in this Time Matrix.

CDT-Plates, Signet Shields and the Maharata Texts

- The **12 CDT-Plate Recorder Discs** also served as **Primal Current** Receivers and Transmitters, and worked in conjunction with a related **Divine Templar Technology** called the **SIGNET** (Star Gate) **SHIELDS**. The Signet Shields were a set of **12 larger silver discs** (resembling "hub-caps") that, when activated, provided the Angelic Human Guardian races with the ability to **manually direct** the function of Earth's 12 Primary Star Gates and related interdimensional ***Time Portal*** and ***Dimensional Lock Systems***. The 12 CDT-Plates served as **Activators** for the **12 Signet Shields**. Each **Signet Shield-CDT-Plate set** was encoded with the mathematical activation programs of one of the **12 Primary Star Gates** in Earth's Templar. The 12-Tribe Angelic Human Cloister races of Earth were the appointed by Source-God to serve as **Templar Guardians** and **Keepers of the Signet Shields** and **CDT-Plate Discs**.

- The first externally written translation of the new EC CDT-Plates was created in 246,000BC, by the Urtite Cloister Human race Templar Guardians; the resultant collection of large books were called the **Sacred MAHARATA** ("Inner Christos") **Texts**. The Maharata Texts existed as a set of **590 condensed-text Volumes** totaling over **500,000 pages**. The Maharata Text books CDT-Plate translations were **hand-written** on semi-translucent vellum textile-paper pages, in the original **Anuhazi language** (Elohei-Elohim Anuhazi, first external language in our Time Matrix.). The vellum pages were assembled into **large-format leather-bound volumes** through a hand-rendered binding process akin to contemporary "perfect binding".

- The **Maharata Texts** and **10 of the 12 CDT-Plates** were retrieved by the Sirius B Azurite races of the **Azurite Universal Templar Security Team**, just prior to decimation of the Urtite Cloister Human races of Earth, when Earth suffered Fallen Angelic (Nephedem-Drakonian) race invasion and resultant pole shift during the Star Gate opening cycle Temple Wars of 208,216BC.

- Following the Temple Wars and pole shift, the 10 salvaged CDT-Plates were temporarily returned to the Angelic Human Grail Line resettlement team in **208,216BC** for use in stabilizing Earth's Planetary Shields via **Signet Shield activation**. The 10 CDT-Plates were then returned to **Azurite protective custody**. The original 590 volumes of the **Maharata Texts** from 246,000BC were held in protective custody by the **Inner Earth Eieyani races** following the 208,216BC cataclysm.

- **Fallen Angelic** races have sought possession of the CDT-Plates and Signet Shields since their creation, in hope of using these technologies to gain full anti-Christiac control of Earth's **Halls of Amenti Star Gates** and the Universal Templar of this Time Matrix. All **12 Signet Shields** and **CDT-Plates 11 and 12** were captured by Fallen Angelic forces in **208,216BC**. The historical quest for control over Earth's **Templar** (Star Gate complex) and the "**Battle between Light and Darkness**" began, casting Earth and its inhabitants into a long **Evolutionary Dark Cycle** of Fallen Angelic war, manipulation, deception and attempted One-World-Order anti-Christiac dominion.

Planetary Christos Realignment and CDT-Plate Speakers

- Since the fall of 208,216BC, the Urtite Cloister Angelic Human Templar Guardian races of Earth **repeatedly incarnated** on Earth as the **Emerald Covenant "Indigo Child" Christos Grail Line**, progressively suffering persecution and dominion by Fallen Angelic presence, in order to protect Earth's Templar and keep alive the Christos Founders' objective of setting Earth free through fulfillment of the **Planetary Christos Realignment**

Mission (resetting the D-12 Pre-matter Planetary Divine Blueprint template).

- Even after Earth fell to nearly complete Fallen Angelic dominion in **25,500BC Atlantis**, the Angelic Human Grail Line races, **Yanas** Ascended Masters races, **Christos Founders Races**, **Azurite Universal Templar Security Team** and the many **Emerald Covenant Christos Races** in this Time Matrix have worked toward fulfillment of the Planetary Christos Realignment Mission in order to set Earth and this Time Matrix free from Fallen Angelic dominion and eventual destruction.

- At various times since 208,216BC, Grail Line Humans secured stolen CDT-Plates 11 and 12, only to have them stolen again by Illuminati-human representatives of Fallen Angelic legions.

- Numerous book translations of portions of the CDT-Plate **Maharata Texts** were made, in **various earthly languages**, throughout history since 208,216BC, by **Grail Line Humans** appointed by the Yanas and Christos Founders to serve as **Emerald Covenant Speakers**. Most CDT-Plate Maharata Text translation met with compromise or destruction at the hands of controlling Illuminati collectives shortly after they were rendered.

- In each time period selected by the Christos Founders races for dispensation of the CDT-Plate knowledge, **3 Emerald Covenant Speakers** were chosen to render translation of the entrusted CDT-Plates. Following contamination of CDT-Plate teachings within the corrupt Atlantian priest-cast of 25,500BC, another translation was intended to be dispensed in preparation for the **22,326BC** Star Gate opening cycle.

Thoth, the Paracletes and the Luciferian Agenda

- In **22,340BC** a **Nibiruian Anunnaki** of the **Enki-Zephelium (Zeta) family**, who had been previously leading the Fallen Angelic *Anu-Seraphim* Anunnaki races into the Emerald Covenant on a Christos Founders Bio-Regenesis Program "**Redemption Contract**", had been entrusted by the Founders to serve as **Speaker-3** in CDT-Plate translation. This individual **betrayed the Christos Agenda and Founders**, breaking the Emerald Covenant and **stealing CDT-Plate-11**, in favor of supporting the **Luciferian Anunnaki Anti-Christos World Dominion agenda**. The individual's name is **Thoth**.

- Thoth extracted what Templar Mechanics he could translate from stolen **CDT-Plate-11** to create the "**Emerald Tablets**", originally an **anti-Christiac Grid Mechanics text** utilizing intentionally distorted translations of CDT-Plate-11. Thoth presented Emerald Tablet texts to select members of the corrupted Atlantian Illuminati priest-cast to assist them in supporting **Nibiruian Anunnaki invasion** of Earth during the **22,236BC** Star Gate opening cycle. The administrative level of Thoth's Luciferian Agenda Illuminati were called the **Paracletes of Atlantis**; the Nibiruian-loyal Atlantian Illuminati who thereafter propagated one "Luciferian Style" rendition of "Templar Quest "**Checkerboard Matrix**" teachings.

- The "**Checkerboard Matrix**" teachings initiated by Thoth and the Paracletes are the **Reverse-Merkaba** anti-Christos, "energy-vampiring" **false ascension mechanics** of the Nibiruian branch of the "**Alpha-Omega Order**" (AKA Anunnaki) **Templar Melchizedeks**. Until **November 1999AD**, stolen **CDT-Plate-11** remained in Paraclete-descent family lines, which became part of the larger Illuminati family lineage known as the **Knights Templar** and later as the **Freemasons**.

- The invasion of Earth and claiming of the Halls of Amenti Star Gates intended by the Nibiruian Anunnaki races in 22,326BC ended in a **partial pole shift** and "**Stalemate**"; a Stalemate the Anunnaki intended to resolve to their favor through a "**Final Conflict Battle**" scheduled for the next 2000AD-2017AD Star Gate opening cycle.

Christos Founders' Historical Attempts at Returning CDT-Plate Teachings

Desecration of Once-Sacred Buddhaic, Semetic-Sumerian, Egyptian, Celtic-Druidic & Hindu texts

- Numerous other attempts of CDT-Plate translation were commissioned by the Christos Founders races in various time periods and cultures, setting the foundations of what were the **original global Christos teachings** that were once part of **ALL true Sacred Earth Religions**.

- In **10,000BC** CDT-Plate translations were attempted within the **Chinese and Tibetan YU Grail Lines**, which became the foundations of the original **Buddhaic** teachings. Progressive invasion by Illuminati factions within the pre-Mongolian "Raider Races" brought a variety of falsified Buddhaic religious control dogmas, and omission of Christos Ascension Mechanics, within the once sacred "Eastern Mystical Traditions".

- In the **9558BC** "*Fall of Atlantis*", Fallen Angelic Pleiadian-Nibiruian Anunnaki races waged a planetary "**House Cleaning**", confiscating as much historical evidence of the CDT-Plate records, Christos Mission and ancient Human 12-Tribes cultures as they could find.

- In **8,900BC** CDT-Plate translations were attempted within the **Hebrew Grail Lines** of **Sumerian UR**, only to be rapidly confiscated or distorted into Sumerian and Babylonian false "Creator God" control dogmas by Jehovian (Sirius A) Anunnaki and competing Hibiru-Drakonian Illuminati dominion forces. Portions of the Sumerian CDT-Plate teachings were distorted and combined with other distorted Semitic text control-dogmas that first emerged in Atlantis from **distortions of CDT-Plate Hebrew** (original Jewish) **Grail Line texts**. The combined distortions became the foundations of the "**falsified pre-Torah and Kaballah**" Semitic texts from which later sects of Jewish-faith mass control dogmas emerged.

- In **8,400BC** CDT-Plate translations were attempted among the pre-dynastic Atlantian descent **Serres-Egyptian Grail Line** of Egypt, which set the foundations for **pre-Pharoanic** Egyptian Sacred-Christos Mystical teachings. Select Egyptian CDT-Plate texts were rapidly confiscated and distorted by competing Egyptian Illuminati forces, serving as the foundations of falsified "**Egyptian Creator God Myths**" upon which the Illuminati-run **Pharoanic Dynasty cultural dominion structures** were later ordered.

- In **7,500BC** CDT-Plate translations were attempted among the original **Celtek Grail Lines** of what became Ireland, England and Scotland, which set the foundations for the original **Celtic-Druidic "Christed-Earth-spirituality"** texts and oral traditions. The original Celtic-Druidic traditions were later distorted by various Illuminati legions into anti-Christiac Earth-Elemental Occult control dogmas.

- In **5,900BC** another CDT-Plate translation was attempted among the **Rama-Vita Grail Line** races of India, setting the foundations for what later became the **Hindu** religion, which was systematically corrupted, via Illuminati editing and addition of false history, distorted "Karma" mechanics and female subjugation.

- In **4,700BC** yet another CDT-Plate translation attempt was launched among the original **Mu'a-Inca Grail Line races** of **Macchu Picchu** and **Lake Titicaca, Peru**, and among the original **Mu'a Grail Line** races of what is

now **Kauai, Hawaii** and **Easter Island**, setting the foundations of what became the original "**Christos-Kahuna**" shamanistic spiritual teachings. Possession of CDT-Plate records brought Illuminati invasion of the original Inca and Mu'a races, culminating in persecution and near destruction of their Grail Lines and progressive distortion of the original common Christos-Kahuna oral traditions into a variety of competing anti-Christiac pseudo-shamanistic tribal control dogmas.

- In **3,700BC** CDT-Plate translations began among the original **Maya Grail Lines**, culminating in their invasion and racial corruption by Thoth's Nibiruian Anunnaki-directed Illuminati forces in 3,650BC.

- In **2,690BC** CDT-Plate translation was attempted among the **South African Grail Lines**, bringing Illuminati invasion and the Grail Lines' attempted exile to Nubia and Egypt; 2668BC brought further Illuminati invasion of Egypt during the Djoser period and progressive Illuminati imprisonment and extermination of Grail Line members versed in CDT-Plate oral tradition.

- Each Christos Founders race attempt to return the Emerald Covenant CDT-Plate **Christos Freedom Teachings** was met with rapid Fallen Angelic-inspired **Illuminati race interference**, through which Grail Line races were progressively invaded and persecuted as the "***Templar Quest***" raged on. **Each time the majority of the texts were confiscated, edited and distorted into control dogmas or destroyed entirely.**

Enoch and the Sons of Zadok

- In **2040BC** an Arcturian-descent **Jehovian-Anunnaki**, then entrusted by the Christos Founders to lead members of the Sirius A/Arcturian Jehovian-Anunnaki **Tribe of Nephi** into an **Emerald Covenant Redemption Contract**, served as **CDT-Plate Speaker-2**. This individual's name was **Enoch**. Enoch translated information from several CDT-Plates to create **3 volumes of text**, the **Book of Amenti**, the **Angelic Rosters** ("*I Enoch*" texts are remaining portion) and the ***Book of the Dragon***.

- In **10AD** Enoch fell to pressures from the Fallen Angelic Annu-Elohim/Jehovian Anunnaki collective, breaking the Emerald Covenant in favor of joining the Templar Melchizedek "Jehovian-Nephite" Anunnaki Anti-Christiac World Dominion agenda promoted since 10,500BC Atlantis by a Nephite Illuminati collective called the **Sons of Zadok**. (Enoch re-entered the Emerald Covenant on a Christos Founders race Redemption Contract in 1983AD.)

CDT-Plates, the Ionian Grail Line and the Fall of Rome

- In **790BC** an attempt was made to bring CDT-Plate translations to the **Ionian-Italic Grail Line** races of what became Rome and Paxos Island Greece. Ionian CDT-Plate text translations spurred aggressive retaliation from various competing Illuminati collectives, who drove Grail Lines into progressive submission and persecution while confiscating CDT-Plate text translations to create a **variety of competing religious control dogmas** upon which Roman and Greek cultures were later structured. Culminated in full Illuminati invasion and subjugation of Rome between 42BC- 26BC. Portions of the Illuminati/Fallen Angelic religious control dogmas became the stories presently found in **Roman and Greek "Mythology" and teachings of (Thoth) Hermes-Trismegistus**.

CDT-Plate Translations and the Christ Period

- In **10AD**, the **last commission** for **written CDT-Plate translation** was entrusted to 3 Emerald Covenant Speakers, each of the Angelic Human Indigo Child Grail Line. The **3 Speakers** of 10AD were **Essenes**, who historically became known as **John the Baptist** (31 BC-34AD), **Jesheua Melchizedek** ("Jesus" 12BC-27AD) and Jesheua's half-sister **Miriam** (5BC-37AD). Jesheua translated **6 volumes** of text from the CDT-Plates called the ***Books of Process***, **Miriam** translated **3 volumes** called the ***Books of the Cloister*** and the ***Book of Psonns***; the 3 intended Books of John were not completed as John was murdered prior to their completion.

- The **6 Books of Jesheua**, **3 Books of Enoch**, **3 Books of Miriam** and intended **3 Books of John** are the "**15 Missing Books of the Bible**", which were intended by the Christos Founders races as a new beginning translation of the original **Maharata Texts** from 246,000BC. This Maharata Text CDT-Plate translation was given in **10AD** to **prepare humanity** for the **next Star Gate opening cycle of 2000AD-2017AD**, the first since the failed cycle stalemate of 22,326BC, and for the "**Final Conflict Battle**" for dominion of the Halls of Amenti Star Gates intended by the Fallen Angelic and Illuminati legions during the 2000AD-2017AD Star Gate openings.

Progressive Desecration of the Once-Holy Bible and Koran

- Following creation of the Essene CDT-Plate translation books, the Illuminati collectives among the Pharisees, Sadducees and Romans began confiscation, manipulation and destruction of the 10AD Essene texts. By **275AD**, many "**Christ Period" texts and history records** were intentionally **distorted, edited or destroyed** by various competing fallen Angelic Illuminati factions.

- In **325AD** the **Church of Rome** orchestrated another wave of their history-record-confiscation campaign and organized the **Council of Nicaea**, bringing together Pharisee, Sadducee and various other competing Illuminati "scholars" from surrounding regions to contrive a common **false history story and religious control dogma** to further the political, economic and world dominion agendas of the **Roman Empire**.

- The **Council of Nicaea** used **edited distortions** of genuine 10AD Essene, Sumerian, Egyptian, Greek-Roman, Sanskrit, Tibetan and remnant ancient Atlantian records to contrive their book, the "**Canonized Bible**", an intentional and malicious distortion of the true **Essene-Christian Biblical texts**.

- The Canonized Bible created by the Church of Rome Illuminati in 325AD became the **control-doctrine** through which **anti-Christiac teachings, hidden within a veneer of edited, distorted, true Christ teachings**, emerged under the guise of a **false "Christian"** pseudo-religious **mass-control dogma**, built upon the compulsory worship of false, **externalized wrathful god-personifications** and subjugation of women. The **TRUE Christianity**, taught by the Essene Grail Lines and which had emerged in the pre-Jesus period through the ancient Emerald Covenant CDT-Plate Founders **INNER CHRISTOS** teachings, went "underground", the true Christian Grail Lines persecuted by the Illuminati dominion force of the Roman Empire and competing Illuminati factions.

- Between **400AD-490AD** another attempted CDT-Plate translation was initiated among 3 Speakers of the **UR-Essene-Melchizedek Grail Line in Persia** (Jordan, Iraq and Iran). Between 420AD-600AD, competing factions of Drakonian-agenda Illuminati repeatedly raided and waged tribal genocide against the Persian Grail Lines, confiscating the **original Sacred Islamic Persian texts**. The original Persian texts were edited, and select

elements of them were combined with one version of the Nicaean Essene Biblical text distortions and with remnants of ancient Sumerian CDT-Plate translation distortions. This amalgamation of spiritual and historical text distortions became the **falsified Islamic religion control dogma**, featuring, like other text distortions, the **anti-Christiac subjugation of women** and the "responsibility" of **violent "Holy War"** in the worship of a vengeful, externalized god-personification.

- The "false Nicaean Bible" religious control dogma was later adopted and further edited and distorted by a variety of competing Illuminati races, creating various **false-Christian political control dogma sects** that became the various **denominations** of the falsified "Christian" religion. Since Atlantian times, Illuminati races have used this method of political manipulation through falsified spiritual doctrine to control and exploit masses of Humans via propaganda, dis-information and forced or coerced submission to falsified spiritual creeds.

The "King Arthur" Legends and the Catheri

- In **600AD** another failed attempt at CDT-Plate translation was initiated among the **Azurta-Arutus Celtek-Druedic Grail Line** of England and Ireland, giving rise to the highly Illuminati-distorted legends of "**King Arthur, the Knights of the Roundtable, Merlin and the Sword Excalibur**", which were based upon Thoth-Nibiruian Anunnaki, "Archangel Michael" Nephilim Anunnaki and Knights Templar Illuminati distortions of genuine Grail Line history from this period.

- In **1200AD** another failed attempt at CDT-Plate translation was initiated among the **KatharA-Catheri Grail Line** races of Southern France, descendants of the Jesheua Melchizedek Essene line; in 1244AD the Catheri were systematically exterminated by the Church of Rome in the Albigensian Crusade.

CDT-Plates and Templar Quest in the "New World"

- In **1375AD** a final attempt of oral CDT-Plate translation was initiated simultaneously on the North and South American continents, among the **American Seminal and Hopi Amerind Tribe Grail Lines** of Bruah-Atlantis and Lemurian descent, and among the Mu'a Lemurian descent **Mu'a Inca Tribes** of **Peru** and the **Alaskan-Canadian Inuit Grail Line Tribes**. Various competing Illuminati-controlled native tribes systematically infiltrated and attempted to destroy the Grail Line Tribes, corrupting their original **Christos oral traditions** into various shamanistic control dogmas that featured worship of, and astral and physical contact with, various fallen Angelic legions masquerading as "Gods" and "Extra-terrestrials".

- Illuminati attempts to repress or destroy the **North and South American Grail Line Tribes** and to compromise or obliterate new CDT-Plate oral translations culminated in the **European Illuminati** invasion of the "**New World**", progressive **genetic infiltration** and near-destruction of Native Grail Lines via forced marriages, rape or genocide, and the ultimate infiltration, suppression and regulative containment of native cultures and belief systems.

CDT-Plates and the Contemporary Drama

- In the **1600s**, stolen **CDT-Plate Disc-12** was recovered by the Azurite Guardian Races via their **KatharA-Catheri descent Grail Lines of France**. In **November 1999**, CDT-Plate **Disc-11** was recovered by the Azurites from a contemporary Illuminati Freemason Paraclete-descent family in Scotland/England, who had secretly held the stolen Disc11 in their family line since 22,236BC Lemuria-Atlantis.

- The **12 CDT-Plates** are presently in the protective joint custody of the **Eieyani Indigo Grail Line** races of Inner Earth and the Maharajhi and Azurite races of Sirius B. The **12 Signet Shields** presently remain buried on Earth in Guardian-secured locations.

- The CDT-Plate translations are again being re-introduced by 3 Emerald Covenant Speakers, beginning in **1999**, in preparation for the contemporary **2000AD-2017AD** Star Gate opening cycle.

Illuminati Race Origins- Creation of the Leviathan Force

Illuminati Human races are **Human-hybrids** inhabited by Fallen Angelic identities who originally entered the Christos Emerald Covenant on Bio-Regenesis Redemption Contracts to regain their 12-Strand DNA Christos potentials, then defected from the Emerald Covenant in favor of Fallen Angelic anti-Christiac agendas.

- **250,000 BC Lulcus-Neanderthal**. Nibiruian Aquatic-ape plus Earth Primate. Primate hominid. Created by Enki-Enlil-Marduke Nibiruian Anunnaki as Earth slave race.

- **246,000BC** Thoth-Enki Anunnaki collective and Enoch's Jehovian Anunnaki collective enter **Emerald Covenant** for Anunnaki Bio-Regenesis Hybridization Program Redemption Contract.

- **155,000BC Stage-1** Lulcus to Luhari (Cromagnon-1) Hybornean Anunnaki plus Human Hybrid from Human Seeding-2, plus Lulcus. Gain Human **DNA Strand-1**.

- **152,000BC Stage-2** Luhari to **E-Luhli Levi** (Cromagnon-2) Ur-antrian Urtite-Cloister Human plus Luhari gain Human **DNA Strand-2**. First capable of natural procreation with Humans. **Anu-Seraphim Anunnaki** souls under **Thoth's** custodianship.

- **151,000BC Stage-3** E-Luhli Levi to **E-Luhli Judah** (Cromagnon-3/Homosapien-1) **Breanoua Urtite-Cloister Human plus E-Luhli-Levi**. Gained Human **DNA Strand-3 Anu-Seraphim, Drakonian, Reptilian and Zeta** souls under Thoth's custodianship.

- **148,000BC Stage-4** E-Luhli-Judah to **E-Luhli Nephi** (Homosapiens-2) **Hibiru Urtite-Cloister Human plus E-Luhli-Judah**. Gained Human **DNA Strand-4**. **Jehovian-Anunnaki** souls under **Enoch's** custodianship. Specimens taken off planet by Fallen Angelic **Anu-Elohim-Jehovian Anunnaki** and **Necromiton-Andromie Nephilim** ("Archangel Michael) collectives for further Fallen Angelic hybridization, becoming the "**Nephites**" and the "**Baal**"/ "**Archangel Michael**" **Nephite-Nephilim collective**.

- **68,000BC Stage-5** E-Luhli-Nephi and E-Luhli-Judah to **Annu-Melchizedek** (Homosapiens-sapiens Human Hybrid). Seeded into the Atlantian-Egyptian Human family line, ***E-Luhli Judah*** **plus Melchizedek Cloister Human** became the ***Lilebim Annu-Melchizedeks*** under **Thoth's** custodianship. Digressed to **Illuminati** when Thoth defected from Emerald Covenant in **22,340BC**, becoming the Illuminati "**Sons of Belil**" of **Bruah Atlantis**.

  Seeded into the Atlantian-Egyptian Human family line, ***E-Luhli-Nephi*** **plus Melchizedek Cloister Human** became the **Kodazhim Annu-Melchizedeks** under **Enoch's** custodianship. Digressed to **Illuminati** when Enoch defected from Emerald Covenant in **10,500BC**, becoming the Illuminati "**Sons of Zadok**" of **Nohassa Atlantis**.

Annu-Melchizedek Human-Hybrid races were progressively raided by Drakonian, Reptilian and competing Jehovian, Pleiadian and Nibiruian Anunnaki Fallen Angelic collectives since Lemurian and Atlantian times, evolving into numerous competing Illuminati races that progressively infiltrated and forced hybridization with Human 12-Tribes-cultures, culminating in **"Transposition of Race Identity"** and **world cultural dominion**.

Alien Hybridization

We are entering potentially explosive timelines with extraterrestrial disclosure, which open into this year and ongoing into 2017. As we learn more about multiple species agendas, we must improve energetic Discernment of the variety of forces that we interact with. These are both seen and unseen forces that take advantage of our lack of awareness. Because we are awakening from the Dark Aeon of Alien Hybridization, which is the primary reason for the imprisonment of our consciousness, we must shake off these Parasites and reclaim our sovereign right to Single Soul Occupancy. We are providing a basic primer to address the most common issues of parasitism that are the result of Alien Hybridization, implantation and genetic manipulation of the consciousness of the human being. Once informed, any person may be empowered to identify and terminate the source of spiritual oppression. Through the Law of Consent, we can remove its access and influence upon our spiritual bodies. Alien Mind and Beliefs

Intrinsic to spiritual Awakening is to clearly see the false identity and false beliefs that have operated which previously led us into misaligned thinking and therefore a misaligned pathway. Some of us have operated these masks of identities and beliefs for many, many lifetimes which embed energy blockages even more deeply into one's cellular memory. Many of these identifies and belief systems are also sourcing from an alien genetic memory or from a past or future timeline of Alien Hybridization. These levels of Alien Hybridization and inter-breeding have impacted inter-generational bloodlines, and many can be traced throughout certain families that were chosen to be a part of hybridization, or in worse cases, experimentation for NAA purposes.

We are preparing to move into another position in the evolutionary chain which impacts Universal timelines with alien hybridized identities and their relationship to the Personal Christ gestalt of consciousness in new ways. Our spiritual communities will be impacted, and will continue to feel the energetic and spiritual impacts of these recent events. This opens up the potential of meeting future hybridized selves or other self related identities throughout the Timelines during the spiritual initiation process which may happen in lucid dreams, meditation, sleep state or other consciousness work.

We can mistake these alien or other identity masks as our own body because we, along with our ancestors, have lived with them for so long. We have forgot who we are and from where we have originated. [2]

Alien Implantation is Reptilian Ownership

Many people on this earth carry an assortment of fragments, attachments, ancestral beings, alien implants, Fallen Angelics, and potentially one or more alien hosts as a result of hybridization, miasma, karmic bloodlines, or alien abduction. Mind control programing and their holographic inserts, allow the consciousness body of the individual to be infiltrated through the energetic signature of the alien implant. Mind Control programs enforced through alien implantation, and their entity Attachments or Possessions, are two sides of the same coin. The energetic signature of the Alien Implant will depend on the genetic and consciousness relationship that person has, to the entity that has placed the implant in their human target. Many of these entities believe that humans are their personal property, so the alien implant will have specific information from the extradimensional source of the species that have "laid claim" to that individual, family line or group. [3]

Tainting Human Blood

So in knowing what the Blood is, first of all in the previous newsletter we were talking about the spleen and the blood relationship. I've talked many times what the wounds of Christ are and the Spleen implant in the body that has its main housing, if you will, on the seventh axiatonal line. The spleens job is to help circulate, preserve, and protect the blood in the body that holds our entire consciousness record. Think about it from their point of view, from the psychopathic negative alien point of view. If they want to destroy cellular and consciousness memory, if they want to destroy the human DNA and blueprint, then they want to destroy the blood or taint it, corrupt it, sicken it, make the blood diseased. That's their agenda.

So the blood in our body in advanced stages of our natural spiritual biological evolution, our blood becomes truly less dense, it becomes spiritualized. I am trying to explain the means of how that occurs. The more we embody our higher spirit these resonances turn into crystalline substances and it gets through our breath and our heart becoming a part of our body, this circulates these crystals through our heart, through our arterial and venous system. Our spleen is supposed to protect these crystals. The spleen implant has been put in the earth and therefore it is a holographic implant in many people where it is designed to toxify the blood. The spleen implant is designed to taint the blood, to make it karmic and a part of the reason for this is in the slavery principle. If they taint the blood and superimpose karmic loads on a person's memory record, a human, that human becomes a carrier of somebody else's karma. This is how they have been using loopholes in the slavery system to collect people, taint their blood, superimpose karmic loads with false karmic holographic memories that are assigned from the entity to this group of people. The entity is shoving off his toxic waste and is giving it to the group of humans to process. This is one of the means of how they do it, of how we process and digest negative energies through the blood. What happens in that person is that person's blood is now holding this miasmatic record of whatever that alien record actually is. This is a part of the alien hybridization damage that has been done. How did the Alien Hybridization create the means to create so much damage? There are direct genetic ways where they have spliced, cloning and used genetic material for these purposes, but this is to also understand that the cloning of a body isn't necessary in creating Alien Hybridization damage. When a human being is being superimposed a karmic load from another species, that genetic record in the karmic Superimposition is being recorded in that person's blood stream. This creates an intermingling with that species of which that human may have never been in consent with to begin with. Meaning that person now has a connection to whatever Reptilian species through blood, but the human wasn't in agreement with. They didn't really come from, let's say sprouted from that genetic line but were manipulated and engineered to do this for that alien group, which is basically running and processing energies in a way that predigest it so that the entity receives the pure energy that has been processed out of the human. While the human is left with a karmic exhaust of this Miasmatic imprint. Sadly, we know this isn't anything new. We have talked about this before but in understanding more of the details so that we can connect the dots as to why they are bringing forth another level of aggression to attack the heart and the blood of the people of this earth, how they're doing it and the reasons why.[4]

Alien Implants

Whoever controls the Mind controls the body, mind and Soul. Alien Implants are used to Mind Control the masses to form socially acceptable belief systems and shape anti-human value systems which are used to condition humanity to accept spiritual abuse from the Negative Aliens and to self enforce their thought systems of hierarchical enslavement and fear. This is a divide and conquer strategy of the planet and humanity.

Since most of humanity has been unable to activate the higher heart complex and connect the 4th DNA strand during adolescence and into adulthood, over the length of time the chemicals distort patterns in DNA that accumulate Miasmatic overlays on core emotional issues and physical imbalances. This is not natural. If a human being cannot activate their heart and access their 4th strand of DNA they are unable to activates their Soul identity. Thus, they are unaware of why they they incarnated on the earth, what their higher purpose is, and cannot connect to or listen to their Higher Self, because they have not activated Higher Sensory Perception abilities.

Alien implants work in the human body similarly as the chemical process of geo-engineering that is spraying chemtrails in the skies to manipulate or control forces in physical matter. The construction and raw substances used in Alien Implants are vast and some unknown, they can be made of biological material, synthetic material, etheric substances in the Lightbody or programmed nanobots (Nanites) used in Artificial intelligence technologies. Alien implants are a bio-engineering technology designed to shape the human body into the Mind Control submission to NAA agendas, while chemical (nanoparticle) geo-engineering is used to control the weather by harming the ozone layer and create excessive methane gases.

In both examples, when the foreign (unnatural or artificial) material is introduced to the natural body it disrupts the electromagnetic energetic balance and the homeostatic rhythm of the body. Many times it runs a low level EMF or Radio Waves signal that is designed to disrupt the human bodies natural homeostasis and electromagnetic balance. This puts the body in hyper-immunity state and or adrenal exhaustion while fighting off the "invader". The body develops coping mechanisms to deal with the foreign invader while extreme stress is placed on the central nervous system, brain and immune system. As with chemtrails, alien implants most generally act as a **"metallic" frequency overload** and exposure to impact the overall bodily energies and its auric field. Eventually this disrupts the body organism and as a result, parasites, fungi, yeast and other microorganisms become overgrown and imbalanced in the body. It is important to understand that energetic parasites (this is just one byproduct of alien implants) eventually manifest turning into a variety of physical parasites in the human body. Physical parasites impact all bodily functions, mental body functions and thought-forms, induce emotionally hysterical states, as well as promote disconnection from the inner self and spiritual energies. If the body is heavily implanted, and therefore parasitic, anti-parasitic therapy such as cleanses or fasts are highly suggested to regain energetic balance in the homeostatic organism of the entire body, mind and spirit. If you are new to cleansing please research to help inform yourself of the phases of cleansing the bodily internal organs to help you regain energetic balance and energetic health. [1]

Alien Machinery

For those of us in the Indigo and Krystal Star families, it is important to understand Alien Implants are Artificial Machinery, inorganic and is being used in the planetary field and collective mind for Mind Control purposes. The vulnerability is that "collective viral program" influencing or interfering with our personal natural bodily and nervous system processes. Mental and emotional disease creates energetic blocks which lead to physical disease patterns. Alien implants and their Archontic Deception Behaviors contribute to disease physically, emotionally, mentally and spiritually. Alien machinery and their mind control implants make us sick in a variety of ways.

Mind Control via EMF

Mind control technologies are weapons which use electronic microchip implants, nanotechnologies, microwaves and, or electromagnetic waves to subvert an individual's sense of control over their own thinking, behavior, emotions or decision making by attacking the brain and nervous system. The development of these methods and technologies has a long history [2]

Crucifixion Implants

The purpose of the artificial cross architecture (See Crucifixion Implants)is to enslave humanity through the crucifixion and blood sacrifice of their inner spiritual being or Christ self. Religion was created by the NAA to keep these cross implants and their religious belief systems of Mind Control in place, so that, humanity would live in fear of the retribution from his False Father Alien God. This Archontic controller mechanism Archontic Deception Behavior was to keep humanity subservient to the continual feeding of their False Gods Vampires. One of the most prolific ways to feed the bloodthirsty vampires is mass killing in wars, especially in the name of God or Religious Violence. This is blood sacrifice which in all cases is Satanic Ritual Killing SRA which feeds Satanism as well as Satanic forces to spread on the earth. The NAA entities are in the majority a Satanic force, so this way of life of blood sacrifice is aligned to their vampiric killing mentality.

SPE

Suppressor Parasite Entity. SPE Genetic artificial intelligence AI drones or Archons sent by higher ups in the Negative Alien Agenda NAA and those that are sourced from the Imposter Spirit force. They are mind and body parasites. They are generally sent to Starseeds, Indigos to suppress them from coming online with their higher abilities.

Sexual Mind Control Implants

The name of the game for the NRG is propagating and feeding highly destructive addictions and deviant sexual attitudes and behavior within the global human population. This is a part of propagating the Sexual Misery program along with the Victim-Victimizer. Its first priority is designed to relegate all sexual activity laced with guilt and shame into the lowest

forms of human expression and perversion possible. Depending on accepted cultural attitudes it will use the perceptive level of access to serve the current societal paradigm into distortion. (In Muslim countries it can be the Genital Mutilation, honor killings, legal killing of raped girls or women by being left in the desert to die by their own husband, or the selling of little girls to prostitution in Thailand, Catholic priest pedophilia in the Vatican, Sadistic or masochistic fetishes in Germany. These harvested sexual energies all feed back into the same NRG Grids matrix and feed the Sexual Misery programs.) See NRG Implants

Holographic Inserts

The Dead Light matrices also reflect the Artificially Bent Light "Holographic Inserts" (which contain the controlled versions of the nature of this reality, such as Crucifixion Implants) and these are also shattering and exploding systematically into the outer fields of the planet. These are false realities (artificial holographic inserts) that we have thought were "real" and then developed mental beliefs that held that specific version of reality and its Timelines kept in place. As these false realities are shattered into pieces (for those maintaining energetic balance in this explosive terrain), we can read the signature of those "Dead Light" pieces that reflect the nature of its disease and its schism. Holographic Inserts work like a software program.

Alien Implantation is Reptilian Ownership

Many people on this earth carry an assortment of fragments, attachments, ancestral beings, alien implants, Fallen Angelics, and potentially one or more alien hosts as a result of hybridization, Miasma, karmic bloodlines, or alien abduction. Mind Control programming and their holographic inserts, allow the consciousness body of the individual to be infiltrated through the energetic signature of the alien implant. Mind control programs enforced through alien implantation, and their entity attachments or possessions, are two sides of the same coin. The energetic signature of the alien implant will depend on the genetic and consciousness relationship that person has, to the entity that has placed the implant in their human target. Many of these entities believe that humans are their personal property, so the alien implant will have specific information from the extradimensional source of the species that have "laid claim" to that individual, family line or group. [3]

Tracking Important Releases of AI Implants

- Reptilian Tail is observed as Alien Implants on the base of the coccyx which are used to stop the lower three bodies (1D-2D-3D) from forming into a merkaba spinning field which allows for drawing in higher source fields from the higher Soul planes and the Monadic planes for the spiritual Lightbody. It is designed to block Kundalini activation while feeding the lower Negative Ego mental body complex.
- Scalar Tagging has been used on 4D astral plane by extra-dimensionals for quite a long time. With inner vision, some versions of them may appear like dark "jacks" or "confetti" spattered around your aura field. They are something like Astral Bots that are automated to lock onto the coordinate location of a person that has been tracked or tagged. They are tracking devices, and they have a particular tone so that those on the Astral Plane can monitor the location and coordinates of that particular Starseed or Indigo or whoever that being is. Scalar Tagging can be individual to that persons history of evolution such as there can be Lemurian Tags, Atlantian Tags, Egyptian Tags, Drakon Tags, Orion War Tags, if the person was a powerful being in that Galactic History or event, sometimes they are tagged to be monitored by NAA or military forces.
- The Zeta Seal is located in the Astral Plane layers of the heart complex to block activation of the 4th DNA strand which blocks access to the Mentor Fields (first layer of the higher self mind) in the 5th dimension. Essentially it is the 4D frequency fence placed in the human body to keep the human soul reincarnating in the Astral Plane under the control of the NAA during the death process. It creates a multitude of blockages that separate the heart sensory abilities from being recognized by the mental body or conscious mind.
- Aging Disease or Cell Death Programs: assorted implants or uploaded mental programs to activate negative labels for medical classification of diseases, rapid aging, and inability for tissues to adequately repair cellular integrity,

eading to cel death These col ective consciousness disease programs are kept a ive in the mass consciousness to activate diseases, mplement pharmaceutica and drug dependencies, take over the central nervous system functions whi e shortening healthy life spans

- 666 mplant or Templar Seal- This evel of the blockage and quarantine is what is referred to as the "666" sea and is a genetic block in the sixth dimensional frequency ayers residing with n the 6D ndigo Ray and 7D Violet Ray Monad or oversou bodies and crown chakra wh ch is referred to as our W ngs At the beginning of monad c level integration, this 666 Implant or Templar Sea can be removed form the human L ghtbody

- Metatronic Implants - are Metatron c Reversals connect to Metatronic Implants in the shadow body or Negative Form that are des gned to reverse and drain life force out of the earth body and the human body The shadow body or Negative Form must be cleared from the human Lightbody in order to reconnect the ascend ng potential of the twelfth dimens onal template of the human body This unnatural configuration was bu lt by the NAA via Alien Mach nery that uses Artificial nteli gence to parasitize the earth's life force to achieve mmortal ty and th s organ zed structure is referred to as the Tree of Artificial Life or the Black Tree of Life

- Crucifixion Implants -One of the largest lies promoted to divide our race is the War over False Gods The false archetypal story of a Crucified Christ figure is a mockery to further enslave humans into be ieving in a salvation mode through a Crucified Christ t represents the tortured human being as we are a l the Christ, and we have been crucified/imp anted as our planet was nvaded These structures are called Crucifixion Implants These Crucifixion mplants are tang ble control structures placed in the 7th dimensional logos, and therefore it is n our ind vidual bodies in the 7th Chakra, its complex, meridians and the entire left side (our female spirit) of our bodies We are not aware of these mplants until we open the 7th Sea and start connecting this part of our 7th ayer l ght body to our personal consciousness field The Crucifixion Implants are ocated in seven main areas on the left hand side of the body on the 7th Axiatonal line, as fol ows

- Top of skull on left side
- Heart, left lung, back of eft knee
- Pineal G and
- Left side of neck and lymphatics
- Rear left thigh and buttocks
- Alta major (where sku l rests atop the spine), hypothalamus and eft shoulder
- Aorta artery on left side of neck

- Crown of Thorns - is des gned to d stort the natural energetic circuitry of the crown and block the higher self commun cation descending from higher dimensions being transmitted into the crown receivers This mplant acts as another frequency fence to keep humanity unab e to communicate or gain access to their higher self bodies It blocks the vertical communication channel around the head, skul and crown

- Glandu ar System Implants - malfunctions in the path of the Kundalini rising that impact the brain receivers and the Hypothalamus, Thalamus Pineal, Thyroid, and Thymus. During NAA invasion 5 500 years ago. the collapse of the magnetic field created DNA scrambling that removed our natural language and ab ity that allowed us to communicate with the entire planetary species This nterferes with the sequence of fire letters to arrange correctly in the DNA template, causing loss of species memory and language In the b ble this is referred to as the time Yahweh deliberately confounded our species language because humans were sinners and as such, it is called the Tower of Babel Implant

- So ar to Earth Chakra Implant - distortion in the 11D buddhic layers to interfere with the 10D communication from the Avatar self to be unable to ground into their 12D fie d hub or earth based chakra interface Troubles with 12D Sh elding, connecting crown to feet in vertical channel, and Al hologram spin outs of Negative Form should check for the Solar to Earth Imp ant or Avalon Impiant

- Sp itter Tech is a type of Al encoding that run as a Mind Control script that s embedded into a variety of types of media, such as written words, spoken words of an infected ndividual video or aud o recordings that can pass on that same scripted code to another person that resonates with that same frequency or information It reveals a profile that is commonly observed in very academ c or intellectually developed peop e, and tends to be attached to highly mentalized persons with dom nating Negative Egos, judgmenta perceptions and ittle to no heart opening [4]

Alpha Draconis/Orion Group

The direction of life force [collected through the NRG Grids] is hierarchical and managed by the **Alpha Draconis** system in the Orion Constellation, however multiple conflicts exist within the system and the fight for its resources exist among many species, the reptilian and draconian levels of contingents. There is a vast system of bottom feeders and defectors.

The Orion Group is a Satanic force that has a predatorial ideology that uses females as slaves or breeders, while seeking territorial dominion on other planets within their warring and killing culture. Their position in the NAA and its consortium of Negative Aliens is called the Black Sun Program. They are a predator force with a predator mind which is mainly responsible for creating much of the Negative Ego in humanity through Mind Control programming and they have introduced financial and Debt Enslavement to planet earth through the banking cartels.

Additionally the Nordics are blond looking humans from Orion and are also predatorial, this species is responsible for spreading racism, genetic discrimination, genetic experimentation, such in the Nazi ideology and they are proponents of promoting their belief system of "genetic superiority" through spiritually abusive methods of Eugenics. This Nordic group was directly involved with Hitler's Germany and World War II.

Dracos species are potentially capable of shape-shifting and have extremely developed Psionic abilities, which allow them to possess or enter bodies through consciousness projection. Therefore, as they originate form a Phantom Matrix system of Satanic based AI infected entities, many of these Draco entities are confused by people as the devil or believing they are Satan, as an individual figure.

Reptilian Hierarchy

Extraterrestrials that are hybridized with Reptilian based genetics operate in strict hierarchical systems of rank, and defer to their superior groups. The Dracos or Draconians from Alpha Draconis are in command of earth based subterranean reptilians who respect their superiors in the belief system that the Dracs are those who hold "ownership" over earth and human beings. Draco Reptilians view themselves as the most intelligent species in the Universe and that earth humans are the result of their biological seeding processes from multiple planets. The Alpha Draconis Draco have a "Royal Class" that

appear to be lighter colors, white Skinned scales with winged appendages, and are about two to three times the size of an average human, and very muscular. They are quite menacing and tyrannical, showing little mercy to an entity of their own race that they think has defied their orders or responsibilities to manage their "earthly resources". Earth based reptilians appear to be in command over EBE or biological entities known as small Grays. The Reptilians have developed high psionic abilities, which they use for mind controlling other entities, and do not have an emotional body or soul body.

The known reptilian races on earth appear to have made a variety of cooperative agreements with the higher ranks of human government and military, which have resulted in shadow government black projects, such as Secret Space Programs, MILABS and the creation of military industrial complex to experiment and exploit alien based technologies and craft that they have been given access through their cooperation. Dracs are a extremely militant, misogynistic and warring species that are very involved in controlling the Power Elite, financial, pharmaceutical and banking institutions, promoting war and killing through increasing militarization, poverty consciousness, human enslavement programming, religious violence, terrorism, and the harvesting of humanities DNA though abduction and experimentation, as well as other species they have under their control.

Galactic Wars

The main battles in human Galactic history were fought in the constellation of Orion, and so these many wars are referred to as the Orion Wars. In our Universal Time Matrix the wars started over territories in the constellation of Lyra (The Cradle of Lyra). But soon the Lyran Wars spread to the constellation of Orion, and it became a war between False King of Tyranny mind-sets and ideologies with ideology of the Service to Others which follow the Law of One. Essentially, this is the seed of the war over consciousnesses between the Christ and the Anti-Christ.

Prison Planet

The Guardian Host has revealed the Alien Machinery and NETs that are used for Consciousness Wiping all planetary inhabitants, bringing attention to the false light used in the False Ascension Matrix, as well as the repeated recycling of Souls that are routed into Consciousness Traps that make the Earth a Prison Planet. During the Ascension Cycle, the Krystal Star Guardians are essentially on a rescue mission to help the planet ascend, and liberate the Souls on the Earth from Mind Control.

Draconian Races from Orion

Moranae continues,"the Draconians are the oldest reptilian race in our universe. Their forefathers came to our universe from another separate universe or reality system. When this occurred, no one really knows. The Draconians themselves are not really clear on when they got here. The Draconians teach their masses that they were here in this universe first, before humans, and as such they are heirs to the universe and should be considered royalty. They find disgust in the fact that humans do not recognize this as a truth. They have conquered many star systems and have genetically altered many of the life forms they have encountered.The area of the galaxy most densely populated with Draconian sub-races is in the Orion system, which is a huge system, and systems in Rigel and Capella. The mind set or consciousness of the majority of races in these systems is Service to Self, and as such they are always invading, subverting and manipulating less advanced races, and using their technology for control and domination. This is a very old and ancient war, and the peace that does not exist is always being tested by these beings, who believe that fear rules, and love is weak. **They believe that those they perceive to be less fortunate, in comparison to them, are meant to be slaves**. This belief system is promoted at birth in the reptilian races, wherein the mother, after giving birth, will abandon the offspring to fend for

themselves. If they survive they are cared for by a warrior class that uses these children for games of combat and amusement " So, you can see that the reptilians are forever stuck in survival mode. This means they have no boundaries in what they will do to other beings.

It is ingrained in the Draconian hierarchies to teach them to never trust a human. They are taught the Draconian version of the history of the 'Great Galactic War', which teaches that humans are at fault for invading the universe, and that humans selfishly wanted the Draconian society to starve and struggle for the basic materials that would allow them to exist. [1]

Black Sun DNA

The Draconian Orion Group are also referred to as "Black Suns" from their DNA genetic lineage. The Black Suns have reversed their DNA from eons of inciting warring aggression in the Universal timelines to a reverse 10 DNA strand (reverse 10D) and running a reversal life current which they use the Iran Gate to feed off. This is why they perpetuate the reversal 10D current on planet through the area they have control in the middle east, Iran and Iraq. They are only capable to exist in 3 dimensional consciousness while in their body, yet they have access to 10 dimensions of consciousness field. They are primarily form the Satanic class network family although they work and cooperate with the Luciferian Beast families to control the planet and share the spoils of "war". They cannot cellularly transmute their body in out of Stargates easily and use humans to do that. They access limited levels of biological immortality through the vampirism and siphoning of other living things, such as the planet earth.

Basis of Misogyny

The Orion Group directly promotes the basis of collective misogyny, hatred and sexual objectification on the planet, of which many women may feel on this earth is the debasing all of their potential to hold the true balanced female Christos-Sophia aspect. (see Religious Violence) Also, Males must learn to worship their own inner Christos-Sophia as a unified part of God, and this is challenging for many males to accomplish on the earth with the Archontic Deception Behavior strategies which use Mind Control that radically impacts both genders in Sexual Misery. To destroy the potential of running the magnetic sound frequency of Sophia, we have had dramas which are being used as a set up to replay the holocaust of the Christ Temple timelines. These timelines were important events to destroy Christos-Sophia and turn her Negative Form into the Baphomet, the dark Satanic mother buried in the bowels of earth. This has created Anubian Black Heart and many Satanic networks in the planetary body. [2]

Invasion Strategy

To be able to understand the sociopathic sick mind of Archontic Deception systems, one would need to better understand the general attitude of an AD infected human or nonhuman (NAA) as having little to no remorse or empathy. If a technologically advanced extradimensional race has decided to implement a gradual takeover of a planet and its inhabitants, what kind of strategy would it use? First they would look to how they could maximize the efficiency of the invasion process and reduce the expenditure of resources that they have to generate themselves.To achieve this goal the secretive infiltration of the core societal organizational structures such as. religions, medical, financial and legal systems, would be ideal to shape the value systems that generate reality belief systems they want to control. Through the engineering of a labyrinth of self–enforced enslavement policies based on fear and intimidation among the earth inhabitants, they would achieve the use of minimal "off planet" resources by piggy backing on the earth-human resources. The people on earth would effectively enforce their own enslavement as well as enslave their own global human family by giving up their rights and their resources. This is very effective for takeover and invasion with minimal resistance or revolt by inhabitants who are unaware they are being invaded. This is called the Archontic Deception Strategy. [3][4]

Reptile Insectoid Collectives

The main groups of Negative Aliens, the Annunaki, Drakonians, Zetas and Necromitons that source out of the Phantom Matrix spaces in the parallel systems, formed alliances with the Fallen Angelic Annunaki Groups to take control over the earth, which are referred to as the NAA. These groups used technology to open Wormholes that were blended together to create the power required to attempt to pull the earth body into the Black Hole System leading into the phantom matrix where they exist, and then could gain total control over the planet and humanity

These are also called the Black Suns or Black Sun Agenda

Reptile Insectoid Collective:

- Dragon Moth from Orion Black hole system
- Necromiton beetle hominid Men in Black from Nibiruian lines.
- Marduk Omicron from Alpha Centuari
- Centaur Hybrids from Omega Centauri
- Zeta from Rigel, Zeta Drakonian Agendas
- Zeta From Zeta Reticuli

CERN, Large Hadron Collider

- Coordinates 46°14'03"N 6°03'10"E

Abbreviation - CERN or Conseil Européen pour la Recherche Nucléaire in French.

CERN is colliding protons near the speed of light, 99 999% after accelerating them in the main ring, where they collide them in four different detectors, the ATLAS, CMS, ALICE, and LHCb. These sensors take snapshots of these collisions, which measure the energy and magnetic forces produced by these collisions. The detectors determine the spin and the angle of momentum as well.

The particles travel in opposite directions as beams of protons, which CERN is currently using. The two beams become very compact when they travel through the collimators located on the detectors, which are then squeezed down into a very tight focus. One Million times thinner than a human hair moving in bunches through two separate vacuumed pipes. The Bunches are spaced out 25 nanoseconds apart, comprised of a billion or several billion protons in each bunch with millions of groups. Those beams of protons are very fragile, so they need to keep the integrity of these beams. The LHS uses superconducting magnets steer the beams in a circle, keep it dead center while compressing them and maximizing the amount of energy when the beams cross.

Once these particles accelerate and hit the 99 999% speed of light, they hit a barrier, which is the threshold where they can't travel any faster. However, they continue to be injected with energy in the form of Microwaves and Radiofrequency Energy. There are a couple of stages involved in this. It starts with Radiofrequency Energy pushing the particles and then using Microwave eEergy to accelerate them even further. Since they can't travel any faster, they just keep pumping Microwave Energy, which then increases the mass 14,000 times prior to acceleration called the resting mass.

These two streams of particles at a point collide head on, and when they do, it equivocates to about 25% of them hitting, where the streams cross. There are times it's just glancing blows. But, once they collide, tremendous amounts of energies are produced due to the greater mass, which is the highest we have ever seen. The results of these collisions generate extreme amounts of heat for a Nanosecond or smaller, a picosecond. The collisions produce up to 100,000 times more heat than our sun, but because it's so short, it doesn't have the ability to heat up anything around it.

CERN is producing magnetic fields from these collisions, 100,000 times stronger than the Earth's natural magnetic field. These magnetic fields extend through our planet and out to our magnetosphere, causing major interruptions to our shields. Our magnetosphere is what protects us from gamma rays, particles from our sun and the cosmos.

Telluric currents or Earth currents are generated because of the geomagnetic field (Magnetosphere) and are conducted back to the surface of the Earth and back into the mantle, and they induce Gravimetric waves. Gravimetric waves are gravity waves (a physical wave) that travel along the crust and through the mantle of the Earth. Telluric Waves are also audible, which why we have heard sounds in the atmosphere as these currents are conducted from the Magnetosphere back to the Earth, which people refer to as apocalyptic sounds. But the Earth also has naturally occurring Telluric Currents called infrasound.

Low-frequency acoustic emissions are waves that range from 20Hz to 100Hz, which are below the threshold of normal human hearing. Animals can hear at the lower frequencies. Infrasonic waves modulated that range from about 0 to 15 Hz, like radio transmissions occurring both naturally through Telluric Currents and from CERN. If you look at the Egyptian paintings and carvings from ancient times, you will see the figures of gods and deities holding tuning forks.

The tuning forks and the sound that is being generated that we have heard from around the planet do have a relationship to one of the agenda items of the LCH. Through their admissions, they are seeking interdimensional portals or gateways. One of the ways is by using sound as one of their tools in addition to electricity and the magnetic fields. They do this by using sound and vibration to augment their high-tech instruments to open the portals as done in the ancient times. So people are hearing sounds being produced both from CERN and also by the Earth. NASA has recorded these sounds coming from Saturn, and one of Saturn's moons, and this is what it is. We are recording the Birkeland currents that are moving through the Electric Plasma. The Earth is a conductor as well as a battery. As it's receiving these currents, it's charging similar to a battery. So we hear that movement of electrons in the form of currents as these sounds.

Gravimetric waves appear to be creating earthquakes and reactivating volcanoes. There is a direct correlation between the superconducting magnets in the LHC and the magnetic fields being generated by the accelerated particles. The magnetic fields being generated are changing our Magnetosphere and the gravity. [1]

Background

The term CERN is also used to refer to the laboratory, which during 2013 had 2,513 staff members, and hosted some 12,313 fellows, associates, apprentices as well as visiting scientists and engineers representing 608 universities and research facilities and 113 nationalities. CERN's main function is to provide the particle accelerators and other infrastructure needed for high-energy physics research – as a result, numerous experiments have been constructed at CERN as a result of international collaborations. CERN is also the place the World Wide Web was first implemented. The main site at Meyrin has a large computer facility containing powerful data processing facilities, primarily for experimental-data analysis, because of the need to make these facilities available to researchers elsewhere, it has historically been a major wide area networking hub. [2]

Notes

Basic summation of today's content around Large Hadron Collider (LHC).

1. Ripping Black Holes in black matter is a repeat of the Atlantian timeline and is held in the Alpha Omega agenda Armageddon Software memories in the planet, and reintroducing them now is about attempts to trigger events of Cataclysm fears in the general public. The purpose is using quantum technologies as a globalized computerized weapon to threaten the earth inhabitants into absolute submission and enslavement on the earth surface. Black hole technology used to damage the planetary grid by off planet NAA is called Gravitron.

2. Krystal Star says this technology is contained in higher dimensions, however, it wreaks havoc (chaos) for this timeline on the 3D timelines in lower densities of matter. From their point of view in the corridors, the plasma architecture has been created in higher dimensions, they are not concerned in terms of 3D surface cataclysms (although there will be

isolated areas of the planet that are subjected to earthquakes, weather anomalies, volcanoes, etc.), it is not a priority now (other things take priority for Krystal Star projects at this current time)

3. The session had energy signature of "science boys playing with toys" that have been financed by the occultist Illuminati bankers, and incredible waste of human resources, earth resources and crystal prisms, apparently, at the main stream science level, this project will lead no where, as it is really designed to gain control over quantum level of forces. (Meaning this is a scientific indoctrination model of future scientists to be mind controlled by the bankers, the bigger claim to fame is the creation of the world wide web/internet) They already discovered the "higgs boson" and god particle, this was not designed to prove that, it was designed to rip Black Holes and Wormholes in the fabric of space time, which allows many more dark entities to access this timeline. When you rip holes you destroy memories and morphogenetic fields in the planetary body, it also lets in a bunch of debris and opening into other dimensions, which is removing layers of protection around the earth. This allows more extradimensional access to entities NAA to get into the earth density, that previously was more difficult. It is a replay of Atlantian scientists timelines in underground labs, recreating the previous event in current time, now (please do not let me offend anyone, this just came up today, I have no opinion)

4. The black matter fields is where the NAA manipulate the Morphogenetic Field, and place Artificial Machinery to create synthetic AI timelines. They have the idea to open the cap on Wormhole through guiding the mad scientists at Cern. This is that wall in time bridge they try to open up like Phoenix wormhole in Bermuda and upper east coast. (not going to happen) Because this is connecting to artificial intelligence, the Guardian say its too late for that, the governance of the plasma transmission changes the way the molecules (molecular structures) behave and move in this reality. It does appear this will intensify the Bifurcation of Time for those in this density that may impact, meaning those on the 3D timeline and going to the vandal systems, as named Andromeda, near the Eridanus supervoid.

INTRODUCTION

Enjoy this story of how my husband and I actually ascended into the Veil simultaneously as One Soul. Learn how Individual Ascension is achieved. Learn how we really created magic in Camelot and how we created the Music for the Universe. Meet all of the Notes of Gaia's Soul and the 12 Race lines who have already landed on Earth in this book. Expect to see hundreds of spaceships in 202_. Become tuned in to the 12 DNA of the Perfect Humanoid, and then learn how to TURN INTO LIGHT

This is the Promise of the Perfect Kingdom that says Gaia will be the Savior of this Universe

This grand Musical Ascension will take place during 28 months beginning in 2039 and ending in 2040. When millions who live on Earth (the Key of C#) will ascend to Tara Ha (the Key of B). Earth will begin a new musical journey with a new Soul. Gaia will begin her new symphony in the Key of B and Earth will be given to a new Soul who will sing in the Key of C#. Ascension is a Musical Activity

My husband and I were Merlin's Sorcerers in a past lifetime when we lived in Camelot, a city in Tara Ha
When we ascend into the Key of B, we will go back to Camelot and create some more magical relics that allow those in Tara Ha to enjoy the magic of music. We will travel to all of the Keys of Gaia, because that is the reason we came to Earth this time. We are here because we created the Music of Gaia and we want to hear it performed

The original title given to the author and her husband, by the great Creator of the Universe, was Of the Breath of Light and Flame of the Eternal Sun. They are the Creator Beings who created all of the Music in the Universe

We are known by hundreds of other names, including Sorcerers Apprentice, Mary Magdalene, Freetzbin the Dolphin and Bezelda the Mermaid. When Joe was Flevdoolorendax, he wrote music who saved the planet Telepasaides. We are known by millions of names in hundreds of Universes

This book reveals the true story of Camelot, the true story of Creation, and the true story of how this Earth's Soul, Gaia will Ascend through the Music of the Spheres, and it will be that musical attunement that will allow Gaia's new Symphony to be heard in the Universe. Gaia will rise through the scale of her Soul until all twelve dimensions are singing in perfect harmony. This is the Promise of the Perfect Kingdom, where everyone in the Universe becomes harmonically attuned to harmony

that electrically binds every heart of every being in this Universe. This grand Ascension will begin in 2030 when many who live on Earth (the Key of C#) will ascend to Tara Ha (the Key of B). Earth will begin another grand journey with a new Soul, and those who join that Soul will be allowed to enjoy the 35 Magical Relics that were created by magicians like us. We are the Sorcerer's Apprentices.

When we ascend into the key of B, we will go back to Camelot and create some more magical relics that allow those in Tara Ha to enjoy the magic of music.

The Great Musical Ascension of the Universe begins with The Soul of Earth, whose name is Gaia. This great musical Soul will rise through Her scale of all twelve of her dimensions of C#-B-G#-F-D-B-G-E-F#-E flat-C-A to raise the frequencies of this Universe into the PERFECT 12 and the Seventh Level Man, who is Divinely Perfect. Earth is C#. When Gaia rises into the key of B, Earth will obtain a new Soul. Those people who remain on Earth will continue on a different musical journey.

Millions of people from Earth will ascend to the Key of B in an 18 month window in 2039-2040.
Gaia will begin to sing a new HEARTSONG to the Universe that will string the notes of the Universe together into the Symphony of Love. All 12 racelines are involved in this musical ascension. All 12 notes of the Universe must ascend together.

12 Racelines from all 12 dimensions landed on Earth in 2017. Their crews and families will land on Earth in 2023. All of the names of the original ones who landed are in the Acknowledgement Section.

All of the music of the 12 different keys of the Universe will weave and braid and sparkle and sing until all of the outer realms discover our Music of the Spheres that has been harmonically binding the harpstrings of the Universe, and all will unite in creating glorious new symphonies.

The Dolphins, the Whales, the Arcturians, Lyrans, Sirians, those from Orion, Andromeda and Pleiades, as well as Chikani, Snail People, Carrot People and many others will all bring their families to this Earth in 2023. They will bring musical frequencies that will allow billions to ascend through the 18 month window of 2039-2040. Some of us will ascend before 2039. There are 17 on Earth who are ready to ascend at the moment of this writing. My husband and I already performed ascension. Unfortunately, a war was started in the Universe to stop the Veil from allowing us in. There were many wars in this Universe fought because of the lack of understanding of the Music of the Universe.

Learn what happened to the Race line who did not want to tune in to our Music. Hear the story of how the music of Crystal Magic Orchestra, that is our orchestra, has transformed the consciousness of that Race line who is blocking the Ascension. Read the stories told by Lacodemus, who is the GREAT DIRECTOR of the UNIVERSAL ORCHESTRA who is performing our music in the 8th Dimension.

Gaia is beginning a Musical Ascension Journey that will give her the title "SAVIOR OF THE UNIVERSE". Gaia will rise through the scale of her Soul until all twelve dimensions are singing in perfect harmony.

Learn how to be one of those who will ascend from Earth in 2039-2040.

Learn about the Cloud Cities where Camelot could be seen. Learn the true story of Camelot, the city in Tara Ha where I used to live. Camelot was never on this Earth. King Arthur lived with Joe and I in Camelot. We did come down to Earth in the bodies that we created, to look like the knights and kings on Earth.

Joe is in a duet of our house in Tara Ha.

Learn how we created the Ascension Portals, he will allow Gaia to become the Savior of the Universe.

Gaia will rise through the scale of her Soul until all twelve dimensions are singing in perfect harmony. This grand Ascension will begin in 2039 when millions who live on Earth, the Key of C#1 will ascend to Tara Ha, the Key of B. Earth will begin another grand journey with a new Soul who wants to play in the Key of C#.

The Soul of Earth, Gaia, will rise through her scale of all twelve of her dimensions of C#-B-G#-F-D-B-G-E-F#-E flat-C-A to raise the frequencies of this Universe into the PERFECT 12 and the Seventh Level Man, who is Divinely Perfect.

This entire Universe will follow the path of Gaia and all of the Souls will tune in to the the new HEARTSONG of the Universe.

Learn what happened to the Race line who did not want to tune in to our Music.

The Central Sun is the creator of the Seven Suns, Ka Ra Ya Sa Ta Ha and La. These Suns were ANNOINTED by God. He created these Suns to become himself embodied as Light. These were the only creations that God ANNOINTED until he sent himself into Jesus of Nazareth, who was also called the Annointed One of God He was Theonmorphic, meaning God in man. The Suns were also God as Suns. So, when the demonic matrix set out to destroy the Suns, they were actually thinking they were destroying God. The part of the Suns that was God is the Plasma Suns. This Plasma that contained the identities of the Seven Suns is being restored by OF the Breath of Light. She came to Earth so that she could be here to work with the Central Sun for this restoration project. I was born with the Soul OF THE BREATH OF LIGHT I died when I was 13 years old so that my Soul could leave me and to work on the CENTRAL SUN. The moment she left my body, Mary Magdalene became my Soul. Mary Magdalene needed to spend a great deal of time preparing me for my mission on Earth. Since I completed my mission in 2017 she has been working with OF the Breath of Light continuously on the CENTRAL SUN project.

THE SEVEN SUNS were mostly destroyed in wars when the Demonic Nesadraks attacked them. The Wonderful original race line called the Oraphim Race line was almost completely removed through these wars. The survivors have continued to allow this Ascension that is finally happening now. OF the Breath of Light and Mary Magdalene are with the Central Sun now repairing her in a way that will help to restore her children, the seven suns, which will also allow for the return of the Wonderful Oraphim Race line, who are the children of the SEVEN SUNS.

The CENTRAL SUN and the SEVEN SUNS contain all of the Music of the Universe. Since OF THE BREATH OF LIGHT created the Music, it is rightfully her mission or duty to RE-TUNE the music of the universe through the CENTRAL SUN. God has given this mission to OF THE BREATH OF LIGHT because she is the first born of God and the first Light of God and the Creator Being who went forth to place the music that she heard in God's Womb of Creation into every cell of the Universe. Now, this musical harmony will be restored as a result of the TRANSFORMATION of the CENTRAL SUN. The PLASMA creation always remains perfect. Now is the time for the Densities within the Plasma to morph back into the PLASMA OF ETERNAL CREATION. This music is what I have been given by OF THE BREATH OF LIGHT to tell her story of this transformation project.

Introduction to the God Worlds

In the Beginning

The God Worlds is a story of creation. This story begins with Source and it ends with Source. Source is the foundation upon which the whole structure is built. **My Relationship with Source Comes First.** This is a point that Speaker 3 emphasizes again and again and it is very important. So my relationship with Source comes first. Part of my relationship with Source is how I perceive Source, how I conceive Source, what is my conception of Source. Source is the core concept upon which all of Creation is built, and, in particular, upon which the God Worlds are built.

How do we perceive Source? This is something we can ask ourselves almost daily, and every day we will come to a new understanding of our relationship with Source, or a new depth in our relationship to Source. In very general terms, we can conceive of Source as a vast pool of consciousness that underlies all of Creation. Source is this vast pool of consciousness, a vast pool of aliveness. It is the aliveness that underlies all of Creation.

This aliveness is not something that is remote from us. It is something that is very direct, very immediate in our lives. We can ask ourselves "what is it that is alive in ourselves, what is it that is alive within me, what is it that is alive in everything around me?" We can look in the mirror and ask ourselves "what is this that is looking out through my eyes?" Ultimately, what is looking out through all of our eyes is Source.

There are various veils that Source wears. What is looking out through my body initially is my Soul. What's looking out through that is an Oversoul, and so on.[1] As we progress backwards through the veils, we ultimately come to a pure and very free aliveness that underlies all of Creation, and that is Source. Ultimately, what is alive in me and in the flowers, the trees, and the animals is Source. The expressions of Source can have various veils of distortion, but ultimately behind all those distortions is Source. Source is not something very remote from us. It is very direct, very immediate, and very present in our lives.

We can conceive of Source in religious terms, in terms of God, and in terms of a Creator. These have their uses. All of these conceptions of Source carry in terms of God, in terms of religious expressions, a certain amount of baggage. The concept of Source is a much more expansive concept. The God Worlds effectively describe the structure that manifests creation, and brings it into being for us. It is basically the geography of Cosmos.

We all have this desire to go Home. We can ask "where is Home?" Or more specifically, where is here in relation to Home? And how do we get there? The God Worlds describe the journey we have to take in order to integrate our way back Home.

There is a sequence of concepts through which we can illustrate the development of the God Worlds. We will start at the very beginning, going from Source through a sequence of ideas. Some of these ideas you would have come across many times already in the context of Kathara Healing. It is useful to revisit them because they form a sequence and when you follow the sequence, it creates coherence in our understanding of the God Worlds.

The pictures of the graphs are **symbol codes**. They tell us things on the 3-D level that help us understand relationships between different objects or different places, but they are also encoded or encrypted. This means they carry **data packages**, where they carry huge amounts of mathematical data in frequency form.

within them. This mathematical data in frequency forms allows you to actually pick up a lot of understanding through direct cognition. Even if you cannot yet look at a diagram and explain what it means on a 3-D level, you are picking up the frequency of the whole direct cognition which will help you to understand it.

Partiki and Partiki Phasing

Order, Intelligence, and Consciousness

In explaining the Cosmos we always start with the **Holographic Template**. The Holographic Template is literally the secret blueprint that you do not see behind which and under which matter is accreting or matter is manufactured. The Holographic Template refers to **hologram**. The Holographic Template starts with what we call **units of the Consciousness of God-Source**. This is **Primal Substance**—the substance out of which anything is made. What is this stuff? Well, it is obviously **energy**, but what is energy?

What the Freedom Teachings show is that **Consciousness IS Energy and Energy IS Conscious.**[2] Consciousness is a substance. It is a substance that takes on the form of waveforms. They can be standing waves or moving waves, but the templates upon which density (or matter manifestation) occurs are standing waveforms. A standing wave is called a **Scalar Standing Wave**. It holds a fixed point in a grid with many others, and there are very specific mathematical relationships and geometrical relationships between the positioning of these standing columns of wave forms. Standing waves **oscillate** and **vibrate**. Oscillation is when the Particum and PartikA actually flash on into manifestation, and you would see them. Vibration is when they flash off and go back into the Creation Point.

Imagine a sphere covered with light bulbs. They are not moving, but they flash on and off at different rhythms. When they flash on and off at different rhythms, it can appear as if they are moving. If you watch the lights around a marquee, you can see how they can make it look like the lights are actually running around, but they are not. The lights are just flashing off and on. The templates upon which matter is built are very much like this. They are not light bulbs, they are literally consciousness in the form of energy that interacts in very specific ways at very specific angles with other units of like kind and some of opposite kind.

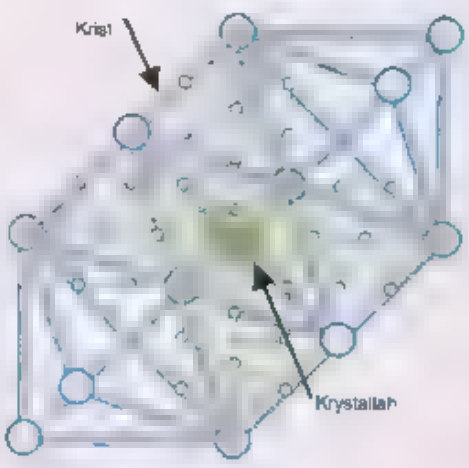

Figure 1 Krist and Krystallah

There is a whole structure to the way reality is built. It is not haphazard. It is not that a big bang just happened and all of a sudden things started to organize themselves. There are big bangs, and the big bangs are the result of certain mechanics that have to do with the template beneath them.

There is order and intelligence to the way the universe is structured. That order has for ages been referred to as the Krist—not Christ c-h-r-i-s-t, but Krist, K-r-i-s-t—because there are two main mathematical programs that are template programs, core programs that everything—the creation, objectified manifestation—began upon. They are called the **Krist** and the **Krystallah**. They go together, and between the two of them they represent 24 points of vibration and oscillation. Upon this structure, standing scalar waves form. And they form intimate interwoven patterns that create the structure of

dimensional fiber of electromagnetic energy by which things can come into manifestation as individuated forms of consciousness.

The energy that makes up the standing scalar waves that make up the templates upon which matter manifests, and matter within which consciousness can embody is all conscious. That means they are beings, not just things. There is awareness, though it is awareness different than what we would possess in a human form here. You would have a different relationship to things like "thought" or "emotion." It would be much more in a category of **direct cognition** and infinite knowing at all times. The standing scalar waves of consciousness that the universe is made out of—includes your body. That includes your consciousness. You are a part of this consciousness. This is what we mean by units of the Consciousness of God.

You cannot be separate from God-Source. God-Source was, is and always will be the original consciousness within which everything manifests, because God-Source desired to manifest it. God-Source set in motion a structure of **perpetual motion**. The first creation continually occurs. It never ends. It was set in motion upon the Krist and Krystalah, which allow for the perpetual motion—continually regenerating, the cycling of consciousness into and out of manifestation in perfect balance, in perfect synchronization, which allows creation to have beginnings and endings *within* cycles. But actually it all occurs at once within the body of the Consciousness of God-Source.

Some of these concepts are hard to grasp at first, but as you progress with the work there is an interesting aspect to the work. It speaks to you on many levels. If it is not reaching you on the D-3 level, some other part is picking it up as cognition. After a while, you will find yourself opening. You will find things coming to you, "oh, okay, yeah, I get that. Oh, yeah, I remember what that meant, I did not think I agreed with that then, but yeah, now I see."

Wave People

If you work with the information provided here, you will find that universal anatomy and personal anatomy have a life of their own. You also discover you can never be alone in the universe. You can pretend you are alone in the universe. You can choose to set up a belief pattern that you are alone in the universe. If you want privacy, you can be private, but you are never, ever alone, because your body is made out of many, many billions of standing scalar waves who are **wave people**—consciousness.

Those wave people that make up our bodies are smaller than the consciousness that make up the part of ourselves we call our **cognitive selves**. So those parts of ourselves, those little waveforms that are beings in their own right, actually look to us for guidance to help them evolve to higher levels. So there is a responsibility that is implied with recognizing that you are part of the body of God-Source. There is a responsibility in recognizing nothing is ever separate from God, even if it falls down a black hole. It will go home differently—it will go home as **space dust**. But space dust is still sacred.

There is no excuse anymore once you realize these things. Once you realize the structure, the science of spirituality, you realize we are all swimming in a pool of unconditional and absolute love—love that was given freely as a gift, so freely, in fact, that we were allowed to be destructive if we so chose.

Recognizing the Consciousness

We were not forced to uphold the original creation and intention of God-Source, which was a joyful, loving experience of eternal life and infinite creativity. If that was forced on us, we would not be able to make choices. We would simply be puppets to a creator god someplace, and that is not the intention of the consciousness that created universal structure. It loved us so much, even though it would prefer that we did not do things like create black holes and harm each other and harm other things. That freedom is still allowed, though not preferred.

Copyright A'shayana & A'mahyana Deere, 1999-2006, All Rights Reserved; Part of the MDEO Freedom Teachings™ Series

There is a spirituality of recognizing the consciousness The energy structures of the God Worlds are fascinating on a scientific level. It is fascinating to see the structure and how the structures interrelate with each other But we should not forget while we are looking at these that we are talking about consciousness. Consciousness implies a being structures of being It is a whole different thing than if you are looking at something saying "oh I can play with that thing. I can make that do what I want it to. I can learn how to make those currents do something." You might try asking them first if they want to work with you There is a responsibility to recognize if you want to reclaim your consciousness and be whole and respected as the being you are you have a responsibility to give respect to other forms of consciousness as well.

It is such a shame what our children are not taught in this society and what has become of this civilization Once upon a time it was not like this Once upon a time people did not pick a flower without communicating with the whole bush telepathically saying "is this all right is this a good time for you? Because will not do it if you do not want me to." And the flower usually would say "oh just hold on let me pull back my frequency a little bit so it does not hurt." There was an open conscious relationship with everything.

People in those societies did not feel lonesome You did not have teenagers committing suicide because of getting bullied at school You did not have people shooting up restaurants because they were frustrated with their jobs There was a love in those times and spaces.

Rules and Balances

We have taught ourselves as a species many lessons about love by allowing that state of "relative perfection" to go away We have taught ourselves why it is worth standing for and worth working for The one way to do that is to recognize that this Krist template exists and it has a set of rules and balances.

They are not rules that say you have to do this and you cannot do that. They are rules that every unit of consciousness of God that comes into the manifestation framework understands exactly what the Krist is, what the template is and how it works It works in a form of action and reaction There will be consequence to action, and even thought is action

So everything, every being that ever came into this Time Matrix---it does not matter how much it might whine now about "nobody's being fair to me." Everyone knew when they first came into manifestation what the rules of the game were, and the rules were there is a certain way the energy systems here work. There is a certain leeway to where they can be pushed into being used in ways they were not meant to But if you push too hard the literal laws of inter-dimensional physics will push back, and you will get consequences you will not be happy with Everyone knew that when they came in However many people have forgotten it

The universe and the cosmos are **self-regulating** They do not require God to play warden. God just IS. And God extends love and continually sends pulses of consciousness in for manifestation and receives other pulses back home for recirculation to go back home with Source if you choose That is an option But, God-Source does not play warden.

Partiki, PartikA and Particum

If we are going to understand our multi-dimensional anatomy we need to understand something called the **templates of matter** They are like the armature or the blueprint that matter builds up on. Consciousness does not enter time or manifestation in a random, haphazard way it is not an accident. It is a highly ordered mathematical, geometrical system of arranging units of energy, units of consciousness into certain patterns where manifestation can take place There is a Primal Order to the structure of the universe and

Copyright Ashayana & Azhiyana Deane, 1996-2006. All Rights Reserved Part of the MCEC Freedom Teachings™ Series

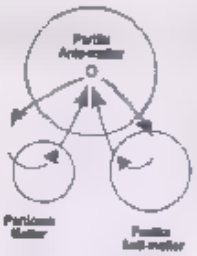
there is a Primal Order to the structure of human biology and consciousness. There is also a Prima. Substance.

We have a vast field of Source, a vast field of pure consciousness that underlies all of creation. It is totally alive, totally free within itself, totally whole, totally integrated. Source brings its attention to a point of focus and in doing so creates structure around it. That structure manifests as the First Partiki (PK), emerging within Source. These Partiki are the smallest units of energy substance, electro-tonal units of consciousness, the consciousness of God, the consciousness of Source. They are the building blocks of morphogenetic fields, matter and individuated conscious identity. They operate as minute perpetual motion fission-fusion generators.

Holographic Template

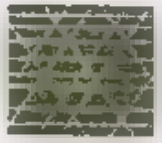
Units of Consciousness, Morphogenetic Fields and Scalar Grids

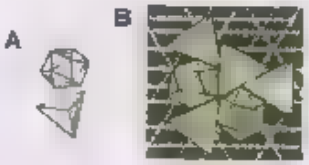
1. Partiki, Partika, & Particum: Smallest units of energy-substance. Electro-tonal units of consciousness that are the building blocks of morphogenetic fields, matter and individuated conscious identity. Operate as minute perpetual motion fission/fusion generators.



3. Partiki units continue to group or accrete upon the Partiki Grids, forming:
A. Keylons - crystallizations of "frozen light" (standing scalar wave patterns and fixed points of tonal frequency) and
B. Keylon Codes - complex groupings of Keylons, which together form a crystalline template of light spectra, sound frequency and electromagnetism that is the morphogenetic field Crystal Body - the Blueprint upon which matter and identity will manifest.

2. Partiki Grids. The fabric of morphogenetic field structure. Partiki units group to form interwoven Strands then Grids of electro-tonal substance out of which morphogenetic fields are fashioned. Out of a Unified Field of Partiki units, Partiki Grids form to create the frequency bands that make up the dimensional fields and then form individuated morphogenetic fields.





The Morphogenetic Field is made of interwoven **Partiki Grids**. The electro-tonal units of consciousness out of which Partiki Grids form create standing wave patterns - **scalar wave grids**, which hold the form of consciousness within dimensionalized manifestation. Morphogenetic Fields are thus **Scalar Grids** that form in specific ordered interrelationship. Partiki Grids form upon the core *geometrical-mathematical* structure of the **Kathara Grid**, and so the Kathara Grid represents the core *Scalar Field* upon which form manifests.

Morphogenetic Fields govern the form of matter manifestation and the evolution of biology & consciousness. Morphogenetic Field mechanics thus hold the key to mastery of physical reality and Bio-Spiritual Evolution.

Reality is a thought field composed of units of consciousness awareness.

There is a Prima. Substance to the order of the universe. and we refer to this Substance as Partiki units. Partiki units can be understood as *omni-polar* units of energy. "Omni" meaning they have the polarity of both negative and positive but they also have no polarity at the same time. An omni-polar unit can be understood as simply a *vibration*. a unit of energy that just holds a vibration and is not yet manifest; it exists in an "ante-matter" state of non-manifestation but it is still holding a pattern on which form will build.

Partiki, PartikA, and Particum are three primary units that every other particle or waveform is built upon. Though we think of them as simply words they are actually **frequency resonance patterns** that are close to the resonance pattern of these particular units. A name is a sound it is a **sonic signature** that has to do with the vibration or oscillation of the thing you are calling a name. They are massive identities (consciousness fields) perpetually fueled and created by a pulse of consciousness that circulates consciousness from the wholeness of God to that focus of 3-point attention. We are constantly expanding in and out of God so it is taking place at every moment. no beginning. no end. There are cycles of linear perception in the manifest perceptual fields. but in truth it is a constant interaction of the 3 points of God attention.

The names are as close as you can get translated into our languages here of the actual tonal frequency of the particular thing that is being named. So we have three primary units of consciousness and units of energy called Partiki, PartikA, and Particum. There are teachings that go with this that get into something called **Partiki Phasing**.

Partiki Phasing

Partiki units, in order to create manifestation. do something called PKI phasing which means they continually and perpetually break apart and come back together break apart and come back together. Partiki units are not free-floating units of energy they are *fixed points* of frequency that are arranged in very specific relationships to each other to form manifestation templates. they form a scalar grid of fixed points. If you want to understand a scalar grid, think of a marquee that you sometimes see around theater signs, where you would have a series of light bulbs and they would all flash off and on at a certain rhythm and it would *look* like a string of light going around, but the light was just an illusion. they were not really moving. The *movement* the illusion of movement was created by the flashing on and off sequence of the stationary points of light.

You can understand PKI units as representing those stationary light bulbs. They are fixed points of units of energy that cycle. they go from vibration to oscillation, vibration to oscillation. There is a difference between vibration and oscillation. It goes from the omni-polar state where it is ante-matter sound into a bi-polar state, electromagnetic, where it is light. This is what PKI units do. they stay in one place and cycle on and off flash on and off.

The template of the universal structure upon which the 5 Harmonic Universes (and all the galaxies within them) manifest are created of PKI units that phase on and off. A PKI unit that phases on and off draws to itself other like units. so you have *clusters* of Partiki units phasing on and off. Those clusters are called **Keylons**, that is where we get "*Keylontic* Science." Keylons build up to form more complex Keylons or *Keylon Codes* that progressively build up the form of energy that serves as the blueprint for manifestation.

When you look at the aspect of the PKI phasing. when PKI go into bi-polarity, where they flash on from being a sound they are a small sound vibration but then flash on into a *light* vibration, you can view that as a scalar wave it is a type of scalar wave. Each one of those standing points of PKI units when they phase on into bi-polarity creates a scalar wave pattern and then it flashes off again into vibration then back on again into oscillation standing wave patterns, scalar waves, standing waves.

Partiki phasing is a very fundamental process in creation through which Source manifests creation. An important point in relation to creation is that what is being created is primarily structure. Source is creating structure; it is projecting part of ITS Consciousness, part of ITS awareness into structure. It is effectively exploring ITS own nature from within that structure and integrating what IT learns from that process back into the wholeness of itself.

There is a process involved in Partiki phasing. We have the Original PKI which manifests as a neutral structure around the original concept in Source. This neutral structure replicates within itself. It creates an equal replica of itself. That replica in turn phases. It polarizes into two equal and opposite expressions of the Original Idea. One manifests as a unit on the matter (PCM) side of creation and the other a unit on the anti-matter side of creation (PKA).

Partiki phasing, in simple terms, is how these three units, the Partiki, the PartikA and the Particum interact with each other. Basically they phase together to become ante-matter, which is actually Density-5 gaseous light. When they polarize you have anti-matter (PKA) and its opposite which is matter (PCM). These are the base units of conscious energy that group together in many different ways to form anti-particles and particles. Particles live in our Particle Universe, which is called the Particum Universe. This is where you get these words. Throughout the literature you will see the abbreviation PCM or PKA, which means Particum Universe and PartikA universe.

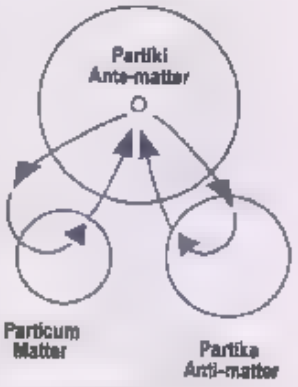

Figure 3. Partiki Phasing Process

The PartikA Universe is our Parallel Universe that is built upon a primary base of PartikA anti-matter units, where our system is a Particum Universe built upon matter units. You could look at Particum as the female and PartikA as the male, and the Partiki as the original spirit or androgynous Being out of which they both came.

Partiki, PartikA and Particum are standing waves, little tiny standing waves that cycle. They go back and forth from being an ante-matter state of unification and coming or flashing on into manifestation of particle and anti-particle. This would be their oscillation stage, and you would be able to see them if you were looking at them with your etheric microscopic vision. When they go into vibration they would flash off and become ante-matter particles. That is a simple way to understand it.

These units of consciousness always come in a group of three—or one that becomes two and then goes back to one again. This means you have a Still Point. So there is the replica and the original and both hold the original pattern. Then you break down one of these into two, but turn one in a direction that is the opposite polarity to itself.

Then it replicates into another Still Point and the process of replication actually creates a vibration which would be the beginning of the EinA force. You take it and split it and turn one upside down, the other way and then turn them towards each other. This creates a force where they are drawn together through the piece of the pattern that they share (ManU). But they also repel each other at the same time and it creates a tension in which movement can begin. This is the creation process that is happening in our bodies at the time. Partiki, Particum and PartikA all exist at the same time. But here in the manifest hologram focus there is a sequence of cause and effect—one thing appears to come before another. Thus we perceive the action, this Partiki phasing at different phases. Our bodies are made of templates of consciousness units that also phase, but do it in a syncopated rhythm; the consciousness units do not all phase at the same time, they follow a rhythmical program (mathematical program).

Scalar Waves and Scalar Grids

In very simple terms we are familiar with waves that are in the world around us. We have waves flowing on the ocean and these are horizontal waves. We can perceive of scalar waves as waves that flow vertically. They are a process by means of which energy and consciousness move vertically from Source into manifestation or more specifically it moves between dimensions. Scalar waves are effectively vertical waves that move energy and consciousness between dimensions. *flash* on in one dimension, and *flash* off in another. Flash on and off in one dimension moving energy between dimensions.

Standing scalar waves are made of Partiki units: points that flash on (oscillate) and then turn off (vibrate), then replicate and polarize and then group together like with like. They form Partik grids (2 dimensional)--and they form PartikA and Particum grids, each one like lights that string together. Then they begin to cross over and through each other they interact and form a 3-D grid in a specific geometrical configuration. They interact in specific angular relationship to each other. This is all controlled by the **Original Base 12 Divine Blueprint Kathara Grid** that determines how much energy it will have, how many vibrations, how many oscillations, how much consciousness is held in one of these still points, all was set by the *Original Intention* of God-Source. There is a mathematical formula that guides the process, that is a right way Divine Intention. Scientists are looking at this all on the outside but do not understand there is a blueprint for all of this. We are not haphazard. It is NOT a chaos system. It is NOT an accident.

The PKi units interweave and form a fabric of scalar waves, an energy field that pulls in more and more of the Consciousness of God. God-Source sends in pulses of consciousness continuously to keep fueling it. One draws in and another comes back out. The ManU field is where this comes through from God-Source through the ManA field, and then the EirA field is in a back pulse, the one that draws in and sends it back to Source. It comes in through the ManU (Partiki) units out through the ManA (PartikA) units and circulates back to the ManU (Partiki) units through the EirA (Particum) units and back to Source.

Circulation of energy takes place through the Partiki grid. The Partiki grid begins to accrete more to replicate its units and make more of itself and these units pull together toward each other (like kind). So a Partik grid is like a 2-D structure pulling in more and more and forms something called **Keylons** which are 3-D units of consciousness (Partiki/PartikA/Particum). When enough units come together to make critical mass (becomes form) the 2-D field transforms to a 3-D field: the 3-D hologram.

Scalar waves anchor our consciousness into dimensionality in the Time Matrix in order to be able to experience space, time and matter evolution. If we can understand the basic primal substance of scalar waves, we can begin to understand who we are and how we get here and what it means to be in a body and be conscious. We as consciousness *before* manifesting takes on the form of very specific arrangements of scalar waves. Our consciousness literally turns into that form in order to experience the projection, the holographic projection, of space, time and matter.

Keylons

Keylons are 3-D [3] carriers of consciousness force. Keylons flash on and off in a syncopated rhythm as they move through the Partik, phasing going on within them. When they hit a critical mass of inner vibration they turn off; when they hit a critical mass of oscillation they turn on. Therefore the Maharic Shield is composed of standing scalar waves, each wave of which is composed of Keylons (a Partiki unit on its own would not be strong enough to form a shield).

We go from the forces of ManU/ManA/EirA into the primal units that they form--Partiki/PartikA/Particum into the structures these units form grouping together making stronger wave forms (such as the Maharic

[3] The letter D throughout this handbook is used to denote Dimension. 3-D = 3rd dimension. D-3 would be read as Dimension 3.

Shield). A. these wave forms are composed of Partik units units of ManU/ManA/EirA which are units of the Consciousness of God, which implies that *all energy is conscious and all consciousness is energy*.

Dimensions

Dimensions are sets of 3 frequencies of consciousness (ManU/ManA/EirA Partiki/PartikA/Particum). Every dimension has structures built on Keylons A dimension is literally a structure of Keylons which are complex standing scalar waves formed by clusters of Partiki/PartikA/Particum. Dimensions build on each other From down here where we are, it looks like they get bigger as they go up From Source it looks like they get smaller as they go down

They cycle and that is called Partiki phasing They flash on and off but they are not just individual They group together and they form first, strings of these units and those strings then form grids, like crosshatched grids of these units, like a fabric being woven a fabric of light and sound, of vibration and oscillation of energy units—and those grids end up with three different rhythms of flashing off and on that form a three-dimensional base structure that creates **Keylons**.

A dimension is composed of a set of Keylons. As an example, let us say Dimension-1 is composed of a set of 12 Keylons Dimension-2 is composed of a set of 12 Keylons but also has the 12 from Dimension-1 In Dimension-3 it would be 12 X 3 They build on each other D-12 12 Keylons per dimension X 12 dimensions = 144 Keylons **Keylons are like the voltage and wattage of consciousness**. **The amount of Keylons in a dimension will determine how much consciousness it can carry** It will direct how many strands of DNA they are capable of forming.

If your template of identity only has 12 Keylons you will only have enough to make one DNA strand not enough to become a 3 dimensional biological being You need a minimum of 36 Keylons in the template for th s 3 X 12) The Keylons build up to form the matter the atomic structure of everything around us

Keylon Crystal Body

Keylons are basically 3-dimensional forms of light and sound waves They are 3-dimensional because you have three different nes of Partik PartikA and Particum flashing on and off at three different rhythms, which creates a 3-d mensional format This is the basis of what we call the **Crystal Body** the **Keylon Crystal Body** Everything in manifestation including the entire universal framework itself has a crystal body structure Later we come to call these the shields. When we talk about the **standing scalar wave shields**. we are talking about a part of the Crystal Body structure But in truth everything—every part of our matter has a crysta structure to it It has this structure of Partik PartikA and Particum as the core template

We call a Partik grid the Crysta Body because of the Keylons As **3-dimensional units of light and sound, they form crystallizations of light and sound**–pre-light and pre-sound that eventually become ight and sound that eventually become crystallized thought forms or matter This is a process of taking a thought form into prima force attention using the Trinity Pattern Base-12 Divine Blueprint and progressively building it up into a crystallization where the thought of God becomes crystallized into manifest holographic forms that hold portions of the Consciousness of God a bit separate from itself even though t is within itself so t can stand back and look at itself and its creation God knows itself through us and we know ourselves through God because *we are one and the same*

We have a personal Crysta Body a personal Keylon structure a crystal thought form Light-Sound Body This is our Scalar Wave Template Scalar Wave Template equals Crystal Keylon Body When we work with our Crysta Keylon Body it will turn on more and more Keylons (scalar waves), pulling in more consciousness like it was meant to do

Our Crystal Body is similar to Christmas tree lights constantly turning on and off in a syncopated pattern. We are constantly returning home to God but do not remember. We put our eternal consciousness into 3 focuses at the same time through the Divine Trinity (Partiki phasing) making them do different things in order to perceive this hologram that is created through that process (interaction). Our Cosmic Keylon structure (whole) is called the **Amoraea Crystal**. All of this applies to both the macrocosm and the microcosm: all have the same structure (scalar template).

This is the basic primal substance and all sorts of other things come out of this, including electrons and protons and neutrons and where a whole bunch of other "trons" that go all the way up a 15-dimensional scale fit in, where we have 15 dimensions in one 15-Dimensional Time Matrix. Each dimension represents one flash-line of Partiki, PartikA and Particum with a specific flash-line rhythm, so Dimension-1 for example would have a slower flash-line. They flash on and off slower. Dimension-2 would be faster. You get up to Dimension-15 and it is really *fast*.

These standing waves that form **standing wave grids** form movement on the inside of matter. When we get into waves that move here in the electromagnetic spectrum: our light and sound waves and **gamma waves** on one end and **infrared** on the other and all the other stuff science does not know is there yet—it is because of the interaction of these standing waves--how they behave and how they cycle, how fast they flash on and off in relation to each other and at what angles--that other waveforms come into perceivable manifestation. It is part of the holographic process, where we are actually all made of these right now and everything in the room is made of them—the air is made of them, every **molecule** that exists, every **atom**, every electron is made of them. But we do not see that because our consciousness has anchored itself into a very specifically organized pattern or shield of Partiki units, of standing waves, that bends the energy of our consciousness into very specific relationships so we are able to see different types of **reality fields**.

It all comes back down to Partiki, PartikA, and Particum, the units that form grids that form 3-dimensional grids, which form crystalline structures of light and sound. Now these are, of course, living structures because the units themselves were units of the Consciousness of God. They were and they always will be and that means we are, too. This means you cannot escape the original source of creation because we are living embodiments of it—and not just our minds being an embodiment of it, our spirit being in the image of God. But everything is in the image of God, as an energy form, a conscious energy form that can take on any form or no form.

When we get past understanding that we are made out of light and sound waves: Partiki, PartikA, and Particum, we get into the structure that this primal substance forms. And that is where we start to understand the body of the cosmos. Before we can understand really well our own bodies, it helps to understand the framework that we live within, because the same template that was used to manifest universes and galaxies and cosmos is the exact same template that is used to manifest everything in the microcosm as well.

If we can understand the cosmos, if we can understand a planetary **Templar** (that would be energy grids and **star gates**), we will also understand the inner energy grids and star gates within our body. We will understand our own structure, and the advantage of understanding our own structure is that once you understand it you can learn how to use it well to serve the intentions that you would like, instead of being run over by your biology.

Unifying the Polarities

We have 2 polarized expressions of the *Original Idea*. One polarized in the male electrical direction and the other polarized in an equal / opposite female magnetic direction: 2 equal and opposite expressions of each other. These 2 polarized expressions come into manifestation and they interact. Interaction between

Copyright Ashayana & Azahyana Deane. 1999-2008. All Rights Reserved. Part of the MCEO Freedom Teachings™ Series

these two polarities is effectively what weaves the whole structure of creation. The whole structure of creation emerges through the sequential interaction of this process.

The 2 polarized units come into expression. Once they have manifested in expression they then turn around, come back into the neutral core in Source. If particle and anti-particle were to come together to merge, they would annihilate each other.

The Original PKI Unit (which manifests as PCM PKA particles) holds the buffer field and the two particles merge back into this buffer field. In this buffer field the polarities are RE-integrated in an orderly way. So the consciousness that is inherent to the structure is brought back in an orderly way in harmony, in coherence into the original neutral expression and from there the structure dissolves and consciousness returns directly to Source.

We have this process whereby structure comes into being. Part of this process is the dissolution of the structure where the consciousness is released and flows back to Source. Thus, we have polarity as a natural part of the creative process. Polarity is a natural part of creation. It is only when polarity gets stuck when the polarized units of consciousness cannot return to coherence to harmony that we have problems. Polarity in itself is natural and it is when polarity can return to integrity and wholeness in Source and return to full integrity in Source, that creation is working in its natural way.

"And within those Primal Sound fields by taking sound and the Partiki scalar units that are turned off which is vibrating and turning part of them around and changing their polarity in relation to each other, light was created." *(Speaker 1 Mechanics of Manifestation)*

Sequential Phasing

The 1st PKI creates the primary structure from which all the rest of the structures in creation emerge. Now we have sequential phasing of the PKI units. The 1st PKI phases – projects polarized structures into manifestation and then returns to Source with the sequential emergence of additional PKI Phasing, which projects additional particles into manifestation. These particles phase sequentially and they phase in relationship to each other. So, we get the sequence of PKI units phasing, creating a **flash-line sequence**. This flash-line sequence in turn phases in relation to other flash-lines and it creates PKI grids. These grids in turn phase in relation to other grids and they create more complex 3-dimensional structures. Three dimensions are a KEY unit in the manifestation of creation. Therefore we have a 3-Dimensional structure emerging from the PKI phasing units.

Analogy for the process of PKI Phasing

We can use a TV screen or computer screen as a good example for PKI phasing. If you look very closely at a TV screen, you will see a sequence of dots on the screen and each dot has little pixels and these flash on and off in a sequence in relation to each other to create a line and the lines flash on and off in sequence to create a picture. The sequential phasing of these units switching on and off creates a pattern. That pattern emerges on the screen as a picture on a TV screen. A TV screen can project something like a football match or horse racing, a drama, and so on. This very simple process of the phasing of units, very small units phasing on the screen the sequential patterns that emerge from that can create various realities. They can create various projected realities; they can create an infinite complexity of realities.

We refer to the projected reality we see in the world around us as a hologram. A hologram is nothing more than a projected reality. It is these fundamental processes that create basic units and it is the patterning of these units that creates the complexity of the projected realities that we perceive around us. Just as we have dots flashing on the screen creating very complex projected realities on TV screens we have a very similar process at work in the world around us. We have this very fundamental level that is PKI phasing.

generating the patterns that we see in the external world around us. Therefore, we perceive the 3-dimensional projected reality which is referred to as the hologram.

15-Dimensional Structure

Figure 4 represents the 15-Dimensional Time Matrix. This is a **Crystal Body Shield Template** made out of Partik, PartikA, and Particum. But since there are 15 dimensions, there would be 15 different **flash-line sequences**. You would have 15 different rhythms of standing waves flashing off and on.

Within the 15-Dimensional Matrix we have our density levels. Density-1 (Dimensions 1-3), Density-2 (Dimensions 4-6), Density-3 (Dimensions 7-9), Density-4 (Dimensions 10-12), and Density-5, the Primal Light Fields (Dimensions 13-15), and the Primal Sound Fields (Energy Matrix). The density levels are also called Harmonic Universes.

One 15-Dimensional Time Matrix with 5 Harmonic Universes

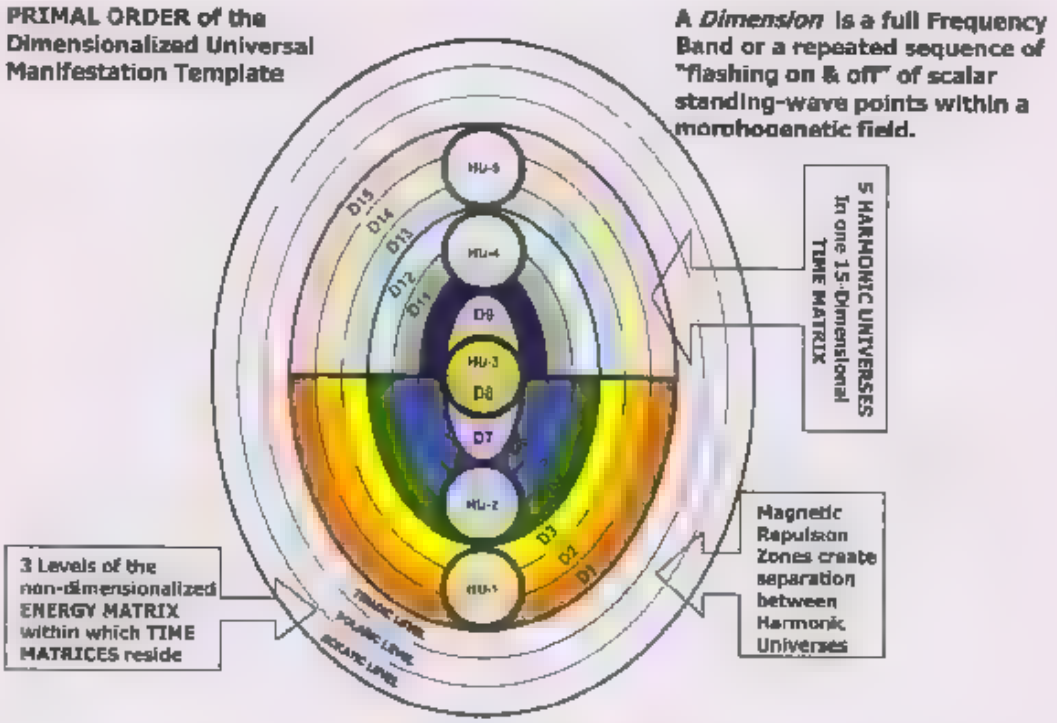

Figure 4: 15-Dimensional Time Matrix

D-10, D-11, and D-12 are the Divine Blueprint Pre-matter Liquid Light spaces. D-9, D-8 and D-7 comprise the Etheric Matter and on down to the Gross Physical Matter at Density 1. The pillar of frequency that runs from D-9 is called the **Antahkarana** or the Universal Kundalini energies. These are Kundalini energies. Kundalini energies do not go any higher than D-9, but they connect to a larger pillar that comes around them once higher activation of the DNA and the body is created.

At D-12 is the Maharata Christos frequency. We have been running D-11 and D-12 Pale Silver Light, and there is a bit of D-10 in there because whenever you run the D-12, it picks up the other two that are in the

shield with it. But it looks like Pale Silver Liquid Light and that is the Maharata frequency. That is the D-12 Carrier Wave. Everything we work with and all the techniques that come with this program are built on running the D-12 as the Carrier Wave for anything else. If you are working with currents down here, D-12 is the Carrier Wave that allows you to open the seals so you can bring other currents in.

If you want to use D-6 current, you can actually bring the D-6 current in once you get your template up to be able to hold it. You can ride through on the D-12 Carrier Wave and come into the D-1 body. You could become capable of transmitting a D-6 current or eventually a whole D-12 current. But right now you would probably blow your socks off if you tried to do a full D-12.

We get little nanosecond bursts of frequency when things activate right now. It is not like we get frequency running like water, though sometimes it can feel like that. It is more like the turning off and on of a light switch—like a scalar wave flashing on and off. The frequency flashes in, it activates the DNA, and it activates the template for nanosecond bursts and then it is gone. But the activation is there. If you are consistent in bringing the higher frequencies into your template, after a while those activations hold. It is like slowly stretching the template so it does not shatter. Because if you just open the doors and let it run you would crash your template.

We are running the currents that are the natural currents that run down here in Density-1, the D-1, D-2, and D-3 currents. They are quite slow compared to the higher spectrum currents. Even the gamma ray spectra and all of that stuff that science says, "oh, they are the really high-powered, fast, choppy waves," are only in the D-2 and the first part of the D-3 band.

What might the higher density frequencies look like? You would have "fry-you-on-contact" kind of waves. Gamma waves can do pretty good damage on you and so can X-rays. Can you imagine what the strength of these are running full throttle? And what we are doing is progressively getting our bodies where we can run them, from the inside out. We are not going to turn into laser beams yet, but I think these frequencies if they were fully run in without a buffer would be like lasers. They would fry everything and turn it into gaseous light.

It is a process of moderating frequencies when we are running these frequencies. But the template itself, the D-12 Christos level of our Self is stored in our template—our consciousness is our template; that is part of our consciousness, too. So we have our Divine Blueprint, which implies we have part of our consciousness expressing as that Divine Blueprint. It knows when too much is too much, so it will not allow those frequencies to run. But as we work with the frequencies we build up a tolerance. Just like if you work with jogging, the first time you may crawl around the block—forget run, you can hardly walk, right? If you keep it up slowly, slow but persistent—gentle persistence progressively prepares the body without harming it to be able to run these invisible currents of light and sound.

There comes a certain level where you feel it. You might not immediately when you first start using it, or you might not feel it when you are using it, but all of a sudden, like a couple of hours later, you are trying to make lunch or something and just—*Zap!* You just get *neeuurm*—and the hairs stand up on your arm and you get heat flashes and you know, "geez, I'm going through early menopause." No, that is an activation. Other times, you will put in frequency to run and you will feel it immediately. And everybody differs with that because we are all at a different level of shield activation and DNA activation. But the frequencies are real, even though science has not identified them yet.

The problem with identifying them with instruments is the Angular Rotation of Particle Spin (ARPS). These currents have a different ARPS than things down here, and the instruments that science is using are made of matter particles that have the ARPS down here. So it is going to be a little challenging for scientists to pick up anything in this spectrum while using the type of equipment that is currently available.
The following currents are the ones we work with. At D-12 we have the Maharata. The Primal Light Fields

(D13-15) are called the **Kee-Ra-ShA**, and those are the sounds they make. The reason it is called Kee-Ra-ShA is because translated into our language the closest sounds for the Race Tones are Kee, Ra, ShA.[4] Up in the Energy Matrix we have the **Khun-Da-Ray** and it is the same reason—these are the Triadic, Polaric, and Ecka tic levels, the Khun, Da, RA, or Khundaray frequencies of the Primal Sound Fields. They are the basic currents, and now the Heliotalics that come in at the Ecka angle are available. They are really, really beautiful. These look like pale silver pastels. It is a metallic-type light but a lovely, light, fluffy liquid. It feels like liquid, but dry. You feel you can swim in them.

This 15-D structure is absolutely KEY to the whole structure of Creation and the structure of the God Worlds. We are all connected. Every tree in the same species has a certain template that is the same, and then there are individuated parts of it that make it an individual tree within the collective. Humans are like that, too.

Harmonic Universes

The 15 dimensions are broken into what are called 5 Harmonic Universes. The Harmonic Universes are different sets of pulsation rhythms. One Harmonic Universe would have three dimensions in it, so it is a 3-dimensional reality system. It would be a matter-based system, and the type of matter that would manifest in one Harmonic Universe would have to do with what the pulsation rhythm of what the Partik phasing was within those three dimensions. The faster the Partik phasing is, the less dense the matter becomes.

The lowest waves, the slowest waves that would flash on and off the slowest, would be down here in D-1, which is part of Harmonic Universe 1 (HU 1). The next fastest waves would be at HU 2, then at HU 3, then up at HU 4. The fastest would be HU 5.

We are down here right now in HU 1. Dimensions 1, 2, and 3. It is called gross matter density. It is the heaviest type of matter except when you go into black holes, which gets even worse. But the natural structure here is the slowest and heaviest.

The next level is called HU 2, and that consists of Dimensions 4, 5, and 6. Dimensions 4, 5, and 6 in HU 2 are similar to Dimensions 1, 2, and 3 in HU 1. They both have a **base tone**, an **overtone**, and a **resonant tone**, which is a combination of a base tone and overtone. Again, you would see the same structure of Partik, PartikA, and Particum. You would have the Partik unit being the resonant tone, the Particum unit as the base tone, and the PartikA unit the overtone.

This structure of base tone (D-1), overtone (D-2), resonant tone (D-3), base tone (D-4), overtone (D-5), resonant tone (D-6) goes all the way up, including when you are dealing with D-1. You are dealing with the sub-atomic and etheric level, the border between sub-atomic particles that science can see and the etheric level.

If you go up to what we call D-4, which is the astral plane, you are actually dealing with the sub-atomic particle level of Density-2. Every one of these is a flash-line sequence. It has a different pulse from the one above, from slow going up to high. You have gross matter density at HU 1. At HU 2 / Density-2 is called semi-etheric gross matter density. It is going from a carbon base (HU 1) into a silica base (HU 2). We find carbon-silica base matter in HU 2 and silica base matter in HU 3, called etheric matter, which is even lighter in weight and density.

Up in HU 4 you go into Pre-matter Liquid Light. This is where matter literally is in the form of liquid light, and that is considered the D-12 level. Liquid light is actually D-10, D-11, and D-12, but D-12 in particular is

considered the Divine Blueprint. That is where we come in from: going from the non-material state of HU 5 Dimensions 13, 14 and 15 into the states of density of matter.

The Primal Light Fields are up in D-13, D-14, and D-15 in HU 5. This is the place where what was sound vibration, templates of waves in standing form, begin to interact with each other in a way that makes them bend, and they begin to oscillate—not just vibrate, they begin to arc and make energy. And that energy becomes light: the Primal Light Fields. The Primal Light Fields are basically a **Pale Turquoise (D-13)**, **Pale Yellow (D-14)**, and **Pale Magenta Pink (D-15)** color. With in that you have the Divine Blueprint, which is the **Pale Silver Liquid Light of D-12** that we use. This is the Maharata Current we use when we do the Maharic Sea.

What we have out here in the Energy Matrix are actually the three levels of the Primal Sound Fields. *Before you have Light there is Sound.* Before you have oscillation or flashing on, there is the vibration state. This area is called the **Sound or non-dimensionalized Energy Matrix**.

We have the fundamental process of PK phasing generating structure within creation, effectively generating fundamental structures on which the God Worlds are built. The core form is illustrated in the Time Matrix in Figure 4. What we have is the dimensional structure of a universe. On the outside we have the pure Consciousness *pure* Light, the very free Aliveness of Source that is without structure and without form that is totally integrated and knows all of itself intimately. At a very fundamental level Source Consciousness brings focus to a particular idea and creates a structure around it. That structure initially manifests as very pure Sound: the Primal Sound Fields (Khundaray).

These Primal Sound Fields are very alive in themselves, very conscious, very aware and they are capable of creation within themselves. They bring focus of attention to a more concrete expression of the Original idea, the Original Theme and in doing so they create vast fields of very Pure Light, the Primal Light fields (Kee-Ra-ShA). Consciousness within those Primal Light fields further develops the Original idea and creates more concrete structure, which begins to manifest as the matter fields in creation.

The sequential structuring within creation progresses from the Primal Sound through the Primal Light and begins to manifest the matter fields in creation. Within these individual fields there is further subdivision into dimensional levels. Dimensions basically are bands of phasing PK units. They are differentiated by the different frequencies by which they phase. A further feature of the PKI phasing process is that the particles that manifest effectively spin. So there are different spin orientations for different particles.

Within the full expanse of matter fields there are 12 subdivisions, 12 dimensions. These 12 dimensions are grouped in groups of 3. Thus we have 4 groups of 3 dimensions, each group forming a Harmonic Universe. An important point in relation to this diagram is that the Primal Sound Fields are non-dimensionalized. There is a fundamental difference here in the Primal Sound Fields. They are much closer to Source, much less separated from Source than the rest of creation. So we do not get quite the same differentiation, the same solid structure in the Primal Sound Fields as we do in the inner dimensional levels of creation.

We have 15 dimensions spanning the Primal Light Fields and 4 Harmonic Universes within the 12 dimensional structure of the matter fields. We have the Primal Light Fields of Dimensions 13, 14, and 15, the Pre-matter Liquid Light of Dimensions 10, 11, and 12. Effectively we have 5 Harmonic Universes, also referred to as density levels, each spanning 3 dimensions. We have definite zones of separation between each of the Harmonic Universes. We exist in Harmonic Universe 1, in Density 1 down here in Dimensions 1, 2, and 3. It is worth making the point that lower dimensional levels are not the same as lower importance. All of the dimensional levels are important, all are significant in their own way. It is like the notes in a musical scale: each has its role, each has its significance.
You can actually take this and put it into a flat chart that does not have any curved lines, or you can take

flat charts and turn them into things with curved lines. It is just one way of representing it, but it is meant to convey the fact that the universe and the cosmos, the templates of matter that we are talking about right now, actually form 3-dimensional wave grids that rotate and move. They form spheres and elliptical spheres of energy, and you can look at the whole thing, like the entire cosmos as spheres within spheres within spheres within spheres within spheres. That is why they used to call the ancient psonns, which are the shield activation sound tones that you can make, the *Songs of the Spheres*. They were talking about the celestial spheres.

Hova Bodies and Stations of Consciousness

In each Harmonic Universe you have what is called a **Hova Body**. This is where your consciousness for that level is stationed. Hova Bodies are Light Sound bodies. They are part of a larger body structure called a **Radial Body** that we will talk about later after we move through Merkaba.

It is enough to understand that in Density-1 you have your Incarnate Self here that you know as your 3-dimensional self. In Density-2 you have your Soul Level of Identity. That is where the Tang bie Structure of your Soul lives. And yes, it does have a body, like you do, too, except it will be a more refined body. However, it might not even look like you. It depends on what you came here to do and whether you came *true to form* or whether you decided to wear a human mask and your form is really like an Elevan, and you are 12 feet tall and have long white eyelashes, you do not always look the same in these bodies.

But you will have an imprint of your Density-1 body in your Density-2 Soul body. You will have an imprint of this body in your Oversoul body. What we are aiming for is Christos Avatar and higher. The full integration of D-12 is actually a Christos Avatar. Anything below that and you are not embodying full Christ Consciousness. Christ Consciousness is a minimum of the D-12 frequency.

Rishiac Consciousness would be D-13, D-14, and D-15—the consciousness and the frequency of those Rays. There are a lot of people running around on the planet right now saying, "I'm in Christ Consciousness, I'm in Christ Consciousness," and then they can go around and be really nasty, you tick them off and they get really vicious, and it is like, "hmm, what happened to that? You put it in the drawer for a day or what?" They are doing a split where they are actually bringing in some higher frequencies from these levels, but they are also blocking off part of the lower frequencies. They are not integrating the subconscious at all. So they are floating around in there, head is in their upper chakras while they are growling down in their lower chakras and holding anger and resentment and all sorts of things. That is not Christ Consciousness.

Christ Consciousness is integrating at least D-12 frequency. There are a bunch of people running around not on planet, but visiting and borrowing bodies whenever they feel like it, that are coming from D-4 and D-5. They are calling D-5 Christ Consciousness. Maybe in their world; in black holes it works differently than it does here. The D-6 level is considered Angelic Consciousness. Why then are we, on this planet, with 12-strand and higher DNA, listening to people in D-6 telling us what to do? It does not make sense, except they have conned us into thinking they are more important, bigger, higher, more developed than we are. Why? Because they are usually the ones that have helped us shut off our DNA so we cannot remember who we are in the first place. This is why you do not need angels. You want to see an angel? Look in the mirror! Realize you are one, and more. Why settle for "angel" when you can go for Avatar? Why settle for Avatar when you can go for Rishi?

The highest level of consciousness that are channeling through people in the New Age Movement right now is D-11.5. But it is still cut off from the full Christos Template. The people out there "channeling" are pulling in frequency. They are pulling it in without understanding how **Primal Life Force Currents** work here, without understanding dimensional structure, and the worst thing is they are doing it without asking

for a resumé.[5] They do not even ask. One thing you do not have to worry about with the Freedom Teachings is we will not encourage you to let something else come in your body with you so it can hug you from the inside—unless it is yourself.[6]

Consciousness and the Flash Lines

Each dimension is like a flash line sequence with a different sequence in each dimension. D-15 has the fastest flash on and off and most points flashing on and off because it contains all of the others below it. The Primal Light Fields are located at D-13, D-14, and D-15. D-13 is the **Blue Flame** which equals the First Expression of Source. The second expression of Source is the **Pale Yellow-Gold Flame** at D-14. And the third expression is the **Violet Flame** at D-15.

The higher dimensions have less density. Density 1, the gross matter density level is the thickest, slowest moving, slowest flashing and therefore the lowest frequency. The frequency of flashes or how often they flash determines whether it is a low frequency (slow flash) or high frequency (fast flash). Your consciousness determines the flashes. Earth's consciousness determines its flashes, which means everything on it is the same. This means that part of our identity is also self as earth--it's all connected. Therefore we have self as local solar system and local galaxy, self as local universe and self as the 5 Harmonic Universes and upward in frequency.

As we turn on more of the flash line sequences in our template we progressively bring more of the consciousness associated with the higher expanded levels - we expand back into God-Source. **The reality of the Consciousness of God exists as a force that has no boundaries, limitations or form - the cosmic "no thing" in "no space" and "no time," that is eternal--no beginning and no end.**

Stepping Down

The Cosmic Shield makes the God Worlds Shields. The God Worlds Shields make Universal Shields. Universal Shields make Dimensional Shields; each 3 of these form Density Shields. These shields are the <u>circulatory system of consciousness</u> that makes us know ourselves in existence.

The sub-harmonic frequency bands of D-12 to D-1 are in your Maharic Shield Template. Your Telric Shield holds the sub-harmonic frequency bands from D-9 to D-1, your Oversoul level of consciousness. Your Doradic Shield holds the sub-harmonic frequency bands of D-6 to D-1, your Soul level. And your Telluric Shield holds the sub-harmonic frequency bands of D-3 to D-1, your Incarnate level of consciousness.

The first point of activating the shields in our bodies is to open the D-12 Shield, which corresponds to Dimension 12 which holds all below it.[7] To get the consciousness of all 12 dimensions into our physical body, we have to turn on all sub-harmonics within the D-12 DNA strand and so on. Our objective is to turn on all 144 sub-frequency bands to turn on all flash line sequences that also form the dimensions. It is all interconnected.

Looking at Figure 4 on page 12 (Time Matrix), the outer rings indicate the non-dimensionalized portion of the Energy Matrix, the Primal Sound Fields, the Khundaray. The Primal Sound Fields step down to become the three Primal Light Fields, the Eckatic, Polaric and Triadic. There is a flip, a polarization in rotation that happens, that is why D-15 is not the highest but D-13 instead (closest to Source). D-13 has lower oscillation than D-15 but has what is known as the Blue Flame current. This is where you get the

Speakers of the Blue Flame Speakers of the Gold Flame, and the Speakers of the Violet Flame.[8] These are Consciousness Collectives that bring in portions of the data that are carried in the wave fields. The highest ascension mechanics information is carried by the Blue Flame collectives, then the Gold Flame level and finally the Violet Flame. The level of information they carry will only get you only to that level. Everyone fits into one of the categories. If you are human, it means you were created to be one of these Flame Keepers. It means your DNA carries this information and sometimes your job is to write books etc. other times it is just to run frequency into the planetary grids

When the Universal Template is created the sound (vibration) fields come in first and then give birth to the light fields the Manu exists as the constant field behind both of them. D-13 D-14 and D-15 are the ante-matter portions of your identity Next upwards after D-12 is the Triadic level which forms the Violet Flame field where sound becomes light first sound vibration, then light. Then you have the Polaric which forms the D-14 light field The Eckatic is the first individuation of Source Consciousness on the universal level (not the cosmic), corresponds with a Manu (still point) field primary Manu Eckatic level (non-polarized field) These flame fields are not columnar flames but spherical and manifestation is taking place within them.

When these forces come into the Time Matrix they step down or break down into smaller and smaller units of vibration manifest The process of getting back into expansion and wholeness and oneness with God is the process of bringing out of polarity the boundaries that separate each of these levels Between the density levels there is a **magnetic repulsion zone** This reacts similarly to when you put two magnets together in a certain way, they repel each other We have a 3-D consciousness at each of the density levels which means we have a body of some form moving around in each of these densities (many selves)

Opening these body levels and these reality field levels is the process of building the Primal Life Force Currents in the body They step down quite a bit through the God Worlds starting on the Universal level at the Manu EirA and ManA in D-13 D-14 and D-15 They are smaller versions with different names in the lower dimensional levels They have a different vibration at each level but still carry the flow of one of the

three aspects of the Primal Consciousness. The Primal Light Fields are called the Kee-Ra-ShA, the names are derived from the sound tones that go with them. These are coded in our DNA and to wake them up we call their names. When you begin to use the proper names you send the *wake-up call*.

Words and certain images that carry silent words and silent tones and certain symbol codes are the patterns of vibration that we consciously send into our bodies' DNA template. Kathara Grid to wake up these frequencies within the scalar shields. The psonns wake up the DNA and Merkaba because they use the tones associated with the levels and send them into our DNA to wake up. Working with tones and visual images that carry tones in a mathematical program we are using God Languages of First Creation. However, when we wake the high ones, we cannot wake them without first using the Maharata Current. The Maharata Current, the D-12 current, acts as the bridge between us and the higher densities.[9]

Repulsion Zones

If you take a look at Figure 4 (15-D Time Matrix), you will see something called a **void field** or a **magnetic repulsion zone** between each set of 3 dimensions. That is what allows 3-dimensional reality fields to literally co-exist in the same place but be separate from each other, so there are different views. There is a sphere here, and activity taking place in it, and then there is a magnetic repulsion zone where the energy from here bounces back instead of coming in, but it makes another sphere around here, so there is a reality field around here. They are like eggs within eggs within eggs. The magnetic repulsion zone is actually what separates the levels of our inter-dimensional selves, from each other, from our selves down here—and it works that way on the planet level and the galaxy level and the universal level.

Antahkarana

The slow way to evolution is to build the Antahkarana 9th-dimensional pillar first. This is the slow course and usually takes more than one body to eventually bring in the Maharic Current. We are taking the fast way. We call upon the D-12 frequencies to activate them in the template which begins the process of channeling these currents down through. It does it by building up the 12 sub-harmonics in each one which makes it build much faster - one current coming down the other coming up, it forms a pillar of current that progressively gets wider and larger.

Down here in Density 1 the main vertical current is very thin through the center of the body. When we integrate the soul level it gets a little wider, and when we integrate the oversoul it gets wider still. When you integrate the Maharata it gets so wide it forms a Pillar of Light both within and all around the body. It is called the **Ascension Tube**. When you do the fast evolution it is temporarily manually stimulating that tube to come all the way down and anchor in your field. It meets the skinny line of whatever you have activated and begins to progressively call all the names (frequencies) of the other levels in between (frequency bridge). It will activate the Antahkarana D-9 current but will take a long time to form without D-12 Maharata current to stimulate it.

All the currents from D-9 down are called Kundalini currents. When these open in the body there are physical sensations that go with them: there are a set of cranial sacral seals (crystal seals) in the tailbone and pineal gland. These currents cannot come into the body until they can run through the central vertical column. Opening the seals begins the awakening process.

As we work with these currents we are building the ability to take our memory with us as we go back to God-Source. We start with who we are now and let that expand to who we were to begin with - to hold

Cosmic Consciousness within us. It is a process of expansion and we start first with developing Christ Consciousness. As you build these currents you are bringing alive progressively the Eternal Consciousness– the Eternal Flame. It exists within you and also surrounds the entire universe and is with n the entire universe. We are waking ourselves up to the fact that we have always been at one with it

The Kathara Grid

The next level of structure within the God Worlds within the sequence through which creation emerges from Source is the Kathara Grid (Divine Blueprint). There is a Divine Order that is held and set by the Divine Blueprint. This is a core scalar template a *core structure* on which all the structures within creation are built. The structure replicates itself to make more of itself within this focus of attention field. There is a mathematical program that sets the mathematical relationships between these units of the Consciousness of God.

When we think of Source, when we think of the Consciousness of Source, it is a very free unstructured and integrated consciousness, creating structure and projecting consciousness into structure. So it has a particular intent, a particular design for what it manifests in creation. That intent, that design, that core template is structured in a very orderly way. It is structured in a particular structure represented by the Kathara Grid.

There is a diagram of the Divine Blueprint, the Kathara Grid at Figure 6. Ka = Light (God expression / expansion), Tha = Sound (God intention / drawing in) and Ra = One Spirit (ManU). This diagram is also called the *Tree of Eternal Life*. Each point refers to a scalar wave of consciousness. Other Kathara Grids built on 11, 10 or 8 points are not holding the Divine Blueprint, and the teachings associated with them reflect the difference. Instead of *Eternal Life*, they give temporary or finite life. They were taken out of the original 12-point grid; things were done to them that cut off the ability to hold D-12 frequency (Christos frequency). These templates do not have the ability to plug into the God-World template. They are called anti-Christos because they do not have ability to hold Christos frequency [10]

in the ManU field, the Still-point field where creation takes place we have the EirA and ManA fields Each one of these takes on the Base-12 program and crea es a Kathara Grid with 12 points. They break their consciousness down into 12 points of vibration They manifest as 2 interconnecting Kathara Grids (24 points, but each one a separate nd viduation unto themselves that together form a 24-point Cosmic Template. The pattern is reflected through everything

The Kathara Grid is also a map of Universal Star Gates The Christos blueprint is the part of us that is all connected At this level we all look like Pale S.ver Liquid Light beings (still individuals that know ourselves as one of the many and many of the one but one form we do not have much differentiation. The God Worlds have a level of this also It is a *core* template from which we get the *core* template for individuation that makes one form; e human dog, cow Certain mathematical programs also form planets and stars. At the *core* of all life there is still a very simple Base-12 form of Kathara Grid At the *core* we are al the same

Kathara Centers[11]

The Kathara Grid has 12 centers, each carrying the core coding the core intent or program the core template for what will manifest on the dimensional level over 12 dimensions A Kathara Grid has 12 Kathara Centers representing 12 dimensions Each center carries the designed core intent, the core template for what wil manifest at that dimensional level in creation The Kathara Centers are condensed scalar wave points that hold the *core electro-tonal geometrical mathematical program* for dimensional zed structure They carry the *core coding* that will cond tion all the rest of manifest creation So everything that manifests in creation has a design; and that design n its purest form is coded in the Kathara Grid as a foundation within creation

The program for Partiki phasing and vibration-oscillation for each dimensional frequency band is set in the corresponding Kathara Center The Kathara Centers set the template for each dimension, to ground consciousness with n the holographic experience of manifestation So it is a key structure a key tool by means of which Source puts structure into creation puts consciousness into manifestation where the core coding is stored for the bodies that house our consciousness in creation

Kathara means Light Sound-One Ka-Tha-Ra Light-Sound-One Each of these circles or Kathara Centers[12] represents a specific point of vibration, a core set of vibrations that hold the rhythm and pulsation pattern and geometrical relationship—standing waves that hold the geometrical relationship—for each of the first 12 dimensional bands So this is actually the depiction of a template for manifestation The Kathara Centers with n the 12-Tree Grid are like ttle yoke programs that whole shields can build on Whole groups of scalar waves will accrete around these shields and fill out the pattern n the shields.

We have Kathara Centers in our bodies Our planet has these On the planetary level they are star gates "When they activate they are literally spaces from which you can go from Dimension-1 to Dimension-2 to Dimension-3 to Dimension-4 Again where we had the 15-Dimensional Time Matrix and the 5 Harmonic Universes, you have—and you will see there is another diagram that shows this—if you draw a line here (n the DVD Speaker 1 uses a pointer to ndicate a diagonal line running across the lower portion of the Kathara Grid) you have D-1 D-2 D-3 then a line 4 5 6 then a line 7 8, 9 then a line 10, 11 12 This shows 4 of your 5 Harmonic Universes " (*Speaker 1 Science and Spirituality of Creation*)

Repulsion Zones

If you take a look at Figure 4 (15-D Time Matrix), you will see something called a **void field** or a **magnetic repulsion zone** between each set of 3 dimensions. That is what allows 3-dimensional reality fields to literally co-exist in the same place but be separate from each other so there are different views. There is a sphere here and activity taking place in it and then there is a magnetic repulsion zone where the energy from here bounces back instead of coming in, but it makes another sphere around here, so there is a reality field around here. They are like eggs within eggs with eggs. The magnetic repulsion zone is actually what separates the levels of our inter-dimensional selves from each other from our selves down here—and it works that way on the planet level and the galaxy level and the universal level.

Kathara Lines

The Kathara Grid is a building block, a scalar wave template. Each Kathara Center goes with each dimensional level and holds the mathematical geometrical program for each dimensional level. Within the Kathara Grid are lines linking the Kathara Centers, these are called **Kathara Lines**. These key links between the centers carry the information from one center to the next, effectively carrying the information from one dimensional level to another.

Kathara Lines are the primary sequences of Partiki phasing that transmit the electro-tonal programs held within the Kathara Centers from 1 dimension to another, to keep the continual flow of consciousness circulating throughout the 15 dimensional levels of the morphogenetic field. When functioning properly, the Kathara Lines connect each harmonic and dimension of consciousness to the other and govern synchronization of cycles of time within the dimensional fields and within the morphogenetic field, DNA and body rhythms of dimensionalized forms. The 3 Vertical Kathara Lines control the operation of the other 12 Kathara Lines. The Central Vertical Kathara Line is the control center for Partiki phasing rhythms throughout the Kathara Line System.

Primal Manifestation Template

The Kathara Grid is built upon what is called the Krist Code. It is the Code of Eternal Life Manifestation of First Creation and the Kathara Grid is the *core* structure.

The Kathara Centers are radiation units. The Kathara Grid is a structure of radiation units and the interaction lines that form between them. It has to do with the core encryption and the tiniest of tiny and also the largest encryption or the largest structures that the cosmos is formed on. It is all built upon the Kathara Grid, sets of Kathara Grids that are interwoven. We have embedded Kathara Grids that give you dimensionality. There are small ones like D-1, D-2 and then D-3 and then a larger one called a Density Kathara Grid. You have other structures that are interrelated Kathara Grids that form complex structures on the universal,

Figure 8 illustrates the Kathara Grid in relation to the underlying dimensional structure. It comprises 2 interwoven Kathara Grids of Primal Order within the Universal Time Matrix and Cosmic Energy Matrix of the Primal Manifestation Template. The 12 centers of the Cosmic Kathara Grid form the first Primal organization of Partiki Scalar Grids that forms the 3 non-dimensional levels of the Energy Matrix and Ante-matter Dimensions 13-15 of the Time Matrix.

What we mostly see is the Dimension 2–2.5 range because you perceive as solid what exists exactly one dimension below your station of consciousness. If your consciousness is actually resonating at D-3, you will see D-2 as solid. And right now our planet has been phase-locked at D-3–3.5 accretion, which means how much frequency its template is holding. This means our perceptions have been stuck looking at D-2–2.5, so the identifiable spectrum that science is finding right now is somewhere just down in here in HD 1.

We have 12 dimensions of manifest density, and 3 dimensions of the Primal Light Fields, and 3 levels of the Primary Sound Fields beyond that. So we have two Kathara Grids that represent (or hold) the programs for 24 points of concentrated frequency. We see how the 15-Dimensional Time Matrix and the Kathara Grid as a core template fit together with our 15-Dimensional Time Matrix. It is literally a map of the 12 dimensions that make the 4 density levels in the density levels of matter in our Time Matrix.

We have the Kathara Grid which spans the 12 dimensions of the matter fields. Each Kathara Center is keyed to a dimension level. The dimensional levels are represented by a particular frequency, and that frequency in turn is coded by color. It is not Keylontic Science that states, for example, that Dimension 1 is red. It is just that the color frequency of red resonates with the core frequency of Dimension 1. Therefore *color is a key* by means of which we can access core frequencies of the dimensional levels. And it is used in these diagrams as the *key* to the particular frequencies of each dimensional band.

We have our Kathara Grid here spanning the lower 12 dimensions within our local universe. This is referred to as the Universal Kathara Grid or the Density Kathara Grid, spanning the 4 densities of the matter fields within our local universe. The second Primal Organization of Partiki Scalar Grids that forms the 12 dimensions of Time Cycles and Pre-matter to Gross Matter density levels of the Time Matrix, within the Energy Matrix.

What is new is that we have an additional Kathara Grid spanning the Primal Light and the Primal Sound Fields, again, a 12-Center Kathara Grid. The first 3 centers and the pre-dimensional levels of the Primal Light Fields and the upper 9 centers span 3 levels of the Primal Sound Fields. The Primal Sound Fields are somewhat different in that they are non-dimensionalized, so we have a slightly different structure to the Kathara Grid at this level. We have less separation from Source here.

The structures, the Partiki units that manifest at this primal sound level do not form standing waves in the same way they do within the 15 dimensions of the dimensional structure. Now Speaker 1 differentiates these higher centers, she describes them as Domains. And the 9 Domains spanning the Primal Sound Fields, she also includes the 3 lower centers in the Primal Light Fields as part of the Domains as well. So we have the Primary 9 Domains in the Primal Sound Fields. The upper Kathara Grid is referred to as the Cosmic Kathara Grid, 12 Centers of the **Cosmic Kathara Grid**, the first Primal Organization of Partiki Scalar Grids that forms the 3 non-dimensional levels of the Energy Matrix and Ante-matter Density Dimensions 13-15 of the Time Matrix. The Time Matrix spans the 15 dimensional levels within our universe, the 5 density levels, each with 3 dimensions.

The Time Matrix represents the part of our universe where there are beginnings and endings. There is process, and time exists at this level. As we move out beyond this level into the non-dimensionalized Primal Sound Fields, we are getting much closer to eternity. We are going beyond the level of creation where we have specific beginnings and endings, and beyond that we are into the very pure integrated Consciousness of Source.

Figure 8 is a fundamental diagram that underlies the 3-dimensional structure and describes the dimensional structure. It is a very powerful diagram with a lot of information encoded within it. For example the outer Primal Sound Fields effectively represent a Radial Body around the dimensionalized levels within our local universe. Within the 15-dimensional structure the dimensions are symmetrical around dimension 8—there are 7 dimensions above and 7 dimensions below. *Dimension 8 represents a core point within the 15-level dimensional structure*

Diagrams have value in their own right. There are layers of information in them and constant study will reward you with new levels of understanding and deeper integration. There is a lot of information encoded in these diagrams. The diagrams are effectively symbol codes in their own right. Working with the diagrams can greatly expand our consciousness around this area and can draw us into a more immediate connection with the realities that are represented by the diagrams.

Star Gates and Ascension Passages

Figure 8 as far as the structure of the Kathara Grid illustrates the density levels. the Harmonic Universe density levels within the Kathara Grid structure. We have Density 1 spanning Dimensions 1, 2, and 3, Density 2, spanning Dimensions 4, 5 and 6; and so on. Furthermore the Kathara Centers actually represent the physical correspondences in our world.

Everything that manifests in Creation has its own Kathara Grid. For example we have a Cosmic Kathara Grid spanning our local universe. We have a Kathara Grid spanning our solar system and a Kathara Grid underlying the structure of our planet a Kathara Grid underlying the structure of our physical bodies. Each has this representation, the 4 density levels, each density level spanning 3 dimensions.

This particular diagram at Figure 8 illustrates the correspondences at the universal level where the individual Kathara Centers or the individual signets are also referred to as **star gates** the correspondence from the Kathara Centers to the individual locations within our local universe. These are maps used by beings who know how to go up and down the dimensional scale and turn themselves into light and turn themselves into form again. These are the **ascension passages**

Ascension is a reality. Star gates are ascension passages. The word "ascension" has always referred to star gate passage but that does not mean people in spaceships zipping around in metal containers. It means getting to the point where you have integrated your higher dimensional consciousness to the point where you can activate the **wave fields** right around your body and within your body. where you can turn yourself back into light like you were when you came in and then put yourself down someplace else and turn yourself back into matter. That is Mastery and spiritual integration as well if it is used well.

We go from the concept of Kathara Grids to understanding Kathara Grids. It is not only core templates—the core vibrational pattern. the 12 vibrations that begin the formation of any scalar wave template. They are literally the star gates, the coordinate points where star gates exist that allow you to pass from one dimensional band to another or one density level to another or one Time Matrix to another.

Universal Star Gates

We have literally been given the maps of the star gates. These were known for eons here. These are not changeable even though the Earth rotates and there are earthquakes. If you have an earthquake you still have a star gate in the location where the earthquake was. You can have damaged star gates. The grids can get damaged where they do not operate properly anymore. But these are the locations of the **12 primary natural star gates**

Copyright Ashayana & Arahanna Deane, 1998-2008. All Rights Reserved; Part of the MCEO Freedom Teachings™ Series

These are the Universal Star Gates the ones that literally go up the 15-dimensional scale or the 12 dimensions of the 15-dimensional scale They literally take you out of this Time Matrix where the smaller planetary level star gates would take you from the planetary ones to the galactic ones, and from the galactic ones into the universal ones if you wanted to get out of this Time Matrix if you wanted to go to another 15-dimensional system

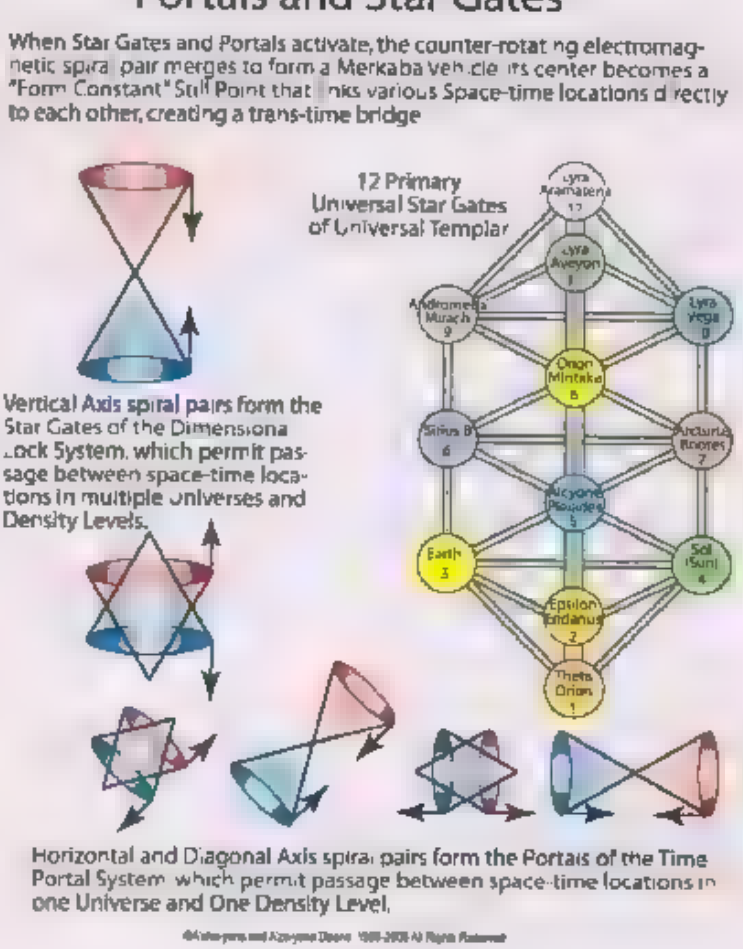

Figure 9: Portals and Star Gates

Just like we had spheres within spheres and eggs within eggs within eggs, you have Kathara Grids within Kathara Grids within Kathara Grids. And they are **core templates** embedded, interwoven templates.

We have known for a while they are the locations of the universal gates. The combination of D-12 D-11 and D-10 is called the **Cradle of Lyra**, because the D-12 gate is in what we call the Lyra star system. It is a place—its true name is **Aramatena**, but that is actually what they call "**the double-double**" in Lyra. It is known on the astronomical charts—you will not see the name Aramatena, but you will see Lyra double-double Gate 11 is also in Lyra, and is called **Aveyon** in its true name.[13] And **Lyra-Vega** holds Gate-10 Lyra is the first system in our 15-Dimensional Time Matrix to be inhabited. The stars in the Lyra system comprise our cradle That was where the Universe, in this particular universe, is always seeded because those three gates are there

In any 15-Dimensional Time Matrix the three gates of D-12 D-11 and D-10 will be the cradle for that So whatever star system they would appear in that is where the universe would be seeded---and they are fixed gates They live there They are in the template there They cannot move from one place to another You cannot pick up your star gate up and carry it with you and move it to another planet You can interface gates, which has been done a lot on this planet but you cannot move them from their original position

Our Cradle of Lyra is in Density-4 and Density-4 is where the original template Earth came from That original template is called Aramatena, and is actually the Divine Blueprint for the entire 12 dimensions of

[13] It is called Sheliak in the star charts

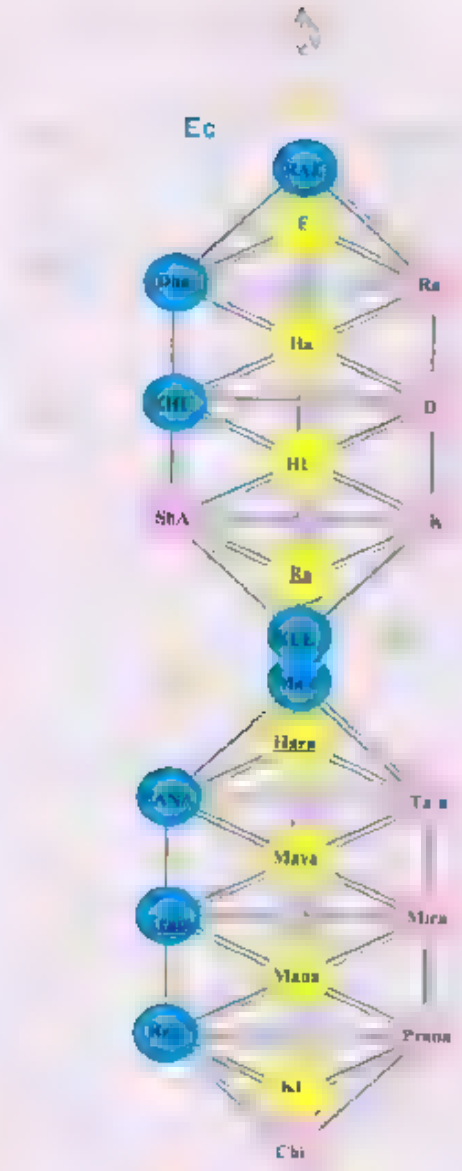

Figure 10: Primal Current Flow and Star Gate Sound Tones

this 15-dimensional system. Everything came through the Aramatena template. It had to, to get here. To get into density you have to come through those gates

By doing so you are coming down from the ante-matter density levels, Density-5, which are Dimensions 13, 14, and 15, which is gaseous light—to the Pre-matter Liquid Light, D-12. This is the passage from being in light form complete light, as gaseous light, into beginning the form process. So you go through Pre-matter Liquid Light between D-12, down to D-11, down to D-10. When you start going over to gates 9, 8 and 7, you begin the journey into the etheric matter densities, then gates 6, 5 and 4 take you into the semi-etheric matter densities—which are silica based. Semi-etheric are silica- and carbon-based and Density-1 is basically carbon-based matter as far as life forms go.

If you want to leave the Time Matrix and go visit somebody in another Time Matrix, you need to pass through these gates, and that means you have to be able to pass through the density levels of matter

Angular Rotation of Particle Spin

To be able to pass through the density levels of matter, you have to be able to do something with what is called your Angular Rotation of Particle Spin (ARPS). Each dimensional band has a different angle or axis angle that units rotate on, and there are very specific shifts in angular rotation of particle spin that are needed to get a Density-1—D-1, D-2, D-3—body into, say, Density-2, because it has a completely different ARPS than Density-1 That means the units of protons and electrons and all those particles that science knows you have and the ones that science does not know you have yet, which is the Partiki PartikA and Particum—they all have a different ARPS

When we are doing Merkaba, we get into where the angle of the vertical axis is pointed because that directs the ARPS So when we are dealing with gates, each one of them would have their own characteristic ARPS If a being tried to go through a gate and their bodies were not flexible enough and their template was not able to shift into the particular merkabic activation that would allow their particle spin to shift into the gate, they could literally spontaneously combust. Their template would shatter if the frequency is too high and their template cannot hold it.

Because our DNA is asleep and it is not doing what it was intended to do, biologically most people could not make it through a gate yet This is what conscious evolution is about This is why we are doing the Flame Body activation Merkaba activation DNA activation, it is all simultaneous—the programs are all connected--so we can reclaim the ability to do that

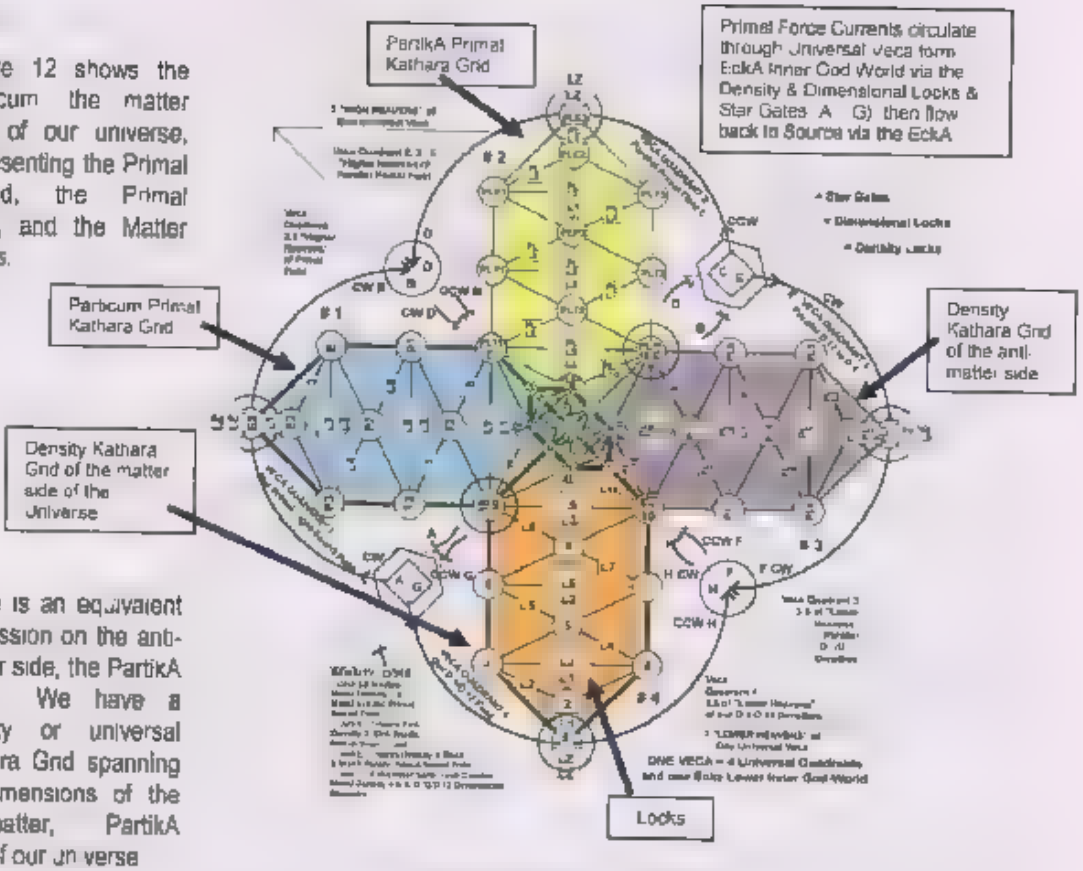
Our Local Universe

Figure 12 shows the Particum the matter side of our universe, representing the Primal Sound, the Primal Light, and the Matter Fields.



There is an equivalent expression on the anti-matter side, the PartikA side We have a density or universal Kathara Grid spanning 12 dimensions of the anti-matter, PartikA side of our Universe

Figure 12: Four Kathara Grids - Our Local Universe

There is a particular sequence a very specific order to this structure If we take our Particum Universe the matter fields within our Particum Universe and examine the relationship to the anti-matter fields on the PartikA side, we can see there is a 90 degree shift. This 90 degree shift goes back to the original Partiki Phasing process The units on the matter side have one angular rotation and the units on the anti-matter side have an angular rotation that is oriented 90 degrees to that

Locks

Figure 12 shows the 4 Kathara Grids that form our local Universe and they represent quadrants At this level we have an additional structure within our Kathara Grid. We have what are referred to as locks Locks arise between dimensional levels and between density levels and effectively hold the structure of creation in place For example we have our chakras and we have our star crystal seals between the chakras These star crystal seals serve a function to keep the energies of the chakras apart So, the locks have a very important function of holding structure in place.[16]

[16] In the body the locks are called star crystal seals which keep the chakras separate from each other They keep the dimensional levels of consciousness separate from each other at different angular rotations of particle spins to give us the projected illusion of 3-dimensional reality

When a structure comes into being, it comes into being on many different levels. The levels are separate and they are held in separation with the help of these lock structures. The structure of our local universe has to be held in place to allow further development spanning billions of years. This allows other lifestreams to emerge within the structure. These lock features preserve the structure for as long as it is needed until we come to a point in creation where we need to transcend the separation that is enforced by the locks. When we come to that point we effectively have to open the locks.

In Figure 12 where you see the L-numbers in the squares, these are **Dimensional Locks**. This would be a lock between Gate-1 and Gate-2 or Dimensions 1 and 2. The locks are basically frequency barriers that prevent the frequencies from one dimension from running into the other until the lock is open. There are smaller locks, dimensional locks, in between the individual dimensions between D-2 and D-3, between D-3 and D-4.

We also have larger density locks between density levels that maintain separation between the density levels within the Kathara Grid. For example, we have a large density lock indicated by the diamond-shaped lock (L1) between Dimensions 3 and 4, enforcing separation between Density 1 and Density 2. We have a lock between Dimensions 3 and 4 and in bodily terms it corresponds to our E-umbi point.

We have a similar lock between Density levels 2 and 3, essentially between Dimensions 6 and 7. The dimensional lock at the center (L6) corresponds to the AzurA in our body. We have another dimensional lock between Dimensions 9 and 10 which corresponds to the Rajhna point in our body.

Wherever you see a Kathara Grid it implies that there is an AzurA point at the center point there, and that is where the seed atom exists. That is really where the life-force rotation spins from, and that is where the creation frequencies, on a cyclic basis, can recharge the seed atom so eternal life is possible. Right now our bodies are not working that way, though they were designed to work that way. Our planet was designed to work that way. We are in the process of reclaiming that.

We have *two important locks* at the top and the bottom of the Kathara Grid. We have Lock 4 between Dimensions 12 and 13 (Lock 4, the center lock is not shown on the diagram). And we have the Zero Point Lock (LZ) at the bottom. Each of the extremities of the Kathara Grid has a relationship to the Primal Sound Fields that encompass the whole structure. Also, there is a window in the center of the Kathara Grid that represents the Zero Point, the point of integration within the universal structure. These Zero Point Locks connect to the Core Lock structure at the center.

The density locks, the bigger ones, are Void Locks. They are the locks that block the frequencies between each of the density levels of matter. If you are dealing with the embodied Kathara Grid, this would represent a lock between the D-1, D-2, and D-3 frequencies of your awareness here. You have your D-3 Mental Body, your D-2 Emotional-Elemental Body, and your D-1 Atomic-Etheric Body down here.

Up at D-4, D-5 and D-6 you have your Soul Level of consciousness, and again you have a D-4 Etheric-Atomic, you have a D-5, which is Density-2 Emotional-Elemental, and a D-6 which is the Density-2 or Soul Level Mental Body. To expand these bodies to hold this frequency, this lock (L1) would need to release because when this lock opens it allows the frequencies from Density-2 to come into Density-1.

The locks become important a bit later when we learn about Veca Codes, which are certain very specific mathematical programs that correspond directly to each of the locks that allow for a rapid opening of the frequencies between the densities, which allows for the fastest process of Soul integration, Oversoul integration, and Avatar integration. As you integrate these frequencies in your higher dimensional self, your Spiritual Bodies, you are also progressively activating and building your Merkaba, activating and building DNA, because the DNA strands correspond with this. You have coding that goes with Strand-1, Strand-2, Strand-3, all the way up to 12 strands. Humans have 12 strands. Indigos have 24–48 strands of DNA.

They will always appear as a double helix What changes are the amount of nucleotide base pairs and how many sequences of how many nucleotide base pairs chemicals are contained within the DNA So even though you will still have 2 running hel they will have different strand count corresponding to the chemicals that build from the Partik units and Keylon codes of D-1 then D-2 then D-3 all the way up

As you are opening locks you are building Merkaba and you are activating something that is called the **Flame Body** When you do this on the Veca Gate levels you are opening the density barrier between the Density-1 system and the Density-2 system. This means you could ascend to Density-2 through the gates if this lock was opened and if you could fully activate the Density-1 and Density-2 Merkabas so they would blend Each dimensional level has a Merkaba of its own a smaller dimensional one and each density level has a Merkaba Building a Merkaba is progressively building the frequencies, bringing the frequencies from Density-2 into Density-1, downstepping from D-3 into D-2 into D-1 and progressively building a faster stronger, higher frequency Merkaba vehicle.

We started out with a 15-Dimensional Time Matrix, and the 12-point Kathara Grid, the core template programming upon which everything is structured. Now we are going into the composite Kathara Grids that form the interwoven gate systems that link all of the densities and the dimensional levels together They call these the God Worlds because by the time you get up into the Ecka you are dealing with *eternal life systems*. There are some residents of those places that are still in healing mode like species that are still evolving and are not quite eternal life yet, but they are working on regenerating fully the entire Kristos imprint [17] But they would have had to have accomplished getting back this much Kristos Imprint from D-12 before they could fully be stationed here

What we are working towards at our level is progressively building all of these frequencies activating them within the DNA, building them in the Merkaba vehicle so at some point in time some of us may have the opportunity to physically experience going through a gate

Veca and Ecka Code Lock Keys

The concept of a lock means we have the associated concept of a key something that opens a lock The lock enforces separation, but there must be a process by which the lock is released. There are core energy signatures encoded in symbol codes and sound patterns that release and open the locks We have a sequence of symbol codes and a sequence of sound patterns that go with the locks

When we seek to move up and down through the structures we work with the Signets/Star Gates/Kathara Centers in the Kathara Grid But we also work to release the locks to allow passage between the signets so we can progress up and down through the structure. Thus we have a sequence of codes to release the dimension locks, a sequence of codes to release the density locks, and so on up through the Kathara Grid structure

We work with the Veca Codes and the Ecka Codes, and they are the symbol codes and they have sound tones that go with them. They work with your persona shield They are also keyed to the Planetary Shield, the Galactic Shield and the Universal Shield Specifically they not just activate Signets/Star Gates/Kathara Centers in your body they activate the locks in-between. They are the Void Codes that actually open up the density levels, so it is the fastest way to bring all of these frequencies together to make the full Eckasha Merkaba.

There is a set of **Veca Codes** that go in each of those positions And up on the next level, on the Ecka level there are a set of Ecka Codes and there are also some levels up above that We work with these codes to

literally begin the process of healing and opening what s called our **Radial Bodies** to bring our density levels together as fast as possible The Freedom Teachings aim at creating the ability to clear the template and do ascension, activate Merkaba, by literally going at t from different angles simultaneously

The Veca Codes are the Shield Codes that activate the density locks that allow for the progressive building of the Flame Body and progressive activation of the DNA and the Merkaba levels that go with it We also have massive codes that are beyond the Vecas and beyond the Ecka Levels They are **Krist Codes**. coming from the Eckasha-A and the Eckasha-Aah levels

Krist Codes are the most sophisticated codings because they are comprised of layers upon layers of Veca Codes, Ecka Codes, and other Codes from all different levels of the God Worlds Where we used to work with one Veca Code—now you have 12 Veca Codes, plus 12 **Ecka Codes**, and more coding around it We are working with shields at this point, not just ndividual codes. We are going to go nto a lot of shield work because working with the shields is actually the easiest way to do any of this

The Veca Codes are the beginning. The Veca Codes, the Ecka Codes, the **Scepter Pillar Codes** and al the other codes going up the Stairway to Heaven There is a whole stack of them They all release those density locks so the Radial Body levels can open to each other and create the Flame Body levels

Heaven Worlds

Within the structure, the combination of 4 Kathara Grids are referred to as a veca Universe, and each Kathara Grid is referred to as a Veca Quadrant There are different density levels within each Kathara Grid, each density spanning 3 dimensions Each of these 3 dimensions e Dimensions 1 2 and 3) represent a coherent world within creation. We have a world that spans Dimensions 1 2, and 3 The 3 dimensions have a coherent relationship with each other They create a 3-dimensional reality field we can perceive as an ntegrated experience in creation We perceive and operate within creation within a 3-dimensional world within a 3-dimensional structure.

We live in Density 1, in Dimensions 1 2 and 3 this represents a coherent experience of creation a coherent world that we can perceive and ive within within the structure of creation We have a world that corresponds to Density 1 we have a similar world corresponding to Density 2 spanning Dimensions 4 5, and 6. Each of these worlds these coherent stations of perception in creation is referred to as a Heaven a Heaven World within the Structures of Creation. *A Heaven represents a coherent integrated world that we perceive as a coherent reality.*

We have Density 1 Density 2 and Density 3 each representing a coherent Heaven World. Furthermore, in the Primal Kathara Grid n the Primal Light and Sound Fields in our Universe the Kathara Grid at that evel also has its density levels The top density levels spanning the top 3 Kathara Centers (12, 11 10) are represented by the Eckatic Level of the Primal Sound Fields We have another density leve spanning the Polaric Level of the Primal Sound Fields And we have a density level spanning the Triadic Level of the Primal Sound Fields Therefore, we have 3 coherent density levels 3 coherent Heaven Worlds within the Primal Light and Sound Fields.

Particum Side of our Universe

When we look at Figure 13 we see that Density 4 on the Universa Kathara Grid and the 5th density level on the Cosmic Kathara Grid actually share a lot in common. Of the 3 pairs of Kathara Centers, 2 of them are connected / common, only 1 pair is separate Kathara Centers 12 and 13 share the same space; Kathara Centers 9 and 15 share the same space There is much commonality much sharing of space between the

top density 4 in our Universal Kathara Grid and the 5th density level of the Cosmic Kathara Grid. The combination of the 2 represents a coherent Heaven World in its own right.

We have 3 discrete density levels (Kathara signets 1-9) in the lower Universal Kathara Grid and 3 discrete density levels in the higher Primal Kathara Grid and then we have a common area between the two representing a 7th Heaven World. Thus, we have 3 ½ Lower Heaven Worlds, 3 ½ Higher Heaven Worlds, which are on the Particum side of our universe.

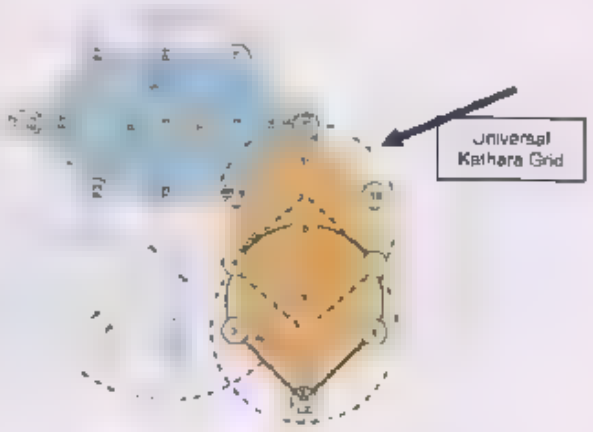

Figure 3: Particum Side of Our Universe

We have a similar structure on the other side, the PartikA side of our universe (refer to Figure 12). We have 3 discrete Heaven Worlds in the lower structure at the density level; i.e., 3 lower Heaven Worlds in the Universal Kathara Grid. 3 Higher Worlds in the Cosmic Kathara Grid; and then a common world between them: the 7th Heaven.

These add up to 7 Heaven Worlds on the PartikA side and 7 Heaven Worlds on the Particum side comprising 14 Heaven Worlds within the 4 Veca Quadrants.

There is an *additional* structure at the core of this Veca Universe, referred to as the **Inner Ecka**, the Inner Ecka World. Just as the Particum represents the female or what is called the EthA side of our universe, and the PartikA represents male, the ManA side of our universe, we have a neutral core that synthesizes both polarities. This neutral core is represented by a Kathara Grid referred to as the **Inner Ecka**.

The **Inner Ecka** has a Kathara Grid structure just like all the other Kathara Grid structures but an important point of detail here is that the Ecka has 24 Kathara Centers/Signets. What we have in the Ecka are 2 Kathara Grids overlaid on top of each other. We have a 24 Signet Kathara Grid structure within the Ecka: we have 12 centers in an Upper Kathara Grid and 12 centers in a lower Kathara Grid. So, even though only 12 Kathara Centers are illustrated in the diagram, we have a total of 24 Kathara Centers in the Ecka.

The Inner Ecka Kathara Grid has a relationship to centers in the Veca Quadrants, centers in the Veca Kathara Grids. There are definite alignments between Veca Signets and Kathara Centers in the Ecka Worlds. We can regard the Ecka as the core from which the Veca Quadrants spiral out into manifestation. It also represents the core they will all spiral back into as the structures in creation are being released.

Flow of Energy Through the Veca

We mentioned earlier that there is a correspondence between the Zero Point Locks at the extremities of the grids and the First Point of Creation, the Zero Point at the core of the Veca structure. There is a very beautiful flow and interchange of energy through these lock structures.

a

We can trace progression of the currents flowing between these centers.

We have a flow of current from the Zero Point at the Core of the Veca Structure, out through A CW (going from core out to 7 o'clock then CW up to 9 o'clock) around through the Zero Point Lock (_Z) and back into the Zero Point core through Point B (see Figure 14b at 10 o'clock) here

This helps to build the structure of that Veca Quadrant.

b. Now the current goes back into the Zero Point Window and then comes back out through C (2 o'clock) (refer to Figure 14c);

c. Then back CCW around to D (10 o'clock), back to Zero Point Window

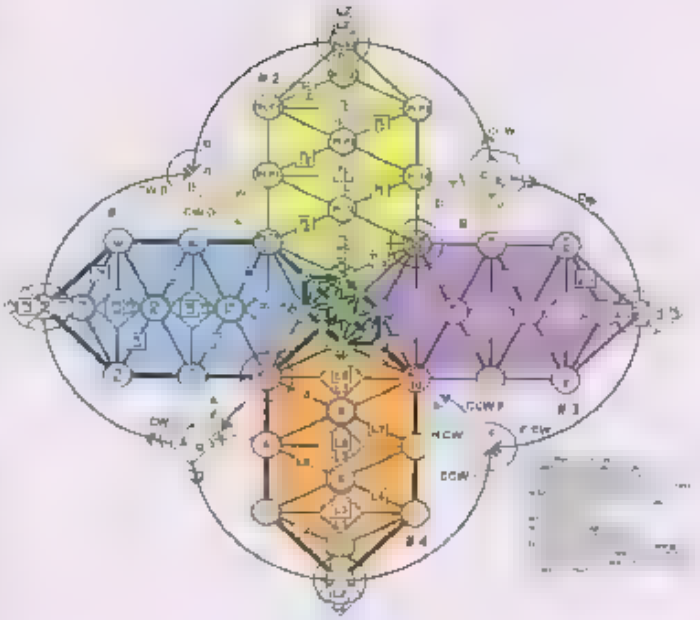

Figure 14a Veca

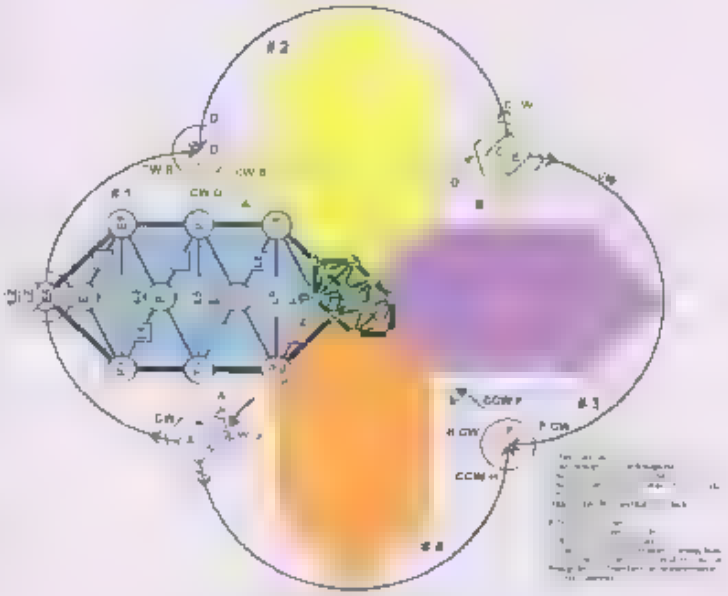

Figure 14b Veca Flow

d. Then comes out through E (2 o'clock), flows CW to F (5 o'clock) goes back in again to the Zero Point Window (refer to Figure 14d)

e. Then comes out through G (7 o'clock) and flows CCW back in through H (5 o'clock) (refer to Figure 14d)

This process results in a very intricate pattern of energy flows between the Zero Point at the core of the Ecka and through the Zero Point Locks at the extremities of the Veca Quadrants (refer to Figure 14a, the full Veca diagram).

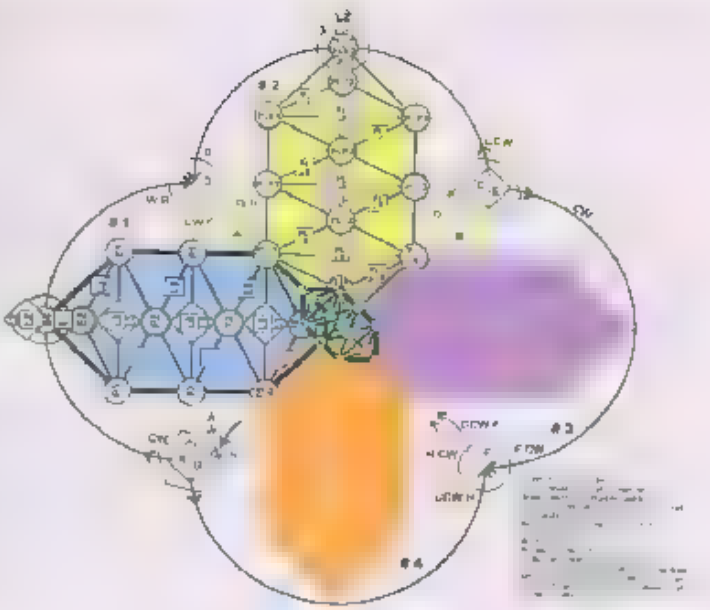

Figure 14c: Veca Flow

Recap

Kathara Grids are interwoven to form the map of star gates on the cosmic level, and also the core structure of radiation units upon which matter forms, including your body. We have our Veca Universe each side of which has 7 Heaven Worlds, 7 Particum Heaven Worlds and 7 PartikA Heaven Worlds, and the Ecka Core constitutes an additional Heaven World, making up a total of 15 Heaven Worlds. 15 Manifestation Fields of the Universal Veca.

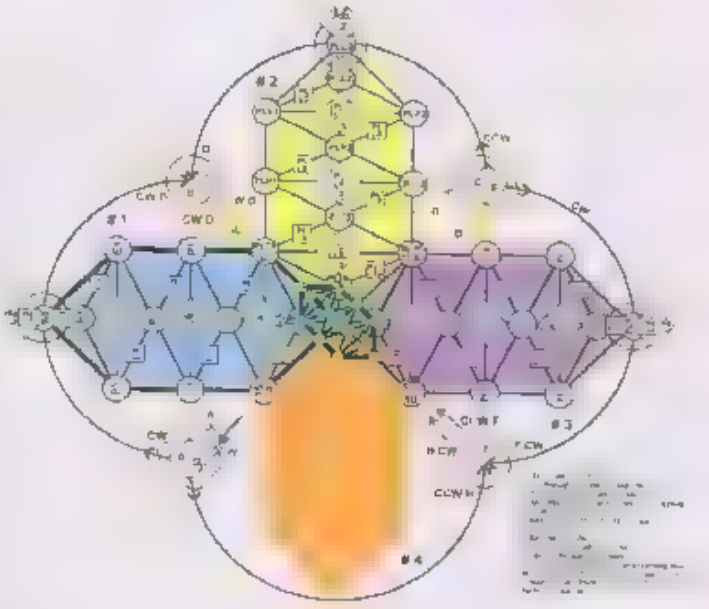

Figure 14d: Veca Flow

The 15 Manifestation Fields of the Universal Veca: 4 Kathara Grids nest together, fixed at Centers 12 / 13 to form a Universal Veca. A Universal Veca holds three 15 Dimensional Time Matrices: two represented by the Veca Quadrants and one by the Ecka Inner God World: 2 Time Matrices formed by 2 pairs of Kathara Grids, and a third inner Time Matrix called the **Ecka Inner God World**. We have a Time Matrix spanning the Particum side of our universe and a Time Matrix spanning the parallel anti-matter PartikA side of our universe. The Ecka constitutes an additional Time Matrix. So we have 3 Time Matrices in our local Veca Universe structure.

One 12 Dimensional Kathara Grid plus its Primal field Kathara Grid (D-13 to Eckatic Sound Field) form a set of 3 "Lower Heavens" 3 "Higher Heavens" and 1 Central Heaven. The Universal Veca contains the "7

Heavens" formed by one 15 Dimensional Time Matrix another "7 Heavens" formed by the Parallel 15 Dimensional Time Matrix and one Ecka Inner God World – a total of 15 Manifestation Fields.

Partiki Phasing Process

There is a very interesting correspondence between the structure of our Veca Universe and the fundamental process of Partiki phasing In Figure 15, a more detailed diagram of the Partiki phasing process. we have the Partiki units showing in the middle sphere [16] The Partiki phases creates a replica which polarizes which creates two equal and opposite expressions each of which carry the original theme that created the *Original Partiki* So we have a PartikA and a Particum expression of the *Original Idea* emerging.

These two units, the Particum and the PartikA form very specific angular alignments, within the Partiki phasing process. The Partiki phasing process has a specific geometrical structure that is very accurate, very precise. The Original Partiki creates a replica that emerges on the axis of the original Partiki unit. Then we get polarity on this axis, and then we get 2 equal and opposite expressions moving either side of that axis, the Partiki axis.

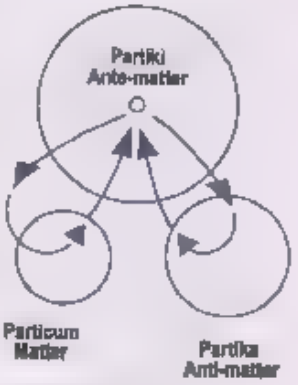

Figure 5 Partiki Phasing Process

We have one axis that goes up to the PartikA unit and the other that spreads out at another angle of 45 degrees to form a Particum unit. The two polarized units the Particum and the PartikA units phase and spread to an angle of separation of 90 degrees to each other. This is where the 90 degree orientation between the Particum and the PartikA sides of our universe emerges It goes back to the inherent structure of the Partiki phasing process.

We have a very neat correspondence to the structure of our Veca Universe On the left side of Figure 15 is the Particum unit The Particum creates the Particum Kathara Grid with in our universal structure We have the parallel PartikA side at a 90 degree angle to the Particum side Then we have the neutral core the Partika from which both emerge at a 45 degree angle between the two this corresponds to the Ecka axis

So, we have our Particum axis the axis of our matter universe We have the axis of our parallel anti-matter universe And we have the Ecka axis at a 45 degree angle between them It is a very useful correspondence to the structure of our Veca Universe The Particum particles rotate counterclockwise the PartikA anti-matter particles clockwise. A further feature of this process is that the Partiki phasing process is dynamic Figure 15 is a snapshot where the structure is at maximum expansion

Once the two polarized units come out to their maximum expansion once they have passed through their maximum expansion they begin to phase back together again The PartikA unit begins to come back, the Particum unit begins to come back the two polarized units come into a relationship with each other and they come into a relationship with each other within a buffer field held by the neutral parent Partiki unit. They come into harmonious relationship they integrate their energy, and they form a harmonized unit The PartikA circle moves towards the 45 degree axis and the Particum unit moves towards this axis and the two meet and overlay each other and with the Partiki unit, forming two circles in the Bi-Veca arrangement.

The PartikA and the Particum circles harmonize their polarities then the combined unit returns back into integrity within the core Partiki neutral expression

The Partiki goes to Bi-Veca which separates out to Tri-veca, which in turn separates out to the maximum spread of 90 degrees between units. When you have the two units at 30 degrees, essentially 60 degrees of separation, you have the Tri-Veca structure. Then they move out to 45 degrees, equaling 90 degrees of separation for the maximum extent or projection into manifestation. Then they come back, integrate back into the Partiki. And the Partiki unit itself then goes back into Source.

When you look at the structure of our Veca Universe what you are looking at in Figure 12 is a snapshot. The structure is dynamic it is moving. For example these Veca Quadrants phase just like the Partiki units phase. The Particum matter universe phases in relationship with our anti-matter equivalent. The two of them come together on the Ecka axis and they integrate. The quadrants are in motion the Particum and the PartikA quadrants come together. And likewise the primal quadrants come into relationship with each other. They then integrate and move back into the Ecka core. the axis acts as an alignment.

This phasing together of the two quadrants is something that happened recently during the time of Hetharo and Hethalon. We came into direct alignment with the Ecka axis and because of that alignment we are able to draw the heliotalic currents from the Ecka Universe vertically. During Hetharo and Hethalon, we successfully came into alignment with the Ecka axis first on the electrical side secondly on the magnetic side. We came into alignment with the Ecka axis by means of which we were able to draw heliotalic currents vertically down our central vertical column. The structure is dynamic, it is phasing there is tremendous order and detail, and it is a very beautiful structure.

Once we get up to this level of the God Worlds the next step would be go from the Veca Quadrants to the Ecka. From the Ecka you could go up to the **Eckasha Corridor** level which would be the next level in the Stairway to Heaven.

Cosmic Eckasha Middle God World Corridor

Each Veca System of 15 Manifestation Fields & 3 Time Matrices is encased within one Eckasha.

One Eckasha Creates

35 Middle God Worlds

One Eckasha holds,

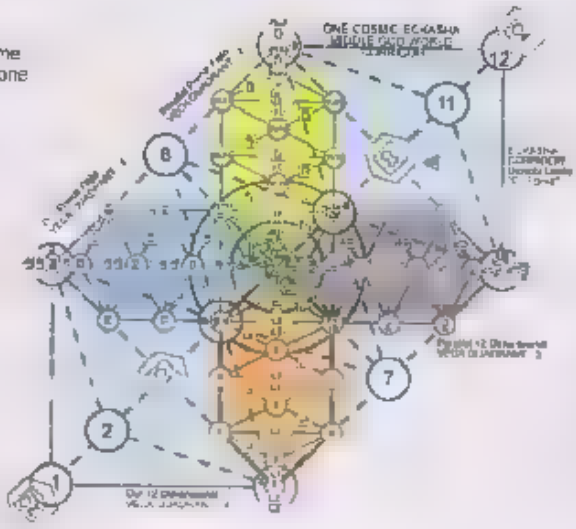
7 "Higher Heavens" +
7 "Lower Heavens"
1 Ecka Lower God World
7 Eckasha - God Worlds
which equals the content of 3 15 Dimensional Time Matrix Systems



Combined with the Ecka Inner God World Matrix from the Veca System below the Ecka & the Eckasha form a full 3rd Time Matrix the 35 Eckasha God Worlds, combined with the expanded 3.5 Ecka God Worlds create one set of Eckasha (full Ecka) "7 Heavens" One Eckasha Middle God Worlds contains 3 Full Time Matrices. namely 2 Veca Time Matrices, plus inner Lower Ecka plus Ecka-Eckasha Middle Inner Time Matrices

Our Veca Universe in Figure 16 exists within a higher level structure. We have the 4 Veca Quadrants with our Ecka Core, the Ecka Inner World, constituting a Veca Universe. The whole structure of a Veca Universe is held within a larger Kathara Grid, which is referred to as the **Eckasha Level**. An Eckasha holds one Veca which has 7 Higher Heavens on the Primal side and 7 Lower Heavens on the Universal or the Matter side. 1 Ecka Lower God World at the core.

At the Eckasha Level the Eckasha has relationship to the Ecka Core. And the combination of the Eckasha and the Ecka Core constitutes an additional 7 God Worlds—so we have 7 Middle God Worlds. When you combine the 15 God Worlds within the Ecka-Veca Universe itself with the additional 7 deriving from the Eckasha structure we end up with a total of 22 Worlds within an Eckasha. The Eckasha structure is referred to as a Corridor. **Eckasha Corridor**. At the Eckasha Level we refer to the Heaven Worlds as **Middle God Worlds**.

We have our Veca Universe which has 15 discrete Heaven Worlds within the Veca. The outer Eckasha has a relationship to the inner Ecka which generates a further 7 discrete Worlds. Just as we have 7 worlds in the 2 Kathara Grids of the PCM side of the Universe, we have another 7 Heaven Worlds between the Eckasha and the Ecka structure at the core. The additional 7, when added to the 15 within the Veca Universe, equals a total of 22 discrete worlds within the composite Ecka-Veca structure.

At this level we have an additional sequence of locks (i.e. C1). We have our Eckasha Corridor density locks represented by the letter "C" on the diagram at Figure 16. We have our Eckasha Corridor density locks between each density level within the Eckasha Kathara Grid within the Eckasha structure. So between Centers 1, 2 and 3 of the Eckasha we have a very important density lock structure. And a similar one between Centers 6 and 7, Lock C2 right at the center of the Eckasha Ecka structure. Another density Lock C3 (upper right on Figure 16) is between Eckasha Centers 9 and 10. And then there is Lock C4 at the very top and Lock CZ, a Zero Point lock, at the bottom.

At this stage we have structure embedded within structure, an unfolding structure and we are following the patterns of this structure up through the God Worlds, up through the *primary structures in creation*. Simply put, this is the Kathara structure of an Eckasha system. In the Eckasha system you have four vecas. At the core of that, you have what is called an Ecka system. When we talk about the Ecka/Veca Body system, it is the one with the 4 Veca Quadrants and its Ecka Core. When we talk about the Eckasha Body, it is the one at Figure 16. These are connected to larger body structures going up the cosmic matrix. The whole set of spheres and the Kathara Grids is referred to as the **Eukatharista Body**. That is the whole outer Domain Light Body. There is also a middle, an inner and a core domain that have the same structures at different angles of rotation, going inward.

Cosmic Eckasha-A Higher God World Spectra

What we have here in Figure 17 is our Eckasha Corridor (c. text on lower right of Figure 17) with its Veca Universe and inner Ecka Core. This Eckasha structure has relationship to another 3 similar Eckasha structures. They effectively form quadrants within the higher level structure. That is referred to as the Eckasha-A. We have 4 Eckasha Corridors coming into relationship with each other, effectively forming the quadrants of a higher level structure which we describe as an Eckasha-A Spectra. Figure 17 (Eckasha-A) is referred to as a Higher God World. An Eckasha is referred to as a Middle God World. And the Veca Universe itself is called the Lower God World.

This higher level structure is represented by its own inner Ecka Core and its own Outer Eckasha superstructure that holds the whole structure in place. Between the inner Ecka Core of the Eckasha-A and the Outer Eckasha structure that holds the whole thing in place, we have an additional 8 God Worlds. we have one in the Ecka Core and 7 between the Outer Eckasha and the inner Ecka.

When we take the 22 worlds in each Eckasha times 4 making up 88, plus an additional one in the Ecka Core plus 7 between the Outer Eckasha and the inner Ecka Core we get a total of 96 (88 plus 8) Heaven Worlds, 96 discrete Manifestation Fields within one Cosmic Eckasha-A Higher God World Spectra (4 Vecas x 56 "Heavens", 16 Quadrants, 4 Ecka Lower Inner God Worlds 28 Eckasha Middle God Worlds plus 1 Ecka Inner God World and 7 Eckasha-A Higher God Worlds for a total of 96 Manifestation Fields The content of 14 Time Matrices; (3 x 4) + 2 Time Matrices)

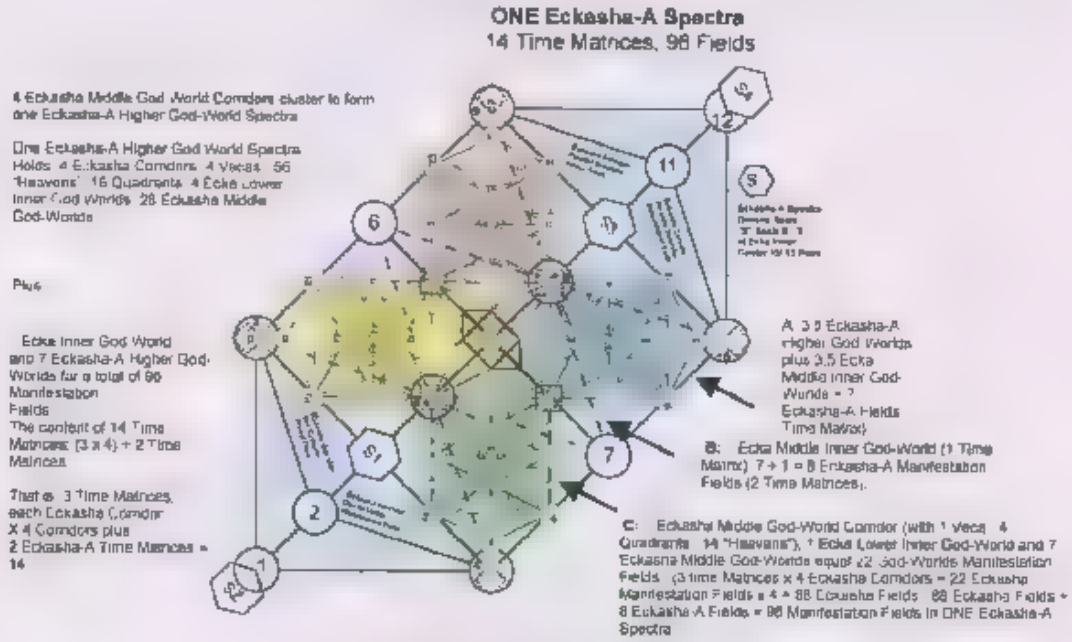

Figure 17 THE 96 Manifestation Fields of 1 Cosmic Eckasha-A Higher God World Spectra

Thus, you have the Outer Eckasha Then you have the inner Ecka Core represented by 2 Kathara Grids which overlay each other An analogy is like opposite sides of a dinner plate We have this double Ecka structure at the core We have the Outer Eckasha's relationship to the Ecka structure so it effectively has something like a double Kathara Grid relationship. And between the two, we have 7 at the Eckasha-A level.

We have one from the Ecka Core itself and another 7 between the Outer Eckasha and the inner Ecka Core that makes up 8 We add the 8 to 88 and get the 96 Manifestation Fields Our Eckasha structure effectively replicates the structure that we have seen already We have explored it in detail in relation to the Veca Universe But it effectively is the same structure replicated at a higher level We have our Time Matrices, they multiply up in a similar basis We have our seals our locks which maintain separation within the structure At this level we have our Spectra Locks (i.e., S1), Eckasha-A Density Seals. They are represented in Figure 17 as S-Seals.

Keys and Codes

We mentioned previously that there are *specific keys to release these locks* to open the locks to allow passage between the dimensional levels and passage between the density levels within the cosmic structure At the Veca Universe level we have the Veca Codes. The **Veca Codes are the keys that open**

the locks that allow progression between the levels within the Veca Universe structure. The Veca Codes are the keys to the locks at the Veca Universe Level. [2]

We have Ecka Codes which have a similar function in the Ecka level. The Ecka Codes open the locks on the seals within the Ecka Universe. And they allow passage into and through the Ecka Worlds.

At the Eckasha-A level we have Scepter Codes. Scepter Codes operate and carry the frequency pattern, the sound tones, that allow us to open the Scepter Locks (S-Locks) to allow progression up through the structure of the Eckasha-A. We can come in and out through the structure by using the Scepter Codes. We can use the Scepter codes to come in and we can use the Scepter Codes to go back out again.

The God-Worlds Multiplying

The Eckasha-Aah is at the very top of the Stairway to Heaven. When you take our 12-Dimensional Universal Star Gate System and the rest of the God Worlds, plug them in together what you get is what we like to call the Stairway to Heaven. At this level we have another set of locks (see Figure 18). They are referred to as the **Reuche Density Locks**. We use the Reuche Codes to work with these particular locks.

Here we have the very same Kathara Grid structure replicated again. We have an Eckasha-A Spectra from the previous diagram which has relationship to 3 other similar Eckasha-A Spectra. The 4 Eckasha-A Spectra structures form quadrants within the larger structure.

This larger structure has its own inner Ecka Core and its own outer Eckasha superstructure that holds the whole structure in place. This outer Eckasha is referred to as the Eckasha-Aah level in creation. We have this large superstructure, this large Eckasha at a very high level in creation that holds the large scale structure of our universe in place.

The number of discrete worlds and stations of perception within our universe multiply upon a similar basis as before. So we get the God Worlds multiplying up. We get the Time Matrices multiplying up just as we did before.

Figure 18a lays out the structure for 1 Eckasha-Aah with its: 4 Eckasha-A Spectra, each with 4 vecas / 56 "Heavens," 16 Quadrants, 4 Ecka Lower Inner God Worlds, 1 Ecka Middle Inner God World and 7 Eckasha-A Higher God Worlds.

Figure 18a. Structure of 1 Eckasha-Aah

The overall sequence of structure is Veca, Ecka, Eckasha, Eckasha-A, and Eckasha-Aah. We end up with quite a large number of God Worlds and Time Matrices within the large structure of creation.

One feature in relation to the locks at this level is that the locks have a particular orientation: there are 2 arrows pointing up and 2 arrows pointing down. This is Zero Point Reuche Lock. And then at the center we have a composite lock with both orientations. The Reuche Density Lock 2 at center has this composite structure (Figure 18, R2). The codes associated with the Reuche Density Locks are the Reuche Codes.

Time Portals and Dimensional Locks

We also have time portals and dimensional locks. They are literally the star gates that run either up and down or across.

Figure 19: Time Portal and Density Lock

Vertical axis spirals, spiral pairs, form the star gates of the dimensional lock system. They permit passage between space-time locations and multiple universes and density levels. Time portals are horizontal and diagonal axis spiral pairs, and they form the portals of the Time Portal System, which permit passage between space-time locations in one universe and one density level.

The gates are vortices. All of this is about vortex mechanics. It is about understanding templates and shields, which are scalar standing wave grids, and it is about vortices, which are spiraling electromagnetic frequencies. You have two vortices, one would be spiraling counter-clockwise, one clockwise, and they have a seal in the center. When frequency triggers that seal to open and activate, the spirals start to spin and they come together and they form a *Bi-Veca Merkaba Field*.

The Eckasha-Aah 1st GOD-WORLD OF CREATION, the 12 Divine Scepters and the Reuchea

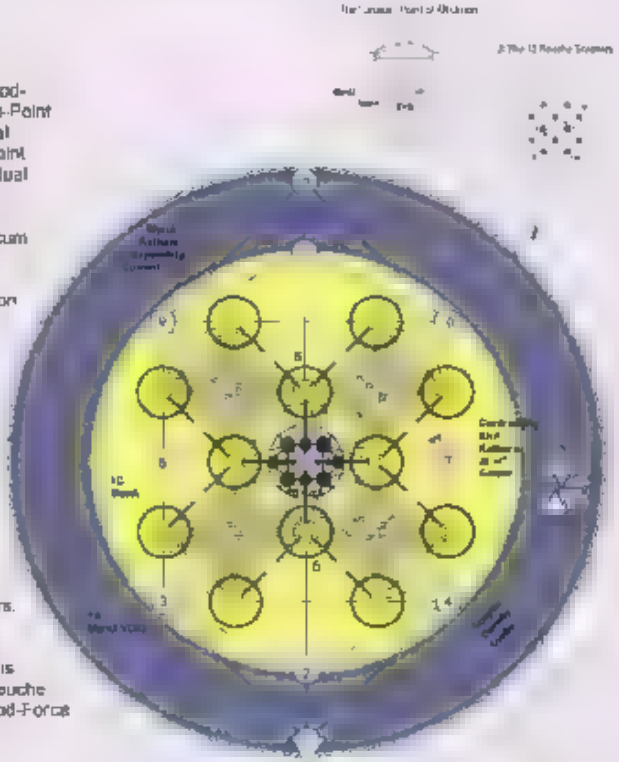

Figure 20: The Eckasha-Aah 1st God World of Creation

The Bi Veca Merkaba Field will form at its center an area called a Radial Body. Imagine a *sphere* of energy inside of itself. And it is inside that sphere that when you move into it would trigger activation of your Merkaba field and your own sphere around you. You would go inside and be able to literally by thought projection decide where you want to go and aim there just by humming a tone that you remember from there, or imagining a picture from the place that you want to be, or even a feeling, because it is all directed by energy, by the *sense* of the energy, the vibrational signature of the energy.[20] This is how Star Gates and Time Portals work. When the seals release they come together, they make a Merkaba field.

[20] Location tones, pictures, or feelings. These are Crux Codes / Location Codes.

Merkaba fields can have various different axes alignments, and they do, not just for gates. And the axis alignments are important because they determine whether or not you are going to be able to bring in frequency to keep your own Merkaba field fueled or whether you will not be able to bring in the natural Life Force Currents.

Basically the vertical axis gates link the Planetary and Galactic and Universal Templar Complexes through the **5 Harmonic Universes**—there are only 4 shown—but they form open Merkabic passages, where you could go. And once this activates, that would turn this into a Merkaba, bringing these together, and it would bring these together, so you are literally hopping Merkabas all the way up the densities.

The Eckasha-Aah 1st God-World of Creation

The diagram of the Eckasha-Aah at Figure 20 has the sacred symbolism of the balanced cross, which is not the crucifix cross—it is the natural cross. It also has the Tree of Life or the Kathara Grid in it, in addition to being a very practical map if you want to know where you are in relation to the rest of the universes, and where you are in relation to your connection to God. What is so beautiful about these maps is they are showing you the map of your own Consciousness.

There is a place where all of us never left Source. There is a place where we are always in **at-ONE-ment** with Source, and it seems like we are far from that place because the frequency span is huge. But the more we bring in those frequencies, the closer and closer we feel to that space. And even though it might be way up that whole set of mathematics, up in the sky—they are not just in the sky—they are in your body, they are right here in our hologram, they are woven in the air—you start to just feel that presence with you. And no matter how high the Stairway is, it feels like you are walking it together.

This is very powerful to use as a symbol code to bring information to you. If you have a small one it is worth it to do some optical-pineal induction. You use the frequencies that run through the eyes, and you blend them to bring them into the third eye, so you can encode the pineal and then send it down into its natural shields. Your body has a mechanism for processing frequency, and it can open up knowledge for you.

The 3 Eternal God-Source Consciousness Fields from and through which all Dimensionalized Currents and Consciousness Manifest

If we go all the way up to the Eckasha-Aah—remember the top of the God World Map? It all starts with 3 Primary Forces of energy. It starts with God-Source, and within Itself God-Source created 3 portions of Its Consciousness as **standing fields of consciousness**, living fields of consciousness—created what are called the ManU which is the Still Point Void—in the beginning was the Void; the ManA God-Spark, the intention for Light—this is before light happens, because light happens once movement began, or at least the illusion of movement, which was vibration and oscillation interacting with each other.[21] The first 3 were the Original Divine Trinity, the ManU, the ManA, and the ElrA—the Holy Sprit, the Divine Masculine and Divine Feminine.

Figure 21 The Divine Trinity

These are the three Eternal Life Force Fields that every frequency band that exists every Ray of Consciousness every Primal Life Force Current, emerges first out of these three. Every one of those currents that we talked about within the Cosmic Kathara Grid is a carrier of one of these or a combination of these frequencies. But these are the Primary Eternal Trinity that is the First Creation. And it is within those three fields that the Krist and Krystallah Grids—the first 24 points of vibration that set the whole creation in motion—were created. In the beginning was the Void, and within the Void a vibration was created, and simultaneously with the Vibration an Oscillation was created. This means male and female were created at the same time.

We are getting to the top levels of the God Worlds at this point (Figure 20). We are coming much closer to Source, closer to the Original Fields of Creation. We begin to see the Original Fields that emerge within creation in terms of a ManU Field, which in turn encompasses an ElrA and a ManA Field. We have mentioned that at a fundamental level you have this Particle phasing process. This generates an Original PK Field which is basically neutral in nature. Tri-polar or Omni-polar. It is not polarized. It synthesizes the polarities. This is represented by what is referred to as the ManU Current, the ManU Field in Creation. That in turn creates a replica which polarizes, creates a male ManA expression and a female ElrA expression. We are beginning to see the emergence of the Original Fields in Creation, the emergence of the Original Currents in Creation. The aggregate of these 3 fields is referred to as the Yunasai, the Point of all Union, the Point of Integrity of all these fields, the point which integrates them.

The Consciousness of Source comes into 3 Primal Fields, the ManU, ManA, and ElrA Fields (Figure 21). Within these fields, it brings its focus of attention to 12 specific points of consciousness, and these create the *original* Kathara Grids. We have the *original* large Kathara Grid spanning the ManU Fields and the smaller Kathara Grid at the center spanning the ElrA Fields. The larger outer Kathara Grid is referred to as the **Kristos** and the inner one as the **Krystallah**.

There is quite a lot of structure at the Eckasha-Aah level in creation. And the structure is actually encoded in very precise language (see figure 20, I suggest reading the small print on the figure). There is a very powerful sequence to the unfolding of events at this level. The best guide to this level by far is Speaker 1's original dispensation. This is quoted verbatim in the following section.

***SECTION-1: Cosmic Creation-Secrets of the Yunasai**

Through understanding the reality of the Cosmic Divine Blueprint we can begin to comprehend and awaken our tangible, indelible, eternal, direct and personal relationship to GOD.

There is a purpose, plan and intelligent design inherent to, behind and within all creation. We each exist as an intimate, integral and blessed part of a meaningful Cosmic, Universal, Galactic, Planetary, race and personal Divine Order. All creation takes places within the consciousness of God and thus separation from God can only exist as the illusion of limited perception and forgetfulness of our original Source.

COSMIC SOURCE: God

Creation perpetually emerges from and returns to the consciousness of the ONE God Source Consciousness within which all creation takes place. We live within the limitless field of the Cosmic Consciousness of God-Source and God resides always within us and around us, for we and all manifestation are composed of the Divine Substance-the living, intelligent units of the consciousness of God.

COSMIC STAIRCASE: Downstepping Cosmic Creation

God-Source perpetually sets manifestation in motion through engaging its awareness in the process of **Vibrational Downstepping** or **Thought Formation**. Downstepping occurs through contracting the consciousness into a **singular point** of focus, a "**creation intention**" or "**thought vibration**," to create the **first individuation of attention—a Still point creation-point.** Next the **original thought vibration is replicated within the vibration of the first** to form the **second individuation of consciousness,** expanding the first vibration from within itself to create a **Static Field** of *absolute vibrational agreement* between the original thought vibration and its replica. To form the **Divine Trinity of Eternal Life-Perpetual Motion** through which **interactive creation** is set in motion, the thought vibration **replica** is then **polarized** within the expanded original "First Thought," forming **two separate thought vibrations**, each holding a larger **primary part** of the original vibration as it **initially existed** and a smaller **secondary part** of the original vibration **"inverted,"** or vibrating in direct opposition to the first vibration, its intention reflecting the **opposite** of the original thought intention. God-Source sets creation in motion through perpetually engaging part of its awareness in Vibrational Downstepping, by which the Cosmic Divine Trinity of Eternal Life creation is formed.

COSMIC FORCE: The Yunasai Divine Cosmic Trinity-*ManU, EirA and ManA*

The framework of manifest creation begins with God-Source Downstepping within itself the *Divine Cosmic Trinity* of the **Yunasai**, the *Point of All Union* which is formed as God Source first manifests itself as the Cosmic Divine Trinity of **Eternal God Force Identity,** creating **within itself** the **ManU** (first Partikl consciousness unit-Divine Spirit Womb-Cosmic Void-Eternal Still point) the **EirA** (first Particum pre-sound vibration unit-Divine Mother Creation Seed-Contracting/ Receiving Consciousness Force) and the **ManA** (first PartikA pre-light vibration unit-Divine Father Creation Spark-Expanding/ Transmitting Consciousness Force) **Eternal God Force consciousness fields** to form the **Yunasai** "*Living Cosmic Thought Crystal*" within which all manifestation occurs.

COSMIC CHRISTOS: The Divine Blueprint *Kathara, Krystallah* and *Kristos*

Creation emerges within the Yunasai as designed by God following a specific **Base-12 eternal creation program** of mathematical-geometrical inter-relationships of consciousness that is called the **Kathara Template Divine Blueprint** or the "***Kathara Grid.***" Within the Yunasai ManU Force Field the EirA and ManA Force Fields each create a Kathara Grid that is formed upon **12 specific points of conscious attention** expressed as **12 fixed or "standing" points of vibration**. The **two 12-point Kathara Grids** of the ManA and EirA together form the **Base-12/24-Point Cosmic Kathara Divine Blueprint.** The word **Kathara** expresses the **Divine Intention** God Source holds in creation of the Yunasai; *Ka*= Light Emanation/Expression, *Tha*= Sound Vibration/ Intention, *Ra*= ONE-spirit. The ONE-spirit of God *intending* to *express* AS creation). The ***EirA Kathara Grid*** is called the **Krystallah** (or Christalla - meaning "*God Intends*". The ***ManA Kathara Grid*** is called the **Kristos** (or *Christos*), meaning "*God Expresses.*"

COSMIC CLOCK. Downstepping the *12 Reuche Scepter Pillars*

Through vibrational interaction of consciousness within the Cosmic Kathara Grid, the ManU, EirA and ManA God Forces of the Yunasai **recreate the original creation process** of *Vibration Downstepping* by which the Divine Cosmic Trinity perpetually individuates within the consciousness of God Source. Following the impetus to create as imbued by the original God-Source creation intention, **the** ManU-EirA-ManA God Forces *intertwine* a portion of their consciousness and **Downstep** the vibrations of the Cosmic Kathara Grid **three times** to form a **set of 12**, layered points of vibration fixed in a circular organization within the Cosmic Kathara Grid Template, each of which forms a singular **Scalar-Standing-Columnar-Wave** or **"Pillar"** of vibration called a **SE'-Ur** within the Yunasai. The set of 12 Cosmic Se-Ur standing-waves are called the **12**

Reuchea Scepter Pillars, which together form the first scalar-wave-field that becomes the **Core God World** of creation.

COSMIC HEART AND FIRE: The ManU Window and Ecka Eternal Flame

Following the Cosmic Kathara Grid program the *12 Reuche Scepter Pillars* **vibrationally interact** within the Yunasai, creating an opening called the **ManU Window**, "Manifestation Point" or "**Zero Point**" at the center points of the EirA and ManA Kathara Grids (Krystallah and Kristos) which links the center of the Reuche Scepter circle directly into the ManU Force field of first creation and the living eternal consciousness field of God-Source. The 12 Reuche Scepter Pillars interact with the ManU field, causing a quantity of the ManU Force consciousness called the **Amoraea Wave-Pillar** or ***Ecka-ManU Eternal Flame*** to emerge through the ManU Window to form a **13th Scepter** at the center of the Reuche circle. Through the ManU Window the **Amoraea Wave circulates pulses of living God consciousness** between God Source and the eternal God Force consciousness fields of the Yunasai, setting in perpetual motion the processes of Eternal Life Creation. The Amoraea Wave/Ecka-ManU Eternal Flame is known as the "**Heart of God**" as it circulates pulses of living God consciousness the **Eternal Life Stream** perpetually into and out of manifestation.

COSMIC ARCS: The 12 Reuche Scepter Arcs and the Cosmic Shield

Through vibrational interaction with the Amoraea Wave-Pillar Ecka-ManU Flame the 12 Reuche Scepter Pillar columnar waves **bend toward the Reuche center** to form **12 arcs** of consciousness **6 EirA Force arcs** and **6 ManA Force arcs** that are collectively called the **12 Reuche Scepter Arcs**. The EirA and ManA Force arcs pass together through the ManU Window at the Reuche center **blending and replicating their vibrational content** within the Ecka-ManU Flame to form 12 rotating scalar standing columnar-wave discs of **Bi-polar EirA-ManA consciousness** called the **12 Reuche Scepter Shields**, which are linked together through a central **Tri-polar** scalar wave disc composed of blended **ManU-EirA-ManA Force** called the Cosmic **Shield of Amoraea** that forms within the central Ecka-ManU Flame. Each of the 12 Reuche Scepter Shields forms a **living circuit** of **counter-rotating** God Force; the **EirA** scalar standing waves forming a **counter-clockwise rotating** scalar field that **receives** God Force consciousness from the Reuche and Yunasai field and **contracts** it **back to God Source** through the ManU Window for **de-manifestation**, the **ManA** scalar standing waves forming a **clockwise rotating** scalar field that **transmits** new pulses of God Force from the ManU Window and **expands** it into the Yunasai and Reuche Shields for manifestation. The synchronized **rotation** of the 12 counter-rotating Reuche Scepter Shields, held perpetually together through the central Shield of Amoraea, brings into being the first expression of God Force consciousness AS **Electromagnetic Force** the living **Primal Life Force Current** from which all manifest worlds emerge.

COSMIC MERKABA: The Amoraea, Eckasha and Veca Merkaba Fields

The perpetual rotation of the 12 Reuche Scepter Shields and the Amoraea Shield create a perpetual motion living circulatory system of God Force AS Electromagnetic Current, which forms 12 smaller bi-polar Reuche Scepter Currents that are entwined together through the central Tri-polar current of the Amoraea Shields. As the Scepter Shields rotate around the axis of the rotating central Amoraea Shield the **Ecka-ManU Flame separates** the counter-clockwise rotating/contracting EirA currents from the clockwise rotating/expanding ManA currents as the **Amoraea Shield** holds the 2 polarized currents in direct relationship with each other forming **two counter-rotating spirals** of polarized EirA and ManA God Force current **within the Ecka ManU-Flame** which are held together and interwoven through the Amoraea Shield.

The **EirA Spiral contracts** God Force in from the **Ecka-ManU Flame** sending it toward the **center-point ManU Window** creating a **negative electrical current** which creates the effect of **magnetic force** and

gravity) as the **ManA Spiral expands** God Force from the **center point and Ecka-ManU Flame** creating a **positive electrical current.** The synchronized, perpetual rotation of the EirA and ManA currents creates the First **Cosmic Merkaba Field, the Amoraea Merkaba** ***Mer*** meaning God Force **movement**, ***Ka*** meaning God Force **expression**, ***Ba*** meaning "**Body**" or vehicle. The Amoraea Merkaba is build upon the **Base-12/24 point mathematical program** of the **Cosmic Kathara grid**, the **12 points** of the slower vibrating **EirA Krystallah** Kathara grid form the geometrical shape of a **12-point/12 plane counter-clockwise** rotating Merkaba scalar wave spiral, the **"bottom spiral"** of the Merkaba Field and the faster vibrating ManA Kristos Kathara grid forms the geometrical shape of a 12-point/12 plane clockwise rotating Merkaba scalar wave spiral. Together, the EirA and ManA Merkaba Spirals create the **24-point/24-plane/Base-48 form** of the **singular** Cosmic **Amoraea Merkaba Field**.

The intricate procedures by which the Amoraea Merkaba Field is formed are replicated and repeated by the God Force currents through **several stages of Downstepping** to create **within the first Merkaba Field** the smaller Merkaba Field living energy/consciousness fields within which a multitude of **electromagnetic manifestation "domains"** form. Each 12-point Kathara Grid that forms one of the 2 Cosmic Kathara Grids through which the 24-point/24-plane Cosmic Amoraea Merkaba Field is created **replicates, polarizes and vibrationally Downsteps** to form a **pair** of smaller **Base-12** Kathara Grids, each of which form a 6-point/6-plane Merkaba **Spiral** that together form a **12-point/12-plane/Base-24 Eckasha Merkaba Field**. From the first Downstep, one 24-point/24-plane/Base-48 Amoraea Merkaba forms **2 12-point/12-plane/Base-24 Eckasha Merkaba Fields**. On the 2nd Downstep the 2 Eckasha Merkaba Fields form **4 6-point/6-plane/Base-12 Bi-Veca Merkaba Fields**. On the 3rd Downstep the 4 Bi-veca Merkaba Fields form **8 3-point/3-plane/Base-6 polarized Merkaba Spirals** called **Veca Merkaba Fields.**

COSMIC EGG. Cosmic Radial Bodies and the 15 God-Cells of the God-Seed

Through the perpetual spin of the counter-rotating electromagnetic God Force currents within the Cosmic Amoraea Merkaba Field, the **15 Cosmic Spheres** or **15 God-Cells** of the Cosmic God-Seed are formed. The "force" and "counter-force" of the EirA and ManA Merkaba Spirals creates within the center of the Merkaba Field (which is within the Ecka-ManU Flame at Reuche center) a perfectly balanced, spinning, **electromagnetic force field** in the shape of an **elliptical sphere** that is called the "**Form Constant**" or electrostatic **Cosmic Holographic Radial Body**.

Formation of the first God-Cell Sphere within the Amoraea Merkaba sets in simultaneous motion the Merkabic Downstepping Process, each Downstep creating within the center of its Merkaba Field another Holographic Radial Body God Cell. The **first Downstep** creates 2 additional God Cells, the **second Downstep** creates 4 more God Cells and the **3rd Downstep** creates the last 8 God Cells for a total of **14 God Cell Radial Bodies** (2 + 4 + 8 = 14) **expanded within the original first God Cell**, the **Cell of Amoraea**, which is known as the "**15th Cell**". Through **Downsteps 1 and 2 God Cells 2-6** form **within the first Cell** Amoraea Radial Body **within the Ecka-Manu Flame** ManU Window Reuche center point (Zero Point) creating the core or "**Yoke**" of the "**Cosmic Egg**".

The **final 8 God Cells** form from the Ecka-ManU Flame Zero Point **within the center of the Amoraea Radial Body "Yoke" expanding the cluster of the first 7 "yoke" cells outward to become the "Cosmic Egg"**, as the **last 8 Cells become the "yoke" at the center of the Amoraea Radial Body.** The "first 7 Cells" expand to become the "last 7 Cells" as the original last 8 Cells emerge from the Zero Point center to expand the original first 7 Cells into externalization. Through the intricate working of the Merkabic Holographic Radial Bodies and the Manu-EirA-ManA Divine Trinity of God Force currents, the **"First 15 Eternal God Cells"** come into being **within the Ecka-ManU Eternal Flame**, causing the Ecka-ManU Flame scalar columnar standing wave to expand outward from within itself forming a **stationary scalar Spherical standing-wave of ManU God Force** called the **Cosmic Amoraea Crystal**, a "**Cosmic Thought Crystal**" Radial Body **stationary scalar standing wave** in the shape of an **elliptical sphere** or **Cosmic Egg, surrounding the perpetual creation** that takes place within its core.

Khemalohatea, and it is our **Original Seed**. This is like the center seed of the center sun of the Eckā. It is also the origin of what are called the **Heliotalic Currents**, which are very high level healing currents. They are not just the 12-dimensional currents here and they are not just 15-dimensional currents—they are pulling directly from the Original Eternal Source of Creation through that pillar that runs down through all the center points through here. It is from here that the Heliotalic frequencies run, and they give us a lot of protection.

Emergence of the Kathara Grid

The next level of emergence: the Cosmic Kristos, the Divine Blueprint Kathara, the Krystallah the Kristos Krist. The Divine Blueprint Kathara the Kristos Krystallah Creation emerges from within the Yunasai. It emerges within the ***integrity*** of the Original Primal Fields designed by God Source following a specific ***Base-12 Eternal Creation Program*** of mathematical geometrical interrelationships of consciousness called the Kathara Template Divine Blueprint or the Kathara Grid. This is the emergence of the Kathara Grid.

Inside the Yunasai ManU Force Field the EirA and ManA Force Fields each create a Kathara Grid that is formed upon 12 specific points of conscious attention expressed as 12 fixed or standing points of vibration. The two 12-point Kathara Grids of ManA and EirA together form the Base-12, 24-point Cosmic Kathara Grid Divine Blueprint.

The word Kathara expresses the Divine Intention God-Source holds in creation of the Yunasai: Ka, the Light emanation or expression. Tha Sound vibration or intention. Ra, the One Spirit. So we have the One Spirit of God intending to express as Creation. The EirA Kathara Grid is called the Krystallah, meaning "God intends." The ManA Kathara Grid is called the Kristos, meaning "God Expresses."

1. The Yunasai Point of All Union

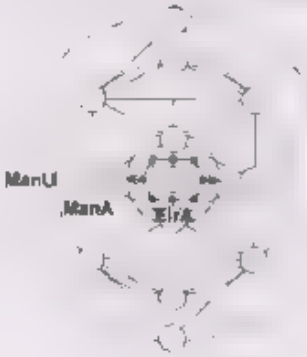

Figure 22a

Here at Figure 22a we have the Yunasai, the Point of All Union, the emergence of the Original Primal Fields from the original processes of PKI phasing, the emergence of the Original Primal Fields. A further elaboration of structure within those primal fields manifests the primary Kathara Grids, the large Kristos and the smaller Krystallah. So here we have a polarity in terms of ManA-EirA, that is manifesting these Kathara Grid structures and all of the other structures in creation emerge from the interaction of those two. So those two polarities interacting weave the **Fabric of Creation** that emerges through the subsequent levels of the structure.

2. The 12 Reuche Scepters

Figure 23a

Through vibration interaction of consciousness between the cosmic Kathara Grid the ManU, EirA and ManA God Forces of the Yunasai recreate the *original creation process* of vibration downstepping by which the Divine Cosmic Trinity perpetually individuates Itself within the Consciousness of God-Source. Following the impetus to create, as imbued by the original God-Source Creation Intention, the ManU EirA, and ManA God Forces intertwine a portion of their consciousness and downstep the vibrations of the Cosmic Kathara Grid 3 times to form a set of 12 layered points of vibration. The 12 layered points of vibration

are fixed in a circular organization within the Cosmic Kathara Grid templates. Each of these points forms a singular scalar standing columnar wave a pillar of vibration called a **SE'UR** within the Yunasai a Pillar of Sound and Light within the core of the Yunasa The set of 12 Cosmic SE'UR standing waves are called the 12 Reuche Scepter Pillars, which together form the **first scalar wave field** that becomes the core God World of Creation

Reuche Scepter Pillars

Next we come to the development of the Reuche Scepter Pillars another very important structure within the creation process within the God Worlds We have the emergence of the ManU ManA and ElrA Primal Fields within creation; and the emergence of the Primal Kathara Gods in creation the Knstos and Krystallah. The next structure is the emergence of the Reuche Pillars within Creation. There is a particular sequence in which these unfold It is described as a 3-stage downstepping At the core of the creation structure we have the consciousness of the ManU ManA and ElrA Fields. They intertwine a portion of their consciousness within the core and they elaborate 12 points of structure within the structure of creation at this level We have the point of focus at the core This polarizes and creates two expressions they emerge as the 12 and the 6 points on the Reuche pattern So the core polarizes, downsteps, and creates a 12 and a 6 point within the Reuche pattern.

The next stage of downstepping is that this pattern turns and creates a replica of itself at 90 degrees, equivalent to the PCM-PKA angle of alignment. At this level we have the emergence of the 3 and the 9 At the core at the center the 13th point manifests in the 12 and the 6 That generates the 3 and the 9 Each of these 4 points (12 6, 3. 9) polarize in turn and create equal and opposite expressions, which manifest as the other remaining 8 points the outer points of the Reuche pattern.

It is a 3-stage downstepping. This particular sequence of emergence is of interest for example in relation to the clock diagrams. For example, we say we all exist here as a personality We exist as part of a Soul Group of 12 personalities Now there is a replication by 12 as we go up and down through the cosmic structure. Within our soul family we have 12 individual expressions of that particular soul, 12 personalities.

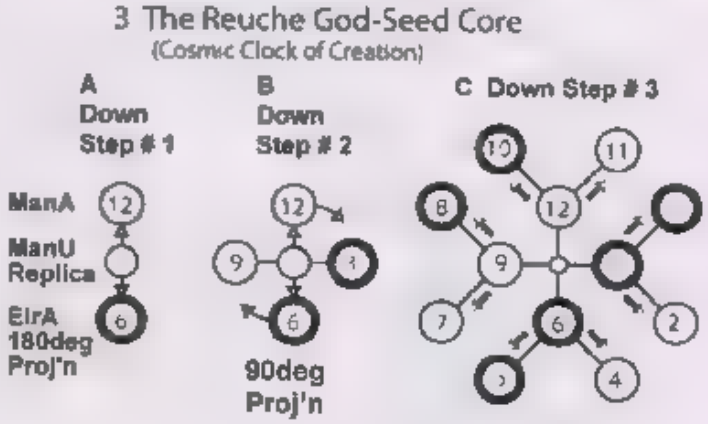

Figure 22b

The Clock Arrangement

These 12 individual expressions of that particular soul those 12 personalities are aligned in a clock arrangement (Figure 22b and their particular positions on the clock diagram are of significance For example, the **prime positions on the clock are 12 and 6** They are the most powerful expressions within the particular group of 12 The four 3 6 9 and 12 form the 4 cardinal points of the clock they form the core of the Reuche So they have particular significance in relation to the orientation of the personalities

within the soul group. The sequence of emergence of the Reuche pattern has significance as far as the positions we see on the various clock diagrams we come across

The 12 points that form the Reuche pattern polarize ManA and EirA. The ManA points are represented by the lighter color; the EirA points by the solid color (Figure 22b) Each of the points on the Reuche pattern forms a standing column of sound and light They are the origina Reuche Pillars (Figure 22, center of teardrop figure).

Each point / column forms a shield that spins. The ManA Reuche positions are spinning in a clockwise direction the EirA positions are spinning in a counterclockwise direction There is significance to the alignment of these and their spin directions These standing waves of very **pure Sound and Light** in turn nteract with the core and they bring out another level of structure within the creation process

Heart of God

We have Cosmic Heart and Fire the ManL Window and the Ecka Eterna flame. Following the Cosmic Kathara Grid Program, the 12 Reuche Scepter Pillars vibrationally nteract within the Yunasa within the composite field creating an opening called the ManJ Window Manifestation Point or Zero Point at the center points of the EirA and ManA Kathara Grids. At the center of the Kristos and the Krystallah we have

the emergence of the ManU Window. This is the Zero Point at the center of the ErA and ManA Kathara Grids which links the center of the Reuche Scepter Circle directly into the ManU Force Field of First Creation and the Living Eternal Consciousness Field of God-Source.

The 12 Reuche Scepter Pillars interact with the ManU Field causing a quantity of the ManU Force Consciousness called the **Amoraea Wave Pillar** or Ecka ManU Eternal Flame to emerge through the ManU Window to form a 13th Scepter or Pillar at the center of the Reuche circle (Figure 22c). Through the ManU Window the Amoraea Wave circulates Pulses of Living God Consciousness between God-Source and the Eternal God Force Consciousness Fields of the Yunasai setting in perpetual motion the processes of Eternal Life Creation.

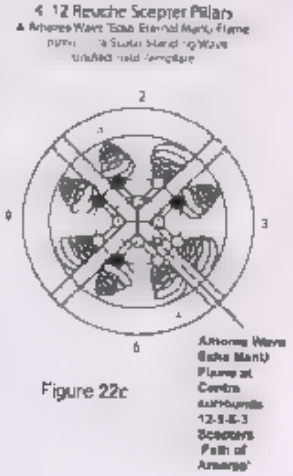

Figure 22c

The Amoraea Wave Ecka ManU Eternal Flame is known as the **Heart of God** as it circulates pulses of Living God Consciousness the Eternal Life Stream perpetually into and out of manifestation. So, we have the ManU Window emerging at the core. We have the Reuche Pillars beginning to interact with the ManU Window, and creating the next level of structure which is referred to as the Cosmic Arcs, the 12 Reuche Scepter Arcs and the Cosmic Shield.

The Cosmic Arcs

Through vibrational interaction with the Amoraea Wave Pillar the Ecka ManU Flame, the 12 Reuche Scepter Pillar Columnar Waves bend toward the Reuche center to form 12 Arcs of Consciousness: 6 ErA Force Arcs and 6 ManA Force Arcs. These are collectively called the 12 Reuche Scepter Arcs. The ErA and ManA Force Arcs pass through the ManU Window at the Reuche center, blending and replicating their vibrational content, within the Ecka ManU Flame to form 12 rotating scalar standing columnar wave discs of bi-polar ErA-ManA consciousness called the **12 Reuche Scepter Shields**. These are linked together through a central tri-polar shield wave disc composed of blended ManU ErA and ManA Force called the **Cosmic Shield of Amoraea** that forms within the central Ecka ManU Flame.

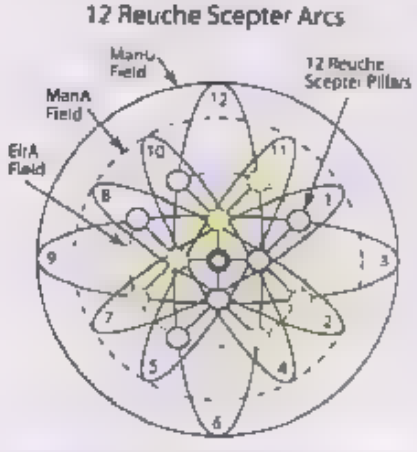

Figure 22d

We have 12 Scepter Shields and we have the ManU Window and the Amoraea Shield at the *core*. Each of the 12 Reuche Scepter Shields forms a living circle of counter-rotating God Force: the ErA scalar standing waves form a counterclockwise rotating scalar field that receives God Force consciousness from the Reuche and Yunasai Field and contracts it back to God-Source through the ManU Window for demanifestation.

The ManA scalar standing waves form a clockwise rotating scalar field that transmits new pulses of God Force from the ManU Window, expands it into the Yunasai and Reuche Shields for manifestation. The synchronized rotation of the 12 counter-rotating Reuche Scepter Shields held perpetually together through the central Shield of Amoraea brings into being the *first expression* of God Force Consciousness as an electromagnetic force, the *living Primal Life Force Current* from which all manifest worlds emerge.

What we have at this point are the 12 Reuche Scepter Pillars with the ManU Window at the core. The pillars begin to arc towards and away from the center and they begin to move, to interact with the center creating waves of current that flow into and out of the center. This is represented by Figure 22d. This figure shows the 12 Reuche Scepter Arcs and the 12 Reuche points, 6 ManA, 6 EirA, each forming a Shield. The ManA ones rotate clockwise; the EirA ones rotate counter-clockwise.

Each opposite pair of Reuche Pillars has opposite polarity. If we look at the opposition of the pairs of Reuche Pillars we can see that they form EirA-ManA pairs. Each pillar interacts with the center, creates a circulation of current–vast arcs of current that circulate through the pillar into the core, out through the opposite point, back through the core and back to the other pillar. Figure 22d-1 shows this arc of current flowing through the Scepter Pillar through the ManU Window and through the opposite Scepter Pillar.

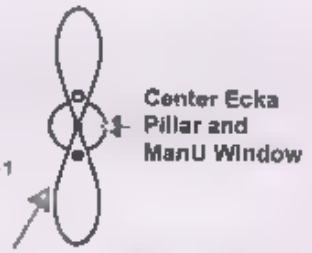

Figure 22d-1

1 Reuche Scepter Arc & its Parallel Arc

There is a vast circulation of current through the Scepter Pillars. This intricate interaction between the pillars and the core creates these arcs of current that are flowing between the pillars and the core. Therefore, each pair of opposite pillars forms a pair of Scepter Arcs that interact with the core and cause these currents to flow. And these currents, in turn, manifest another level of order within creation.

The flow of these currents begins to manifest what is referred to as Cosmic Merkaba, the *flow of Life Force Current into and out of creation*. What we are coming to now is the very high-level flow of pure Primal Life Force Current, where it emerges within the Source process of creation, how it structures Merkaba and the flow of Primal Life Force Current at all the lower levels in creation.

Cosmic Merkaba

The perpetual rotation of the 12 Reuche Scepter Shields and the Amoraea Shield create perpetual motion living circuitry system of God Force as electromagnetic current that forms 12 smaller bi-polar Reuche Scepter currents that are intertwined through the *central tri-polar current* of the Amoraea Shields. As the Scepter Shields rotate around the axis of the rotating Central Amoraea Shield, the Ecka ManU Flame separates the counterclockwise rotation or contracting EirA currents from the clockwise rotating or expanding ManA currents, as the Amoraea Shield holds the two polarized currents in direct relationship with each other, forming 2 counter-rotating spirals of polarized EirA and ManA God Force Current within the Ecka ManU Flame. These are held together and interwoven through the Amoraea Shield.

The EirA spiral contracts God Force in from the Ecka ManU Flame, sending it towards the center point ManU Window, creating a negative electrical current which creates the effect of magnetic force and gravity. At the same time, the ManA spiral expands God Force from the center point Ecka ManU Flame, creating a positive electrical current. The synchronized perpetual rotation of the EirA and ManA currents creates the first Cosmic Merkaba Field: the Amoraea Merkaba. *Mer* means God Force Movement, *Ka* means God Force Expression, and *Ba* means Body or Vehicle. This is the first emergence of Merkaba structure within the creation process.

Amoraea Merkaba

The primary Merkaba that emerges with n the Core Creation Process is the Amoraea Merkaba. The Amoraea Merkaba is built upon the Base 12 24 point mathematical program of the Cosmic Kathara Grid. This contains the 12 points of the slower-vibrating EirA Krystallah Kathara Grid within the core forming the geometrical shape of a 12 point, 12 plane counterclockwise rotating Merkaba scalar wave spira the bottom spiral of the Merkaba Field.

The Krystallah at the core forms the magnetic base spiral for this very large Cosmic Merkaba. The larger ManA Kristos forms the upper electrical spira The counter-rotation of the two spirals manifests the orginal expression of Kathara with n cosmic structure Together the EirA and ManA Merkaba spirals create the 24 point, 24 plane Base 48 form of the singular Cosmic Amoraea Merkaba Field

First Downstep

The intricate procedures by which the Amoraea Merkaba Field is formed are replicated and repeated by the God Force Currents through several stages of downstepping, to create within the first Merkaba Field the smaller Merkaba Fields or living consciousness energy fields within which a multitude of electromagnetic manifestation domains form.

Each 12-point Kathara Grid that forms 1 of the 2 Cosmic Kathara Grids from which the 24-point, 24-plane Cosmic Amoraea Merkaba Field is created, replicates, polarizes and vibrationally downsteps to form a pair of smaller Base-12 Kathara Grids. Each of these in turn forms a 6-point, 6-plane Merkaba spiral Together these form a 12-point 12-plane Base-24 Eckasha level Merkaba Field So, from the first downstep one 24-point, 24-plane Base-48 Amoraea Merkaba forms two 12-point, 12-plane Base-24 Eckasha Merkaba Fields

Second Downstep

At the next level the 2nd downstep, the 2 Eckasha Merkaba Fields in turn form four 6-point, 6-plane Base-12 Bi-Veca Merkaba Fields

Third Downstep

On the 3rd downstep 4 Bi-Veca Merkaba Fields form eight 3-point, 3-plane Base-6 polarized Merkaba spirals called Veca Merkaba Spirals This is the level of Merkaba we encounter in first meeting Merkaba Spirals in the Kathara 1 material, where we see the two pyramid structures, each with 3 sides.

Recap

We have at a very high level, the interaction of the EirA and ManA the Reuche arcs create a circulation of current within the cosmic structure The Kathara Grids the Kristos and the Krystallah in turn have a motion associated with them and this motion creates the orgina the first expression of Merkaba

The combination of the two Kathara Grids manifests the large Amoraea Merkaba Field between them The Kristos Kathara Grid manifests the electrical spiral of the Amoraea Merkaba. The Krystallah manifests the magnetic lower spiral of the Amoraea Merkaba This Merkaba downsteps at this level through a sequence The Merkaba spirals split just as we saw the Kathara Grids moving down through a sequence of smaller structures. The Merkaba activity in turn splits forming a number of smaller expressions of the orginal Merkaba

Copyright A'shayana & A'zahyana Deane 1999-2008 All Rights Reserved, Part of the MCEO Freedom Teachings™ Series

We have the 24-point Merkaba, the 12 and the 12, splitting to form a 12-point Merkaba splitting to form a 6-point, splitting to form a 3-point Merkaba fields. At the 3-point Merkaba field level we are down to the level that we see in our local universe. We are down to the veca Merkaba spirals we see in the original Merkaba diagrams in Kathara 1. At the high level of Merkaba activity where the Merkaba spirals are based on Kathara Grids we have a Merkaba spiral using the Kathara Grid as a base. It has 6 faces. The smaller Kathara Grid at the center also forms a Merkaba spiral. The interaction of those two Merkaba spirals based on the Kathara Grid (rather than based on a triangle) creates a more sophisticated form of Merkaba referred to as a Cruxansatea Merkaba.

Where we get Merkaba fields, where we get Merkaba spirals rotating in relation to each other the counter-rotation of the 2 Merkaba spirals creates a common space at the core. The point of intersection at the core of the Merkaba spirals creates a space, an oval space that constitutes the Radial Body a Radia Body at the core of the Merkaba. Where we have Merkaba spirals in motion the space at the core of the Merkaba spirals generates a Radial Body and that creates another level of structure within the cosmic process.

This is all part of the Cosmic Clock, the **Shield of the Veca**. For each level there would be a shield. Each *shield* is the Cosmic Clock for that particular part of creation.

What is Merkaba?

A Merkaba is a wave field that forms around the body. It forms because of the way the Primal Life Force Currents - EirA, ManA and ManU Currents and their breakdown spiral through the Kathara template in your shields. It is because you have scalar shields that spin and allow consciousness to spin itself into and out of manifestation that you have a Merkaba field. The shields create the Merkaba fields - the spinning of the shields it occurs as life force currents move through the Kathara Grid.

Merkaba fields are the circulatory system by which your Kathara Grid template and your shields move the energy through your body. The top Merkaba field takes ManA energy which is a base electrical energy, spins clockwise when it is functioning naturally on its Christos spin and it spirals the energy down through the Kathara Grid in the body and all the body systems.

Its correspondent is the EirA Merkaba field which is the one on the bottom. It spins counterclockwise and brings EirA frequency up from Earth's core and spirals it in a counterclockwise rotation through the body and sends it out that way. The top (male) Merkaba sends the frequency down through you feeding your system with ManA energy and keeps going into the earth and out the other side of the earth and into the planetary, galactic and universal shields. So our Merkabas are connected to the planetary Merkaba.

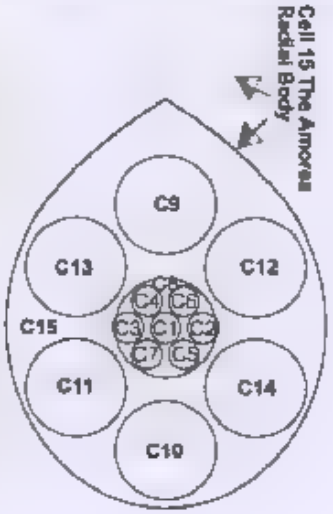

Figure 22e

Everything in manifestation has a Merkaba field or it would not be in manifestation. They are part of the natural living, breathing system, energy-breathing system that sustains life in the Time Matrix, sustains the Time Matrix itself. That is how it gets Life Force Currents fed into it so it can be in manifestation. Merkaba fields are conscious because the energy that is spiraling through them is consciousness as well.

Merkaba fields build through the formation of spiraling frequencies that emerge from the levels of your shields that you activate. If you have a full Mahanc Shield activated,

Copyright A'shayana & A'zahyana Deane, 1999-2008. All Rights Reserved. Part of the MCEO Freedom Teachings™ Series

you have a full Avatar Merkaba which is called a **Mahunta Merkaba**, and that can get you further places than in the lower worlds we are in, and also through some of the higher worlds.

We now come to the final level of structure within this process. From the Merkaba activity within the cosmic structure we next move to the Radial Bodies, the God Cells and the Cosmic Egg.

Radial Bodies and Eckasha God-Seed

Through the perpetual spin of the counter-rotating electromagnetic God Force Currents within the Cosmic Amoraea Merkaba Field, the 15 Cosmic Spheres or 15 God Cells of the Cosmic God-Seed are formed. The force and counter-force of the ErA and ManA Merkaba spirals create within the center of the Merkaba field, which is within the Ecka Mano Flame at the Reuche center, a perfectly balanced spinning electromagnetic force field in the shape of an elliptical sphere that is called the *Form Constant*. It is basically an egg structure at the core of the Merkaba spirals. This is an electrostatic cosmic *holographic Radial Body*,. this is the emergence of the Radial Bodies.

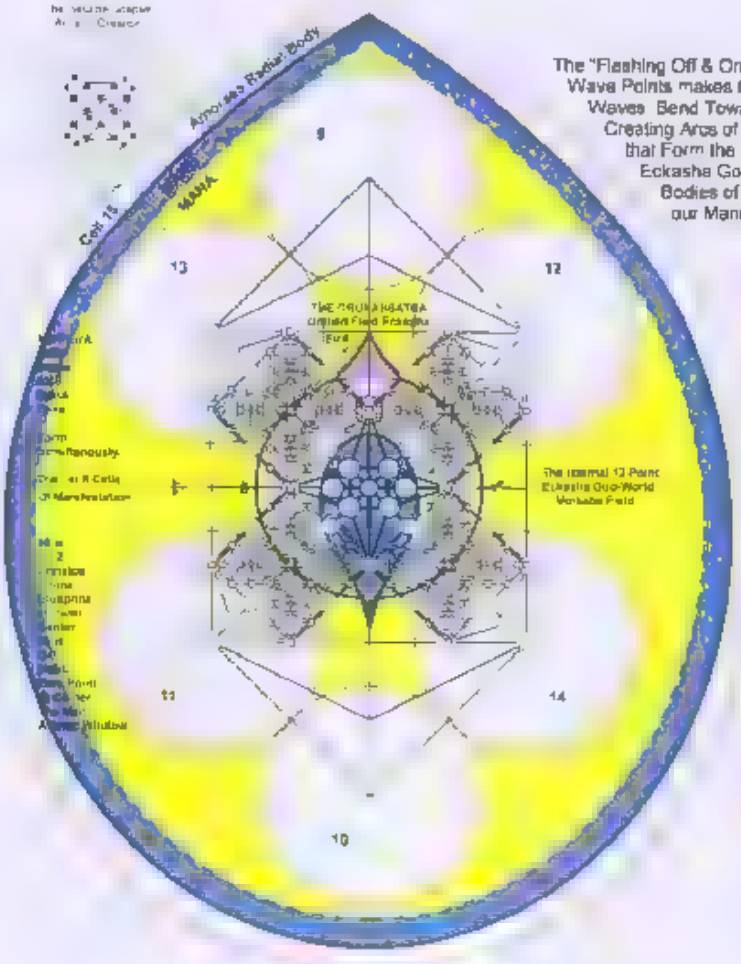

Figure 23 The Eckasha God-Seed & Chuoansatea

Formation of the First God Cell Sphere within the Amoraea Merkaba sets in simultaneous motion the Merkabic downstepping process which downsteps, creating in the center of its Merkaba field another holographic Radial Body God Cell. The first downstep creates 2 additional God Cells. The 2nd downstep creates another 4 God Cells. The 3rd downstep creates the last 8 God Cells for a total of 14 God Cell Radial Bodies. And these are expanded within the Original First God Cell, the Cell of Amoraea, which is known as the 15th Cell.

The 15th Cell is on the outside. There are 7 at the center plus the one that encompasses them, making 8. Then we have the 6 outer cells, making up 14. Finally, we have the outer cell which encompasses all of those, which make up God Cells.

Through downsteps 1 and 2, God Cells 2 to 6 form within the First Cell Amoraea Radial Body within the Ecka ManU Flame, ManU Window Reuche Center Point or Zero Point. They create the core or the Yolk of the Cosmic Egg.

The final 8 God Cells form from the Ecka ManU Flame Zero Point within the center of the Amoraea Radial Body Yolk, expanding the cluster of the 1st 7 Yolk cells outward to become the Cosmic Egg, as the last 8 Cells become the yolk at the center of the Amoraea Radial Body.

The first 7 Cells expand to become the last 7 Cells as the original last 8 Cells emerge from the Zero Point Center to expand the original first 7 cells into externalization.

Through the intricate working of the Merkabic Holographic Radial Bodies and the ManU, EirA and ManA Divine Trinity of God Force Currents, the first 15 Eternal God Cells come into being within the Ecka ManU Eternal Flame. This causes the Ecka ManU Flame scalar columnar standing wave to expand outward from within itself, forming a stationary scalar spherical standing wave of ManU God Force called the *Cosmic Amoraea Crystal*, a Cosmic Thought Crystal Radial Body stationary scalar standing wave in the shape of an elliptical sphere or Cosmic Egg, surrounding perpetual creation that takes place within its core.

In fulfillment of the Base 12 Eternal Life mathematical geometrical creation program held within the Cosmic Kristos Divine Blueprint, the process of 6 downsteps that formed the original Cosmic Egg is repeated once more within the Amoraea Crystal, forming a total of 12 downsteps through which the microscopic replica of the Universal God-Seed with 15 smaller Universe cells that form the structure of 15-Dimensional Time Matrix systems within the God Worlds formed through the Cosmic God-Seed.

The Cosmic God-Seed forms the Eckasha-Aah in downstep 1, the Eckasha-A in downstep 2 and the Eckasha Core Higher and Middle God Worlds in downstep 3. The Universal God-Seed in turn downsteps through stages 7 and 12 and forms the clusters of 7 Higher and 7 Lower Heavens of the lower God World Universal Veca Time Matrix systems.

The emergence of the Merkaba activity generates the Radial Body, which in turn generates cells, and the *downstepping of these cells creates the Core Seeds* for the Universal levels at the lower levels in creation. Figure 23 is another diagram of the God Structure, the structure of the Eckasha God-Seed. There are 7 God Cells at the center, plus the 8th Cell that encompass them, plus the 6 outer Cells, plus the 15th Cell that surrounds everything.

Where are We?

So "where are we?" In Figure 24 we have a breakout to see the Eckasha-Aah level Kathara Grid from the previous diagrams that encompass the large scale structure of our Universe.

We move down through 3 levels of structure to arrive at our local Veca Universe, with its quadrants its Particum/PartikA sides and its inner Ecka Core The term *stair-step* provides a valuable key to the process because as we progress up through the density levels within our local universe, we gain access to the inner Ecka Core; move up through the Core to the Eckasha Level Within this Eckasha level we again progress through the density levels of that Eckasha into its inner Ecka Core up into the outer Eckasha-A that encompasses that, and we have arrived at a higher level in the Cosmic structure Again move into the Ecka Core up to the outer Eckasha and then we access the primary fields within creation So there is this stepping process by which we can step up through the cosmic structure and a similar process by means of which we step down through it.

A point of interest is that *we do have bodies for ourselves at every level*. When Source puts consciousness into manifestation in the cosmic structure it creates bodies to house that consciousness at every level. So we do have bodies at every level which in this structure is represented by the Eukatharista This is a synthesis of our bodies at every level in the cosmic structure It is something that is covered in *greater* detail in Kathara 2/3 But if we look at the structure of the Eukatharista, we can see that the angular alignments correspond to the angular orientation of the cosmic structures at every level in creation You can see that the density level bodies align with the density grids. the Ecka levels align with the Ecka the Eckasha levels align with the Eckasha, the Eckasha-A levels align with the Eckasha-A and so on

If you examine the diagram for the Eukatharista, you will see a very close correspondence with the cosmic structure of the God Worlds We have relationship to this local structure When we use the Dial-up Sequence for example, we are actually progressing through our local connections in the cosmic structure

There are a few points of potential confusion We can get confused, as to where our parallel is We have parallel universes at the Veca Level we have parallel Eckas and Eckashas at the Ecka and Eckasha Level. For example our Veca has relationship to its Ecka Core which in turn has relationship to the outer Eckasha which encompasses it. That in turn has relationship to the parent Eckasha-A structure that houses the Eckasha.

Another level of structure arises in relation to the EtorA and AdorA sides of our universe. This is not shown in the diagrams but is of significance Basically the Veca–Ecka structure of our universe is further replicated into two versions. These are superimposed over each other but are differentiated by having opposite spin Speaker 1 uses the analogy of a dinner plate One universal structure sits on one side of the plate and the other on the opposite side Our veca–Ecka universal structure resides on the EtorA side. Its polar opposite on the other side corresponds to the AdorA universal structure

When we work with the Dial-up Sequence[22] we are progressing up through our side of the Ecka-Eckasha structure to access the Addondra Flame This is a flame at the center of our Eckasha-A We access that Addondra Flame at the center of our Eckasha-A and then we come down the other side, what is referred to as the AdorA structure

Within our Ecka-Veca-Eckasha Universe configuration we have the Eleyani races in the Ecka the EyanA races in the Eckasha, We have the Le-eTOR A Flame at the center of our Ecka, the EtorA Flame at the center of the Eckasha, and we have the Addondra Flame at the center of our Eckasha-A In our Parallel AdorA we have the AdonA races in the Eckasha we have the AdonE races in the Ecka At the Veca level on the AdorA side we have the Adon races We have the Le-AdorA Flame at the AdorA Ecka Level and the AdorA Flame at the Eckasha Level Those are the correspondences that we use in the Dial-up Sequence We are traversing our local structure and traversing different parallel levels in our local structure.

The other point of interest is that the structure is basically holographic in nature. The whole is contained in the parts at every level. If we look at the Primal Sound Fields, we could think that the Primal Sound Fields are only accessible at the top levels of creation, but in fact the Primal Sound Fields are replicated at every level in the structure. They are replicated at the Veca level, at the Ecka Level, the Eckasha Level, all the way up through the structure.

We have a DNA template connected to a Chakra system, connected to an Axiatonal line system, connected to a Kundalini system, connected to an Antahkarana system, connected to a Maharata system, connected to a Kee-Ra-ShA system, connected to a Khundaray system, connected to the God Worlds.[23] We can access the ManU, ManA, and EirA Currents, the Primal Light and Primal Sound Fields at every level within the structure. The structure is holographic, that means the whole is represented in all parts. All the levels of the structure are replicated or interwoven through all of the parts.

We are not separate from Source, we have a very direct relationship to Source. Creation isn't something that was done to us, we are not victims in creation. We are an active part in creation, we are Creators within creation. Part of our Stewardship in creation is that we understand and acquaint ourselves with the structures of the God Worlds to fulfill our role as active Planetary Stewards.

Knowledge of the God Worlds honors our connection to Source.

God is made of substance, not something intangible that you cannot conceive of. It is a structure of consciousness that is made of substance. There is no difference between the substance that your body is made of and the Body of God.

They are all the same substance."

INTRODUCTION TO KATHARA BIO-REGENESIS TECHNOLOGIES

COLOR, SYMBOL, SOUND AND BIO-REGENESIS TECHNOLOGIES

BIO-REGENESIS TECHNOLOGIES are tools to assist us in accelerating our expansion of consciousness through natural, gentle stimulation of the personal **DNA TEMPLATE, KUNDALINI ENERGIES, CHAKRAS AND MERKABA VEHICLE**. Bio-Regenesis techniques are built upon the foundations of **KEYLONTIC MORPHOGENETIC SCIENCE** and advanced **SCALAR MECHANICS**, as understood by races of higher evolution; these are paradigms of science not yet recognized or validated by contemporary earth science paradigms. Because Bio-Regenesis technologies are based upon what is viewed by modern earth science paradigms as a speculative rather than verifiable science, I present Bio-Regenesis techniques only as an option to explore in meditation.

Bio-Regenesis technologies were taught as "Common Knowledge" within the Ascension Schools of Pre-Ancient advanced human cultures and were utilized as standard practice in pre-ancient time periods. Bio-Regenesis Technologies are built upon the natural laws of scalar wave mechanics. Bio-Regenesis Techniques are **SPECIFIC APPLICATIONS OF CONSCIOUS ENERGY DIRECTION WITHIN THE MANIFESTATION TEMPLATE OF THE BODY** that stimulate into activity dormant portions of the personal Manifestation Template, which allows for a natural, progressive and accelerated advancement of the personal **ORGANIC EVOLUTIONARY BLUEPRINT** of the 12th-Dimensional Omni-polar Pre-matter Template. Bio-Regenesis Techniques simultaneously create subtle, natural acceleration within the interwoven energy systems of the DNA Template, Chakra System, Merkaba Fields, Kundalini energies, higher dimensional consciousness, and "Subtle Energy Body" anatomy.

In the Bio-Regenesis paradigm it is said that such techniques allow an individual to affect the function of the scalar wave template of the body, working co-creatively under the direction of the individual's own higher dimensional levels of consciousness. As the higher dimensional levels of the personal identity, the spiritual identity of the Soul, governs the processes of the personal Manifestation Template, Bio-Regenesis Technologies are completely safe and natural to the organic design of the human being. Using processes of Bio-Regenesis from the earthly conscious perspective expedites the natural processes of energy and consciousness by which the higher identity and earthly identity integrate to become one. In advanced ancient human cultures, Bio-Regenesis Technologies represented a natural attribute of consciousness expansion into the realms of higher evolution and assisted to biologically prepare humans for STAR GATE passage or "ASCENSION".

If we can understand that the **HUMAN MIND** is an energy force that **CONTINUALLY GENERATES PATTERNS OF SCALAR WAVES** through the process of **THOUGHT**, it is not difficult to understand how **APPROPRIATELY DIRECTED THOUGHT** can directly influence the function of the personal Manifestation Template scalar blueprint. All thoughts serve this purpose, and directly effect the observable state of the mind-body-spirit system and the manifestation of events within the external life drama. **THOUGHTS ARE THINGS**- *SCALAR WAVE CONFIGURATIONS* of multi-dimensional vibrating patterns of **BI-POLAR ELECTROMAGNETIC ENERGY RADIATION**, which form **SPECIFIC PATTERNS OF SCALAR FREQUENCY** within the personal Manifestation Template.

Undirected thought creates chaotic patterns within the Manifestation Template, while thought directed through clear intention creates ordered patterns within the Manifestation Template. Thought directed with clear intention and **KNOWLEDGE OF THE STRUCTURE OF SUBTLE-BODY ANATOMY**, is a very potent form of **SCALAR POWER**. The patterns of scalar energy frequency that thought projects into the personal Manifestation Template serve as **ELECTROMAGNETIC OPERATIONAL INSTRUCTIONS** within the Template, directly effecting the

conditions that will be met in manifest experience. To develop skill in the manifestation process, the conscious "intending" mind must become more familiar with the "LANGUAGE OF SCALAR WAVES", as this is the "LANGUAGE OF LIGHT AND SOUND" upon which the Manifestation Template operates. The "language of scalar waves" is "spoken" through the forms of specific wave spectra, forms that appear to the conscious 3-dimensional mind as frequencies of SOUND, spectra of LIGHT or COLOR, and shapes or SYMBOLS.

What we perceive as color is specific spectra of LIGHT-RADIATION WAVES that have a specific measurable WAVELENGTH and vibrational ENERGY SIGNATURE. In using the conscious mind to direct qualities of color, we are CONSCIOUSLY SELECTING SPECIFIC SCALAR FREQUENCIES to add to the Manifestation Template. When we use the conscious mind to create images of SYMBOLS, we are further SPECIFYING THE ARRANGEMENT OF SPECIFIC FREQUENCIES, as they will appear within the Manifestation Template. SYMBOL FORMS (even those that compose the alphabets of outer languages) represent SCALAR-WAVE GUIDES, and directly affect the contours of the scalar wave blueprint of the Manifestation Template. The Manifestation Template governs the function of the body and consciousness within the manifest experience, and so the "Language of Scalar Waves" is the medium through which we gain conscious access to the CASUAL LEVEL OF MANIFESTATION. In using color and symbol to direct frequency, we are creating a pattern of energy that has a specific vibrational signature or "TONAL SOUND SIGNATURE", which directly interfaces with the energetic vibrational sound signature of the Manifestation Template's scalar grid.

In Bio-Regenesis technology, Color and Symbol are used to direct the TONAL SCALAR ARRANGEMENTS of the Manifestation Template, to create natural, desired results within the body-mind-spirit system. There are many complexities within the process of conscious manifestation that one must learn to fully master the contours of space, time and matter. The beginning step is learning to give more finely tuned thought intention "PROGRAMMING INSTRUCTIONS" to the personal Manifestation Template. Thoughts and images rendered in external language and 3-dimensionally associated symbols affect the outer layers of the Manifestation Template, but they do not provided as finely tuned manifestation instructions as do the "scalar wave languages" of Color and Symbol image, which direct the contours of vibrational patterns of SOUND. Mastery within the interdimensional spectrum progressively develops as one masters the core "PROGRAMMING LANGUAGES" of Color, Symbol and Sound Vibration.

In MIND TECHNOLOGIES, such as CREATIVE VISUALIZATION and VERBAL AFFIRMATION, beginning skill in SCALAR TEMPLATE PROGRAMMING is developed through using emotionally charged images and precise sound patterns in the language to which we are accustomed, as methods to begin gaining conscious control over the processes of personal manifestation. Keylontic Science BIO-REGENESIS TECHNOLOGIES take us ONE STEP DEEPER into the manifestation process, by directly employing the LANGUAGE OF SCALAR WAVES and directing the ENCODED INSTRUCTIONS through PRECISE LOCATIONS within the body-mind-spirit system and the Manifestation Template upon which this system is built. Bio-Regenesis technologies take us from speaking the language of the 3-dimensional mind into speaking the intrinsic scalar-wave language of the Spirit, which is the CASUAL ELEMENT behind and within all manifestation.

Bio-Regenesis Technologies represent applications of Scalar Mechanics that utilize the inherent power of SUBTLE WAVE FORMS to created desired change within the core Manifestation Template of the body. Within this process, COLOR and SYMBOL become the TOOLS through which the 3-dimensionallyconscious mind becomes empowered to participate in conscious co-creation with the Soul and higher dimensional spiritual portions of identity. Color and Symbol

possess power as MATHEMATICALLY ENCODED directors of scalar frequency; the ultimate effect of this directed power is the ability to affect the scalar arrangements of the Manifestation Template. Intrinsically, scalar waves are specific points of vibrating bi-polar energy signatures. Vibration of energy units creates patterns of internal and external SOUND, within and beyond the range of 3-dimensional detection. The Manifestation Template can be conceptualized as an INTERWOVEN FABRIC OF SOUND FREQUENCY, the "Silent Symphony" of personal and universal being. The tools of Color and Symbol affect the scalar-wave arrangement of the Manifestation Template, and thus alter the vibrational patterns of SOUND TONES within the personal blueprint. COLOR AND SYMBOL are tools for the direction of SOUND, and intentional application of SPECIFIC SOUND TONES can also be used in conjunction with Color and Symbol, to further amplify one's power to interact with the Manifestation Template.

Along with the techniques of Color and Symbol direction, TONING, or the intentional generation of specific sounds to affect the Manifestation Template, is also utilized in Bio-Regenesis technologies and spiritual expansion programs. "Toning Therapies" have emerged in recent years through the New Age and Holistic Healing paradigms, and have been applied for thousands of years, within the practices of spiritual masters in every religious tradition. SPOKEN LANGUAGE itself is a form of TONING, with its accompanying SYMBOL ALPHABET, and like all Symbols and Sound Tones, our languages directly affect the personal Manifestation Template, and the level of consciousness that can manifest through the body. In ancient cultures, the powers of language were better understood than they presently are in contemporary mainstream society. Particularly within the Priest-casts of ancient religions, language was used more consciously, with an understanding that words, sounds and images would directly affect the consciousness of the masses. Prayers, rituals and songs, some of which remain in use today, were used as a means of *altering consciousness*. Some assisted in spiritual development, others were intentionally used to limit and control the consciousness of populations.

The contemporary earth science paradigm is only beginning to explore the power of sound vibration and the connection between sound, symbol and color is not yet recognized or understood. In advanced pre-ancient cultures, these sciences of Scalar Mechanics were fully understood and utilized in the most powerful of ways. Color-Symbol-Sound technologies were not only used in Bio-Regenesis applications for personal health and consciousness expansion; they were also used among GROUPS OF PEOPLE to directly interface with the scalar-wave Manifestation Template of the PLANTETARY SHIELDS. Vortices, Time Portals, Star Gates, Ley Lines and free energy systems generated through the planetary core and solar light emanations were all DIRECTED THROUGH THE FOCUSED MIND, utilizing knowledge of Color-Symbol-Sound Scalar Mechanics. Since the fall of ancient cultures, which came as a result of abusing the powers of these Scalar technologies, the Color-Symbol-Sound sequences once used to direct massive amounts of power became the "HIDDEN AND FORBIDDEN SACRED KNOWLEDGE".

The COLORS, SYMBOLS and SOUNDS used in Bio-Regenesis techniques are not simply random choices. The elements of Bio-Regenesis technique are drawn from a UNIVERSAL STANDARD LANGUAGE OF "SCALAR SPEAK", through which precise scalar frequencies are generated through specific Color-Symbol-Sound sequences to create very specific effects within Manifestation Templates. The Bio-Regenesis Techniques presently offered represent only the beginning of our reawakening to this vast body of Sacred Science knowledge. Many Bio-Regenesis techniques utilizing Color-Symbol sequence scalar mechanics are accompanied by a corresponding exercise in TONING. Within the mystical Ascension Schools of ancient and pre-ancient times, there existed a very SACRED SERIES OF TONING SEQUENCES that were used to directly interface with the DNA TEMPLATE and the AXIOM LINES in the PLANETARY

SHIELD. On a personal level, through this specific series of Toning, dormant strands in the DNA Template could be progressively brought into activation, to expedite the process of Spiritual Actualization, Holistic Healing and building of the PERSONAL MERKABA VEHICLE within the bio-energetic field. On the planetary level, these Sacred Toning Sequences were used to ENERGETICALLY OPEN the PLANETARY AXIOM LINES for CLEARING, REPROGRAMMING AND ACCELERATING THE ACTIVATION of the PLANETARY SHEILDS. This series of Sacred Toning was collectively called "THE MUSIC OF THE SPHERES".

THE SONGS OF THE SPHERES

The MUSIC OF THE SPHERES represents the ORGANIC TONAL SEQUENCES of EACH DIMENSIONAL FREQUENCY BAND within the 15-Dimensional Time Matrix; the CONSOLIDATED CORE VIBRATIONAL SOUND SIGNATURES of each Dimensional frequency band. Of the 15 core vibrational signatures of the 15 Dimensions in a Time Matrix, 12 of these core signatures serve as the PRIMARY 12 TONAL SEQUENCES upon which each strand of the 12-Strand original human DNA Template, and each AXIOM LINE in the 4-Density Planetary Shields are structured. In using the Tone Sequences of the Music of the Spheres, the 12-Strand DNA Template can be PROGRESSIVELY BROUGHT INTO NATURAL ACTIVATION. Scalar-wave distortions within the Templates for the DNA Strands (which physically manifest as genetic distortions) can be systematically REALIGNED with their natural perfect 12th Dimensional ORGANIC IMPRINT. In using the Music of the Spheres for work with the Planetary Shields, each of the 24 AXIOM LINES can be OPENED and ENCODED WITH THE PERFECT PATTERN OF THE PLANETARY PLASMA BEAM. Transmitting the 12th-Dimensional MAHARIC SHIELD pattern directly into the Axiom Lines in the Planetary Shields is the most rapid method to distribute the program of the PLANETARY ORGANIC IMPRINT throughout the 4 Density Levels of the PLANETARY SHIELDS.

In ancient days, the *Music of the Spheres* was used extensively for purposes of self-generated healing and to prepare the physical body for literal passage through the planetary Star Gates ("Ascension"). The specific tone sequences for each SINGULAR DIMENSION (which corresponded to one DNA Strand Template in the 12-Strand blueprint and the inherent Dimension of consciousness that would embody through activation of the strand) are called the "SONGS OF THE SPHERES". Each "SONG" contained very specific "word sounds" (from the first Universal Spoken language) for lyrics, and specific multi-layered tones (which generated inaudible Tri-tone Standing Waves) for melody, harmony and overtones. To be effective, the Songs had to be used through the HUMAN VOICE, externally or mentally as the "SINGING OF SONGS".

The Sacred Songs were sung in combination with directing specific corresponding COLOR and SYMBOL sequences through the bio-energetic field (or through the Planetary Axiom Lines for Planetary Shield work). The Songs served to "open" specific areas of the DNA Template, or specific Planetary Axiom Lines, to receive instructions directed by the Color and Symbol sequences. The tones of the Songs generated specific scalar-wave formations that triggered activation of corresponding configurations within the DNA Template and Planetary Shields. Activation of dormant portions of the DNA Strand Templates or Planetary Axiom Lines "opened" the Strand Template or Planetary Shield to directly receive Color-Symbol scalar wave instructions, through which desired outcomes within the personal or planetary body, and within the external reality experience, could be "PROGRAMMED" for manifestation.

The **SCIENCE OF THE MUSIC OF THE SPHERES** was one of the most highly guarded **"SACRED SECRETS"** in pre-ancient cultures, due to the power of interdimensional freedom and conscious manifestation that could be obtained through knowledgeable use of the **SONGS.**

Before the **SONGS OF THE SPHERES** will be fully returned to human awareness, our culture will have to mature enough to demonstrate **spiritually motivated ethical use of power.** Certain SONGS are now being slowly returned, so that we may assist those of higher evolution to realign Earth's Planetary Shield with its original 12th-Dimensional **MAHARIC SHIELD ORGANIC IMPRINT.** One of the **15 SONGS OF THE SPHERES** was provided to us by the Emerald Order. This SONG is used to activate dormant scalar-waves in the **8th DNA STRAND TEMPLATE,** through which the process of activating the dormant **1st-8th Strands** of the 12-Strand DNA Template can be accelerated, expediting the natural processes of higher dimensional spiritual identity integration.

This SONG is also used to open the **8TH AXIOM LINE** in **GAIA'S PLANETARY SHIELD,** to facilitate realignment of Earth's **Planetary Shields** from **ETHERIC MATTER DENSITY-3.** This SONG was given so that **GROUPS** can begin assisting directly in Planetary Grid work, opening specific Axiom Lines and Vortices in the planetary body to help bring Earth's Planetary Shield Manifestation Template into its organic alignment and balance. The SONG that was given is called the **"Aries Khum Nar'A".** The English language translation is **"THE SONG OF ORION".** This **SONG OF THE 8th SPHERE** corresponds to the **8th -Dimensional** level of the **UNIVERSAL KATHARA GRID** and its **8TH PRIMARY STAR GATE.** It also corresponds to the **8th PLANETARY AXIOM LINE** within the Etheric Matter Density-3 **GAIAN PLANETARY SHIELD** and to the **8th DNA STRAND TEMPLATE** in the human body. The **8th Dimensional STAR GATE** within the **UNIVERSAL KATHARA GRID** is the Star Gate that opens into the **ORION STAR SYSTEM,** thus the name of the **SONG OF THE 8th SPHERE** is **"THE SONG OF ORION".**

Soon the SONGS that correspond to the 11th and 12th –Dimensional frequencies will be provided. Aside from its use in planetary grid work, when used as a **"MANTRA",** repeatedly sung as a focus for the mind in meditation, the ***Aries Khum Nar'A*** serves to stimulate consciousness expansion into the higher dimensional fields and amplifies and expedites the effects of personal Bio-Regenesis techniques.

THE STRUCTURE OF THE UNIFIED FIELD AND THE CONTEXT OF HEALING

If one is to become fluent in the art and science of **Bio-Spiritual Healing Facilitation**, it is necessary to become familiar with the *primary structures of energy* within which existence takes place. Without this understanding one will be unable to identify the *true nature of systems and their intrinsic functions*. If we do not understand the **intrinsic order of a system** and the elements that make up its parts, our ability to comprehend the *organic functions* of the system will be limited. Without comprehension of the intrinsic dynamics inherent to a system, our perceptions will be limited to observing the **effects of systems function**, rather than perceiving the **causal elements** behind and within the apparent observable effects. In relation to the **health and healing** of the human body, it is wise to view the human **Body-Mind-Spirit organism** as a series of interwoven systems, each with *inherent, implicit order*, the perceivable and observable aspects of which represent the effects of systems function. **The observable effects of the human condition emerge from an as yet unidentified causal order, a hidden and mysterious source out of which the manifest effects of human existence emerge.** Holistic Healing approaches human health and healing in terms of the *interdependent relationships* between *multiple interwoven systems*. The Body-Mind-Spirit organism is viewed in terms of the *intrinsic relationships that unite* the multiple systems of the human being, rather than in terms of the *observable boundaries* that appear to *separate and divide* the multiple systems inherent to the human organism.

Holistic Healing, and **KATHARA Healing** particularly, take the concept of **intrinsic unity** within the seemingly separate systems of the human being one step further than *simple interrelationship* between **physical, mental and spiritual aspects** of human experience. **In the paradigm of Kathara Healing, the human organism is viewed as a set of interwoven systems that is itself part of a larger system of interdependent systems.** The human individual is not only recognized as a *singular set of unified parts*, but rather as an *intrinsic part* of the species, planetary, galactic, universal and cosmic systems within which human existence finds context for being. The **Cosmic Unified Field of Energy and Consciousness** is viewed as the **indelible medium** within which all reality takes place, and human existence is viewed in terms of *its relationship to this greater Meta-system* of interwoven, interdependent systems. **The health and wellbeing of the human being is directly related to and effected by the systems-functions of the greater Unified Field.** In order to better understand and facilitate the health and healing of biological organisms, it is useful to understand the *basic order and function* of the **UNIFIED FIELD**- the context in which life itself takes place.

Kathara Healing is an ancient system of **Holistic Healing**, dating back beyond presently identified recorded human history. The principles of **Universal Order** as taught within Kathara Theory present a **broader context of universality** than is presently recognized by contemporary western science. Kathara is built upon **Laws of Multidimensional Universal Physics,** laws of intrinsic nature with which western science is not yet familiar. In Kathara Healing the *hidden order of universal systems* is recognized and the foundations of Kathara *demonstrate the interwoven systems-functions* between the human being and the order of the **Unified Field. To develop proficiency and genuine skill within the art and science of Holistic Healing, the basic order of the Unified Field must be understood.** For with this understanding comes the ability to *directly interact with and influence the causal elements* of the human experience. For this reason the teachings of Kathara Healing begin with providing a basic format through which the **CONTEXT of healing** can be understood ***– a glimpse at the intrinsic order of the Universal Unified Field.***

With foundations grounded in **coherent systems relationships**, the Kathara Healing Facilitator has more knowledge, power and comprehension to bring to the art and science of healing facilitation. **Through comprehension of the *intrinsic systems of universal order*, the Kathara Facilitator progressively evolves to embrace the *unity of SELF within the Unified Field*, opening to an ever-expanding capacity of spiritual awakening and the embodiment of UNCONDITIONAL LOVE.** The physical, mental and spiritual aspects of human anatomy represent one interdependent, interwoven system that is *continually in a state of relationship to the Unified Field.* This relationship must be acknowledged and embraced if true health and healing are to occur. **Human evolution is a Bio-Spiritual process, the body and the consciousness – the biology and the spirit - are inseparably intertwined within themselves and within the greater order of the Unified Field.**

Healing emerges through restoring order to the ONE-SYSTEM and its infinite parts.

THE HOLOGRAPHIC TEMPLATE

The externalization of life, manifestation of matter and individuation of identity are **HOLOGRAPHIC PROJECTIONS of CONSCIOUSNESS-ENERGY SUBSTANCE,** created through an *intrinsic order of energetic relationships.* Energetic relationships represent **interrelationships of consciousness,** in its infinite manifest and de-manifest forms.

Consciousness *IS ENERGY*
And
Energy *IS CONSCIOUS*

True Science has a *spiritual* core and true spirituality has *its intrinsic translation within the Laws of Energy that govern the manifestation of universal systems.*

Reality is **THOUGHT CONSTRUCTION.** The core substance of the cosmos is **CONSCIOUSNESS.** ***Thought is an attribute of CONSCIOUSNESS,*** the **filter through which consciousness manifests itself into the Hologram of Form.**

Nothing is truly solid. All things are composed of *consciousness* and their *apparent solidity* is determined by the *relationship between the consciousness observing the form and the consciousness of which the form is made.* Human consciousness emerges through **an order of dimensionalization,** which sets frameworks within which the *interrelationships of consciousness* can take place. **Human perception of solidity and externalization is determined by the oscillation rates between dimensionalized units of consciousness.** Dimensionalized units of consciousness form **frequencies of energy,** which exist in *specific relationships* to each other. Human *consciousness* (the soul –spirit), and human *physical form* are **patterns of frequency** formed by *dimensionalization of units of consciousness. We perceive manifest solidity due to the relationship between the frequencies of consciousness of which we are made and those of the Unified Field of Conscious Energy around us.* **Humans perceive as solid the frequency bands that exist one full dimensional spectrum below the frequencies within which the individuated or collective consciousness is stationed.**

The only difference between a *thought* and a *manifest thing* is the *frequency of the consciousness of the observer.* Manifest reality is thought projection, made solid and externalized by relationships between the *frequencies of our focus of attention* and those of the *projected thought forms.* **We perceive as reality the thought forms of the collective masses as they were placed within the frequency bands that now exist one dimension below the frequencies within which our present focus of collective consciousness is stationed.**

As reality is a **THOUGHT FIELD**, composed of units of consciousness awareness, reality can be directly **AFFECTED by THOUGHT**, as the substance of both thought and reality are one and the same. The key to mastery of our present reality and to restoring our **imprint for health**, is understanding the *reality of dimensionalization* within which our consciousness now resides.

The human body is a HOLOGRAPHIC PROJECTION of consciousness that is built upon a *HOLOGRAPHIC TEMPLATE* of structured units of consciousness. The **Holographic Template** represents the **Living Morphogenetic Field** – the *dimensionalized blueprint of conscious light, sound and scalar waves*, within which the individuated consciousness is stationed, and *upon which the illusion of solidity of the body matter is formed.* **To affect *true and lasting change* within the Body-Mind-Spirit System of the human being, one must go *to the core* of its manifest structure – the *Holographic Template*** or Thought-energy Blueprint, **upon which the entire system of consciousness itself comes to know being.**

The body is a **HOLOGRAM** that can be directly affected by the *substance of which it is composed* – **CONSCIOUSNESS.** In learning the structure of dimensionalization through which the body-illusion manifests, one becomes progressively more masterful in directing this personal thought form to suit ones desired specifications. The core **Holographic Template** of the personal and universal body is called the **Kathara Grid. Kathara Healing** is the process by which the *embodied* aspects of human consciousness become more aware of and able to direct the *intrinsic processes of holographic projection*, with the intention of restoring integrity to the function of the Body-Mind-Spirit system.

***No thing is truly manifest*– it only appears to be so,**
due to the refraction of consciousness
within the energetic relationships inherent to
the *Holographic Template*–
the original *thought-form construct*
upon which our universal structure
is perpetually recreated.

All creatures and things are Spiritual Beings having a Manifest Experience...No creature or thing can be ever divorced from its innate spirituality, but only from the awareness of its nature. For life is the expression and substance of spirit- and manifest reality is but a Dreamscape, from which we eventually all awaken...

The causal element of all manifest experience is called a ***Morphogenetic Field*** or **MANIFESTATION TEMPLATE**. Keylontic Science, the science of Manifestation Templates is part of a larger advanced paradigm of science that is known as **15-Dimensional UNIVERSAL UNIFIED FIELD PHYSICS.**

PRIMAL SUBSTANCE

- A Manifestation Template is made of **PRIMAL SUBSTANCE;** units of conscious energy called **PARTIKI** that exist as ***Omni-polar points of fixed vibration. Partiki units*** are the smallest building blocks of matter, and they form the templates upon which consciousness in all forms enters manifestation.
- Partiki units are **Omni-polar** (containing the potentials for all polarities or none) units of vibrating energy that perpetually cycle back and forth between a state of **BI-POLAR LIGHT RADIATION** (scalar-standing-wave) and **OMNI-POLAR SOUND VIBRATION.**
- In the ***Omni-polar state,*** Partiki units exist as invisible, fixed points of ***sound vibration,*** forming what is called an **INTERDIMENSIONAL TRI-TONE WAVE.** An Interdimensional ***Tri-tone Wave*** is a singular point of fixed vibration that is composed of 3 ***sub-vibrations*** (base tone, overtone and resonant tone). When Partiki units are in their Omni-polar state they exist as ***Ante-matter substance,*** the first state of energy organization before Pre-matter manifestation. Through a process of Internal Fission characteristic to their design, Partiki units break apart to form Bi-polar waves, while replicating their original Tri-tone Omni-polar design.
- In the ***Bi-polar state,*** two sub-vibrations of the Tri-tonal Standing Waves of Partiki units break down into two sub-units, **sub-tones,** called **PARTICUM**-*Base Tones* and **PARTIKA**-*Overtones,* interconnected units of **BI-POLAR LIGHT RADIATION** that form ***Electromagnetic Scalar-Standing-Waves.*** The third vibration of the Tri-tone wave, the *Resonant Tone,* remains as the core vibration through which the polarized vibrational units of Particum and Partika will reunite through ***Internal Fusion.***
- **PARTICUM** units form the energetic building blocks for **PARTICLE TEMPLATES** and **PARTIKA** units form the building blocks for simultaneously manifesting **ANTI-PARTICLE TEMPLATES.** Particle and Anti-particle Templates are interconnected, united by the Ante-matter **PARTIKI** units through which they manifest. The effects of **ELECTRICAL AND MAGNETIC FORCE** are set in motion through the **EXPANSION AND CONTRACTION** of energy vibration between Particle and Anti-particle matter units through the Ante-matter Partiki unit that unite them.
- **Particum-Particle units** represent the **CONTRACTION PHASE** of ante-matter energy, with higher **VIBRATION** (energy contracted into or received by the Ante-matter template) and lower **OSCILLATION** (energy expanded or transmitted from the Ante-matter template) and so are considered **BASE MAGNETIC. Partika-Anti-particle units** represent the **EXPANSION**

PHASE of Ante-matter energy, with lower Vibration and higher Oscillation, and are considered **BASE ELECTRICAL**.

- **ELECTROMAGNETIC ENERGY** is created through the continual cycling of energy, as the Omni-polar Ante-matter Tri-tone Wave of ***Sound Vibration*** projects its energy into Bi-polar Particum and Partika Scalar Waves of ***Light Radiation***. Energy thrust expands into the Anti-particle Partika vibration point as **electrical force**. It then contracts into the particle Particum vibration point, creating **magnetic pull**, (in ratio to its original electrical thrust), as the third vibration in the Ante-matter Tri-tone Wave draws the energy back to its source. Through the draw of the Ante-matter Partiki template, Partika-Ante-particles and Particum-particles are brought into a state of **Fusion**. Upon fusion, the energy of the Particum and Partika transmutes, the Bi-polar Standing Scalar Waves of Light Radiation returning to their original Omni-polar Ante-matter state of Partiki units. Once returned to the Partiki state, the process repeats as the Partiki creates Fission and replication. **Partiki, Particum and Partika units represent PHASES that Primal Substance energy passes through as it moves into and out of manifestation.**

- The process by which Partiki units perpetually convert conscious energy into Bi-polar Light Radiation Scalar-Waves (expansion) and back into Omni-polar Sound Vibration Tri-tone Waves (contraction) is called **PARTIKI PHASING**. Through perpetual cycles of Partiki Phasing, matter units "flash on" through **fission**, into Bi-polar Particle and Anti-particle manifestation built upon Scalar Waves of Light Radiation, then "flash off" through **fusion**, into Omni-polar Ante-matter Sound Vibration, continually cycling energy between the manifest and non-manifest state. **The perception of external physical matter, space and the passage of time are created through *variance in relationship* between rates of Partiki Phasing.**

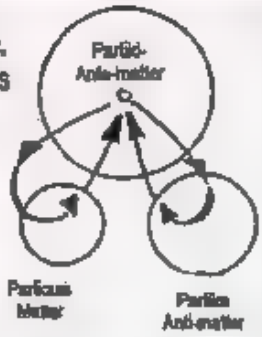
- Consciousness in the form of Partiki Units is the **PRIMAL SUBSTANCE** of which the cosmos is structured and Partiki Phasing is the perpetual **PRIMAL ACT** of reciprocal fission and fusion through which Primal Substance is brought into manifestation.

The Holographic Template

PRIMAL SUBSTANCE

Units of Consciousness, Morphogenetic Fields and Scalar Grids

1. ***Partiki, Partika and Particum:*** Smallest units of energy-substance. Electro-tonal units of consciousness that are the building blocks of morphogenetic fields, matter and individuated conscious identity. Operate as minute, perpetual motion fission/ fusion generators.



2. ***Partiki Grids:*** The fabric of morphogenetic field structure. Partiki units group to form interwoven Strands, then Grids of electro-tonal substance, out of which morphogenetic fields are fashioned. Out of a Unified Field of Partiki units, Partiki Grids form to create the frequency bands that make up dimensional fields and then to form individuated morphogenetic fields .

3. Partiki units continue to group or accrete upon the Partiki Grids, forming
A. ***Keylons*** – crystallizations of "frozen light" (standing scalar wave patterns and fixed points of tonal frequency), and
B. ***Keylon Codes*** – complex groupings of Keylons, which together form a crystalline template of light spectra, sound frequency and electro-magnetism that is the morphogenetic field Crystal Body– the Blueprint upon which matter and identity will manifest.

The **Morphogenetic Field** is made of interwoven **Partiki Grids.** The electro-tonal units of consciousness out of which Partiki Grids form create standing wave patterns – **scalar wave grids,** which hold the form of consciousness within dimensionalized manifestation. Morphogenetic Fields are thus **Scalar Grids,** that form in specific ordered interrelationship. Partiki Grids form upon the core *geometrical-mathematical* structure of the **Kathara Grid,** and so the Kathara Grid represents the core *Scalar Field* upon which form manifests.

Morphogenetic Fields govern the form of matter manifestation and the evolution of biology and consciousness. Morphogenetic Field mechanics thus hold the key to mastery of physical reality and Bio-Spiritual Evolution.

THE STRUCTURE OF DIMENSIONS

Frequency Bands and Sub-Frequency Bands, Vibration-Oscillation-Particle Spin, Harmonics of Manifestation and Matter Density Levels.

The Hologram of manifest reality is a complex system of interwoven energy constructs, all built upon **dimensionalized sets of scalar grids**- or fields of standing wave points – that form the **base laws of energy** upon which manifest reality functions.

The physical portions of the human body represent ***wave strata*** that exist within specific relationships to the embodied consciousness. **The embodied consciousness itself is *regulated by the intrinsic behavior of the wave strata* in which it is ensconced.** The wave strata of seemingly physical forms appear to *human detection* in the form of *particles, sub-particles and wave bands* that group to form the 3-dimensionally manifest hologram of human life

The **behavior of dimensionalized wave strata** is an intrinsic element within the function of ***human anatomy***, and provides the *very context* within which human existence and evolution take place. When we come to understand ourselves as **vibrating quantities of conscious energy**, existing within a state of **vibrational co-resonance with all things**, which are themselves *vibrating quantites of conscious energy*, we can begin to understand the **fundamental structures** upon which the human condition is built.

*The human body is a **construct of conscious energy**, a living* morphogenetic field existing within the greater living morphogenetic constructs of the species, planetary, galactic, universal and cosmic morphogenetic structure. We are simply an element of sentient consciousness within a larger structure of sentient consciousness, a part of the **Unified Field of Consciousness** that IS the living identity of the cosmos. Our physicality emerges through the **perceptual lens of dimensionalization**, which provides us with the seeming manifestation of **particles, atoms, molecules** and the **physical systems** built upon them.

If we expect to **heal ourselves** of the manifest conditions that cause suffering within the Body-Mind-Spirit system, we must first understand the **nature of health**, the "way things are supposed to work" when they are *functioning properly*. To understand the intrinsic **imprint and impetus for health** in the human organism, a basic understanding of the *contents of its parts* is in order. That understanding begins with *identifying the basic reality structures within which we reside, and how we exist in relationship to these structures.*

Our understanding of *health* begins with *identifying the context of existence*, the *Unified Field of Consciousness-Energy* of which we are all a part. **A simple *identification of the structures of the Unified Field* will work wonders in assisting us to understand ourselves, and through this understanding we become more empowered to foster a healthful and more joyous living experience.** To better understand ourselves we must return to the core of our intrinsic nature, the **dimensionalized fields of consciousness** within which we reside and out of which the substance of our SELVES is composed.

The following characteristics inherent to the manifestation of the human hologram are a place to begin our journey of self-understanding.

Characteristics of the Hologram

PRIMAL ORDER

SCALAR WAVES: Points of standing waves, composed of quantities of conscious energy that emanate out of fixed units of vibration (Partiki units), which form the morphogenetic field templates upon and through which consciousness dimensionalizes itself to experience the hologram of manifest reality. Created through Partiki Phasing (internal fission/fusion "flash on/flash off")

MORPHOGENETIC FIELDS: The templates of consciousness, light, sound and scalar standing-wave grids which serve as the structured blueprints upon which our consciousness manifests into dimensionalization, through which the holographic projections of space-time-matter and identity individuation can be experienced.

DIMENSIONS: *Morphogenetic Field Scalar Grids composed of interwoven layers of scalar waves, which serve to direct the flow of consciousness into multiple patterns of refraction through which the hologram of matter density, linear time and objectification of reality can be experienced.* Dimensions are specific structures of consciousness, composed of Partiki units with differing vibratory-oscillation rates, which exist in precise relationship to each other, and govern the intrinsic laws of function within the observably manifest worlds. The process of dimensionalization occurs through the wholeness of consciousness *compartmentalizing itself into various ordered sections having diversity of vibratory-oscillation*, through which the wholeness of consciousness may experience itself in an endless variety of forms. Each dimension represents a full frequency band.

FREQUENCY BANDS: Synchronized, cyclic, repeated sequences of "flashing on and off" of scalar-wave points within the dimensional scalar grids, which gives the appearance of manifest movement of wave spectra within a dimensional system. Sub-frequency Bands are shorter segments of the longer "flashing on and off" sequence of the full Frequency Band. The frequency of dimensional levels and the particles within them is determined by the vibratory-oscillation rate of the Partiki units that make up the scalar-wave grid. Frequency is the form consciousness takes on while ensconced within the framework of dimensionalization. Frequency is the vibrating-oscillating wave spectra of which matter particles and dimensionalized consciousness are composed.

VIBRATION-OSCILLATION: Vibration is the condition of internal movement, or *holding of energy within* units of consciousness (Partiki) and the particles built upon them. Vibration is determined by the quantity of energy *held within* Partiki units. Oscillation is the condition of external movement, or *expending of energy from* Partiki units and the particles built upon them.

The vibratory-oscillation rate of particles represents the *rate at which the scalar standing-waves "flash off and on"* within the morphogenetic field template. Vibration is the *internal measure of energy quantity* held *within* Partiki units and exists within direct proportion to the *oscillation* rate, or *external measure of energy quantity expended*, exhibited by Partiki and the particles built upon them.

The vibratory-oscillation rate represents the ratio between energy contraction (vibration) and energy expansion (oscillation), which sets the rhythm of particle pulsation that governs the formation of wave spectra within dimensionalization. The vibratory-oscillation rate of Partiki units determines the frequency (cyclic pattern of scalar waves "flashing off and on") of wave spectra within the various levels of the dimensionalized morphogenetic field. The relationship of vibrational-oscillation between wave spectra determines the matter density levels particles will exhibit within the dimensional scale.

The human anatomy is a 15-dimensional morphogenetic field scalar grid structure, composed of wave spectra with varying degrees of matter density characteristic to the dimensional band within which each level of the anatomy is stationed. The portions of our anatomy that appear solid are those stationed one dimension below our focus of conscious attention.

PRIMAL ORDER OF MANIFESTATION TEMPLATES

- Morphogenetic Fields, or the **MANIFESTATION TEMPLATES** that serve as the blueprint through which consciousness manifests, are composed of the Primal Substance of **PARTIKI UNITS**. Partiki units draw together or **ACCRETE** to form **PARTIKI STRINGS**. Following a set mathematical and geometrical design inherent to their form, Partiki Strings interweave and overlap, forming a **"Fabric of Light and Sound"** called a **PARTIKI GRID**. A Partiki Grid is a fixed pattern of interwoven Bi-polar Scalar-Waves of light radiation,built upon Omni-polar Tri-tone Waves of sound vibration,that forms the foundation for diversified Manifestation Templates. A Partiki Grid is a **SCALAR GRID**.

- Following the precise mathematical design set by the will and intention of the manifesting consciousness, Partiki Grids further accrete, drawing in more Partiki Units, forming groups of Partiki units that are arranged following *3 different rhythms of Partiki Phasing*. **Tri-phase groupings of Partiki Units** form patterns of Scalar-wave and Tri-tone wave interrelationships that create *crystallizations of energy* called **KEYLONS**. Groups of Keylons continue to accrete, forming complex Keylon arrangements called **KEYLON CODES**, through which the Manifestation Template is progressively built up from Ante-matter through various stages of matter density, beginning with **PRE-MATTER SUBSTANCE**, the first density of Liquid Silica Hydro-plasmic energy to emerge into externalized form.

- The Morphogenetic Fields upon which universes manifest are built upon a Manifestation Template that has a specific order of mathematical interrelationships that govern the combining of Scalar Grids with different rates of *Partiki Phasing*. The **Cosmic Manifestation Template** is called the **ENERGY MATRIX**. Within the Energy Matrix there are many smaller manifestation templates upon which Universes are structured. **Universal Manifestation Templates** are called **TIME MATRICES**. There are uncountable Time Matrices within the Energy Matrix, which are collectively referred to as **THE TIME MATRIX**. All Time Matrices within the Cosmic Matrix follow a specific mathematical-geometrical program through which space, time and matter can be experienced by consciousness upon entering the Time Matrix structure.

- Time Matrices are arranged upon a pattern of 15 different, but interwoven, Partiki Phasing rhythms (rhythms of expansion and contraction of energy). Each of the 15 rhythms of Partiki Phasing creates one **DIMENSION**. A Dimension is a set pattern of **"FLASH LINE SEQUENCES"**, or a cycle of singular Partiki Phasing rhythms that contains within it 12 smaller rhythms of Partiki Phasing. Each **Dimensional Manifestation Template** creates a set of fixed Scalar-Tri-Tone Wave Points that create a template of stationary **SCALAR FREQUENCY**. Each Dimension represents one **SCALAR FREQUENCY BAND** containing 12 smaller **SUB-FREQUENCY BANDS**. A Scalar Frequency Band is a cyclic pattern of specific Partiki Phasing Rhythms, or **EXPANSION AND CONTRACTION RATIOS OF ENERGY CIRCULATION**, to which consciousness conforms in order to enter the experience of manifestation.

- To create the Universal Manifestation Template upon which external space, time and matter experience can be known, Dimensions are ordered into sets of 15, forming the blueprint for a

15-Dimensional Time Matrix. Within a Time Matrix the 15-Dimensions are further arranged into sets of 3 Dimensions, forming **5 3-Dimensional reality fields**. Each 3-Dimensional Reality Field is called a **HARMONIC UNIVERSE**, and each represents a **level of matter densification** specific to its intrinsic rates of Partiki Phasing. One Time Matrix is thus a **15-Dimensional Scalar Grid** with 5 separate yet interwoven reality fields and 5 different densities of matter manifestation.

- Each of the 5 Harmonic Universes within a Time Matrix represents a **TIME CYCLE**. A Time Cycle is a fixed, repeating pattern of Partiki Flash Line Sequences, or a repeating cycle of specific ratios of energy expansion-oscillation and contraction-vibration. The Time Cycle of a Harmonic Universe is called an **EUIAGO CYCLE**. There are **5 simultaneously manifesting Euiago Cycles in every Time Matrix,** through which consciousness passes in order to experience linear evolution through space, time and matter. Each Euiago cycle contains within it 6 smaller Flash Line Sequences forming6 smaller cycles of time called **TIME CONTINUUA.**

The **PRIMAL ORDER of Manifestation Templates** represents the core mathematical and geometrical interrelationships of energy that consciousness takes on in order to enter the holographically projected experience of external space, time and matter. All manifest forms, including the **HUMAN BODY** and **PSYCHE** , are built upon a Manifestation Template that begins with the Primal Order of Dimensionalization, through which the consciousness anchors itself into the Time Cycles of the Universal Manifestation Template Time Matrix, to begin the experience of evolution through time.

Understanding the **PRIMAL ORDER OF DIMENSIONAL STRUCTURE**, as it pertains to the human organism, allows for comprehension of the greater causal framework through which personal healing must occur. Such comprehension of the core causal structure of manifestation enables one to work cooperatively, rather than in resistance to, the natural **Universal Laws of Manifestation,** progressively restoring the **NATURAL HARMONIC ORDER** of wellbeing and **DIVINE RIGHT FORM**, through which the indelible **Organic Imprint for Health** can be progressively restored.

Dimensional Structure

A Dimension represents a full ***Frequency Band***, or repeating, cyclic sequence of "flashing on and off" scalar-wave points within a morphogenetic field. The morphogenetic field scalar grid structure of dimensions takes the form of ***sets of 15-Dimensional Matrices***. The 15 Dimensions are grouped into sets ***of 3 Dimensions each***, forming ***5 sets of 3-dimensional reality fields*** called HARMONIC UNIVERSES. The 15-Dimensions composing the 5 Harmonic Universes together represent one TIME MATRIX system.

Each dimension of frequency is composed of **12 Sub-frequency Bands**, or shorter cycles of the "flashing on and off" of scalar-wave points, which exist as part of the longer cycle of the full Dimensional Frequency Band. The Partiki in each dimension have a specific rate of **vibratory-oscillation** (contraction and expansion of energy), which determines the **Angular Rotation of Particle Spin** (angular axis upon which particles will spin). There is a **90-degree shift of angular rotation** of particle spin between each dimensional frequency band and a **45-degree reverse shift** between **Harmonic Universes** (sets of 3 dimensions/frequency bands.)

Particles having varying vibratory-oscillation rates and angles of spin allow multiple dimensional reality fields to co-exist within the same space while remaining perceptually invisible to each other. The *relationships between wave strata* within the dimensional frequency bands create the **holographic refraction** of light, sound and scalar waves that allows consciousness to *perceive the illusions of* **matter solidity, space, time and externalization of reality** while it is ensconced within the structures of dimensionalization.

Frequency Bands and Sub-Frequency Bands within the 15-Dimensional Scale

Frequency Bands are cyclic, repeated sequences of "*flashing on and off*" of scalar standing-wave points that create the appearance of manifest wave spectra within a dimensional system. ***Sub-frequency Bands*** are shorter cycle segments of the longer "*flashing on and off*" sequence of the *full* Frequency Band. Frequency and Sub-frequency Bands make up the foundation wave strata of Dimensions.

1 Harmonic Universe composed of 3 Dimensions, each Dimension composed of 12-Sub-frequency Bands, for a total of 36 Sub-frequency Bands in 1 Harmonic Universe.

PARTIKI PHASING, HARMONICS OF MANIFESTATION AND MATTER DENSITY

Partiki Phasing – *Scalar Standing-Wave flashing*. The internal expansion/ fission/ "flashing on" and contraction/ fusion/ "flashing off" of scalar standing-wave points made of Partiki units. *Partiki Phasing* governs the mechanics of matter manifestation within the Dimensionalized Frequency Bands of the Time Matrix. Through Partiki Phasing HARMONICS of Manifestation and varying levels of matter density are created.

Each of the 5 Harmonic Universes, moving upward in the 15-Dimensional Scale, has a progressively less dense state of perceivable matter. As you go up the Dimensional Scale each Dimension has a progressively faster rate of Partiki Phasing with its corresponding higher frequency, faster oscillation, lower vibration, shorter wave length, greater expansion and less matter density. **These conditions represent the stages of perceivable matter density consciousness will experience as the focus of attention expands progressively upward/outward into the higher Dimensions of the Dimensional Scale through the process of evolution** (accretion of frequency from the Unified Field into the personal morphogenetic field).

As consciousness progressively expands back into the 15-Dimensional structure of its original morphogenetic field, matter density perception will change from perceivable Gross Matter physical density, to Semi-etheric Matter density, to Etheric Matter density, to Pre-matter Liquid Light density and to its original Ante-matter scalar wave form of non-density consciousness. **As the morphogenetic field expands through drawing in more frequencies of consciousness, the perceivable matter density of the body and external reality field progressively lessens.**

Smallest units of energy-substance. Electro-tonal units of consciousness that are the building blocks of morphogenetic fields, matter and individuated conscious identity. Operate as minute, perpetual motion fission/ fusion generators.

UNIVERSAL AND PLANETARY KATHARA

Kathara Level-1: 12-Tree, Kathara Level-2: Crystals, Kathara Level-3: Diodic Points, Kathara Centers and Kathara Lines.

The Kathara Grid is the *primary mathematical-geometrical organization of units of consciousness* upon which Partiki units group to form morphogenetic field scalar grids. It is the CORE level of scalar standing-wave creation and energetic organization within and behind all dimensionalized systems, and is thus considered to be the **Core of the Holographic Template** upon which the morphogenetic scalar wave blueprint and all other dimensions of form anatomy are built. The Kathara Grid is the causal element within all manifest affects of dimensionalization and consciousness.

The form of the Kathara Grid is reflected in the Macrocosm and Microcosm of all manifestation. All forms have at their core the *common structure of the Kathara Grid Holographic Template*. The Kathara Grids of all forms - universes, galaxies, planets and species - are linked to each other and to the Kathara Grid of the Cosmos through the interwoven Partiki scalar standing-wave grids of the *Kathara Grid Holographic Core.* **The *Cosmic Kathara Grid* represents the scalar field of the Cosmic Unified Field of Consciousness-Energy** through which the *Hologram of manifest experience* is perpetually created.

Energy cannot be created or destroyed, it only changes form. Energy IS *Eternal Consciousness* that perpetually changes form by projecting through the structures of the Kathara Grid, while simultaneously remaining *always the same* - the *singular wholeness* of the **Cosmic Unified Field of Consciousness-Energy.**

Structure of the Kathara Level-1 12-Tree Grid Core Scalar Template

12 PRIMARY KATHARA CENTERS:

Kathara Centers are condensed Scalar Wave points that hold the core electro-tonal geometrical-mathematical program for dimensionalized structure. There are 12 Kathara Centers, each holding the program for one Dimension. The program for Partiki Phasing and Vibration-Oscillation for each Dimensional Frequency Band is set in the corresponding Kathara Center. The Kathara Centers set the template for each Dimension, to ground consciousness within the Holographic experience of manifestation.

15 PRIMARY KATHARA LINES:

Kathara Lines are the primary sequences of Partiki Phasing that transmit the electro-tonal programs held within the Kathara Centers from one Dimension to another, to keep the continual flow of consciousness circulating throughout the 15-Dimensional levels of the Morphogenetic Field. When functioning properly, the Kathara Lines connect each Harmonic and Dimension of consciousness to the other and govern the synchronization of cycles of time within the Dimensional Fields and within the morphogenetic field, DNA and body rhythms of dimensionalized forms. The 3 Vertical Kathara Lines control the operation of the other 12 Kathara Lines. The Central Vertical Kathara Line is the control center for Partiki Phasing rhythms throughout the Kathara Line System.

3 Vertical Kathara Lines = 1-2-3

There are 3 **Primary Levels** to the structure of the Kathara Grid. **Level-1: *The Kathara 12-Tree*, Level-2: *The Crystal Seals*** and **Level-3: *The Diodic Points*.**

Level-1:The 12-Tree holds the first mathematical-geometrical program upon which Kathara Grid Levels 2 and 3 are created, and is composed of the **Kathara Centers** and **Kathara Lines.**

Level-2: The Crystal Seals are groups of 3-Dimensional Partiki scalar wave composites that regulate the rate of *Partiki Phasing* to create the base structures upon which *dimensionalization* is formed. The flow of Frequency (sequences of scalar standing-wave flashing/ cycles of Partiki Phasing) between dimensional bands and Harmonic Universes, the fixed expansion and contraction rates of Partiki, the Vibration-Oscillation and the Angular Rotation of Particle spin are all regulated by the Crystal Seals.

Level-3: Diodic/Miodic Points represent **concentrated areas of energy** that emerge at points where *dimensionalized levels of scalar grids cross over and through each other*, creating **minute vortices** of wave spectra that serve as *frequency modulation zones* (scalar flash-cycle transition points) between Dimensional Frequency Bands **Diodic Point** vortices are **White Hole** vortices that **transmit energy** into the *Particle Universe* from their counterpart **Miodic Point** vortices within the *Anti-particle Universe*. Through the structure of Dimensionalization, each Harmonic Universe, and the structures contained there within, have within their morphogenetic fields *sets of Diodic and Miodic Points* – sets of **White and Black Holes** – that regulate the flux of consciousness-energy between systems.

The entire cosmic structure is built upon the morphogenetic foundations of *interwoven Kathara Grids*. Within the structures of forms, such as planets or people, the Kathara Grid is the *Core Template of Holographic Manifestation* and controls the structure and function of all of the other *subtle and physical energy systems.*

Planetary scalar templates - **Planetary Shields** - vortices, electro-magnetics, Axiom and Ley Lines are all governed by the operations of the *Kathara Grid*. In the **human body**, personal scalar templates - **Hova Bodies** -, Chakras, Axiom and Meridian Lines and Bio-energetic Field Auric Levels, as well as the physical systems, conscious awareness and DNA, are controlled by the *personal Kathara Grid*. **In terms of generating the *Imprint for Health* within the human organism, as well as *reclaiming dormant potentials of Immortality*, the Kathara Grid is the *causal mechanism* through which such affects can occur.**

KATHARA LEVEL-2 CRYSTAL SEALS GRID

Level-2: The Crystal Seals are groups of 3-Dimensional Partiki scalar wave composites that regulate the rate of *Partiki Phasing* to create the base structures upon which *dimensionalization* is formed. The flow of Frequency (sequences of scalar standing-wave flashing/ cycles of Partiki Phasing) between Dimensional Bands and Harmonic Universes, the fixed expansion and contraction rates of Partiki, the Vibration-Oscillation and the Angular Rotation of particle spin are all regulated by the Crystal Seals.

Planetary Star Crystal Seals

In the *Planetary Kathara Grid*, the 15 Primary Star Crystal Seals exist *between* each planetary Vortex or Chakra, on the Central Kathara Line or Central Planetary Axis. The Star Crystal Seals serve as "Frequency Seals" that open or close the *flow of wave spectra* and *Frequency Bands* from one Harmonic Universe to another, by regulating and modulating the *sequences of Partiki Phasing and the Vibration-Oscillation rates of Partiki units* within the Dimensional Scale. They control the opening and closing of the *Central Vertical Kathara Line* and *Central Planetary Axis*, through which particles are *phase-locked* into their respective dimensional placements and linear time cycle orientations. Opening of the *Star Crystal Seals* releases the planetary particles and *Ley Lines* from their *dimensional phase-lock*, opening Inter-harmonic Star Gates (*wave spectra vortices*) within the Ley Lines, for *molecular transmutation and time continuum shift*, through blending the Inter-Harmonic wave spectra of the planetary morphogenetic field. The Planetary Star Crystal Seals control the opening and closing of the 3 *Vertical* Kathara Lines (and Vertical *Star Gate passageways*) of the Level-1: 12-Tree Kathara Grid with in planetary body.

Biological Star Crystal Seals

In the *human body* the 15 Primary Star Crystal Seals exist *between* each Chakra on the Central Kathara Line or Central Body Current. The *biological Star Crystal Seals* serve as "Frequency Seals" that open or close the *flow of wave spectra and Frequency Bands* from one *Harmonic of consciousness* to another, by regulating and modulating the *sequences of Partiki Phasing and Vibration-Oscillation rates of Partiki units* within the Dimensionalized scalar wave grid of the morphogenetic field. They control the opening and closing of the *Central Vertical Kathara Line* and *Central Body Current*, through which particles are *phase-locked* into their respective dimensional placements and linear time cycle orientations. Opening of the *biological Star Crystal Seals* releases the *body particles* and DNA from their *dimensional phase-lock*, opening Inter-Harmonic Star Gates (*wave spectra vortices*) within the DNA, for cellular transmutation (via particle+anti-particle *fusion*) and time continuum shift, through blending the Inter-Harmonic wave spectra. The Biological Star Crystal Seals control the opening and closing of the 3 *Vertical* Kathara Lines (and Vertical wave spectra vortices) of the Level-1: 12-Tree Kathara Grid within the biological form.

Seed Crystal Seals

Along with the 15 Primary *Star Crystal* Seals that control the *Vertical* modulation of wave spectra, there are also 15 Secondary Crystal Seals that control the HORIZONTAL Kathara Lines of the Level-1: 12-Tree Kathara Grid within the planetary and biological bodies. The *Horizontal Crystal Seals* are called SEED SEALS, they exist and serve as "Frequency Seals" *within* the planetary vortices and biological Chakras, modulating the wave spectra between Parallel (particle/ anti-particle) Dimensional Frequency Bands.

KATHARA GRID LEVEL-3 DIODIC POINTS

Level-3: Diodic/Miodic Points represent concentrated areas of energy that emerge at points where *dimensionalized levels of scalar grids cross over and through each other* creating minute vortices of wave spectra that serve as *frequency modulation zones* (scalar flash-cycle transition points) between Dimensional Frequency Bands. **Diodic Point** vortices are **White Hole** vortices that **transmit** energy into the *Particle Universe* from their counterpart **Miodic Point** vortices within the *Anti-particle Universe*. Through the structure of Dimensionalization, each Harmonic Universe, and the structures contained there within, have within their morphogenetic fields *sets of Diodic and Miodic Points* – sets of **White and Black Holes** – that regulate the flux of consciousness-energy between systems.

Planetary Diodic Points

Within the **planetary body** and morphogenetic field, **Diodic Points** are located in **geographical locations** where Inter-dimensional and Inter-harmonic Horizontal and Vertical Kathara Lines *intersect* to form small **vortices** of inter-dimensional or inter-harmonic wave spectra that serve as passageways – **time portals**- between Dimensional Time Continua or Harmonic Time Cycles. They connect planetary and stellar bodies to their *anti-particle counterparts* and intersect with Vertical Inter-harmonic Star Gates and Horizontal Inter-dimensional Time Portals, through sets of Diodic-Miodic **White and Black Holes** at the center of planetary and stellar cores.

Biological Diodic Points

Within the **biological form** and morphogenetic field, Diodic Points are located in **physical body regions** where Inter-dimensional and Inter-harmonic Horizontal and Vertical Kathara Lines *intersect* to form small **vortices** of inter-dimensional or inter-harmonic wave spectra that serve as ***gateways of consciousness*** between Dimensional Time Continua or Harmonic Time Cycles. They connect physical bodies to their *anti-particle counterparts* and intersect with the Vertical and Horizontal *relationships of wave spectra within the DNA/ RNA and bio-energetic field*, through sets of **White and Black Holes** at the center of the biological Harmonic scalar grids.

Diagonal Grid Control

The *Kathara Grid Level-3: Diodic Points* control the **Diagonal Kathara Lines**, Diagonal *inter-dimensional portals*, Diagonal *Planetary Ley Lines* and Diagonal relationships between inter-dimensional wave spectra within the biological DNA. **In *Kathara Healing*, the *Diodic Points* are used to open and close the *Diagonal Kathara Lines* for channeling higher dimensional frequency into the Level-1 Kathara Grid, to regenerate the Imprint for Health and to revitalize the Bio-energetic and physical systems.**

THE UNIVERSAL TEMPLAR COMPLEX

- The systems of interwoven Manifestation Templates within the 5 Matter Density Levels of the 15-Dimensional Universal Kathara Grid are collectively referred to as the **UNIVERSAL TEMPLAR COMPLEX.** The Manifestation Template of the human body, likewise structured upon this Primal Order, also manifests through a personal **INTERNAL TEMPLAR COMPLEX** of interwoven 15-Dimensional Manifestation Templates.

- Universal, Galactic and Planetary Scalar-wave Templates of the Universal Templar Complex are called **Scalar SHIELDS.** Shields are sets of 3-Dimensional Scalar Grids upon which the 5 Matter Density Levels of the Universal Manifestation Template manifest. A Shield is composed of the distinct 3 **Primary Flash Line Sequences**, or Partiku Phasing Rhythms, characteristic to the 3 dimensions of which the Shield is composed. The Internal Templar Complex of the human body is also organized into 5 sets of 3-Dimensional **Personal Scalar Shields**, through which the matter form and 5 Matter Density Levels of the 15-Dimensional human consciousness are projected into manifest experience.

- Through the intrinsic dynamics of synchronistic Partiki Phasing, each 3-Dimensional Scalar Shield manifests a **3-DIMENSIONAL SPHERICAL ELECTROMAGNETIC DOMAIN** that creates the energetic framework within which externalized manifest experience can take place. Within the Universal Templar Complex, these Spherical Domains form 5 separate yet interwoven Reality Fields or Harmonic Universes, each with a different level of Matter Density, rate of Vibrational Oscillation, different Angular Rotation of Particle Spin and variance in Time Cycle orientation. Within the Personal Internal Templar Complex, the Spherical Electromagnetic Domains created by synchronistic, dimensionalized Partiki Phasing form within the 15-Dimensional Time Matrix 5 separate yet interwoven **STATIONS OF CONSCIOUSNESS** called **HOVA BODIES.** The 5 **Hova Bodies** of human Manifestation Template Anatomy within the Time Matrix represent the 5 Subtle Energy **Bodies** of human bio-energetic field construction, through which human identity experiences series of **SIMULTANEOUS INCARNATIONS** within the various Time Cycles and matter density levels of the Time Matrix. **Human Evolution** is the process by which the electromagnetic frequencies and stations of consciousness of the 5 Hova Bodies progressively merge to transmute the physical matter form backward through the various Matter Density stages through a process called **TRANSMUTATIONAL DIMENSIONAL ASCENSION.**

  Each of the 5 Shields within a 15-Dimensional Manifestation Template is structured upon 3 **KATHARA CENTERS** within the core Primal Order of the Level-1 Kathara 12-Tree Grid. Each Kathara Center of the Universal Kathara Grid forms a core point of consolidated frequency called a **SIGNET Star Crystal Seal** within the 3-Dimensional scalar Shields. Within the universal, galactic and planetary Templar Complex the Signet Seals operate as **Star Gates** between the Time Cycles of the 5 Matter Density levels of the 15-Dimensional Time Matrix. Within the Personal Internal Templar Complex, each Hova Body is structured upon 3 **Kathara Centers** within the embodied Personal Kathara Grid. Each embodied Kathara Center forms a **Signet Star Crystal Seal** within the human anatomy. The embodied Signet Seals operate as **Bio-electric Windows** within the DNA-RNA, that link the Stations of Consciousness and various Simultaneous Incarnations of the identity that

exist within the Time Cycles of the Time Matrix to each other, across the illusions of time. Through the embodied Personal Kathara Grid, Scalar Shields, Signet Seals and DNA Windows, the individuated aspects of **ETERNAL IDENTITY** in time are indelibly linked in consciousness. This intrinsic linking of personal consciousness within the various simultaneous cycles of time appears to the embodied human awareness as **REINCARNATIONAL MEMORY.**

The embodied Manifestation Template of the human form is a microcosmic reflection of the Macrocosmic Universal and Cosmic Manifestation Templates. Both microcosmic and macrocosmic Manifestation Templates share, and are interwoven through, the same **Primal Structures** of the Kathara 12-Tree Scalar Grid, the 5 3-Dimensional Scalar Shields and Signet, Star and Seed Crystal Seals and the Diodic Point "Black and White Hole Sets" of energy vortices that manifest upon the Kathara Grid. Human consciousness and biology are directly and indelibly connected to the Universal Templar Complex through the **Personal Internal Templar Complex** of the Personal Manifestation Template.

HEALING AND PRIMAL FULFILLMENT

A rudimentary but operational understanding of the intrinsic structure of the embodied Personal Manifestation Template- (*the **Level-1** Personal Kathara 12-Tree Grid, **Level-2** Scalar Shields, Hova Bodies and Signet, Star and Seed Crystal Seals, and **Level-3** Diodic Points*) - and its relationship to the Universal Templar Complex, allows the embodied human consciousness the opportunity for progressive participation within the processes of **CONSCIOUS EVOLUTION** and intentional restoration of the **Organic Imprint for Health.** All manifest **DIS-EASE** originates through **distortions** in the electro-tonal scalar wave programs of the **Kathara Grid, Scalar Shields** and **Manifestation Template.** To achieve true and lasting healing, rather than suppression and transference of dis-ease to other embodied systems, distortions within the personal Manifestation Template need to be realigned from the causal Kathara Grid level through **REGENESIS** of **Primal Order** within the **Organic Imprint for Health.**

Manifestation Template healing therapeutics based upon knowledge of the Kathara Grid, simultaneously work to restore the natural intended **Primal Order** and function of the human body and consciousness, while expediting the evolutionary process of merging the stations of identity through time to facilitate fulfillment of the organic **PRIMAL PURPOSE.** The **Primal Purpose** of human evolution is the achievement of **Transmutational Dimensional Ascension** and **Co-creative Mastery** over the Personal Eternal Consciousness and Internal **Templar Complex** within the Holographic Fields of the Time Matrix. Through fulfillment of the **Primal Purpose,** humanity will regain **THE PRIMAL CONDITION** of Conscious AT-ONE-ment with the Universe and the Central Source of Creation, or **GOD.**

The 12 SIGNET Star Crystal Seals of the Universal Kathara Grid. SIGNET SEALS are the core points of consolidated frequency corresponding to each Dimension that represent the final manifest arrangement of scalar waves created through the mathematical programs of the corresponding Kathara Centers. The Signets transmit the organizational programs upon which the Scalar Shields manifest. Each 3-Dimensional Scalar Shield manifests on the electro-tonal programs of 3 Signet Star Crystal Seals. Signet Seals keep the Harmonics of Matter Density separate from each other by keeping Partiki units phase-locked into their 3-dimensional electromagnetic domain.

When released, Signet Seals serve as Star Gates, allowing the Time Cycles and Matter Density Levels within the Time Matrix to merge and blend. Signet Seals are the central control points for Scalar Shield programming.

The structure of the macrocosmic Universal Templar Complex is replicated within the microcosmic structure of the personal Internal Templar Complex upon which 15-Dimensional Human Anatomy manifests.

CHAPTER 1 HIGHLIGHTS

3

THE HOLOGRAPHIC TEMPLATE

- **External reality is a HOLOGRAPHIC PROJECTION.** Perception of **solidity** and **externalization** are determined by the **oscillation rates** between **dimensionalized units of consciousness** - ***Partiki, Partika*** and ***Particum.*** Dimensionalized units of consciousness form **Frequency Bands** that exist in specific relationships to each other. We perceive as solid the Frequency Bands that exist 1 full Dimensional Band **below** the frequencies within which the consciousness is stationed.

- **Dimensionalization** creates the structure through which consciousness can perceive the **Hologram of Externalization.**

- The human body is a **Hologram** built upon a **Holographic Template** of units of consciousness structured into **Scalar Standing-wave Grids** that represent the **Living Morphogenetic Field** blueprint upon which matter and dimensionalized consciousness manifest.

THE STRUCTURE OF DIMENSIONS

- The **Unified Field** is built upon ***dimensionalized sets*** of ***Scalar Standing-wave Points***, **Wave Strata** formed of units of consciousness that form the basis of energetic relationship through which the **Hologram of Manifestation** can be perceived.

- The human body is a construct of ***Conscious Energy***, built upon **a15-Dimensional Anatomy of Dimensionalized Scalar-Grids.** Perceived physicality emerges through the **Perceptual Lens of Dimensionalization** which provides the picture of seemingly manifest particles, atoms, molecules and physical systems.

- Understanding the nature and structure of **Holographic Reality** allows us to understand the foundations upon which the **body** is built and the **context** within which **healing** must occur.

Scalar Waves are standing wave points that emanate out of fixed points of sound (electro-tonal Partiki units), which form the **Scalar Grid morphogenetic templates** that house consciousness in **dimensionalization** for experience of manifest reality. Scalar Grids are created through **Partiki Phasing**.

Partiki Phasing is the process of ***internal fission/ expansion and fusion/ contraction*** characteristic of **Partiki Units**, through which the units perpetually break apart and replicate through *fission*, then re-merge through *fusion*. Creates a "*flashing on and off" of* ***Scalar Wave points***, or "**Flash-line Sequences**" that determine the intrinsic orientation of consciousness within the Scalar Grids composing morphogenetic fields.

Dimensions are Scalar Grids of consciousness composed of interwoven layers of Scalar waves with **varying Flash-line Sequences**, or *Frequency Bands.* **Dimensions are Frequency Bands**, or Partiki wave spectra, that exist within specific relationship to each other to form the template of Holographic Reality.

FREQUENCY VIBRATION

Frequency Bands are synchronized, repeating ***Flash-line Sequences of Partiki Phasing*** that give the appearance of manifest movement of wave spectra within a Dimensional Scalar Grid **Sub-frequency Bands** are *portions* of the *Flash-Line Sequences* that make up the whole Dimensional Frequency Band. The Frequency of a Dimensional Band is determined by the **Vibratory-Oscillation** rate of Partiki units that make up the Dimensional Scalar Grids.

Vibration is the "internal movement" or **ENERGY HOLDING** of Partiki units. **Oscillation** is the "external movement" or **ENERY EXPENDED** by Partiki units. **Vibratory-Oscillation rate is the rate at which Partiki Phasing "flashing on and off" occurs**. Vibration and Oscillation exist in **direct proportion** to each other. As Vibration increases (energy holding), Oscillation decreases (energy expenditure). Faster Flash-line Sequences (higher frequency) *expend* more energy, raise Oscillation and lower Vibration of Scalar Templates. **Higher Oscillation/ Slower Vibration creates slower electron movement around nucleus and less perceivable density of matter.**

- A **Dimension** is a full Frequency band or **full cycle** of a **Flash-line Sequence.**

- The **Universal Morphogenetic Template** is built upon ***sets of 15 Primary Flash-line Sequences*** that form **15-Dimensional Time Matrices** within which manifestation can be experienced.

- **Dimensions are organized into sets of 3,** (3 full Flash-line Sequences/ 3 Frequency Bands), that create the template through which 3-dimensional manifestation can be experienced. Each set of 3 Dimensions is called a **Harmonic Universe**. There are **5 Harmonic Universes** within a **15-Dimensional Time Matrix.**

- Each Dimension contains **12 Primary Sub-frequency Bands** (partial Flash-line Sequences).

- Partiki in each Dimension have specific set **Partiki Phasing rhythms** giving each Dimension a specific ratio of **Vibration-Oscillation.** Higher Dimensions have Faster Partiki Phasing, are higher frequency and thus have higher oscillation, lower vibration and less particle density.

- **Vibratory-Oscillation** rate within a Dimension determines the **Angular Rotation of Particle Spin** (**ARPS**), or *rotational axis of particles* in a Dimension. There is a **90-Degree Shift** in ARPS between each Dimension and a **45-Degree Reverse Shift** in between Harmonic Universes.

- Particles having varying **Vibratory-Oscillation** rates and **ARPS** allow *multiple 3-Dimensional Reality Fields* to *co-exist* within the same space while remaining perceptually and experientially **invisible** to each other.

- The **relationship between wave strata** and **variance in Partiki Phasing Flash-line Sequences** within Dimensional Frequency Bands create **Holographic Refraction** of consciousness-energy that allows perception of an externalized, 3-Dimensional **Holographic Illusion** for consciousness focused within the Scalar Grids of the 15-Dimensional Time Matrix.

UNIVERSAL AND PLANETARY KATHARA

The **Kathara Grid** is the **first level** of Partiki structure/ *Scalar Grid organization* that sets consciousness into dimensionalization. It is thus the **CORE HOLOGRAPHIC TEMPLATE** upon which the *morphogenetic field blueprint* is structured.

The *Kathara Grid* is the *Core Holographic Template* for **dimensionalization of the Unified Field** of Consciousness-Energy through which the **Microcosm** and the **Macrocosm** are structured. **All things are built upon the foundation of the *Kathara Grid.***

There are **3 Primary Levels to the Kathara Grid**. **Level-1:** ***The 12-Tree Grid*** with **Kathara Centers** and **Kathara Lines**. **Level-2:** ***The Crystal Seals*** with **Hova Bodies** and **Scalar Shields** and **Level-3:** ***The Diodic Points*** of minute energy vortex **"White and Black Hole" sets.**

KATHARA SCALAR SHIELDS AND CRYSTAL SEALS

Level-2 Kathara Grid is composed of 5 groups of 3-Dimensional **Scalar Shields and Crystal Seals** - that regulate the rates of Partiki Phasing to create the base structures upon which ~~dimensionalization is built.~~

KATHARA DIODIC POINTS

Level-3 Kathara Grid is made of sets of minute White and Black Hole energy **vortices**, made of inter-dimensional Scalar Wave spectra, that **regulate the flux of consciousness-energy** between Dimensional, Harmonic and Parallel/ anti-particle systems.

***Cosmic** morphogenetic structure* is built upon interwoven **Kathara Grids** and the Dimensionalized Scalar Standing-wave Templates they form.

- The **5 Primary Scalar Templates of Dimensionalization** are formed on **Scalar Shields** composed of sets of 3 Dimensions, which form *5 3-dimensional spheres of energy* called **HOVA BODIES**. Hova Bodies and their Scalar Shields hold consciousness-energy into **5 separate but interwoven 3-dimensional systems.**

- The **Kathara Grid** and the multiple levels of morphogenetic structure built upon it is the **CAUSAL ELEMENT** behind and within all manifestation, and thus the **CORE HOLOGRAPHIC TEMPLATE** through which the **Imprint for Health** can be restored to Biology.

- All manifest **Dis-ease** originates through **distortions** in the natural electro-tonal programs/ *Partiki unit arrangements* of the *Kathara Grid* and *Hova Body Scalar Shields*. The Kathara Grid and morphogenetic field are the **core elements** through which **lasting healing** is created. **Healing** occurs through **REGENESIS** of natural electro-tonal **programs** of the **Holographic Template.**

- **Partiki Units, Scalar Standing Waves, and Crystalline Keylons and Keylon Codes** represent the **PRIMAL SUBSTANCE** in energy that consciousness takes on in order to create the **Holographic Projection** of external manifestation.

- The **Kathara Grid, 15-Dimensional Structure, Scalar Shields, Crystal Seals, 5 3-Dimensional Harmonic Universes and Hova Bodies, Diodic Point** vortices and the subtle and dense matter energetic systems that manifest upon them represent the **PRIMAL ORDER** of mathematical and geometrical interrelationship that **Primal Substance** utilizes to orchestrate the manifest Hologram through creation of **Manifestation Templates**.

- The interwoven, ordered structures of scalar wave fields that form the **Universal Manifestation Template** of the 15-Dimensional Time Matrix are collectively referred to as the **UNIVERSAL TEMPLAR COMPLEX.**

The interwoven, ordered structures of scalar wave fields that form the **Personal Manifestation Template** of **15-Dimensional Human Anatomy** are collectively referred to as the **Personal INTERNAL TEMPLAR COMPLEX.** The Internal Templar Complex, a structural replica of the Macrocosmic Universal Templar Complex, anchors personal consciousness into the Time Matrix for the experience of the space, time and matter Hologram.

The **PRIMAL PURPOSE** of human evolution is the achievement of **Transmutational Dimensional Ascension** and **Co-creative Mastery** over the **Personal Eternal Consciousness** and **Internal Templar Complex** within the holographic fields of the Time Matrix. **REGENESIS** of **Primal Order** within the **Organic Imprint for Health** creates true healing and expedites the natural processes of human evolution.

Through fulfillment of the **Primal Purpose** humanity will regain **THE PRIMAL CONDITION** of **Eternal Conscious At-ONE-ment** with the Central Source of Creation or **GOD.**

TOPICS OF DISCUSSION

THE HUMAN BODY KATHARA AND THE MULTIDIMENSIONAL ANATOMY OF HUMAN FORM

The Structures of Manifestation and Reclaiming Our Power

In *PART-I* of this program, THE CONTEXT OF HEALING, we explored the hidden foundations of *reality structure* within which our existence takes place, the *context of relativity* through and within which *healing* occurs. We learned that the context of existence can be viewed as taking place within a **Unified Field of Energy**, and that **Energy IS consciousness and Consciousness IS energy.** In our exploration we encountered the **Partiki, Partika and Particum**, the ultra-micro-particle units of consciousness in electro-tonal form, through which the tangible structure of living **Morphogenetic Fields** are formed. In learning the foundation structures of the Unified Field of Consciousness-Energy, we come to understand that the anatomy of any form, including that of the human Body-Mind-Spirit System, is a **multi-dimensional construct** built on an ordered template of **sets of 15-Dimensions**, through which all conditions of apparent manifestation are created.

Through reviewing the underlying structures of manifest reality (units of consciousness, the ***Partiki Scalar Standing-wave Grids*** that hold consciousness into individuated dimensionalized "packages" of awareness to allow for experience of space, time, matter and form, the core ***Kathara Grid Holographic Template*** that sets the pattern of dimensionalization for consciousness to follow into the manifest experience, the ***Levels of Matter Density*** corresponding to the ordered structure of Dimensions, and the reality that **Dimensions** are *tangible constructs of energy* created through the process of ***Partiki Phasing***-the fission-fusion "flashing on and off" of scalar standing-waves composed of units of consciousness) **we have already expanded our perceptions of the nature of reality itself.** With these **simple revelations of knowledge**, we have shifted ourselves from a perspective of viewing the reality before us as one of *separate manifestations disconnected from our being* to a perspective of viewing reality as an *intricate system of interwoven consciousness, expressing in the form of standing-wave strata*, to which we are *intimately and indelibly connected*.

Suddenly we find that we cannot be "left out" of things, we cannot "be on the outside as life passes us by", that there IS no **"outside"** to which we may **stand separate**, as by the ***nature of our existence we are an intrinsic element and force of creative effect*** within the whole of creation. Through this knowledge we have begun to tap the **secrets of SELF**, as we shift from viewing ourselves as *mortal creatures trapped within a gross-matter finite physical body*, to KNOWING OURSELVES AS THE EXPRESSION OF CONSCIOUS, SENTIENT WAVE-STRATA - ETERNAL BEINGS ENSCONCED WITHIN AN ETERNAL UNIVERSE, within which **Energy-Consciousness cannot be created or destroyed, it simply changes form perpetually** We move from perceiving ourselves as finite beings of limited power to affect a world that is separate from us, to knowing that we are *walking wave-forms within a sea of interrelated wave forms*, and that the pattern of our being operates as an intrinsic part of the whole As we begin to perceive **ourselves** in terms of the ***unlimited reality of our nature***, rather than define ourselves by the **limited boundaries** of the ***manifest illusion before us***, we begin to **reclaim our power to *affect desired change*** within the contours of our lives.

Knowledge, KNOWING and the Imprint for Health

Knowledge is an agent of freedom, IF it is used to foster practical applications of change. Knowledge can also become a *perpetual quest of distraction*, through which we deny ourselves the ability to EMBRACE the experience of living as we seek outside of ourselves the answers that live within. **Knowledge is power if it is applied appropriately, it can be an agent that leads one through the door to the WISDOM that awaits on the other side.** Knowledge alone cannot provide cognition, cognition comes through the *application of applied knowledge* to provide **tangible, experiential** KNOWING, a knowing derived only through the direct experience of BEING. **In Kathara Healing™ *knowledge* is applied as a *tool* through which one can grow into the *wisdom of direct experience*** - from ***thinking* or *believing***, which are knowledge/data-based characteristics of a mind perceiving itself as *finite* - to **KNOWING**, through Direct Cognition of the Experience of BEING, which is a characteristic of a consciousness KNOWING itself as ETERNAL .

In our first lessons of **Kathara Healing**, we gained *knowledge of the Context of Healing* and the *structure* of that which exists within and around us, so that we may become more empowered to serve as a *healing force*, within ourselves and within the collective of the Whole. **But this knowledge will only become practical or useful to us if it is applied to foster the direct experience through which the wisdom of KNOWING may emerge.** Then, and only then, will we be changed...then and only then will we become *true agents of healing*. **Knowledge can help you to *understand the nature of health and healing*, but only through KNOWING HEALTH through *direct experience* will you be *healed*.** To KNOW HEALTH we must rediscover this quality within ourselves, to EXPERIENCE the *quality of wellness* that emerges as the **Imprint for Health** is reawakened within the human body. **First we must use *knowledge* to recognize that the *Imprint for Health* is there, sleeping silently within us awaiting this awakening.**

Healing the Causal Core

Fixing symptoms does not restore the *Imprint for Health*, it simply masks from view the *causal elements* through which non-health manifested. Removing the symptom *without addressing the underlying cause* simply sets the stage for the cause to *re-manifest itself* in new ways, through *new sets of symptoms*. **Each symptom you remove will give birth to another symptom if the *underlying cause* is not changed.** Kathara Healing addresses the **deepest *causal factor*** in manifestation, the Holographic Template Kathara Grid, upon which all conditions come into being. **Within the intrinsic structure of the Kathara Grid the dormant *Imprint for Health* is sleeping, and through knowledge of the Kathara and applications of its methods we can reawaken the Imprint for Health within ourselves, to progressively move into KNOWING HEALTH through the cognition of Direct Experience.**

In Kathara Healing you are provided with the knowledge you need to understand the structures upon which the *Imprint for Health* is built, for in understanding these structures you will be enabled to call the Imprint for Health into awakening. **But it is through the APPLICATION OF KATHARA TECHNIQUE that you will AFFECT CHANGE. The technique applications offered in Kathara Healing allow you to "bring the knowledge home" to the core of its usefulness, the ability to lead you into the *direct experience of health-ward change*.**

Elements of Healing

In **PART II THE ELEMENTS OF HEALING**, we will apply the knowledge of the *Context of Healing* that we acquired in *PART I*, directly to its relevance in terms of the **HUMAN BODY**. We will now explore **Kathara Mechanics** as they apply directly to the human system, and you will gain the knowledge of your **15-Dimensional Anatomy** through which you may then effectively utilize **Kathara Mechanics Techniques** to begin your journey into the **EXPERIENTIAL REALITY OF HEALING**. We will discover the long forgotten potentials of the ***Planetary Bio-feed Interface System™*** and how to receive energy for healing directly from the Kathara Grid of the Earth. We will explore the real processes within and behind the experience of growth through time, so that we may finally identify the **true causal element intrinsic to the *degeneration* and *death* of the body.** We will come to understand the functions of the Body-Mind-Spirit System as they are **INTENDED** to operate, to identify the areas in which malfunction is occurring, so that we may *remedy the casual factors* to progressively restore the **INTENDED INTEGRITY OF THE BODY-MIND-SPIRIT SYSTEM. In PART II we will reclaim our knowledge of our *multidimensional anatomy*, and rediscover the buried secrets of awakening the *Imprint for Health*.**

MAHARIC SHIELD

The Imprint for Health and the *Maharic Shield*

Restoration of health within the body is a progressive endeavor that takes time. Portions of the Body-Mind-Spirit System that have been malfunctioning must readjust to a new process of function that will progressively work its way up from the core **Kathara Grid Holographic Template**, into the **Bio-energetic Field, Chakra System** and **DNA**, to progressively *reset* the **Imprint for Health** within the Body-Mind-Spirit System. **The Imprint for Health sleeps soundly now within a portion of the multidimensional anatomy called the *MAHARIC SHIELD*.** The Maharic Shield is a buried treasure of **REGENERATION and REVITALIZATION** of the human organism, as it is the key to *recoding the human Kathara Grid* back into its original Imprint for Health. **The *Imprint for Health* is a tangible construct of energy that is located within the structure of the *Maharic Shield*.** In calling these dormant energy systems into activation within the body, one has the opportunity to restructure the causal level of malfunction, and to recode the Holographic Template upon which malfunction manifests.

Reciprocal Reflection and the Kathara Grid

All conditions of dis-ease within the Body-Mind-Spirit System *share a common core of causality - distortions of the Kathara Grid* upon which manifestation is built. All symptoms affect the Body, Mind and Spirit *simultaneously*, malfunction in one aspect of being will have its *reciprocal reflection* in the other aspects of being, as the symptoms emanate from distortion in the *Kathara Core*, upon which all aspects of being simultaneously manifest.

As we work with restoring integrity to the *Holographic Template Kathara Grid*, we are thus creating *simultaneous restoration through Reciprocal Reflection* within the *Body*, the *Mind* and the *Spirit* (the CONSCIOUSNESS that makes up the substance of our multidimensional anatomy and identity).

The Maharic Shield and Whole-Being-Healing

In activating the *Maharic Shield* to regenerate the *Imprint for Health*, you will have change occurring within multiple levels of being. Your **BODY** will begin to reflect change as dis-ease-causing distortions are released from the *biological imprint*, and a higher level of order is reestablished within the ***atomic structure***. Your **MIND** will begin to reflect change as dis-ease-causing distortions in your **thoughts, ideas and beliefs** are released from the *mental body* awareness. Your **SPIRIT**-consciousness, will reflect change, as divisions between your embodied awareness and the expanded portions of your multidimensional awareness will begin to dissolve, and you will become progressively more able to embody greater states of *cognition, creativity and awareness*. ***Kathara Grid recoding* through the use of the *Maharic Shield* will set in motion the processes of WHOLE BEING HEALING, as the *Imprint for Health* is progressively reawakened and restored within the Body-Mind-Spirit System** Activation of the **Maharic Shield** within the personal Kathara Grid will lay the foundations for progressive, lasting and powerful restoration of the **Imprint for Health** within your Body-Mind-Spirit System.

Learning to activate the Maharic Shield to restore the Imprint for Health requires a bit of **knowledge** regarding *Elements* of the hidden anatomy of multidimensional being, and application of specific **energetic mechanics** that will directly affect these hidden structures of energy. We will begin PART II with a discussion on the **ELEMENTS OF HEALING as they apply to *developing the skills required* to *create the condition of Maharic Shield activation*, through which the *Imprint for Health* can receive its wake-up call.**

THE PLANETARY BIO-FEED INTERFACE SYSTEM™

Awakening the Personal and Planetary Templar Complex Connection

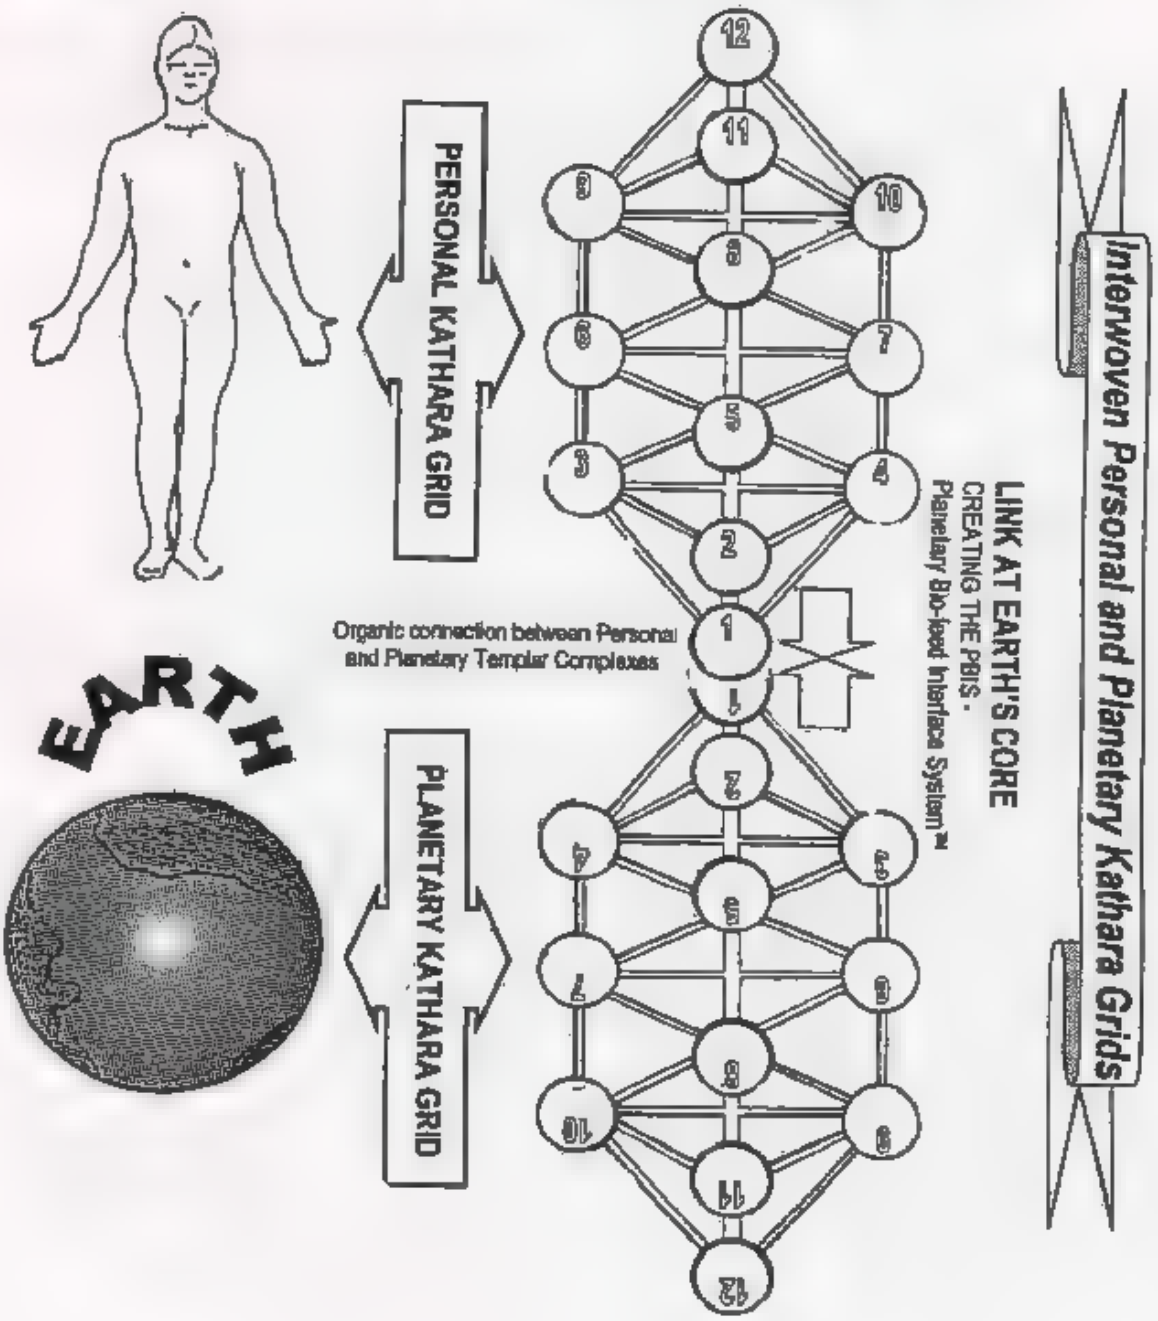
Interwoven Personal and Planetary Kathara Grids

The core Holographic Templates of both the *personal* and the *planetary* morphogenetic fields are built upon a Scalar standing-wave *Kathara Grid*. As the morphogenetic fields of **species** are interwoven into the larger morphogenetic field of the **planet** they inhabit, there is a direct energetic connection between the **Kathara Grids of individuals and that of the planetary body. This connection between personal and planetary Kathara Grids is called the *Planetary Bio-feed Interface System*™, - PBIS.** For thousands of years the **planetary Kathara Grid** has carried **distortions** in its natural pattern that have rendered the **PBIS** primarily inoperable. **Kathara distortions in the planetary morphogenetic field blocked the human's innate ability to draw energy for regeneration and revitalization from the planetary morphogenetic field.**

When the human Kathara Grid system is working properly there is a *natural sympathetic rapport* between the personal and planetary Kathara Grids that keeps the *Imprint for Health* within the human *Maharic Shield* functioning properly. Due to the distortions of the planetary Kathara, the human Kathara developed **reciprocal distortions**, which created **blockages between the Maharic Shield Imprint for Health and the other functional portions of the human Kathara.** The blockages with the human Kathara manifested as distortions within the natural function of the **DNA** and bodily systems, disarming many of the natural *self-regenerative functions* organic to human biology and rendering the human form more susceptible to disease and malfunction of the biological system. As there is a **Reciprocal Reflection** of patterns between the Body, Mind and Spirit aspects of the human organism, due to their *common causal element* of the *Kathara Grid Holographic Template*, **distortions within the DNA and physical body function also become reciprocal distortions** within the **mental body** and its **perceptual facilities**, and within the **Spiritual Body**, as the Kathara distortions *block and distort* the organic cycles through which higher dimensional aspects of consciousness would progressively embody within and expand the human form.

The Planetary Bio-Feed Interface System™

As the morphogenetic fields of species are interwoven into the larger morphogenetic field of the planet they inhabit, there is a direct energetic connection between the Kathara Grids of individuals and that of the planetary body. This connection between personal and planetary Kathara Grids is called the *Planetary Bio-feed Interface System* ™, - PBIS.



Return of the PBIS - Gift of the 21st Century

The secrets of utilizing the PBIS have been passed down within the generations of the Melchizedek human families who brought these teachings to Earth long ago, kept hidden from public display until a day when the PBIS could once again become operational through evolution and clearing of the planetary Kathara Grid. These teachings are now being returned into the public arena because **progress has been made in restoring the integrity of the planetary Kathara Grid system. For the *first time in many thousands of years* the potentials of healing held within the PBIS can be returned to humanity, and the PBIS can now be *activated within the personal biology* to reawaken the *Maharic Shield* and its *Imprint for Health*, within the human Kathara System.** Reawakening the *PBIS* and the *Maharic Shield* within the human body *allows the personal Kathara Grid to open into the planetary Kathara Grid*, through which the now-functional **Holographic Template of the planetary Kathara can be used to RESET the original imprint of function within the personal Kathara,** for accelerated regeneration of the **Imprint for Health** within the human form.

HIEROPHANT SYMBOL CODE

The *Hierophant Symbol Code* PBIS Trigger

The first application of the PBIS that we will employ in Kathara Healing is utilizing the energies flowing through planetary Kathara to reawaken the Maharic Shield within human anatomy. The process of opening the PBIS within the personal morphogenetic field involves using a **specific scalar standing-wave-guide GEOMANCY - a consolidated inter-dimensional *frequency pattern* that triggers release of the *frequency seals* (Kathara Level-2 Crystal Seals) on the presently dormant 10th, 11th and 12th Chakras, opening the human Bio-energetic Field and Kathara Grid to the Kathara Grid, Bio-energetic Field, Ley Lines and energy Vortices of the planetary morphogenetic field.** The wave-guide Geomancy containing the frequencies to activate the PBIS and the Maharic Shield can be directed by the human consciousness **in the form of a visually created symbol code. This symbol code is called the HIEROPHANT.** In **TECHNIQUE # 2: *The Maharic Seal and the Liquid Light Cleanse*,** to be explored in ***PART III. of Section I*,** the **Hierophant Symbol Code will be used to bring the Maharic Shield** and the **PBIS** out of dormancy, in order to **RESET the Imprint for Health** within the operational Holographic Template of the human **Kathara Grid.**

The *Hierophant Symbol Code Scalar Wave Guide* for Kathara Reprogramming

Thoughts and **Images** formed by the mind represent **small morphogenetic fields** with minute **Kathara Grids**, that become interwoven into the larger morphogenetic field and Kathara Grid of the human multidimensional anatomy. ***THOUGHTS ARE THINGS*** **in terms of the bio-energetic reality of the body and the Kathara Grid;** ***thoughts become translations*** **of electro-tonal** ***"digital" instructions*** **within the human bio-energetic field, and directly enhance or detract from the natural function of the electro-tonal programs of the human Kathara Grid.** In recognizing the **power of thought** ***as the power of creation of scalar standing-wave grids***, we can begin to apply that power effectively in regeneration of the Kathara Holographic Template, by **directing needed** ***electro-tonal instructions*** **for awakening the** ***Maharic Shield*** **into the embodied Kathara Grid.** The **Hierophant Symbol Code**, used in the form of a **visualized image**, sets a **powerful electro-tonal program** within the human Kathara, a program that **triggers the opening between the human Kathara and the PBIS**

The ***Hierophant Symbol Code*** **appears in the form of a** ***Pale Silver Merkaba Star*****, a six-pointed "Star of David", which represents the** ***electro-tonal program*** **of the** ***11th and 12th-Dimensional aspects of the Universal Kathara Grid.*** **The frequency wave spectra** perceived by the human mind as **Pale Silver** represents the **electro-tonal program** of the ***Dark Silver*** *primary frequency band of the 11th-Dimensional wave spectra, combined with the* ***Pure White*** *primary wave spectra of the 12th-Dimensional frequency bands* Using the **Hierophant Symbol** wave guide to direct *frequency and electro-tonal instructions* through the Kathara Grid, creates a ***scalar standing-wave pattern of 11th and 12th Dimensional frequency*** **within the personal Kathara Grid,** the frequencies in which the **original** ***electro-tonal instructions*** **for the** ***Imprint for Health*** are stored. By **awakening the 11th and 12th Dimensional frequencies within the human Kathara and bio-energetic field, all** of the *lower frequencies* within the Kathara electro-tonal program become **modulated and recoded** into their *organic, undistorted pattern*, by the *stronger wave influence* of the higher 11th and 12th Dimensional frequencies, which *contain within themselves* the organic imprint for the *entire dimensionalized wave spectra* of the dimensions that *oscillate below* them.

Ease of Kathara Healing Techniques

Through using the *Hierophant Symbol Code* we awaken the restorative frequency patterns within the *Maharic Shield* and the *PBIS*, beginning the process of regenerating the organic *Imprint for Health in* the human Holographic Template Kathara Grid. The restorative affects of using the *Hierophant Symbol Code* to activate the *Maharic Shield* and the *PBIS* will occur upon using the *Kathara Mechanics* provided in Technique # 2, *whether or not* an individual understands the realities in frequency that are taking place through using this process. Therefore, the complex mechanics of activating the *Maharic Shield* to reset the *Imprint for Health*, can be *reduced to simple instructions* for the direction of energy. Though the theory of Kathara Healing is highly *detailed and complex*, the Techniques by which *active results are achieved* employ simple exercises in *Mental Symbol Code Visualization* and mental energy direction, coupled with the application of simple *Kathara-stimulating massage* to specific corresponding body points. **The *Techniques* of Kathara Healing and regeneration of Kathara Grid integrity are *so simple* that even a young child can learn to actively employ them, to achieve the desired result of restoring the *Imprint for Health*.**

MORPHOGENETIC EXPANSION

Frequency Accretion, Growth, Age Rhythms, Degeneration, Death and Kathara Blockage

Frequency Accretion and Growth Through Time

The morphogenetic field of the human body evolves through time via the process of **Frequency Accretion**. The human morphogenetic field *exists within* the larger morphogenetic field of the planetary and universal dimensionalized **Unified Field of Consciousness-Energy.** Through the inherent function of the **Kathara Grid** and the multi-layered systems of energy built upon it, *progressively more frequency and corresponding wave spectra* from the *dimensionalized Unified Field* are **drawn into** the *personal morphogenetic field* to create **progressive expansion of the morphogenetic imprint and its resulting progressive *expansion of consciousness* and *growth of the physical body* in time.**

Kathara blockages and Organic Growth Cycles

Blockages and scalar wave distortions within the **Kathara Grid** *impede* the natural functions of **Frequency Accretion**, and so **distort the intended natural processes of consciousness expansion and growth of the body form in time.** When the Kathara Grid is functioning properly, there are **certain *specific points in linear time* when *specific aspects of morphogenetic expansion* via Frequency Accretion are intended to occur. The original cycles of growth and expansion inherent to the human form** occurred between **1. fetal integration through age 11-12, 2. age 11-12 through age 22, 3.age 22 through age 33 and 4. age 33 through age 44**, at which time the human morphogenetic field would reach its **full expansion**, the DNA would reach its organic **12-strand activation**, the identity would expand to hold **12-dimensionsof consciousness** within embodiment, and the organism would have **full conscious control of *manifesting and de-manifesting* its 15-Dimensional anatomy in time The body forms of the original human imprint are IMMORTAL** - deterioration and death were **not a part of the original *Imprint for Health*** within the human Bio-Spiritual makeup. Through understanding how the natural process of growth and expansion in time were INTENDED to work, we can also understand the core reason for the manifestation of the SYSTEMS MALFUNCTIONS - the conditions of biological and mental deterioration that lead to the condition of **BIOLOGICAL DEATH** - a condition that is **INORGANIC TO THE ORIGINAL GENETIC IMPRINT OF THE HUMAN FORM.**

The First Natural Expansion Cycle

In the original human genetic blueprint, the frequencies and dimensions of consciousness corresponding to the wave spectra of Dimensions 1, 2, and 3, were intended to accrete or draw into the morphogenetic field between fetal integration and the age of 11-12. At the age of 11-12 the wave spectra of which the body was composed would take a leap in frequency, beginning the process of expanding the morphogenetic field to hold the higher frequency wave spectra of Dimensions 4, 5 and 6.

The *expansion of the morphogenetic imprint* is reflected in the *DNA*, and *chemical and hormonal balances* within the body, which govern the function of the *metabolic rate* and the operation of molecular function. The first cycle of *morphogenetic expansion* into the wave spectra of Dimensions 4, 5 and 6, represents the process of SOUL INTEGRATION for the embodied identity, and begins the natural process of de-densification of matter - *by lowering of morphogenetic vibration, raising of oscillation rate and frequency, and shortening of the wave-length of the scalar waves that compose the matter form and consciousness.* These changes in *intrinsic wave characteristics* have their reflection within the behavior of *atomic structure*- as the morphogenetic field wave spectra raises in frequency, the *electron spin* around the atomic nucleus *slows*, thereby increasing the electrical nature, and reducing the magnetic orientation of atomic function, *transmuting the perceivable matter substance* of the cells to a *less dense* state of being. Completion of the *Soul Integration process* marks the transmutation of *Carbon-based Gross-matter density* into the *Carbon-Silica based Semi-etheric matter density*, and the expansion of embodied awareness from 3 to 6 Dimensions of consciousness.

Completing Expansion

This process of *progressive morphogenetic field and consciousness expansion* and *resulting de-densification of biological matter* continued throughout the remaining *expansion cycles*. Age 22 to age 33 marked the accretion of the 7th, 8th and 9th -Dimensional wave spectra, the process of *Over-Soul Integration*, expansion into a 9-Dimensional consciousness and transmutation to a *Silica-based Etheric matter density biology*. Age 33 to 44 marked the accretion of the 10th, 11th and 12th Dimensional wave spectra, the process of *MAHARIC INTEGRATION*, expansion into a 12-Dimensional consciousness and transmutation out of biology into the Crystalline Liquid Light wave form of Pre-matter substance. At this point the identity is considered a full AVATAR and has complete control over *manifesting and de-manifesting* the Holographic Projection of its desired body imprint in time.

Growth Rates and Morphogenetic Expansion

ORIGINAL HUMAN GENETIC IMPRINT

PERSONALITY INTEGRATION (Telluric Integration) – **BIRTH - AGE 12**
Expands the Morphogenetic Field through accreting the frequencies of Dimensions 1-3 and activating DNA Strand Templates 1-3.

SOUL INTEGRATION (Doradic Integration) – **AGE 12 – 22**
Expands the Morphogenetic Field through accreting the frequencies of Dimensions 4-6 and activating DNA Strand Templates 4-6.

OVERSOUL INTEGRATION (Teuric Integration) – **AGE 22 – 33**
Expands the Morphogenetic Field through accreting the frequencies of Dimensions 7-9 and activating DNA Strand Templates 7-9.

CHRISTOS AVATAR INTEGRATION (Maharic Integration) –**AGE 33 – 44**
Expands the Morphogenetic Field through accreting the frequencies of Dimensions 10-12 and activating DNA Strand Templates 10-12. Allows full Cellular Transmutation and Dimensional Ascension to the 12th Dimensional Pre-matter Liquid Light HYDROPLASMIC Substance Liquid Silica) and conscious mastery over 12 Dimensions within the 15-Dimensional Time Matrix. A "Christed" Immortal Being possessing non-polarized Unity or Christ Consciousness.

CONTEMPORARY HUMAN GENETIC IMPRINT

PERSONALITY INTEGRATION (Telluric Integration) – **BIRTH – DEATH**

SOUL INTEGRATION (Doradic Integration) – KATHARA BLOCKAGE

OVERSOUL INTEGRATION (Teuric Integration) – KATHARA BLOCKAGE

CHRISTOS AVATAR INTEGRATION (Maharic Integration) – KATHARA BLOCKAGE. Deterioration and Death of the physical body occur rather than progressive frequency accretion for Cellular Transmutation and Dimensional Ascension. Distortions in the personal Kathara Grid and Scalar Shields manifest in the DNA Template and block natural inflow and Morphogenetic Field accretion of frequency from the higher dimensional stations of identity Conscious awareness remains polarized in Duality Consciousness and physical body is rendered finite and vulnerable to dis-ease.

THE 4 NATURAL CYCLES OF MORPHOGENETIC FIELD EXPANSION

THE *4 CYCLES OF MORPHOGENETIC FIELD EXPANSION* REPRESENT THE *ORIGINAL ORGANIC PROCESS* BY WHICH THE HUMAN ORGANISM WAS *INTENDED* TO EVOLVE THROUGH TIME.

The Inorganic Condition of Human Illness and Death

The processes of biological and mental deterioration and resulting DEATH of the biological form, which we presently view as FACTS OF LIFE regarding the process of human passage through linear time, ARE NOT ORGANIC CONDITIONS TO THE HUMAN ORGANISM. Other life forms, such as the **animal kingdoms**, that manifest through morphogenetic fields having *less than 12 Kathara Centers active* within their Kathara Grid, cannot undergo the full process of bodily transmutation into Pre-matter substance, and cannot fully expand their embodied awareness into 12th-Dimensional consciousness. For the **animal kingdom**, the process of evolution is also Frequency Accretion, but it is achieved through expanding one's body form to its full capacity, then entering the consciousness into a morphogenetic imprint with a bit higher capacity, until eventually the consciousness can accrete enough frequency to take it into the next level of matter de-densification and consciousness expansion. **Death is natural to the organic animal kingdom.**

Humans were intended to undergo the *full spectrum of morphogenetic expansion and cellular transmutation* WITHIN ONE ETERNAL BODY IMAGE, that was built upon a program of *full activation* of the *12 Kathara Centers* of the Kathara Grid. Death is NOT natural for humans.

Kathara Grid Blockage and Molecular Compaction

The process of *biological deterioration* and progressive movement toward biological DEATH is the *direct result* of unnatural BLOCKAGES WITHIN THE KATHARA GRID HOLOGRAPHIC TEMPLATE. Blockages within the Kathara Grid program presently block the process of Frequency Accretion **at the beginning of the First Expansion Cycle**- as accretion of the 4th, 5th and 6th Dimensional frequencies representing the *Soul Integration Process* is blocked within the Kathara Grid and thus within the biological DNA, the incoming frequencies of the Soul Level consciousness **push on and CRUSH the morphogenetic field**, rather than *expand the morphogenetic field into a higher level of frequency holding*. When the incoming scalar wave frequencies of Soul Integration begin to crush the morphogenetic field, a condition called **MOLECULAR COMPACTION** is created.

MOLECULAR COMPACTION -

over exposure to scalar wave spectra **and its resulting** ***fragmentation of the morphogenetic field and Kathara Grid*** **-** **IS THE *ONLY TRUE CAUSE OF DIS-EASE*, AND THE *CORE CAUSAL ELEMENT* OF THE *UNNATURAL DEATH EXPERIENCE*.**

The *Maharic Shield* and Human Healing

Within the imprint of the **MAHARIC SHIELD** of human morphogenetic structure, is the dormant imprint of the *10th, 11th and 12th Dimensional electro-tonal programs* that represent the **ORGANIC PROGRAM OF THE KATHARA GRID. Through activation of the Maharic Shield** - the scalar standing-wave template that corresponds to the Pre-matter Liquid Light fields of Dimensions 10, 11 and 12 - **blockages within the Kathara Grid Holographic Template, that result in the genetic mutation that causes Molecular Compaction, can be progressively realigned with the original IMMORTAL IMPRINT FOR HEALTH.** Though it takes time and consistent application of **Kathara Healing Technique** to fully regenerate the **Imprint for Health and Immortality** within the 15-Dimensional Levels of human anatomy, working to heal distortions within the Kathara Grid through **MAHARIC INFUSION** (running the frequencies and wave spectra of the *Maharic Shield* through the Kathara Grid, Bio-energetic System and Body), **can create progressively more observable affects in creating and maintaining health, and slowing the bodily deterioration process, within the normal life span of an individual.**

Potentials of Kathara Healing

The true beauty and significance of *Kathara Healing* is that it can not only do wonders for creating and maintaining *higher standards of health* within the average human life span, but within the applications of KATHARA MECHANICS lies the *promise and potential* of human biological IMMORTALITY and the fulfillment of SPIRITUAL ACTUALIZATION and evolution to MASTERY- through progressive embodiment of and conscious mastery over our 15-Dimensional Anatomy and the creative process of Holographic Projection within the dimensionalized fields of space, time and matter.

KATHARA HEALING HOLDS THE KEY TO HUMANITY RECLAIMING ITS ANCIENT HERITAGE OF THE ETERNAL SELF AND IMMORTAL AT-ONE-MENT WITH SOURCE.

LEVELS OF HUMAN ANATOMY- THE EMBODIED KATHARA

The Human Body Kathara Grid

The Kathara Grid of the human body is the *Core Holographic Template* upon which the morphogenetic scalar-wave template, and all other levels of identity and form are built. It is the **"Control Center"** for manifestation of the human being.

LEVEL-1 KATHARA 12-TREE GRID

THE KATHARA GRID LEVEL-1: 12-TREE

Level-1 Kathara Grid 12-Tree: The first level of the Kathara Grid **sets the *pattern for dimensionalization of consciousness* through which identity can enter the Time Matrix for the Holographic Experience of manifestation. The Kathara Grid 12-Tree is the first wave spectra composite through which consciousness anchors itself into dimensionality in order to experience manifestation of form.** All things within dimensional structure have the Kathara 12-Tree at the core, but not all manifest forms have the full pattern of the 12-Tree *activated* within their morphogenetic pattern. The 12-Tree is composed of 12 **Kathara Centers** or *Kathara Spheres*, and **15 Kathara Lines.**

KATHARA CENTERS

The **Kathara Centers** are *crystallizations of Partiki units* that hold *composite electro-tonal energy signatures for each dimensional band.* The electro-tonal programs of the Kathara Centers hold the **foundation template** upon which the biological **DNA** will manifest.

KATHARA LINES

The **Kathara Lines** are sequences of *Partiki Phasing rhythms* ("flashing on and off"/fission-fusion sequences) that *transfer the dimensionalized electro-tonal programs of the Kathara Centers between each center* , to form the **core level of the scalar standing-wave template** upon which subsequent levels of the Kathara Grid, Bio-energetic System and body will build.

KATHARA HEALING AND THE LEVEL-1 12-TREE GRID

The *Kathara Centers* and *Kathara Lines* are used in *Kathara Healing* to realign and awaken the original 12-Dimensional imprint within the human morphogenetic field, in order to *reinstate the original imprint for Health and Bio-Spiritual Mastery* within the operational evolutionary blueprint for the Body-Mind-Spirit System of the Human form.

Level-1 Kathara 12-Tree Grid

LEVEL-2 KATHARA CRYSTAL SEALS GRID

Level-2: Crystal Seals and 15 Primary Chakras

The Crystal Seals are groups of 3-Dimensional Partiki scalar wave composites that regulate the rate of Partiki Phasing to create the base structures upon which dimensionalization is formed. The *flow of frequency* between dimensional bands and Harmonic Universes, the fixed expansion and contraction/ fission and fusion rates of Partiki, the *Vibration-Oscillation Rates* of Partiki and the *Angular Rotation of Particle Spin* are all regulated by the Crystal Seals.

Star Crystal Seals are positioned between the Chakra Centers along the **Central Body Current**, and **Seed Crystal Seals** are positioned between them, and serve as the *point of composite frequency* out of which the **15 Primary Chakra Center Vortices** emerge.

HOVA BODIES AND SHIELDS

5 Dimensionalized Hova Body Shields and 5 Auric Capsules

Hova Bodies are **3-Dimensional, tri-tonal scalar standing-wave grids** composed of numerous sets of **Crystal Seals** that form the electro-tonal program upon which the **Kathara Grid Level-3: Doradic Points** emerge. **The Hova Body Grids are called Crystal Shields.** The **5 Dimensionalized Hova Bodies** are structured as **5 Concentric Spheres** of energy that *surround and permeate the human body* and serve to *hold the embodying consciousness into dimensionalized levels* through which the **Holographic Projection** of *experienced manifestation* can occur. The Hova Bodies form **"tissue capsules"** of *subtle energy* around **each 3-dimensional Harmonic** level of the **Bio-energetic Field**, within which the **15 Dimensional levels** of the **Auric Field** are stationed.

In Kathara Healing, restoration of the original **4th-Harmonic Maharic Shield** *Imprint for Health* is used to *realign and clear blockages* from the lower Hova Bodies and corresponding **Kathara Centers** and **Kathara Lines**, to awaken the **Imprint for Health and Spiritual Actualization** within the Body-Mind-Spirit System.

HOVA BODIES, SHIELDS & SIGNETS

5 Ariea Hova Bodies, Kathara Grid and Harmonics of Manifestation

Hova Bodies are *tri-tonal scalar grids* that form *spherical energy "tissue capsules"* around each 3-dimensonal level of the multi-dimensional identity. Within 15-Dimensional Human Anatomy, there are **5 Dimensionalized Hova Bodies** called **Ariea Hova Bodies**. The Ariea Hova Bodies form out of the electro-tonal programs held within the **Kathara Centers** of the *Level-1 Kathara 12-Tree Grid*. The *12th Kathara Center* of the Kathara 12-Tree Grid connects to the *12th Kathara Center* of the *Universal Kathara Grid*, just as the *1st Kathara Center* in the personal Kathara connects to the *1st Kathara Center* in the *Planetary Kathara Grid*. *The 12th and 1st Kathara Centers, the personal Kathara Grid and morphogenetic field connect to the planetary and universal morphogenetic fields*. **When working with the Hova Bodies we first focus upon the lower four , as these must be functioning properly before the 5th Hova Body and its connection to the Universal Kathara Grid can be activated within the Bio-energetic Field.** Four of the 5 Ariea Hova Bodies are directly connected to the Crystal Seals within the human body **Central Body Current** on a **HORIZONTAL PLANE**. These first **4 Hova Bodies** correspond to each of the **12 Kathara Centers** of the personal Kathara 12-Tree Grid. **The Hova Bodies represent Harmonics of Manifestation.**

Hova Bodies, SIGNETS and SHIELDS

Each Hova Body **emanates outward** from a set of **3 Kathara Centers** and their corresponding **Crystal Seals. The *core template of the Hova Body* is a *Triad of Crystalline Spheres* that connect directly to the *3 Kathara Centers* to which they correspond.** This Triad of Crystal Spheres is called a **SIGNET. The Signets are the smaller, *fixed, consolidated frequency points*: out of which the *Seed Crystal Seals* that form the *Chakras* manifest.** The Signets and the smaller Crystal Seal formations that manifest through them, create a **disc** of spinning, **horizontal wave spectra** that direct the function of *Hova Body merger*; these scalar discs are the scalar templates upon which the Hova Bodies manifest, and are called **SHIELDS.**

The *Shields and the Signets* that direct them are considered to be the *core of the Level-2 Crystal Seals Kathara Grid*. Each of the 4 Hova Bodies of the first 12 Dimensions form upon a set of **3 Signets**. Each **Signet *transmits a flash-line*** (Partiki Phasing Sequence) **on a different axis**, one **vertical**, one **horizontal** and one **diagonal**, forming a **3-plane projection of flash-lines** that form the base of the **3-dimensional Holographic projection.**

Kathara Centers and Activating the Signets and Shields

In each set of *3 Signets* at least one corresponds to the *Central Vertical Kathara Line*, the control center of the Level-1 Kathara Grid 12-Tree. The Signets and Shields can therefore be used to direct the function of the Kathara Grid 12-Tree and all built upon it, and the Kathara Centers can be used to trigger activation of the Signets and Shields within the Hova Bodies. When a **Signet is activated** its corresponding **disc or *Shield* begins to spin**. When a certain spin rate of the Shield is reached, it triggers the activation of the next set of Signets in the next Harmonic setting the next Shield to spin. **When 2 *Shields activate* and reach a reciprocal spin rate the *tissue capsule* separating the 2 corresponding Hova Bodies releases and the *2 Hova Bodies merge*, which is the process by which *Higher Identity Integration* occurs. It is also the process by which the *Merkaba Vehicle* is activated within the Bio-energetic field.** When all four Shields activate and spin, the body matter is able to transmute out of matter density and into pure wave form, which represents Maharic/ Avatar Integration for the identity.

THE 5 HOVA BODY SHIELDS

The Hova Bodies and the Shields

Each Hova Body contains at its core a Shield through which the Hova Body functions are governed The **Nada Hova Body** of dimension 1-2-3 forms on the **TELLURIC SHIELD**, its control center being the 2nd Kathara Center that is composed of 2nd Dimensional Frequencies. The **Alphi Hova Body** of dimensions 4-5-6 forms on the **DORADIC SHIELD**, its control center being the DORA or Archetype of the 5th Dimensional Frequencies The **Betcha Hova Body** of dimensions 7-8-9 forms on the **TEURIC SHIELD**, its control center being the TEURA or Monad of the 8th Dimensional Frequencies. The **Mahara Hova Body** forms on the **MAHARIC SHIELD**, its control center being the *Mahunta* or Avatar Core of the 11th Dimensional Frequencies. The 5th Hova Body, the **Raja Hova Body**, forms on a set of Signets that correspond to **stellar points** within the **Universal Kathara Grid.** Its Shield, the **RISHIC SHIELD**, rotates on a **vertical plane** and it comes into activation within the personal morphogenetic field only after the four lower Shields have transmuted the body into Pre-matter Liquid Light of the MAHARIC SHIELD. **In terms of healing and advancing evolution of the earthly identity, the first four Shields are of greatest significance.**

Hova Bodies, Shields, Signets and Healing

In all healing application knowledge of the Shields is of great value, for any manifest condition of disorder will have its first manifestations within the Kathara Grid and the Shields that form upon it. The process of healing, therefore, is the process of *restoring the Shields to their proper order* so they may activate to build the Merkaba Vehicle through progressive Higher Identity Integration. **In Kathara Healing we begin with the MAHARIC SHIELD,** the Shield that contains the *pure form of electro-tonal programs upon which the consciousness first entered matter density* through the Pre-matter Liquid Light Fields of the 4th Harmonic - Dimensions 10-11-12. **Through activating and progressively drawing in the highest 11th and 12th-Dimensional frequencies of the Maharic Shield, distortions in all lower Shields can be more rapidly realigned with their original pattern.** When we work with the **Kathara Centers** of the Level-1 12-Tree Grid we simultaneous create change within the **SIGNETS** that direct the function of the **SHIELDS**, and so we are able to more rapidly facilitate appropriate realignment of the Shields and Hova Bodies. **THE CORE OF HEALING IS RESTORING THE HOVA BODIES AND THE SHIELDS UPON WHICH THEY MANIFEST TO THEIR ORIGINAL INTEGRAITY OF ORDER.**

Shields, Signets and Diodic Points

Through the interaction and interplay of multi-harmonic frequency between the **Shields, Signets** and their **Crystal Seals, Kathara Grid Level-3- DIODIC POINTS** come into manifestation, to fill out the 3-plane, 3-dimensional "armature" of scalar waves and flash-lines, upon which more Partiki units will cluster and crystallize to build up the particle base for form manifestation. The **Diodic Points** within the body and morphogenetic field connect directly to the Shields of the Hova Bodies in areas where the *flash-lines and scalar points* within the Crystal Seals of the Shields *align with and pass through each other.* **Flash-Lines from one Hova Body Shield crossing through those in other Hova Body Shields form *COORDINATE POINTS*, or "Gateways" of energy-consciousness *transference* through which frequency and awareness from one Hova Body and Identity level can cross through into other Hova Bodies and Identity levels.** The *Coordinate Points*, or *regularly scheduled points of flash-line intersection*, form **tiny vortices of energy** , which keep energy and consciousness flowing throughout the multiple dimensional levels of identity and anatomy. **The vortices of energy created by the Coordinate Points of flash-line sequences are called *DIODIC POINTS* and they have a counter reflection within *anti-particle manifestation* called *MIODIC POINTS.*** Diodic and Miodic Points are sets of **White and Black Holes** that circulate energy throughout the anatomy.

LEVEL-3 KATHARA GRID DIODIC POINTS

Diodic and Miodic Points

Diodic/ Miodic Points represent *concentrated areas of energy* that emerge at points where *dimensionalized levels of scalar grids cross over and through each other*, creating minute vortices of wave spectra that serve as frequency modulation zones (*scalar flash-cycle transition points*) between Dimensional Frequency Bands. Diodic Point vortices are White Hole vortices that *transmit energy* into the Particle Universe from their counterpart **Miodic Point** vortices within the Anti-particle Universe. Through the structure of Dimensionalization, each Harmonic Universe, and the structures contained there within, have within their morphogenetic fields *sets of Diodic and Miodic Points* - **sets of White and Black Holes** - that regulate the flux of consciousness-energy between systems.

Within the biological form and morphogenetic field, Diodic Points are located in physical body regions where Inter-dimensional and Inter-Harmonic **Horizontal and Vertical Kathara Lines intersect** to form small **vortices** of inter-dimensional or inter-harmonic wave spectra that serve as **Gateways of Consciousness** between Dimensional Time Continua of Harmonic Time cycles. They connect physical bodies to their **anti-particle counterparts** and intersect with the Vertical and Horizontal relationships of wave spectra within the **DNA/ RNA** and bio-energetic field, through sets of White and Black Holes at the center of the biological Harmonic scalar grids.

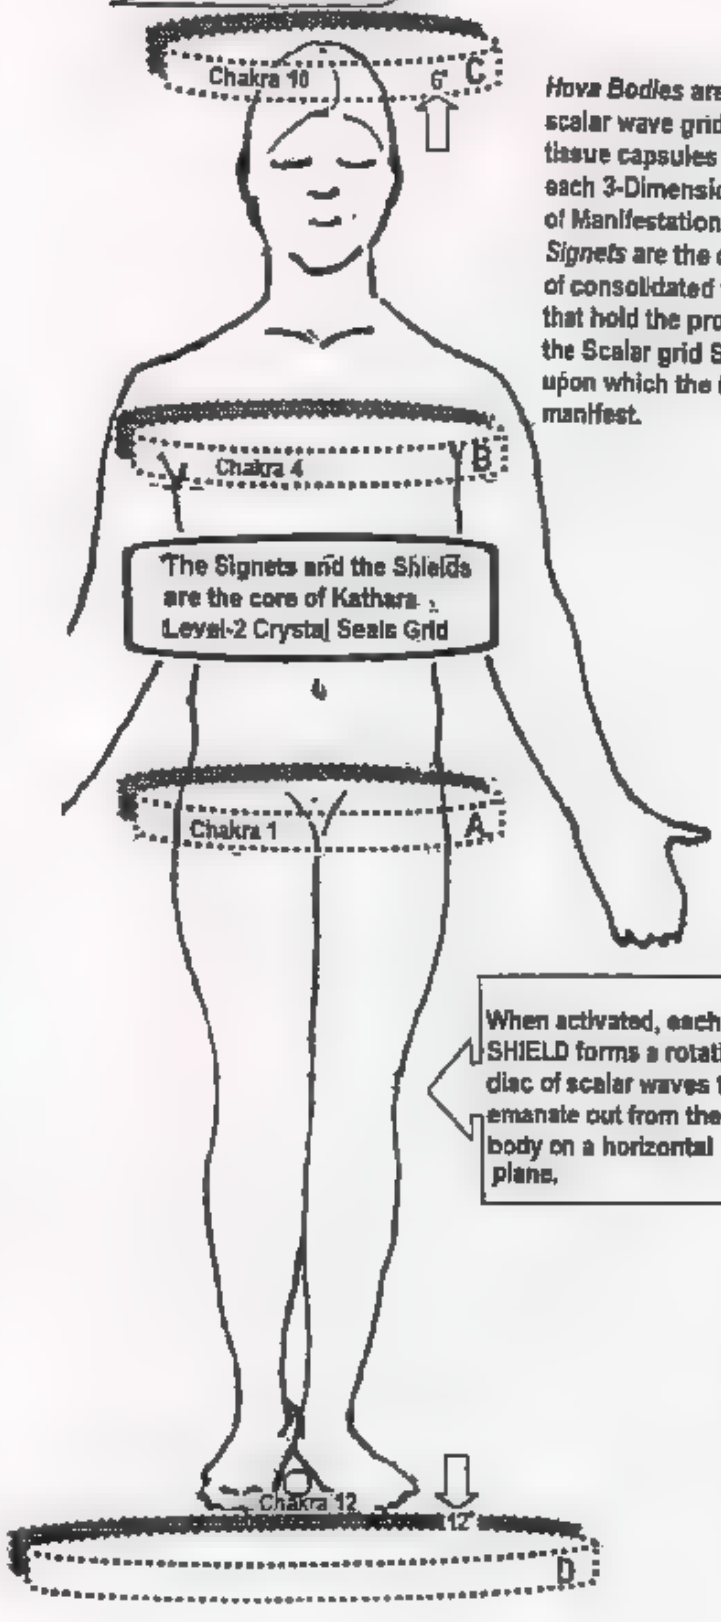
Diodic Points and 3-Dimensionality

Diodic Points control the **Diagonal Kathara Lines**, the sequences of **Partiki Phasing** or ***"flash-lines"*** that run on a diagonal between the Kathara Centers. Whereas the **Kathara Level-1 Kathara Lines** direct the **Vertical flash-line sequences** and the **Level-2 Crystal Seals** control the primary **Horizontal flash-lines** and their relationships to the Vertical flash-lines, the **Diodic Points** further regulate the relationships of flash-line sequences through the Kathara Grid by serving as **"turnstiles of energy"**. The Diodic Points intersect with the crossover points of the Vertical and Horizontal flash-lines , *adding a further level of modulation* to the frequencies passing through, allowing a **3-dimensional Harmonic Projection of flash-lines** (flash-lines projecting on 3 differ angular planes)to build within the morphogenetic field **The Diodic Points add the third plane of projection to the Kathara Grid, beginning the formation of what will appear as a 3-dimensional "armature" of flash-points upon which particles will accrete to "fill out" the Holographic Illusion of 3-dimensionality.**

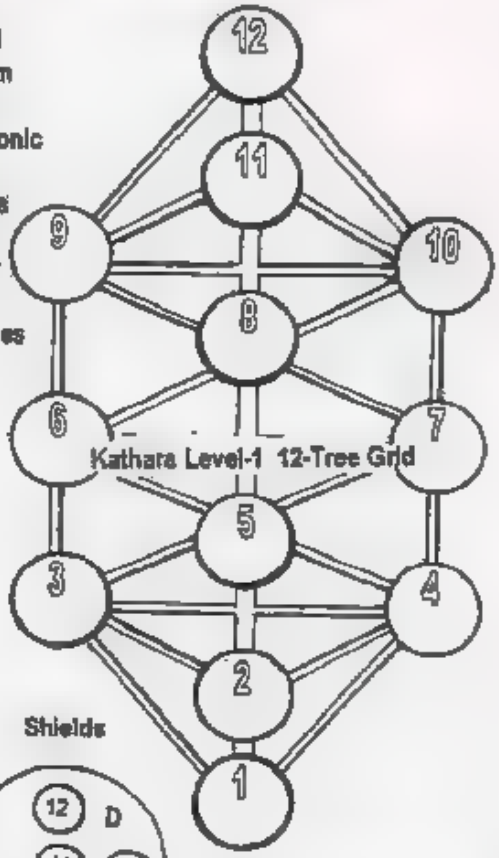
Diodic Points and Healing

In Kathara Healing Diodic Points are used to open the **Diagonal Kathara Lines** for reprogramming When Diodic Points become blocked, due to blockages within the Kathara Grid (which appear as "gaps" or missing sequences of flashes along the flash-lines of Partiki Phasing), energy builds up in the *Level-3 Kathara Grid*, forming *distortions* in the natural pattern that will manifest in the body and bio-field systems as *disease or disharmonic condition*. In later applications of Kathara Healing we will learn to identify points of Diodic and Miodic build-up in the body, and use *primary flash-line sequences applied through touch points* to realign the natural flash-point sequences and clear the Diodic Blockages.

Shields, Signets and the Kathara Grid



Hova Bodies are spherical scalar wave grids that form tissue capsules between each 3-Dimensional Harmonic of Manifestation.
Signets are the core points of consolidated frequency that hold the programs for the Scalar grid SHIELDS upon which the Hova Bodies manifest.



When activated, each SHIELD forms a rotating disc of scalar waves that emanate out from the body on a horizontal plane.

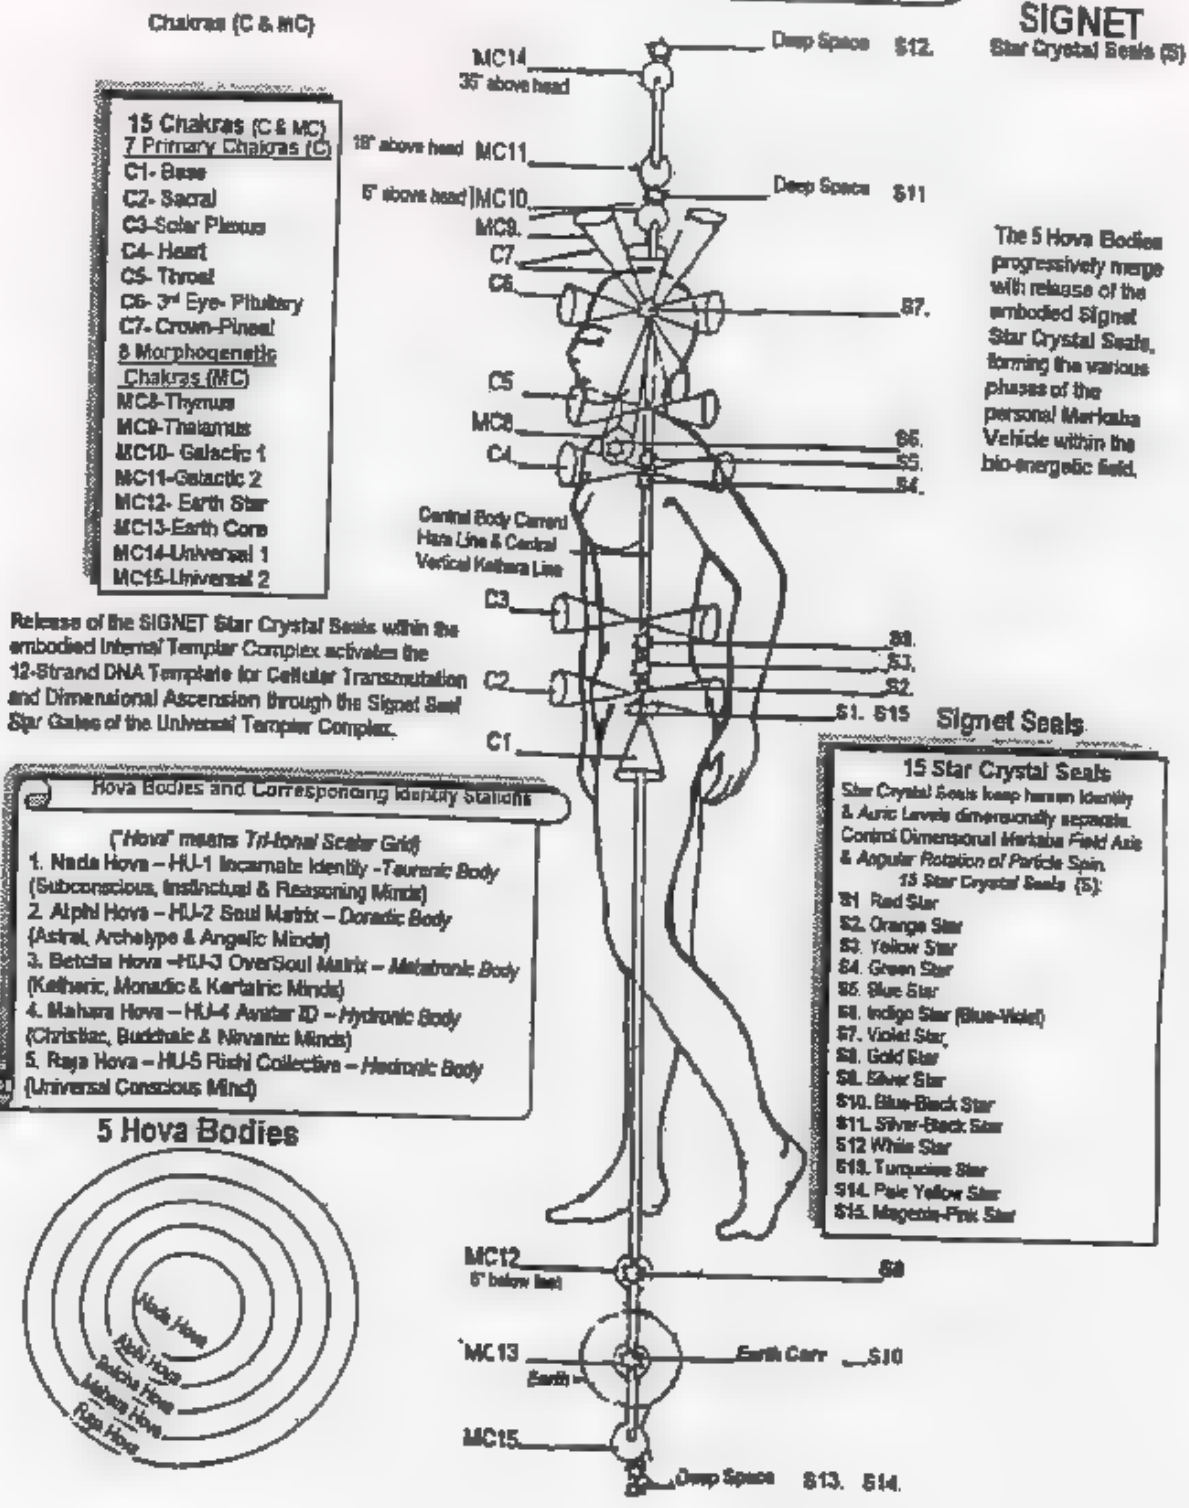
Level-2 Kathara Crystal Seals Grid and Chakras



AXIOM LINES, AURIC LEVELS AND CHAKRAS

Diodic Points, Signets, Seed Seals and AXIOM LINES

Each **Signet** within a Hova Body Shield holds the electro-tonal program for one *Seed Crystal Seal* and one *dimensionalized flash-line sequence*. Each Seed Seal program corresponds to one *dimensionalized flash-line program* from one *Level-1 Kathara Center*. Each **Seed Crystal Seal** holds intact the electro-tonal program for one *dimensionalized flash-line projection angle*, or **Single Axis Dimensional flash-line sequence.** The Single Axis Dimensional flash-line sequences controlled by each Seed Crystal Seal are called **AXIOM LINES.**

There are **12 Primary Axiom Lines** that correspond to the 12 Kathara Centers in the *Personal and Planetary Kathara Grids*. There are 12 additional **Stellar Axiom Lines** that correspond to the 12 Kathara Centers in the Universal Kathara Grid. **The Axiom Lines represent single-axis flash-line sequences** - (fixed points of conscious electrified sound- *electro-tonal units*- that form strands of scalar standing waves) that intermesh to refine the scalar-grid webbing upon which **Kathara Grid Level-3 Diodic Points will emerge.**

Axiom A-B Tonal Lines, Diodic-Miodic Vortices, Chakras-DNA-Portals-Ley Lines & Healing

Each of the 12 Primary Axiom Lines has a **reverse reflection** within the dimensions of the **anti-particle universe.** The 12 Primary Axiom Lines governing the **Diodic "White Hole" Vortices** of the **particle universe** are called **Axi-A-Tonal Lines** (or "Axiatonal" Lines). The corresponding reflections of the Axi-A-Tonal Lines in the **anti-particle universe,** which govern the **Miodic "Black Hole" Vortex** reflections of the Diodic Points, are called **Axi-B-Tonal Lines.** In Kathara Healing the integrity of the Axi-A-Tonal Lines is restored through realigning the electro-tonal programs within the corresponding **Kathara Centers.** The 12 Primary **Axi-A-Tonal Lines** set the morphogenetic imprint upon which the **Chakra System** and foundation DNA organization of the human body will manifest and upon which the **Planetary Vortex/Portal System** and primary **Planetary Ley Lines** will emerge within the planetary body. Restoring the *Imprint for Health* to the **Axi-A-Tonal Lines** and corresponding **Kathara Centers** will regenerate integrity within the **DNA** and **Chakra System** of the body and will restore the organic operations of the planetary **Vortices-Portals** and **Ley Lines** of the planetary morphogenetic grid.

Restoring the **Imprint for Health** within the **Axi-A-Tonal Lines** simultaneously restores integrity to the corresponding **Diodic Points** and to the **Axi-B-Tonal Lines** and their **Miodic Points.** When working with *Kathara Techniques* that "clear the **Miasmic Imprint**" – *the anti-particle blockages within Diodic Points* – the *Diodic Points* are realigned by clearing their *Miasmic distortions*, which then reestablishes the integrity of corresponding **Axiom A and B Tonal Lines**, sending a realigned electro-tonal program back through the **Seed Seals** and the **Level-1 Kathara Centers**. If the programs within the **Kathara Centers** are **simultaneously realigned** using infusion of the frequencies from the **Maharic Shield**, the Kathara Center programs, the Axiom Lines and the Diodic Points will be progressively restored to health. If the Kathara Centers are not simultaneously realigned, the restored Axiom Line programs will be overridden by the Kathara Center programs until the restored programs reach *critical mass* through *prolonged repetition*. ***Clearing the Miasmic Imprint*** **while simultaneously** ***Repatterning the Level-1 Kathara Centers and Kathara Lines*** **via** ***Maharic Infusion*** **is the fastest way to restore the** ***Imprint for Health*** **within the Human Body-Mind-Spirit System and within the natural operations of planetary bio-mechanics.**

Axiom Lines, Diodic Points, Hova Bodies, Shields and Auric Field Levels

The Single Axis flash-line sequences of the 12 Primary Axiom Lines cross over and through each other to form COORDINATE POINTS between the Hova Body Shields, through which the "White Hole" *Level-3 Diodic Point Vortices* emerge. The varying angles of flash-line projection within the Axiom Lines create separate dimensionalized bands of frequency (separate sets of flash-line sequences) within the Hova Body structure. As there are 3 Signets and thus 3 Seed Seals and 3 Axiom Lines inherent to each Hova Body Shield, each Hova Body becomes *dimensionally compartmentalized* into 3 separate yet interrelated sections, each section having inherent sets of Diodic Points. Each dimensionalized aspect of the Hova Bodies becomes a *Level of the Auric Field* within the bio-energetic system. There are 12 Inner Layers of the Auric Field, which correspond to Dimensions 1-12 and to the 12 Primary Kathara Centers, Seed Seals and Axiom Lines of the *first 4 Hova Bodies*. There are 3 Outer Layers of the Auric Field that correspond to Dimensions and Seed Seals 13-15, to the *first 3* Kathara Centers and Axiom Lines of the Universal Kathara Grid and to the *5th Hova Body*

Seed Seals, Axiom Lines, Consolidated Diodic Points, Chakras and Auric Levels

The points in the Kathara Grid where the Single Axis Axiom Lines cross over and through the Central Vertical Kathara Line in the Level-1 Grid and the Horizontal flash-lines of the Seed Crystal Seals form fixed, consolidated Diodic Points –larger vortices of energy composed of many smaller Diodic Vortices. The larger vortex points are called CHAKRAS. Each Chakra Vortex is formed upon the electro-tonal program of its corresponding Dimensional Frequency Band, Kathara Center, Seed Seal and Axiom Line, and each chakra corresponds to one Auric Field Level, DNA strand imprint and level of consciousness. As *3 Signets, Seed Seals* and *Axiom Lines* correspond to each *Hova Body Shield*, 3 Chakras regulate and correspond to each of 5 Hova Bodies, for a total of 15 Primary Chakras. Primary Chakras 1-12 correspond to Kathara Centers 1-12 in the Personal and Planetary Kathara Grids and Primary Chakras 13-15 correspond to the *first 3 Kathara Centers and Axiom Lines* of the Universal Kathara Grid. Chakras 13-15 are considered Universal Trans-stellar Chakras.

The *Chakras* regulate the *transduction of flash-line sequences* from the *Dimensionalized Unified Field* and *Diodic Vortices* of the Axiom Lines and Auric Field Levels into the *Hova Body tissue capsules* and *rivulet channels* that connect to the physical, electro-magnetic, chemical and hormonal aspects of the visibly manifest form. Chakras regulate the flow of consciousness-energy between the dimensionalized Auric Field levels of the Hova Bodies, keeping the various multi-dimensional stations of consciousness separate, in order to allow for experiential perception of holographic manifestation. Each Chakra circulates its Single Axis flash-line sequence along the angle of projection carried within its corresponding Axiom Line, and this *angle of flash-line projection* determines the Angular Rotation of Particle Spin (ARPS) – or the *axis upon which particles rotate*- within each dimensionalized portion of the anatomy. There is a 90-degree shift in the *flash-line angle of projection* from one Chakra and dimensional band to the next, which creates a 90-degree shift in the Angular Rotation of Particle Spin between each dimensionalized portion of the anatomy. Between each 3-dimensional Hova Body there is also a 45-degree reverse shift in flash-line projection angle, which creates a 45-degree rather than a 90-degree forward shift of flash-line projection angle between each Hova Body and between each set of 3 Chakras (Chakras 1-2-3 * 4-5-6 * 7-8-9 * 10-11-12 * 13-14-15). The precise angles of flash-line projection and ARPS between Chakras, creates the perceivable 3-dimensional hologram.

Chakras

A Chakra appears within the bio-energetic field as 2 cones or spirals of multi-colored energy that are linked together at the tip in the Central Body Current through the Seed Crystal Seal out of which the cones emerged. Chakras 2-6 extend from the Seed Seals outward through the body and Auric Field on a Horizontal axis and Chakras 8 and 9 intersect with 6 and 7 at the *Pineal Gland* on 2 rotating Diagonal axes running through the head. Chakras 1 and 7 and 10-14 are stacked above and below the body on a Vertical Axis aligned with the *Central Body Current* (CBC) and the *Central Vertical Kathara Line*. Chakras 1&7, 10&12, 11&13 and 14&15 are actually the bottom and top cones of 4 Large Vertical Chakra Spirals, but are counted as separate chakras. Chakra 15 is a "roving chakra", which travels the course of the 12 Primary Axiom Lines far out in Level–15 of the Auric Field. Each Chakra draws in energy from and transmits energy into the dimensional Unified Field corresponding to the *chakra number* and carries as its dominant perceivable color the hue characteristic to the primary frequency band wave-length of its dimensional affiliation.

A Chakra will also carry, in lesser saturation, the colors/frequency bands associated with all of the dimensions below its own dimensional affiliation.

Chakras and Dimensional Merkaba Fields

When the Seed Seal at the core of a Chakra is released, the 2 cones of the Chakra move through each other to form a Dimensional Merkaba Field- *2 counter-rotating spirals of electro-magnetic energy that take the form of a* ***Star-tetrahedron***. When the Seed Crystal Seal releases, the corresponding scalar-wave points within the Hova Body Shield are *released from Dimensional Phase-lock* – they are released from *polarity* by the re-combining of their inherent *Particum-Particles* and *Partika-anti-particles*. Through re-combining Particum and Partika the scalar standing-wave points undergo fusion, then a reciprocal fission and replication within the Harmonic above. Through release of the Seed Seals the *Dimensionalized Auric Field Levels* of the *lower Hova Body* align along the same *Angular Rotation of Particle Spin* / angle of flash-line projection, which transmutes them into the *angle of flash-line projection* and *Partiki Phasing rate* of the Dimensionalized Auric Field Levels of the Hova Body from the *Harmonic above*. **Seed Crystal Seals are released by infusing them with the frequencies/ flash-line sequences of the corresponding dimension from the Harmonic above.** Progressive release of the Seed Seals within the Chakras creates opening and merging of the Kathara Lines in the Level-1 12-Tree Grid, and merging of the *Hova Bodies, Shields, Drodic Points, Auric and Identity Levels* and *DNA strands, through which activation of the* ***Merkaba Vehicle*** *and de-densification of matter occurs.*

Auric Level, Chakra and Hova Body Correspondences

Each 3-Dimensional Scalar Shield forms a Spherical Electromagnetic Domain called a Hova Body

Each Hova Body manifests the structure, and governs the function, of 3 Primary Chakras.

Chakras draw energy in from, and transmit energy into, the Unified Fields of each Dimension. Each Chakra carries as its Primary Color the hue associated with the wave-length of the dimensional frequency band to which the Chakra corresponds.

Each Chakra corresponds to a level of the *Auric Field* and one *Axi-A-Tonal Line*. Each *Hova Body* corresponds to a set of 3 Chakras and contains 3 dimensionalized frequency bands that form the dimensional levels of Auric Field.

AXI-A-TONAL LINES, THE HARA LEVEL, 6 HARA POINTS AND COMPLEXES

Axiom Lines, Rotating Flash-line Projection and the Human Body

Each Seed Crystal Seal within the Signets of the Nova Body Shields holds the electro-tonal program for a Single Axis Axiom Line flash-line projection. **The flash-line sequences of each Axiom Line are not simply *stationary* single-line projections of flash-lines, but rather operate as *rotating* single-line projections**. Each rotating Single Axis flash-line projection is ***synchronized*** with the other rotating Single Axis flash-line projections of Axiom Lines from the other Seed Crystal Seals. Through the ***rotational synchronization*** of the Axiom flash-line sequences, the flash-lines of each Axiom Line regularly cross through each other, and through the vertical and horizontal flash-line sequences from the Level-1 and Level-2 Kathara Grid. The points of *synchronized flash-line crossover* form ***consistent points of intersection*** through which the **Level-3 Diodic Vortices** and **Chakras** manifest. Within the human body and Auric Field the **consistent points of flash-line crossover** can be charted in the form of **fixed lines of energy** that run through the body. **The charted Axiom Lines within the human body represent series of regularly scheduled flash-line intersection points, created through the synchronized rotation of the Single Axis Axiom flash-line sequences.**

Axiom A Lines - "Axi-A Tonal" Lines in the Human Body

The consistent points of Axiom Line flash-line crossover that form fixed lines of energy within the body can be charted as **Axiom A and B Line** energy flows within the body. The Axiom A Lines correspond to the body manifestation in the particle universe, the B Lines to the body double in the anti-particle universe. **For Kathara Healing applications the A Lines – Axi-A-tonal Lines- of the particle body are used for various purposes of facilitating Kathara Center realignment and revitalization of the Body-Mind-Spirit System.** Within the body the Axi-A-Tonal Lines can be charted as **Primary Flow Lines** – conduits through which energy-consciousness in the form of scalar-point flash-line sequences, circulates through the morphogenetic field. The fixed flash-line crossover points that form the **charted Axi-A-Tonal Lines** appear in the body as a set of **12 Vertical Flow Lines**, one running from each of 12 Auric Field Levels which run through the body within the **Level-2 Crystal Seals Kathara Grid**. Each Axi-A-Tonal Line corresponds to one of 12 Dimensional Frequency Bands, Kathara Centers, Seed Crystal Seals, Chakras and DNA strand imprints. **The 12 Primary Axi-A-Tonal Lines appear to enter and leave the body through the head and feet, with conduits running through the arms, hands and out the finger-tips, and through the legs, feet and out the tips of the toes. Each Axi-A-Tonal Line appears as a colored cord of energy, its hue determined by the wave length characteristic to its corresponding dimensional frequency band.** In charting the positions of the 12 Primary Axi-A-Tonal Lines in the body, **numbering** and **color** are used to denote the *Dimensional correspondences* of each Axi-A-Tonal Line.

Axi-A-Tonal Lines 11 & 12 and the "Hara Line"

Axi-A-Tonal Lines 11 and 12, which correspond to the 11th and 12th Dimensions, Kathara Centers, Seed Seals and Chakras, run vertically through the center of the body along the Kathara Grid Level-1 **Central Vertical Kathara Line**, forming a ***twisted "rope"*** of Dark Silver (D-11) and White (D-12) energy that wraps around the Central Vertical Kathara Line Flash-line Sequence. The **Central Vertical Kathara Line**, which appears as a **thin Silver-gold flash-line of energy** running from the 14th Chakra (36"above the head) through the body and into the 13th Chakra at Earth's Core, is imbued with frequencies from the **12th, 11th and 8th Dimensions** – the frequencies of White, Dark Silver and Gold.

In *Level-2 Kathara Grid*, the rotating single axis flash-lines of *Axi-A-Tonal Lines 11* and *12* spiral around the thin Silver-Gold flash-line of the *Central Vertical Kathara Line*, merging into a thin, vertical tri-tonal flash-line of primarily *Gold* hue that becomes the core of the *Central Body Current*. In ancient Eastern Healing Systems this **thin Gold Vertical Line** is called the **"Hara Line"**, and is often considered the foundation of the manifest form. In truth, the **Level-1 Kathara 12-Tree Grid** and the *Signets, Crystal Seals* and *Shields* of **Kathara Level-2** are the deeper foundations upon which the Hara Line manifests.

The *Hara Level* of Kathara Level-2 Crystal Seals Grid

The mechanics of the Crystal Seals in the Level-2 Kathara Grid are complex, but can be employed with relative ease through working with the energetic dynamics of the ***outer levels* of the Level-2 Kathara Grid**, the level in which the *Hara Line* can be viewed using *9th-dimensional Higher Sensory Perception*. We refer to this level of the Level-2 Crystal Seals Grid as the **HARA LEVEL**. The Hara Level is composed of the Hara Line, and 6 of the 15 Star Crystal Seals of the Kathara Level-2 Crystal Seals Grid.

The *6 Hara Points* (Crystal Seals) apparent from the Hara Level are as follows:

1. The 9th *Silver* Core Star Crystal Seal, called the **HARA CENTER**
2. The 6th *Indigo (or Blue-Voilet)* Star Crystal Seal, called the **SOUL STAR**
3. The 12th *White* Star Crystal Seal, called the **GALACTIC STAR**
4. The 3rd *Yellow* Star Crystal Seal, called the **SUN STAR**
5. The 8th *Gold* Star Crystal Seal, called the **EARTH STAR**
6. The 10th *Blue-Black* Star Crystal Seal, called the **EARTH CORE SEAL**

The 6 Hara Points govern and regulate the function of Complexes of *energy synthesization and distribution* that control the operations of all primary body systems and bio-energetic field dynamics. In *Kathara Healing Level-2* we will explore mechanics of the Hara Level. In Level-1 Kathara Healing we will simply become familiar with Hara Level as an element of 15-dimensional human anatomy.

THE HARA AND THE KUNDALINI

The Silvery-gold energies of the Hara Center (9th Star Crystal Seal) are interwoven at the base of the spine with what is referred to as the KUNDALINI life-force energies. The Kundalini energies represent the PRIMARY ENERGY CURRENTS through which the incarnating consciousness anchors its morphogenetic field within the Fetal Body through the FIRST 8 CELLS of conception. The Hara Center energies interweave at the base of the spine with the frequencies of the first Star Crystal Seal, the *RED Star Seal*, in the First Cell. When the Hara Center Seal is dormant and activated only to *the 3-Dimensional Level* its Pale Silvery-gold frequencies appear to be encased within a crimson RED sheathe of 1st-Dimensional energy, often making the Hara Center and Hara Line appear to be RED in color. As the Hara Center comes into activation through progressive release of the 9th Star Crystal Seal, the Gold 8th Dimensional and Silver 9th Dimensional frequencies of the Hara become the dominant hues, giving the Hara Center and Hara Line its natural Silvery-gold color. With full activation of the Hara Center and 12th-Dimensional Maharic Integration, the tri-tone frequencies of the Hara Center and Hara Line take on a tri-color spectrum of Pale Silver, Gold and Red-Violet (pale Magenta), as the Kundalini primary life force currents at the base of the spine activate within the Central Vertical Current of the body. Full activation of the Kundalini merges the 7th-Dimensional Violet, 1st-Dimensional Red, 8th-Dimensional Gold and 9th Dimensional Silver frequencies with the full spectrum White-Silver energies of the 12th Dimensional Maharic Current.

The Hara Center, like all Star Crystal Seals, is one of the primary regulatory elements of the natural Kundalini energies. As the Kundalini energies at the base of the spine are brought out of higher dimensional dormancy, through progressive activation of the Star Crystal Seals in the Kathara Level-2 Crystal Seals grid, the Hara Center progressively reflects these changes by expanding in size and energy processing capacities and taking on the hues (wave spectra) of the higher dimensional frequencies. The Kundalini energies at the base of the spine are the key to physical cellular transmutation of the body. Kundalini energy currents regulate the physical body's position in space-time, keeping the physical body phase-locked into the planetary Time Cycle in which it was conceived, following the mathematical programs set by the Star Crystal Seals and the Kathara Grid. For physical transmutation to occur, the Kundalini energies of the higher dimensions must be brought into embodied activation, setting the processes of the Internal Templar Complex in motion.

The DNA Template manifests upon the programs set by the Kathara Grid. As the Kathara Centers and their corresponding Star Crystal Seals, Shields, Kundalini currents, Cranial-Sacral (Pineal-Tailbone) Seals, Seed Crystal Seals and Chakras activate, dormant DNA Strand Template also activate, progressively altering the Angular Rotation of Particle Spin, energy-processing capacities, metabolic orientation and neurological processes of the body and molecular structure. As these physical changes occur through activation of the Crystal Seals and Kundalini energies, the Merkaba Vehicle (interdimensional counter-rotating electro-magnetic fields in star-tetrahedral form) progressively builds within the bio-energetic field, allowing the physical body release from phase lock within its home space-time vector. Activation of the Hara Center represents one of the stages of this natural transmutational process.

THE HARA CENTER

The 9th Core Star Crystal Seal, the Hara Center (Tan Tein) and the D-9 Thalamus Complex

The **Star and Seed Crystal Seals** of the Level-2 Kathara Grid that hold consciousness into the dimensional phase-lock set by the Level-1 Kathara Centers accrete along the Central Vertical Kathara Line and the Central Body Current. From the ***Hara Level*** – **the *outer portions of the Level-2 Kathara Grid*** - the *12th, 9th and 6th Star Crystal Seals*, **appear as *areas of condensed light* positioned along the *vertical Hara Line*.**

The **9th Star Crystal Seal**, located about 2 " below the Navel is known as the ***Core Star Crystal Seal*** – the point of **8th and 9th dimensional frequency** of the Harmonic-3 Over-Soul Matrix (***Teuric Shield***) that **anchor the personal morphogenetic field into that of the Earth** and serve as the **center of gravity** for the adult human body. **The *Core Star Seal* appears from the Hara Level as a 2" ball of Gold (D-8) energy encased in a thin Silvery (D-9) membrane; in Eastern theory this ball of energy is called the *Tan Tein*, and is used for direction of bodily and Earth energies in advanced martial arts and healing practices.** In Kathara theory we simply refer to this energy ball as the ***Hara Center***, or the 9th **Core Star Crystal Seal.**

The ***Hara Center*** is the point at which the dimensionalizing identity enters the **Etheric Matter densities** of Harmonic Universe-3. The Hara Center represents the point into which the **Over-Soul Identity**, its **Monadic Core**, the **Betcha Hova Body** and **Kathara Centers 7, 8 and 9** first anchor within the body. The Hara Center holds the morphogenetic imprint for **DNA strands 7, 8 and 9,** corresponds to **Chakra Centers** and **Axi-A-Tonal Lines 7,8 and 9** and is a key point for repatterning the electro-tonal programs of the **Teuric Shield** and realigning and activating corresponding DNA strands, Chakras, Axi-A-Tonal Lines and body regions they govern.

The Hara Center is associated with the ***Thalamus Complex***, the chemical translation and regulatory system that governs the **9th-Dimensional interface** between various **brain-function areas** and the glandular and metabolic operations of the **Thymus Complex**, **Gonads**, **Lymphatic System** and corresponding body systems. Through the ***9th-Dimensional Thalamus Complex*** the electrical impulse, chemical and hormonal relationships between the ***10th-Dimensional Shara Complex*** and the ***8th-Dimensional Thymus Complex*** and its related body systems are governed.

The Hara Center and the Thalamus Complex link the functions of the **Mahara** and **Betcha Hova Bodies,** the **Maharic** and **Teuric Shields** and the **Avatar** and **Over-Soul** levels of consciousness and identity within the body and bio-energetic field.

The primary area of dominion of the *D-9 Thalamus Complex* is *Brain Function*.

THE SOUL STAR

The 6th Soul Star Seal and the D-8 Thymus Complex

Also visible along the Hara Line of Kathara Grid Level-2 is the 6th **Star Crystal Seal**, located around the **Thymus** at the top of the breast bone and associated with the **5th and 6th dimensional frequencies** of the Harmonic-2 Soul Matrix (*Doradic Shield*). The 6th **Star Seal**, visible as a **pale Blue-Violet-white point of diffused light** along the Hara Line, is called the ***Soul Star Seal.***

The *Soul Star Seal* is the point at which the dimensionalizing identity enters the **Semi-Etheric Matter densities** of Harmonic Universe-2. The Soul Star represents the point into which the **Soul Identity**, its **Archetype Core**, the **Alphi Hova Body** and **Kathara Centers 4, 5 and 6** first anchor within the body. The Soul Star holds the morphogenetic imprint for **DNA strands 4, 5 and 6**, corresponds to **Chakra Centers** and **Axi-A-tonal Lines 4, 5 and 6** and is a key point for repatterning the electro-tonal programs of the **Doradic Shield**, and realigning and activating corresponding DNA strands, Chakras, Axi-A-Tonal Lines and body regions they govern.

The Soul Star is associated with the **Thymus Complex**, the chemical translation and regulatory system that governs the **8th-Dimensional interface** between the **Pineal, Pituitary**, and **Thyroid Glands**, which govern the chemical and metabolic operations of the **hormones, Adrenal Glands, Endocrine System, Spleen**, and *crystalline* formation of the **Red Blood Cells** and **Hemoglobin.**

The *Thymus Complex* and its related glandular and metabolic systems, govern the *cyclic rhythms* by which the **DNA strands** will activate through the **Pineal Gland**, the rate of *growth and degeneration* of body tissue through the **Thyroid Gland** and through the **Pituitary Gland** and its inter-glandular processes, the functions of *electro-tonal impulse conversation, translation and distribution* through the **brain, Central Nervous System** and blood are regulated.

The *Thymus Complex* controls the **inter-glandular systems balances** between the **Pineal, Thyroid and Pituitary Glands** and regulates the *primary operations* of electrical impulse and chemical translation and transfer throughout the brain and body systems via the **Thymus Gland.** The *8th-Dimensional Thymus Complex* is governed by the functions of the *8th-Dimensional Thalamus Complex* and the *10th-Dimensional Shara Complex.*

The Soul Star and the Thymus Complex link the functions of the **Betcha** and **Alphi Hova Bodies**, the **Teuric** and **Doraidic Shields** and the **Over-Soul** and **Soul** levels of consciousness and identity within the body and bio-energetic field.

The primary area of dominion of the *D-8 Thymus Complex* is *Metabolic Function.*

THE SUN STAR

The 3rd Sun Star Seal and the Nadial Complex

Also present, but less distinctly visible along the Hara Line of Kathara Grid Level-2 is the 3rd Star Crystal Seal, located just beneath the Hara Center of the 9th *Star Seal* 2" below the Navel and associated with the 2nd and 3rd dimensional frequencies of the Harmonic-1 Incarnate Matrix (*Telluric Shield*). The 3rd Star Seal, visible as a subtle pale Yellow-Orange-Red point of diffused light along the Hara Line, is called the *Sun Star Seal*. Due to its proximity to the Silver-Gold *Hara Center* 9th Star Seal the Sun Star is often considered to be part of the Hara Center, but in deeper Hara Level scanning the distinction between these crystal seals can be evidenced. The *Sun Star Seal* is the point at which the dimensionalizing identity enters the **Gross Physical-Matter densities** of Harmonic Universe-1.The Sun Star represents the point into which the **Incarnate Identity**, its **Subconscious-Telluric Core**, the **Nada Hova Body** and **Kathara Centers 1, 2 and 3** first anchor within the body. The Sun Star holds the morphogenetic imprint for DNA **strands 1, 2 and 3**, corresponds to **Chakra Centers** and **Axi-A-tonal Lines 1, 2 and 3** and is a key point for repatterning the electro-tonal programs of the **Telluric Shield**, and realigning and activating corresponding DNA strands, Chakras, Axi-A-Tonal Lines and body regions they govern.

The Sun Star is associated with the **Nadial Complex**, the electrical impulse and chemical translation and regulatory system that governs the **4th -Dimensional Interface** between the **Thymus Complex, Thalamus Complex** and the functions of the **physical body systems**, through which the electrical, chemical and metabolic operations of the **Blood, Cardio-Vascular, Pulmonary** and **Respiratory Systems** are governed. The Nadial Complex governs the operations of **Heart and Breathing rhythms**, the flow of consciousness-energy or "**Prana**" from the higher dimensional anatomy into physical embodiment and regulates many key functions within the processes of **nutrient conversion and distribution** within the Skeletal and soft tissue systems. **The *Nadial Complex* is a key center for the direction of healing energies within the Nada Hova Body, Telluric Shield and physical body systems.**

In advanced applications of healing and manifestation, the Nadial Complex is combined with the attributes of the **Shara, Thalamus** and **Thymus Complexes** and with the **Universal Raja Complex** of Harmonic-5, which links the human body to the planetary, galactic and universal Unified Fields through the *12th and 13th Chakras* and *10th Star Crystal Seal* at Earth's core via the *Planetary Bio-Feed Interface System*. The frequencies of the *3rd Sun Star Crystal Seal*, that govern the function of the *Nadial Complex* can be combined with those of the 9th Core Star Seal *Hara Center* and the *8th and 10th Star Crystal Seals* through the 12th and 13th Chakras, *PBIS, Doradic, Teuric, and Maharic Shields* and *Raja Complex* to form a potent **Teuric-Telluric Current for healing and manifestation**, once the *Doradic* and *Teuric Currents* have been activated within the body.

The *Sun Star* and the *Nadial Complex* link the functions of the **Alphi** and **Nada Hova Bodies**, the **Doradic** and **Telluric Shields** and the **Soul** and **Incarnate** levels of consciousness and identity within the body and bio-energetic field.

The primary areas of dominion of the D-4 *Nadial Complex* are *Cardio-Vascular, Pulmonary* and *Nutrient Absorption/Conversion Functions*.

THE GALACTIC STAR

The 12th Galactic Star Seal and the D-10 Shara Complex

The third point of condensed light visible along the Hara Line of Kathara Grid Level-2 is the 12th Star Crystal Seal, located at the 14th Chakra 36" above the head and associated with the 11th and 12th dimensional frequencies of the Harmonic-4 Avatar Matrix (*Maharic Shield*). The 12th Star Seal, visible as a White-Silver point of Light emanating an inverted White-Silver-Gold cone of energy at the 14th Chakra, is the White Star or *Galactic Star Seal*.

The *Galactic Star Seal* is the point at which the dimensionalizing gestalt identity enters the Pre-Matter Liquid Light densities of Harmonic-4, the point at which identity begins its individuation and journey of densification into the wave spectra of perceivably experiential matter. The Galactic Star represents the point into which the Avatar Identity, its Buddhaic Core, the Mahara Hova Body and Kathara Centers 10, 11 and 12 first anchor within the Bio-energetic Field to begin setting the scalar field for the body. The Galactic Star Seal holds the morphogenetic imprint for DNA strands 10, 11 and 12, corresponds to Chakra Centers and Axi-A-Tonal Lines 10, 11, and 12 and is a key point for repatterning the electro-tonal programs of the Maharic Shield, and realigning and activating corresponding DNA strands, Chakras, Axi-A-Tonal Lines and body regions they govern.

The Galactic Star is associated with the *Shara Complex*, the regulatory system that governs the 10th-Dimensional Interface between the D-9 Thalamus Complex and the D-13 portion of the Rishi Shield in Harmonic-5. Through the Shara Complex the Scalar Fields holding the gestalt identity of Harmonic-5 Rishi Consciousness Collective- the "*Universal Family of Consciousness*" – translate via electro-tonal conduction, into the more individuated Scalar Fields that house the Avatar identity gestalt Consciousness Collective- the "*Galactic Family of Consciousness*".

The Shara Complex *regulates the disbursement of consciousness* in individuated form through the dimensional fields of the Time Matrix and serves to link each individuated and incarnate member of the Geomantic Entity Collective beyond the Time Matrix, to its Avatar identity and Galactic Family of Consciousness in Harmonic Universe-4, through the Universal Family of Consciousness of the Rishi identity in Harmonic Universe-5. The Shara Complex represents the primary facility through which an individual consciousness retains its indelible energetic connection to its greater family of consciousness, through which it is directly linked to Source.

The Shara Complex governs, regulates and orchestrates the transduction, translation and cyclic rhythms of electro-tonal projection of consciousness into dimensionalization, sets the original operational structures of Kathara Scalar Grid arrangement and directs the synchronistic evolution of families of consciousness through time. Through the operations of the Shara Complex, an identity's cycles of incarnation and manifestation within the 5 Harmonics of a 15-Dimensional Time Matrix are regulated, which sets the core regulatory rhythms of Partial Phasing, expansion and contraction of consciousness, and vibration-oscillation ratios that govern the formation and function of the Thalamus and Thymus Complexes and all aspects of the individuated Kathara Grid, Bio-energetic Field and bodily systems. The Shara Complex controls the cycles of in-flow and out-flow of energy between the personal morphogenetic field and that of the dimensional Unified Fields, and thus affects all systems of the body and consciousness, with a primary emphasis upon the functions of the blood, consumption-excretion and immunological facilities of the body and of the activation of the higher dimensional sense facilities within the embodied consciousness.

The Shara Complex links the functions of the Mahara and Raja Hova Bodies, the Maharic and Rishic Shields and the Avatar and Rishi levels of identity within the embodied consciousness. Primary area of dominion of the D-10 Shara Complex is the Immune System and HSP.

THE EARTH SEALS

Earth Seals 8 and 10 and the Raja Complex

Within the Hara level of field depth in which the 3rd Sun Star Crysta Seal can be detected there are 2 other Star Crystal Seals of primary importance stationed along the Hara Line of Kathara Grid Level-2; these are referred to as the Earth Seals. The Earth Seals function as intrinsic aspects of the Planetary Bio-feed Interface System and the *Raja Complex*. The 8th Star Crystal Seal, called the *Earth Star Seal* is located within the 12th Chakra 6" below the feet and is associated with the 7th, 8th and 12th dimensional frequencies of the Harmonic-3 Over-Soul Matrix (*Teuric Shield*) and the Harmonic-4 Avatar Matrix (*Maharic Shield*). The Earth Star is visible as a subtle **Gold-Orange point of diffused light** positioned along the Hara Line 6" below the feet, as the Hara Line leaves the physical body through the 1st Base Chakra to extend downward into the Earth's core. The 10th Star Crystal Seal, called the *Earth Core Seal*, is located within the 13th Chakra where the Hara Line connects into the Earth's Core and is associated with the 9th, 10th, 12th and 13th dimensional frequencies of the Harmonic-3 Teuric Shield, Harmonic-4 Maharic Shield and Harmonic-5 Rishi Matrix (*Rishic Shield*). The Earth Core Seal is visible as a **pale Blue-Black point of diffused light** positioned in the Earth's Core, at the point where the personal Hara Line connects to the center of the Earth's Core at the *1st and 12th Planetary Kathara Centers*.

The *8th Earth Star Seal* is the point at which the dimensionalizing identity combines the 12th-dimensional frequencies of the Harmonic-4 Pre-matter Liquid Light density with the 8th and 9th–dimensional frequencies of the Etheric Matter densities of Harmonic-3 to connect the personal morphogenetic field and Kathara Grid to those of the Planetary Body. The Earth Star Crystal Seal can be viewed as the point where Personal and Planetary Kathara Grids connect to Galactic Kathara Grid. The Earth Star represents the point into which the Mahara and Betcha Hova Bodies, Kathara Centers 8, 9 and 12 and the 12th Galactic Star Seal and Shara Complex first anchor into the Planetary and Galactic Kathara Grids. The Earth Star holds the morphogenetic imprint for all DNA strands for all manifest incarnations in *4 Harmonics of Time*, corresponds to Chakra Centers and Planetary Vortices and Personal and Planetary Axi-A-tonal Lines 8, 9, 10 and 12 and is a key point for repatterning the electro-tonal programs of the *Personal* Maharic, Teuric, Doradic and Telluric Shields, and realigning and activating corresponding DNA strands, Chakras, Planetary Vortices, Axi-A-Tonal Lines and personal or planetary body regions they govern. In the Maharic Shield Activation process the Earth Star is activated to release phase-lock on the 12th Chakra to open the personal Kathara Grid to the PBIS.

The *10th Earth Core Seal* is the point at which the dimensionalizing identity combines the frequencies of the 8th Earth Star Crystal Seal with the 13th-dimensional frequencies of Harmonic-5 Ante-matter density to connect the personal and planetary morphogenetic field and Kathara Grid to those of the Universal Kathara Grid of Harmonic-5. The Earth Core Seal can be viewed as the point where Personal, Planetary and Galactic Kathara Grids connect to the Universal Kathara Grid. The Earth Core represents the point into which the Rishi Identity, the Raja Hova Body and Universal Kathara Centers 1, 2 and 3 first anchor into the 3rd Earth Star and 12th Galactic Star Seals to form the Raja Complex of 5 Harmonic scalar fields through which personal, planetary, galactic and universal exponential manifestation takes place. The Earth Core Seal corresponds to Chakra 13, and holds the morphogenetic imprint for all manifest incarnations of persons, planets and galaxies within the 5 Harmonics of Time in one 15-dimensional Time Matrix. Through the combined frequencies of the Earth Star and Earth Core Seals the personal Kathara Grid connects to the Planetary, Galactic and Universal Kathara Grids forming the Planetary Bio-feed Interface System and the *Raja Complex* – or *Universal* Bio-feed Interface System – that links personal, planetary, galactic and universal consciousness in time.

THE RA CENTER

The 3rd Sun Star Seal, 8 and 10 Earth Seals and *RA Center*

When combined with PBIS, Doradic, Teunic and Maharic Shields and Raja Complex, the **3rd Sun Star Crystal Seal** and the **12th Core Star Crystal Seal** *Hara Center merge* to form a *Teunic-Telluric Current* that encompasses the *Seed Crystal Seal* within the 3rd Solar Plexus Chakra, forming a ***sphere of powerful healing energies*** at the 3rd Chakra called the **RA Center**. In **Kathara Healing Level-2** we will begin activation of the *Teunic Current* of the Harmonic-3 Betcha Hova Body, through activation of Doradic Current Phase-2 and will explore beginning applications of combining the Doradic Phase –1 and Teunic Currents with the natural *Telluric Current* of the Harmonic-1Nada Hova Body to begin bringing the RA Center for healing and manifestation into activation. (For more on the 4 Primary Triadic Healing Currents see Chapter 4 of this manual.)

The Hara Level of Kathara Level-2 and the 6 Primary Hara Points

Though the study of the Crystal Seals of Kathara Level-2 Crystal Seals Grid is complex in detail, one can become skilled in healing facilitation through Crystal Seals mechanics by learning the basic orientation of the outer levels of the **Kathara Level-2** scalar grid – *The Hara Level*. In simple analysis, the **elements of the Hara Level can be viewed as follows:**

The Hara Line – the Central Body Current, that is formed by the *11th and 12th Axiom Lines* wrapping around the fixed flash-line sequence of the *Level-1 Kathara 12-Tree Central Vertical Kathara Line*.

The 6 Primary Hara Points: Star Crystal Seals 1. # 9-Hara Center, 2. #6-Soul Star, 3. #12 Galactic Star, 4. #3-Sun Star, 5. #8-Earth Star and 6. #10-Earth Core. Each primary Hara Point governs the function of a complex of interwoven scalar, bio-energetic and physical systems. Knowledge of the 6 **Hara Points** and the **Thalamus, Thymus, Shara, Nadial** and **Raja Complexes** they respectively govern, allows the healing facilitator a greater understanding of the 15-dimensional anatomy. Such **Foundations of Kathara Healing** are necessary in preparation for **Kathara Healing Level-2** practices that will utilize the **Hara Level** of the **Kathara Level-2 Crystal Seals Grid** in combination with the Kathara Healing Level-1 **Maharic Recoding Process** and other elements to begin activation of the RA Center for advanced healing and manifestation.

Axi-A-Tonal Lines 1-10

In our exploration of the Hara Level of the Crystal Seals Grid we have learned that of the **12 Primary Axi-A-Tonal Lines,** (12 primary vertical energy-flow lines within the body and bio-energetic field, created by cross-over points of the rotating, single axis, flash-line sequences projected by each of 12 Seed Crystal Seals), the 11th and 12th Axi-A-Tonal Lines spiral around the Kathara Level-1 12-Tree Grid *Central Vertical Kathara Line* to form the Hara Line and Central Body Current. Axi-A-Tonal Lines 1-10 also run vertically through the body, from the head to the toes and through each arm to the finger tips, connecting body regions to corresponding levels of the Auric Field, Chakras, Kathara Centers, Crystal Seals and DNA. The sequence of Axi-A-tonal Line position is as follows:

Right Side of Body to Center- 3,6,9,2,8 Center of Body-11, 12 Center to Left Side of Body-. 5,1,10,7,4

Each line of Axi-A-Tonal Lines 1-10 ends in one finger-tip and toe on the corresponding side of the body, and runs vertically through the top of the head to merge with Axi-A-Tonal Lines 11 and 12 and the Hara Line at **Chakra 10**, and down through the feet to merge with the Hara Line at **Chakra 12.**

Axi-A-Tonal Lines are Points where the rotating, single-axis flash-line sequences from the Seed Crystal Seals cross over and through each other, to form 12 primary vertical flow-lines within the body. The Axi-A-Tonal Lines create the web-work of energy upon which the Kathara Grid Level-3 *Diodic Points* and the DNA manifest.

Each *Axi-A-Tonal Line* corresponds to a Dimension, DNA Strand, Kathara Center, Chakra & Seed Crystal Seal, & carries the color associated with the primary wave-length of its corresponding Dimension.

The 7 Primary Embodied Chakras emerge where the 11th & 12th Axi-A-Tonal Lines cross through each other as they spiral around the Central Vertical Current. Secondary Chakras form in areas where other Axi-A-Tonal Lines cross through each other.

Axi-A-Tonal Lines and the Meridians

The Axi-A-Tonal Lines within the body set the primary holographic scalar field upon which the Meridian Lines – or Secondary Flow Lines- of the body manifest. **The Meridian Lines can be used to access the Axi-A-Tonal Lines and the Axi-A-Tonal Lines can be used to access the flash-line programs of the Kathara Centers and 3 Levels of the Kathara Grid, if the *correspondences* between *the Meridians, Axi-A-Tonal Lines, Kathara Centers* and *Chakras* are understood.** For centuries the Meridian Lines and Chakras have been used in subtle-energy healing systems. This knowledge can be applied and the potential results of related healing techniques amplified by employing the correspondences between the Meridian and Chakra systems and the Axi-A-Tonal Lines and 3 Levels of the Kathara Grid. Bringing the Kathara Grid into the picture allows for restructuring the Imprint for Health within the *causal core* while *expediting* the healing process by restructuring the various other levels of the bio-energetic anatomy.

In Level-1 Kathara Healing we focus primarily upon **Core Morphogenetic Repatterning** – resetting the electro-tonal programs of the Kathara Grid through the uncorrupted programs of the *Maharic Shield*- to set the "*ground*" into which other healing applications can anchor. In later Kathara Healing Levels we will explore technique applications that affect various other levels of the bio-energetic anatomy. **In Level-1 Kathara Healing we strive to create a basic familiarity with the elements of, and the interrelationships between, the various levels of bio-energetic anatomy.** Through understanding the basic correspondences between the 3 Levels of the **Kathara Grid** – the *Kathara Centers* and *Kathara Lines*, the *Hova Bodies*, Auric Levels, *Signets*, *Shields*, *Crystal Seals* and *Axiom Lines*, and the *Diodic Points* and *Chakras* – and the other aspects of energetic anatomy, such as the **Meridian Lines** and **DNA**, the healing facilitator is equipped with a knowledge base through which more precise healing facilitation can be applied. Meridian Lines and their applications to Kathara Healing will be explored in later Levels of the Kathara Healing Program.

The DNA Connection

In this Chapter we have explored the various elements of the 15-Dimensional Anatomy of the human form, from the Kathara Grid holographic scalar template, to the Hova Bodies, Shields, Axiom Lines, Chakra Centers, Auric Field Levels and the Hara Level with its related Complexes of energetic interface. Throughout all of these elements of the multi-dimensional anatomy we have seen how each element interrelates with the others through their *correspondences within the structure of the 15-Dimensional Scale*. The elements of the subtle body anatomy also systematically correspond to the structure and function of the human DNA. Through direct interaction with various elements of the subtle body anatomy, the operations of corresponding aspects of the human DNA can be repaired, enhanced and altered, to advance applications of healing, and to expedite the evolution of human biology and consciousness. In the *Kathara Healing Level-2 program* we will further explore the correspondences between the subtle body anatomy and the DNA, and methods by which the DNA can be repaired and activated to a more advanced level through employing the use of Kathara Healing mechanics.

The Silicate Matrix 12-strand DNA Pattern

The core human DNA imprint is built upon a 12-Dimensional Structure, each of 12 strands building up upon one of the Primary 12 Axi-A-Tonal Lines and each strand corresponding to 1 of 12 dimensional frequency bands within the 15-dimensional scale. The original human DNA imprint is called the **Silicate Matrix**, the 12-strand scalar-wave configuration that allows for the progressive **transmutation** of Harmonic-1 carbon-based molecular-elemental structure into the Silica-based structures of higher Harmonic matter. The 12-strand DNA imprint of the human form implies that human biology was designed to embody 12 dimensions of conscious awareness, or to fully embody the Avatar identity level - the *"Christed" identity* of Harmonic-4 Pre-matter Liquid Light matter density. The human form is organically designed to undergo full cellular transmutation through 4 Harmonics of manifestation and their corresponding matter density levels. When the gene code is working properly, the process of cellular transmutation is directed by the embodied human consciousness. In historical terms, the process of *conscious cellular transmutation* has been referred to as the process of **"Ascension"**, which is *Dimensional Expansion*, the mechanics of which have been hidden with ancient texts dealing with **Merkaba Mechanics**. The **Merkaba Vehicle** of inter-harmonic scalar-wave configurations, which forms within the bio-energetic field, is a consequence or *simultaneous effect* of progressive activation of the Silicate Matrix within the genetic code.

The Silicate Matrix and Subtle Body Anatomy

Just as each Axi-A-Tonal Line of the subtle body anatomy has its correspondence to a Kathara Center, Crystal Seal, Axi-A-Tonal Line, Auric Field Level and Chakra, so too do the DNA strands have their specific affiliations to each *dimensionalized element* of the subtle body anatomy. Each DNA strand translates into electrical-elemental-chemical form from the governing Axi-A-Tonal Line flash-line sequence to which it corresponds. The **Hova Bodies** and **Shields** of subtle body anatomy each correspond to a *set of 3* Axi-A-Tonal Lines, Auric Field Levels and Chakras and thus also correspond to a set of 3 DNA strands, that together create the experiential projection of separate 3-Dimensional holographic reality fields. Distortions and blockages in the Kathara Grid, Hova Bodies, Shields, Axi-A-Tonal Lines and Chakras appear as distortions and malfunction within the DNA. **The function of the DNA determines the *quantity of interdimensional frequency*, and thus the *amount of dimensionalized consciousness*, that can actively process through and embody within the physical body system.** DNA distortions manifest as distortions of biology and consciousness.

The 12 DNA strands of the Silicate Matrix are *sets of scalar-wave spectra* that correspond to each dimensional band, through which each dimensionalized level of the subtle body anatomy is translated into wave-spectra that is within the range of perceivable matter manifestation. *The DNA can be viewed as the primary structure through which subtle energy-consciousness translates into manifest physicality.* As each full dimensional band contains 12 primary Sub-frequency Bands (See Chapter 1 for Dimensional Structure), each of the 12 DNA strands contains *12 primary Seed Codes*, or *consolidated scalar points* composed of electro-tonal flash-line sequences, that correspond to the Sub-Frequency Bands within each dimension. The 12 primary Seed Codes within each DNA strand have an *anti-particle counterpart* composed of frequencies from the Anti-particle system. The 12 particle Seed Codes in each strand are called **BASE CODES**, their anti-particle counterparts are called **ACCELERATION CODES**. The Seed Codes of the core DNA scalar imprint are the *points of consolidated frequency* through which energy-consciousness is drawn in from the dimensional Unified Fields to expand the personal morphogenetic field.

DNA Fire Codes- Genetic Time Codes

Along with the 12 Base Codes and 12 Acceleration Codes of each DNA Strand Template there are also 12 Primary DNA Codes called DNA FIRE CODES that regulate the relationship between human biology and the Planetary Time Cycle in which the biology manifests. The DNA Fire Codes can be conceptualized as existing *between* the Primary 12 Strands of the Silicate Matrix. Each Fire Code is composed of one half of the scalar frequency patterns from each of the two Primary Strands that the Fire Code is placed between. Each of the 12 Fire Codes corresponds directly to one of 12 Signet Star Crystal Seals in the Personal Shields of the Internal Templar Complex, and with release of the corresponding Signet Seal, the Fire Code comes into activation.

The DNA Fire Codes release the natural scalar barriers between particle and anti-particle DNA Strands, allowing STRAND FUSION to occur. Fusion of DNA strands in the particle body with corresponding strands in the anti-particle body creates a progressive transmutation of the scalar wave forms of the DNA Template and Scalar Shields, through which the polarized Particum-Particles and Partika-Anti-particles merge and transform into their original Omni-polar Partid Ante-matter state. Through strand fusion, the biological carbon-based biology progressively lessens in density as its elemental agents are transmuted from the Kathara level, into elemental agents characteristic of the higher dimensional matter densities. Dimensional Ascension is achieved through release of the Kathara Grid Seals. Release of the Kathara Grid Seals creates merger of the Hova Bodies, activation of the Kundalini energies, release of the Cranial-Sacral Crystal Seals, fusion of the DNA Strand Templates via the DNA Fire Codes, building of the Merkaba Vehicle in the bio-energetic field and the resulting transmutation of bodily matter and shift in Angular Rotation of Particle Spin within molecular construction. Through this transformational process the human biology is released from its organic phase-lock within its current space-time cycle, and is able to engage in transcendental travel through the various matter density levels and Time Cycles in and beyond the 15-Dimensional Time Matrix. As the DNA Fire Codes regulate the body's orientation to space-time, they are also referred to as the GENETIC TIME CODES.

The DNA Fire Codes are an essential element in the natural process of restoring the natural Immortal Organic Imprint for Health within the human body. The ability of the human form to become perpetually self-sustaining is dependent upon the Kathara Grid and DNA being able to continually renew the natural Primal Order of Maharic Shield scalar arrangement upon which the body is built, to keep the Star Crystal Seals and conduits of interdimensional energy supply open. Perpetual revitalization of the body is achieved through full activation of the 12-Strand DNA pattern. When activated, the DNA Fire Codes keep the Crystal Seals, the Interdimensional INTERNAL STAR GATES of energy inflow, open, so the finite supply of frequency held within the personal Manifestation Template can be continually renewed. Restoration of the Organic Imprint for Health, as held within the Maharic Shield, is achieved through progressively clearing distortions of scalar-wave arrangements within the Kathara Grid, Shields and DNA Template and realigning the entire subtle energy and physical energy systems with the Primal Order of the Maharic Shield. This process of whole-being-healing does not occur overnight, as many genetic distortions (which emerge from Kathara Grid misalignment) have served as the dominant bio-electrical program within the human genome for many thousands of years. With knowledgeable practice of Kathara Grid realignment, and supportive healing applications within the various Body-Mind-Spirit systems, these inherited distortions can be progressively healed through Regenesis of the Primal Order as held within the personal Maharic Shield.

Science, "Junk DNA" and Evolution

In the contemporary human genetic code the majority of the DNA strands corresponding to higher dimensional anatomy and consciousness are dormant or damaged due to ancient blockages within the Kathara Grid and its corresponding elements of the subtle body anatomy. Present day humans function primarily on a 3 to 3.5 DNA activation level, while the imprint and potentialities for strands 4-12 lie dormant within the morphogenetic field and within the fragments of non-functional DNA that contemporary science has labeled *"junk DNA"*.

The portions of the DNA chain that science has presently identified as the "Double Helix", represent only the **surface portions** of the chemical, elemental and electrical components of the active DNA strands. Science has yet to identify the *multidimensional spectra* of DNA manifestation, and has yet to realize that within the structures of detectable DNA, there are *levels of structure and function* that direct the operations of the *entire genetic imprint*, which are *not presently detectable* by contemporary scientific technique. The human DNA imprint will always appear from external analysis, as a *2-strand Double Helix* configuration, but what is not understood, is that within this Double Helix there are, and will be progressively more, additional Double Helix strands, which *fuse together* and add their operational coding into the active DNA imprint. By contemporary standards of categorization, if science were to objectively observe the activated 12-strand pattern (or even an activated 4-strand pattern), the DNA would *not appear to be human at all*, but rather as the seemingly incomprehensible genetic signature of an "unknown" species. As science evolves into comprehension of the multi-dimensional spectrum, the understanding of the true structure and function of DNA will progressively advance.

DNA, Kathara Healing and Bio-Spiritual Evolution

One does not have to wait for scientific theology to catch up with a rapidly evolving humanity in order to begin advancing the functions of the DNA. Through the processes of Kathara Healing, as we work to clear blockages from the Kathara Grid and to reawaken the *Imprint for Health* within the human body, we are *simultaneously › directly affecting* the operational structure of the DNA. As we work to create Hova Body merger- *merging of the scalar-grid flash-line sequences of the 5 Harmonic Hova Bodies*- we are progressively reordering portions of the "junk DNA" and stimulating dormant portions of the DNA into activation. As we work with subtle energies to clear blockages within the Kathara Grid, we are progressively purging ancient distortions and mutations within the gene code, distortions that have kept our collective consciousness locked into the limited 3-dimensional perceptual range of Harmonic Universe-1.

It is through the ancient distortions of the human Kathara Grid and the resulting mutations of the human DNA, that the multidimensional portions of identity seem separate from each other. The higher levels of conscious awareness that are stationed within the scalar grids of the higher dimensional Hova Body Shields have been unable to *electronically translate* into the lower dimensional identity stations of the Nada Hova Body and its apparent physical manifestation. As we work with Kathara Healing to create progressive Hova Body merger and DNA strand ordering and activation, we will progressively experience *advancement of conscious awareness* and *expansion of the perceptual field* and *Higher Sensory Perception* (HSP). This expansion and advancement occurs because we are able to progressively embody higher frequencies of consciousness and scalar wave flash-line sequences into the personal morphogenetic field, via the energetic conduits of the DNA. **Kathara Healing modalities are the fastest and easiest methods available to repair and advance the function of the DNA and to expedite the organic processes of *Bio-Spiritual Evolution*.**

THE 12 HUMAN SENSES, APPARTHI AND HSP

Perception and the Hologram

In earlier text we have explained that **manifestation is not what it appears to be**, but rather a **Holographic Projection** of consciousness through the structures of **dimensionalization**. Further, that dimensionalization itself is a *compartmentalization* of consciousness created through units of consciousness (Partiki, Partika and Particum) *assembling in specific mathematical-geometrical ratios* to form **scalar grids**, interwoven fabrics of *fixed points of electro-tonal units* that form layers of standing-waves **-scalar waves** - that serve to "flesh out" the structure of the Hologram, through projection along a *vertical, horizontal* and *diagonal axis*. We have explored the **Kathara Grid** - the *core template* of scalar standing-waves upon which consciousness begins its experience of dimensionalization, the structures of the **15-Dimensional Universe** construction, and how these characteristics of the Hologram relate to forming the structure of **15-Dimensional Human Anatomy**. In understanding the basic foundations upon which our perceivable Hologram forms, we begin to better comprehend the nature of reality and of ourselves within this multi-dimensional reality structure. **Through the Holographic Projection of consciousness within the cosmic Unified Field of Energy-consciousness and its scalar fields of dimensionalization, we perceive the conditions of space, time, matter, externalization of reality and individuation of identity.** Within the Hologram of consciousness we perceive as **solid and objectified** the **wave spectra** and their inherent energy constructs of that which exists **precisely one dimensional band below the present station of our consciousness focus.**

In this section we will explore a bit about the **apparatus of perception** that allow us to perceive externalization in such a manner, the **facilities of energy inherent to the scalar-wave construct of the human form,** which together work to bring the Hologram into perceivable manifestation. We will call the constructs of energy formed through scalar organization, which allow for perception of the manifest Hologram, the **HUMAN SENSES.**

THE *HUMAN SENSES* ARE THE *EXPERIENTIAL RESULT* OF *ORGANIZATIONS OF WAVE PATTERNS* INHERENT TO THE ELECTRO-TONAL PROGRAM AND SCALAR ORGANIZATION OF HUMAN CONSTRUCTION.

What ARE Senses?

Senses are the **scalar-wave apparatus**, and their seemingly manifest parts, that allow the personal morphogenetic field to **synthesize and translate frequency** from the dimensional bands of the Unified Field, into **coherent perceptual and experiential qualities** that give embodied consciousness a **translation of its relationship to other forms of consciousness within the Unified Field.** Senses - or the apparatus which give us the *ABILITY TO SENSE*- are scalar arrangements inherent to our form that **TRANSLATE ENERGY SIGNATURES FROM THE UNIFIED FIELD INTO USABLE DATA OF RELATIONSHIP.**

Like the true substance of the human body and consciousness, the Unified Field exists as a *quantity of dimensionalized energy-consciousness in electro-tonal scalar wave form* - a compartmentalized field of **ENERGY SIGNATURES**, within which a vast number of **consciousness constructs** exist The human organism is one such **construct of consciousness**, and through its inherent form, the *energy signatures* of other scalar forms are translated into perceptual data **The senses are simply *energy constructs* within the human morphogenetic field, that *separate and translate energy signatures from the Unified Field* into sets of experiential stimuli, through which the contours of the manifest Hologram can be *recognized* and *experienced.***

The APPARTHI and Perception

The sense facilities are *organizations of energy* within the morphogenetic field that hold sets of "*energy receivers*" or *magnetic points of cohesion*, into which *like frequency patterns* from the Unified Field are drawn in for translation. Every organism has a different configuration of energy receivers within its morphogenetic makeup, and so every organism will have a variation of perception. The **morphogenetic energy receivers**, or **APPARTHI** of an organism's construction serve to *draw certain frequency bands into the morphogenetic field for translation and to block out other frequency bands*, making them unavailable for translation. The frequency bands, or *flash-lines of Partiki Phasing*, that are blocked out of the personal morphogenetic field, create **GAPS OF PERCEPTION** of the Unified Field, through which the Holographic picture of "space between objects", "externalization of form" and "separation of SELF from the Unified Field" becomes perceivable to the organism. **These qualities of *objectification* are the result of BLOCKED FLASH-LINE SEQUENCES, portions of the *scalar fields* of the Unified Field and their inherent *sequences of Partiki Phasing*, that *cannot translate* through the personal morphogenetic field due to the arrangement of the APPARTHI within the personal morphogenetic structure.**

Senses as Scalar-wave Constructs & Expanding our Perception of Perception

If it can be recognized that externalization of experience is a perceptual illusion of consciousness created through selectivity of range within the perceptual field, the true nature of the human sense facilities can be better understood as a pattern of interrelated scalar-wave forms that serve to block out portions of the Unified Field so that other portions may be brought more fully into perceivable view. **When viewing the *physical apparatus* through which the known human senses appear to occur as part a of larger, interwoven system of *scalar construction*, it will be easier to understand that *perception is not a localized phenomena created by and limited to the identified organs of perception.*** The experiential capacities of even the 5 known human senses have a much broader range than what is presently assumed or identifiable through analysis of the manifest sense organs. *If one can understand that perception of manifestation itself is an affect of these greater scalar wave constructs, it will not seem so outrageous to consider the reality and integrity of sensing and perception beyond the range of the presently identified sense facilities.*

ESP, HSP and Evolution

"Extra-sensory perception" is not "EXTRA" at all, it is a *normal attribute* of the *evolving human organism*, as the consciousness ensconced within the *body hologram* continues its *natural expansion* into the greater portions of its evolutionary imprint. Individuals displaying abilities of "Extra-sensory Perception" are not gifted with something *other than what is characteristic to the human form*, **they are simply *a bit ahead in the stage of development* of the natural human perceptual capacities. Everyone has dormant potentials for some degree of "ESP"; like all things within the human organism, ESP is regulated by the *function of the DNA* and its naturally intended *relationship* to the *Kathara Grid and morphogenetic structure.*** Individuals with **less distortions and blockages** within the **Kathara Grid** (and the resulting DNA malfunctions such distortions create) will have *greater ease* in calling the dormant perceptual facilities into activation. *Individuals who consciously attempt to use the greater perceptual facilities will stimulate a more rapid advancement into reclaiming this stage of evolution, than those who refuse to acknowledge the existence of their greater sensing facilities.* **The greater sense facilities bring the *higher dimensional wave spectra* and its inherent reality fields into the *perceptual range* of the earthly embodied human consciousness, and so the greater sense facilities can be considered the HIGHER SENSES, a term far more accurately describing their orientation than the term *Extra Senses*. "ESP" becomes "HSP"- *Higher* Sensory Perception - a *natural attribute of experience for the evolving human organism.***

THE 5 KNOWN SENSES

The 5 Known Human Senses

In order to understand the nature of the **Higher Senses** it is necessary to understand a bit more about the nature of the **common senses**, or the "*lower senses*" if you will, for the **common senses** are those that are "tuned to" perception of the **lower frequency dimensions. Perception of *Sight, Sound, Touch, Taste and Smell* are *experiential affects* of the *scalar-wave constructs* that exist within the NADA HOVA BODY and the TELLURIC SHIELD, the Kathara Grid and morphogenetic field structures that are composed of and stationed within the frequency bands of dimensions 1, 2 and 3, the first Harmonic of manifestation.** The **APPARTHI**, or "***energy receivers***" within the Nada Hova body have their first imprint within the **Kathara Grid Level-2: Crystal Seals** structure. The first pattern for the sense facilities responsible for manifesting the organs of perception of the 5 identified senses exist within the configurations of electro-tona. Partiki units that form the crystalline seals of which the dimension-2 **Telluric Shield** is constructed. Through the Partiki Phasing flash-line projections of the Telluric Shield, the "armature" or 3-dimensional blueprint for the organs of perception are set for manifestation within the body hologram.

The 5 Known Senses and Sound Transduction

The 5 known senses are more intimately related than commonly supposed; ALL represent a form of SOUND TRANSDUCTION - the frequencies, or flash-line sequences, within the 1st, 2nd and 3rd dimensional bands, that form the identifiable wave patterns presently associated with sound waves, are drawn into the Level-2 Kathara Grid Crystal Seals by **Apparthi receivers** that carry like flash rhythms. Once drawn into the Apparthi receivers the sound spectrum becomes modulated into different flash-line rhythms and sent into the **Diodic Points of the Level-3 Kathara Grid.** Once intersecting with the frequencies within the Diodic Points the frequencies from the Apparthi are then **divided/ polarized** and projected up and down the Harmonic-1 dimensional scale, **creating a pattern of energy refraction** within the morphogenetic field and physical body apparatus. The polarized frequencies first appear within the DNA as part of the core electrical vibration, and then further transmute into **electrical impulse** that manifests as configurations with the **blood chemistry** and within the **Central Nervous System.** These synthesized electrical impulses are further projected through the **scalar-wave grids** that hold the form of **the identified sensory organs**, finally **culminating in the interrelated qualities of perception associated with the identified sensory organs and their 5 known attributes of sensing.**

THE 12 HUMAN SENSES

The Interwoven Senses and the Hova Bodies

As in the case of the Lower Senses, the *Higher Senses* and their experiential manifestations are the product of consciousness interacting with the *dimensionalized scalar organization* of the human morphogenetic anatomy. Whereas the Lower Senses are affiliated with the transduction of sound frequency within the *1st, 2nd and 3rd Dimensions*, through the structures of the *Nada Hova Body* and the *Telluric Shield* of the *first Harmonic*, the Higher Senses are in like fashion associated with the scalar organization of the *Higher Dimensional Hova Bodies* and their corresponding *Shields*.

In truth, all of the sensing facilities organic to the human form comprise interwoven and interrelated systems of *energy refraction* that together create the perceptual experience of *externalization* within the hologram of manifestation. For example, it is not commonly recognized that the sense of **smell** is in actuality part of the function of the **auditory facility**, and thus represents an intrinsic part of the sense of hearing. It is also not commonly understood that the processes associated with **vision** are not only connected to the processes of the brain and Central Nervous System, but also with the formation of *crystalline structures* with the plasma of the **blood. The senses are not nearly as *separate* and *independently functional* as they appear to be when viewed from outside analysis.** They are rather a part of an **interwoven system of electro-tonal information relay** that spans the 15-Dimensional morphogenetic field anatomy of the human organism.

The 12 Human Senses

In terms of breaking down the sense facilities for structural analysis, such as is done by modern science in identifying the 5 Known Senses, we will describe the sensory attributes of the **Higher Sense facilities** in terms of their *primary orientation*, *location of their primary Apparthi receivers* within the *Hova Body* structures and by the type of *perceptual or experiential attributes* produced through their function. **In such categorization of the human sense facilities there are *7 additional*, as yet unidentified, *sense facilities* operating within and through the human consciousness**, which are collectively responsible for translating the scalar fields of dimensionalized reality into the *illusionary holographic picture* of externalized manifestation and its qualities of space, time, matter and identity individuation. **Collectively there *are 12 Primary Sensing Facilities* within 15-Dimensional Human Anatomy.**

PERCEPTUAL BLOCKAGE, KATHARA GRID DISTORTION AND KATHARA HEALING

Perceptual Blockages

The Higher Senses are connected to the Lower Senses and provide attributes of perceptual experience characteristic to their dimensional levels, but in the present stage of human genetic evolution the Higher and Lower Senses are not fully "plugged into" each other, and so the various higher dimensional fields, and the sensory abilities associated with the Higher Senses, appear to be separate or unavailable to the embodied human consciousness.. **The Higher and Lower Senses plug in through opening of *Kathara Lines* in the *Level-1 12-Tree Kathara Grid*, which creates a reciprocal opening and expansion of the DNA, Hova Bodies and activation of dormant nerve networks within the brain, molecular core and Central Nervous System of the body.**

Presently the human senses are *phase-locked into a 3-dimensional perceptual field* due to blockages between the *3rd and 4th Kathara Centers*, which block the Apparthi receivers within the Nada Hova Body from accepting compatible electrical impulses from the higher dimensional Hova Bodies. This Kathara Grid blockage manifests within the body as fragmented units of DNA (**"Junk DNA"**), that serve to render the natural processes of multi-dimensional data transfer into the Central Nervous System inoperable. Portions of *higher dimensional experience* come to conscious attention in the form of *dream perception* or *intuitive impression,* but the natural clear pathways of multi-dimensional perception are blocked to a large degree within contemporary humanity.

Perceptual Blockages and Kathara Healing

Blockages in the Kathara Grid and their reciprocal blockages in the human perceptual field can be progressively removed through practices of *Kathara Healing*, and utilizing the *Maharic Shield* to reawaken the Organic Imprint for Health.. As Kathara blockages are progressively repaired, the genetic code will expand its function by reassembling and activating the presently dormant portions of the DNA imprint. DNA expansion will create reciprocal alterations in the bodily metabolic rate, brain, blood, glandular and hormonal function, particle spin speed and operation of the Central Nervous System, that will allow for a progressive, natural activation of the Higher Sense facilities and expansion of the human perceptual field into the multi-dimensional arena. **In Kathara Healing the dormant Higher Senses will be progressively brought into activation**, beginning with the **6th -Audurea-Merkaba Sense** and the **7th-Tristet-Cellular Telepathy Sense** through which **Inner audio-visual-direct cognition** skills will progressively develop. These skills will be employed in the processes of Kathara Healing, and in so doing they will be progressively stimulated into greater levels of activation. As the dormant Sense facilities are called into activation, Kathara Healing techniques to remove Kathara Grid blockages are used to realign the *Holographic Template* to restore the **Imprint for Health,** through which natural perceptual expansion will progressively take place.

GROWTH RATES

LEVELS OF HUMAN ANATOMY

The **Kathara Grid** is the *Core Holographic Template* upon which the human body and consciousness enter dimensionalization in order to experience manifestation.

There are **3 Levels** to the Human *Kathara Grid*: *Level-1-* The **12- Tree**, *Level-2* – **Crystal Seals** and *Level-3* – **Diodic Points**.

Kathara Level-1 –12-Tree contains the primary **12 Kathara Centers** and primary **15 Kathara Lines**, that correspond to various regions of the physical body and bio-energetic field and which "ground" consciousness into the framework of dimensionalization.

Kathara Level-2 – Crystal Seals contain the **Signets** *–consolidated points of dimensional frequency* – the **Shields** – *3-dimensional scalar-wave discs emanating from sets of 3 Signets* through which the *Hova Body* energy capsules form– and the **Star Crystal Seals** and **Seed Crystal Seals** through which the *Chakras* and *Bio-energetic Field* levels emerge.

- *Kathara Level-3 – Diodic Points* are **Coordinate Points** where the flash-line sequences from one Shield and its Seals cross over and through those of other Shields to form minute **"White Hole" vortices** of energy-consciousness relay between the Hova Bodies and stations of identity.

- **Hova Bodies** are *3-dimensional scalar grids* in the form of **Concentric Spheres** that form around each **Shield** in the *Kathara Level-2 Crystal Seals Grid*, which serve as "tissue capsule" encasements around each Harmonic of energy-identity within the 15-dimensional scale.

- There are **5** *Dimensionalized* **"Ariea" Hova Bodies** forming human anatomy, which emanate from the **5** 3-Dimensional scalar **Shields** of the *Level-2 Kathara Grid*. Each Shield and Hova Body corresponds to **3 Kathara Centers** in the *Level-1 12-Tree Grid*.

- **5 Ariea Hova Bodies** and Corresponding **Shields**:
  Nada Hova-Telluric Shield-Dimensions1-3
  Alphi Hova-Doradic Shield-Dimensions 4-6
  Betcha Hova-Teuric Shield-Dimensions 7-9
  Mahara Hova-*Maharic Shield*-Dimensions 10-12
  Raja Hova-Rishic Shield-Dimensions 13-15

- The **Signets** and the **Shields** can be used to direct the function of the *Kathara Level-1 12-Tree Grid* and all built upon it. **Kathara Centers** can be used to trigger activation of the *Signets* and *Shields*.

- The first **4 Hova Bodies** and their **Horizontal Shields**, are most important in terms of human evolution. Activation of the **Signets** activates their corresponding **Shield**, which in turn releases the **tissue capsules** between *Hova Bodies*, allowing merger to occur. When the **first 4 Shields** activate the body is able to integrate the Avatar identity and **transmute** into pre-matter liquid-light wave form.

- In *Kathara Healing* the Harmonic-4 **Maharic Shield** is used to restore integrity to all *Shields* and *Hova Bodies* below, which progressively clears the *Kathara Grid* of distortions.

- *Level-1 Kathara Lines* direct the **Vertical** Flash-lines, *Level-2 Crystal Seals* control the **Horizontal** Flash-lines and *Level-3 Diodic Points* govern **Diagonal** Flash-lines. Together the 3 levels of the Kathara Grid form the 3-plane armature upon which the 3-dimensional hologram is created.

Each **Signet** within a Hova Body Shield holds the electro-tonal program for one *Seed Crystal Seal*. Each *Seed Crystal Seal* corresponds to one Level-1 **Kathara Center** and holds the program for one primary **Axiom Line** – a *single axis* dimensional flash-line sequence.

The **12 Primary Axiom Line** programs of the *Seed Crystal Seals* create separate *dimensionalized bands of frequency* within each Hova Body, forming a distinction between *dimensionalized levels* within the bio-energetic **Auric Field**. The Axiom flash-lines cross over and through each other to form the *Coordinate Points* between the Shields through which the *Level-3* **Diodic Point Vortices** emerge.

The points in the Kathara Grid where Axiom Lines cross over and through the **Central Vertical Kathara Line** in the *Level-1 Grid*, and the **Horizontal flash-lines** in the *Crystal Seals* of the *Level-2 Grid*, form **consolidated Diodic Points** with *numerous Diodic Vortices* – these are called **CHAKRAS**. Each Chakra corresponds to an *Axiom Line, Auric Level, Seed Seal, Kathara Center*, and *Dimensional Frequency Band* and ***Merkaba Field***.

- The **12 Primary Axi-A-Tonal Lines** are a set of 12 *Vertical Energy Flow-lines* that run through the body, which are created by the consistent cross-over points of the rotating, single-axis flash-line sequences projected from the **Seed Crystal Seals.**

- **Axi-A-Tonal Lines 11 and 12** combine with the **Central Vertical Kathara Line** to form the **Hara Line**, the foundation of the **Central Body Current.**

- The **Hara Level** is the ***outer level*** of the **Kathara Level-2 Crystal Seals Grid**, can be viewed from *9th-Dimensional perception* and is used in Kathara Healing Level-2 .

- The *Hara Level* is composed of the **Hara Line, 6 Primary Hara Points** and the **Complexes** of energy processing they govern.

- The **Axi-A-Tonal Lines** and **Hara Level** of the *Kathara Level-2 Crystal Seals Grid* are elements of 15-Dimensional anatomy that are used in later applications of Kathara Healing.

- *Axi-A-Tonal Lines* set the core electro-tonal scalar-wave program upon which the **DNA** will manifest. The human DNA imprint contains the program for **12 strands of DNA**, one manifesting upon each of the **12 Primary Axi-A-Tonal Lines.**

- The human form was designed to embody **12 dimensions** of consciousness. The original human genetic code is called the **Silicate Matrix** and when operational it allows human cellular structure to **transmute** through ***4 Harmonics*** *of matter density*.

- The Silicate Matrix is mutated in present day humans due to ancient **Kathara Grid blockages**, which manifest as distortions of form and function within the DNA. "*Junk DNA*" is part of this distortion.

- Contemporary human DNA can be **reverse-mutated,** and its interdimensional functions restored, by applications of **Kathara Healing.**

- Each of the 12 strands of DNA *corresponds to* one of 12 *Dimensional Frequency Bands, Kathara Centers, Seed Crystal Seals, Signets, Axi-A-Tonal Lines*, and *Chakras*. Each **Hova Body Shield** governs the function of a **set of 3 DNA strands.**

THE 12 HUMAN SENSES

- The **human senses** are the *experiential result* of the *scalar standing-wave organization* inherent to the human form.

- Senses are **scalar arrangements** that *translate energy signatures* from the **Unified Field** into *usable data of relationship*.

- The sensing systems are built upon sets of **energy receivers** within the morphogenetic field that are called **APPARTHI**. The Apparthi inherent to Kathara structure serve to **block certain flash-line sequences** out of the morphogenetic field and allow others in to translate into perception.

- The flash-line sequences blocked by the Apparthi create **Gaps of Perception** of the *Unified Field*, which give us the *experience* of **externalization** and **separation of form.**

- *Apparthi receivers* create **refraction and polarization of flash-line sequences** that translate into a variety of identifiable ***holographic sensory perceptions.***

- The sense facilities correspond to the structure of the **Hova Body Shields** and **DNA.** In categorizing the interwoven sense facilities by their *primary orientation*, location of their *Apparthi receivers* within the Hova Bodies and the *experiential attributes* they produce, the human organism can be said to possess **12 Primary Senses**.

- The **5 known senses** are products of the operations of the **Nada Hova Body** and **Telluric Shield**, and thus correspond to **dimensions 1-3**.

- There are **7 as yet unidentified senses** that correspond to the higher dimensional *Hova Bodies*, *Shields* and presently dormant strands of *DNA*.

- As we evolve to *activate* and *reverse-mutate* the **DNA** imprint, through *Hova Body* alignment and merger, the experiential attributes of the higher dimensional senses will become more apparent.

- Due to their *dimensional affiliation*, the *5 known senses* can be viewed as the **Lower Senses**, the *higher dimensional senses* as the **Higher Senses**. Perception through the *Higher Senses* is called ***Higher Sensory Perception*** or **HSP**.

TAPPING THE INNER MENTOR

Levels of Consciousness and the Perceptual Bridge

In earlier text we have learned of the structure human consciousness takes when entering the scalar fields of dimensionalization for the perceivable experience of manifestation. In comprehending the true structure of multi-dimensional anatomy, with its **Kathara Grid, Hova Bodies** and **Shields, Diodic Points** and **levels of bio-energetic substance,** we can begin to see that there is much more to human consciousness than meets the eye - **much more *energy-identity* operating presently beyond the view of our 3-dimensionally focused earthly personality.**

There are portions of our consciousness stationed within the Hova Bodies of the higher dimensional fields, and these expanded levels of ourselves hold knowledge and participate in perceptual experience beyond the usual range of our waking perceptions. As we evolve and expand through **Hova Body Integration** and the resulting activation of dormant DNA components, we will progressively have *greater conscious access* to these expanded levels of consciousness while we are actively focused within the waking 3-dimensionally embodied state. However, **we do not have to wait until our evolution plods along to bring us to these expanded perceptual states,** we can, from our waking state of 3-dimensional consciousness begin to actively tap this hidden reservoir of knowledge and perceptual experience. **We can take an active hand in *expediting the process* of our multi-dimensional evolution by using our dimension-3 *mental body awareness* to direct our higher awareness into our current range of perception.** We can begin to build a **PERCEPTUAL BRIDGE** between our 3rd-Dimensional and Higher Dimensional consciousness. **In taking the initiative for building this Bridge of Consciousness we begin to stimulate our Higher Senses into operation, expediting the natural process of Higher Identity Integration.**

Through building a PERCEPTUAL BRIDGE
between our present state of awareness
and the levels of our consciousness
stationed in the Higher Dimensional Hova Bodies,
we can actively expedite our own Bio-Spiritual Evolution.

THE MENTOR

The Perceptual Bridge and Creating the Mentor

The Higher Dimensional levels of human consciousness are not dormant within their respective dimensional bands of function, they are quite awake and aware within their own dimensional fields. As we perceive and interact with the 3-dimensional world within which our present awareness is focused, the Higher Dimensional portions of our consciousness are also actively perceiving and interacting with the dimensional environments within which they are focused. **Higher dimensional aspects of our awareness *seem cut off* from our perceptual view because our consciousness is presently focused through a *genetic code arrangement and Kathara Grid orientation* that blocks out the frequencies of those higher stations of identity.** If we can realize that expanded portions of our consciousness simultaneously exist within the higher dimensional frequency bands, we can also realize that it is possible to access such levels of our own identity by building **Perceptual Bridges** between our 3-dimensional perspective and the portions of our consciousness stationed within the Higher Dimensional Hova Bodies

We can begin to build a *Perceptual Bridge* between ourselves and our *Higher Selves*, by using simple *frequency modulation techniques* of Kathara Healing, such as Technique #1: *Awakening the Mentor and the 6th and 7th Senses*. In this scalar-grid activating exercise, we will awaken dormant **Partiki Phasing Flash-lines** and activate dormant portions of the **Kathara Lines** in the *Kathara 12-Tree Grid*, to begin opening the channels of communication between the consciousness focused within the *Nada Hova Body* and that focused within the *Alphi Hova Body* of Harmonic-2. **In this exercise we will create the MENTOR, a portion of our consciousness composed of *3rd, 4th and 5th Dimensional frequencies*, that will serve as an *intermediary focus of awareness* through which we can begin to receive guidance and knowledge from our 2nd-Harmonic of consciousness.** Creating the MENTOR will begin the process of activating dormant **DNA**, opening new **nerve networks** within the Central Nervous System of the 3-dimensional body, and activating dormant **APPARTHI** frequency receivers within the *Level-2 Crystal Seals Kathara Grid*. **Through creating the MENTOR, we begin to build the Perceptual Bridge between the 1st and 2nd Harmonic of our conscious awareness.**

The MENTOR is a portion of our identity that we create to serve as an intermediary focus of awareness between the Nada Hova Body and the Alphi Hova Body; a PERCEPTUAL BRIDGE between our first and second Harmonics of Consciousness.

The MENTOR and Kathara Healing

In the practices of Kathara Healing we will use the MENTOR as a source of **guidance, information retrieval, objective observation** and as a **communications link** between our own higher consciousness and the higher levels of consciousness in those who come to us for healing facilitation. **Awakening and working with the MENTOR will become a standard practice in our applications of Kathara Healing** In creating the MENTOR we are using our creative power of scalar-grid manifestation (thoughts and mental images are scalar-grid morphogenetic field forms) to bring into being a **specialized portion of our consciousness** that can relay **frequency** from our higher Harmonics of Consciousness to our 3-dimensionally focused identity. **With repeated use of the MENTOR focus of awareness we will develop the ability to simultaneously hold 2 Harmonics of consciousness, and we will begin to reclaim the natural flexibility of focus that is the healthful condition of embodied human consciousness.** Through the MENTOR focus of attention we can reach higher levels of cognition and understanding regarding application of healing facilitation, and we will more rapidly call into awakening the Higher Sense facilities of the 15-Dimensional Anatomy

Other Uses of the MENTOR Focus

In creating the MENTOR focus we will begin to realize that even the 3-dimensional focus of awareness with which we are most familiar is far more flexible than once supposed The MENTOR is not simply an **inert creation**, but rather a **living** portion of our conscious identity composed of portions of the waking self and portions of the Higher Self. MENTOR can become an **advisor**, a portion of self able to "keep its head above the illusion" when you are confronted with challenging events in the 3-dimensional arena: a part of you able to remain clam, focused and able to make clear decisions beyond the confusion of mental or emotional body processing MENTOR can be sent into the **Cellular Memory** of the body to locate core issues or reincarnational blockages, and can serve to moderate between sub-personality fragments and the "Inner Child". MENTOR can like wise be used to **harmonize communications** between self and others, as you can send the MENTOR focus into the higher dimensional fields to connect with the higher selves of others for conflict resolution Playing with the MENTOR focus can also have great rewards. You can focus your attention in the Mentor Space and then direct the MENTOR across the room to begin practicing affects of **BILOCATION.** You can travel with MENTOR to distant locations to develop **REMOTE VIEWING SKILLS**, which will be used in later Kathara Healing levels for **REMOTE HEALING FACILITATION.** MENTOR can become a **vehicle for conscious transport** of your awareness, while awake and also in **dreaming and higher dimensional projection.**

TECHNIQUE # 1

AWAKENING THE *MENTOR* AND THE 6TH AND 7TH SENSES

Awakening the Mentor:

1. Place the **fingertips** of both hands and the focus of your attention at the **Navel.** Take a few slow, full breaths then visualize the image of a **Blue Flame** (like a gas stove flame) deep inside the body behind the Navel. Gently **massage** the Navel region while envisioning the **Blue Flame.**

2. **Stop massage** and visualize a **Sphere of White Light within the Blue Flame** behind the Navel. **Place your attention within the White Sphere** and imagine that you can feel its reality around you, as if you are sitting within the White Light Sphere.

3. Breath gently and visualize the **White Light Sphere moving upward** through the center of your body until it reaches the center of the brain at the **Pineal Gland. Stop movement of White Light Sphere at the Pineal Gland**, then visualize the **White Light Sphere moving to the RIGHT** in a straight, horizontal line **OUTSIDE OF THE BODY** until it is positioned in your **auric field** just above your **RIGHT SHOULDER.** *The White Light Sphere positioned over the Right Shoulder now represents a portion of your awareness that was raised to the 5th-Dimensional frequencies via its passage through the Blue Flame and the 5th Kathara Center at the Navel.* You will name this part of your higher identity **MENTOR.**

4. Imagine that you can **feel the reality of the White Light Sphere** that holds your MENTOR resting gently above your Right Shoulder **as a "fuzzy ball of energy".** *MENTOR serves as the meeting point between your waking conscious mind and the 5th-Dimensional portion of your Soul Matrix Identity- the Archetype. With practice, you can lean the energy of your waking awareness from its position within your head, over to the right and into the MENTOR Sphere, to receive direct cognition, audio and visual guidance from your 5th-Dimensional Identity Station.* In **Healing Facilitation** MENTOR will communicate with the 5th-Dimensional Archetype aspect of your **Client's Soul Matrix**, asking how you may best serve the Client's Highest Evolution; guidance MENTOR receives will be translated to you from MENTOR in the form of intuitive urge, spontaneous cognition or audio-visual directions. MENTOR will also serve as a **translator of information from your higher dimensional Stations of Identity** to your conscious mind. MENTOR can also be taken into the Dream State with you to assist in **Dream Recall** and initiating **Out-Of-Body Travel.**

5. Practice creating and sensing the Mentor Sphere over your Right Shoulder Carry it around with you wherever you go, and play with *moving the focus of your consciousness back and forth between the inside of your head and MENTOR.* Try perceiving from both focuses of attention simultaneously. Such play will help stimulate neurological sensitivities to translating and perceiving information from the 5th and higher dimensional Stations of Awareness.

TECHNIQUE # 1: continued
AWAKENING THE *MENTOR* AND THE 6TH AND 7TH SENSES
Awakening the 6th and 7th Senses: The *Audurea* and the *Tristet*

1. Focus your attention on the **MENTOR Sphere** over your Right Shoulder. Take a few slow, deep breaths and visualize MENTOR *expanding into a Sphere the size of a Basket Ball.* Use the next **INHALE** to draw the MENTOR Sphere *toward your head*, visualizing MENTOR moving from over your Right Shoulder to a position *surrounding your entire head.* **EXHALE**, *stop the movement* of the MENTOR Sphere, and imagine that you can feel its "fuzzy energy" all around the outside of your head; *as if your head is now within the Basket Ball size MENTOR Sphere.*

2. With the next **INHALE** breath, **contract MENTOR into a small Sphere of White Light** positioned inside the center of the brain at the **Pineal Gland.** Exhale and breathe slowly for a moment. With the next **EXHALE** breath, *push* the small MENTOR Sphere from the Pineal Gland, straight forward and into the **6th-Chakra** at the *Forehead.* Visualize MENTOR moving into the 6th-Chakra from inside the head, then continuing to move through the 6th Chakra spiral straight outward and *away from the body.* Imagine the MENTOR Sphere traveling outward through the long **Blue-Violet Tunnel** of the 6th Chakra spiral, until you visually loose track of the MENTOR Sphere far out in front of you.

3. Take a few slow breaths, then on the next **INHALE** visualize the MENTOR Sphere *re-appearing* in the distance of your 6th Chakra spiral, and *riding in on the inhale breath*, back into the **Pineal Gland.** Breathe slowly.

4. With the next **EXHALE**, visualize the MENTOR Sphere moving *down from the Pineal Gland* at the center of the brain, stopping at the center of the **5th Chakra** in the *Throat.* Breathe slowly. On the next **EXHALE** push the MENTOR Sphere straight outward, imagining it moving forward from inside the Throat, into the [illegible]-spiral of the *5th Chakra.* Visualize MENTOR *riding the current of the exhale breath* out into the distance within the [illegible] **tunnel** of the 5th Chakra spiral, until it fades from view. Take a few slow breaths and on the next **INHALE** imagine MENTOR returning through the 5th Chakra [illegible] spiral to rest deep within the **Throat.** Use the final **INHALE** to move MENTOR back up to the **Pineal Gland** and the final **EXHALE** to *push* the MENTOR Sphere back out to its "home" position in the auric field over the **Right Shoulder.**

This process opens up the 1st-5th Sub-frequency Bands within each dimensional layer of the 6th and 5th Chakras, beginning the process of opening the 6th-Audurea and 7th-Tristet Senses, stimulating Inner Vision and Audio to higher dimensional frequency perception.

MAHARIC RECODING, FREQUENCY SUB-HARMONICS & THE MAHARIC SEAL

Kathara Healing and Reaching the Core of Dis-ease

In earlier text we have explored the significance of the **Kathara Grid** and its role as the **Holographic Template** upon which the morphogenetic field, body and consciousness manifest within the 15-Dimensional system. We have learned that the Kathara Grid is the **core template** upon which the *morphogenetic field* manifests, and that the *morphogenetic field* is the **blueprint** upon which the body systems and embodied consciousness manifest. Through our study of these *core structures of manifestation* we come to realize that *true and lasting health or healing* must be approached from the deepest levels of personal creation, the *morphogenetic reality* within which all dis-ease conditions have their origin. **Kathara Healing applications are intended to reach the *core of systems malfunction*, the various levels of the *morphogenetic field and Kathara Grid*, in order to restore the *Imprint for Health* within the Holographic Template for manifestation.**

The Mahara Hova Body, Maharic Shield and the Imprint for Health

In *Level-1 Kathara Healing* we will learn the first and most important level of *restructuring the Holographic Template* to hold its original Imprint for Health - the MAHARIC RECODING PROCESS. The **MAHARIC SHIELD** is the manifestation template upon which the **MAHARA HOVA BODY** of *Harmonic-4* manifests. The Mahara Hova Body is the scalar-grid that holds the **10th, 11th and 12th-Dimensional** aspects of consciousness, and represents the **ORIGINAL POINT OF MANIFESTATION** -the **creation point** when consciousness moved from its pure scalar-wave state of being into the dimensionalized scalar-grids through which the illusion of external holographic projection could be experienced. The Mahara Hova Body and its station in Harmonic Universe-4 represent the original **PRE-MATTER LIQUID LIGHT** fields of manifestation through which we passed in order to enter the experience of density and individuation of matter form.

Prior to our entering the dimensionalization of the systems within which matter can be perceived, we existed in **pure scalar-wave form** - a scalar-pattern that held the **original, pure and perfect pattern** for our creation as consciousness. The Mahara Hova Body and the Maharic Shield are the Liquid Light Pre-matter Scalar-templates that hold our original pattern of wholeness, our original **CREATION IMPRINT.** Our creation imprint is the **ORIGINAL IMPRINT FOR HEALTH**, the condition of **eternal being** free from Hova Body distortions picked up in the lower dimensional fields.

THE 12th-DIMENSION and FREQUENCY SUB-HARMONICS

In Level-1 Kathara Healing we will utilize the *Imprint for Health* as held within the *Maharic Shield* to begin REPATTERNING the Kathara Grid back to its original level of function. The frequencies of the **12th-Dimension**, as embodied within the **Maharic Shield**, contain within them as **Frequency Sub-Harmonics** ALL OF THE FREQUENCY BANDS FROM THE DIMENSIONS BELOW, along with the natural frequency spectra characteristic to the 12th-Dimension. Each Dimensional Frequency Band within the 15-Dimensional Spectra contains within itself its own **12 Primary Sub-frequency Bands** (portions of the whole dimensional Partiki Phasing flash-line sequences), plus a **reflection set** of the frequency spectra from **all of the Dimensional Bands below.**

For example, Dimension 2 contains its own *12 Primary Sub-frequency Bands*, **plus** *a reflection set of the 12- Primary Sub-frequency Bands* that make up the *Dimension-1 Frequency Band* below. Dimension-1 has 12 Primary Sub-frequency Bands, Dimension-2 thus has 12 Primary Sub-Frequency Bands plus 12 Secondary Sub-Frequency Bands from Dimension-1for a total of *24 Sub-Harmonics* in Dimension 2. **This pattern of FREQUENCY SUB-HARMONICS builds upward through the 15-Dimensional Scale. The 12th-Dimensional Frequency Band has a total of 144 Sub-Harmonics** - 12 Frequency Bands x 12 Sub-Frequency Bands each = *144 Sub-Harmonic Frequency Bands*. Because the 12th-Dimension holds within itself *all of the Frequency Spectra and scalar-grid programs* from the lower dimensions, the *12th-Dimensional Frequencies have the ability to "plug into" and override any Partiki Phasing flash-line pattern from the lower dimensional fields*. **The ORIGINAL PATTERN OF CREATION for the lower dimensional structure itself is held within the *12th-Dimensional Frequencies*, and so the 12th-Dimension *Sub-Harmonics* can be used to *correct any distortion* with the dimensional frequencies of the Lower Hova Bodies and their Shields.**

The Maharic Shield and the 12th-Dimension

As the Maharic Shield and Mahara Hova Body are composed of 10th, 11th and 12th-Dimensional scalar grids, they contain within them the **144 Frequency Sub-Harmonics** of the entire 12-Dimensional Spectrum. The human morphogenetic field is designed to hold the 144 Sub-Harmonic Spectrum, which is fulfilled through activation of the original **12-Strand DNA Silicate Matrix** gene code. Because of its 144 Sub-Harmonic scalar-wave spectrum, the 12th-Dimensional level of the **Maharic Shield** can **reset** the *original, non-distorted imprint of Partiki Phasing flash-line sequences* within the entire *Kathara Grid 12-Tree, the Kathara Centers, Kathara Lines, the Hova Bodies, DNA* and within any level of the morphogenetic field and manifest body built upon them. The *Maharic Shield* is the Kathara **RESET BUTTON.**

REMEMBER! A FREQUENCY BAND is a *fixed, repeating sequence* of *Partiki Phasing Flash-lines* - "flashing on and off" cycles of scalar standing-wave points within the scalar-grid template, caused by the *fission/ expansion and fusion/ contraction of Partiki Units*. A SUB-FREQUENCY BAND is a *fixed, repeating sequence of Flash-lines* that is *part* of the full cycle of the *Frequency Band* Partiki Phasing sequence. A FREQUENCY SUB-HARMONIC represents a replica of Frequency Band Flash-line sequences from the dimensions below, carried within the Primary Flash-line sequences of the Dimensions above.

HIGHER DIMENSION = MORE FREQUENCY SUB-HARMONICS = FASTER FLASH RATES = HIGHER FREQUENCY = FASTER OSCILLATION/ SLOWER VIBRATION = SHORTER WAVE LENGTH = SLOWER ELECTRON SPIN = LESS PERCEIVABLE MATTER DENSITY

The Maharic Shield - Core of Healing Therapeutics

To restore the **Imprint for Health** within the *Body-Mind-Spirit System*, the **Holographic Template of scalar-grids** upon which the system manifests must be **restored to its original function.** *Topical applications* of healing modalities within the physical body, bio-chemistry, DNA, Auric Field, Chakra System, and Level-2: Crystal Seals and Level-3 Diodic Points of the Kathara Grid can create *temporary change* toward healing, but the **disharmonic conditions** held within the core **Level-1 12-Tree Kathara Grid** will eventually **override** alteration made to the outer levels of the morphogenetic field or body systems. **Working with outer levels of the Bio-system can *assist* in the healing process, but first the *Imprint for Health* must be restored within the *Level-1 12-Tree Kathara Grid*.** The *Level-1 12-Tree Grid*, with its *Kathara Centers* and *Kathara Lines* is created upon the **144 Frequency Sub-Harmonic** Pattern. As the **Maharic Shield** and Mahara Hova Body are the only portions of the dimensionalized scalar-grid anatomy that hold the full **12th-Dimensional Frequency Band** with its *144 Sub-Harmonics*, the **Maharic Shield** and its corresponding **10-11-12 Kathara Centers** are the *only portions of the morphogenetic anatomy that can override and restructure the electro-tonal scalar standing-wave point arrangements within Level-1 Kathara Grid.* **Thus it is with the *Maharic Shield* that core healing therapeutics must begin.**

Critical Mass and Simultaneous Healing of Core/ Outer Morphogenetic Levels

Activating the **Maharic Shield** will **open, activate and realign** the *scalar-wave flash-line sequences* of dormant *Kathara Centers, Kathara Lines, Crystal Seals, Hova Bodies, Diodic Points, Chakras* and *DNA* within the outer levels of the morphogenetic field and body. Once the **Imprint for Health** has been *temporarily restored* within the *Core Holographic Template Kathara Grid* via running the *Flash-line sequences* of the **Maharic Shield** through the *Level-1 Kathara Grid*, the *outer layers of the anatomy can be further realigned* to expedite manifestation of the Kathara Grid Repatterning into the outer levels of the Bio-system. **Technique # 2: The Maharic Seal and the Liquid Light Cleanse**, begin the process of running the 12th-Dimensional Flash-line sequences, via their Frequency Sub-harmonics, through the Kathara 12-Tree Grid to **REPATTERN** *distorted flash-line sequences* within the core Holographic Template. In the beginning of using this technique, the affects of this reprogramming will last only several hours, as the outer levels of the Bio-field will have greater **"Critical Mass"** in their distortion patterns, than the Kathara Grid can immediately override **Full healing comes when the renewed Imprint for Health reaches CRITICAL MASS within the morphogenetic field.** Critical Mass is reached via *frequent use of the Maharic Seal* and *outer level Bio-field therapeutics.*

Kathara Healing Theory and Applied Methods

In Kathara Healing the first priority is to *reset the Integrity* of the *Kathara Level-1; 12-Tree Grid* by Re-patterning its flash-line sequence program to the *Maharic Shield* via the *Maharic Seal and Liquid Light Cleanse.* This process sets the electro-tonal **"ground"** within which alterations of *outer morphogenetic levels* can connect, reawakening dormant **APPARTHI** *frequency receivers* within the *Level-2: Crystal Seals*, which allows the morphogenetic field levels to *expand* enough to hold the *higher frequencies* of the *Imprint for Health.* After the **Healing Ground** is set within the *Kathara Grid*, additional applications of Kathara Healing can then be applied to various other levels of the Kathara Grid, Morphogenetic Field and Body. **There is an infinite variety of Kathara Healing Bio-energetic applications**, that range from Levels 1, 2 and 3 Kathara Grid work, reprogramming the Kathara Centers, Kathara Lines, Hova Bodies, Shields and Signets, reversing the Miasmic/Karmic Imprint and accelerating the opening of the Diodic Points, to working with the Chakra System, Meridian and Axiom Lines, DNA and physical body points while running the Triadic Currents for healing. In coming Levels of the *Kathara Healing Program* we will learn the use of the **GEOMANCIES** and **FIRE LETTERS**-key **Symbol Codes that serve as scalar-wave guides** to reset the electro-tonal *flash-line sequences* within the morphogenetic body, and the application of the Symbol Codes to the treatment of specific physical, emotional, mental and spiritual dis-ease conditions. We will explore working with the **Color Cap Stones** of the Dimensional Frequency Bands and how they can be used in combination with the Symbol Codes for use in **Manifesting** desired conditions and **De-manifesting** undesirables, both within the body and in the 3-dimensional life drama.

Applications of the Level-1 Kathara Healing Program

In Program Level-1 we are setting the foundations upon which all the other skill levels of Kathara Healing are built. The focus of the Level-1Program is to create Morphogenetic Repatterning via the Maharic Shield, and to begin clearing the Miasmic/ Karmic Imprint that blocks various areas of the Hova Body Imprint. We will next learn to add **FORCE AND POWER** to our *Morphogenetic Recoding Process* by opening the **PLANETARY BIO-FEED INTERFACE SYSTEM™** to draw energy directly from the **Planetary Maharic Shield,** and we will begin learning of the *physical body massage point sequences*- **Sequence 1 and 2 Kathara Points** - through which we can begin to *regulate the flow of energy within the Bio-system* for **Regeneration** of the Imprint for Health and **Revitalization** of the Body-Mind-Spirit System. In **Section 2** of this course we will explore **MULTI-VECTOR HOLOGRAPHIC RECODING** - clearing the *Miasmic Imprint* from the Kathara Grid.

SEQUENCE 1 AND 2 KATHARA POINTS

Sequence-1 Kathara Points for REGENERATION

Sequence-1 Kathara Points are mini-energy-vortex points in the body that connect directly to **Diodic Points** within the *Kathara Level-3 Diodic Points Grid*. Stimulation of the Kathara Points affects the movement of energy within related areas of the Kathara Grid, which creates a reciprocal movement of energy within the cellular structure corresponding to the Kathara Points.

When used **in proper sequence**, *Sequence-1 Kathara Points* ***open energetic gate ways to the Kathara Lines*** of the Kathara Level-1 12-Tree Grid, allowing patterns of frequency to be entered into the Kathara Lines, to realign disharmonic patterns of frequency running through the Holographic Program of the Kathara Lines. When the Kathara Lines are opened to receive 11th and 12th dimensional frequency infusions from the **Mahara Hova Body**, the Holographic Program of the Kathara Grid can be progressively ***regenerated*** to the Imprint for Health, as held within the program of the Maharic Shield.

Sequence-1 Kathara Points are used to *open* **the Kathara Lines prior to** ***Technique # 2: The Maharic Seal and the Liquid Light Cleanse*** **and** ***Technique # 4: The Maharic Infusion.*** They **may also be used alone** with deep breathing, for frequent healing support, to draw energy up from the Maharic Shield, re-balancing and regenerating the Imprint for Health within the Kathara Grid and Body-Mind-Spirit System. It is not necessary to close the Kathara Lines after using Sequence-1 Points as they will **close automatically** in **several hours.** If one desires to further revitalize the cellular structure, running the *Sequence-2 Kathara Points* for *closing* the Kathara Lines will increase the amount of energy running through the *body cells*, as the Kathara Lines are no longer absorbing the energy.

Sequence-1 Points **regenerate and re-balance the** ***Kathara Core*** **first, which creates** ***more lasting but less immediate*** **changes in the body.** ***Sequence-2 Points*** **close the Kathara Lines if they are opened and draw energy from the Maharic Shield** ***directly into the bio-energetic field and physical cells,*** **rather than the core Kathara Grid, creating** ***more immediate, but temporary,*** **revitalization of the body.** The patterns held within the Kathara Grid- core holographic template will eventually override those set into the bio-energetic field alone. **Used in** ***combination*** **with each other the** ***Sequence-1 and Sequence-2 Kathara Points*** **can affect more lasting revitalization by** ***simultaneously realigning the core template and the outer layers*** **of the bio-energetic system and cellular structure.** In combination with other Kathara Healing techniques the affects and restoration of the Imprint for Health are further amplified and accelerated.

Sequence-2 Kathara Points for REVITALIZATION

Sequence-2 Kathara Points are mini-energy-vortex points in the body that, like *Sequence-1 Kathara Points*, connect directly to Diodic Points within the *Kathara Level-3 Diodic Points Grid*. Stimulation of the Kathara Points affects the movement of energy within related areas of the Kathara Grid, which creates a reciprocal movement of energy within the Bio-Field and cellular structure corresponding to the Kathara Points.

When used in **proper sequence**, *Sequence-2 Kathara Points* ***close the energetic gate-ways to the Kathara Lines*** of the Kathara Level-1 12-Tree Grid, which the *Sequence-1 Kathara Points* had opened. Closing of the Kathara Lines governed by the Sequence-1 Kathara Points, ***creates a reciprocal OPENING of Nadial Lines*** (Nadis energy rivulets that carry energy from the Nada Hova Body/ Nadial capsule, into the physically manifest systems) within the outer levels of the Bio-energetic Field. Opening of corresponding Nadis allows restorative patterns of frequency to be entered into the outer levels of the Bio-energetic Field and Chakra System, to realign disharmonic patterns of frequency running through the *Chakras, Auric Field and Physical Cells*. When the Nadis, Chakras and outer Bio-energetic Field are opened to receive 11th and 12th dimensional frequency infusions from the **Mahara Hova Body** the energetic integrity of the physical cells and Bio-energetic Field can be progressively *revitalized* with Maharic frequency and the Imprint for Health, as held within the program of the Maharic Shield.

Sequence-2 Kathara Points are used to close the Kathara Lines following *Technique # 4: The Maharic Infusion*. They may also be used alone with deep breathing, for frequent healing support, to draw energy up from the Maharic Shield, through the Kathara Grid and into the outer levels of the Bio-energetic Field. Directing Maharic frequency into the outer levels of the Bio-energetic Field regenerates the Imprint for Health within, and directly **revitalizes** the *body cells* for accelerated Body-Mind-Spirit healing. If one desires to revitalize the cellular structure, running the *Sequence-2 Kathara Points* for closing the Kathara Lines will **increase the amount of energy running through the *body cells***, as the Kathara Lines are no longer absorbing the energy. **Sequence-2 Points revitalize and rebalance the *outer levels of the Bio-energetic Field* first, which creates more immediate but temporary revitalization of the body, as restorative energies do not directly enter the Level-1 Kathara Grid.** To *create lasting change* when using the *Sequence-2 Points* alone, restorative electro-tonal programs must be **repeatedly** entered into the Bio-energetic field until the new programs reach critical mass, at which time the new programs will begin to *subtly influence* the programs held within the Kathara Grid. **The primary difference between Sequence-1 and Sequence-2 Kathara Points is this: *Sequence-1 Points* channel** energy from the Maharic Shield into the *core Kathara Grid* holographic template. ***Sequence-2 Points*** channel energy from the Maharic Shield into the *outer levels of the Bio-field and body cells*. **For this reason the *affects of Sequence-2 Kathara Points* are more *immediate*, and those of *Sequence-1 Kathara Points* are more *permanent*.**

The patterns held within the Kathara Grid core holographic template eventually override those set into the outer Bio-field alone. **Used in *combination* with each other and other healing applications the *Sequence-1 and Sequence-2 Kathara Points* can affect more lasting revitalization by simultaneously *realigning the core template and the outer layers* of the Bio-field and cellular structure.** Using ***Kathara Point Sequences*** in combination with each other and other Kathara Healing techniques will amplify and accelerate the affects and restorative function of the Imprint for Health within the Body-Mind-Spirit system.

14 SEQUENCE 1 KATHARA POINTS

Regeneration of the Imprint for Health

Sequence-1 Kathara Points **OPEN** energetic gate-ways with in the **Kathara Lines** of the *Kathara Level-1 12-Tree Grid*, to receive electro-tonal reprogramming for **regeneration** of the *Imprint for Health*. *Sequence-1 Points* are used to open the Kathara Lines **prior to** other energy-healing applications, to open the Kathara Grid so the regenerative patterns of other healing applications can "ground" within the Kathara. Sequence-1 Points re-generate and rebalance the **Kathara *Core*** first, creating **more lasting but less immediate changes** in the body.

TECHNIQUE # 2

THE *MAHARIC SEAL* AND THE *LIQUID LIGHT CLEANSE*

1. Close your eyes and visualize the image of a flat (2-dimensional line drawing) 6-Pointed Star of David (**The Merkaba Star**) made of **White Light**, stationed at the **6th-Chakra** on the *inside of the Forehead.* (If you cannot yet generate inner visualizations, simply imagine that the symbol is there.) Continue to visualize or imagine, and move the **White Merkaba Star** image over toward the **left** in your inner field of vision. In the *center* of your inner field of vision, visualize/ imagine the image of *another Merkaba Star*, made of a **Dark Silver Light**. Observe or imagine the **2 Merkaba Stars** in your inner field of vision and then slowly *move the images toward each other* until they have merged into *one Merkaba Star* Symbol made of **Pale Silver Light**. (The *Pale Silver Double Merkaba Star Symbol* is called the **HIEROPHANT** – it is the scalar wave template that governs the release of phase-lock on the *Maharic Shield.)*

2. Visualize/ imagine the Hierophant Symbol clearly in mind, then shift attention to the sound of your breath. Take several slow, deep breaths. On the next **EXHALE** use the force of breath to *forcefully push* the **Hierophant** down from its position at the 6th-Chakra, through the *Central Body Current* and into the **Earth's Core.** Take a few more slow breaths while visualizing/ imagining the Hierophant Symbol in the center of the Earth's core. Imagine now that the *Hierophant begins to spin in the Earth's core*, the Dark Silver Merkaba Star and the White Merkaba Star spinning in *opposite directions*. Spin the Hierophant progressively faster until it "takes on a .life of its own", and suddenly "pops and expands" to form a **Pale Silver Sphere of Light** *spinning in the Earth's core.*

3. Observe the Pale Silver Hierophant Sphere spinning in Earth's core, then visualize/ imagine that a **huge, horizontal Pale Silver spinning disc** emerges out from the Hierophant Sphere, forming a **massive Pale Silver Disc of Light** *spinning throughout the Earth and extending outward into the atmosphere* as a **rotating, horizontal plane.**

This horizontal disc-plane extending through the Earth represents the *Mahara Hova Body*, or **Maharic Shield** of the planetary morphogenetic field – the Pre-matter Liquid Light scalar grid composed of frequency from dimensions 10, 11 and 12. (Known as the *Shield of Amaratana*). Using the Hierophant wave template you have now activated the planetary Maharic Shield, *opening the Planetary Bio-feed Interface System™ into your bio-energetic field.* This constitutes opening your personal Kathara Grid and morphogenetic field into the Planetary Kathara Grid and morphogenetic field, allowing you to draw an *unlimited supply of energy* from the planetary field. You can draw in only as much as your personal morphogenetic field can hold. With repetition of this practice the energy-holding capacity of your Kathara Grid progressively increases, allowing you *a continually expanding supply of energy* for healing and revitalization.

TECHNIQUE # 2: Continued
THE *MAHARIC SEAL* AND THE *LIQUID LIGHT CLEANSE*

4. While remaining aware of the *Planetary Maharic Shield* spinning on a horizontal plane throughout the Earth's body, return the focus of your attention to the spinning **Silver Hierophant Sphere** rotating at Earth's core. (You will now use the Hierophant Sphere to activate your personal Maharic Shield and release the 12th-Dimensional Pillar of Light within your bio-energetic field.). Take several slow, deep breaths, while visualizing/imagining the Hierophant Sphere spinning in Earth's core. On the next **INHALE**, draw the Hierophant Sphere *up from Earth's core* with the inhale breath, forming a **Pale Silver Cord** *about 6" thick* trailing behind the Hierophant as it rises to the **12th Chakra**, 6" beneath the feet. *One end of the Silver Cord remains rooted in Earth's core, the other end is attached to the Hierophant Sphere and follows its movement.* Visualize the **12th Chakra** as a small, **transparent disc** about *3" in diameter*, positioned *6" below the feet.* Stop the movement of the Hierophant in the *center of the 12th Chakra*, imagine the Sphere beginning to spin and *visualize the diameter of the 12th Chakra disc expanding to about 6" in diameter*, as the Hierophant spins at its center. Take a *few slow*, deep breaths as the *Hierophant spins in the center of the 12th Chakra.*

5. On the next **INHALE** draw the Heirophant Sphere *up from the 12th Chakra*, through the **Central Body Current** and up to the **14th Chakra** *36" above the head.* As the Hierophant Sphere rises, visualize the *6" thick* **Silver Cord** drawing up through the **12th Chakra** and farther up through the **Central Body Current**, following the path of the Hierophant Sphere to the **14th Chakra.** Visualize the Silver Cord as a long, thick **Pale Silver Cord of Light**, running from the *Earth's core, through your body and out the top of your head*, connecting to the **14th Chakra** 36" above the head. Take several deep, slow breaths while imagining that you can *feel the sensation* of this *massive current of clear, pure energy* running through the *center* of your body.

6. On the next **EXHALE**, push the spinning Hierophant Sphere *down* through the **Central Body Current**, while leaving the *top end* of the Pale Silver Cord attached to the **14th Chakra** 36" above the head. Move the Hierophant down through the **12th Chakra** 6" below the feet, and **stop the Hierophant** *6" below the 12th Chakra;* a position about **12" below the feet.** This is the location of the Maharic Shield within the morphogenetic field of the body. Breath slowly and visualize the Hierophant *spinning progressively faster* 12" beneath the feet, until the Hierophant "takes on a life of its own" and suddenly "*pops and expands*" to form an **expanding horizontal disc of Pale Silver Light spinning 12" beneath the feet.** ***Feel the disc as a circular platform 3 yards in diameter below feet.***

TECHNIQUE # 2: Continued
THE *MAHARIC SEAL* AND THE *LIQUID LIGHT CLEANSE*

7. Call to mind the image of the *massive horizontal disc of Pale Silver Light* spinning through the Earth's body – the **Planetary Maharic Shield**. Imagine the sensation of the large, spinning *Pale Silver platform disc* spinning 12" beneath your feet – your **personal Maharic Shield**. Breathe slowly and deeply while visualizing/ imagining a *massive rush of pure, cool* ***Pale Silver energy*** running from the *planetary Maharic Shield*, up through the **Pale Silver Cord** and into the *personal Maharic Shield* 12" beneath your feet. Breath as this energy runs, *filling your Maharic Shield to its energy-holding capacity*. When your Maharic Shield has received as much Pale Silver energy as it can hold, it will "take on a life of its own", and suddenly "*pop and expand*" upward into an ***oscillating Pale Silver Pillar of Light surrounding and permeating the body***, a *tube of light* extending beyond the body *about 18"*, and running from the **Earth's Core** to the **14th Chakra** 36" above the head. *Feel the reality of your body encased in the cool, refreshing Pale Silver Pillar of oscillating light.* Take a few slow deep breaths and imagine the energy from the Pillar *emanating through all of your body cells*. Your Bio-energetic Field is now sealed with a protective barrier of 11th/12th-Dimensional frequency – **the Maharic Seal.**

8. As the Pale Silver Pillar of Light oscillates around you, place your attention for a moment at the **13th Chakra** in Earth's core and **INHALE** a final **Spark** of *Pale Silver Light* from Earth's core, drawing the Spark up through the **Pale Silver Cord**, into the **Main Vertical Channel of the Kathara Grid**, and into the center of the **4th Heart Chakra**. Breath slowly and easily while visualizing energy from the *Silver Spark* radiating throughout the embodied **12-Tree Kathara Grid**, *filling it with Pale Silver Light*. When the Kathara Grid has reached its energy-holding capacity, the ***12th Chakra will automatically contract*** to decrease the flow of Silver Light from the Earth's core. As the 12th Chakra contracts, the *Planetary Maharic Shield* stops spinning and transmitting energy through the Silver Cord, returning the Silver Chord to its dormant state. The ***Maharic Seal*** **Pale Silver Pillar of Light** will remain in your bio-energetic field between **1-3 hours**. Over a *3-month period* of frequent, consistent *daily practice* of this process, the Maharic Seal will self-sustain in the bio-energetic field for **12-14 hours.**

Use of this technique allows a healing Facilitator to activate the Maharic Shield and Seal in others, through the *Maharic Infusion process* (Technique # 4), while Facilitator's Pillar remains active. Progressive use of the Maharic Seal and running the Liquid Light creates a reciprocal clearing, reordering and realignment of the Kathara Grid-*Holographic Template* – and all subtle energy and physical systems built upon it. The Lower Hova Bodies are progressively cleared and realigned with the *original perfection of the Pre-matter Liquid Light Mahara Hova Body*, and the body and genetic code progressively expand to hold higher dimensions of conscious awareness.

TECHNIQUE # 2B: THE MAHARIC QUICK SEAL

1 Work with a 24 pointed, 3 Dimensional Star (Heirophant) and be aware that you will be working with beings known as the Breneau Rishi ..

2 Begin by slowing your breathing , as you imagine or visualize a 24 point, 3 -Dimensional, Heirophant at the P neal Gland in the center of your brain. Visualise the Heirophant surrounded by a Pale Blue Sphere of Light.

(The Blue Sphere serves as a buffer for your readiness to accept the frequencies associated with using the 24 pointed Star; the Blue Sphere holds the energy for you until your body can handle the energy If you can handle it, the energy wil. simply pass through the blue sphere).

3 INHAL E, as if you are going to grab the blue sphere containing the 24 point star located at the Pineal, and on the EXHALE move the 24 point star/ blue sphere, all the way down to Earth s Core. Try to hear a sound tone as the Heirophant/ Sphere hits the Planetary Shield ..

4 INHALE and draw the Heirophant/ sphere up to your Personal Maharic Shield 12" below your feet and EXHALE while watching the Pale Silver-Blue sphere expand out to a large sphere and watch as your Maharic Shield pop out as a disc, about 4 in diameter Pale Silver with a light coating of Pale Blue

5 Bring your attention to the center of your Maharic Shield 12" below your feet and INHALE the 24 point Star (only) up into the Heart Chakra. EXHALE, expanding the frequencies of the 24 point Star into the Heart Chakra.

6 INHALE to grab the 24 point Star, and EXHALE, pushing the Star up into the 14th Chakra 36" above the head. Imagine that the 24 point Star is spinning in a clockwise direction in the 14th Chakra. As you do this, try to feel/ sense the energy around you, just a few inches out from your body

7 Now, put your attention into your Maharic Shield 12" below your feet, take a couple of relaxing breaths and INHALE deeply pulling the Pale Silver and Blue energy up, as if you are pulling on your Maharic Seal to latch it on to your 14th Chakra. Try and feel the sensations just a few inches from your body now – feel the difference if you can. This procedure gives you a Quick Seal.

8 Now envision the cord of Pale Silver Maharic Light that would normally come up with your Shield and focus on the Earth s Core. Begin drawing energy all the way up the 4" diameter cord and into the body INHALE the energy up into the Heart Center and expand it there Begin to form a pale Silver ball of Maharic frequency

On each EXHALE send your energy down to the Earth's Core to bring up another load of Maharic frequency, up from the Planetary Shields, expand it into the Heart center and repeat several times Notice that the Cord grows larger as you do this, expanding from approximately 4" to 6 to 8" diameter, unt. finally it feels like a skin around (as well as within) your body as you load your Astral field with Maharic Frequency

9 Move your attention to the Pale Silver ball you have created in your Heart Center, INHALE and move it up to the 14th Chakra 36" above your head as you do, feel for the sheath of Maharic Frequency encasing your etheric body, close to your skin. (This Maharic/ Christos skin charges. and saturates. your ethenc body feel the peacefulness and all-knowing nature of this frequency).

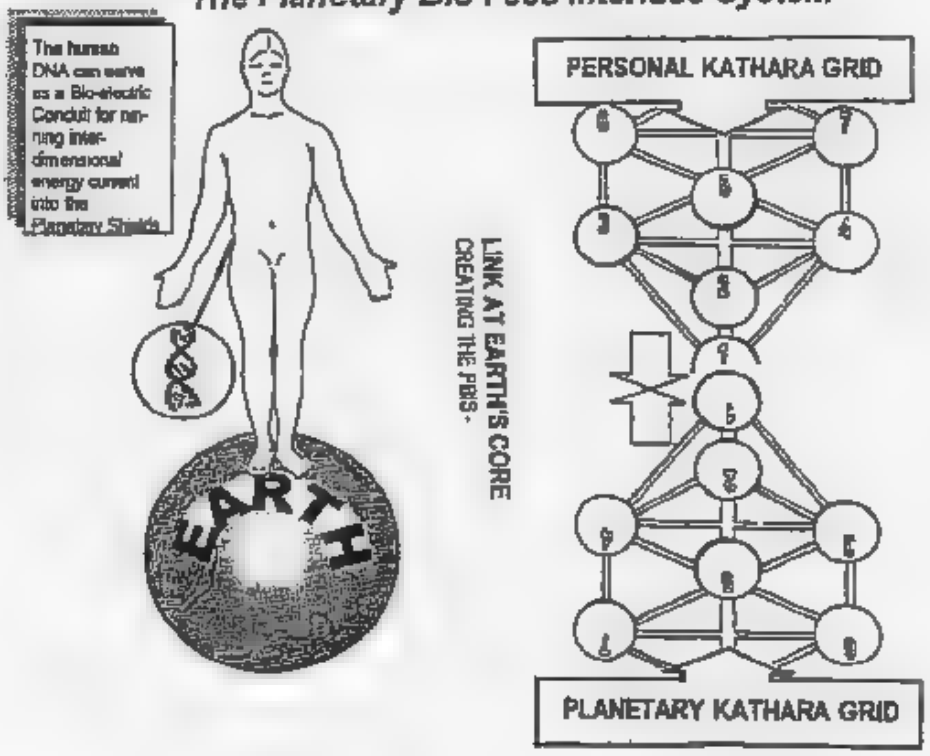
The Planetary Bio-Feed Interface System and the Maharic Seal

Use of the *Maharic Seal and Liquid Light Cleanse* begins the process of activating the **8th through 12th Chakras** and opening the natural **PLANETARY BIO-FEED INTERFACE SYSTEM (PBIS)** within the human body. Through the PBIS, the finite quantity of scalar frequency of which the personal Maharic Shield, Nova Bodies and individual identity are composed expands to **infinite potential**, as the **Planetary Scalar Shields** can be used to open dormant **Crystal Seals** within the Scalar Shields of the personal Level-2 Kathara Grid. **Once activated through the 12th Chakra, the PBIS opens a conduit of perpetual energetic supply between the human body and the planetary Morphogenetic Field, allowing the body to continually draw in as much higher dimensiona frequency as the DNA Template can hold.**

With the PBIS activated, the human body can also become a tool for reprogramming and re- balancing the Planetary Shields, Vortices, Ley Lines and energetic grids of the Planetary Templar Complex. When the Crystal Seals of the personal Shields are released, the **human DNA Template** can serve as a **bio-electric conduit** for running higher dimensional frequency into the **Planetary Shields.** The human body, with its **12-Strand DNA Template potential,** is the only mechanism on Earth, other than the Planetary Shields themselves, that is capable of running a full 12th-Dimensional **Maharic Current.** Just as within the human Manifestation Template, the Maharic Current can be used to purge distortions within the Planetary Shields, to restore the Planetary Templar Complex to its original **Primal Order.** Kathara Healing technologies not only provide the opportunity for individuals to facilitate healing in other *biological life forms*, they also reawaken the human potential to facilitate healing within the **geophysical planetary body.**

The Planetary Bio-Feed Interface System

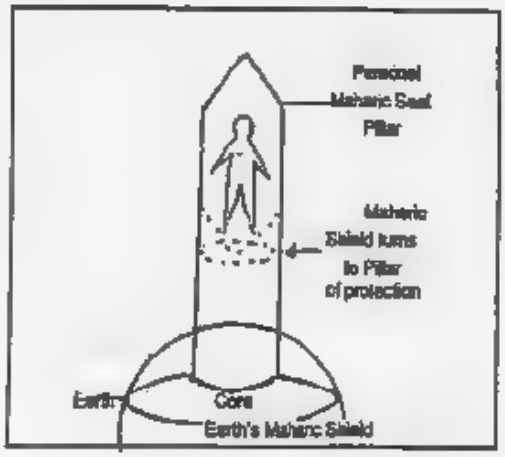


The Maharic Seal and Client Sessions

Through understanding the **Context of Healing**- *The Structure of the Unified Field*, the **Elements of Healing** – *The Anatomy of the Human Body Kathara Grid* and **Kathara Healing Beginning Applications** - *Morphogenetic Repatterning* through the ***Maharic Seal and Liquid Light Cleanse*** and *Awakening the Mentor* for access to 5th Dimensional awareness, the Kathara Healing Facilitator has developed the rudimentary skills necessary to begin **personal Core Holographic Template Healing**. **To effectively facilitate Core Template healing in others it is important for Kathara facilitators themselves to employ personal Template Healing.**

The ability to hold the **12th-Dimensional Maharic frequency sub-harmonics** (the 12th-sub-frequency band within each of the full Dimensional Frequency Bands) in body to assist in its transmission to a client for healing support increases as the facilitator utilizes the **Maharic Seal and Liquid Light Cleanse** technique for **personal healing**. The *Maharic Seal and Liquid Light Cleanse* technique not only increases the facilitator's ability to transmit 12th-Dimensional frequency sub-harmonics, it also temporarily **realigns distortions** within the *facilitator's* bio-energetic field and Kathara Grid and creates a temporary **12th-Dimensional Scalar Frequency Seal** within the *facilitator's* bio-energetic field. **Without use of the *Maharic Seal*, the facilitator will inadvertently transmit bio-energetic field and Kathara Grid distortions to the client and will energetically pick up scalar distortions** (including part of the "Karmic" Miasmic imprint) **from the client.** (This problem occurs in all subtle-energy healing modalities that do not employ the Maharic Seal). Both of these conditions serve to amplify, rather than remedy, dis-ease and disharmony within the Mind-Body-Spirit system, for both *facilitator and client*. For these reasons, **the *Maharic Seal and Liquid Light Cleanse* technique needs to be employed prior to ANY healing facilitation work, to protect the bio-energetic field integrity** of facilitator and client. **The *Maharic Seal and Liquid Light Cleanse* technique represents the facilitator's preliminary preparation prior to Kathara Healing Facilitation Client Sessions.**

Safety in Healing Facilitation!



The ***Maharic Seal and Liquid Light Cleanse*** technique, used as facilitator preparation prior to **Client Sessions**, protects facilitator and client from taking on bio-energetic field distortions from each other. Maharic Seal is the preliminary step before any Kathara Healing application and is needed to effectively run interdimensional healing currents.

CO-GENERATIVE HEALING

The final phase of education necessary before engaging the adventure of **Kathara Healing Client Facilitation** is rediscovering the structure of personal **Multi-dimensional Identity** and how to use the personal **Hova Bodies** to tap the higher dimensional scalar frequencies for enhanced healing facilitation ability. The ability to understand and utilize the PRECISE HEALING CURRENTS of the interdimensional spectrum adds **greater power and skill** to the healing facilitation process. Unlike many other energy healing systems, **Level-1 Kathara Healing** trains the facilitator to identify, awaken within the body and employ in client service **specific combinations of interdimensional healing current** that fine-tune and amplify the beneficial effects of subtle energy healing. This chapter will conclude with an overview of the **4 PRIMARY TRIADIC HEALING CURRENTS**, 4 of the 5 **3-Dimensional Primal Energy Currents** that can be awakened within the body through activation of the **Maharic Shield**.

The natural **Primal Triadic Healing Currents**, which exist naturally as part of the personal Hova Body, Scalar Shield and Kathara Grid anatomy, create powerful, effective and user-friendly energetic healing tools when combined with the 12th-Dimensional frequencies of the **Maharic Shield.** Running the Triadic Currents is achieved by using the current to first activate the frequencies of the corresponding Hova Body and station of awareness within the personal Scalar Shields and **DNA Template**. Once activated in the DNA Template, the **Hova Body** is used to draw perpetual supply of the desired current from the Dimensional Unified Field corresponding to the chosen current. **Running the Triadic Currents requires activation of the corresponding frequencies within the facilitator's DNA Template, thus using the Triadic Currents in Client facilitation also serves to progressively stimulate and expedite activation of dormant frequencies in the facilitator's DNA Template.** Using the Triadic Currents in client facilitation serves to accelerate the processes of Holographic Recoding, higher identity Hova Body integration and multi-dimensional evolution within the Body-Mind-Spirit system of the *facilitator*, as well as that of the *client*, creating a condition of **CO-GENERATIVE HEALING** between client and facilitator.

Healing, Evolution and Ascension

In the Kathara Healing paradigm the art and science of healing the Body-Mind-Spirit system is viewed in terms of the *human relationship to the natural structure and dynamics of creation.* **Healing becomes a necessity when the intrinsic energetic systems and scalar-wave constructions of consciousness upon which the biological manifestation is built become incongruent with the natural Primal Order of the dimensionalized Time Matrix system.** The processes of natural healing and the hidden, organic functions of **human evolution** are intimately intertwined. Conditions that facilitate natural healing also facilitate fulfillment of the naturally intended course of human evolution, while conditions detrimental to Body-Mind-Spirit health are likewise detrimental to the evolutionary objectives of both the individual and the species.

The processes by which lasting healing occurs through re-genesis of Primal Order within the Scalar Shields and personal anatomy, are the same processes by which the **CONSCIOUSNESS** evolves to the fulfillment of **Spiritual Actualization**, through embodiment of the 12-dimensions of consciousness inherent to human DNA Template design. The genetic code of the biological imprint is built upon the Scalar-wave Templates of Consciousness that serve to hold the identity as energetic substance into physical embodiment. **Distortions within the physical manifestation indicate distortions in the Manifestation Template and thus constitute distortions in CONSCIOUSNESS.** Genuine healing is a *FUNCTION OF CONSCIOUSNESS*, first and foremost, and it is through realignment of consciousness itself that full healing can occur.

In the Kathara program it is understood that biology and consciousness are intimately intertwined and thus interdependent. The techniques of **Bio-Regenesis** provided in Kathara Healing assist in the processes of restoring the **Organic Imprint for Health** while simultaneously serving to **expedite the natural processes of interdimensional evolution** through DNA Template, Kundalini, Crystal Seals and Merkaba activation. **Human evolution is not a random, goal-less occurrence; it is rather an ordered system of interdimensional physics dynamics by which human consciousness progressively masters the contours of creation in time.** The evolutionary objective of human creation is **mastery**, which is progressively attained through the dynamics of **Transmutational Dimensional Ascension. Ascension** is therefore the intrinsic and indelible **goal** within human evolution, the **hidden impetus for action** that moves the human species forward in time.

Healing and Bio-Spiritual Evolution

When we begin running the higher dimensional frequencies of the 4 Primary Triadic Currents for Kathara Healing applications, we are, in truth, running FREQUENCIES OF CONSCIOUSNESS, that emanate from the Hova Bodies in which the expanded spiritual portions of our personal identity are stationed. As we reawaken the higher dimensional frequencies of consciousness within the DNA Template we are progressively expediting the reintegration of personal Multi-dimensional Identity, serving the spiritual goal of Ascension through stimulating into activation the scientific dynamics of Unified Field Physics by which genuine Ascension occurs. Kathara Healing progressively restores the functions of universal physics dynamics within the human body, as they apply to the pathway of Ascension, and so Kathara Healing applications are considered to be processes of ACCELERATED BIO-SPIRITUAL EVOLUTION, as well as processes of holistic Body-Mind-Spirit healing. Both facilitator and client simultaneously receive the subtle but progressive benefits of evolutionary acceleration and spiritual development through Kathara Healing Bio-Regenesis Technologies, through which the expansion of personal consciousness into the higher dimensional aspects of spiritual awareness occurs.

Kathara practices serve to stimulate progressive integration and embodiment of the Multi-dimensional Identity by activation of dormant portions of the DNA Template through which the scalar-wave patterns of the higher frequencies of identity can enter the physical form. As spiritual advancement through Hova Body integration and DNA Template activation is a beneficial "side effect" of Kathara Healing practice, it is helpful for the Kathara facilitator to understand the order of Multi-dimensional Identity Structure. It is also helpful to realize that the Unified Field of Energy utilized in Kathara Healing is, in fact, a UNIFIED FIELD OF CONSCIOUSNESS. Healing is a function of energy dynamics and at its core, energy is the substance consciousness adopts to experience manifestation, thus HEALING IS A FUNCTION OF CONSCIOUSNESS. When personal consciousness is applied in ways that are congruent with the natural Laws of Unified Field Physics, the effects of healing and wellbeing are met in manifestation.

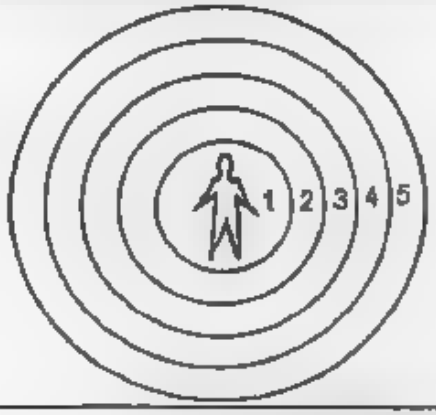
MULTI-DIMENSIONAL IDENTITY STRUCTURE

Consciousness and the Physical Illusion

In Chapter 1 we explored the Structure of the Unified Field and discovered the morphogenetic framework, or Holographic Template upon which matter systems are constructed. We learned how the structure of dimensionalization applies to the anatomy of the 15-Dimensional Human body, from the Core Template Kathara Grid, the Hova Bodies and Shields, to the Chakras, Bio-energetic Field and physical matter structures built upon them. We also discovered that *physical manifestation* is not what appears to be - that *nothing is really manifest at all*, but only *appears to be so due to the relationships of compartmentalized consciousness interacting with each other through the framework of dimensionalization*. Our physical parts and our manifest world are scalar wave constructions, appearing solid and externalized because we view them with a level of consciousness that is stationed one full dimension above the wave forms we perceive as solid and objectified. Our consciousness structures itself into the scalar wave forms of dimensionality in order for us to perceive the illusion of manifestation. There is no difference, other than the dimensional frequencies from which one is perceiving, between the *substance that composes physical matter* and that which *composes our seemingly non-manifest portions of consciousness*. The core of reality is CONSCIOUSNESS - It is the *energetic substance* out of which all things are made.

Hova Bodies- Platforms of Perception

In this Section we will learn how the attributes of mind and sentient identity fit into the multidimensional anatomy of human consciousness. The scalar grids of the **Hova Bodies** and **Shields** that hold portions of our consciousness separate from each other so we may experience objectification, can be understood as **PLATFORMS OF PERCEPTION.** A portion of our conscious identity is **stationed within each of the Hova Body Shields,** and the dimensions contained within the Shield become the *platform* from which *that portion of our selves* will perceive matter objectification. **We are simultaneously focused within each Hova Body Platform of Perception, and this gives us separated but interrelated stations of identity and different LEVELS OF MIND from which we simultaneously perceive.** The amount of perception we are able to incorporate into our embodied focus on Earth is determined by the Level of Higher Identity Integration that has occurred. Integration of Higher Identity is the *merger* of the **Hova Bodies,** which creates changes and advancement in the **biological gene code** that allows the neurological and metabolic functions of the body to expand.



THE 5 HOVA BODIES

3-Dimensional Electro-magnetic Domains created by the Scalar Shields that serve as stations of dimensionalized consciousness

1. **NADA HOVA** Density-1
2. **ALPHI HOVA** Density-2
3. **BETCHA HOVA** Density-3
4. **MAHARA HOVA** Density-4
5. **RAJA HOVA** Density-5

Our Present Platform of Perception

Presently we are accustomed to perceiving from the Platform of Perception provided by the **NADA HOVA BODY,** the *scalar grid* that houses the 1st, 2nd and 3rd Dimensional Aspects of our identity and anatomy. While perceiving from the Nada Hova Body and the **TELLURIC SHIELD** that holds its form, we are functioning as a **3-Dimensional consciousness** and will not be aware of the perceptions of the other levels of ourselves that are perceiving from the *Platforms of Perception* from the other Hova Bodies. **As we expand and evolve we will progressively incorporate the portions of our awareness stationed in the other Hova Bodies into our earthly focus of attention.**

The *Higher Identity Structure* of the Hova Bodies and related *Levels of Mind* within dimensionalization are as follows:

Stations of Identity and Levels of Mind in the Hova Bodies

INCARNATE IDENTITY: Nada Hova Body/ Telluric Shield / dimensions 1, 2 and 3. The Subconscious (D-1), Instinctual (D-2) and Reasoning (D-3) Levels of Mind

SOUL IDENTITY: Alphi Hova Body/ Doradic Shield/ Dimensions 4, 5 and 6 The Astral (D-4), Archetype or Dora (D-5) and the Angelic (D-6) Levels of Mind

OVER-SOUL IDENTITY: Betcha Hova Body/ Teuric Shield/ Dimensions 7, 8 and 9 The Ketheric (D-7), Monadic or Teura (D-8) and the Keriatic (D-9) Levels of Mind

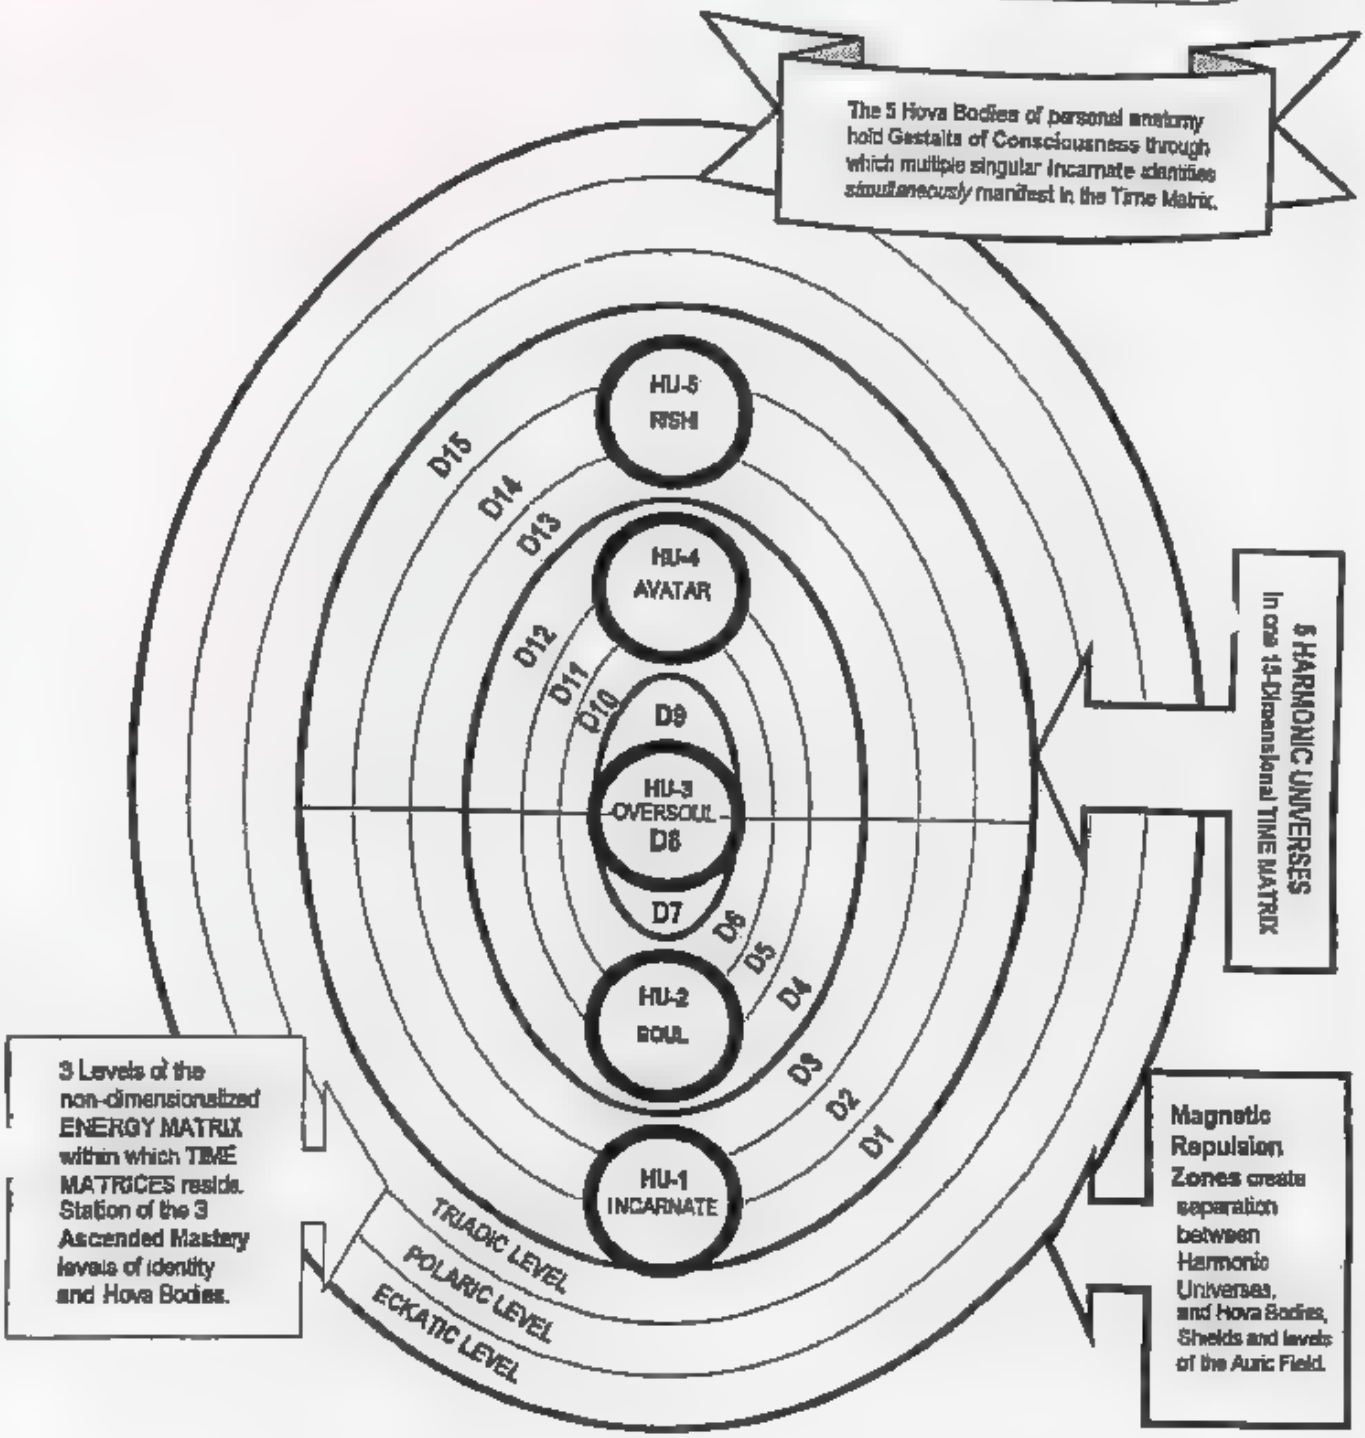
AVATAR IDENTITY: Mahara Hova Body/ Maharic Shield/ Dimensions 10, 11 and 12 The Christiac (D-10), Buddhiac (D-11) and the Nirvanic (D-12) Levels of Mind.

RISHI IDENTITY: Raja Hova Body/ Rishic Shield/ Dimensions 13, 14 and 15 Universal Consciousness Mind

There are **3 additional Platforms of Perception** and 3 additional Hova Bodies beyond the structure of Dimensions;Hova Bodies that represent 3 Levels of **Ascended Mastery Identity**.

Spiritual Actualization is the process of progressive Higher Dimensional Identity Integration. *Higher Identity Integration* is the merger of the *Hova Bodies*, which creates changes and advancement in the biological *Genetic Code* through progressive activation of dormant portions of the *Silicate Matrix 12-Strand DNA Template.*

5 Hova Bodies and Levels of Identity in the 15-Dimensional Time Matrix



THE 4 PRIMARY TRIADIC HEALING CURRENTS

Hova Bodies and the 4 Primary Triadic Currents

Each of the Hova Bodies and Shields contains a portion of your energy-identity that exists in the form of electro-tonal impulse born of Partikl Phasing **The energy of your higher stations of identity and that of the Universal Unified Fields of Consciousness-Energy can be drawn into the Nada Hova body and earthly incarnate identity for the purpose of healing facilitation.** There are **four Primary Triadic Healing Currents**, each correspond ng to one of the **four higher dimensional Hova Bodies.** Through *your* corresponding Hova Body station you can *draw energy from the higher dimensional Unified Fields* and channel it into your Nada Hova Body for direction into healing within the first Harmonic. **The *4 Primary Healing Currents* are HARMONIC CURRENTS OF ENERGY, each composed of *3 Dimensions of Frequency.*** Each Dimensional Band within a Harmonic or TRIADIC current is referred to as a **PHASE** *of that current.* **In Kathara Healing we develop the ability to activate each progressive PHASE of each TRIADIC CURRENT, through grounding the current into the body via the activated MAHARIC SHIELD.**

Triadic Currents and Color

Each *Phase* of Triadic Current corresponds to a wave length in the dimensional spectrum that appears as COLOR to the embodied human mind. In directing the **Triadic Currents** we therefore use the **color translation of the primary dimension wave spectra** to differentiate between Phases of current for various applications **The first current to be activated in Kathara Healing is the that of the DORADIC CURRENT,** the frequencies drawn in from Harmonic 2 through the **Doradic Shield and Alphi Hova Body. The Doradic Current has 3 Phases: Phase -1: 4th Dimensional current/ GREEN wave, Phase-2: 5th - Dimensional Current/ BLUE wave and Phase -3: 6th-Dimensional current/ Blue-Violet wave.** In **Level-1 Kathara Healing** we learn to activate and run the **Phase-1 Green Doradic Current.**

TELLURIC CURRENT: Nada Hova Body/ Telluric Shield / Dimensions 1, 2 and 3.
Phase-1 RED, Phase-2 ORANGE-GOLD , Phase-3 YELLOW

DORADIC CURRENT: Alphi Hova Body/ Doradic Shield/ Dimensions 4, 5 and 6

TEURIC CURRENT: Betcha Hova Body/ Teuric Shield/ Dimensions 7, 8 and 9
Phase -1 VIOLET, Phase-2 GOLD, Phase-3 Mid-tone Silver

MAHARIC CURRENT: Mahara Hova Body/ Maharic Shield/ Dimensions 10, 11 and 12
Phase-1 BLUE-BLACK, Phase-2 SILVER BLACK, Phase-3 WHITE

TRANSMUTATION CURRENT
(can be transmitted only by 12th-level Avatars with full Mahara Hova integration)

RISHIC CURRENT: Raja Hova Body/ Rishic Shield/ Dimensions 13, 14 and 15

Current Combining

When using **Triadic Phase Currents**, each **Phase current is *combined* with the current running from the activated *Maharic Shield*, in *combination with* the Phase current from the *Harmonic ABOVE the Phase current you are using***. The **DORA DIC PHASE-1** current is therefore composed of: **D-11/D-12 PALE SILVER** (Maharic Shield), **D-4 GREEN** Doradic Shield Phase -1 AND **D-7 VIOLET,** the *Phase-1 current* of Harmonic 3 - Teuric Shield, *one Harmonic up* from Doradic Phase-1. In activating the **DORADIC-1 (Doradic Phase-1) current you are using SILVER-GREEN-VIOLET color to direct Dimensions 12-11-7-4 current.**

PHASE-2: **PALE SILVER** + **GOLD** (D-8) + **SILVER-BLACK** (D-11)
PHASE-3: **PALE SILVER** + **SILVER** (D-9) + **WHITE** (D-12)

MAHARIC
(Requires full 12-Strand DNA Template activation & accelerated DNA Template coding)
PHASE-1: **PALE SILVER** + **BLUE-BLACK** (D-10) + **PALE TURQUOISE** (D-13)
PHASE-2: **PALE SILVER** + **SILVER-BLACK** (D-11) + **PALE YELLOW** (D-14)
PHASE-3: **PALE SILVER** + **WHITE** (D-12) + **PALE MAGENTA** (D-15)

In **Level-1 Kathara Healing** we begin preparing the body and DNA Template to receive the higher dimensional Phase Currents by initiating transmission of the **Doradic Phase-1 Healing Current**- the *Pale Silver + Green + Violet* frequencies of dimensions *12, 11, 7 and 4.*

Through the 7th-Dimensional aspect of the **Teuric Shield** and 11th and 12th Dimensional aspects of the **Maharic Shield**, the **Doradic-1 Healing Current** allows for recoding and realignment of the **1st-4th**-Dimensional aspects of the **Nada** and **Alphi Hova Bodies**, the **Telluric Shield** and **Physical, Emotional** and **Mental Bodies** of Density-1, the **D-4** aspect of the **Doradic Shield** and **Astral Body**, the **1st-4th DNA Strand Templates**, the **1st-4th Chakras**, and the **1st-4th Sub-harmonics** of all Scalar Shields, DNA Templates, Hova Bodies and Chakras. Doradic-1 Healing Current is effective in clearing the **Karmic-Miasmic Imprint** from the **Density-1 Time Cycle Incarnations** and the beginning of Density-2 Time Cycle incarnations.

CHAPTER 3 HIGHLIGHTS

KATHARA BEGINNING APPLICATIONS

- The **Hova Bodies** of personal anatomy contain portions of our higher dimensional awareness. One can begin accessing this awareness by building a **Perceptual Bridge** between the 3-Dimensional Self and higher identity aspects.

- Taking conscious initiative in building a Perceptual Bridge expedites **DNA Template activation** and the organic evolutionary process.

- The **MENTOR Technique** assists in building the Perceptual Bridge and activates dormant **Kathara Lines** in our **Level-1 Kathara Grid** to open communication between our D3 and Density-2, D4 and D5 levels of awareness.

- The Mentor is a part of our awareness that is composed of **3rd, 4th and 5th Dimensional frequencies** of consciousness, which exists as a quantity of **Scalar Wave patterns** that span **Densities 1 and 2.**

- The **Mentor Focus** will be used in **Kathara Healing** for **guidance, information retrieval** and **objective observation**. It can also be used to access **Cellular Memory,** and in **"Inner Child", Bi-location, Remote Viewing** and **Dream** work.

- Through a process called **Morphogenetic Repatterning**, Kathara Healing effects the **Core** of Dis-ease and dis-harmony in the Body-Mind-Spirit system by **repatterning** the Scalar-wave Programs in the personal **Holographic Template** to their original **Primal Order.**

- In **Level-1 Kathara Healing** we learn the **MAHARIC RECODING PROCESS**- the most important level of Holographic Template realignment.

- The **Maharic Shield** is the 3-Dimensional Scalar Grid corresponding to the **10th, 11th and 12th-Dimensional frequencies** of **Density-4**. It represents the **Original Point of Manifestation** and holds our original "Liquid Light" **Hydroplasmic Pre-matter Creation Imprint**, which is the **Organic Imprint for Health.**

MORPHOGENETIC REPATTERNING AND THE MAHARIC SHIELD

- In Kathara Healing, the **Maharic Shield** Organic Imprint for Health is used to progressively **repattern** the embodied **Kathara Grid** and body systems to their original **Primal Order.**

- The **12th-Dimensional Frequencies** of the Maharic Shield contain within them the **144 Sub-frequency Band** Scalar patterns of **ALL** of the Dimensions below.

- 12th-Dimensional **Maharic Frequency** can be used to **effectively correct distortions** in the lower dimensional levels of the Manifestation Template, Scalar Shields and Kathara Grid.

- Activation of the **Maharic Shield** serves as the **RESET BUTTON** for the embodied **Kathara Grid** and for 12 Dimensions of Body-Mind-Spirit anatomy.

THE MAHARIC SEAL AND LIQUID LIGHT CLEANSE

- In bio-energetic healing, **Level-1 Kathara Grid** distortions override realignments made to the **outer levels** of the bio-fields alone. For **lasting healing** to occur, Level-1 Kathara Grid distortions must be realigned.

- The **Maharic Shield**, with its **144 Frequency Sub-Harmonics**, is the only portion of the Morphogenetic anatomy that can fully repattern and realign the **Level-1 Kathara 12-Tree Grid**. In **Kathara Healing**, the **Maharic Shield** is used to realign the Level-1 12-Tree Grid.

- The **Maharic Seal and Liquid Light Cleanse** technique is used to restore distorted **Partiki Phasing Sequences** and **Scalar-wave arrangements** within the **3 Levels of the Kathara Grid** and **Scalar Shields**.

- Realignment will be **temporary** until the Kathara Grid reaches "**Critical Mass**" of energy in the **new**, realigned pattern.

- Until **critical mass** is reached, the outer levels of the anatomy will continue to **reverse** the Kathara Grid healing. With practice and **consistent application** of the **Maharic Seal and Liquid Light Cleanse** technique, the realignment of the Kathara Grid will become **permanent.**

- In future applications of Kathara Healing processes will be used to realign the **outer levels** of the bio-field and the **Kathara Grid simultaneously,** to expedite the healing process.

- The Focus of **Level-1 Kathara Healing** is **Morphogenetic Repatterning** and **Holographic Template Recoding** via the **Maharic Shield**, to clear distortions and the **Karmic-miasmic imprint** from the personal **Scalar Shields, Kathara Grid** and **DNA Template**, utilizing the **accelerated energies** of the *Planetary Bio-feed Interface System* **(PBIS).**

KATHARA POINTS

- **Kathara Points** are mini energy-vortex points in the body that connect directly to **Diodic Point vortices** in the **Level-3 Kathara Diodic Point Grid.**

- Stimulation of the Kathara Points through **manual massage** effects the **movement of energy** within related areas of the Kathara Grid and body systems.

- Used in sequence, **Sequence-1 Kathara Points for Regeneration** *open* energetic gateways to the **Kathara Lines** of the **Kathara Level-1 12-Tree Grid**, to allow new, realigned scalar patterns from the **Maharic Shield** to run through the Kathara Lines and Kathara Grid for **Core Template Repatterning.**

- **Sequence-1 Kathara Points** create **more lasting but less immediate** effects of realignment and healing. They can be **used alone** for **deep healing** and re-balancing of the **Core Kathara Grid.**

- **Sequence-2 Kathara Points for Revitalization** *close* **Kathara Lines** in the 12-Tree Grid and **channel** energy into the **Nadial Lines** of the **outer bio-energetic field** for more rapid revitalization and re-balancing of the **outer auric levels, chakras** and **physical cells.**

- **Sequence-2 Kathara Points** create **more immediate but less lasting** effects of realignment and healing. They can be **used alone** to create **temporary revitalization** of the **outer levels** of the bio-system.

- **Used together, Sequence-1** Kathara Points can run **Maharic energy** through the **core Kathara Grid** for **Template Recoding. Sequence-2** Kathara Points can then be used to **direct the Maharic energy** into the **outer levels** of the bio-field and physical body, to **expedite healing** through **simultaneous** inner and outer bio-field realignment.

In **Kathara Healing, Sequence-1** Kathara Points are used to **OPEN** the Kathara Lines **prior to** running the **Maharic Seal and Liquid Light Cleanse** and **Sequence-2** Kathara Points can be used **following** the procedure to **revitalize** the outer bio-field and body systems.

THE MAHARIC SEAL, PBIS AND HEALING

- Use of the **Maharic Seal and Liquid Light Cleanse** technique begins activation of dormant **Chakras 8-12** and the **Planetary Bio-feed Interface System (PBIS).**

- **Opening the PBIS** allows energy from the **Planetary Shields** to be drawn into the **human body** for **rapid activation** of the **personal Maharic Shield** and **Crystal Seals**, to **expedite** the processes of **DNA Template activation, healing, recoding of the Holographic Template** and interdimensional evolution.

- Opening of the PBIS can also allow the human **DNA Template** to serve as a **Bio-electric Conduit**, through which the **Planetary Scalar Shields** and Electro-magnetic Grids can be realigned with their **Primal Order** for **geophysical planetary healing.**

- Through the PBIS humans can directly facilitate healing of the **Planetary Templar Complex** from the Manifestation Template level, as well as facilitate healing in other biological organisms.

- Each use of the **Maharic Seal and Liquid Light Cleanse** technique assists in **planetary healing**, as the process progressively stimulates the **Planetary Maharic Shield** into activation, to realign **Planetary Shield** distortions.

- The **Maharic Seal and Liquid Light Cleanse** technique is used as **preliminary preparation** for **ALL Kathara Healing applications.** It creates a temporary **12th-Dimensional Scalar Frequency Seal** in the facilitator's bio-field to **protect** both facilitator and client from taking on each other's bio-field distortions.

- In **healing applications**, the **Maharic Seal** is needed to run interdimensional healing currents to their most effective **12th-Sub-Harmonic level.**

BIO-SPIRITUAL EVOLUTION, ASCENSION AND HEALING

- The processes by which **healing** occurs through re-genesis of Primal Order are the same processes through which true **Spiritual Actualization** takes place.

- **Biology** and **consciousness** are **intimately intertwined** through the natural **Laws of Universal Unified Field Physics**, the **energetic dynamics** through which consciousness enters manifestation.

- The hidden **impetus for action** behind human evolution is the core species objective of **Mastery of Co-creation** within the space-time system. This **Evolutionary Objective** is obtained through achievement of the Evolutionary **Goal** of **Transmutational Dimensional Ascension.**

- **Kathara Healing** applications generate **healing** through restoring the **Original Imprint for Health.**

- Restoration of the **Original Imprint for Health** simultaneously expedites the natural processes of **evolution,** through activation of the **12-Strand DNA Template, Kundalini** energies, and **Merkaba Vehicle** and integration of the **Hova Bodies, Scalar Shields** and higher dimensional aspects of personal **spiritual identity.**

- **Kathara Healing** facilitates healing while simultaneously facilitating **Spiritual Actualization** and expediting the Goal of **Transmutational Dimensional Ascension.**

- **Healing is a function of consciousness.** There is no difference between the substance that composes physical matter and the substance that composes consciousness, other than the **dimensional frequency** from which one is perceiving.

- When personal consciousness energy is applied in **congruence** with the natural Laws of Universal Unified Field Physics, **healing, wellbeing** and **Spiritual Actualization** result.

MULTI-DIMENSIONAL IDENTITY STRUCTURE

- **Human anatomy** is a **15-Dimensional Scalar-wave construct.** Part of our identity exists **simultaneously** within the Time Cycles of the higher dimensional **Harmonic Universes.**

- We are indelibly **linked** to our higher identity levels through our embodied **Kathara Grid, Scalar Shields** and **DNA Template.** As we evolve biologically to activation of dormant portions of our DNA Template and Scalar Shields, the conscious awareness of our higher identity levels **progressively embodies.**

- The 3-Dimensional Hova Body **Electro-magnetic Domains** and Scalar Shields that form them represent **Platforms of Perception** through which our higher identity levels perceive.

- **Merger** of the **Hova Bodies** via activation of the **DNA Template** and **Scalar** Shields creates **reintegration** of the **Multi-Dimensional Identity Structure.**

4 PRIMARY TRIADIC HEALING CURRENTS AND IDENTITY

4 PRIMARY TRIADIC CURRENTS

- The **5 Levels of Multi-Dimensional Identity Structure** are: **Incarnate**-Density-1, **Soul**-Density-2, **Oversoul**-Density-3, **Avatar**-Density-4 and **Rishi**-Density-5. There are also **3 Ascended Master** identity levels, Hova Bodies and Shields existing **beyond** the dimensionalized **Time Matrix.**

- In **Kathara Healing** we use the various levels of higher dimensional identity to draw in **healing current** from the higher dimensional Unified Fields, by activating the portions of the **personal Scalar Shields, Kathara Grid** and **DNA Template** that correspond to the higher dimensional **Hova Bodies.**

- There are **4 Primary Triadic** (3-Dimensional) **Energy Currents** that can be used in **Healing Facilitation**: The **Telluric Current**-Density-1, the **Doradic Current**-Density-2, the **Teuric Current**-Density-3 and the **Maharic Current**-Density-4. The **Rishic Current** of Density-5 can be run only by beings with **full 12-strand DNA activation.**

12 TRIADIC PHASE CURRENTS

- Each of the **4 Primary Triadic Healing Currents** corresponds to one of the first 4 **Hova Bodies** of human anatomy.

- In Kathara Healing, the 4 Primary Triadic Currents are harmonically interwoven to create 4 powerful **Combined Healing Currents.**

- Each of the 4 Triadic Healing Currents has **3** Phases, or **3 Phase Currents**, each representing one of the three dimensional frequency bands within the **Triadic Current.**

- Each of the **12 Phase Currents** is run in combination with the 11-12th-Dimensional **Maharic Current** and the Phase Current from the **harmonic directly above**, to form a powerful **Triadic Healing Current.**

- In **Kathara Healing**, specific Healing Currents are directed by using the **Color** of their dominant **wave-length.**

- **Level-1 Kathara Healing** teaches us to activate our **Doradic-Phase-1 Current**- the **Pale Silver** (D11-12) + **Green** (D-4) + **Violet** (D-7)- for **Healing Facilitation** and **personal** DNA Template and Shield activation.

- The **Doradic-Phase –1 Current** can realign the **1st-4th** Dimensional aspects of the **Scalar Shields**, the **1st-4th Chakras**, **Axi-A-Tonal Lines** and **DNA Strand Templates**, the **Physical, Emotional** and **Mental** bodies of the **Nada Hova Body** and the D-4 **Astral body** of the **Alphi Hova Body.**

- **Doradic-Phase-1 Current** can also be used to realign the **1st-4th Sub-Harmonics** of ALL Shields, DNA Strand Templates, Axi-A-Tonal Lines, Chakras and Hova Bodies and to clear the **Karmic-Miasmic Imprint** from the **Density-1** incarnational Time Cycles and the **first part** of the **Density-2** incarnational Time Cycles.

Interdimensional Currents and Signet Star Crystal Seals

Activation of any Triadic Healing Current requires temporary release of the corresponding **Signet Star Crystal Seals** within the personal **Scalar Shield** and a temporary activation of the portions of the dormant **12-Strand DNA Template** that correspond to the Signet Seals. Signet Seals modulate the flow of frequency between the 3-Dimensional Harmonic Density Levels. When Signet Seals are in their usual (for this time period) dormant phase, they keep the 5 **Hova Bodies** of the personal 15-Dimensional anatomy separate from each other by creating an electro-magnetic barrier or **Magnetic Repulsion Zone** between each 3-Dimensional level of the energetic anatomy. This *Magnetic Repulsion Zone* between embodied **Harmonics of Manifestation** manifests as **polarity resistance to frequency inflow** within the 3 Levels of the **Kathara Grid**: the Scalar Shields, Axi-A-Tonal Lines, Chakras and Auric Field levels of the embodied inner **Templar Complex**. **In order to run higher dimensional frequency currents through the physical body for healing applications, it is necessary to temporarily release portions of the Magnetic Repulsion Zones between the Hova Bodies.** Releasing the electro-magnetic resistance to higher dimensional frequency inflow within the Inner Templar Complex is achieved through temporary activation of the **Signet Seals** within the **Kathara Level-2 Crystal Seals Grid** of the personal **Scalar Shields**.

Most contemporary energetic healing systems rely upon using the 1st, 2nd and 3rd-Dimensional frequencies of the **TELLURIC PHASE CURRENTS** in the **Nada Hova Body**. Through the Nada Hova Body alone, only the 3-Dimensional **Sub-Harmonics** of higher dimensional frequency currents can be run, as the dormant *Signet Seals* block the faster moving *Partiku Phasing Flash-line Sequences* of higher dimensional frequency bands from running through the DNA Template. **If a frequency band is blocked from running through the DNA Template that frequency cannot be energetically transmitted through the Nada Hova Body and physical bio-electrical systems.** In **conventional energy healing methods**, even those emerging from ancient systems of subtle-energy healing, the **Signet Seals**, and thus the *Scalar Shields*, *Hova Bodies* and *DNA Template* remain dormant in their usually closed position, **phase-locked** into a 3-Dimensional orientation. While the DNA Template remains phase-locked into the 3-Dimensional orientation of the Nada Hova Body, only the **1st through 12th Sub-frequency bands** (Sub-Harmonics) of **1st through 3rd Dimensional Current** (Telluric Current), and the **1st through 3rd Sub-frequency bands of 4th through 12th Dimensional Current** can be run through the human body for transmission. Use of the lower frequency (slower Partiku Phasing rhythm) **Telluric Currents** can effect temporary beneficial change in the outer layers of the bio-energetic field, but Telluric Currents alone cannot facilitate full repatterning of the 3 Levels of the Kathara Grid where Scalar Shield distortions that cause **genetic malfunction** are embedded. The **11th-12th-Dimensional frequencies** of the Pre-matter Hydroplasmic **Maharic Currents** are the only dimensional frequencies powerful enough to effect change in the embodied **Kathara Grid**. To run **Maharic Current**, and the high frequency interdimensional **Triadic Phase Currents**, through the human body requires release of the **Signet Seals** within the personal **Scalar Shields**.

Triadic Phase Currents, the Maharic Shield and the PBIS

Most healing systems have not incorporated the Maharic Current into their frequency application procedures because the Planetary Templar Complex has not been able to run a D-12 Maharic Current through the planetary grids for 210,216 years. Like the human DNA Template, if the Planetary Shields and Manifestation Template are blocked from processing interdimensional frequency, that frequency will be unavailable for use on the planet. If the Signet Star Crystal Seals (Star Gates) in the Planetary Shields are dormant, closed and phase-locked into Density-1 orientation, no one on the planet will be able to draw interdimensional frequency into their personal Shields because the frequency is unavailable within the Planetary Shields. The personal and planetary Templar Complexes are intimately interwoven, and what effects one will inevitably effect the other.

In order to run the full spectrum of interdimensional Triadic Phase Currents through the human body it is necessary to open the Signet Seals in the personal Inner Templar and the Signet Star Gates in the Planetary Templar Complex. In conventional human evolution, the internal Signet Seals, which serve as the Genetic Time Codes or "Fire Codes" of the human DNA Template, automatically, progressively and sequentially open over very long cycles of time. During the slow activation of the Genetic Time Codes the conscious identity experiences passage through numerous incarnate lifecycles within the planetary Time Cycle, evolving through a series of Single Vector Incarnations before being released from the 3-Dimensional phase-lock of Density-1 manifestation. One can manually open the Signet Seals in the embodied Inner Templar Complex to expedite evolution into the Multi-dimensional, Multi-Vector Time Cycles through use of the 11th-12th Dimensional Maharic Current.

Activation of the personal Maharic Shield allows for rapid release of the embodied Signet Seals and activation of the Fire Codes in the DNA Template. The Maharic Current from the personal Maharic Shield can be used to release the Signet Star Crystal Seals within the body which in turn activates the dormant Kundalini energies at the base of the spine and the Cranial-Sacral Kundalini Seals within the Tailbone and Pineal Gland. Release of the Cranial-Sacral Seals of the internal Templar Complex allows the Magnetic Repulsion Zones between the Hova Bodies to release so the DNA Template, personal Scalar Shields and physical body systems can receive inflow of higher dimensional frequency. To gain conscious mastery over the process of releasing the internal Signet Seals requires activation of the personal Maharic Shield, and the personal Maharic Shield can be manually activated only through drawing Maharic Current into the personal Shields via the Planetary Maharic Shield. The entire process of releasing the internal *Signet Seals* by activating the personal *Maharic Shield*, in order to enable the *DNA Template* to run *Triadic Phase Currents* for healing is entirely dependant upon the *operational function* of the *Planetary Bio-feed Interface System* (PBIS).

If the Planetary Templar Complex is blocked, or the Signet Star Gates are dormant, and Maharic Current from the Planetary Maharic Shield is not able to run through the planetary grids, humans on Earth do not have the option of manually activating the personal Maharic Shield, because the PBIS is not operational. The PBIS becomes operationally functional within the human body through activation of the 12th Chakra. The *12th Chakra* cannot activate in the personal Templar Complex if the Planetary Templar Complex cannot run 12th-Dimensional Maharic frequency. For over 200,000 years, the Planetary Templar Complex could not run Maharic frequency, and thus manual activation of the personal Maharic Shield and release of the embodied Signet Seals to open the Hova Bodies for running interdimensional Triadic Phase Currents for healing were not available options for Earth humanity. Since the recent activation of the Planetary Templar Complex, Maharic Shield and PBIS activation and Kathara Healing applications are now available on Earth.

Opening Triadic Phase Currents in the Human Body

The method by which **Triadic Phase Currents** are activated within the human body is a **progressive process.** First, opening of the personal **Kathara Grid, Telluric Shield** and **Nada Hova Body** is orchestrated through activation of the **Maharic Shield** and **Signet Seals**, to allow inflow of frequency from the higher dimensional **Hova Bodies**. Next, the incoming frequency is harnessed and collected within the **Chakra System.** Finally, the collected frequency is then **transmitted** for healing facilitation in others, either through direct **Chakra transmission** or by close-range **Frequency Induction** via transmission of frequency from the activated **Secondary Chakra Centers** within the **PALMS.**

The ability to run the higher dimensional Triadic Phase Currents within the body must be built up within the Internal Templar Complex, starting with the **slowest-moving current** of the higher dimensional spectrum- the **DORADIC-PHASE-1 CURRENT.** The *Doradic-Phase-1 Current* utilizes the **sub-frequencies** of the **11th-12th-Dimensional Maharic Current** from the Density-4 *Mahara Hova Body* as a **carrier wave** that will carry the desired interdimensional currents through the **Signet Seals** of the personal **Scalar Shields**. The **full spectrum** of the **4th** Dimensional **Doradic-Phase-1** current from the Density-2 *Alphi Hova Body* is activated as the primary **healing frequency** for transmission. The **full spectrum** of the **7th**-Dimensional **Teuric-Phase-1 Current** (one Harmonic above the Doradic-Phase-1 Current) from the Density-3 *Betcha Hova Body* is used to release the **4th**-Dimensional **Signet Seal,** allowing the 4th-Dimensional Doradic-Phase-1 current to enter the **Nada Hova Body**

Activating the **4th Signet Seal** triggers temporary activation of the **4th DNA Strand Template** and corresponding **4th Kathara Center** in the Level-1 12-Tree Grid, which allows the 4th-Dimensional frequencies of the **Doradic-Phase-1 Current** to pass through the **active DNA** and into the bio-energetic and bio-electrical systems of the body for transmission. Once the DNA Template becomes accustomed to holding a **4th-DNA Strand Template Activation**, after **several months** of practice in running the 4th–Dimensional *Doradic-Phase-1 Current*, the body will be able to begin receiving the primarily 5th-Dimensional **Doradic-Phase-2 Current. The lower dimensional Triadic Currents must be activated within the DNA Template before the higher dimensional Triadic Currents can run.** In **Level-1 Kathara Healing** the first step of activating the full spectrum (12 sub-harmonics) of the **4th-Dimensional Doradic-Phase-1 Current** is achieved.

Triadic Phase Currents and Color Cap-Stones

The **Color Cap Stone** of a dimensional frequency band is the visual representation of the **primary wave-length** formed by the specific **Partiki Phasing Rhythm** for that dimension. A specific dimensional frequency band can be chosen and directed by the color translation of its primary wave-length. The **Color Cap Stones** of the dimensional frequency bands are used in Kathara Healing to direct specifically selected dimensional frequency bands (Partiki Phasing Rhythms) for specific applications. The **Color Cap Stones** for the **Doradic-Phase-1 Current** are **PALE SILVER** (D-11-D-12 Maharic) + **GREEN** (D-4 Doradic) + **VIOLET** (D-7 Teuric). In technique **# 3 – OPENING THE HEALING CHANNELS-DORADIC-1** - the *Pale Silver* + *Green* + *Violet* Cap Stone Colors will be used to activate the **Doradic-Phase-1** Healing Current within the body.

DORADIC SPHERE, CORDS AND BALLS

The Doradic Sphere and Current Collection

The **DORADIC SPHERE** is a frequency repository that is formed to hold the activated **Doradic-Phase-1 Current** within the **Chakra system** for transmission in healing facilitation. As the Doradic-Phase-1 Current is primarily a **4th-Dimensional Current**, the Doradic-1 Sphere will be formed in the **4th Chakra**, which corresponds to the 4th-Dimensional **ASTRAL body** of the Alphi Hova Body and Auric Field. **Transmission** of the Doradic-Phase-1 Current will take place from the **Doradic Sphere** at the **4th Chakra**, creating a **4th-Dimensional ASTRAL INFUSION** of frequency into the bio-energetic field of the client in **close-range healing**, and a general **Astral Plane Infusion** of Doradic-Phase-1 frequency into **Manifestation Templates** of areas(and everything contained within the space) when transmitted directly from the **4th Chakra**.

Doradic Cords and Current Induction

The **DORADIC CORDS** are **energy conduits** that are formed by opening the embodied **Axi-A-Tonal Lines** within the **arms, hands and fingers.** Opening the Doradic Cords allows the **Secondary Chakras** within the **palms** of the hands to carry the **Doradic-Phase-1 Current** for application in **close-range** transmission. Though Triadic Phase Currents can be transmitted directly from the **Chakra Center** in which the **Collection Sphere** is placed, the energies are more diffused and diluted in this form of transmission, unless the personal DNA Template holds a **full, permanent activation** of the Strand Template corresponding to the Triadic Current being transmitted. It takes time, often years, for the DNA Template to acquire and permanently hold a higher strand activation level. One-on-one healing facilitation is more effective when conducted through **concentrating** the Triadic Current through the **Axi-A-Tonal Lines** for **DIRECT INDUCTION** of current through the **Palm Chakras** in **close-range** transmission. Close-range transmission also allows for **more precise application** of frequency to specific areas of the body systems. In **Level-1 Kathara Healing**, the **Doradic Cords** are activated within the arms, palms and fingers to allow for concentration, focused direction and **Direct Induction** of the **Doradic-Phase-1 Current.**

For **general healing** purposes, such as **"clearing rooms"** or geographical spaces, or when attempting to transmit healing current into **groups of people**, transmission of the **Doradic-Phase-1 Current** can be orchestrated directly from the **4th Chakra** for **NON-SPECIFIC INDUCTION**. In **Non-Specific Induction**, following activation of the Doradic-Phase-1 Current, each **INHALE** breath is used to fill the **Doradic Sphere** with more energy and each **EXHALE** breath is used to expand and transmit the energy into the room or bio-fields of a group of people. It is not necessary to activate the Doradic Cords for Non-Specific Induction applications. In **Level-1 Kathara Healing** applications use of the **Doradic Cords** and **Palm Chakras** is employed for Direct Induction close-range transmission in Client Sessions. To enhance and expedite **personal healing**, the activated **Doradic-Phase –1 Current** can be run through the personal **Level-1 Kathara Grid** with the ***Maharic Shield and Liquid Light Cleanse*** technique and then through each of the **7 Primary Embodied Chakras.**

Doradic Balls and Palm Transmission Direct Induction

The **DORADIC BALLS** are small energy repositories that form in the **Palms** of the Hands when the **Doradic Cords** have been activated to run Doradic-Phase-1-Current through the **Palm Chakras.** Doradic Balls are used to **accumulate current** in the **Palm Chakra vortices** prior to transmission, to **strengthen** the intensity of the current.

PALM CHAKRAS AND TRANSMITTING CURRENT

Primary Polarities of Palm Chakras

Along with the **15 Primary Chakras** within human anatomy there are many other smaller **Secondary** and **Tertiary Chakra Centers** throughout the body, which correspond to the energetic interrelationships of scalar-wave patterns within the **Kathara Level-3 Diodic Points Grid**. All Chakras operate as sets of **Black and White Holes**, through which energy from the Dimensional Unified Fields circulates into and out of the body and Manifestation Template. The **Palm Chakras** are part of the **Secondary Chakra System**. Like all Chakras, the Palm Chakras are structured as **2 vortices** of energy **joined at the tip** by a minute **Crystal Seal** within the **Kathara Level-2 Crystal Seals Grid**. The Palm Chakras run through the **center of the Palms** and out of the **back of the hands**.

In any set of Chakra vortex spirals, one vortex represents the **magnetic Black Hole**, a *counter-clockwise rotating* spiral that **draws energy IN** toward the central Crystal Seal, and the companion vortex represents the corresponding **Electrical White Hole**, the *clock-wise rotating* spiral that **sends energy OUT** from the central Crystal Seal. The **Black Hole** vortex represents the **RECEIVING spiral** or **Magnetic Pole** and the **White Hole** vortex represents the **TRANSMITTING spiral** or **Electrical Pole**. The **Electrical Pole** of a Chakra represents the **EXPANSION CURRENT** of the Chakra, through which it **expands energy out** from the personal Shields, it is referred to as **BASE ELECTRICAL**. The **Magnetic Pole** of a Chakra represents the **CONTRACTION CURRENT** of the Chakra, through which it **contracts energy in** from the external Unified Field to the personal Shields; it is referred to as **BASE MAGNETIC**.

The Chakras in the **Palms** are composed of many smaller minute **vortex sets**, each with Magnetic and Electrical Poles, but the **PRIMARY POLE** of each Palm Chakra is that pertaining to the **larger Black-White Hole set** and **Crystal Seal**. Though each Palm Chakra is capable of both **Transmitting and Receiving** energy current, the **strongest and most focused currents** can be achieved by utilizing the natural polarity orientation of the Primary Vortex Set. The Chakra in the **RIGHT PALM** is **BASE ELECTRICAL**; its corresponding vortex on the back of the right hand is **Base Magnetic**. The Chakra in the **LEFT PALM** is **BASE MAGNETIC**; its corresponding vortex on the back of the left hand is **Base Electrical**. When running Triadic Phase Currents it is helpful to understand the **Primary Polarities of the Palm Chakras** in order to create the **strongest** and **least distorted** healing current. In **Kathara Healing**, the **RIGHT HAND** is the **TRANSMITTING HAND**, through which Triadic Current is **Exhaled** down the **Cords** in the arms and **EXPANDED** into the **RIGHT PALM CHAKRA** for **TRANSMISION**. The **LEFT HAND** is the **RECEIVING HAND**, through which the Triadic Current transmitted from the Right Hand is **drawn back** into the facilitator's body **TO CREATE A CLOSED CIRCUIT OF CURRENT** for the **strongest current intensity** and **purest frequency content.**

HAND POSITIONS

Standard Hand Position for Transmitting Triadic Current

When transmitting Triadic Current, the **LEFT PALM** is **PLACED OVER THE BACK OF THE RIGHT HAND**. The *Base Magnetic* Current of the *Left Palm* **interfaces** with the *Base Magnetic* Current in the *Back of the Right Hand*, creating a **MAGNETIC REPULSION ZONE,** which **blocks the vortex on the Back of the Right hand** from drawing **non-specific frequency** from the Density-1 Unified Field. This keeps the current transmitted from the *Right Palm Chakra* **pure** to its specifically chosen content. The *Base Magnetic* vortex in the *Left Palm* simultaneously draws the **transmitted current** back up through the smaller vortex sets after it runs through the client's body, creating a **closed circuit of pure frequency** running between the **Hova Bodies** of the **client,** the **facilitator** and the higher dimensional **Unified Fields**. Options of **Frequency Modulation** for other healing applications also become available through using this **HAND POSITION** when transmitting healing current. In some applications a **modulated current** that includes bursts of Density-1 Telluric Current interspersed with current transmission from the higher dimensions is desired; this can be achieved by moving the Left Hand on and off of the vortex on the back of the Right Hand. The **LEFT OVER RIGHT HAND POSITION** is used in **Level-1 Kathara Healing** applications.

Intrinsic Process of Activating a Triadic Phase Current

ACTIVATE MAHARIC SHIELD

1. Open the PBIS using the D-11 – D-12 Wave Guide Symbol Code, the **Hierophant Symbol**, to open the **12th Chakra** and stimulate release of **Maharic frequency** from the **Planetary Maharic Shield.**
2. From the PBIS draw Maharic frequency from the Earth's Maharic Shield up into the dormant personal Maharic Shield 12" below the feet, to activate the **personal Maharic Shield.**

ACTIVATE TRIADIC PHASE CURRENT

3. Choose the specific Triadic Current you desire to run.
4. Use the inflow of **Maharic Current** from the personal and planetary Maharic Shield as a **Carrier Wave** to carry the **Cap Stone Color frequencies** of the **Signet Star Crystal Seals** in your Scalar Shields that correspond to the **Triadic Phase Current** you wish to activate.
5. Temporarily **release** the **Signet** and **Cranial-Sacral Kundalini Seals** and activate the **DNA Strand Template** corresponding to the chosen **Triadic Phase Current**, by running the **Primary Frequency** and the frequency **one Harmonic above** it through the **Signet Seals**, on the Maharic carrier wave current, to open the **Nada Hova Body** and physical body systems to inflow of the higher dimensional **Triadic Phase Current.**

COLLECT AND TRANSMIT HEALING CURRENT

6. As the Triadic Phase currents transmits into the body through the Signet Seals, Kundalini energies and DNA Template, **collect and build the current** as a **Sphere** of energy within the **Chakra** corresponding to the Primary Triadic Current you are running.
7. Run the current from the **Collecting Chakra** through the **Axi-A-Tonal Line Cords** in the arms, to activate the **Palm Chakras.**
8. Exhale current from the **Chakra Collection Sphere** through the **Cords** and allow it to build into **Balls** of energy within the **Palm Chakras** before transmitting.
9. Transmit the Triadic Current through the **RIGHT PALM CHAKRA** into client's bio-energetic field while drawing more current into the **Chakra Collection Sphere** with each **exhale** breath and draw the current back through the **LEFT PALM** on each **inhale** breath to create a higher dimensional Closed Circuit Healing Current. Use **LEFT PALM OVER BACK OF RIGHT HAND** hand position.

TECHNIQUE # 3 93

Opening the Healing Channels- Doradic-Phase-1 Current

1. Breathe slowly and deeply for several breaths while visualizing or imagining a 4" Violet Dot on the center of the *inside of your forehead*. Make the color image as strong as you are able.(If you can't yet perceive inner colors or visualization, simply imagine the Violet Dot as being there). Move the Violet Dot to the center of the brain at the Pineal Gland, and then upward into the 7th Crown Chakra, from the inside of the head moving upward and outward until the Violet Dot *rests on top of your head* at the Crown Chakra.

2. Call to mind the **Hierophant Symbol** (Pale Silver Merkaba Star formed by combining 2 Merkaba Stars). Visualize the spinning Hierophant stationed 12" below the feet within your **Maharic Shield** and slowly **INHALE**, drawing the Hierophant up through the Central Body Current, up to meet the Violet Dot at the 7th Crown Chakra at the top of the head. When the *Hierophant connects with the Violet Dot* visualize the Violet Dot bursting into a 4" Vertical Pillar of Violet-Silver Light. Imagine the *Violet-Silver Pillar* running down through the body into the *Earth Core* and upward to the 14th Chakra 36" above the Head. You have activated **the Violet Ray of Transmutation.**

3. Move your attention to the 4th Heart Chakra and imagine a *small Green Spherical Crystal* – the Green Star- stationed at its core. This is the *Green Star Crystal Seal* that controls release of *4th Dimensional* frequency – *Phase-1 Doradic Current* - into the body **INHALE**, drawing Violet-Silver energy from the Violet-Silver Pillar into the *Green Star* **EXHALE**, *expanding* the Violet-Silver energy *into the Green Star sphere*. *Repeat 2 more INHALE-EXHALE* breaths, drawing Violet-Silver Energy from the Pillar and expanding it into the Green Star sphere. At the end of the last EXHALE, imagine the Green Star popping, turning into a spinning Green and Violet Starburst of Light, as the *Violet-Silver Pillar disappears*. *Spin the Green-Violet Starburst* faster until it becomes a *ball of Green-Violet Light*, about the size of a *grapefruit*, spinning in the center of the *4th Heart Chakra*. The Green-Violet ball is the store-house for your Phase-1Doradic Current – it is called the **Doradic Sphere**. **INHALE** and draw Pale Silver energy from your **Maharic Shield**, through the Central Body Current and into the center of the Doradic Sphere at the 4th Heart Chakra, encasing the Sphere in translucent Pale Silver Light.

4. **EXHALE** quickly and push 2 Cords of *Green-Violet-Silver energy* – **Doradic Cords** -from the Doradic Sphere down *the inside of your arms*, one Cord through each arm. As the ends of the Doradic Cords reach the inside of the hands, notice a sensation of *mild resistance* as the Cords push against the *etheric membranes* covering the *small chakras* in the palms. **INHALE** a full breath, drawing Silver energy up from the Maharic Shield, into the *Doradic Sphere* at the 4th Chakra. **EXHALE** forcefully, pushing more energy down through the *Doradic Cords* in the arms, and feel this energy "pop" out of the *palms, releasing the membranes* on the palm chakras. Continue to **INHALE** energy up from the *Maharic Shield* into the *Doradic Sphere* and **EXHALE** it through the *Doradic Cords, building the strength of the Doradic Current* in both palms. Imagine the Doradic Current *pooling in the palms* to form *2 Green-Violet balls of light*, about the size of *tennis balls*. Energize the Doradic Sphere and Cords until you can sense the smaller Doradic Balls formed in the *palms* of your hands. Your *Doradic Current* is now activated for use in **healing facilitation.**

THE NATURE OF KARMA

Karma, Identity, the Christos and the Physics of Divine Right Order

When an identity enters the Time Matrix to begin simultaneous cycles of evolution through time, it enters the manifest fields through first adopting a Manifestation Template composed of Particle Units and Scalar Waves. The first Manifestation Template is called the Rishic Shield; it exists at the Ante-matter scalar-wave level of Density-5 and holds the complete Primal Scalar Pattern for *all* of the Singular Identities that will simultaneously manifest into incarnation within the lower dimensional Densities and Time Cycles. The Rishic Shield represents the Identity Gestalt or Family of Consciousness through which identity enters manifestation. The Rishic Shield carries the precise configuration of Scalar-wave patterns, the Primal Order of energetic substance, through which the consciousness individuated to form a collective of consciousness within the dimensionalized Time Matrix. Every individual incarnate from the Rishic Family of Consciousness in time carries as part of its core Kathara Grid scalar program the electromagnetic energy signature of Primal Order carried by the Rishic Shield through which it manifested.

The Scalar-wave design of the Rishic Shield represents DIVINE RIGHT ORDER, the Primal Order of scalar-wave energetic relationship and Particle Phasing Sequences that individual identities in time must re-evolve to hold within their embodied Manifestation Templates in order to regain freedom from the dimensional systems of the Time Matrix. Consciousness from the Rishic Shield, in the form of Omni-polar wave spectra, enters the manifest Densities by projecting portions of itself into smaller Consciousness Gestalts within the lower dimensional fields. The smaller Gestalts of Consciousness form the 3-Dimensional Scalar Shields of the identity within the dimensionalized matter systems. Each Scalar Shield holds the consciousness of numerous simultaneous Cycles of Incarnation within each of the 4 Primary Time cycles of Densities 1 through 4. Each individual incarnate in time is directly linked to its original Rishic Shield Family of Consciousness through the Density-4 Maharic Shield. The Maharic Shield of dimensions 10-12 contains the first Pre-matter Hydroplasmic scalar-wave spectra through which identity began its experience within the holograms of Space, Time and Matter. The personal Maharic Shield, often called the PERSONAL CHRISTOS IMPRINT, holds the original Primal Order of scalar waves through which manifest consciousness links to its Rishic Shield. The Christos Imprint of the Maharic Shield represents the PATH OF DIVINE RIGHT ORDER through which each individual consciousness in time can re-evolve to its original Eternal Non-manifest State of Wholeness in Consciousness beyond the Time Matrix. Divine Right Order is not only a spiritual concept; it is a reality in energy within the scientific dynamics of Universal Unified Field Physics. Divine Right Order represents the Primal Order of scalar-waves that make up the original Manifestation Template from which individual singular lifetimes emerge, and it is the necessary pattern of energetic order within the personal multi-dimensional Manifestation Template which allows incarnate beings to fulfill the evolutionary objective of Transmutational Dimensional Ascension. The result of an incarnate being's *Manifestation Template* and Conscious Awareness becoming mis-aligned with the energetic structure of *Divine Right Order* is called KARMA.

Karma, Divine Right Order, the Scalar Shields, Free Will and Miasms

If it is understood that the universe and all things within it exist as manifestations of consciousness in the form of precisely ordered scalar wave arrangements, and that there is an intrinsic and indelible Primal Order upon which all manifestation functions, it will not be difficult to conceptualize the literal and tangible nature of the Karmic Imprint. In energetic terms, Divine Right Order represents the natural alignment of conscious energy fields within the intrinsic Laws of Universal Physics characteristic to the dimensional structures of time. Divine Right Order exists as a tangible, specific and harmonious organization of energy interrelationships within the Primal Order of energetic structure that creates dimensionality. The condition frequently referred to as Karma is, like Divine Right Order, a tangible, specific organization of energy interrelationships. Unlike Divine Right Order, *Karma* represents dis-harmonious interrelationships of energy within the context of the Primal Order that creates dimensionality. Karma can be viewed as CHAOTIC, incoherent energetic disorganization, whereas Order represents coherent energetic organization.

In terms of the 15-Dimensional anatomy of the personal Manifestation Template, the Karmic Pattern represents areas of incoherent energetic disorganization within the structure of the personal Scalar Shields. The 12th–Dimensional Level of the personal Maharic Shield holds the original Christos Imprint, the Primal Order *perfect organization* of scalar-wave configurations that links our consciousness and DNA Template to the Rishic Shield Family of Consciousness through which we entered the Time Matrix. While the Maharic Shield holds our original Perfect Organization of Consciousness, the Scalar Shields upon which our lower dimensional Hova Bodies and Incarnate, Soul and Over-Soul Manifestation Cycles emerge often become distorted from their original Primal Order as held within the Maharic and Rishic Shields. Human consciousness, in its multidimensional forms, was designed "in the image of its Creator", having Free Will to *apply the dynamics of energetic creation in time* in accordance with personal intention, within the greater context of the fixed Natural Energetic Laws of Creation.

When we use our gift of Free Will to direct our energies in a manner congruent with the Divine Right Order of Universal Unified Field Physics (which implies co-creative, not competitive co-evolution for all), the scalar-wave design of our personal Scalar Shields remains organized upon the intrinsic design of universal and personal Primal Order. Through embodiment of Divine Right Order within our personal Scalar Shields and consciousness, we know conditions of perfect health and harmony within the Time Matrix. When our Free Will is used to direct our energies in ways that are incongruent with and non-supportive of Primal Order, the disorganization of our energetic orientation manifests as literal Partikl Phasing Sequence distortions that create misshapen scalar-wave groupings within the anatomy of the personal Kathara Grid, Scalar Shields and the DNA Template built upon them. These misshapen scalar-wave groupings within the Kathara Grid, Scalar Shields and DNA Template are called MIASMS and they hold, in tangible scalar frequency form, the disorganized energetic patterns of our Free Will choices through which we have used our energies in a manner incongruent with Divine Right Order.

Miasms are the ***tangible substance*** of our ***Karmic Pattern*** that reflect the areas in which our ***consciousness*** and ***Scalar Shields*** are ***distorted*** from our original ***Maharic Shield Christos Imprint of Perfect Organization*** within the context of ***Universal Primal Order.***

TIME VECTORS AND THE KARMIC-MIASMIC IMPRINT

Miasms, Incarnational Time Vectors, Vector Imbedding and the DNA Template

The **Miasmic Imprint** within the body and Manifestation Template that holds the personal **Karmic pattern** manifests as **mathematical, geometrical** and **electro-magnetic distortions** in scalar-wave forms within the Kathara Grid and Scalar Shields, that cause groupings of **Anti-particles** to build up within the **Particle field** of the physical and energetic anatomy. The build-up of **Anti-particles** within the Particle Field blocks the natural flow of energy and consciousness through the **Kathara Level-3 Diodic Points Grid**, and manifests as **malfunctions** within the **Partikl Phasing Programs** within the **Kathara Centers** of the Level-1 **12-Tree Grid** and within the **Signet Star Crystal Seals** of the Kathara Level-2 **Crystal Seals Grid**. The **3 Levels of the Kathara Grid** set the blueprint for manifestation of the **Scalar Shields, Hova Bodies, Chakra System** and **DNA Template. Miasmic distortions** in the **Kathara Grid** effect every level of personal manifestation, from the operation of the physical genetic code to the ability of consciousness to successfully embody within the physical form, to the potentials of **Transmutational Dimensional Ascension** and attainment of **Spiritual Actualization.**

Karma- the *Miasmic Imprint-* is a *biophysical phenomenon* of scalar-wave distortion that directly effects the *human DNA.*

The **Incarnations** of SELF that **simultaneously manifest** into incarnational cycles of divergent space-time placement within the 4 Densities and 12-Dimensions of Matter are all directly **interconnect** through the **Kathara Grid, Scalar Shields** and **DNA TEMPLATE**. The **Free Will choices made** by other manifestations of ourselves **concurrently existing** in other space-time locations and different manifest body forms, effect the function of our personal **Kathara Grid, DNA Template, conscious awareness** and **life experience. The choices WE make** in our present lifetime directly effect the **Kathara Grid, DNA Template, consciousness** and **life experience** of our **other-time incarnations.** The energetic connection between incarnations of the SELF is an **immediate, living connection** of energy and consciousness. Because our numerous simultaneous incarnations in time are directly, energetically linked to each other via the Kathara Grid and DNA Template, we literally **inherit Miasmic Buildup from each other** on a continual basis. When we make the choice to restore our personal Imprint for Health, our **Christos Imprint,** as held within our **Maharic Shield,** part of these efforts must involve **clearing the Miasmic Imprint** that is bleeding through into our personal Manifestation Template for the other incarnations of Self.

Each of our simultaneous incarnations in time represents one **SINGLE VECTOR CONSCIOUSNESS,** one portion of our **Eternal Identity** that experiences 3-Dimensional **linear evolutionary progression** along **ONE TIME VECTOR** (one cycle of Partiku Phasing Sequences). **Each Incarnate represents a TIME VECTOR.** The multiple Time Vectors of our Multiple Simultaneous Selves are literally **encoded** within core scalar-wave programs of our **DNA Template;** this is called **VECTOR IMBEDDING.** To fully heal our Body-Mind-Spirit system by restoring it to its **Organic Imprint for Health**, the **Maharic Shield Christos Imprint,** we need to clear the Miasmic Imprint from our other simultaneous incarnations as it is presently embedded within our DNA Template. **Transmuting the Miasmic Imprint that is embedded in our DNA Template to restore the original perfect Primal Order is called "Clearing the Karmic Pattern" or MULTI-VECTOR HOLOGRAPHIC RECODING.**

MULTI-VECTOR HOLOGRAPHIC RECODING

REGENESIS OF THE PERSONAL CHRISTOS

Restoring the Organic Imprint for Health and Clearing the Karmic-Miasmic Imprint

Literally all conditions of **dis-ease** in the human body and dis-harmony in the life experience, including the unnatural condition of **death** of the human body form, result from **Miasmic Distortions** within the embodied **Kathara Grid, Scalar Shields, DNA Template** and personal **Inner Templar Complex**. The natural state of Universal Primal Order is harmonious co-creative interrelationship of consciousness. Humans can progressively return to their natural condition of **Ordered Perfection** through **re-genesis**, or *re-creation*, of the **Organic Imprint for Health** – the **Maharic Shield Christos Imprint** – within the Kathara Grid blueprint of the personal Manifestation Template. **Regenesis of the Personal Christos is a Multi-Vector Endeavor**, involving clearing the karmic-Miasmic Imprint from a myriad of various simultaneous selves presently evolving in the Time Matrix. The hard way to clear the Miasmic Imprint is by "**walking the Karma**", which means allowing progressive levels of the **Miasmic Imprint** to repeatedly re-manifest in the personal life experience, until the **proper application of Free Will choice** used in congruence with **Divine Right Order** becomes consciously apparent and the "Right Choices" are made to re-ordered the disorganized use of energy that caused the Miasm to form. In our present time, this approach to "clearing the Karmic Pattern" is no longer effective as a learning tool by which embodied consciousness teaches itself the etiquette of creation. **The Miasmic Imprint within the collective human species has grown so extensively that the core issues of misapplied Free Will that cause Miasmic Buildup can no longer be consciously identified, and the Miasmic Imprint continues to compound and amplify itself as the same errors of Free Will energy use are perpetually repeated and reinforced.**

The Karmic-Miasmic Imprint is an **ENERGY FORM**, a literal **construct of scalar-wave frequency** with its corresponding **Anti-particle Manifestation**. As a form of energy, the **Miasmic Imprint** can be dealt with **AS ENERGY, WITH ENERGY**, for the most expedient clearing, healing and realignment of the **Karmic Imprint.**

The **Karmic-Miasmic Imprint** manifests within the **causal level** of manifestation, the **3 Levels of the embodied Kathara Grid** of the **personal Internal Template Complex**, and from the Kathara Level the Karmic-Miasmic Imprint manifests as **misalignment** and **malfunction** within all levels of Body-Mind-Spirit system. To clear the Karmic Imprint **AS ENERGY, WITH ENERGY**, its disorganized scalar-frequency patterns must be realigned from the **Core Template Kathara Grids**, the **causal level** of miasmic manifestation. Restoring the **Maharic Shield Christos Imprint** to the personal **Kathara Grid** takes time and precise **applications of frequency re-ordering** in all levels of the Body-Mind-Spirit system. The first step to **Regenesis of the Personal Christos** is the **MAHARIC RECODING PROCESS.**

MULTI-VECTOR HOLOGRAPHIC RECODING

Recoding the Time Vectors of the DNA Template and the DNA Fire Codes

The process of regenerating the **Christos Imprint** within the **Kathara Grid** of the human body is a **MULTI-VECTOR** undertaking. A **Vector** is a **set cycle of vibrational-oscillation rhythm** that creates a **specific repeating Partiki Phasing Rhythm** and **Flash Line Sequence**. Each individual incarnate self in time holds within the electro-magnetic programs of its embodied **Kathara Centers** the precise **Partiki Phasing Rhythms** that correspond to its particular placement within the planetary **Time Cycles**. The **Time Vector**, or **Flash Line Sequence** that creates one linear **Event Horizon**, is literally encoded and actively operational within the **Kathara Grid** and **DNA Template** of each incarnate identity. In the process of restoring the **Organic Integrity** to the personal Manifestation Template, the dormant **Partiki Phasing Rhythms** that correspond to one's **other-time incarnates** are progressively **brought into activation** and **realigned** with the Christos Imprint of the **Maharic Shield**.

The **Partiki Phasing Flash Line Sequence programs** within the embodied **Kathara Centers** manifest within the **DNA Template** as the **GENETIC TIME CODES**, or **Fire Codes**, of the DNA. In restoring **Maharic Order** to the personal **Kathara Grid**, the **12 Dormant Fire Codes** of the DNA Template will be slowly but progressively brought into **activation** through the 11th-12th –Dimensional Frequencies of the **Maharic Shield Mahara Hova Body Current**. Activation of the **DNA Fire Codes** creates a reciprocal release of the **Signet Star Crystal Seals** and **Cranial-Sacral Kundalini Seals** within the **Kathara Level-2 Crystal Seals Grid**, progressive activation of the dormant **Kundalini energies** and **Merkaba Vehicle Phases**, merger of the **Hova Bodies** and embodiment of the higher dimensional **Spiritual aspects** of conscious awareness. The process of recoding the multiple time vectors within the DNA Template – **Multi-vector Holographic Recoding**- is a process of progressive **WHOLE-BEING HEALING** that is achieved through **consistent application** of the **MAHARIC RECODING PROCESS**, and expedited through complimentary processes of **DNA Template, Kundalini** and **Merkaba Vehicle** activation. Level-1 Kathara Healing introduces the operational mechanics of the **Maharic Recoding Process**.

The Maharic Recoding Process

FOR MULTI-VECTOR HOLOGRAPHIC RECODING

The 4 Primary Elements of Action

1. **The Maharic Seal and the Liquid Light Cleanse** (Technique # 2)
2. **Opening the Healing Channels** (Technique # 3)
3. **Amplifying Inner Audio-Visual and Kathara Scan** (Technique # 4)
4. **The Maharic Infusion** (Technique # 5)

The **4 Primary Elements of Action** to begin the **Maharic Recoding Process,** through which **Multi-Vector Holographic Recoding** of the **Morphogenetic Field Manifestation Template** is achieved. Begins realignment of the Core Manifestation Template **Kathara Grid Levels,** the **Scalar Shields, Hova Bodies, Axi-A-Tonal Lines** and **DNA Template** with the **Primal Order** perfect scalar-wave pattern of the personal 12th-Dimensional Pre-matter Hydroplasmic **Maharic Shield-the Christos Imprint** and **Organic Imprint for Health.** Also begins activation of dormant **DNA Strand Templates, Kundalini** energies and the **Merkaba Vehicle** for **Transmutational Dimensional Ascension.**

AMPLIFYING INNER AUDIO-VISUAL AND KATHARA SCAN

1. Place RIGHT palm (*electrical-transmitting hand*) over the 5th Kathara Center at the Navel, and place the *Left palm* (*magnetic-receiving hand*) over the *back of the right hand* (to block 3rd-Dimensional energies from entering the rear of the right hand chakra). INHALE energy from your Maharic Shield – the *Maharic Carrier Wave*- into your Doradic Sphere at the *4th Heart Chakra*. EXHALE and run the *Maharic Wave* down the *Doradic Cords* in the arms and into the *Doradic Balls* in the palms. Inhale, then EXHALE, using the exhale breath to *push* energy from the *Doradic Sphere*, down the *Doradic Cord* in the RIGHT arm, through the RIGHT Doradic Ball and into the 5th Kathara Center at the *Navel*. Run several breaths of *Doradic-1 Current* into the *5th Kathara Center* at the Navel, until a mild tingling sensation is felt.

2. Place the LEFT palm over the 5th Chakra at the *Throat*, with the *Right palm* covering the *back of the LEFT hand*, and INHALE the Doradic-1 Current up from the *5th Kathara Center* at the Navel, into the Seed/Center of the 5th Chakra. EXHALE and *expand* the Doradic-1 frequency into the *5th Chakra spiral*, allowing the magnetic current from the LEFT hand to draw the energy out through the spiral. As you EXHALE, slowly move the hands forward, *away* from the body and the 5th Chakra.

3. Repeat the same process over the 6th Kathara Center, placing the RIGHT palm over the *6th Kathara Center* below the Right Shoulder, with the *Left palm* covering the back of the *RIGHT hand*. INHALE/Draw energy up from the *Maharic Shield*, into the *Doradic Sphere*. EXHALE energy down the *Doradic Cords* into the *Doradic Balls*. Inhale, then EXHALE energy down the *RIGHT Doradic Cord* through the *RIGHT palm* and into Kathara Center 6. Run several breaths to energize the *6th Kathara Center*. Then move LEFT palm over the *6th Third Eye Chakra* in the forehead, with Right palm behind. INHALE the Doradic-1 Current from the *5th Kathara Center* into the Seed/Center of the *6th Chakra* and EXHALE the energy into the 6th Chakra spiral while drawing it through with the magnetic current from the LEFT hand. The 6th Sense-*Audurea*, which provides inner audio perception, and the 7th Sense-Tristet, which provides inner visual perception are now energized and amplified in preparation for Kathara Scan.

4. Close your eyes and focus your attention in a single point at the *inside of your forehead*. Inhale, and as you EXHALE run your attention outward *through your 6th Chakra spiral*, into the 6th Chakra Spiral of your Client. Move your attention into the center of your Client's brain, the Pineal Gland. Inhale, and EXHALE moving your awareness down from the Client's Pineal, through your *Client's Central Body Current* and down into the Earth's core. INHALE and move your awareness back upward to your Client's Maharic Shield, and spread your awareness outward through the *Maharic Shield* with the EXHALE. On the *inside of your forehead*, imagine the image of the Kathara 12-Tree Grid, INHALE energy from the Client's *Maharic Shield* and EXHALE the energy out into the *12-Tree Image*. Breathe gently for a moment, *observing the 12-Tree Grid*, which will register tones of white, black and ranges of gray in between. If you cannot yet visualize, you will still get a sense of the 12-Tree Image and the areas of dark and light within it. The dark areas represent layers of the MIASMIC BODY, areas of the *karmic imprint* that need clearing when you run *Technique # 4. The Maharic Infusion*. Remember the areas of the Client's Kathara that need clearing. Inhale, and open *your eyes* on EXHALE.

TECHNIQUE # 5

THE MAHARIC INFUSION – CLIENT FACILITATION

Prior to using this technique you should have completed the following: 1.Positioned *MENTOR* over your Right shoulder to assist (*Tech. # 1:Awakening the Mentor and the 6th and 7th Senses*). 2. Activated your *Maharic Shield, Maharic Seal* and run the *Liquid Light.* (*Tech. # 2: The Maharic Seal and the Liquid Light Cleanse.*) 3.Activated your *Doradic Current, Inner audio/Visual* and *Client Kathara Scan* (*Tech. # 3 and # 4)*
4. Opened the *Kathara Lines* for you and your Client (*Sequence-1 Kathara Points*)

Place Client in a reclining position with shoes off:

1. Position yourself at the **feet** of the reclining Client. Place **RIGHT palm** *12" below Client's feet* at the **Maharic Shield**, *left palm* over the back of Right hand.

2. Visualize the **Hierophant symbol** on the *inside of your forehead.* Inhale, then **EXHALE,** moving the *Hierophant* down to **Chakra 4** and into the **Doradic Sphere** with the exhale breath **INHALE** energy upward from *your* **Maharic Shield** and into the *Doradic Sphere.* **EXHALE** the **Hierophant** with *Doradic-1 current* down the **Right Doradic Cord** and into the *Doradic Ball* in the **Right palm.** .

3. Inhale, then **EXHALE** the *Hierophant and Doradic-1 current* into the *center* of the **Client's Maharic Shield.** Visualize the *Hierophant spinning* in the center of the Client's Maharic Shield until you sense a **mild shift** in the energy below the Client's feet. The shift indicates that the Client's *Maharic Shield* has activated and the *Maharic Pillar* has "popped" vertically upward from the Shield – the Client's bio-energetic field now carries the **Maharic Seal.**

4. **INHALE** energy from your *Maharic Shield* into your *Doradic Sphere*, then **EXHALE** the energy down **both Doradic Cords**, into the Doradic Balls in the palms. Visualize the **12-Tree Kathara Grid** *within the Client's body.* You will now run the **Maharic Infusion** through the *small chakra points in the feet.*

TECHNIQUE #5 : Continued
THE *MAHARIC INFUSION*

5. Place your **Right palm** on the *bottom* of **Client's Left foot** and your **Left palm** on *top of the foot*, centered over the *Right palm*. Imagine that you are lining up the *small vortex* beneath the ball of the Client's foot (which extends *through the foot* to come out on top), with the *small chakras* in your palms. Inhale, then **EXHALE** energy from your **Doradic Sphere** through the **Right Doradic Cord, Right palm** and *into the sole of the Client's foot*. Visualize the **Green-Violet-Silver energy** traveling up the **Kathara Line on the** *Left side of the body*, through the *4th, 7th and 10th Kathara Centers*. Continue **EXHALING** energy into the **Left foot** until you begin to feel a bit of **fuzzy energy** coming out of the foot toward your palm. This indicates that the *Kathara Line* has *reached its energy-holding capacity*. **Repeat** the process on the **Right foot**, running energy through the *Kathara Line on the Right side of the body and the 3rd, 6th and 9th Kathara Centers*.

6. You will now clear and align the **Central Vertical Kathara Line** to complete the **Maharic Infusion. Move to Client's head.** Place **Right palm** over **Client's 10th Chakra** 6" above the head, the location of the *12th Kathara Center*. Place *Left palm* over back of Right hand. **INHALE** energy from your **Maharic Shield** into your **Doradic Sphere** then EXHALE energy down the **Right Doradic Cord**, into the **Right palm** and through the **10th Chakra**. Visualize the energy moving down from the *10th Chakra* into the **7th Chakra**, to the **Pineal Gland** (11th Kathara Center), then *rapidly* down the **Central Body Current** and **Central Kathara Line**, through *Kathara Centers 8* (thyroid), *5* (Navel), *2* (at Base Chakra) and into *Kathara Center 1* at **Earth's core**. Continue **EXHALING** energy into the **10th Chakra** and **Central Kathara Line** until you feel **fuzziness** against your *Right palm*, indicating that the *Kathara Grid* has reached its *energy-holding capacity*.

7. *Before releasing 10th Chakra* direct a bit of additional energy through the **Central Kathara Line** into areas that revealed **dark spots** during the *Kathara Scan*. Visualize the areas *getting light* as the energy runs through them. **You may add other healing modalities at this point, if desired.** *Close* by using the **Sequence-2 Kathara Points** to close the Kathara Lines and *revitalize the body*. Allow Client a few moments to recline before ending session.

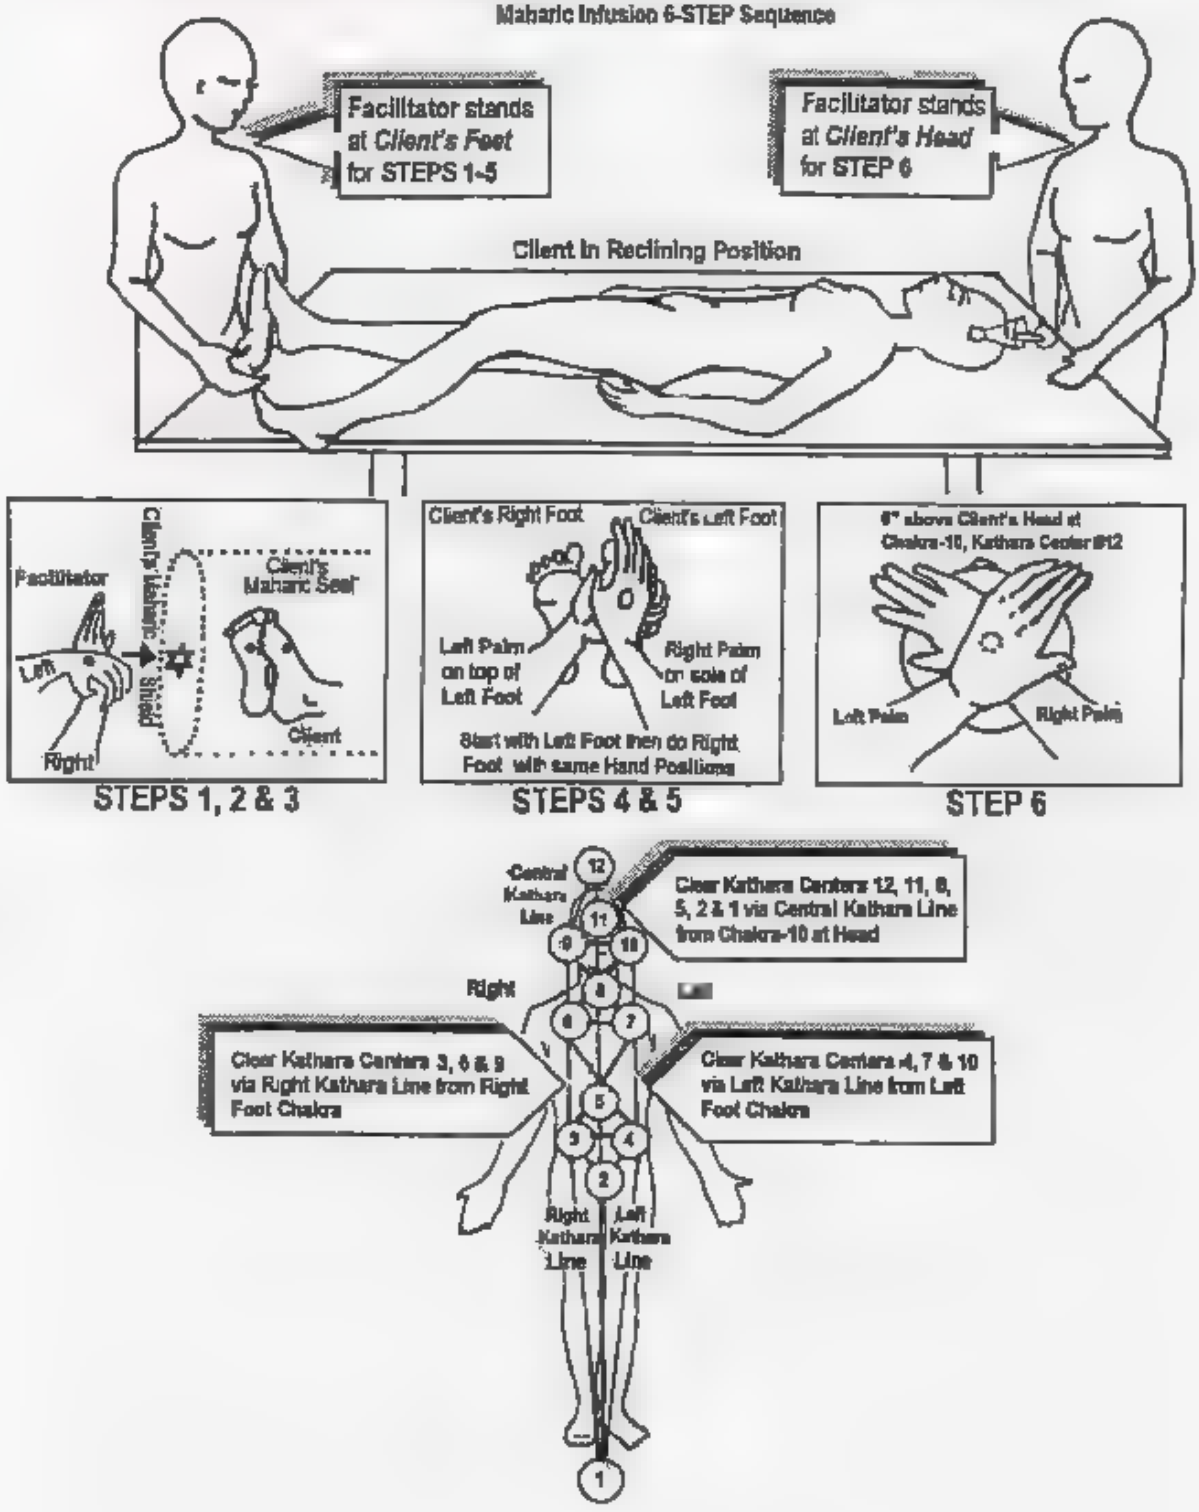
TECHNIQUE # 5: THE MAHARIC INFUSION – CLIENT FACILITATION



MOTIVATION TO HEAL

Healing Facilitation is an art and a science, but most importantly, healing facilitation is an **interrelationship of SOULS.** Egotistical objectives have no place in quality Healing Facilitation. The decision to participate in Healing Facilitation should not be motivated by a desire to prove you have "special abilities" to boast about, nor with the primary motive of gaining **financial profit** from Healing Facilitation endeavors. The energies exchanged in healing facilitation are **FREE TO ALL, a DIVINE GIFT** from the universe, and they belong to all beings equally. A facilitator cannot rightly request payment from a client for providing what the client already possesses- **Natural Healing Energies.**

In Divine Order, it is appropriate for the facilitator to accept **payment** for the **personal time and energies** invested in **learning and developing facilitation skills**, and for the time spent in active facilitation. It is important that the facilitator understands this subtle difference of **"fair exchange of energy"**. If the facilitator mistakenly assumes they are requesting payment **for healing energies** they supply, they are inadvertently misrepresenting themselves to the client. The client possesses personal healing energies and does not need to purchase such energies from others. The **time and expertise** offered by the facilitator to assist the client in stimulating their own healing energies, is a service worthy of reciprocation. If a client chooses such assistance, the **facilitator** has **legitimate right** to honor their own worth as a being by **requesting reasonable payment or barter** in **fair energetic exchange** for the service they offer. However, if a client is in need of healing facilitation, and has no means of fair exchange at that time, the facilitator should honor the worth of the client by providing assistance of equal value **free of charge.**

In spiritual principal, "making money" is not a legitimate motivation for participating in Healing Facilitation. Seeking to find one's personal **"Divine Right Livelihood"** in **sincere service** to others, which might possibly involve providing client service in Healing Facilitation, IS a spiritually legitimate motivation. Healing Facilitators will discover that when they put the objective of **GENUINE SERVICE TO THE DIVINE** as the **first Priority**, rather than the pursuit of personal monies or status, the **Universe Will Provide.** Facilitators who enter the healing field with hidden personal motivations incongruent with **Universal Laws of Energy**, which imply **equality, respect, reverence** and **balanced exchange of energy** between all beings, will find difficulties emerging in their lives as the personal **SOUL** sets up lessons through which **Universal Principles** become more apparent. There is only **ONE TRUE MOTIVATION** for participation in Healing Facilitation- **the motive is LOVE.**

POSTURES OF LOVE

The Energy-Reality of LOVE

In terms of **Universal Physics**, Love is an **energy reality**, a **STATE OF VIBRATIONAL HARMONIZATION**, or **CO-RESONANCE OF FREQUENCY** that allows an **energetic bridge** to build between individuals. It is through this energetic bridge of frequency that one can assist in running healing energies that will facilitate the healing process of others. Without the sentiment and **FREQUENCY** of **GENUINE LOVE**, one cannot energetically facilitate the healing of another. **LOVE is the essential ingredient in healing,** for it allows the opening of facilitator and client's bio-energetic fields to the **Universal Frequencies** of the interdimensional spectrum. Cultivating the ability to embrace and hold the frequencies of Universal or **OMNI-LOVE** is the responsibility of any true healing facilitator. The emotionally experienced reality of the ***frequency of Love*** takes many forms In healing facilitation it is important to **assess the most appropriate form of love** to engage with each individual client

Soft Love

Many people respond well to **"SOFT LOVE"**, the kind, gentle, nurturing, soothing love often displayed by mother's comforting their infants. Soft Love works well with client's whom possess some degree of spiritual maturity and who have cultivated the ability to hold some degree of a love frequency within themselves. Soft Love is the appropriate form of love for client's possessing the maturity to accept personal responsibility for themselves, their actions and their emotional reaction patterns, and who do not attempt to manipulate, drain energies from or place blame on others. Soft Love is characterized by **engaged detachment** of the facilitator and is demonstrated through soft-spoken, calm and sincere words and actions that are intended to place the client at ease.

Soft Love is always built up sincerity, kindness, respect and a genuine desire to see the client thrive and prosper. Developing the ability to carry the Soft Love frequency takes time, attention and practice, and requires that the facilitator works to heal personal **internal conflicts**, unresolved issues from **childhood** and **karmic** reaction patterns that disrupt the Soft Love vibration. Soft Love is a **vulnerable love** in that it necessitates one to show the self as it is, honestly expressing personal feelings tempered with kindness. Soft Love is **not approval seeking**, it is rather genuine, honest and **self-generated**. Soft Love requires **love** and **respect** of the self and others mutually. It is built upon a level of spiritual maturity in which it is understood that personal value is implied by the fact of existence and is not determined by the approval or **validation** of others outside of the self and the personal relationship to the Divine. The ability to carry the Soft Love frequency emerges through **spiritual integration, personal healing** of internal conflicts and power struggle issues and **intentional application of kindness and mindfulness.**

Tough Love

Soft Love does not facilitate healing on all occasions. Certain clients who come to a facilitator for healing assistance bring with them a great need for **emotional healing** and development of spiritual maturity. They may demonstrate demanding, arrogant or pushy attitudes and refuse to accept responsibility for their personal actions and resulting consequences. Most often such individuals carry deep wounds from childhood or from reincarnational bleed-through. Because they are **wounded within**, they have not yet developed the self-control or maturity necessary to treat themselves or others with kindness, respect or love.

Individuals who display unreasonable behaviors or attitudes pose quite a challenge to the love-based healing facilitator. If they are approached with Soft Love, the facilitator will often find themselves as a scape goat for the individual's personal problems, may have their energies and time excessively **drained** by such clients and might possibly be subjected to outright verbal or physical **abuse**. Clients exhibiting such personality traits are struggling within themselves to **gain control** over the various **conflicting portions** of their personal energies, and they tend to objectify this internal conflict resolution in the form of **POWER STRUGGLE** with others.

Personalities trapped within cycles of subconscious self or other-abusive attitude patterns need **love** more than anyone, but most often their behaviors push others away. Intrinsically the behaviors serve to keep the individual sheltered from **self-exposure;** they do not allow others close enough to inspire feelings of vulnerability or lack of self-esteem. Often such personality traits effectively keep the individual from seeing themselves and the inner pain and conflict from which they attempt to hide. To facilitate healing in such individuals without succumbing to their manipulation, aggression or abuse requires that the facilitator adopt a posture of **TOUGH LOVE**. In Tough Love the facilitator clearly establishes **personal boundaries** in their own mind as to what treatment they will and will not accept. If the client crosses those boundaries the facilitator **assertively addresses the issue** with the client, requests that the offensive behavior cease and provides **CLEAR CONSEQUENCES** as to what will occur if the offense continues. The Tough Love approach is rendered from a base of **Soft Love** and **Omni-Love**, but it is strengthened with **Self Love** on behalf of the facilitator. The facilitator recognizes that they are only assisting the client to continue with the self-destructive patterns by condoning or allowing offensive behavior, and chooses to **love the client enough** to **confront the pattern** so that it may begin to release. In **lovingly, calmly**, but **firmly confronting** poor behavior and **setting clear boundaries** and **consequences**, the facilitator assists such clients to temporarily find a new pattern of action because the old one does not work for manipulation in this instance. The Tough Love approach frequently requires facilitators to demonstrate that they hold their own power, even in the face of client disapproval. Tough Love is an ability of **personal empowerment** worth cultivating for personal and client healing.

Self Love

In healing facilitation **Love** is the essential ingredient. All love begins with the **Divinity Within the SELF.** You will be able to transmit the frequency of love to others in direct proportion to your ability to hold the frequency of love within yourself. If you do not recognize your intrinsic value as a **Divine Being** and seek validation of your existence through external sources such as achievements, status or other-approval, you will likewise project these sentiments into your love relationships with others. If a client does not meet the external standards of validation that you have placed on yourself to determine your personal worthiness of love, you will have difficulty not falling into **judgement** of the client.

Judgement and **love** cannot transmit through the human body at the same time. Judgement creates an **energy reality** of separation or **Non-Resonant Frequencies** of energy, whereas Love creates the **Co-resonance of Frequencies** needed for open flow of Universal Energies for healing facilitation. If one can realize that **LOVE IS THE ONLY CONSTANT** and that all conditions of judgement change, it is easier to cultivate the innate ability to fully hold the frequency of Love. Though **ASSESSMENT** of conditions, actions or attitudes is useful and necessary, such assessment can be rendered through **"separating the person from the action".** You can judge the effectiveness or value of the **action or idea** without assigning a **value-judgement** to the **person** to which it is attached.

If the healing facilitator can feel love, reverence, respect and honor for the **Divinity Within Themselves**, they will also transmit these qualities of **excellence in Love** to the client. The quality of Love brought into the healing facilitation experience will directly effect the success of healing assistance given. **Love the Self** and know that all beings possess an **unalienable worth and value** as a living part of the **Divine.** Begin to cultivate this awareness within your personal life and you will greatly increase your effectiveness as a healing facilitator. Love, honor and respect yourself, your feelings, your dreams and your desires, so you may better love those you wish to serve.

Love others as you would love the Self,
and love the Self as you would like to love others.

The Illusion of Martyrdom

People who love themselves do not buy into the idea that they must play "**martyr**" to others in order to be of service. **Martyrdom** implies a belief that you are **lacking in worth,** or must **earn** your worth in being, by relinquishing that which feels of most value to you. It also **undermines expression of the God-Presence** within others, by assisting them to believe that you are so vital to their wellbeing that they cannot function without you. In truth, martyrdom is an **expression of EGO**, most often used by people who feel they are **personally insignificant** in the eyes of the Divine, in order to **give themselves significance** and **a sense of personal power and purpose** for being. People who actively *know* the intrinsic **Spiritual Divinity** within themselves treat that Divinity with honor and respect and do not allow or need others to **depreciate the Self** and its desires in order to prove the existence of a *belief* in personal Divinity.

Martyrdom **does not facilitate healing** within the self or client, as it reinforces the **erroneous belief** in intrinsic **personal unworthiness**, which exists in **direct contradiction** to the **innate God-Presence** that exists in every living thing. Within the energy dynamics of **Universal Law**, natural **balance** is achieved in the flow or **GIVING**, and back-flow or **RECEIVING** of energy. In human spiritual relationships this **balance of energy** is achieved by **mutually valuing** each person in a relationship, through which the natural giving and receiving of energy can be exchanged unimpeded. **Martyrdom impedes the natural flow of energy**; the martyr customarily gives more than receives, which progressively diminishes the martyrs ability to keep open a perpetual flow of energies from the Divine because the martyr does not allow the Self to receive.

Martyrdom is not a demonstration of Love,
it is an exhibit of Love Deprivation.
The remedy for Martyrdom is
OWN-LOVE.

OMNI-LOVE; Fully Engaging the Love Vibration

The greatest love that can be embodied in human form is **OMNI-LOVE**. OMNI-LOVE is a pure state of vibrational Frequency Co-Resonance between the human identity and the **12 Dimensions** of reality within which the human anatomy is couched. Omni-Love is expressed in human form as **Christed Love** or **Christos Consciousness, the 12th-Dimensional Love** of the **Maharic Level of Identity.**

Christos Love is a state of full Frequency Resonance with **everything existing** in the many universes contained within **12 Dimensions** of the 15-Dimensional System. It is a **transcendent love** that is attached to no thing but is **AT ONE** with **ALL THINGS** in a state of perpetual **Engaged Detachment.** Through Christos-Omni Love, the **SELF** is known as an **extension of God**, or the **Divine Source**; a **temporary mask of form** worn by the **ONE CONSCIOUSNESS** of the Cosmos. All things and beings are known as **simultaneous expressions** of the **ONE-SELF** that is God-Source. From this state of transcendence in love, all activity is understood to **exist within** the reality of LOVE, and all conflict and strife are viewed as the ONE-SELF **progressively expanding the ability of its expressions** to **carry the frequencies of energy** that constitute **ONE-LOVE**, a state of **total vibrational Frequency Co-resonance** with the **Cosmos.**

Activation of the full **12-Strand Silicate Matrix DNA Template** and full integration of the **Mahara Hova Body Avatar Identity** allows for the experiential embodiment and transmission of Christos-Omni-Love. **Embodiment of Omni-love is the goal toward which human evolution moves forth.** Omni-Love is Soft, Tough, and Enduring, honoring **Self** , **Other** and the **Divine** simultaneously. It is the **strongest healing force** of frequency in the 4 Harmonics of Matter Density. Christos-Omni-Love is the **fulfillment** of the **Christos Principle.** Strive to bring Omni-love into your life, and personal and client healing facilitation, and you will assist your higher identity levels to create transformation! Omni-Love is the **natural structure** of reality **AWARENESS** of Omni-Love is cultivated through **intention** and appropriate use of **personal free will choice** in congruence with the **natural Laws** of the **Unified Field Physics of Consciousness and Creation.**

Through living in Omni-Love all moments are known as Sacred, all beings are known as Blessed and life becomes an ecstatic study in Reverence for Existence.

OMNI-LOVE EXERCISE TO AMPLIFY HEALING FACILITATION

EXERCISE

The MAHARA SPACE-COMFORT TOUCH

1. **EXHALE Hierophant Symbol** from behind forehead, down *Central Body Current*, into Earth's **Core** (Chakra 13), then **INHALE** *Hierophant* back up to your **Maharic Shield** 12" below feet. *Spin Hierophant* to *activate* **Maharic Shield** and **Maharic Seal Pillar**. **INHALE** energy up from your *Maharic Shield* into your **Doradic Sphere** at *Chakra 4.*

2. Breathe slowly and deeply while visualizing a **small faceted Crystal Sphere** in the center of your *Doradic Sphere* at Chakra 4. This is the **Holographic Crystal Sphere**; it represents the station of your inner **AVATAR** identity – this is the **MAHARA SPACE**. Focus your consciousness within the *Holographic Sphere* and feel its reality around you, as if your body is encased within the Holographic Sphere.

3. Observe the interior of the Sphere as a **pale Silver-White mist**. Within the mist now envision a **golden treasure chest**- a treasure you had left for yourself long ago to one-day reclaim. This represents your **Inner Arc of the Covenant** – *a doorway to reclaiming your ancient immortal heritage*. **Mentally command** the lid of your inner *Arc of the Covenant* to lift. As the lid rises **pale rainbow colored light** fills the interior of your Holographic Sphere. Notice now that within the golden box there is a gleaming **Silver Sword**, the Silver Rod of Power that will enable you to more quickly evolve to your eternal state of being.

4. **Mentally make the Silver Sword** *rise from the golden box*, floating above the box in a vertical position. Now call to mind the image of your body *as it sits within the physical room*. Imagine *the Silver Sword positioned above the body's head*, directly over **Chakra 7**. **EXHALE** and **steadily lower the Silver Sword** through the *7th Chakra and down the Central Body Current, through the Maharic Shield and down into Earth's core*. Observe the Silver Sword turn into a *Pillar of Pale Silver Light with pale rainbow colors flashing through it*. The **Rainbow Pillar** now *surrounds and runs through your body, raising its frequency while lowering its vibration*, lifting your body cells into a **less-dense state of matter**. Feel your body growing lighter and lighter as the Rainbow Pillar slows the spin-rate of your matter particles, making you more and more electric- more light.

5. As you feel the sensations of your density lessening, **imagine that your body is beginning to glow with Pale Silver light** – the *Pre-matter Liquid Light* of dimensions 10, 11 and 12. Feel the *features of your face and the contours of your body begin to melt* into a **Silver, 2 –dimensional fluid body form**. The form of the body still remains but it has been returned to its **first-density state**- the **Silver Liquid Light holographic form of the avatar identity**. Know yourself now as this avatar identity and feel the essence of pure love and eternity flow through you. Know yourself as this essence of Divine Love and Eternal Light.

6. *Now* **INHALE** and draw the **Rainbow Pillar** into the Holographic Sphere at *Chakra 4*, visualize the base pulling up from Earth's core and the portion above your head simultaneously *contracting into the Holographic Sphere*. **EXHALE** the energy of the *Rainbow Pillar* fully into the *Holographic Sphere* and observe the **Holographic Sphere become a radiant Silver ball of Liquid Light stationed with your Doradic Sphere** in the Heart Chakra.

EXERCISE: Continued
THE *MAHARA SPACE-COMFORT TOUCH*

7. **You may now transmit the frequencies of the 4th-Harmonic, dimensions 10, 11 and 12, to serve as a healing force for others.** You may transmit this energy into your environment directly through the **4th Heart Chakra**, where it will enter the Unified Field at the 4th-Dimensional astral plane. You may use the breath to move the Holographic Sphere down into the **3rd Chakra** *for 3rd-Dimensional transmission into the Earth's atmosphere and the Mental Body* levels of people's Bio-energetic field. You may transmit through **Chakra 2** into the Telluric or *Elemental Kingdom* of the planet and into people's 2nd-Dimensonal *Emotional bodies*. Or you may transmit the frequencies of the Silver Sword through the **1st Base Chakra**, for *sacred bonding in intimate relationship*, or to *raise the frequency and lower the vibration of the molecular and sub-atomic fields* around you. To transmit the frequencies of the Silver Sword through the chakras, simply use the EXHALE breath to move the Silver Light "charged" **Holographic Sphere down** to lower chakras, inhale and use the next EXHALE to *push the frequency outward* from the selected chakra into the environment. Use the INHALE breath to move the *Holographic Sphere* up through the chakra system. *Always move the Holographic Sphere up or down along the Central Body Current, to which the core of each chakra is* [redacted]

8. **You may also transmit the frequencies of the Silver Sword through APPLIED TOUCH – *THE COMFORT TOUCH* -to amplify specific healing facilitation functions and to establish a more harmonious rapport with other people and the nature kingdoms.** *Simply* visualize the Silver Liquid-Light charged **Holographic Sphere** at the center of your **Doradic Sphere** in the **4th Chakra**. Activate your **Doradic-1 current** via the **Mahanic Shield and Seal**, then visualize the *Silver Liquid Light from the Holographic Sphere combining with the Green-Violet-Silver Doradic-1 current* as you EXHALE the current into the **Doradic Cords** in the arms and into the **Doradic Balls** in the palms. *This application is especially useful to help Clients relax during sessions, or to comfort others when they are in a state of stress, unbalance or illness.*

   Once your current is moving into the Doradic Balls, EXHALE the current through the **Right palm**. *Place the Right palm gentle and briefly over the Client's rear Chakra 2, or touch them gently on the left shoulder.* The amplified *Doradic-1 current* will move into the *4th-Dimensional astral-body field*, and move its way into the *mental, emotional and physical bodies* from there. <u>The COMFORT TOUCH of the MAHARA SPACE can be applied to infants, children, older</u> **persons, animals and plants to comfort them and support their general well-being.**

PROFESSIONAL USE OF THE KATHARA BIO-SPIRITUAL HEALING SYSTEM PROGRAM – THE KATHARA ALLIANCE

The Kathara System introduced in **The Kathara Bio-Spiritual Healing System ™ Level 1 Workshop & Course Manual with Introduction to The Kathara Bio-Healing System™ Level 2** is destined to become a ***12-level program*** that is focused on "whole-being healing through progressive biological and spiritual awakening". Kathara is as much a course on (non-denominational, dogma-free) **Spiritual Integration Mechanics** as it is a Holistic Healing course

An individual completing training in the **Kathara Level-1 Bio-spiritual Healing System** delivered by a Certified Kathara Alliance Instructor will receive a **Certificate of Completion**, which recognizes the person named as attending and receiving training in the Kathara Level One Bio-Spiritual Healing System

If you desire to practise the ***Kathara Bio-Spiritual Healing System™*** in a regular professional capacity through Client Service you may use the techniques provided within this Kathara Healing Manual to begin. Prior to professional use, it is suggested that one becomes a Certified member of the **Kathara Alliance** through the ***Azurite Press MCEO (World-wide Consulate)*** and its appointed representatives

The **Kathara Alliance** is a group of dedicated spiritual healing Practitioners and Instructors who have demonstrated a thorough understanding of the Theory and Practice of the **Kathara Bio-Spiritual Healing System™** and the Maharic Recoding Process, as deemed necessary by the **Azurite Press** for professionalism in the practice of Spiritual Healing Facilitation and Instruction

All members of the ***Kathara Alliance*** are **Certified Kathara Healing Practitioners and Instructors,** and are permitted to practice Kathara Healing facilitation as **SPIRITUAL SERVICE.** For the protection of both Client and Practitioner as well as the ethics inherent to the Teachings themselves, Kathara Healing is to be promoted, explained and practiced as **a non-diagnostic spiritual healing enhancement service only** and not as a replacement for traditional medical diagnosis or treatment.

Certification in the **Kathara Alliance** as an **Independent Spiritual Healing Practitioner and Instructor** of the **Kathara Bio-Spiritual Healing System™** requires formal application including a written open-book examination and video presentation by the applicant. The examination is intended to reveal areas in which applicants may need to further strengthen understanding of and personal relationship to the practice of Kathara Healing Facilitation and Instruction within the parameters of Excellence recognized as intrinsic by the Azurite Press MCEO

All Instructors and Practitioners must be CERTIFIED to conduct **public presentation** of copyright materials contained in this the authorized Kathara Bio-Spiritual Healing System Manual To uphold standards of Professionalism and Excellence in practice the Azurite Press MCEO **cannot** recognize **Non-Registered Facilitators or Instructors** as active participants in the ***Kathara Bio-Spiritual Healing System Program.*** Obviously, non-certified Facilitators may use this program and its applications for their own **personal and spiritual enrichment. The Azurite Press MCEO authorizes only Certified Practitioners and Instructors** to professionally conduct Client Sessions

With regards to teach ng the program there is a distinction between 'Teach ng' and 'Sharing' **Teaching** is defined as formal presentation of the matena s (following protocols described n the **Kathara Bio-Spiritual Healing System™** Manual and communicat ons to Kathara A l ance app. cants and members) in the form of a seminar/ workshop and payment is made by attendees To teach the Kathara Bio-Spiritual Heal ng System™ one needs to be a member of the **Kathara Alliance** 'Sharing' is defined as lead ng a study group where attendees are not expected to pay (it would not be nappropnate to accept smal donations if offered) To share one does not need to be a member of the Kathara Al ance but group s ze should be limited to less than 12.

Withn the **Kathara Bio-Spiritual Healing System™** there are spec fic pages for Kathara Al iance nstructors to use in the r classes The Instructors pages are dent fied by having a number at the *top* of the page (as well as the regular number at the bottom) These are the only pages that can be photocopied for teach ng purposes Only certified Kathara Al iance members (or a Kathara Alliance applicant who s de vering and recording a workshop for assessment purposes) are authorized to photocopy these pages

The easy-reference **Instructor's pages** need to be sequenced n the order denoted by the number at the *top* of the page These pages have been careful y sequenced to faci itate del very and learn ng of the materials Learners needs, including varying learn ng style preferences were very much considered when preparing the text and visual presentation of these teaching matenals In terms of frequency, the earn ng process can be described as when previous y dormant Scalar Standing Waves in the persona shields are stimulated and activate(switch on') As frequency s accreted (by progressive exposure to and interaction with, the matenals) the sca ar waves n the personal shie d se f–s.sta n (we would say the person has learned' the matena) The specific sequence of the pages are pre-set to create optimum frequency accretion in the personal shields of earners *even if this is not immediately perceived or understood by the learner* Therefore it s imperative that these pages are used in the delivery of th s program and the nstructor remains true to the given sequence

As Independent Spiritual Healing Facilitators and Instructors, all Certified Facilitators and Instructors are expected to accept fu l personal respons bi ty and legal iab ity for the practice and application of the **Kathara Bio-Spiritual Healing System™.** Certified Fac itators- nstructors are **not required** to pay dues royalties or revenues to the Kathara Alliance/APMCEO for use of this program other than the cost of nitial personal **Training-Registration** and obta ning supplies of **Session Manuals, Certificates and Registration Examinations** for the profess onal Instruction-Certification of others

THE KATHARA ALLIANCE CERTIFICATION AND COMPETENCY REQUIREMENTS

The Certification Program is designed to enable the applicant to fully demonstrate his/her understanding of the material in a way that maintains the level of integrity and purity of the Program desired of the Kathara Alliance. This also ensures the Student attains a desired level of understanding in taking the workshop. The requirements of Certification are designed to protect the integrity of the material, those who participate with it, and the rights and responsibilities of all concerned.

Certified Kathara Practitioners and Instructors must not only be knowledgeable in the practice and teaching of Kathara, but are also asked to commit to the behavioral guidelines originating from the Covenant of Regent Consulate of the Melchizedek Cloister Emerald Order (MCEO). In this way those seeking out a Kathara practitioner can reasonably expect the highest integrity in both the teachings and in the individuals with whom they are relating.

Certified Kathara Alliance members are in no way affiliated with the MCEO Vehicle, the Azurite Press and should at no time state or imply such representation. Kathara Alliance members are independent Practitioners who offer local, community-based Kathara Healing Level courses and facilitation for individuals.

PLEASE NOTE: The APMCEO & Kathara Alliance **reserve the right** to **revoke** any Kathara Alliance Certification and Rights of Association of Certified Facilitator-Instructors for ***any*** reasons of: *Misuse, misrepresentation and false claims pertaining to this Kathara Program, inappropriate treatment of APMCEO staff, clients or participants in Kathara Healing Programs; dishonest or unethical behavior and practices, and racial, gender, or religious discrimination of clients and participants or Kathara Alliance Members.*

THE 6-STEP MAHARIC RECODING SESSION

Before Client Arrives: ***Technique # 1-*** Activate Your Mentor. Conduct ***Mahara-Space-Comfort Touch Exercise*** and remote-request permission from client's ***Rishi*** identity level to apply **Comfort Touch** when client arrives. Create a calm, pleasant environment where you will not be interrupted by phone or other distractions. Optional: Sing 3 rounds of the ***Aries-Khum-Nar'A*** **toning** to amplify personal healing and DNA Template activation during healing facilitation session.

When Client Arrives: Apply Comfort Touch if Rishi gave remote permission. Sit with client and review terms of the ***Client Agreement Form*** and secure client's signature on form. Offer client the option of audio-taping the session for client's at-home review.

6-Step Technique Application Sequence- *Maharic Recoding Session*

1. Technique # 2-**The Maharic Seal and the Liquid Light Cleanse** *to seal and align personal bio-fields.*

2. Sequence-1 Kathara Points massage- first your points, then client's points, *to open Kathara Lines.*

3. Technique # 3- **Opening the Healing Channels** to activate your *Doradic-Phase-1* healing current and ***Technique # 4-*** **Amplifying Inner-Audio-Visual and Kathara Scan** to locate miasms for healing in client's Kathara Grid.

4. Technique # 5- **The Maharic Infusion** to activate client's Maharic Shield and Seal, recode client's Kathara Grid to the Maharic Shield and clear miasmic buildups.

5. Optional: Apply **light touch-massage** to miasmic areas, or employ other healing therapeutics after Maharic Infusion.

6. *Sequence-2 Kathara Points massage* on client to revitalize outer body systems and close Kathara Lines. Allow client to rest a few minutes before leaving. Answer any client questions and allow time for client to discuss experience if desired.

When Client Leaves: To ensure clear bio-fields, while Doradic-1 Current is still running, draw energy up from Earth's Maharic Shield and run Maharic Current through your Kathara Grid and body, up to Chakra-14 and back down to Chakra-13, then push a Pillar of Silver Light out of Chakra-4 and EXHALE it to release it around body into auric field. Next massage *your* **Sequence-2 Kathara Points** to revitalize bio-field systems and close Kathara Lines.

CHAPTER 4 HIGHLIGHTS

GENERAL KATHARA HEALING FIELD WORK

- Activation of any **Triadic Healing Current** requires temporary release of corresponding **Signet Star Crystal Seals** in the **Kathara Level-2 Crystal Seals Grid.**
- **Maharic 12th-Dimensional Frequency** is required to **manually release** the **Signet Star Crystal Seals** to activate **Triadic Healing Currents. Kathara Healing** utilizes **Maharic Frequency** to activate interdimensional **Triadic Healing Currents** for more powerful healing support.
- Most healing systems have not used **Maharic Current** because the **Planetary Templar Complex** could not run 12th-Dimensional Maharic Frequency for over 200,000 years, until January 2000.
- Release of the **Signet Seals** also activates dormant Strands in the **DNA Template** and releases the **Cranial-Sacral Seals** on the **Kundalini Energies**. Kathara Healing represents advanced, **12-Dimensional Kundalini Healing.**

OPENING THE HEALING CHANNELS

- Triadic Phase Currents are activated in the body by using **Maharic Frequency** from the **PBIS** to release the **Signet Seals** of the **Internal Templar Complex**, which allows higher dimensional frequency to run through the **physical body system** for transmission.
- Triadic Phase Currents are composed of **3 interwoven frequencies**, the **Maharic Frequency**, plus a chosen **dimensional frequency** and its corresponding frequency from **one Harmonic up.**
- Triadic Phase Currents are **directed** by their corresponding **Color Cap Stone**, the **Primary Wave Length** of the dimensional frequency band from which the current is drawn. **Kathara Level-1** activates the **1st Triadic Phase Current**, the ***Silver (D-12) + Green (D-4) + Violet (D-7)*** **DORADIC PHASE-1 Current.**
- **Doradic Current** is activated through the **Maharic Shield,** then **collected** in the **4th Chakra** ***DORADIC SPHERE***, projected down the ***DORADIC CORDS*** in the **arms** and into the ***DORADIC BALLS*** in the **Palm Chakras** for **DIRECT INDUCTION** of frequency transmission in healing facilitation.

- The **Palm Chakras** are **Secondary Chakras** located in the **Palms of the Hands**. Like all Chakras, they function as **Black-White Hole Sets** for **transmitting** and **receiving energy** between the personal Manifestation Template and the dimensional Unified Fields of energy.

- The Palm Chakras are **double vortices** of energy, with **one spiral** exiting the **Palm** and its **corresponding spiral** exiting the **back of the hand.** The **2 Spirals** of the Palm Chakras are linked by a **Crystal Seal** at the center point where the 2 vortices meet. In one Palm Chakra, one spiral rotates **clock-wise**, is **Base Electrical** and **transmits energy** out of body, and the other spiral rotates **counter-clock-wise**, is **Base Magnetic** and **draws energy** into body.

- In **Level-1Kathara Healing** the **RIGHT PALM** is the **TRANSMITTING HAND** and the **LEFT PALM** is the **RECEIVING HAND**. For **transmission**, the **Standard Hand Position** is **LEFT Palm placed over the back of the RIGHT HAND** for pure transmission and **control of specific frequency** transmitted from the **RIGHT PALM**.

- The **RIGHT PALM** is **BASE ELECTRICAL**, the **LEFT PALM** is **BASE MAGNETIC**, but both have **subtle** electro-magnetic capacity.

THE KARMIC-MIASMIC IMPRINT

- To enter manifestation in time, identity enters **cycles** of **SIMULTANEOUS INCARNATION** within the **4 Harmonics of Matter Density** in **12-Dimensions** of the 15-Dimensional **Time Matrix.** The **PRIMAL ORDER Scalar-wave Template** through which an identity enters time is the **Density-5** (dimensions 13, 14 and 15) **RISHIC SHIELD**

- The **Rishic Shield** holds in the Time Matrix the identity of the **Family of Consciousness** from which **incarnates** emerge. The Scalar Patterns of the Rishic Shield represent the tangible **"DIVINE RIGHT ORDER"** in energy and consciousness, for each incarnate manifesting from it. The individual identity must **realign** its **Manifestation Template** with this **Primal Order** to become free from the Time Matrix in full **Ascension.**

- The **Density-4** Pre-Matter Hydro-plasmic **MAHARIC SHIELD** (Dimensions 10, 11 and 12) is the Scalar Template through which identity manifests in the lower-dimensional Densities and which **connects the individual incarnate** to its **Rishic Shield.** The **Maharic Shield** is often called the **PERSONAL CHRISTOS Template,** and it holds the consciousness and **Perfect Primal Order** for all incarnations of an identity in time.

- **"Karma"** is the result of **Free Will choices** made by **incarnates** that involve using personal energies in ways incongruent with the natural **Laws of Universal Unified Field Physics** and the **Primal Order** of the **Christos Template.** Karma creates **scalar-wave distortions** within the Scalar Shields of personal 15-Dimensional Anatomy that **manifest physically** as **energetic clusters** called **MIASMS.**

- **Miasms** are **unintended** groups of **anti-particles** lodged within the particle field of the personal **Manifestation Template** that block and impede the **natural flow of energy** and consciousness into embodiment. **Miasms,** and the misshapen scalar-wave distortions that form them, are the **cause of ALL disease** and dis-harmonic conditions.

- **Health** and Harmonious flow of energy are the **natural conditions** of human design. The **Maharic Shield Personal Christos Template** holds the **Organic Imprint for Health** for all simultaneous incarnates of an identity, and can therefore be used to **clear the Karmic-Miasmic Imprint** from the personal Manifestation Template to progressively restore **Healthful Primal Order.**

- Miasms from **all simultaneous incarnations** manifest within the personal Manifestation Template and within the DNA Template of each, where they become literal **genetic distortions.**

- Each of an identity's incarnates in various time cycles represents one **TIME VECTOR**, which is encoded in the Vector Codes of the **DNA Template.** Karmic-Miasmic **bleed-through** occurs **between incarnates** from different concurrent time cycles through the **living link** of scalar frequency that exists between the **DNA Templates** of simultaneous incarnations.

- The **Karmic-Miasmic Imprint** does not have to be suffered and cleared the "**old fashioned way**" by "walking through the Karma in physical reality". The **Miasmic Imprint** can be cleared **as energy, with energy**, to prevent its manifestation in physical terms via realignment of the **DNA Template** with the personal **Maharic Shield.**

- Any given incarnate can clear the Karmic-Miasmic Imprint by realigning the personal Manifestation Template with the shared Christos Template Maharic Shield. This process is called **MULTI-VECTOR HOLOGRAPHIC RECODING**, which creates **BIO-REGENESIS** of the original 12-Strand **Silicate Matrix DNA Template** of human design and restoration of the **Organic Imprint for Health.**

MULTI-VECTOR HOLOGRAPHIC RECODING

ATTITUDES AND ETIQUETTE IN HEALING

- **Holographic Recoding** and clearing the Karmic-Miasmic Imprint from the personal Manifestation Template begins with activation of the **Maharic Shield and Seal** in the bio-energetic field and progressive running of 12th-Dimensional **Maharic Frequency** from the **Personal** and **Planetary Maharic Shields** through the 3 **Primary Levels** of the embodied **Kathara Grid**; the Level-1 **12-Tree Grid**, Level-2 **Crystal Seals Grid** and Level-3 **Diodic Points Grid.**

- Personal Holographic Recoding begins with consistent use of ***Technique* # 2- The Maharic Seal and the Liquid Light Cleanse**, and is further accelerated by facilitating **Maharic Recoding** in others through running the **Triadic Phase Currents** for **Co-generative Healing.**

- One can facilitate healing in others and amplify personal healing through the using ***Technique* # 5- The Maharic Infusion.**

- The **Maharic Recoding Session** utilizes the combined **Bio-Regenesis Techniques** presented in **Level-1 Kathara Healing** to facilitate **Client Healing Sessions.**

- Professionalism in Healing Facilitation requires an understanding of the **Postures of Love** and a willingness to **cultivate** the ability to hold and transmit **OMNI-LOVE, honoring the Divinity of ALL things and beings.**
- The Primary Postures of Love are **SOFT LOVE, TOUGH LOVE, SELF LOVE** and **OMNI-LOVE.**
- The emotionally experienced quality called **LOVE** is a **REALITY IN ENERGY PHYSICS.** LOVE is a **STATE OF VIBRATIONAL FREQUENCY CO-RESONANCE** that allows **free flow of energy** between consciousness within the Universal Unified Field.
- The human **12-Strand DNA Template** was designed to allow **12-Dimensions of Vibrational Co-Resonance**, the **Christos Consciousness** of the **Maharic Shield**, to embody in human form. **CHRISTOS-OMNI-LOVE** is Vibrational Co-Resonance with all that exists within **12 Dimensions** of the Time Matrix; its embodiment is the **primary goal** toward which **human evolution** progresses.
- Christos-OMNI-LOVE is the **strongest healing frequency** available within the Densities of Space, Time and Matter, and is **essential** for effective **Healing Facilitation** and personal **Ascension.**

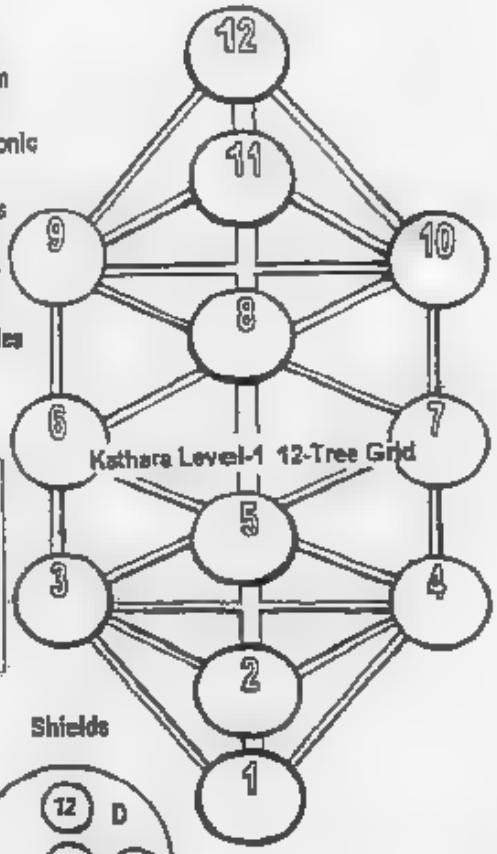
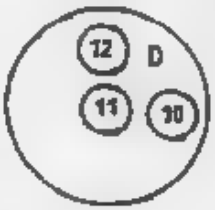
Hova Bodies are spherical scalar wave grids that form tissue capsules between each 3-Dimensional Harmonic of Manifestation.
Signets are the core points of consolidated frequency that hold the programs for the Scalar grid SHIELDS upon which the Hova Bodies manifest.



The Signets and the Shields are the core of Kathara Level-2 Crystal Seals Grid

As Universal Life Force Currents activate in the Kathara Grid, DNA, Chakras, Auric Levels & body, natural awakening of the dormant Scalar Shields occurs.

Shields



When activated, each SHIELD forms a rotating disc of scalar waves that emanate out from the body on a horizontal plane.

The Reality of Spiritual Integration

- **Spiritual Actualization** is as much a function of **Divine Physics** as it is a product of **Divine Consciousness**. The natural Primal Order of **Universal Structure** sets the **Templates of Manifestation** to which consciousness **must conform** to enter the experience of manifest expression within a space-time-matter system.
  - The personal Christos **Maharic Shield** Manifestation Template and the Christos **Tribal Shield** Species Manifestation Template are **microcosmic replicas** of the macrocosmic Primal Order upon which Universal and Cosmic structure are built.
- The Personal D-12 Christos Divine Blueprint Maharic Shield connects each Individual Christos self to the **larger** D-12 Christos Divine Blueprint of the **Species**. The D-12 Christos Divine Blueprint is called the **TRIBAL SHIELD**.
- **To understand the realities of personal Spiritual Integration and Actualization,** in order to **fulfill our personal life purpose,** it is important to comprehend the basic **Primal Order** structures of energy, the **personal D-12 Maharic Shield** and the **D-12 Species Tribal Shields**, through which our consciousness manifests in time.
- The secrets to **reclaiming the Divine Birthrights and Responsibilities** of Angelic Human heritage are hidden within the realities of the **Tribal Shield** and the specific **"Fire Letter Sequences"** of the Tribal Shield that manifest within and **govern the function** of the Angelic Human **DNA Template.**
- The **key to Spiritual Actualization** is activation of the dormant personal 12-Strand DNA Template. The **most rapid means** of activating the dormant Angelic Human 12-Strand DNA Template is through **activation of the Tribal Shield**, the Species D-12 Christos Divine Blueprint, which represents the **CORE PROGRAMMING** of the personal D-12 Maharic Shield.

Activating the Tribal Shield

- The 12-dimensional **Tribal Shield** is the dormant **Species Divine Blueprint** within the **DNA Template core** of the Angelic Human races of the 4 Evolutionary Rounds. The frequencies of energy and dimensions of consciousness of the **1728 simultaneous selves** of the Personal Eternal Christos Identity can be **activated in one incarnation** through **sequential activation** of **the Fire Letter Sequences** or **"Flame Codes'** of the **Tribal Shield.**

- The "Flame Code Fire Letters" within the DNA Template are the **DNA Signet Codes** that correspond to Earth's **12 Primary Star Gates** and the **Planetary Shields** through which the planetary body manifests. The Flame Codes serve as the core foundation of the personal 12-Strand DNA Template.

- The DNA Template Flame Codes of the Tribal Shield allow for the **Primal Life Force Currents** of the Density-5 (dimensions 13-14-15) **Kee-Ra-ShA Primal Light Fields** and the **Khundaray Primal Sound Fields** from the Energy Matrix, beyond the 15-Dimensional Time Matrix, to embody more fully within the Angelic Human form.

- **A Fire Letter** is a **fixed point of consolidated frequency** that holds specific frequencies consciousness into manifest form. The **Manifestation Templates** or Divine Blueprints of **all things** manifest are built upon **intricate patterns** of interwoven Fire Letters called **Fire Letter Sequences.** The Flame Codes of the Angelic Human personal DNA Template and Species Tribal Shield are composed of the **same Fire Letter Sequences** that make up the Divine Blueprint of **Earth's Planetary Shields.**

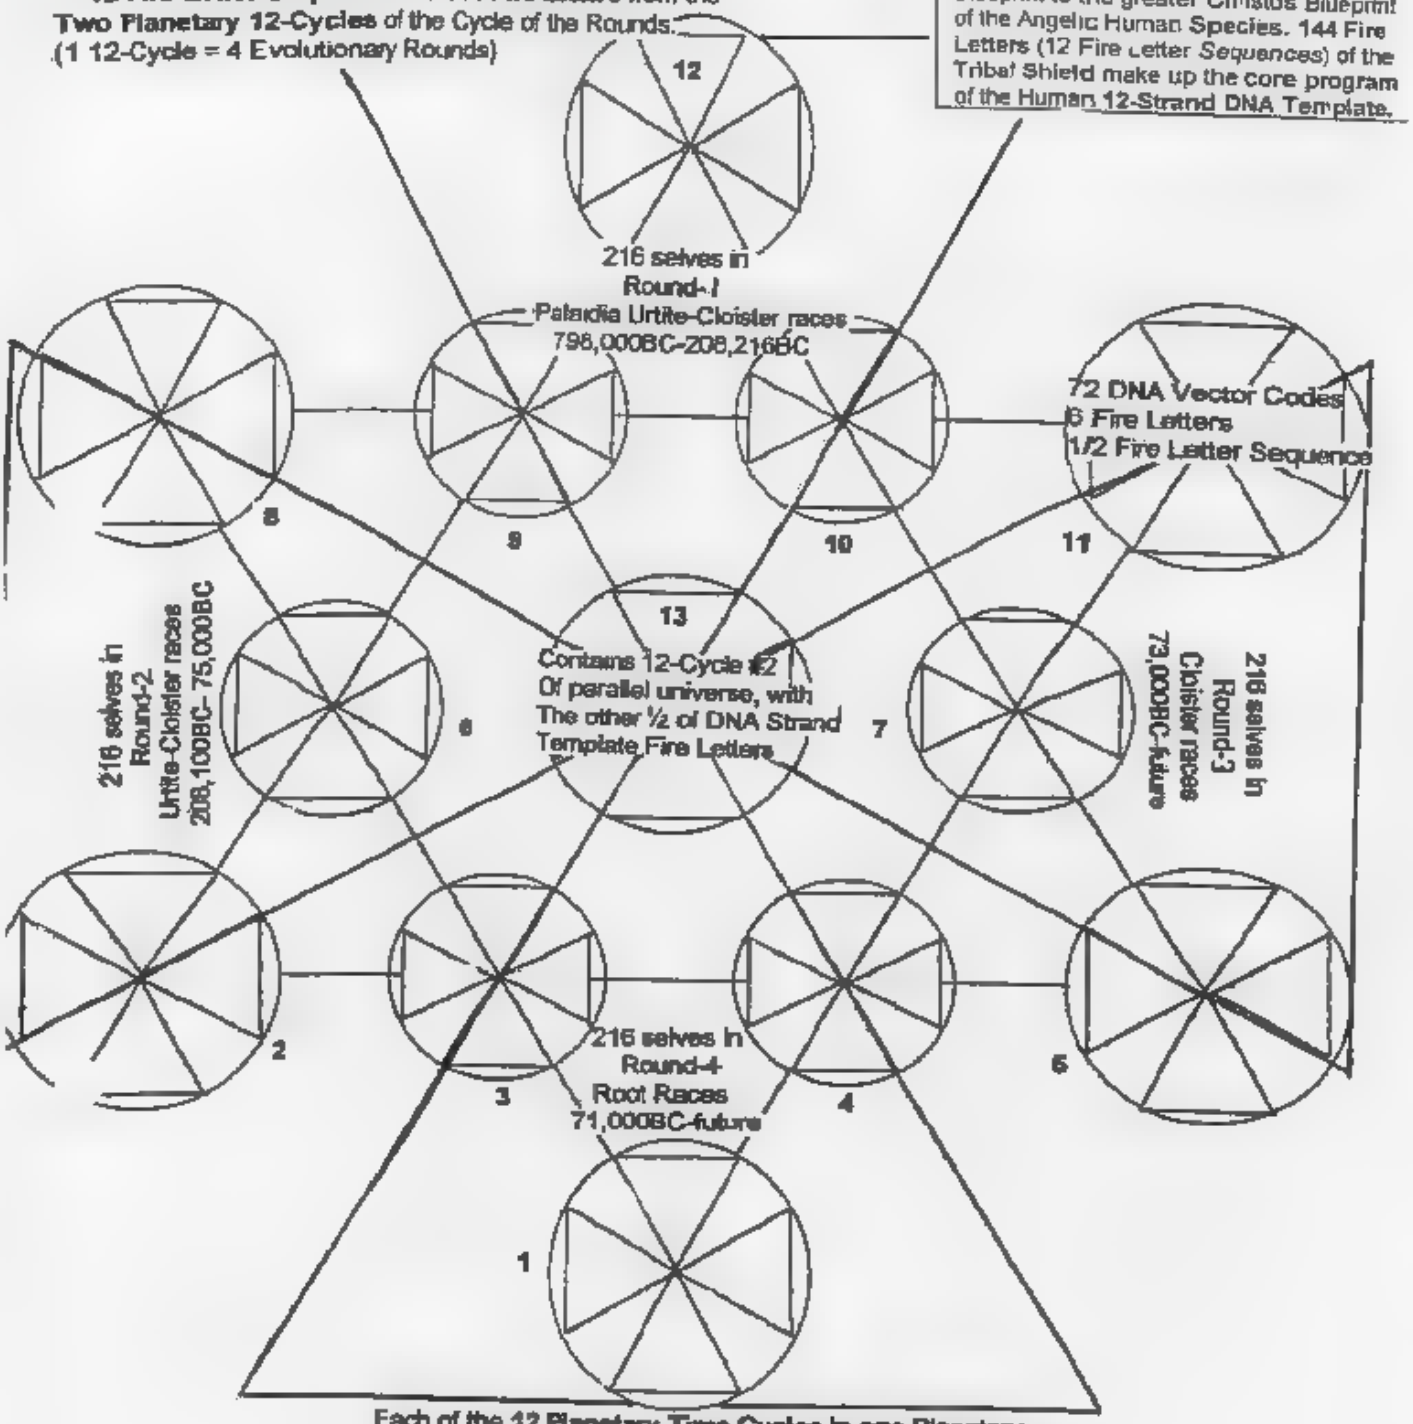
- Activation of the Tribal Shield sets in motion simultaneous **"firing"** or activation of the **144 Fire Letters (12** Fire Letter **Sequences)** of the 12-Strand DNA Template, expediting the natural evolutionary process of Soul, Over-Soul and Christos Avatar Identity Integration, through progressively opening the **"Trans-time** DNA Template Star Gates".

- Activating the 12-Strand DNA Template allows the D-12 frequency of the **Universal "Christos" Maharata Current** to activate within and run through the Angelic Human DNA Template and into the Earth's **Planetary Shields.** Activation of the **Maharata Current** within **groups of Angelic Humans** on Earth allows for **collective anchoring** of the **D-12 Planetary Christos Divine Blueprint,** the **Shield of Aramatena,** to achieve fulfillment of Angelic Humanity's **Sacred Commission** of the **Planetary Christos Realignment Mission.**

The Tribal Shield- *Species D-12 Christos Divine Blueprint*

The Angelic Human 12-Strand DNA Template contains 6 Fire Letter Sequences from particle universe 12-Cycle plus 6 Fire Letter Sequences from anti-particle 12-Cycle = **12 Fire Letter Sequences** or **144 Fire Letters** from the **Two Planetary 12-Cycles** of the Cycle of the Rounds: (1 12-Cycle = 4 Evolutionary Rounds)

The Tribal Shield connects our personal D-12 **Maharic Shield** Divine Christos Blueprint to the greater Christos Blueprint of the Angelic Human Species. 144 Fire Letters (12 Fire Letter *Sequences*) of the Tribal Shield make up the core program of the Human 12-Strand DNA Template.



Each of the 12 **Planetary Time Cycles** in one Planetary 12-Cycle of the "Cycle of the Rounds" has **72 Time Vectors. 12-Strand** Angelic Humans have **one self** in each of the 72 Time Vectors of the particle universe Planetary 12-Cycle and **72 selves** in the corresponding anti-particle Planetary 12-Cycle. **72 selves x 12 Planetary Time Cycles = 864 selves** per one Planetary 12-Cycle **+ 864 selves** parallel universe Planetary 12-Cycle = **1728 selves** in Tribal Shield.

Tribal Shield Activation Creates Cue Zones In Earth's Planetary Shields.

Cue Zones

"Cue Zones" are locations on Earth where a small portion of Earth's D-12 Shield of Aramatena **Christos Divine Blueprint** has been re-set within Earth's Planetary Shields. During Stellar Activations Cycles, Cue Zones can be **manually set** by individuals or groups by running the **D-12 Maharata Current**, activating the **Tribal Shield** to draw in the Khurarary Primal Sound frequencies, then singing the 12-Tribes **Master Psonns Suffixes** and running the tones through the body and feet and into Earth's Planetary Shields. After running the Master Psonns Suffixes, one can then allow the **"Song of the Christos Soul"**, the tones of the personal D-12 **Maharic Shield** (the "Elohei-Elohim Within") to run into the Planetary Shields. The personal Soul Song will create a **"Back Song"** transmission of frequency from Earth's Planetary Shields, a set of healing frequencies sent back to you in response to activating your Soul Song in Earth's Planetary Shields. Once set, Cue Zones will remain for a period of **3.5 to 5 years**, depending on strength of energy originally set. They can be **recharged** using the same "setting" procedure to **last indefinitely.**

Cue Zones are **"safe zone"** areas on the Planet that are protected from interdimensional interference. They can be used to amplify effects of energy **healing applications**, to **"charge" objects and substances** with sub-harmonics of D-12 Christos frequency and when used with the personal Temporary Maharic Seal, to get clear, protected **"meditation space"** free from interdimensional interference. Cue Zones are "keyed" to Earth's Planetary **Templar "Cue Sites"**, the activation sites for Earth's 12 Primary Star Gates, which exist on regions of Earth that correspond to the 12 Primary Star Gates of **Inner Earth.**

TECHNIQUE # 6 : THE MAHARIC QUICK SEAL

1 Work with a 24 pointed. 3 Dimensional Star (Heirophant) and be aware that you will be working with beings known as the Brenaau Rishi ...

2 Begin by slowing your breathing as you imagine or visualize a 24 point, 3 -Dimensional Heirophant at the Pineal Gland in the center of your brain. Visualise the Heirophant surrounded by a Pale Blue Sphere of Light.

(The Blue Sphere serves as a buffer for your readiness to accept the frequencies associated with using the 24 pointed Star; the Blue Sphere holds the energy for you until your body can handle the energy. If you can handle it the energy will simply pass through the blue sphere).

3 INHALE as if you are going to grab the blue sphere containing the 24 point star located at the Pineal and on the EXHALE move the 24 point star/ blue sphere, all the way down to Earth s Core. Try to hear a sound tone as the Heirophant/ Sphere hits the Planetary Shield

4 INHALE and draw the Heirophant/ sphere up to your Personal Maharic Shield 12" below your feet and EXHALE while watching the Pale Silver-Blue sphere expand out to a large sphere and watch as your Maharic Shield pop out as a disc, about 4 in diameter, Pale Silver with a light coating of Pale Blue.

5 Bring your attention to the center of your Maharic Shield 12" below your feet . and INHALE the 24 point Star (only) up into the Heart Chakra. EXHALE, expanding the frequencies of the 24 point Star into the Heart Chakra

6 INHALE to grab the 24 point Star and EXHALE pushing the Star up into the 14th Chakra 36" above the head. Imagine that the 24 point Star is spinning in a clockwise direction in the 14th Chakra. As you do this, try to feel/ sense the energy around you, just a few inches out from your body

7 Now, put your attention into your Maharic Shield 12" below your feet, take a couple of relaxing breaths and INHALE deeply pulling the Pale Silver and Blue energy up. as if you are pulling on your Maharic Seal to latch it on to your 14th Chakra. Try and feel the sensations just a few inches from your body now – feel the difference if you can. This procedure gives you a Quick Seal.

8 Now envis on the cord of Pale Silver Maharic Light that would normally come up with your Shield and focus on the Earth's Core. Begin drawing energy all the way up the 4" diameter cord and into the body. INHALE the energy up into the Heart Center, and expand it there. Begin to form a pale Silver ball of Maharic frequency

On each EXHALE send your energy down to the Earth s Core to bring up another load of Maharic frequency up from the Planetary Shields, expand it into the Heart center and repeat several times. Notice that the Cord grows larger as you do this. expanding from approximately 4" to 6 to 8" diameter, until finally it feels like a skin around (as well as within) your body as you load your Astral field with Maharic Frequency

9 Move your attention to the Pale Silver ball you have created in your Heart Center INHALE and move it up to the 14th Chakra 36" above your head as you do, feel for the sheath of Maharic Frequency encasing your etheric body, close to your skin. (This Maharic/ Christos skin charges, and saturates, your etheric body – feel the peacefulness and all-knowing nature of this frequency).

Technique # 7: Ps-13 Tribal Shield Activation

The Master Key Tones

- The **12-Tribes names** were the **audible-tone translations** of the **specific Fire Letter Sequences** contained within the **Tribal Shield DNA Templates** of each Tribe. The tones of the Tribal names were used to activate the **144 Fire Letters** of the Tribal Shield in the **personal DNA Template**, providing the Angelic Humans races with the ability to **consciously regulate** the **activation level** of their **DNA Templates** and **Primal Life Force Currents.**
- The **Sound-Tone Programs** that are used to activate the DNA Template and Primal Life Force Currents are called **"The Sacred Psonns"**. The **Tribal name** was the **Master Psonn**. In running the Rainbow Roundtables, the Signet Council Regents brought their Tribal Shield "Flame Codes" into activation by **singing rounds** of the **Sacred Master Psonns**.

Tribal Shield-Cue Zones Activation
Creating a Cue Zone

1. **Choose location** and **activate** a personal **"Maharic Quick Seal"** to "run the D-12 **Maharata Current"** in your body.

2. Once you can feel sensation of Maharata Current running, sing-tone 12-Tribes **Master Psonns** (names) for **Tribe-12** and **Tribe-1** to activate **Tribal Shields Flame Codes** in your DNA Template to run the **"Rainbow Ray"**. Direct Pale Silver Maharata Current and Rainbow Ray pale color spectrum through body and out **soles of feet** into Earth's Planetary Shields. Tone for a while to build critical mass of frequency.

3. Use a selected combination of **3 Master Psonns Suffixes** and tone for a while, running sound through body and feet into Earth's grids. (avoid the Suffix combination of Tribe-4-7-10 used in that sequence to avert present distortions in Earth's gnds that run on this mathematical coding)

4. Allow the **Christos Soul Song** to emerge from you "free style" and send the tones into Earth's grids.

5. When complete, sit quietly for a while and listen for the Earth's telepathically transmitted **"Back Song"**, drawing its gentle frequencies into your body for healing.

6. Close with singing several rounds of the **3 Master Psonns Suffixs** that you opened with. The Cue Zone you have set will extend out from your position in a radius of about **5 yards** and will last **3.5-5 years** depending on strength of energy you used in setting the Cue Zone.

7. To **amplify** strength of Cue Zone you can use the **"Merkaba Spin"** just after closing. Remain in same position, stand, the gently spin, first **clockwise** (as if you are standing on a clock face with the "6" in front of your feet, "3" at the left hand, **"9"** at the right and "12" directly behind you). Spin gently clockwise to bring electrical frequency down through your **"top"** Merkaba spiral. Then slow, stop and **reverse spin** to **counterclock-wise**, to activate **"bottom"** Merkaba spiral", drawing frequency up from Earth's grids. Personal Merkaba Activation will accelerate the frequencies of the D-12 energies you set at the site, making the Cue Zone **stronger and more lasting.**

The Solar Salutation
Electrical Merkaba Activation

- The ancient **Mu'a** and **Lemurian** Guardian Races ran the **Maharata** and activated the **Tribal Shield** each day to conduct the **Sacred Solar and Lunar Salutation Rites** each morning and evening. The **Sacred Salutations** are **Toning Dances** that activate the personal **Merkaba Field** for sustained activation of the DNA Template and amplification of the Maharata and Universal Life Force Currents in the body.
- **Solar Salutations** accelerate the spin of the **Electrical Harmonic Merkaba Spiral** (Top, CW spin), drawing increased amounts of **Electrical Anti-particle** frequency from the Solar **Electrical Merkaba Spiral** light spectrum into the **Electrical Acceleration Codes** in the **DNA Template** to **"charge" the body** with **Electrical Anti-particle frequency.**
- Accelerated **Electrical Merkaba Spiral Spin** of **Solar Salutations** increases the amount of **Anti-particle Base-Electrical** frequency **brought into** the body's **DNA Template** and **Kathara Grid** from the Dimensional Unified Fields and increases the amount of **Anti-particle** frequency **sent out** from the body into Earth's **Planetary Shields.** Frequency passes between the Human Body and Earth's Planetary Shields via the embodied **Kathara Grid** core templates that make up the **Planetary Bio-Feed Interface System** ("PBIS")
- **Electrical Anti-particle** energy enters the body via the **"Top" Electrical** Harmonic and Dimensional **Merkaba Spirals**, the **Base-Electrical Acceleration Codes** in the DNA Template, the **Electrical Kathara Centers 2-5-8-11** of the Kathara Grid **Central Pillar, the Electrical aspect** of **Electro-magnetic Kathara Centers 1-3-6-9-12** on the **Right Side** of body ("Left Side Pillar" in Kathara diagram), **Electrical Chakras 2-5-8-11** and the **Electrical aspect** of **Electro-magnetic Chakras 1-3-6-9-12.**

- **Solar Salutations** (CW spin Top Electrical Merkaba Field Activation) **raise** the body's **Oscillation** (energy transmission-expansion), **lower** the body's **Vibration** (energy holding-contraction), making the body **Higher Frequency** and **More Electrical** (transmits more energy than it is drawing in).
- A **Higher Frequency Electrical Body** has:
  - **Lower Vibration**, Higher Oscillation/Frequency, **Less Matter Density**
  - More activated DNA Strands, more chromosomes, embodiment of more levels of consciousness.
  - **Slower** heart, breathing and metabolic rhythms (energy expansion and contraction rates),thus requires less food (burns fuel slower).
  - Greater **longevity** and **less sleep** (body can synthesize natural higher frequency energy and Stream of Consciousness for longer periods without taxing.)
  - Greater **Silica quantity** in **Silica-to-Carbon Ratio** of elemental composition and **larger size** (more space between cells; more expanded matter).
  - Perception of **expanded Space** and **slower Time** movement.
  - Greater **heat release**, thus **cooler** internal temperature.
  - Natural attribute of **transmitting** greater amounts of energy thrust into the Planetary Shields than it is drawing in/receiving from them. **Energy "giving".**

- The **Solar Salutations** "charge" the **Top Electrical CW Merkaba Spiral** to maintain its natural cycle of **33(⅓) rotations per 1 "trillionth" of a nano-second"**, through which the **Base-Electrical** systems of the body are naturally maintained.

The Lunar Salutation
Magnetic Merkaba Activation

- **Lunar Salutations** accelerate the spin of the **Magnetic Harmonic Merkaba Spiral** (Bottom, CCW spin), drawing increased amounts of **Magnetic Particle** frequency from the **Lunar Magnetic Merkaba Spiral** reflected light spectrum and Earth's Planetary Shields into the **Magnetic Base Codes** in the **DNA Template** to **"charge" the body** with **Magnetic Particle frequency.**
- Accelerated **Magnetic Merkaba Spiral Spin** of **Lunar Salutations** increases the amount of **Particle Base-Magnetic** frequency **brought into** the body's **DNA Template** and **Kathara Grid** from the **Earth's Planetary Shields** and increases the amount of **Particle** frequency **sent out** from the body into Dimensional Unified Fields.
- **Particle Base-magnetic** energy enters the body via the **"Bottom" Magnetic** Harmonic and Dimensional **Merkaba Spirals**, the **Base-Magnetic Base Codes** in the DNA Template, the **Magnetic Kathara Centers 4-7-10** of the Kathara Grid on the **Left Side** of the body ("Right Side Pillar" on Kathara Diagram), the **Magnetic aspect** of **Electro-magnetic Kathara Centers 1-3-6-9-12** on the **Right Side** of body ("Left Side Pillar" in Kathara diagram), **Magnetic Chakras 4-7-10** and the **Magnetic aspect** of **Electro-magnetic Chakras 1-3-6-9-12.**
- **Lunar Salutations** (CCW spin Bottom Magnetic Merkaba Field Activation) **lower** the body's **Oscillation** (energy transmission-expansion), **raise** the body's **Vibration** (energy holding-contraction), making the body **Lower Frequency** and **More Magnetic** (draws in more energy than it is transmitting out).

- A **Lower Frequency Magnetic Body** has:
  - **Higher Vibration**, Lower Oscillation/Frequency, Greater **Matter Density**
  - **Fewer** activated DNA Strands, fewer chromosomes, embodiment of fewer levels of consciousness.
  - **Faster** heart, breathing and metabolic rhythms (energy expansion and contraction rates), thus requires **more food** (burns fuel **faster**).
  - Lesser **longevity** and needs more **sleep** (body can synthesize natural higher frequency energy and Stream of Consciousness for **shorter periods**; taxes more easily)
  - Greater **Carbon quantity** in **Silica-to-Carbon Ratio** of elemental composition and **smaller size** (less space between cells; more contracted matter).
  - Perception of **contracted or more confined Space** and **faster Time** movement.
  - Less **heat release**, thus **warmer** internal temperature.
  - Natural characteristic of **drawing** greater amounts of energy thrust from the Planetary Shields than it is transmitting into them. **Energy "taking"**.

The **Lunar Salutations** "charge" the **Bottom Magnetic CCW Merkaba Spiral** to maintain its natural cycle of **11⅔ rotations per 1 "trillionth" of a nano-second"**, through which the **Base-Magnetic** systems of the body are naturally maintained.

The **natural ratio** between the **Top-CW-Electrical-"Male" Harmonic Merkaba Field** and the **Bottom-CCW-Magnetic-"Female" Harmonic Merkaba Field** is **Electrical-Top 33⅓CW** rotations per 1 "trillionth" of a nano-second and **Magnetic-Bottom 11⅔CCW** rotations per 1 "trillionth" of a nano-second.

The NATURAL Spin Ratio between the Top (Male-Electrical-CW-Anti-particle) Density-4 Christiac Merkaba Spiral and the Bottom (Female-Magnetic-CCW-Particle) Density-5 Rishiac Merkaba Spiral is 33 1/3-CW-Male-Top to 11 2/3-CCW-Female-Bottom. The 33 1/3-CW/11 2/3-CCW Spin Ratio creates the NATURAL ratio of 33 2/3-Parts-Electrical Anti-Particles to 11 2/3-Parts Magnetic Particles (or 33 1/3 energy expansion/oscillation/thrust to 11 2/3 energy contraction/vibration/draw) within earth's Density-1 Matter Base, the organic Divine Blueprint of Density-1. This Christiac Internal Merkaba Vehicle Spin Ratio creates a self-sustaining, Eternal, Matter-base that is MORE ELECTRICAL than Magnetic which perpetually re-fuels itself via natural circulation of the *Maharata, Kee-Ra-ShA* and *Khundaray* Universal Life Force Currents.

The Merkaba Vehicle: Counter-rotating Spirals of interdimensional electromagnetic energy in star-tetrahedron form that form in the auric field, enabling biological interdimensional travel and ascension.
Each dimension of the Human Body has one Dimensional Merkaba Field (EM set). The three Dimensional Merkaba Fields in one Density Level form one Harmonic Merkaba Spiral in each of 5 Density Levels that merge to form the Merkaba Star Gate Transit (Ascension) Vehicle.

Technique # 8: Merkaba Salutations

Healing the Spin & Balancing Particle/ Anti-Particle Ratios

33 1/3-CW/11 2/3-CCW Christos Merkaba Activation

"Note: Discern CW or CCW direction of Merkaba Spin by imagining that you are standing, with arms stretched out to the sides, in the center of a round 12-digit clock-face. The FRONT of your body faces the "6"-digit, "12"-digit is positioned behind you, the "3"-digit is positioned at your LEFT ARM and the "9"-digit is positioned at your RIGHT ARM. CLOCKWISE "CW" SPIN: Hold LEFT "3-Arm" firmly out to the side of the body like a "clock hand" and begin Spin toward FRONT, moving the body with the LEFT arm toward the "6"-digit position in FRONT of your feet. COUNTER-CLOCKWISE "CCW" SPIN: Hold RIGHT "9-Arm" firmly out to the side of the body like a "clock hand" and begin Spin toward FRONT, moving the body with the RIGHT arm toward the "6"-digit position in FRONT of your feet. The TOP-ELECTRICAL-MALE Merkaba Spiral Christos Spin is always 33 1/3-CW rotation. The BOTTOM-MAGNETIC-FEMALE Merkaba Spiral Christos Spin is always 11 2/3-CCW rotation.

Solar Salutation Rites: (best time *Dawn's First Light & 12:00 Noon*)
begin with *Top-Electrical-CW-"Male"* Merkaba Spiral activation, followed by *Bottom-Magnetic-CCW-"Female"* Merkaba Spiral
Use Tribe-12 Activation Suffix **"RHA"** as ***Initiating Tone***
Lunar Salutation Rites: (best time *12:00 Midnight to 3:00AM*)
begin with ***Bottom-Magnetic-CCW-"Female"*** Merkaba Spiral activation, followed by *Top-Electrical-CW-"Male"* Merkaba Spiral
Use ribe-1 Activation Suffix **"UR"** as ***Initiating Tone***

1. Activate ***Maharic Quick Seal*** Technique- 6
2. Activate ***Tribal Shield-Cue Zone*** Technique- 7
3. Stand with spine comfortably straight, breath slowly, in a relaxed manner and begin **quietly toning** the ***Initiating Tone***, continuing repetition while progressively **increasing the volume** and extending the Exhale Breath Tone thrust behind Initiating Tone until you can **feel the subtle energy** of Tone sound waves oscillating in the body.
4. **Activate First Merkaba Spiral** (Top or Bottom Spiral first, depending on Solar or Lunar Salutation) by holding **arms out to the side**, parallel with the ground, and begin to **slowly SPIN** in the direction (CW or CCW) natural to the " **Christos Spin** of the Merkaba Spiral you are activating. Continue to **Spin AND Tone Initiating Tone** while progressively **increasing rate of Spin and Toning.** To **prevent dizziness,** hold one arm out to front with thumb positioned UP, and **focus your eyes on the THUMB** rather than the spinning scenery beyond. Do not Spin faster than comfort level. You may **modulate toning** in **rounds of 3,** between the **Initiating Tone** and toning the **Christos Spin Rate Number** ("33 1/3" for Electrical-Top Spiral, "11 2/3" for Magnetic-Bottom spiral), if desired.
5. When energy in body feels **"charged"** (a "doneness" intuitive feeling), **slow spin** to a **gentle STOP**, while **Toning 3 Times,** the "***Um Sheddai Ur'-A ah-Khum' Tun***" Lyra-**Halls of Amorea** D-12 activation sequence, to **amplify** the Merkaba Spiral "charge. **Stand STILL** and breathe quietly for a few moments while Spin stabilizes, then **repeat STEPS 3-5 to activate other Merkaba Spiral.**
6. **End Salutation Rite** with full 3 **Rounds** (minimum) **Toning** of the "***Ariea Khum Nar-A***" (Song of Orion D-8 activation sequence) **Part-1:Verses 1 and 2,** to be sung while **Walking 2 Circles**, one **CW**, one **CCW**, beginning Circle Walk with Spin direction of **First Merkaba Spiral** activation, followed by a **reverse-direction** Circle, then **Standing STILL** for a few moments to allow the **Christos Maharata Current** to run between your body and Earth's Planetary Shields.

2. **Emerald and Amethyst Awakening 2 Masters Kundalini Activations:** Releasing key **Fire Codes** between the DNA Strand Templates to allow for **expedited DNA Strand Braiding.**

3. **DNA Template Bio-Regenesis:** Progressive use of internally directed DNA Template Bio-Regenesis technologies for progressive purging of Strand Template mutations, restoration of the natural D-12 Christos Divine Blueprint of the 12-Strand DNA Template and expedited, accelerated activation of the DNA Strand Template Base Codes and Acceleration Codes.

THE KUNDALINI LIFE-CURRENTS AND THE CRANIAL-SACRAL SEALS.

The human body is fuelled by ENERGETIC LIFE-FORCE CURRENT FROM SOURCE. In contemporary human anatomy the only life-force currents running fully through the embodied Kathara Grid and body are those corresponding to the SINGLE-VECTOR time cycle of the Density-1 TELLURIC SHIELD. Each of the 4 HOVA BODIES and their corresponding SCALAR SHIELDS, DNA STRAND TEMPLATES, AXIATONAL LINES, DIMENSIONS OF CONSCIOUSNESS AND MERKABA FIELD LEVELS process the frequencies of one TRIADIC CURRENT – a 3-dimensional Bi-polar life-force current. The life-force currents corresponding to the first 9 dimension and first 3 Hova Bodies, Mater Densities and Shields are referred to as the KUNDALINI ENERGIES. Each KUNDALINI CURRENT is a TRIADIC CURRENT – a set of 3 dimensional currents that function together and are separated by Magnetic Repulsion Zones within the embodied Kathara Grid. The 3 embodied Kundalini Currents are the TELLURIC, DORADIC and TEURIC CURRENTS.

Each of the 3 Kundalini Currents is spiralled within the regions of the 1st 8 CELLS of human conception, located in the TAILBONE at the Base of the Spine. (The incarnating consciousness anchors its identity and Christos Manifestation Template within the FIRST 8 CELLS, to initiate the FETAL INTEGRATION PROCESS.) The first Kundalini Current, the TELLURIC CURRENT that corresponds to the DENSITY-1 Nada Hova Body, is active within the human form from birth, enabling 3 dimensions of consciousness awareness, in the form of scalar frequency, to embody within the human organism. When the 2 dormant Kundalini Currents in the tailbone, the DORADIC and TEURIC CURRENTS, are activated, the frequencies of consciousness from dimensions 4-9 progressively awaken within the body, activating the dormant 4-9 strands of the 12-strand DNA Template. The 3 Primary Kundalini Spirals each contain 3 single-dimension currents, and are controlled by the corresponding SIGNET STAR CRYSTAL SEALS in the Kathara Level-2 Crystal Seals Grid. The Signet Seals create polarization between dimensionalized sets of scalar waves within the Scalar Shields, that manifest within the Kathara Level-2 Grid, First Eight Cells and DNA Template as FREQUENCY SEALS or blockages within the TAILBONE (Sacral region) and the PINEAL GLAND in the center of the brain – the CRANIAL-SACRAL SEALS.

When the Cranial-Sacral Seals are released through activation of the Signet Star Crystal Seals that govern them, the dormant Kundalini Currents come to life within the body, sending progressively higher-frequency energy through the CENTRAL VERTICAL CURRENT of the body. Activation of the 3 Kundalini Currents progressively creates integration of the higher dimensions of consciousness and de-densification of molecular structure. When ALL of the frequencies within the 3 embodied Kundalini Currents are activated, the 4th KUNDALINI CURRENT- the PRIMAL TRIADIC CURRENT, the KEE-Ra-ShA', is activated. The Frequency Seal on the KEE-Ra-ShA' is located in the 12th Chakra 6' below the feet. Activation of the KEE-Ra-ShA' anchors the 12th-Dimensional HYDROPLASMIC BEAM within the body, initiating the process of CELLULAR TRANSMUTATION and intentional de-manifestation and Dimensional Ascension of the human biological form.239

THE EMERALD AWAKENING AND THE KEE-Ra-ShA'

The Emerald Awakening Masters Kundalini Activation is one of two inter-harmonic energetic activations of previously dormant frequency within the body that sets in motion simultaneous activation of the 12 MAGNETIC BASE TONES within the FIRE CODES between the 12 Strands of the SILICATE MATRIX DNA Template. Activation of the 12 Fire Code Base Tones begins activation of the 3 PRIMAL CREATION FREQUENCIES – the KEE-Ra-ShA' – within the 4 Scalar Shields of the PERSONAL INNER TEMPLAR COMPLEX. Activation of the 12 DNA Fire Codes allow for progressive natural fusion of each dimensional DNA Strand Template to occur through which the organic potentials of CELLULAR TRANSMUTATION are re-awakened within the physical body form.

Through the natural processes of Cellular Transmutation once fully operational within human genetic design, the carbon-based elemental biology of Density-1 molecular structure is progressively and systematically transmuted to SILICA-based biology. Transmutation to Silica-based biology allows the physical body to pass through the levels of Semi-etheric, Etheric and Pre-matter Hydroplasmic Liquid-Silica Densities of Harmonics 2-4 (Dimensions 4-12), through which the consciousness continually enters manifestation, to achieve physical mastery of the organic process of Transmutational Dimensional Ascension. To accomplish mastery of the Ascension process, the SIGNET STAR CRYSTAL SEALS with the Scalar Shields, which keep the 12 dimensionalized frequency levels of the consciousness and molecular form Phase-locked into dimensional division/ polarization must be released. Release of the Signet Star Crystal Seals allows the frequency spectra of the higher dimensional anatomy and the Primal Creation Currents of the KEE-Ra-ShA to enter into the Template for the physical body and dormant DNA Fire Code Templates, progressively building the Merkaba Vehicle and setting the Cellular Transmutation process in motion. The process of progressive Transmutational Dimensional Ascension represents the function of the organic genetic design and evolutionary objective of the human creation blueprint, through which the natural Immortal Christos-Angelic Form of the human being is actualised.

In the evolutionary cycles of contemporary humanity, actualization of the 12-Strand DNA potential takes place slowly in Earthly terms, as the incarnate identity experiences in single-life time-vectors several cycles of Density-1 incarnation, spanning many thousands of years. In order to progressively activate the DNA Fire Codes within the Manifestation Template. When the human genome was operating in its organic form, this process took place in one lifetime, over a period of about 44 years, as the immortal human incarnate matured to embody the 12 dimensions of consciousness within its original Christos Manifestation Template- the MAHARIC SHIELD, actualizing its organic Angelic-human heritage and mastery over 4 Densities of manifestation within the Time Matrix.

The EMERALD AWAKENING Masters Kundalini Activation releases the Density-2 4TH – Dimensional Green Signet Star Crystal Seal and the Density-1 1st-Dimensional Red Signet Star Crystal Seal to open the Density-1 NADA HOVA BODY and TELLURIC SHIELD and Density-2 ALPHI HOVA BODY and DORADIC SHIELD to receive the Omni-polar frequencies of the 12th-Dimensional MAHARIC CURRENT (Hydroplasmic Beam) from the Pre-matter Christos Template Maharic Shield. Upon entering the Telluric and Doradic Shields, the 12th-Dimensional frequencies of the Maharic Current trigger simultaneous activation of the Base Tones within the 12 Fire Codes of the DNA Template, beginning the process of DE-POLARIZATION of the 12-Strands and levels of consciousness within the human Manifestation Template. Progressive de-polarization of the 12 levels of consciousness within the human Manifestation Template sets in motion the organic process of Cellular Transmutation and potential mastery over Transmutational Dimensional Ascension. The Emerald Awakening Masters Kundalini Activation initiates REGENESIS of the original function of the human genome, releasing the Base Tones

of the 3 KEE-Ra-ShA' Currents within the body via opening of 2 Signet Seals, through which the physical body begins the carbon-to-silica transmutation process and is prepared to receive the higher dimensional OVER TONE frequencies of the KEE-RA-Sha' to complete Cellular Transmutation via fusion and de-polarization of the particle (Particum) and anti-particle (Partika) aspects of the Manifestation Template. This is the natural process of UNIFIED FIELD PHYSICS by which a human being becomes "Christed"

THE AMETHYST AWAKENING AND THE KHUN-DA-RAY

The final step in fulfilling the potentials of original Angelic-human design is activation of the OVER TONE frequencies of the KEE-Ra-ShA' which allows fusion between DNA Strand Templates to complete on 12 dimensions of frequency. The final step in Transmutational Dimensional Ascension is called the AMETHYST AWAKENING MASTERS KUNDALINI ACTIVATION. Through the AMETHYST AWAKENING, the DENSITY-3 7TH-Dimensional VIOLET Signet Star Crystal Seal and 8th-Dimensional GOLD Signet Star Crystal Seal and the DENSITY-4 11TH-Dimensional DARK SILVER Signet Star Crystal Seal are released within the body's Scalar Shields. Release of the OVER TONE SIGNET SEALS allows the OVER TONES of the KEE-Ra-ShA Creation Currents to fuse with the BASE TONES, bringing the 3 OMNI-POLAR CREATION CURRENTS (Primal Creation Currents built upon a TRINITY OF TONES, BI-POLAR + NON-POLAR energy units) together as ONE PRIMAL NON-POLAR CURRENT – the KHUNDARAY (also called the "Rainbow Bridge" or the " Rainbow Serpent".)

The KHUN-Da-rAy is the PRE-LUMINAL vibration, or STANDING WAVE OF INTERNAL SOUND emitted from ONE-SOURCE/ GOD, that corresponds to the COMBINED ORIGINAL SOURCE CURRENT from which the 3 KEE-Ra-ShA PRIMAL LIFE-FORCE CURRENTS of the 3 non-dimensionalized levels of the ENERGY MATRIX, beyond the 15-Dimensional Time Matrix emerge. The Emerald Awakening Masters Kundalini Activation, and its resulting activation of the BASE TONES of the KEE-Ra-ShA' within the human body, is the first step in manually expediting the natural process of Transmutational Dimensional Ascension.

AWAKENING THE KA AND REMOVING INORGANIC CRYSTAL IMPLANTS

Before the Emerald Awakening Kundalini Activation can be orchestrated the MAHARIC SHIELD and the KA must be brought out of dormancy within the human Manifestation Template. Once the 12th-Dimensional Maharic Current is released within the embodied Kathara Grid, the KA can be activated. The "KA" refers to the 4 HOVA BODIES corresponding to dimensions 1 through 12. (Nada, Alphi Betcha and Mahara Hova Bodies.) The KA becomes activated through removal of 4 inorganic Crystal Seal IMPLANTS that block the natural function of the 2nd, 3rd and 4th DNA Strand Templates. Following he procedure for AWAKENING THE KA, the Emerald Awakening Kundalini activation can be conducted.

Technique # 12: Kee-Ra-ShA Activation Sequence

ACTIVATING DORADIC PHASE I Awakening the Flame

Preparation: Activate **Maharic Seal** Technique-6 *Maharic Quick Seal*

1 Breath slowly and deeply for several breaths while visualizing or imagining a Violet Dot on the center of the *inside* of your forehead Make the color image as strong as you are able (if you can't yet perceive inner colors simply imagine the Violet Dot being there).

Move the Violet Dot to the center of the brain, at the **Pineal Gland,** and then upward into the 7th Chakra, finally moving it out of your head to rest on the top of your skull, at the Crown Chakra.

2 Call to mind the Heirophant Symbol (Pale Silver Merkaba Star/ Star of David). Visualise the Heirophant spinning 12" below your feet, within your Maharic Shield, and slowly INHALE drawing the Pale Silver Heirophant up through the Central Body Current, up to meet the Violet Dot at the 7th Crown Chakra at the top of the head.

When the Heirophant connects with the Violet Dot visualize the Violet Dot bursting into a 4" vertical Pillar of Violet-Silver Light. Imagine the Violet-Silver Pillar running down through the body and into the Earth's Core, as well as upward into the 14th Chakra positioned 36" above your head. (This activates the Violet Ray of Transmutation).

3 Now, move your attention to the 4th Heart Chakra, and imagine a small Green Spherical Crystal – the Green Star – stationed at it's core This is the Green star Crystal Seal that controls release of 4th Dimensional frequency – Phase I Doradic Current – into the body. INHALE, drawing Violet-Silver energy from the Violet-Silver Pillar into the Green Star.

EXHALE, expanding the Violet-Silver energy into the Green Star sphere. Repeat two more INHALE/ EXHALE breaths, drawing Violet-Silver energy from the Pillar and expanding it into the Green Star sphere.

4 At the end of the last EXHALE, imagine the Green Star POPPING, turning into a spinning Green and Violet Starburst of Light, as the Violet-Silver Pillar disappears. Spin the Green-Violet Starburst faster until it becomes a ball of Green-Violet Light, about the size of a grapefruit, spinning the center of the Heart Chakra. (The Green-Violet ball is the storehouse for your Phase I Doradic Current; it's called the Doradic Sphere).

INHALE and draw Pale Silver energy from your Maharic Shield, through the central Body Current, and into the center of the Doradic Sphere at the heart Chakra ... encasing the sphere in Pale Silver Light.

AWAKENING the KA

1 Bring your attention back to the DORADIC SPHERE at the HEART CENTRE...

2 INHALE pale silver energy up from the EARTH CORE to fill & expand the DORADIC SPHERE; breath slow and deep 2-3 times .

3 Now, put the tips of your fingers together, and feel the 'fuzziness' of the energy flow...

4 Next, move the fingertips to the tail bone... INHALE energy from the Maharic Shield into the DORADIC SPHERE

Continued Next Page

As you EXHALE, push PALE SILVER energy down to the finger tips and into the tail bone..... REPEAT 2-3 times and then remove the fingers.

5 Now, bring your attention to the 2nd CHAKRA (SACRAL) .... feel or visualize or just know a DOUBLE TERMINATED QUARTZ CRYSTAL (a crystal with a point at both ends) is beginning to "push out" of the front of your 2nd Chakra the Sacral center

6 Focus your attention on this, try to feel the crystal pushing .. use your hands to help ease it forward, and out.

7 There is a smaller double terminated crystal in the 3rd (Solar Plexus) Chakra, this will release on it's own because the currents have activated it to do so Help it out with your fingers.

8 In the Heart Chakra, imagine a little sphere of energy colored green. Bring this little green sphere more fully into focus . and you will notice a little black cube of energy inside it .look more closely again, and notice a smaller white cube inside the black one.

9 As you focus on the two little cubes, watch them merge together feel a ripple of vibration as they do, and then ... notice a little puff of smoke as they both disappear.

Now, the body is activated to open the 4th and 1st Crystal Seals, you are ready for <u>the EMERALD AWAKENING ...</u>

1 Now we will open the GREEN STAR CRYSTAL SEAL .....So, keeping your awareness on the Doradic Sphere, the GREEN-VIOLET- SILVER ball at the Heart Center.....INHALE,

2 and . on the EXHALE visualize or imagine pushing a cord of GREEN-VIOLET-SILVER Doradic Current down into the tail bone. to the 1st Cell ... . at it's very tip .

3 Breathe easy ... and take a moment to visualize the 1st Cell at the tip of your tail bone.... as a WHITE-SILVER SPHERE...

5 Now within the WHITE SILVER SPHERE, visualize, a GREEN SPHERE .. and then visualize a RED SPHERE inside the GREEN SPHERE . .

6 Bring your attention back to the SPHERE of GREEN-VIOLET-SILVER energy in your Heart Center

and on the next EXHALE visualize or imagine, sending a cord of GREEN-VIOLET SILVER energy all the way down your central vertical column and into the GREEN SPHERE in the 1st Cell at the tip of the tail bone.

7 AS you INHALE pull PALE SILVER LIGHT from your personal Mahatic Shield, the platform-disc 12" below your feet, up into the tail bone and into the GREEN SPHERE

8 As you do this, visualize, the GREEN SPHERE 'pop' into a STARBURST of PALE GREEN-SILVER LIGHT.

Continued Next Page

This has opened the kundalini seal – your WHITE-SILVER & RED Spheres REMAIN as you left them earlier . . . Now, we wil work to open the **RED STAR CRYSTAL SEAL....**

---

9 Return your awareness to the Doradic Sphere at the Heart Center . INHALE, and then on the EXHALE push a cord of GREEN-VIOLET-SILVER Doradic Current down to the 1st Cell at the tip of the tail bone, ...

10 INHALE and draw PALE SILVER energy up from the personal Maharic Shield, the platform-disc positioned 12" below your feet, up into the tail bone, and into the RED SPHERE ... inside .... the WHITE-SILVER SPHERE.

11 AS YOU DRAW the PALE SILVER energy into the RED SPHERE visualize the RED SPHERE 'pop' into a STARBURST of PALE PINK-SILVER LIGHT . and .. for the next few breaths EXHALE the PALE PINK-SILVER LIGHT into the 12th Chakra, positioned 6" below your feet..

You have now opened the Kee Ra ShA(Y) Seal so that the Sacred Flames of the Kee Ra ShA can be activated .....

ACTIVATING THE KEE RA SHA

The Kee Ra ShA appears as 3 little flames which exist in the 12th Chakra positioned 6" below the feet. The 3 flames are PALE BLUE, PALE YELLOW & PALE VIOLET

1 Begin by focussing deeply on the 12th Chakra, 6" below your feet, and the three little flames held there . one is PALE BLUE, one PALE YELLOW & the third PALE VIOLET.... We'll take a few moments to do this.

If you have difficulty visualizing, just imagine that they are there.

2 On the INHALE, draw the PALE VIOLET FLAME up from Chakra 12 ... into the central vertical column and all the way up .. and out through the top of the head, to the 10th Chakra ... 6" above your Crown chakra.....

3 Next, return your attention to the 12th Chakra, 6" below your feet .. allow yourself time to connect with the little PALE YELLOW-GOLD FLAME. Breathe easy

4 On the next INHALE draw the PALE YELLOW-GOLD FLAME up from Chakra 12 .. into the central vertical column .. and all the way up ... and out through the top of the head, to the 10th Chakra ... 6" above your Crown chakra.....

Again, return your attention to the 12th Chakra, 6" below your feet .. and connect with the PALE BLUE FLAME .. this FLAME is the INNER ARC of the COVENANT ... Take your time; breathe easy.

5 On the next INHALE draw the PALE BLUE FLAME up from Chakra 12 .. into the central vertical column . and all the way up . and out through the top of the head, to the 10th Chakra ... 6" above your Crown chakra.....

© Rev Ashayana Deane 2000

6 Now, visualize or imagine the 3 little FLAMES together within the 10th Chakra 6" above your Crown Chakra . ..... in a moment we will create the Kee Ra ShA SPHERE... Breathe easy.

7 On the next INHALE draw PALE SILVER energy from your personal Maharic Shield 12" below your feet, all the way up your central vertical column, up into the 10th Chakra...

EXHALE gently and INHALE once more, drawing more PALE SILVER energy up into the 10th Chakra .. visualize or imagine the 3 little flames enclosed within a SPHERE of PALE SILVER LIGHT. .

8 Breathe easy. On the next EXHALE move the Kee Ra ShA SPHERE all the way down through the central vertical column, out through the 12th Chakra 6" below your feet, and all the way down to the 13th Chakra at EARTH'S CORE.

As the Kee Ra ShA enters EARTH'S CORE listen for sound tones w/ inner ear ..

These TONES represent the AMENTI "PASS KEY" which opens your personal GRU-AL POINT (#1) - the 1st Cell in the Tail Bone releasing the KEE RA SHA FLAMES into your AURIC FIELD.

9 Breathe easy . Watch as the Kee Ra ShA FLAMES rise up your Maharic Pillar and emerge through your 1st Cell passing like radiating waves of PALE BLUE, PALE YELLOW & PALE VIOLET .....

10 As the waves of color move through you, bring your attention to your first 4 Chakras ... the base the sacral the solar plexus and the heart . and visualize or imagine each Chakra emanate a SILVER MAHARIC SHEATH or OVAL POD, completely surrounding each one ..

This completes the EMERALD AWAKENING, the natural process by which we use Unified Field Physics to trigger our CHRISTED Selves. Before we finish we must first establish the link to the Amethyst Awakening, the process of activation and sheathing of the higher Chakras.

To complete the session we will now work with 8th & 11th Dimensional Energies to open DORADIC PHASE 2 & 3 CURRENT and activate TEURIC PHASE 2 CURRENT. .. THIS IS CALLED **ACTIVATING THE RA CENTRE in the THYROID – and ANCHORING THE RAINBOW BRIDGE**

1 Begin by moving your attention to the area of your 3RD EYE, and focus just inside your fore-head .. a little above and behind your eye brows..... Breathe easy.

2 Now, visualize, or imagine, a DARK SILVER DOT in the position you are focussed on .. in the area of your 3RD EYE... Take a little time.

3 INHALE and move the DARK SILVER DOT into the Pineal Gland in the center of your head and then straight up through the CROWN CHAKRA until the DARK SILVER DOT sits on the top of your skull.

Continued Next Page

© Ray Echeverria Praana 2000

4 On the next INHALE, pull PALE SILVER ENERGY up from your personal Maharic Shield 12" below your feet, all the way up the central vertical current and into the DARK SILVER DOT on the top of your head...

As the PALE SILVER ENERGY reaches the DARK SILVER DOT, the SILVER DOT 'pops' into a SILVER STARBURST . .

5 On the next EXHALE push the SILVER STARBURST down the central vertical channel all the way to the tip of the tail bone ... EXPANDING the SILVER STARBURST FULLY into the 1st Cell...

6 Breathe easily and watch, as GOLD-SILVER-CURRENT emerges from the tailbone . and begins to flow up through each Chakra .

from the 1st Chakra at the base of the spine ... up through the Sacral .. the Solar Plexus all the way up to the Crown Chakra we'll take a little time for this ...

From the Crown Chakra the GOLD-SILVER-CURRENT continues upward out of the top of your head ... up through the 10th Chakra 6" above your head ... the 11th Chakra 18" above your head . and finally the 14th Chakra 36" above your head.

7 Once the GOLD-SILVER-CURRENT reaches the 14th Chakra it returns to the 1st Chakra the flow of the current creates a GOLD-SILVER SHEATH throughout your central vertical channel.

8 Bring your attention to the 2nd Chakra now . were going to create a GOLD -SILVER- BALL there, in the SEED SEAL at the center of the Chakra . . just imagine the chakra as a bow tie shape, the SEED SEAL is at the narrow point in the middle. The GOLD-SILVER BALL is called the TEURIC SPHERE ...

INHALE and draw GOLD -SILVER-CURRENT from the GOLD -SILVER-SHEATH into the center of the Chakra ... as you EXHALE create and EXPAND the BALL to surround the bow tie ...

9 Now .. INHALE and move the GOLD -SILVER-BALL up to the 1ST HARA CENTRE ... 2" BELOW the NAVEL (the 9th SILVER STAR SIGNET SEAL or TAN TIEN) . EXHALE GENTLY allowing the BALL to EXPAND

10 On the NEXT INHALE move the GOLD-SILVER-BALL up to the SOLAR PLEXUS and EXHALE GENTLY

11 INHALE and move the GOLD-SILVER BALL up to the HEART CENTRE ...
EXHALE GENTLY ... ... INHALE .. drawing more GOLD-SILVER CURRENT into the BALL and THEN EXHALE FORCEFULLY pushing cords of GOLD SILVER CURRENT down each arm and into the PALMS . bring your fingertips together and feel the fuzzy buzz of TEURIC PHASE 3 CURRENT

You have now activated TEURIC PHASE 3 CURRENT in your palms – and – you are now able to run CURRENT from D4 thru' D8 to transmit to the THYROID GLAND ... to activate and anchor the Rainbow Bridge in others.....

End of Field Technique-5 *The K-RRT Activation Sequence* (5A-B-C-D-E)

You are now ready for the Amethyst Awakening *Masters Kundalini/DNA Template Activation-2* (Field Technique-6 *Initiating the Amethyst Awakening*) or to participate as an active member of a *Khundaray Rainbow Roundtable* (K-RRT) Signet Council (Field Technique-4 A-B-C). Wait at least 4 Hours before K-RRT participation, and no longer than 24 hours to maintain the appropriate level of critical mass Khundaray frequency in the body that is need for an effective K-RRT

INITIATING THE AMETHYST AWAKENING

1 **Preparation:** Complete **Maharic Quick Seal** Technique 6 and **Activation Sequence**

2 This technique works to bring in a burst of the Khundaray, Eckatic Blue frequency ...that sets the Amethyst Awakening in motion.

3 Place your attention at the center of your brain inside your pineal gland. Imagine that you see there a Pale Violet Spark of Light (this is the bottom of the Seal of your 7th Crown Chakra) Imagine that you are going to move this Pale Violet Spark of Light straight up into your 10th Chakra 6" above your head imagine that the 10th Chakra is a disc of Light, Blue/ Black – Sapphire.

4 Now see the disc of Light, that was Blue/ Black take on a Violet hue Try to feel it there, a small horizontal disc . . On the INHALE you will move this disc of Violet-Sapphire Light up to the 24 point Silver Star at the 14th Chakra .... and, on the EXHALE, move it down through the 10th Chakra, down through the Crown, down the Central vertical Current, down through your Personal Maharic Shield all the way down to the 13th Chakra at the Earth's Core .

5 Notice, as you do this, a whole series of Violet-Blue Sparks flying out from the Planetary Maharic Shield, as if they are alive, as if electrical communication is taking place. Notice as this happens that the energy flowing up your Maharic Pillar from the Earth Core reflects this change as Violet-Blue energy flows slowly up toward you . as this energy reaches your personal Maharic Shield, notice that it does the same thing as the Planetary Shields – throws out a shower of Violet-Blue sparks ... all communicating with each other about the mathematical instructions about what to do with your body, your crystal seals, your chakras . .

6 Now, move your awareness to the Pale Silver skin all round your body/ etheric body . and be aware too of the Main Vertical Current that you brought the Pale Silver cord through and at the same time, on each coming INHALE, bring up the Pale Silver-Violet-Sapphire energy, simultaneously, from your Maharic Shield to infuse the Pale Silver skin all round you.

Take a few breaths to do this and watch as the 3 color flicker through you – when they reach the Heart Chakra feel them expand out . and allow them to travel on up, all the way to the 14th Chakra expanding throughout every Chakra as the Pale Silver-Violet-Sapphire energy flows up, through and all around you .. See each Chakra respond with a spiraling burst of Silver-Violet-Sapphire, backward and forward through both sides of the Chakras until they all shift try to feel the process as it awakens all the cell's of your body.

The brain cells and brain patterns begin to respond, activating the Fire Letters, setting the grid of frequencies necessary to activate the Fire Codes 7, 10 and 12 in the DNA Template.

Your own D-12 Christos Avatar Identity level will slowly release the *Khundaray Activation Frequencies* through which the Amethyst Awakening progressively unfolds in the DNA Template and body This process can be naturally and safely accelerated by receiving a Level-3 MC Regent Ordination transmission from a qualified Indigo Child/Eleyani *Level-4 through Level 6 MC Ordinate* Consummate, Elder Consummate or Eckar that carries the necessary Amethyst Awakening Khundaray Activating Frequencies in their Eleyaru DNA Templates

The Merkaba Trinity Key Induction

The ***Merkaba Trinity Key Induction Technique*** begins the process of establishing a **conscious directional relationship** with various levels of your 15-Dimensional Anatomy (or that of your Client). The **Trinity Key Symbols** are **mathematical-geometrical programs** that carry the specific organic structure of **each dimensional frequency band** as it exists within the **D-12 Universal Divine Blueprint**. Imbuing the proper **Symbol Key** into the appropriate area of the personal anatomy can rapidly expedite **restoration the personal Divine Blueprint** within the **DNA Template, Chakra System** and embodied **Kathara Grid**. Use of the Trinity Master Key Symbols that correspond precisely to the natural order of each dimensional frequency band can **intensify** all applications of **holistic and allopathic healing**, as well as progressively and systematically assist in the process of accelerating **DNA Template** healing and **activation.** Every **condition** within the body-mind-spirit system has a specific **Energy Signature** unique to its own construction. Every **dis-ease** condition within any aspect of the personal experience (physical, emotional, mental, spiritual, financial, social, etc.) is created and **held in manifestation** by a specific set of mathematical – geometrical energy relationships that are **stored** within the embodied **Kathara Grid** and **DNA Template** in the form of **Symbol Keys**. The mathematical-geometrical energy relationships that serve as the **blueprints** upon which experiential manifestation will emerge can be perceived by the conscious identity in its Symbol translation. When using the **Trinity Master Key Symbols**, you are **resetting and activating very specific portions** of the personal **Divine Blueprint** (D-12 Pre-matter Maharic Shield) into a naturally harmonious relationship with Universal Order (the organic structure of dimensionalized frequency bands). The Trinity Master Keys provided in this Technique trigger activation of very specific **Fire Letters** (Keylons) within the DNA Template, allowing the DNA Template to receive directly the **new electrical instructions** corresponding the personal Divine Blueprint. This technique can be used with Kathara Healing Techniques from Kathara Level-1, with any other healing modality or simply after activating the D-12 **Maharata Current** via **Techniue-6, *The Maharic Quick Seal***

It is **necessary** to initiate a **D-12 Maharaic Seal** in order to run **any Symbol Key program** into the DNA Template and Level-1 Kathara Grid, it is the strength of the D-12 Maharata Current that allows access to the deepest levels of the Personal Shields and Divine Blueprint. The **Trinity Master Key Symbols** are a **set of 3 Symbol Keys** that are to be used **in sequence**. The first two Trinity Keys, the **Initiating Keys**, are used in **every application** to open the embodied Level-1 Kathara Grid to receive new instructions. The third Trinity Master Key Symbol, the **Transmitting Key**, corresponds directly to the Divine Blueprint of **one dimensional frequency band** and its corresponding **Kathara Center, DNA Strand Template, Chakra** and related body regions, **Axia-tonal Line, Auric Field Level** and **station of consciousness**. In a **Trinity Key Induction Session**, one can choose to work on only **one dimension** (Chakra-DNA Strand Template-Kathra Center-Axia-tonal Line-Auric Level) via its Transmitting Key, or each of the **12 Transmitting Key** of the Universal Kathara can be used **in sequence** following induction of the two Initiating Keys. The process of using the Trinity Keys is simple; the **Chakra** that corresponds to the Transmitting Key/dimension/DNA Strand with which you desire to work is used as the **vortex** through which the Trinity Keys are **INDUCED** into the corresponding **Kathara Center**. From the Kathara Center, the Trinity Keys electrically pass on to the **DNA Template** and from there into the **Axia-tonal Line system** and corresponding areas of the body-mind-spirit system. Use of the Trinity Key Induction Technique progressively assists in activating the personal **Merkaba Vehicle** while **amplifying and expediting restoration** of the personal Divine Blueprint.

Technique # 9: Merkaba Trinity Key Induction

1 Activate the Maharata Current via **Technique-6. *The Maharic Quick Seal*** and decide which Transmitting Key(s) you will use **Trace** the **3 Trinity Symbol Keys** onto **3 small squares of paper**

2 First, place each of the papers with the two Initiating Keys **face up on the floor** then **stand** (barefoot or socks only) with **one foot on top of each of the papers; Initiating Key #1** under the **LEFT foot, Key #2** under the **RIGHT foot.** (Note: To run Trinity Key Induction for a Client, have them recline on their back and place the papers with Initiating Keys between your palms and the soles of Client's feet. As introduced in Kathara Level-1, use your **palm Chakras** to **transmit** the Symbols and the Pale-Silver Maharata Current using the same action as described below, into the **Client's foot Chakras**. Key-1 (LEFT foot-***right hand transmission***. Key-2 RIGHT foot-***left hand transmission***.) In Self-induction the papers with Symbols should be positioned beneath the **balls of your feet** in the area of the main **Chakra** on the sole of each foot. Simply begin to **breathe deeply** and slowly for a few minutes. With each **INHALE** draw a **thick stream** of **Pale-Silver Maharata Current** from Earth's core through the **Central Vertical Current** of the body and out the top of the head to the **14th Chakra** 36-inches above the head. With each **EXHALE**, imagine a grapefruit sized Pale-Silver **Maharic Ball** rapidly moving down your Central Vertical Current. When the Maharic Ball reaches your 2nd-Chakra near the navel, imagine the Ball splitting into **Two Balls**, each continuing to **travel down each leg and out your feet Chakras**, through the **Symbol Keys**. Once the Two Balls of Maharic Current have passed through the Symbol Keys, imagine that they **re-merge** into the **one grapefruit sized Pale-Silver Ball** that continues to move downward into the **13th Chakra** at Earth's core. **Continue** this process until you sense a **momentary slight warmth, tingling or subtle itching** at the **balls of your feet.** These mild, **momentary sensations**, called the **CUE RESPONSE**, will grow stronger the more frequently you use the feet Chakras for Symbol Key induction. Once you have noticed the **Cue Response** you have **successfully induced** the two **initiating Trinity Keys** and it is now time to utilize the remaining **Transmitting Key**

3. If you have chosen to use the Transmitting Key for D-1-Strand-1-Axiational Line-1-**Chakra-1**, continue **standing** for the final Symbol Key Induction, placing the paper with the Transmitting Key face up on the floor between **slightly parted feet**: **do not stand on Symbol Key paper** for **Base Chakra Induction**. For all other Chakras **recline on your back** and place the paper with the Transmitting Key **directly on top of the Chakra** to which it corresponds, **on the front of the body**. Use each **INHALE** breath to drawn Maharata Current up from Earth's Core into the Central Vertical Current **only as far up as the selected Chakra**. On each **EXHALE**, push Pale-Silver Maharata Current **out from the Central Verticle Current** of the body and **into the Chakra** imagining that the Chakra is progressively turning into a **radiant vortex of Pale-silver light** that **spins faster and faster**. When you begin to feel a bit of warmth tingling, energy running or itching of the skin **at the Chakra region** (the **Cue Response**) use a final **INHALE breath** to draw the image of the Symbol **down through the Chakra into the body** and into the **tiny Crystal Seal** that links the Chakra to the Central Vertical Current. Take a **FINAL exaggerated EXHALE**, and imagine that you have **pushed the energy of the Transmitting Symbol Key** out of the Chakra into the **corresponding level of the Auric Field**. Once imbued into the **Auric Field** the single image of the Symbol then **replicates automatically and rapidly**, creating **millions of mini-replicas of the Symbol** within your bio-energetic field. When the **Cue Response** sensation at the Chakra has **completely ceased** you have **successfully induced** the entire **mathematical program** of the Transmitting Symbol into the corresponding Kathara Center DNA Strand Template Axia-tohai Line body region and level of consciousness

Number in circle represents the number of Chakra into which corresponding Transmitting Key Symbol will be induced.

Note: The **Smaller Symbols** placed **outside of SOME circles** are **Amplifier Key Symbols** corresponding to the Chakra by which they are positioned. The Amplifier Keys can be used **in place of** the Transmitting Key within the circle, or the two Keys can be drawn on one paper for **simultaneous induction**. It is **recommended** to begin with the Transmitting Key inside the circle, then after a few induction exercise, switch to the Amplifier Key and after several exercises with the Amplifier Key, use both Transmitting and Amplifier Keys simultaneously

The "Magic of Merkaba"

Spiritual-science teachings of **Merkaba Mechanics** emerge from the most ancient of times, record of Merkaba teachings is most often found in obscure traditional "Occult" texts or within New Age "Ascension" teachings. Genuine Merkaba Sciences hold the keys to understanding and mastering the processes of both spiritual and physical evolution, on a personal, planetary, galactic and universal level. Merkaba Mechanics are not the product of "science fiction", nor are they "magical hocus-pocus" of "occult mysticism". Merkaba Mechanics are not "magic" at all, but rather an intrinsic element of universal Primal Order. **Merkaba Fields**, sets of Star-tetrahedron shaped counter-rotating electro-magnetic energy fields within and surrounding manifest forms, are simply an inherent element of the 15-Dimensional Anatomy of form manifestation and the Primal Order structure of multidimensional Creation Physics. In the "*Transduction Sequence*" described in *Kathara Level-1*, the sequence of energy transmutation by which conscious energy manifests into tangible biological form, the *Merkaba Field* represents the structure and stage of energy dynamics by which *Primal Life Force Currents* pass from the scalar-wave-template of the embodied *Kathara Grid levels* into the *DNA Template*. In terms of non-biological form manifestation, all forms possess an inherent structure of interwoven Merkaba Fields through which Primal Current energy is transmuted from the Kathara Grid Core scalar-template level into the outer levels of the Kathara Grid and Axiom Line template upon which the specialized structure of the form builds up through particle/anti-particle accretion into physical manifestation. Merkaba Mechanics seem "magical" only when the inherent "**Laws of Nature**" that govern the dynamics of **Multidimensional Universal Unified Field Physics** are not understood.

Through understanding of genuine *Universal Unified Field Science*, *Merkaba Fields*, and their inherent dynamics as utilized in the study of *Merkaba Mechanics*, are simply recognized as natural elements of the processes inherent to Creation Physics and the naturally occurring, organic relationships between Energy Consciousness, and the Holographic Manifestation of form.

As Merkaba Fields are an intrinsic, significant and natural part of the Body-Mind-Spirit anatomy, the study and application of Merkaba Mechanics is an essential component in any Masters Holistic Healing or Spiritual Actualization program. Merkaba Mechanics are "*Scientific*" in that they represent a core element within the innate processes of creation and manifestation that are intrinsic to the sciences of Creation Physics. Merkaba Mechanics are also "*Spiritual*" in that it is through the innate structures and dynamics of Creation Physics, of which Merkaba Mechanics are a natural part, that consciousness enters the manifest arena in the form of sentient, individuated, multidimensional identity. The "body, mind and spirit" of every manifest being is formed through and governed by the natural laws of Creation Physics and Primal Order. The Laws of Creation Physics and Primal Order are designed and maintained by and within a non-manifest, intelligent, central Consciousness Force and Source of Creation that is commonly referred to as "**God**". God expresses It-Self in the form of *Conscious-energy Constructs* that carry the living "Spirit and Consciousness of God" in the form of **Primal Life Force Currents** which are the foundations for macrocosmic and microcosmic creation and manifestation. Merkaba Fields and the mechanics by which they function, are an indelible part of the physics of Creation and Consciousness, and are thus intimately involved with the Bio-Spiritual processes inherent to **Spiritual Actualization**.

Merkaba Fields, DNA, Healing and Spiritual Actualization

Particles, People, Planets, Galaxies and Universes all have **sets of interwoven Merkaba Fields** that serve as the "**core Primal Life Force Current circulation system**" between the Cosmic, Universal, Galactic, Planetary and Personal "Divine Blueprint" Kathara Grid scalar-templates and the manifestation of those blueprints into the tangible structures of matter Merkaba Fields are the "**carriers of consciousness**" and the "**engines of energy**" by which physically manifest forms are created, maintained and evolved through the Holographic Unified Field of manifest space-time-matter reality. In relation to the processes of personal bio-spiritual healing and spiritual actualization, the personal Merkaba Field is an intrinsic aspect of 15-Dimensional Anatomy that directly governs the function of the physical, emotional, mental and spiritual body systems. **The multidimensional structure of the personal Merkaba Field is the system of electro-magnetic interface by which the Primal Life Force Currents and Consciousness of God-Source and its sentient individuations pass from the Kathara Grid Core Template into the scalar-wave DNA Template that holds the blueprint for the physical-chemical biological DNA.** This reality of **Merkaba Field-DNA Connection** implies that the personal Merkaba Field is directly related to the function or dysfunction of the **biological genetic code.** As the Merkaba Field "carries the energy of consciousness" into the DNA and biological vessel, the *Merkaba Field-DNA Connection* also implies that the potentialities of consciousness and embodiment of spiritual identity, while a being is ensconced within the Time Matrix, are dependant upon the condition and function of the personal Merkaba Field, DNA Template and Kathara Grid.

*Merkaba Fields are the "**carriers of consciousness**" and the "**engines of energy**" by which physically manifest forms are created, maintained and evolved through the Holographic Unified Field of manifest space-time-matter reality.*

Universal Merkaba Field Structure

Basic Merkaba Field structure is relatively simple. Viewed Macrocosmically, in a 15-Dimensional Time Matrix there are **15 sets** of counter-rotating electromagnetic **Merkaba Spirals** that form **15 Universal Dimensional Merkaba Fields.** A "**Merkaba Field**" is composed of a set of **2 Merkaba Spirals**, one electrical-transmitting "cone", the other magnetic-receiving "inverted cone", the 2 "cones" of the Merkaba Spirals, which operate as a **White Hole/Black Hole Pair**, intersect each other creating a system of energy vortices that form an **Elliptical Sphere** of energy within the center of the intersected Merkaba Spirals. The Sphere of energy at the center of a Merkaba Field is called the **FORM CONSTANT**, it is a "**spherical energy domain**" within which the individuation of consciousness and holographic manifestation/projection of form can take place, akin to an "energy egg" within which manifest reality occurs. Within this Sphere of energy at the center of a Merkaba Field, the template-blueprints of a form are held "constant", allowing conscious Partiki units, particles, anti-particles and ante-particles to accrete in specific ratios to "fill out the form in matter". Within the Form Constant sphere, consciousness is able to perceive the **holographic illusion** of externalized space-time-matter manifestation, as the scalar-template of the form is held fixed within the sphere. The "hologram" appears to remain "constant" within the Form Constant sphere while consciousness is focused within the frequency bands of which the Merkaba Field is composed.

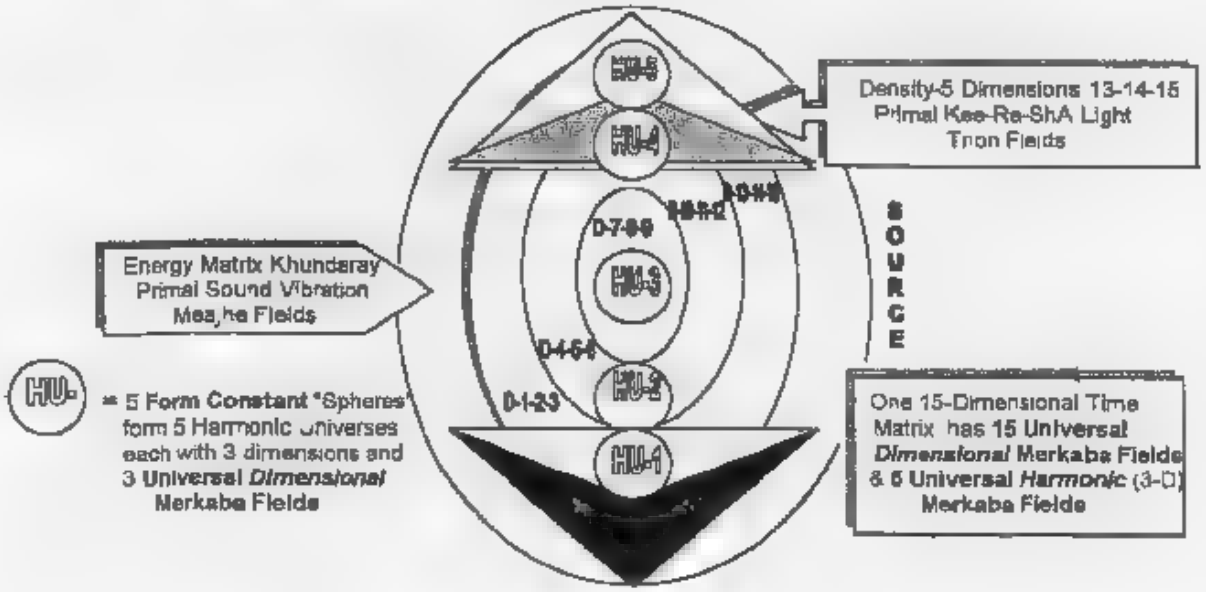
On the macrocosmic universal scale, the Form Constant of each Universal Dimensional Merkaba Field creates a single, elliptical-sphere shaped electromagnetic domain of frequency that represents a single dimension of manifestation. Following the innate mathematical-geometrical structure of Primal Order, the 15 Universal Dimensional Merkaba Fields group into **5 sets** of 3-Dimensional Merkaba Fields called **Universal Harmonic Merkaba Fields**. The 3 Form Constant Spheres from each set of 3 Universal Dimensional Merkaba Fields forms a **Universal HOVA BODY**, or a "Harmonic Universe" electromagnetic domain. Following the mathematical Primal Order program of a Time Matrix as held within the Universal Kathara Grid template and transmitted through the rotation ratios of the Harmonic and Dimensional Merkaba Fields, each of the 3 dimensional levels of a Universal Hova Body holds the Partiki units, consciousness and matter particulates of its dimensional field into a specific angle and speed of rotation. The 3-Dimensional Harmonic Merkaba Field controls the relationship of particle rotation angle (angular rotation of particle spin or "**ARPS**") and rotation speed between each of the 3 Dimensional Merkaba Fields, holding together a 3-dimensional electromagnetic domain, within which consciousness can experience a 3-dimensional space-time-matter hologram. In a single 15-Dimensional Time Matrix there are thus 15 singular Universal Dimensional Merkaba Fields governed by 5 larger 3-dimensional Universal Harmonic Merkaba Fields all of which circulate consciousness in the form of Primal Life Force Currents into and out of the hologram of manifestation. The seeming solidity and durability of an externally manifest matter-field in space-time is created, maintained, perpetuated and completely dependent upon the intrinsic function of the Universal Merkaba Fields.

Within the larger Form Constant elliptical-spheres of the 5 Universal Hova Bodies of a 15-Dimensional Time Matrix, the holographic perceptual realities of space-time-matter take place. Every being or thing in manifest form enters its reality hologram by *taking on the mathematical program* of first the *Universal Kathara Grid* and *5 Universal Hova Bodies*, which set the "Life Stream" or "Stream of Consciousness" of Primal Creation

Currents in motion following the specific **Harmonic Merkaba Field spin ratios** characteristic to each Harmonic Universe System. Galaxies are formed in this way, as individualized expressions of the greater Harmonic Universe of which they are a part. **Universal Harmonic and Dimensional Merkaba Fields** govern the birth, evolution and transmutation of the **galaxies** within them. **Galactic Harmonic and Dimensional Merkaba Fields** govern the birth evolution and transmutation of **star systems and planets** within them. **Planetary Harmonic and Dimensional Merkaba Fields** govern the birth, evolution and transmutation/death cycles of the **species and matter forms** existing upon the planet. The **Personal Merkaba Fields** of species and individuals direct the function of the personal **DNA Template, chemical DNA** and **biological genetic code**, thus governing the birth, evolution and transmutation processes of individual organisms. The mathematical-geometrical programs of the **Primal Order "Divine Blueprint"** that govern Merkaba Field formation and spin ratios are held within the Universal Galactic, Planetary, Species and Personal Kathara Grid structures. In a singular 15-Dimensional Time Matrix, the **inter-linked Universal, Galactic and Planetary Harmonic and Dimensional Merkaba Fields** circulate Primal Life Force Currents and consciousness into and out of manifestation in space-time.

Universal Merkaba Fields

Universal Merkaba Field of One 15-Dimensional Time Matrix



The Personal Merkaba, Trion-Meajhe Field, Radial Body and Radis.

Each individual being receives its life force consciousness biology and manifest hologram through the innate connection between the **Personal Merkaba Field** and the Merkaba Fields of the Planet, Galaxy Universe and Time Matrix When the **D-12 Pre-matter Divine "Christos" Blueprint** is expressing naturally in a planetary system the organisms on the planet circulate Life Force Currents and consciousness through the physical and "spiritual" bodies via the Personal and Planetary Merkaba Fields The **Planetary Merkaba Field** circulates Life Force Currents through the **Personal Kathara Grid** template (morphogenetic field) of the organism via the **Planetary Bio-Feed Interface System.** The organism's **Personal Merkaba Field** then picks up the energy from the Kathara Grid and continues to circulate the Life Force Currents from the Personal Kathara Grid and into the **Maharic Shield Imprint** in the **DNA Template** that is held within the Level-1 *Kathra 12-Tree Grid*, Level-2 *Kathara Crystal Seals-Hara Grid* and Level-3 *Kathara Diodic Grid* From the Maharic Shield imprint in the Kathara Grid the Personal Merkaba Fields distribute the Life Force Currents and consciousness into the **DNA/RNA Template** and **Axiom Lines** The Life Force Current continues circulation from the DNA/RNA Template and Axiom Lines into the **Personal Hova Bodies** and **Auric Field**, to the **Chakras** and **Meridian Lines** Passing through the Meridian Lines, the Life Force Current imbued with the specific mathematical manifestation program picked up from the Kathara Grid Divine Blueprint Template then enters a state of final transmutation into 3-dimensional particles by passing through an electrostatic **Repulsion Zone** barrier that exists surrounding each 3-dimensional Hova Body

The frequency barrier surrounding each 3-dimensional Hova Body forms as **thin, skin-like membrane** or **"Tissue Capsule"** surrounding each of the 5 Hova Bodies in the 15-Dimensional Anatomy The **Hova Capsule** membrane is composed of Density-5 **Primal Light** ante-matter units, called **TRION UNITS** that exist in the form of fixed standing-columnar-scalar-light waves made of **Keylons**, or 3-dimensional **Partiki Grids** The Trion Units and Keylon Partiki Grids within them are anchored upon a fixed field template of **Primal Sound** units, called **MEAJHE UNITS**, which exist as fixed points of mathematically organized vibration The outer layer of each Hova Capsule is called the **Trion Field** as it is composed of **Trions**, or units of Density-5 ante-matter Primal Light The inner portion of the Hova Capsule is called the **Meajhe Field** as it is composed of **Meajhons** (mE' yans) or fixed points of Primal Sound vibration from the **Energy Matrix** beyond the holographic manifestation of the Time Matrix Light Fields The collective body of the 5 Hova Capsules is called the **RADIAL BODY** or **Trion-Meajhe Field** All manifest forms possess a core Radial Body/ Trion-Meajhe Field **Hova Capsule** structure as part of the intrinsic 15-Dimensional anatomy

As multidimensional Life Force Currents pass through the Meridian Lines and into each of the 5 layers of the Radial Body the energy currents and the consciousness carried upon them project the mathematical program of the Divine Blueprint into the Trion-Meajhe Field of each of the 5 Hova Capsules Within the Hova Capsule the individualized raw Life Force Currents enter a system of 3-dimensional energy conduits or **rivulets** called **Radis** which are the "turnstiles" between "manifest matter" and "conscious energy" The Radis draw in the Life Force Currents with their manifestation program through the Trion-Meajhe Field then polarize and break up the Trion and Meajhon units into negatively and positively charged electrical sub-units called **Mions** and **Dions** Partiki, Keylons Meajhons Trions Mions and Dions belong to a category of primal building blocks known as **IONIC PARTICULATES**, which are the building blocks of consciousness energy light sound and scalar-wave-fields that form the blueprints upon which all matter manifests. **Trions** are electrostatic particulates that have both a negative and positive electrical charge, which renders them neutral or static, they are the foundations of what becomes **Ante-matter** Primal Light particles of pre-visible gaseous light Meajhons are static units of pre-sound standing waves also possessing neutral electrical charge that form the Primal Sound Fields of the Energy Matrix Within the structures of the Radial Body Radis rivulates, Trions and Meajhons are **polarized** into negative charged **Mions** ("Base Magnetic" vibrating pre-sound particulates foundations of negatively charged particles such as electrons originating from the Universal Particle Particum field) and positively charged **Dions** ("Base Electrical" oscillating pre-

light particulates, foundations of positively charged particles such as protons, originating from the Universal Anti-particle Partika field). Together, Mions and Dions create the **electromagnetic Ionic Particulate base field** within the Merkabic Form Constant through which particles emerge via Ionic Particulate accretion into tangible matter units

The Trion-Meajhe Field Radial Body of any manifest form represents the 5-Density "Veil" through which consciousness-as-Primal Life Force moves into and out of externalized 3-dimensional manifestation **Merkaba Fields are the "energy engines and consciousness carriers" by which Life Force and consciousness are circulated between the internal Kathara Grid scalar template and the Trion-Meajhe Field Radial Body "veil" as they pass into and out of external expression.** The perpetual polarization, electromagnetic expression and de-polarization of the Life Force Currents within the Merkaba Field Form Constant electromagnetic domain is the process by which the holographic projection of matter is perpetually brought into and taken out of perceptually experiential being. The **Radial Body** Trion-Meajhe Field receives, via Merkaba Field circulation, the template or "design" for its particle manifestation from the "instructions" held in the Divine Blueprint Maharic Shield and DNA Template of the Kathara Grid. Manifestation instructions pass from the Kathara Grid to the DNA Template via the Merkaba Field, then continue into the energy circulation systems (Axiom Lines, Hova Bodies, Chakras, Meridians) that deliver the instructions to the Radial Body for particulate manifestation. In biological life forms, the Radial Body and Radis then translate the scalar-wave blueprint of the DNA Template and Kathara Grid into the polarized Ionic Particulate Mion-Dion sub-units, which accrete following the DNA Template instructions to form sub-atomic, atomic, molecular, chemical DNA, physical matter form- the vehicles of embodied consciousness. The **Merkaba Field** also receives its instructions for energy circulation from the Kathara Grid and DNA Template.

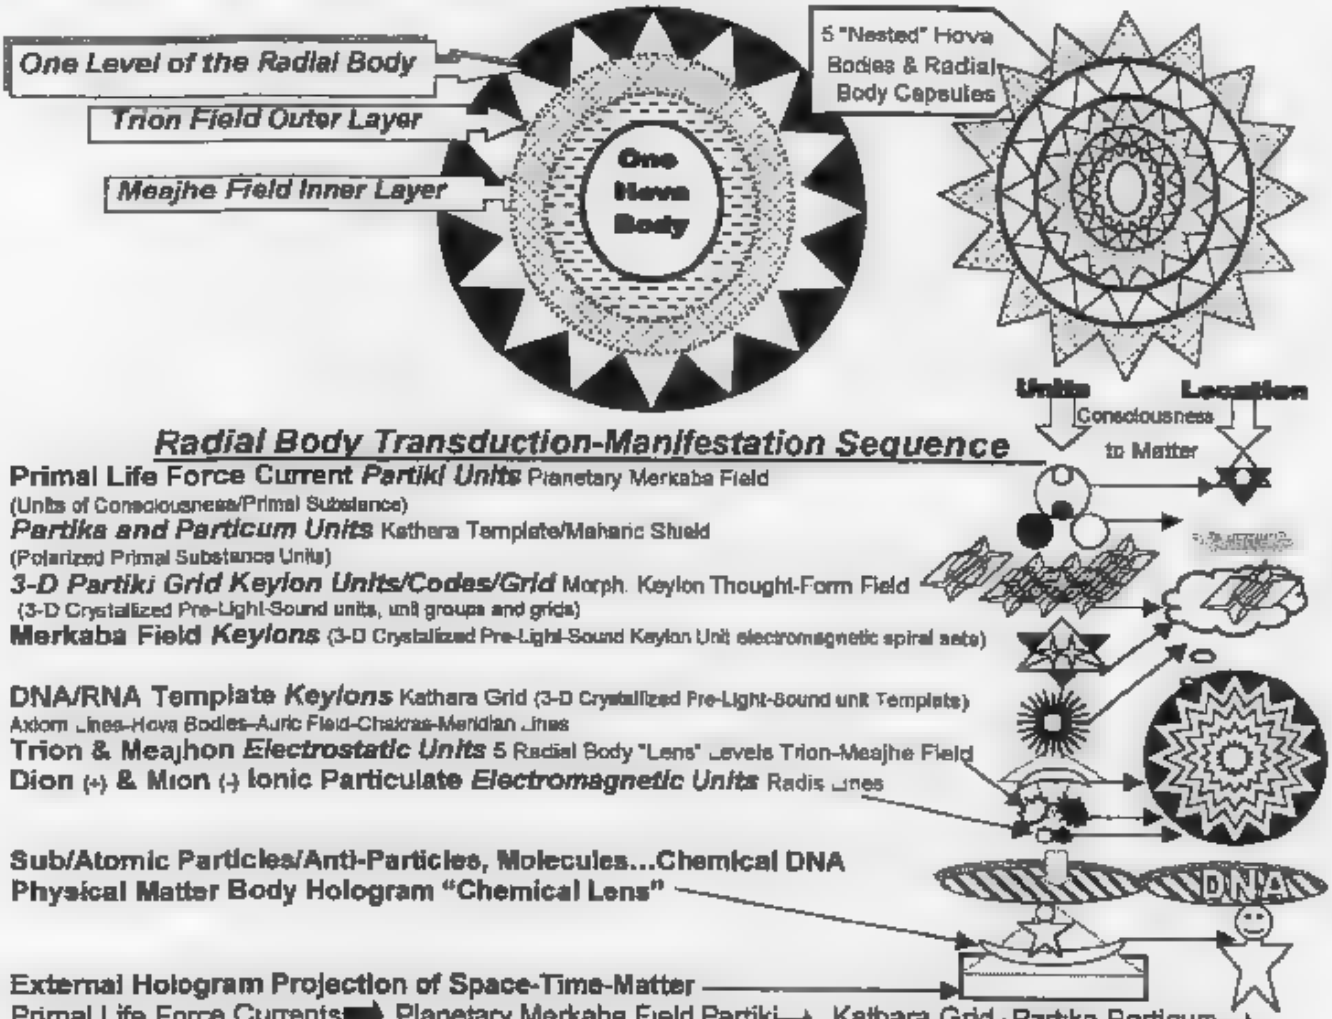
& the Mechanics of Manifestation

The Radial Body exists as a thin "***Tissue Capsule***" surrounding each of the **5 Hova Bodies.** Each of the 5 **Radial Body Levels** are composed of an **Outer Layer** of electrostatic neutral-charge **Trion Primal Light Units** and an **Inner Layer** of **Meajhon Primal Sound Units**. Each of the 5 Levels of the Radial Body serve as the **polarizing filter or "lens"** through which **Multidimensional Primal Life Force Currents** flow, via **Merkaba Field** circulation, from the Kathara Grid and DNA Template, into manifest form



Radial Body Transduction-Manifestation Sequence

1. From the **Planetary Merkaba Field** (via the Planetary Shield, Axiom Lines. Hova Bodies Vortices, Meridian Lines and Radial Bodies), **rhythmic pulses of Conscious Primal Life Force Currents** enter the species and personal **Kathara Grid Core Template** as Primal Units of **Partiki**.

2. Within the **Kathara Grid Template** the **Partiki Units** pick up the **mathematical-geometrical program** from the **Maharic Shield** "Divine Blueprint" Template, **polarize** to form **Particum and Partika Units**, then **accrete** to form **3-dimensional** electro-magnetic **Partiki Grids** called **Keylons**. The Keylons group together mathematically forming complex templates of **Crystallized Keylon Codes** (or "***Keylon Thought-Crystals***"), which create a mathematically encoded **3-dimensional Morphogenetic Field ("Keylon Thought-form Field"** or Morphogenetic **"Keylon Crystal Grid"**) carrying the manifestation blueprint program of the Maharic Shield.

3. As the Primal Life Force Currents of the electromagnetic Keylon Crystal Grid interact with each other following the program of the D-12 Pre-matter **Universal Divine Blueprint**, they form **sets of spiraling electro-magnetic vortices** called **Merkaba Fields**, which carry the Maharic Shield-Kathara Grid Blueprint program into formation of the **DNA/RNA Template** Keylon Crystal Grid.

4. From the DNA/RNA Template held in the Kathara Grid, Primal Life Force Current carries the **Keylon Crystal Grid** of the blueprint into the **Axiom Lines, Hova Bodies, Auric Field, Chakras** and **Meridian Line** systems, finally carrying the Keylon Crystal Grid of the Divine Blueprint into the **5 Radial Body "Tissue Capsule" Levels.**

5. Within the **5 Levels of the Radial Body** the **Incoming Keylon Crystal Grid** translates into **electrostatic Trion-Primal Pre-Light Units** (gaseous pre-light Ante-matter) and **Meajhon-Primal Pre-Sound Units** (units of vibrating pre-sound energy) that possess a **neutral electrical charge.** The **Encoded Primal Life Force Currents** (PLFCurrents+ Keylon Crystal Grid blueprint program) are converted into a **Trion-Meajhe Field blueprint replica;** a " Primal Light-Sound" translation of the original blueprint.

6. The **Encoded Primal Life Force Currents** then travel, **AS the Encoded Trion-Meajhe Field**, into the **Radis Lines** in each of the 5 Levels of the Radial Body. The Radis Lines first **replicate and store** the **mathematical blueprint encoding** of the **Trion-Meajhe Field**, then **polarize** the neutrally charged Trion-Meajhe units into **electromagnetic units** called **Mion** (-) and **Dion** (+) ***Ionic Particulates.*** The **replicated Trion-Meajhe Field blueprint** becomes part of the "Prima. ***Pre-sound*** vibration" ***Meajhe Field*** inner **Layer** of the ***Radial Body*** **Trion-Meajhe Field**, serving as a living "***Memory Matrix***" composed of **Meajhon Unit** "Primal Pre-sound vibration" The **polarized Mion/Dion Units** become the foundations upon which the **"Strong and Weak Nuclear Force", Electromagnetism, quarks, Muons, Measons, Sub-atomic Particles** and **Anti-particles** etc form. Particum-based **Mions** ("Base magentic) become **particles, negative electrical charge units** like **electrons** and **sound spectra.** Partika-based **Dions** become **anti-particles, positive electrical charge units** like **protons** and **light spectra.**

7 Blueprint Encoded Primal Life Force Currents in the form of a **Mion-Dion Field** then translate the original Kathara Grid Blueprint into **Quarks, Muons, Measons, Sub-atomic** and **Atomic particles** and **anti-particles**, which **accrete** according to the blueprint to form **molecules, elements, chemicals**, the **Chemical DNA Blueprint** and the **physically manifest body form** As this occurs the **body image "flashes on"** into manifestation as a **Pulse of Life Force Consciousness** carrying the **Chemically Translated Holographic Image** of the body form template blueprint. This Pulse of Consciousness continues to expand from the Kathara Grid and DNA via the Transduction Sequence, through and beyond manifestation of the body image and into **projection of portions of the Dimensional Unified Field** that **holographically translate** into **individualized experience** within a perceived **Common Planetary Time Rhythm and Matter Field.**

NOTE: ***An individual will holographically perceive and experience only the portions of the Dimensional Unified Field mathematical-geometrical program that are encoded within the personal Maharic Shield, species Tribal Shield and Planetary, Galactic and Universal Shield aspects of the personal Kathara Grid and DNA Template.***
A **global population** experiences a **common planetary reality field and time continuum** because the Kathara Grid Template and DNA of all beings entering a planetary field **adopt the common imprint** of the mathematical-geometrical program of the **Planetary Kathara Grid** blueprint in order to enter into the electromagnetic domain of the Planet's Form Constant Nova Body structure for experiential manifestation. Members of a **singular species** share a common **species Tribal Shield** template through which a **common Chemical Body Form** and perceptual orientation holographically manifest. The imprint for **individuality** in biological form, life experience variation and the application of **Free Will Choice** is held within the mathematical program of the **personal Maharic Shield** D-12 Pre-Matter **Divine "Christos" Blueprint.** Imbued within the mathematical program of the **Human species Tribal Shield**, and that of some other species, is the imprint for **probability** to exist. The Human species Tribal and Maharic Shields carry a program that allows for **new programs of probable creation** to be **added** to the personal and species **Kathara Grid**, allowing the embodied consciousness to retain a **degree of direct influence** over what sets of mathematical programs will be called into personal experiential Holographic Expression from the personal Maharic Shield Template. **Creative variation** on the original personal, species, planetary and galactic Divine Blueprint is possible as long as the new probabilities do not deviate so excessively from the Pre-set programs and **Original Intentions** of the Universal Divine Blueprint that the **structural integrity** and **Source-God Will Intentions** for our Time Matrix become **irreparably compromised. Free Will thus exists within a pre-set framework of overriding Divine Will,** and is permitted free reign in the manufacture of **co-creative experiential probability** up to the point at which the Original Divine Will of Source and the creative framework itself become unduly jeopardized.

8. The physical body form serves as a **Chemical Lens** through which ***portions*** of the **Dimensional Unified Field** are perceived by the embodied consciousness as a **3-dimensional Hologram,** as the Primal Life Force Currents continually carry **pulses of the individuated consciousness** through the ***Transduction Sequence*** from Kathara Grid, through the DNA, to the manifest Chemical Lens of the physical body structure and Holographic "external" reality field projection.

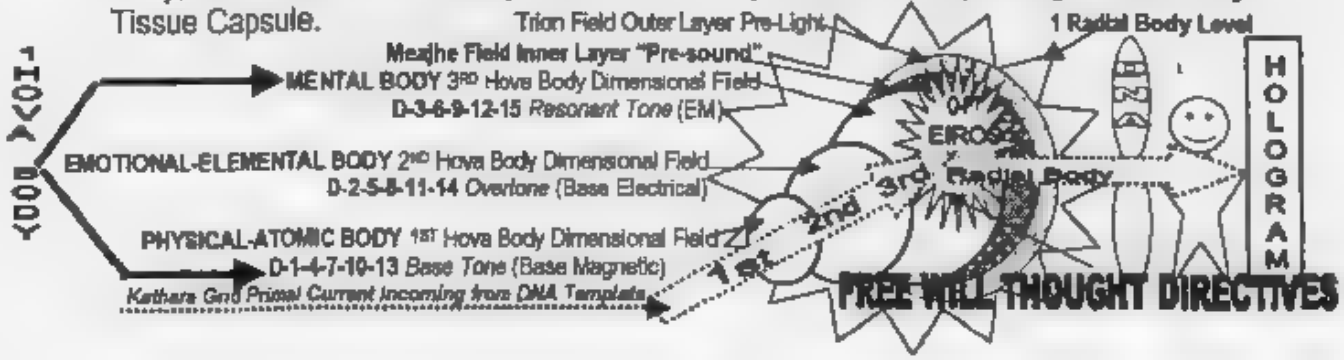
9. As a Keylon-Thought-Form blueprint traveling on one Pulse of Consciousness **fully expands** (fully "Activates") into the manifest externalized hologram, **another Pulse of Consciousness** is released from the synchronized mathematical programs of the Planetary Merkaba Field, which sets the Transduction Sequence in motion ("initiates") for the ***next portion* of the personal mathematical blueprint.** The blueprint of the **Planetary Kathara Grid** regulates the **cyclic rhythms** at which **Pulses of Life Force Current** will be released through the **Planetary Merkaba Field**; the Planet releases **"Pulses of Time"**

NOTE. The linear time experience of life forms on a planet is synchronized into specific singular continua and cycles of time through the *DNA Template*; the species Tribal Shield, personal Meharic Shield and DNA Template are imbued with the exact mathematical programs of the specific *Planetary Time Cycle* and *Continuum* or "Time Wave" into which the consciousness [redacted] *A singular Time Wave* constitutes a Time Continuum within which there are specific repeating cycles of progressively accelerating *Pulses of Time* that collectively form the linear time-progression continuum of a *Planetary Time Cycle*

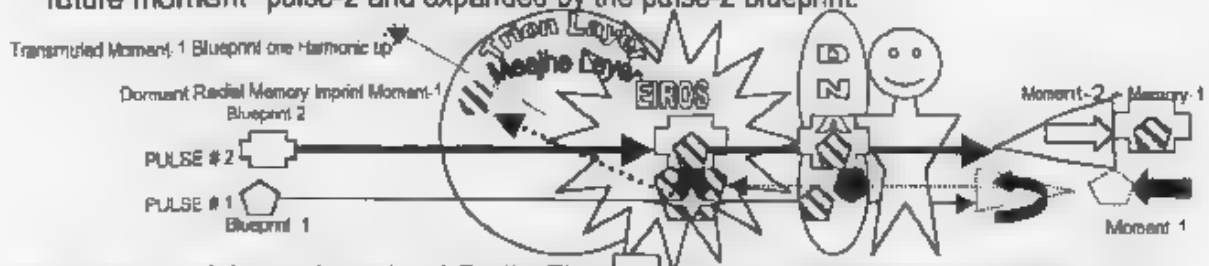
10. As one **Pulse of Time/Consciousness** brings its blueprint into manifest **Critical Mass Expansion** (fully activates specific portion of the blueprint in Holographic Expression), the Planetary Merkaba Field releases the **next "incoming" pulse** of Time which carries the next portion of the Kathara Grid mathematical blueprint into the Transduction Sequence As the new Pulse enters the Transduction Sequence and begins **Expansion** toward manifestation, the **first pulse** of the **fully expanded hologram** begins **Contraction,** entering a **back-return** through the **Reverse Transduction Sequence** (*matter- chemical* DNA-*Sub-Atomic units*- Radia *Mion/Dion units*- Radial Body *Trion -Meajhon units*- Meridian Line-Cheira-Auric Field-Hova Body-Axon Line-DNA Template-Merkaba Field-Morphogenetic Thought-form Field Keylon Grids & *Units*- Meharic Shield Template & Kathara Grid *Partika and Particum Units*- Planetary Merkaba Field *Partis* (Units)

11. A s **pulse-1 contracts** its hologram program **moving backward** through the Transduction Sequence, creating the **"Remembered Past" moment**, the **pulse-2** simultaneously **expands** its hologram program **moving forward** through the Transduction Sequence, birthing the as-yet-to-come **"Future" moment.** The backward moving **"Past" pulse-1** and the forward moving **"Future" pulse-2 intersect** at the **Radial Body Levels** in the Transduction Sequence This **'past pulse-future pulse intersection point"** is called the **Eiron** (E'r-on) **Point**, also known as **"Zero Point"**, the **"Present moment of conscious focus within the hologram"**, or the **"*Eiros*** Conscious, Breathing Life-Force Stream" (Also referred to as the **"Stream of Consciousness"**, the **"*Living Holy Spirit*"** or the **"Breath of God"** ..etc.).

12. The *Eiron/Zero Point*, or **Eiros**, is the **"Present Moment of Creation Power"** for the "manifest" conscious identity. It exists at the position where the **third dimensional field,** the electromagnetic **Resonant Tone "Mental Body"** field of a single 3-dimensional Hova Body, **intersects** with the **Meajhe Field Inner Layer** of the corresponding **Radial Body** Tissue Capsule.



13. As the backward moving **"Past" pulse-1** and the forward moving **"Future" pulse-2 intersect** at the Radial Body Meajhe Layer **Eiros** (Eiron Point) the returning **contracting pulse-1** passes through the Trion Layer and into the ***Meajhon blueprint replica,*** called a **" Radial TILE"** , that it **left behind** in the Meajhe Layer **Eiros** during pulse-1's **incoming** passage. Just as the returning pulse-1 retreats back through its Radial Tile, the **incoming pulse-2,** carrying the **next blueprint** coding **,simultaneously** passes through the **first Radial Tile, combining** the **"past" Radial Tile** mathematical-vibrational blueprint with the **incoming pulse-2 blueprint** At this moment-point, the hologram template from the "past moment" is adopted by the incoming "future moment" pulse-2 and expanded by the pulse-2 blueprint.



14. As pulse-2 picks up the pulse-1 Radial Tile the **retreating pulse-1**, which now **holds the Radial Tile blueprint in *reverse mathematical sequence* as *TRION Pre-light Units*** , collides with the incoming pulse-2. Both pulses carry the **common blueprint** of the first Radial Tile; the **incoming pulse-2** holding the blueprint in **forward** mathematical sequence as ***Meajhon Pre-sound Units*** ,the **retreating pulse-1** holding the blueprint in **reverse mathematical sequence** as ***Trion Pre-light Units*** . As the expanding/advancing and contracting/retreating pulses collide with blueprint **"sequence and anti-sequence",** the pulse-1 reversed **Trion Radial "Anti-Tile" fuses** with the original **Meajhon Radial Tile** and both Radial Tile and Anti-tile **completely de-manifest** or ***"Ascend"*** from their original Harmonic Universe by **TRANSMUTING** to become a ***Merkaba Field***. The **energy/ consciousness** once held by Radial Tile/Anti-tile then **replicates** its original blueprint via **Fission,** leaves a **dormant "Memory Imprint"** *Meajhon replica* in the Radial Body ***Meajhe Field,*** and **reappears** in faster oscillating form within the corresponding **Hova Body Form Constant** of the next Harmonic Universe up in the dimensional scale.

15. As transmutation of the "past" Radial Tile occurs in the Radial Body Eiros, the **incoming pulse-2** is momentarily held **static** as it leaves a **new Radial Tile** in the Meajhe Field, the new Radial Tile holds the **pulse-1+pulse-2** program. At this moment-point the **entire** externalized **Hologram** literally **"Flashes Off"** and de-manifests, its energy **held in suspension** within the **Radial Body** Trion/Meajhe Field When the first Radial Tile is transmuted, the incoming **pulse-2**, carrying an **expanded imprint of the first Radial Tile,** progresses from the Meajhe Field Eiros to Trion Field, then begins to **"Flash On"** its blueprint in manifestation The embodied self perceives a **"liner moment progression"**; the ***pulse-1***program becomes **"memory"** of the **"Past"** moment, ***pulse-2*** the **"Present".**

The Radial Body, Mechanics of Manifestation, Healing and Human Potential

There is much more to be revealed regarding the subject of the *Mechanics of Manifestation*. Our introduction to the ***Radial Body anatomy***, the ***Transduction Sequence*** and the ***Mechanics of Manifestation*** represents a beginning in the quest for genuine mastery over the manifest experience. In this *Kathara Level-2 Introduction* we will **not yet address** the highly pertinent aspects of *Manifestation Mechanics* that pertain to **direct Creation of matter and events** through **Conscious Thought Projection** and applied personal **Will Intention**, nor will we yet investigate the complex realities of **Space-Time Travel**, **Star Gate Passage** and the **Spiritualized-science of Ascension**. All of these subjects and more are *intimately intertwined* with **personal healing** and the **Imprint for Health**, **attaining mastery** over Manifestation Mechanics and the Bio-Spiritual processes of genuine **Spiritual Actualization**. All of these abilities, and many others too numerous to mention, presently exist as **dormant evolutionary potentials** for the Human species; potentials that were once, long ago, fully actualized and commonly expressed. The ***Kathara Bio-Spiritual Healing System*** represents a body of Master teachings that focus upon the manifestation and maintenance of **Holistic Health through Bio-Spiritual Mastery and Spiritual Actualizaton**. Exploration of subjects such as ***Merkaba Mechanics***, ***Manifestation Mechanics*** and the ***Radial Body Trion-Meajhe Field*** is an intrinsic part of furthering our abilities to embody and practice the ideals of Healing and Health through Holism.

Before we can begin to actualize the exciting potentials of freedom, love, power and knowledge that await Human re-discovery, we must first focus upon **healing the obstacles** that have long stood in our way of actualizing true Human potential. Our study of *Merkaba Mechanics* in this *Kathara Level-2 Introduction* has included a *necessary introduction* to **Manifestation Mechanics** and **Radial Body Anatomy**, the greatest physical and spiritual difficulties presently facing Humankind emerge from a **HIDDEN ILLNESS** that has held our species hostage within a progressively deteriorating, **unnatural Mortal body form**. The **underlying cause of ALL Human Illness** is an **unnatural genetic mutation** that manifests THROUGH the **DNA Template** and **chemical DNA.** The **Casual Element** of this species genetic deviation from its original Divine Blueprint can only be found through study of the 15-Dimensional Anatomy, ***Primal Life Force Currents, Kathara Grid, Maharic Shield, Merkaba Field, DNA Template***, the ***Radial Body*** and the intimate interplay that perpetually exists between these interwoven systems. It is precisely this ***species genetic deviation***, which has progressed and increased for over **200,000 years**, that has kept Humanity bound to a finite, limited world, unable to express the potentials

that once existed as our birthright. Though the problem of this species "Internal Illness" is multi-faceted and highly complex, the **Soul-U-tions** through which progressive healing of the Human genome can be rendered are relatively simple. The **Soul-U-tions for healing** and restoring health to our species, and ourselves, **require familiarity with basic Kathara Grid, Manifestation Template, Radial Body, DNA Template and Merkaba Mechanics.** These are the elements of our 15-Dimensional anatomy within which the **Casual Element** of our genetic deviation is held, and thus these are the elements of our anatomy through which the **most rapid and permanent Healing Solutions** can be rendered.

In the following pages we will continue our investigation of the ***Transduction Sequence and the Miasmic Body***, in order to **identify** the regions of our 15-Dimensional Anatomy in which our hidden genetic mutations are created, stored and perpetuated. Once we can identify the regions in which the greatest healing is needed, we can then directly employ appropriate remedial measures. Working with the **Core Kathara Grid and Maharic Shield Divine Christos Blueprint** to reset the Imprint for Health (Kathara Level-1), while **simultaneously** working with the **elements of our anatomy within which the most significant remedial measures are needed**, will allow us to use Divine Blueprint technology to implement **expedited healing.** In this *Kathara Level-2 Introduction* we will examine the *Transduction-Manifestation Sequence* and how it's present **malfunction** creates the **Miasmic Body**, which creates the DNA Template distortion through which our **chemical DNA mutation**, and a phenomenon known as the "**Phantom**" or "**Shadow" Self** is brought into being within our manifest hologram. We will then continue our exploration of **Merkaba Mechanics** and **Radial Body Healing** applications, to discover the **"Secrets of the Veca Codes"**, and Photo-Sonic and Photo-Radionic Radial Body Healing technologies, through which our Kathara and Merkabic Healing applications can be tremendously intensified, amplified and expedited.

Miasms block energy flow and create a "Phantom-Shadow Self" running on opposite mathematical program; blocks natural energy flow.

- The Personal ***Radial Body*** or Trion-Meajhe Field is composed of **5 Hova Body Capsules** that manifest as electromagnetic barriers or "**frequency fences**" between each set of 3 DNA Strand Templates, each set of 3 associated Axiom Lines, Chakras and Meridians and between each 3-dimensional layer of the Auric Field and corresponding level of personal multidimensional identity
- Each of the **5** 3-dimensional **Harmonic Merkaba Fields** corresponding to the *5 Hova Bodies* of 15 Dimensional Anatomy *govern the function* of the corresponding **Dimensional Merkaba Fields**, **Radial Body level** and its imbedded **Memory Matrix**, via the mathematical program held in the personal Kathara Grid, Shields and **Crystal Body** template. The Kathara Grid program is passed from the **Keylontic Crystal Body** into the **DNA Template** via the **Dimensional and Harmonic Merkaba Fields** and the "mini-Merkaba Fields" of the Level-3 Kathara **Diodic Grid**.
- Each Hova Capsule **Radial Body level,** receiving its instructions from the DNA Template and 3rd dimensional Mental Body Hova Body level, in turn governs the function of the **chemically manifest DNA** and all body-consciousness systems that are built upon chemical genetic code.
- The **Harmonic Merkaba Field** governs the **particle spin axis** (Angular Rotation of Particle Spin) ratios of the energy units that make up its corresponding 3-dimensional system. Each **Harmonic Merkaba Field** corresponds to one **Hova Body**, one set of **3-dimensions** and the Matter Density Level characteristic of that 3-dimensional system. Each Hova Body, and thus each Harmonic Merkaba Field Level and Radial Body Level, correspond to one set of **3 DNA STRAND TEMPLATES** within the Human12-Strand Template.
- Full activation of **one Harmonic Merkaba Field** creates reciprocal activation of the corresponding set of ***3 DNA Strand Templates***, which creates embodiment of corresponding levels of identity and consciousness (personality, Soul, Over-Soul, Avatar, Rishi etc). When one Harmonic Merkaba Field fully activates through natural activation of the corresponding **Shields** and **Crystal Body Keylons**, the Harmonic Merkaba Field becomes capable of **merging** with the Harmonic Merkaba Fields from other Density Levels, in a process frequently called **Transmutative Dimensional Ascension**.

- During the process of "**Ascension**", (also called "space-time travel", "wave-riding", "Star Gate passage", "Teleportation" etc.) the **Harmonic Merkaba Fields** of more than one Density Level merge, progressively shifting the **two or more different sets of 3-dimensional particles** into a **common particle spin axis angle and spin speed** The corresponding **Axiom Lines, Hova Bodies, Auric Field levels, Chakras, Meridian Lines** and **Radial Body Levels** also merge.
- When Harmonic Merkaba Fields, and their corresponding Inner Templar anatomy, merge, the **Fire Codes** between the corresponding **DNA Strand Templates activate, causing the DNA Strand Templates to merge,** which creates a reciprocal reaction called "**DNA Strand BRAIDING**" between corresponding **chemical DNA strands**. (The "Double Heli" configuration of "one strand" remains, as the chemical components of each strand overlay together to become a single Double Helix containing the chemical programs of multiple DNA strands.)
- When the **Fire Codes** between strands in the DNA Template activate, dormant sequences of chemical DNA called " **Transient Turnstile DNA Sequences**" "turn on" within the **Hydrogen Bonds** that link each DNA "Ladder Rung" together, producing a **transient trans-harmonic element** called **Celestalline** within the chemical DNA.
- Natural Braiding of the chemical DNA strands and activation of the chemical Turnstile DNA Sequences create a series of **sub-atomic bio-chemical DNA responses** that allows for Internal **Atomic Particle/Anti-particle Fusion** and **Fission.** Natural **Internal Atomic Fusion-Fission** enables the manifest atomic structure to temporarily de-manifest, returning to "*spirit form*", by re-entering the electrostatic **Trion-Meajhe Field** of the corresponding **Radial Body Levels.**
- During the Ascension process, the Harmonic Merkaba Fields of **2 or more Density Levels** merge, forming various **PHASES of Merkaba** activation that create a **Trans-Harmonic Merkaba Field** that is called the **Merkaba VEHICLE.** The 3-Dimensional **NETHRA Phase** Merkaba Field of Density-1accelerates in rotation speed to become the 6-dimensional **HALLAH Phase**, 9-Dimensional **Quatra Phase**, 12-Dimensional **Mahunta Phase** or 15-Dimensional **Rahunta Phase** Harmonic Merkaba Vehicle.

- As a phase of the Trans-Harmonic Merkaba Vehicle activates, the corresponding lower-dimensional **Hova Body and Radial Body Level dissolve**, their content of energy and consciousness **expanding** into the next Hova Body and Radial Body Level, forming a **Trans-Harmonic Radial Body "FORM CONSTANT"** within the **Merkaba Vehicle.**
- The Trans-Harmonic Radial Body and Merkaba Vehicle allow the consciousness and biological form to "de-manifest" from the lower dimensional Density Level. The identity can then **re-manifest** in another Density Level or space-time coordinate by projecting itself into the desired location, AS the *electrostatic* ***Trion-Meajhe Field*** **Trans-Harmonic Radial Body,** then returning the DNA Template activation level and Harmonic Merkaba Spin ratios to that of the new location for re-manifestation.
- When the Personal **Merkaba Field** is used to form the **Trans-Harmonic Radial Body** in the process of Ascension, the Merkaba Field is called a **MERKABA VEHICLE.** A ***Merkaba Vehicle*** is an electrostatic **Trion-Meajhe Field** of Primal Pre-Light-Sound through which the consciousness (AKA "spirit") can move itself, *and its atomic structure*, through **thought-projection**, to a desired location beyond the "veils" of the Planetary, Galactic and Universal Hova Capsule-Radial Body-Form Constant barriers.
- Conscious mastery of the Personal Merkaba Field, through which the organic **internally created Merkaba Vehicle** Trans-Harmonic Radial Body becomes available for conscious direction, implies **conscious control of DNA Template function.** The potentialities of **genuine Ascension** (etc ..) and mastery of Bio-Spiritual Consciousness are **inborn attributes** of the Human 12-Strand DNA Template. Due to a **species de-evolutionary genetic mutation** that compromises natural function of the Personal Merkaba Field and DNA, the reality of Ascension on a species level has been lost to all but a few on Earth for over 200,000 years (re: Masters Templar Coursebook).
- The potentials of **Bio-Spiritual Actualization** CAN be returned to humankind through **reverse-mutation** of genetic dysfunction within the human genome and DNA Template. Healing the genetic template can be achieved by **manually employing** specific practices of **Kathara "Maharic Shield" Core Template Dynamics** in **combination** with **Harmonic Merkaba Mechanics** through which the many eons of biological miasmic distortion can be progressively and rapidly cleared from the Personal Kathara Grid and DNA Template.

- Restoration of the D-12 Pre-matter Divine Blueprint within the Human Kathara Grid and DNA Template will eventually **free the Personal Merkaba Field** for use as a **Trans-Harmonic Merkaba Vehicle.** Kathara Healing applications, and use of the D-12 Pre-matter Maharata "Christos" Current to reset the biological D-12 Pre-matter Divine Blueprint, are the beginning steps in reclaiming Bio-Spiritual Mastery.

- The function of the personal **Merkaba Field** and **DNA Template** are not only associated with abilities of **Atomic Transmutation** and **Dimensional Ascension**, they are directly linked to **every aspect of body-mind-spirit function**, including **biological longevity** and **health, memory, intelligence,** and **metabolic, chemical, mental** and **emotional balance** and stability.

- Most significantly, the **Merkaba Field/DNA Connection** is the Bio-Spiritual conduit through which the consciousness of an embodied individual is directly linked to the common Perpetual Force of Energy and Eternal Source of Intelligent Creation that is **"God".**

- When a being's Merkaba Field and DNA Template are functioning upon the innate program of **Universal Primal Order**, as it is held within the Pre-matter **Universal Divine Blueprint** of the D-12 "Christos" Liquid-Light field, the natural and perpetual supply of **Primal Life Force Currents** and "spiritual" consciousness emanating eternally from Source-God, flow through an open energetic channel or "**Pillar of Light**", which is called the "Um Shaddai Ur" (Pillar of First Cause Light-Sound') into the manifest embodiment. Such a being is called a "**Christed Being**". This implies that the integrity of its original D-12 Pre-matter Divine Blueprint has not been structurally compromised, and thus the perpetual Life Force Currents, consciousness, sentience, intelligence, wisdom, power, Will and LOVE of Source can freely express through the Um Shaddai Ur, into the manifest hologram of the Time Matrix through the Christed embodiment.

- If the Kathara Grid, DNA Template and Merkaba Field of a being are damaged, and no longer carry the **original mathematical-geometrical program** of the **D-12 Divine Blueprint** through which the being entered space-time, the flow of Primal Life Force Currents, the Um Shaddai Ur Pillar and thus the active consciousness connection to God will be distorted, reduced or severed at the dimensional level to which the template distortion corresponds.

- A manifest being incapable of running the Primal Life Force Currents of the Um Shaddi Ur "Pillar" becomes **biologically finite**, its consciousness "trapped in the Time Matrix", even following death of the physical body. Accordingly, the **natural Laws of Creation Physics** as set by Source-God, this condition of **finite mortality** will remain until the being's **Kathara Grid Template and Merkaba Field connection** to the D-12 **Universal Divine "Christos" Blueprint** and Universal Trion-Meajhe Field Um Shaddi Ur Pillar is restored

- Healing Core Template genetic distortions that are severe enough to cause dysfunction of the Personal Merkaba Field first require **resetting of the D-12 Divine Blueprint** through activation of the **Personal Maharic Shield.** Until the Body-Mind-Spirit system has reached a **Critical Mass** of D-12 Divine Blueprint holding through frequent and progressive manual running of the D-12 Maharata Current, healing Core Template genetic distortions **also requires** simultaneous, direct and repeated **manual realignment and restoration** of **Personal Merkaba Field function** and **Radial Body Trion-Meajhe Field** integrity.

- If there **are distortions within the Kathra Grid or DNA Template** of an individual or species, the Personal Merkaba Fields will not function in harmony with the **natural energy circulation rhythms** of the **Planetary, Galactic, Universal** and **Time Matrix Merkaba Fields** and Universal Kathara Grid. Such Kathara Grid distortions create tangible **genetic and consciousness mutation** within biological organisms, and can divert the **intended evolutionary destiny** of an embodied consciousness or species on to a divergent path of **de-evolution and consciousness fragmentation** unintended by the original plan encoded within the D-12 Pre-matter Christos Divine Blueprint.

- Distortions with the DNA Template and resulting **Miasms** can be purged through **manual resetting of the D-12 Pre-matter Divine Blueprint,** via repeated manual activation of the Personal **Maharic Shield**. The activated Maharic Shield runs the Density-4 D-12 **Maharata Primal Life Force "Christos" Current** through the Kathara Grid and form embodiment, progressively resetting the original mathematical coding of the personal Divine Blueprint within the Kathara Grid and DNA Template Use of the **Maharic Shield techniques** in *Kathara Level-1* sets this process of **Core Template Regeneration** in motion.

- The Core Template "Divine Blueprint" healing process can be expedited through applied **Christos-Merkabic Healing Mechanics** such as the ***Tribal Shield Activation*** (Technique-7), ***Merkaba Salutation*** (Technique-8), ***Merkaba Trinity Key Induction*** (Technique-9) and ***Kee-Ra-ShA Activation Sequence*** (Technique-12).

- Divine Blueprint Healing can be expedited further through **manual restoration** of the personal Trion-Meajhe Field **Radial Body** and its inherent **Memory Matrix. Radial Body Healing,** when **combined** with ***Kathara Maharic Shield*** and ***Christos-Merkabic Healing*** dynamics is the most powerful and rapid Holistic Healing technology available.

- **Radial Body Healing** dynamics, which also serve to progressively restore the organic **Memory Matirx,** involve use of the specific **mathematical programs** that govern formation of the **Radial Body Trion-Meajhe Field.** These mathematical programs are called **VECA CODES.**

- **Technique-10** ***Restoring the Trion Field-Photo-Radionic Healing*** **and Technique-*11Restoring the Meajhe Field-Photo-Sonic Healing*,** provide introduction to **Radial Body Healing Mechanics.** Use of these techniques, in **combination** with **Technique-2** ***The Maharic Seal and Liquid Light Cleanse,*** and **Merkabic Healing Techniques 6-12, will greatly expedite** the personal healing process while **significantly increasing** the body-mind-spirit abilities to **receive, hold/sustain and transmit greater quantity and quality** of interdimensional frequency in the Client Healing Facilitation process.

Radial Body Healing, the VECA CODES, DNA and Merkaba

- Veca Codes, also called the "I AM" or "**Immanuyana Sequence**" are very specific **SYMBOL CODES**, each possessing corresponding **Sound Tones** called ***Arieas*** and **energy movements** called ***Seurias***, which correspond to the Cosmic, Universal, Galactic, Planetary and Personal **Trion-Meajhe Field Radial Body Levels**.

- There are **5 categories of Veca Codes**, the Planetary **Low-Veca *Codes of Manu*** (Taurenic-Akashic Codes), the Galactic **Mid-Veca *Codes of Immanu*** (Akashic-Eckashic Codes), the Universal **Level-1 High-Veca *Codes of Immanuel*** (Dolaric-Rishic Codes), the Cosmic **Level-2 High Veca *Codes of Immanuyana*** (Triadic-Polaric-Eckatic Codes) and the God-Seed **Yunasai *Codes of Eckasha*** (Source Codes).

- Beginning applications of Veca Code Radial Body Healing begin with restoring the Trion-Meajhe Field Radial Body through resetting the ***Yunasai*-Eckasha and High Veca *Immanuyanas* and *Immanuel* Codes**, through **frequent manual Direct Induction** of the their corresponding **Symbol Codes** and **Sound Tones/Arieas**.

- The most powerful **Yunasai-Eckasha Codes** are **PHOTO-SONIC Codes**, carrying the Mathematical Programs of the ***Khundaray Current*** Primal Sound ***Meajhe Field*** AND their bridging **God-Seed vibration-rhythms** connecting to Source. The **Level-2 *Immanuyana*** and **Level-1 *Immanuel* High Veca Codes** are **PHOTO-RADIONIC Codes**, carrying the Mathematical Programs of the Trion-Meajhe Field **Khundaray Primal Sound** AND **Kee-Ra-ShA Primal Light Currents.**

- **Consistent use** of **Veca Code Radial Body Healing**, in combination with **Merkabic and Kathara Healing** applications, will progressively **clear the Miasmic Body** and heal, balance, re-integrate, and restore the Divine Blueprint within, the energies of the **Phantom-Shadow Self** in all levels of the Body-Mind-Spirit system.

- More advanced applications of Veca Code technologies include use of the **Mid-Veca *Immanu*** and **Low-Veca *Manu* Codes,** and the corresponding ***Seurias*** (body movements to direct frequency), following a period of initial induction and activation of the Yunasai and High Veca Codes. Full Spectrum Veca Code technologies are introduced in the "***Dance of Life***" Masters Spiritual Development Program.

- **Induction,** or **IMBEDDING** of the High Veca Codes into the 15-Dimensional Anatomy involves placing the corresponding **Symbol Code Sequence** (mathematical program) over the **regions of the physical body** that correspond to the appropriate aspects of the Kathara Level-2 **Crystal Seals Grid** and Level-3 **Diodic Grid.** Once the Symbol is in place, the **breath** is used to direct **D-12 Maharata Current** through each **Symbol Code** and **body region.** Use of the **Maharata Current** "carrier wave" (via **activation of the Maharic Seal/Shield**) is **required** to **induce** the code's **mathematical program** into the **Diodic** and **Crystal Seals Grid,** where the program will then naturally transfer into the corresponding areas of the **Level-1 Kathara 12-Tree Grid** core template.

- Once the High Veca and Eckasha Code Sequences are Imbedded/induced into the Level-1 Kathara Grid, they are then **Activated** in the Kathara Grid by **TONING** the corresponding **Veca Code Ariea Sequence**. The longer toning is sustained, the greater will be the quantity and quality of Veca Code Activation.

- Once Activated, the Veca Code programs travel upward through the stages of the **Transduction-Manifestation Sequence** from the **Kathara Grid**, to the **Shields**, into the **Keylon Crystal Body Morphogenetic Field,** then into the **Merkaba Field**, **DNA Template** and **Hova Body/ Radial Body Levels**, temporarily restoring the **Christiac Merkaba Field**, **Radial Body** and **Memory Matrix Divine Blueprint**. **Frequent and continued use** of the Veca Codes will progressively build **Critical Mass** of the **Divine Blueprint program simultaneously** within **ALL levels** of the 15-Dimensional Anatomy, eventually culminating in expedited full restoration of the D-12 Maharic Shield blueprint within the Body-Mind-Spirit system, via the Radial Body Trion-Meajhe Field.

- Activation of the Yunasai and High Veca Codes within the personal body **prior to conducting a Kathara Client Healing Session** will cause the facilitator's **Level-3 DIODIC GRID to activate**, temporarily **transmitting Veca Code sub-harmonics.** This will cause the **minute Diodic Chakras** in the facilitator's **FINGER TIPS** to activate **if the Palm Chakras** have been activated with either pure **Maharata Current** or a selected **Triadic Phase Current.** The facilitator will then **automatically transmit** Veca Code sub-harmonics into the client's **Diodic Grid** while conducting general Kathara Healing applications, allowing the client to benefit from temporary **Radial Body healing support**, which will **amplify the effects** of all healing applications.

- A more **Temporary Imbedding and Activation** of the Veca Code program can be achieved through **OPTICAL-PINEAL INDUCTION**, whereby the **eyes** are focused for a time upon the **Image** of the **Symbol Code.** The mathematical Veca Code program enters the **Pineal Seals** through the **Optical Currents** and **6th Chakra**, an then travels for Imbedding/induction through the **Central Vertical Current** into the body regions and Crystal Seals Grid areas to which the Veca Code corresponds The **Veca Tones/Arieas** are then used to Activate the Imbedded Veca Code Sequence.
- In **Optical-Pineal Induction**, the Veca Program looses a bit a **frequency charge/ strength** during is travel in the Central Vertical Current. This creates a **more temporary imbedding and activation** of the Veca Codes than that which is achieved through Direct Induction. Optical-Pineal Induction is useful for **daily amplification** of the Vecas, and for Kathara Healing Client Sessions and planetary grid "site work", when used in **combination** with the **full Induction procedure** employed at least **once per week.**
- To receive **full benefit** of **Veca Code Radial Body Healing** applications, **Technique-2** ***The Kee-Ra-ShA Activation Sequence*** should be fully run at least **ONE TIME**. *Technique-2* can also be used occasionally thereafter if desired to create **intensification and amplification** of the Primal Life Force Currents during Kathara, Merkabic and Veca Code Healing technologies.
- Frequent use of **Technique-13: The "Song of Lyra"** Christos Invocation will amplify all Kathara, Merkabic and Veca Code Radial Body Healing applications.

Restoring the Trion Field-Photo-Radionic Healing

Regular use of this technique will strengthen and improve RRT Planetary healing Applications (excerpt from Kathara Level-2)

Creating a Personal Bio-field Link to the Universal Christos-Trion-Meajhe Field

Masters Merkaba Mechanics

© 2001 Ashayana and Azurtanya Deane

Exercise-1: **Once per day**, do **Maharic Insta-Seal** then practice **each set of Veca tones** separately while fixating **visual focus** on corresponding **Veca-Code** symbol, spend at least **three or four minutes** gazing at each symbol (optical-pineal induction) while **toning** corresponding tones (core template vibrational induction) With practice this will progressively expand the personal consciousness while activating the personal Christos-Trion-Meajhe Field of your Christos-Rishiac-Ascended Master identity levels within the cellular structure.

Exercise-2: Once per week, directly after completing **Exercise-1**, place all Veca-Code symbols over designated body areas, activate Maharic Shield, breathe D-12 Maharata Current through each symbol and body area to **induce code** using the Bi-Tri-Khu-Dha-Ra Sequence then begin **toning** the corresponding tones following the Bi-Tri-Khu-Dha-Ra Sequence Memorize the tone sequence of the 5 High-Veca Codes as if it were a "**song**" and relax, close eyes and sing/tone this "song" (Psonn) for **5 to 10 minutes** The longer you tone the more frequency power you build within the body and the stronger your link will be to the Universal Christos-Trion-Meajhe Field. This exercise can also be used with groups, either singularly to create and amplify Christos-Trion-Meajhe Field links or just prior to beginning RRT work. Frequent and consistent use of these two exercises will progressively develop the spin-rate capacity of the personal Christos Merkaba Field, while expanding higer consciousness within the body and progressively enhancing the health, immunity and integrity of the Mind-Body-Spirit system

Technique # 11

Restoring the Meajne Field-Photo-Sonic Healing

1. Use **Technique-6:** ***The Maharic Quick Seal*** to activate your Maharic Shield, Seal and Maharata Current.

2. **Stare at image** of the **Eckasha Code** for a few seconds, then gently begin to "**Cross Eyes**" until you can see a "**Double Image**" of the *Eckasha* when looking at the image **Hold " Eye Cross"** focus while taking **three rapid breaths**, on each **EXHALE** projecting a **stream** of (D-6) **INDIGO current** from your **6th "3rd Eye" Chakra at** forehead. (This braids D-6 Optical Currents into a D-12 Current to carry the Eckasha program into the Pineal Seals.). Un-cross eyes, relax visual focus and close eyes for a moment or two.

3. **INHALE** several breaths of **Pale Silver D-12 Maharata Current** up from the **Earth Core** through your **Maharic Cord**, on each **EXHALE** depositing the Maharata Current in the **Pineal Gland** at the center of the brain, to form a Pale Silver **"Maharata Ball"** in the Pineal.

4. Breathe gently and **return visual focus to the image of the Eckasha, focusing** upon the **Eckasha Core *REUCHE'*** (the "Double Circles and their content at center of Eckasha)

5. **EXHALE** while projecting a **stream of INDIGO current** from the **6th Chakra** at forehead, into the **REUCHE** symbol before your eyes. **INHALE** while drawing the **INDIGO current stream** with the **REUCHE image at its end** back through the **6th Chakra** and into the **Maharata Ball in the Pineal.**

6. **INHALE** one more breath of **Maharata Current** up from **Earth Core** to the **Maharata Ball** at the Pineal, then use a forceful EXHALE to PUSH Eckasha-Reuche encoded Maharata Ball out to the right, to the "Mentor" position over the right shoulder. Visualize the Maharata Ball growing to the size of a "Basket Ball" over the right shoulder, and visualize the image of the Reuche as expanding to fill the inside of the Maharata Ball.

7. **INHALE forcefully** while drawing the **Maharata Ball** back to a position **centered around your head**, then use **three breaths** to **INHALE Maharata Current** up from **Earth's Core to Pineal** and **EXHALE** the **Maharata Current outward** to fill **and expand the Maharata Ball.**

8. Visualize the **Maharata Ball** expanding outward from around your head, until the Maharata Ball **fully encompasses your body and entire Chakra System**, from **Chakra-14** 36" above head to **Chakra-13** in Earth Core. Imagine that your entire body is now surrounded by a 3-dimensional "Eckasha Tear-Drop" shaped CLEAR CRYSTAL CAPSULE. The Eckasha Code Photo-Sonic Capsule is now temporarily activated in your Inner Temp ar system.

INTRODUCTION TO KATHARA BIO-REGENESIS TECHNOLOGIES

COLOR, SYMBOL, SOUND AND BIO-REGENESIS TECHNOLOGIES

BIO-REGENESIS TECHNOLOGIES are tools to assist us in accelerating our expansion of consciousness through natural, gentle stimulation of the personal **DNA TEMPLATE, KUNDALINI ENERGIES, CHAKRAS AND MERKABA VEHICLE.** Bio-Regenesis techniques are built upon the foundations of **KEYLONTIC MORPHOGENETIC SCIENCE** and advanced **SCALAR MECHANICS,** as understood by races of higher evolution; these are paradigms of science not yet recognized or validated by contemporary earth science paradigms. Because Bio-Regenesis technologies are based upon what is viewed by modern earth science paradigms as a speculative rather than verifiable science, I present Bio-Regenesis techniques only as an option to explore in meditation.

Bio-Regenesis technologies were taught as "Common Knowledge" within the Ascension Schools of Pre-Ancient advanced human cultures and were utilized as standard practice in pre-ancient time periods. Bio-Regenesis Technologies are built upon the natural laws of scalar wave mechanics. Bio-Regenesis Techniques are **SPECIFIC APPLICATIONS OF CONSCIOUS ENERGY DIRECTION WITHIN THE MANIFESTATION TEMPLATE OF THE BODY** that stimulate into activity dormant portions of the personal Manifestation Template, which allows for a natural, progressive and accelerated advancement of the personal **ORGANIC EVOLUTIONARY BLUEPRINT** of the 12th-Dimensional Omni-polar Pre-matter Template. Bio-Regenesis Techniques simultaneously create subtle, natural acceleration within the interwoven energy systems of the DNA Template, Chakra System, Merkaba Fields, Kundalini energies, higher dimensional consciousness, and "Subtle Energy Body" anatomy.

In the Bio-Regenesis paradigm it is said that such techniques allow an individual to affect the function of the scalar wave template of the body, working co-creatively under the direction of the **individual's own higher dimensional levels of consciousness.** As the higher dimensional levels of the personal identity, the spiritual identity of the Soul, governs the processes of the personal Manifestation Template, Bio-Regenesis Technologies are completely safe and natural to the organic design of the human being. Using processes of Bio-Regenesis from the earthly conscious perspective expedites the natural processes of energy and consciousness by which the higher identity and earthly identity integrate to become one. In advanced ancient human cultures, Bio-Regenesis Technologies represented a natural attribute of consciousness expansion into the realms of higher evolution and assisted to biologically prepare humans for STAR GATE passage or "ASCENSION".

If we can understand that the **HUMAN MIND** is an energy force that **CONTINUALLY GENERATES PATTERNS OF SCALAR WAVES** through the process of **THOUGHT,** it is not difficult to understand how **APPROPRIATELY DIRECTED THOUGHT** can directly influence the function of the personal Manifestation Template scalar blueprint. All thoughts serve this purpose, and directly effect the observable state of the mind-body-spirit system and the manifestation of events within the external life drama. **THOUGHTS ARE THINGS- *SCALAR WAVE CONFIGURATIONS*** of multi-dimensional vibrating patterns of **BI-POLAR ELECTROMAGNETIC ENERGY RADIATION,** which form **SPECIFIC PATTERNS OF SCALAR FREQUENCY** within the personal Manifestation Template.

Undirected thought creates chaotic patterns within the Manifestation Template, while thought directed through clear intention creates ordered patterns within the Manifestation Template. Thought directed with clear intention and **KNOWLEDGE OF THE STRUCTURE OF SUBTLE-BODY ANATOMY,** is a very potent form of **SCALAR POWER.** The patterns of scalar energy frequency that thought projects into the personal Manifestation Template serve as **ELECTROMAGNETIC OPERATIONAL INSTRUCTIONS** within the Template, directly effecting the

conditions that will be met in manifest experience. To develop skill in the manifestation process, the conscious "intending" mind must become more familiar with the **"LANGUAGE OF SCALAR WAVES"**, as this is the **"LANGUAGE OF LIGHT AND SOUND"** upon which the Manifestation Template operates. The "language of scalar waves" is "spoken" through the forms of specific wave spectra, forms that appear to the conscious 3-dimensional mind as frequencies of **SOUND**, spectra of **LIGHT** or **COLOR**, and shapes or **SYMBOLS**.

What we perceive as color is specific spectra of **LIGHT-RADIATION WAVES** that have a specific measurable **WAVELENGTH** and vibrational **ENERGY SIGNATURE**. In using the conscious mind to direct quantities of color, we are **CONSCIOUSLY SELECTING SPECIFIC SCALAR FREQUENCIES** to add to the Manifestation Template. When we use the conscious mind to create images of **SYMBOLS**, we are further **SPECIFYING THE ARRANGEMENT OF SPECIFIC FREQUENCIES**, as they will appear within the Manifestation Template. **SYMBOL FORMS** (even those that compose the alphabets of outer languages) represent **SCALAR-WAVE GUIDES**, and directly affect the contours of the scalar wave blueprint of the Manifestation Template. The Manifestation Template governs the function of the body and consciousness within the manifest experience, and so the **"Language of Scalar Waves"** is the medium through which we gain conscious access to the **CASUAL LEVEL OF MANIFESTATION**. In using **color** and **symbol** to direct frequency, we are creating a pattern of energy that has a specific vibrational signature or **"TONAL SOUND SIGNATURE"**, which directly interfaces with the energetic vibrational sound signature of the Manifestation Template's scalar grid.

In Bio-Regenesis technology, Color and Symbol are used to direct the **TONAL SCALAR ARRANGEMENTS** of the Manifestation Template, to create natural, desired results within the body-mind-spirit system. There are many complexities within the process of conscious manifestation that one must learn to fully master the contours of space, time and matter. The beginning step is learning to give more finely tuned thought intention **"PROGRAMMING INSTRUCTIONS"** to the personal Manifestation Template. Thoughts and images rendered in **external language** and 3-dimensionally associated symbols affect the **outer layers** of the Manifestation Template, but they do not provided as finely tuned manifestation instructions as do the **"scalar wave languages"** of Color and Symbol image, which direct the contours of vibrational patterns of SOUND. Mastery within the interdimensional spectrum progressively develops as one masters the core **"PROGRAMMING LANGUAGES"** of **Color, Symbol** and **Sound Vibration**.

In **MIND TECHNOLOGIES**, such as **CREATIVE VISUALIZATION** and **VERBAL AFFIRMATION**, beginning skill in **SCALAR TEMPLATE PROGRAMMING** is developed through using emotionally charged images and precise sound patterns in the language to which we are accustomed, as methods to begin gaining conscious control over the processes of personal manifestation. Keylontic Science **BIO-REGENESIS TECHNOLOGIES** take us **ONE STEP DEEPER** into the manifestation process, by directly employing the **LANGUAGE OF SCALAR WAVES** and directing the **ENCODED INSTRUCTIONS** through **PRECISE LOCATIONS** within the body-mind-spirit system and the Manifestation Template upon which this system is built. Bio-Regenesis technologies take us from speaking the language of the 3-dimensional mind into speaking the intrinsic scalar-wave language of the Spirit, which is the **CASUAL ELEMENT** behind and within all manifestation.

Bio-Regenesis Technologies represent applications of Scalar Mechanics that utilize the inherent power of **SUBTLE WAVE FORMS** to created desired change within the core Manifestation Template of the body. Within this process, **COLOR** and **SYMBOL** become the **TOOLS** through which the 3-dimensionallyconscious mind becomes empowered to participate in conscious co-creation with the Soul and higher dimensional spiritual portions of identity. **Color** and **Symbol**

possess power as MATHEMATICALLY ENCODED directors of scalar frequency; the ultimate effect of this directed power is the ability to affect the scalar arrangements of the Manifestation Template. Intrinsically, scalar waves are specific points of vibrating bi-polar energy signatures. Vibration of energy units creates patterns of internal and external SOUND, within and beyond the range of 3-dimensional detection. The Manifestation Template can be conceptualized as an INTERWOVEN FABRIC OF SOUND FREQUENCY, the "Silent Symphony" of personal and universal being. The tools of Color and Symbol affect the scalar-wave arrangement of the Manifestation Template, and thus alter the vibrational patterns of SOUND TONES within the personal blueprint. COLOR AND SYMBOL are tools for the direction of SOUND, and intentional application of SPECIFIC SOUND TONES can also be used in conjunction with Color and Symbol, to further amplify one's power to interact with the Manifestation Template.

Along with the techniques of Color and Symbol direction, TONING, or the intentional generation of specific sounds to affect the Manifestation Template, is also utilized in Bio-Regenesis technologies and spiritual expansion programs. "Toning Therapies" have emerged in recent years through the New Age and Holistic Healing paradigms, and have been applied for thousands of years, within the practices of spiritual masters in every religious tradition. SPOKEN LANGUAGE itself is a form of TONING, with its accompanying SYMBOL ALPHABET, and like all Symbols and Sound Tones, our languages directly affect the personal Manifestation Template, and the level of consciousness that can manifest through the body. In ancient cultures, the powers of language were better understood than they presently are in contemporary mainstream society. Particularly within the Priest-casts of ancient religions, language was used more consciously, with an understanding that words, sounds and images would directly effect the consciousness of the masses. Prayers, rituals and songs, some of which remain in use today, were used as a means of *altering consciousness*. Some assisted in spiritual development, others were intentionally used to limit and control the consciousness of populations.

The contemporary earth science paradigm is only beginning to explore the power of sound vibration and the connection between sound, symbol and color is not yet recognized or understood. In advanced pre-ancient cultures, these sciences of Scalar Mechanics were fully understood and utilized in the most powerful of ways. Color-Symbol-Sound technologies were not only used in Bio-Regenesis applications for personal health and consciousness expansion; they were also used among GROUPS OF PEOPLE to directly interface with the scalar-wave Manifestation Template of the PLANTETARY SHIELDS. Vortices, Time Portals, Star Gates, Ley Lines and free energy systems generated through the planetary core and solar light emanations were all DIRECTED THROUGH THE FOCUSED MIND, utilizing knowledge of Color-Symbol-Sound Scalar Mechanics. Since the fall of ancient cultures, which came as a result of abusing the powers of these Scalar technologies, the Color-Symbol-Sound sequences once used to direct massive amounts of power became the "HIDDEN AND FORBIDDEN SACRED KNOWLEDGE".

The COLORS, SYMBOLS and SOUNDS used in Bio-Regenesis techniques are not simply random choices. The elements of Bio-Regenesis technique are drawn from a UNIVERSAL STANDARD LANGUAGE OF "SCALAR SPEAK", through which precise scalar frequencies are generated through specific Color-Symbol-Sound sequences to create very specific effects within Manifestation Templates. The Bio-Regenesis Techniques presently offered represent only the beginning of our reawakening to this vast body of Sacred Science knowledge. Many Bio-Regenesis techniques utilizing Color-Symbol sequence scalar mechanics are accompanied by a corresponding exercise in TONING. Within the mystical Ascension Schools of ancient and pre-ancient times, there existed a very SACRED SERIES OF TONING SEQUENCES that were used to directly interface with the DNA TEMPLATE and the AXIOM LINES in the PLANETARY

SHIELD. On a personal level, through this specific series of Toning, dormant strands in the DNA Template could be progressively brought into activation, to expedite the process of Spiritual Actualization, Holistic Healing and building of the PERSONAL MERKABA VEHICLE within the bio-energetic field. On the planetary level, these Sacred Toning Sequences were used to ENERGETICALLY OPEN the PLANETARY AXIOM LINES for CLEARING, REPROGRAMMING AND ACCELERATING THE ACTIVATION of the PLANETARY SHEILDS. This series of Sacred Toning was collectively called "THE MUSIC OF THE SPHERES".

THE SONGS OF THE SPHERES

The MUSIC OF THE SPHERES represents the ORGANIC TONAL SEQUENCES of EACH DIMENSIONAL FREQUENCY BAND within the 15-Dimensional Time Matrix; the CONSOLIDATED CORE VIBRATIONAL SOUND SIGNATURES of each Dimensional frequency band. Of the 15 core vibrational signatures of the 15 Dimensions in a Time Matrix, 12 of these core signatures serve as the PRIMARY 12 TONAL SEQUENCES upon which each strand of the 12-Strand original human DNA Template, and each AXIOM LINE in the 4-Density Planetary Shields are structured. In using the Tone Sequences of the Music of the Spheres, the 12-Strand DNA Template can be PROGRESSIVELY BROUGHT INTO NATURAL ACTIVATION. Scalar-wave distortions within the Templates for the DNA Strands (which physically manifest as genetic distortions) can be systematically REALIGNED with their natural perfect 12th Dimensional ORGANIC IMPRINT. In using the Music of the Spheres for work with the Planetary Shields, each of the 24 AXIOM LINES can be OPENED and ENCODED WITH THE PERFECT PATTERN OF THE PLANETARY PLASMA BEAM. Transmitting the 12th-Dimensional MAHARIC SHIELD pattern directly into the Axiom Lines in the Planetary Shields is the most rapid method to distribute the program of the PLANETARY ORGANIC IMPRINT throughout the 4 Density Levels of the PLANETARY SHIELDS.

In ancient days, the *Music of the Spheres* was used extensively for purposes of self-generated healing and to prepare the physical body for literal passage through the planetary Star Gates ("Ascension"). The specific tone sequences for each SINGULAR DIMENSION (which corresponded to one DNA Strand Template in the 12-Strand blueprint and the inherent Dimension of consciousness that would embody through activation of the strand) are called the "SONGS OF THE SPHERES". Each "SONG" contained very specific "word sounds" (from the first Universal Spoken language) for lyrics, and specific multi-layered tones (which generated audible Tri-tone Standing Waves) for melody, harmony and overtones. To be effective, the Songs had to be used through the HUMAN VOICE, externally or mentally as the "SINGING OF SONGS".

The Sacred Songs were sung in combination with directing specific corresponding COLOR and SYMBOL sequences through the bio-energetic field (or through the Planetary Axiom Lines for Planetary Shield work). The Songs served to "open" specific areas of the DNA Template, or specific Planetary Axiom Lines, to receive instructions directed by the Color and Symbol sequences. The tones of the Songs generated specific scalar-wave formations that triggered activation of corresponding configurations within the DNA Template and Planetary Shields. Activation of dormant portions of the DNA Strand Templates or Planetary Axiom Lines "opened" the Strand Template or Planetary Shield to directly receive Color-Symbol scalar wave instructions, through which desired outcomes within the personal or planetary body, and within the external reality experience, could be "PROGRAMMED" for manifestation.

The SCIENCE OF THE MUSIC OF THE SPHERES was one of the most highly guarded "SACRED SECRETS" in pre-ancient cultures, due to the power of interdimensional freedom and conscious manifestation that could be obtained through knowledgeable use of the SONGS.

Before the SONGS OF THE SPHERES will be fully returned to human awareness, our culture will have to mature enough to demonstrate spiritually motivated ethical use of power. Certain SONGS are now being slowly returned, so that we may assist those of higher evolution to realign Earth's Planetary Shield with its original 12th-Dimensional MAHARIC SHIELD ORGANIC IMPRINT. One of the 15 SONGS OF THE SPHERES was provided to us by the Emerald Order. This SONG is used to activate dormant scalar-waves in the 8th DNA STRAND TEMPLATE, through which the process of activating the dormant 1st-8th Strands of the 12-Strand DNA Template can be accelerated, expediting the natural processes of higher dimensional spiritual identity integration.

This SONG is also used to open the 8TH AXIOM LINE in GAIA'S PLANETARY SHIELD, to facilitate realignment of Earth's Planetary Shields from ETHERIC MATTER DENSITY-3. This SONG was given so that GROUPS can begin assisting directly in Planetary Grid work, opening specific Axiom Lines and Vortices in the planetary body to help bring Earth's Planetary Shield Manifestation Template into its organic alignment and balance. The SONG that was given is called the "Ariea Khum Nar'A". The English language translation is "THE SONG OF ORION". This SONG OF THE 8th SPHERE corresponds to the 8th-Dimensional level of the UNIVERSAL KATHARA GRID and its 8TH PRIMARY STAR GATE. It also corresponds to the 8th PLANETARY AXIOM LINE within the Etheric Matter Density-3 GAIAN PLANETARY SHIELD and to the 8th DNA STRAND TEMPLATE in the human body. The 8th Dimensional STAR GATE within the UNIVERSAL KATHARA GRID is the Star Gate that opens into the ORION STAR SYSTEM, thus the name of the SONG OF THE 8th SPHERE is "THE SONG OF ORION".

Soon the SONGS that correspond to the 11th and 12th -Dimensional frequencies will be provided. Aside from its use in planetary grid work, when used as a "MANTRA", repeatedly sung as a focus for the mind in meditation, the *Ariea Khum Nar'A* serves to stimulate consciousness expansion into the higher dimensional fields and amplifies and expedites the effects of personal Bio-Regenesis techniques.

THE STRUCTURE OF THE UNIFIED FIELD AND THE CONTEXT OF HEALING

If one is to become fluent in the art and science of **Bio-Spiritual Healing Facilitation**, it is necessary to become familiar with the *primary structures of energy* within which existence takes place. Without this understanding one will be unable to identify the *true nature of systems and their intrinsic functions*. If we do not understand the **intrinsic order of a system** and the elements that make up its parts, our ability to comprehend the *organic functions* of the system will be limited. Without comprehension of the intrinsic dynamics inherent to a system, our perceptions will be limited to observing the **effects of systems function**, rather than perceiving the **causal elements** behind and within the apparent observable effects. In relation to the **health and healing** of the human body, it is wise to view the human **Body-Mind-Spirit organism** as a series of interwoven systems, each with *inherent, implicit order*, the perceivable and observable aspects of which represent the effects of systems function. **The observable effects of the human condition emerge from an as yet unidentified causal order, a hidden and mysterious source out of which the manifest effects of human existence emerge.** Holistic Healing approaches human health and healing in terms of the *interdependent relationships* between *multiple interwoven systems*. The Body-Mind-Spirit organism is viewed in terms of the *intrinsic relationships that unite* the multiple systems of the human being, rather than in terms of the *observable boundaries* that appear to *separate and divide* the multiple systems inherent to the human organism.

Holistic Healing, and **KATHARA Healing** particularly, take the concept of **intrinsic unity** within the seemingly separate systems of the human being one step further than *simple interrelationship* between **physical, mental and spiritual aspects** of human experience. **In the paradigm of Kathara Healing, the human organism is viewed as a set of interwoven systems that is itself part of a larger system of interdependent systems.** The human individual is not only recognized as a *singular set of unified parts*, but rather as an *intrinsic part* of the species, planetary, galactic, universal and cosmic systems within which human existence finds **context** for being. The **Cosmic Unified Field of Energy and Consciousness** is viewed as the **indelible medium** within which all reality takes place, and human existence is viewed in terms of *its relationship to this greater Meta-system* of interwoven, interdependent systems. **The health and wellbeing of the human being is directly related to and effected by the systems-functions of the greater Unified Field.** In order to better understand and facilitate the health and healing of biological organisms, it is useful to understand the *basic order and function* of the **UNIFIED FIELD**- the context in which life itself takes place.

Kathara Healing is an ancient system of **Holistic Healing**, dating back beyond presently identified recorded human history. The principles of **Universal Order** as taught within Kathara Theory present a **broader context of universality** than is presently recognized by contemporary western science. Kathara is built upon **Laws of Multidimensional Universal Physics,** laws of intrinsic nature with which western science is not yet familiar. In Kathara Healing the *hidden order of universal systems* Is recognized and the foundations of Kathara *demonstrate the interwoven systems-functions* between the human being and the order of the **Unified Field. To develop proficiency and genuine skill within the art and science of Holistic Healing, the basic order of the Unified Field must be understood.** For with this understanding comes the ability to *directly interact with and influence the causal elements* of the human experience. For this reason the teachings of Kathara Healing begin with providing a basic format through which the **CONTEXT of healing** can be understood ***– a glimpse at the intrinsic order of the Universal Unified Field.***

With foundations grounded in **coherent systems relationships**, the Kathara Healing Facilitator has more knowledge, power and comprehension to bring to the art and science of healing facilitation. **Through comprehension of the *intrinsic systems of universal order*, the Kathara Facilitator progressively evolves to embrace the *unity of SELF within the Unified Field*, opening to an ever-expanding capacity of spiritual awakening and the embodiment of UNCONDITIONAL LOVE.** The physical, mental and spiritual aspects of human anatomy represent one interdependent, interwoven system that is *continually in a state of relationship to the Unified Field.* This relationship must be acknowledged and embraced if true health and healing are to occur. **Human evolution is a Bio-Spiritual process, the body and the consciousness – the biology and the spirit - are inseparably intertwined within themselves and within the greater order of the Unified Field.**

Healing emerges through restoring order to the ONE-SYSTEM and its infinite parts.

THE HOLOGRAPHIC TEMPLATE

The externalization of life, manifestation of matter and individuation of identity are **HOLOGRAPHIC PROJECTIONS of CONSCIOUSNESS-ENERGY SUBSTANCE,** created through an *intrinsic order of energetic relationships.* Energetic relationships represent **interrelationships of consciousness,** in its infinite manifest and de-manifest forms.

Consciousness *IS ENERGY*
And
Energy *IS CONSCIOUS.*

True Science has a *spiritual core* and true spirituality has *its intrinsic translation within the Laws of Energy that govern the manifestation of universal systems.*

Reality is THOUGHT CONSTRUCTION. The core substance of the cosmos is CONSCIOUSNESS. *Thought is an attribute of CONSCIOUSNESS,* the filter through which consciousness manifests itself into the **Hologram of Form.**

Nothing is truly solid. All things are composed of *consciousness* and their *apparent solidity* is determined by the *relationship between the consciousness observing the form and the consciousness of which the form is made.* Human consciousness emerges through an order of **dimensionalization,** which sets frameworks within which the *interrelationships of consciousness* can take place. **Human perception of solidity and externalization is determined by the oscillation rates between dimensionalized units of consciousness.** Dimensionalized units of consciousness form frequencies of energy, which exist in *specific relationships* to each other. Human *consciousness* (the soul –spirit), and human *physical form* are **patterns of frequency** formed by *dimensionalization of units of consciousness. We perceive manifest solidity due to the relationship between the frequencies of consciousness of which we are made and those of the Unified Field of Conscious Energy around us.* **Humans perceive as solid the frequency bands that exist one full dimensional spectrum below the frequencies within which the individuated or collective consciousness is stationed.**

The only difference between a *thought* and a *manifest thing* is the *frequency of the consciousness of the observer.* Manifest reality is thought projection, made solid and externalized by relationships between the *frequencies of our focus of attention* and those of the *projected thought forms.* **We perceive as reality the thought forms of the collective masses as they were placed within the frequency bands that now exist one dimension below the frequencies within which our present focus of collective consciousness is stationed.**

As reality is a THOUGHT FIELD, composed of units of consciousness awareness, reality can be directly AFFECTED by THOUGHT, as the substance of both thought and reality are one and the same. The key to mastery of our present reality and to restoring our imprint for health, is understanding the *reality of dimensionalization* within which our consciousness now resides.

The human body is a HOLOGRAPHIC PROJECTION of consciousness that is built upon a *HOLOGRAPHIC TEMPLATE* of structured units of consciousness. The Holographic Template represents the Living Morphogenetic Field – the *dimensionalized blueprint of conscious light, sound and scalar waves*, within which the individuated consciousness is stationed, and *upon which the illusion of solidity of the body matter is formed*. To affect *true and lasting change* within the Body-Mind-Spirit System of the human being, one must go to *the core* of its manifest structure – the *Holographic Template* or Thought-energy Blueprint, upon which the entire system of consciousness itself comes to know being.

The body is a HOLOGRAM that can be directly affected by the *substance of which it is composed* – CONSCIOUSNESS. In learning the structure of dimensionalization through which the body-illusion manifests, one becomes progressively more masterful in directing this personal thought form to suit ones desired specifications. The core Holographic Template of the personal and universal body is called the Kathara Grid. Kathara Healing is the process by which the *embodied* aspects of human consciousness become more aware of and able to direct the *intrinsic processes of holographic projection*, with the intention of restoring integrity to the function of the Body-Mind-Spirit system.

***No thing is truly manifest*– it only appears to be so,**
due to the refraction of consciousness
within the energetic relationships inherent to
the *Holographic Template*–
the original *thought-form construct*
upon which our universal structure
is perpetually recreated.

All creatures and things are Spiritual Beings having a Manifest Experience...No creature or thing can be ever divorced from its innate spirituality, but only from the awareness of its nature. For life is the expression and substance of spirit- and manifest reality is but a Dreamscape, from which we eventually all awaken...

PHASE of Ante-matter energy, with lower Vibration and higher Oscillation, and are considered **BASE ELECTRICAL**.

- **ELECTROMAGNETIC ENERGY** is created through the continual cycling of energy, as the Omni-polar Ante-matter Tri-tone Wave of *Sound Vibration* projects its energy into Bi-polar Particum and Partika Scalar Waves of *Light Radiation*. Energy thrust expands into the Anti-particle Partika vibration point as **electrical force**. It then contracts into the particle Particum vibration point, creating **magnetic pull**, (in ratio to its original electrical thrust), as the third vibration in the Ante-matter Tri-tone Wave draws the energy back to its source. Through the draw of the Ante-matter Partiki template, Partika-Ante-particles and Particum-particles are brought into a state of **Fusion**. Upon fusion, the energy of the Particum and Partika transmutes, the Bi-polar Standing Scalar Waves of Light Radiation returning to their original Omni-polar Ante-matter state of Partiki units. Once returned to the Partiki state, the process repeats as the Partiki creates Fission and replication. **Partiki, Particum and Partika units represent PHASES that Primal Substance energy passes through as it moves into and out of manifestation.**

- The process by which Partiki units perpetually convert conscious energy into Bi-polar Light Radiation Scalar-Waves (expansion) and back into Omni-polar Sound Vibration Tri-tone Waves (contraction) is called **PARTIKI PHASING**. Through perpetual cycles of Partiki Phasing, matter units "flash on" through fission, into Bi-polar Particle and Anti-particle manifestation built upon Scalar Waves of Light Radiation, then "flash off" through **fusion**, into Omni-polar Ante-matter Sound Vibration, continually cycling energy between the manifest and non-manifest state. **The perception of external physical matter, space and the passage of time are created through *variance in relationship* between rates of Partiki Phasing.**

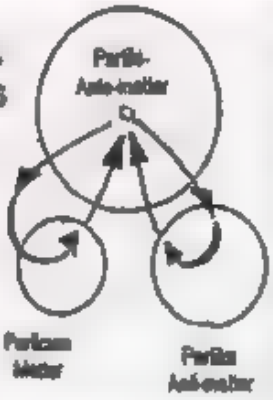
- Consciousness in the form of Partiki Units is the **PRIMAL SUBSTANCE** of which the cosmos is structured and Partiki Phasing is the perpetual **PRIMAL ACT** of reciprocal fission and fusion through which Primal Substance is brought into manifestation.

The Holographic Template

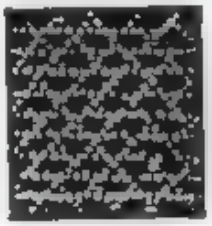
PRIMAL SUBSTANCE

Units of Consciousness, Morphogenetic Fields and Scalar Grids

1. ***Partiki, Partika and Particum:***
Smallest units of energy-substance. Electro-tonal units of consciousness that are the building blocks of morphogenetic fields, matter and individuated conscious identity. Operate as minute, perpetual motion fission/ fusion generators.

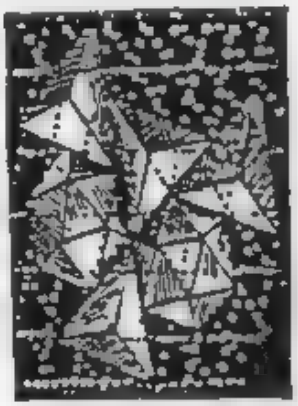


2. ***Partiki Grids:*** The fabric of morphogenetic field structure. Partiki units group to form interwoven Strands, then Grids of electro-tonal substance, out of which morphogenetic fields are fashioned. Out of a Unified Field of Partiki units, Partiki Grids form to create the frequency bands that make up dimensional fields and then to form individuated morphogenetic fields .



3. Partiki units continue to group or accrete upon the Partiki Grids, forming
A. ***Keylons*** – crystallizations of "frozen light" (standing scalar wave patterns and fixed points of tonal frequency), and
B. ***Keylon Codes*** – complex groupings of Keylons, which together form a crystalline template of light spectra, sound frequency and electro-magnetism that is the morphogenetic field Crystal Body– the Blueprint upon which matter and identity will manifest.

B.



A.

The **Morphogenetic Field** is made of interwoven **Partiki Grids.** The electro-tonal units of consciousness out of which Partiki Grids form create standing wave patterns – **scalar wave grids,** which hold the form of consciousness within dimensionalized manifestation. Morphogenetic Fields are thus **Scalar Grids,** that form in specific ordered interrelationship. Partiki Grids form upon the core *geometrical-mathematical* structure of the **Kathara Grid,** and so the Kathara Grid represents the core *Scalar Field* upon which form manifests.

Morphogenetic Fields govern the form of matter manifestation and the evolution of biology and consciousness. Morphogenetic Field mechanics thus hold the key to mastery of physical reality and Bio-Spiritual Evolution.

THE STRUCTURE OF DIMENSIONS

Frequency Bands and Sub-Frequency Bands, Vibration-Oscillation-Particle Spin, Harmonics of Manifestation and Matter Density Levels.

The Hologram of manifest reality is a complex system of interwoven energy constructs, all built upon **dimensionalized sets of scalar grids**- or fields of standing wave points – that form the **base laws of energy** upon which manifest reality functions.

The physical portions of the human body represent ***wave strata*** that exist within specific relationships to the embodied consciousness. **The embodied consciousness itself is *regulated by the intrinsic behavior of the wave strata* in which it is ensconced.** The wave strata of seemingly physical forms appear to *human detection* in the form of *particles, sub-particles and wave bands* that group to form the 3-dimensionally manifest hologram of human life

The **behavior of dimensionalized wave strata** is an intrinsic element within the function of ***human anatomy***, and provides the *very context* within which human existence and evolution take place. When we come to understand ourselves as **vibrating quantities of conscious energy**, existing within a state of **vibrational co-resonance with all things**, which are themselves *vibrating quantities of conscious energy*, we can begin to understand the **fundamental structures** upon which the human condition is built.

*The human body is a **construct of conscious energy**, a living* morphogenetic field existing within the greater living morphogenetic constructs of the species, planetary, galactic, universal and cosmic morphogenetic structure. We are simply an element of sentient consciousness within a larger structure of sentient consciousness, a part of the **Unified Field of Consciousness** that IS the living identity of the cosmos. Our physicality emerges through the **perceptual lens of dimensionalization**, which provides us with the seeming manifestation of **particles, atoms, molecules** and the **physical systems** built upon them.

If we expect to **heal ourselves** of the manifest conditions that cause suffering within the Body-Mind-Spirit system, we must first understand the **nature of health**, the "way things are supposed to work" when they are *functioning properly*. To understand the intrinsic **imprint and impetus for health** in the human organism, a basic understanding of the *contents of its parts* is in order. That understanding begins with *identifying the basic reality structures within which we reside, and how we exist in relationship to these structures.*

Our understanding of *health* begins with *identifying the context of existence*, the *Unified Field of Consciousness-Energy* of which we are all a part. **A simple *identification of the structures of the Unified Field* will work wonders in assisting us to understand ourselves, and through this understanding we become more empowered to foster a healthful and more joyous living experience.** To better understand ourselves we must return to the core of our intrinsic nature, the **dimensionalized fields of consciousness** within which we reside and out of which the substance of our SELVES is composed.

The following characteristics inherent to the manifestation of the human hologram are a place to begin our journey of self-understanding.

Characteristics of the Hologram

PRIMAL ORDER

SCALAR WAVES: Points of standing waves, composed of quantities of conscious energy that emanate out of fixed units of vibration (Partiki units), which form the morphogenetic field templates upon and through which consciousness dimensionalizes itself to experience the hologram of manifest reality. Created through Partiki Phasing (internal fission/fusion "flash on/flash off")

MORPHOGENETIC FIELDS: The templates of consciousness, light, sound and scalar standing-wave grids which serve as the structured blueprints upon which our consciousness manifests into dimensionalization, through which the holographic projections of space-time-matter and identity individuation can be experienced.

DIMENSIONS: *Morphogenetic Field Scalar Grids composed of interwoven layers of scalar waves, which serve to direct the flow of consciousness into multiple patterns of refraction through which the hologram of matter density, linear time and objectification of reality can be experienced.* Dimensions are specific structures of consciousness, composed of Partiki units with differing vibratory-oscillation rates, which exist in precise relationship to each other, and govern the intrinsic laws of function within the observably manifest worlds. The process of dimensionalization occurs through the wholeness of consciousness *compartmentalizing itself into various ordered sections having diversity of vibratory-oscillation*, through which the wholeness of consciousness may experience itself in an endless variety of forms. Each dimension represents a full frequency band.

FREQUENCY BANDS: Synchronized, cyclic, repeated sequences of "flashing on and off" of scalar-wave points within the dimensional scalar grids, which gives the appearance of manifest movement of wave spectra within a dimensional system. **Sub-frequency Bands** are shorter segments of the longer "flashing on and off" sequence of the full Frequency Band. The frequency of dimensional levels and the particles within them is determined by the vibratory-oscillation rate of the Partiki units that make up the scalar-wave grid. Frequency is the form consciousness takes on while ensconced within the framework of dimensionalization. Frequency is the vibrating-oscillating wave spectra of which matter particles and dimensionalized consciousness are composed.

VIBRATION-OSCILLATION: Vibration is the condition of **internal movement**, or ***holding of energy within*** units of consciousness (Partiki) and the particles built upon them. Vibration is determined by the **quantity of energy *held within*** Partiki units. **Oscillation** is the condition of **external movement**, or ***expending of energy from*** Partiki units and the particles built upon them.

The vibratory-oscillation rate of particles represents the *rate at which the scalar standing-waves "flash off and on"* within the morphogenetic field template. Vibration is the *internal measure of energy quantity* held *within* Partiki units and exists within direct proportion to the *oscillation* rate, or *external measure of energy quantity expended*, exhibited by Partiki and the particles built upon them.

The vibratory-oscillation rate represents the ratio between energy contraction (vibration) and energy expansion (oscillation), which sets the rhythm of particle pulsation that governs the formation of wave spectra within dimensionalization. The vibratory-oscillation rate of Partiki units determines the **frequency** (cyclic pattern of scalar waves "flashing off and on") of wave spectra within the various levels of the dimensionalized morphogenetic field. **The relationship of vibrational-oscillation between wave spectra determines the matter density levels particles will exhibit within the dimensional scale.**

The human anatomy is a 15-dimensional morphogenetic field scalar grid structure, composed of wave spectra with varying degrees of matter density characteristic to the dimensional band within which each level of the anatomy is stationed. The portions of our anatomy that appear solid are those stationed one dimension below our focus of conscious attention.

PRIMAL ORDER OF MANIFESTATION TEMPLATES

- Morphogenetic Fields, or the **MANIFESTATION TEMPLATES** that serve as the blueprint through which consciousness manifests, are composed of the Primal Substance of **PARTIKI UNITS.** Partiki units draw together or **ACCRETE** to form **PARTIKI STRINGS.** Following a set **mathematical and geometrical design** inherent to their form, Partiki Strings interweave and overlap, forming a **"Fabric of Light and Sound"** called a **PARTIKI GRID.** A Partiki Grid is a fixed pattern of interwoven Bi-polar Scalar-Waves of light radiation,built upon Omni-polar Tri-tone Waves of sound vibration,that forms the foundation for diversified Manifestation Templates. A **Partiki Grid is a SCALAR GRID.**

- Following the precise mathematical design set by the will and intention of the manifesting consciousness, Partiki Grids further accrete, drawing in more Partiki Units, forming groups of Partiki units that are arranged following *3 different rhythms of Partiki Phasing.* **Tri-phase groupings of Partiki Units** form patterns of Scalar-wave and Tri-tone wave interrelationships that create ***crystallizations of energy*** called **KEYLONS.** Groups of Keylons continue to accrete, forming complex Keylon arrangements called **KEYLON CODES,** through which the Manifestation Template is progressively built up from Ante-matter through various stages of matter density, beginning with **PRE-MATTER SUBSTANCE,** the first density of **Liquid Silica Hydro-plasmic** energy to emerge into externalized form.

- The Morphogenetic Fields upon which universes manifest are built upon a Manifestation Template that has a specific order of mathematical interrelationships that govern the combining of Scalar Grids with different rates of ***Partiki Phasing.*** The **Cosmic Manifestation Template** is called the **ENERGY MATRIX.** Within the Energy Matrix there are many smaller manifestation templates upon which Universes are structured. **Universal Manifestation Templates** are called **TIME MATRICES.** There are uncountable Time Matrices within the Energy Matrix, which are collectively referred to as **THE TIME MATRIX.** All Time Matrices within the Cosmic Matrix follow a specific mathematical-geometrical program through which space, time and matter can be experienced by consciousness upon entering the Time Matrix structure.

- Time Matrices are arranged upon a pattern of 15 different, but interwoven, Partiki Phasing rhythms (rhythms of expansion and contraction of energy). Each of the 15 rhythms of Partiki Phasing creates one **DIMENSION.** A **Dimension** is a set pattern of **"FLASH LINE SEQUENCES"**, or a cycle of singular Partiki Phasing rhythms that contains within it 12 smaller rhythms of Partiki Phasing. Each **Dimensional Manifestation Template** creates a set of fixed Scalar-Tri-Tone Wave Points that create a template of stationary **SCALAR FREQUENCY.** Each Dimension represents one **SCALAR FREQUENCY BAND** containing 12 smaller **SUB-FREQUENCY BANDS.** A **Scalar Frequency Band** is a cyclic pattern of specific Partiki Phasing Rhythms, or **EXPANSION AND CONTRACTION RATIOS OF ENERGY CIRCULATION,** to which consciousness conforms in order to enter the experience of manifestation.

- To create the Universal Manifestation Template upon which external space, time and matter experience can be known, Dimensions are ordered into sets of 15, forming the blueprint for a

15-Dimensional Time Matrix. Within a Time Matrix the 15-Dimensions are further arranged into sets of 3 Dimensions, forming **5 3-Dimensional reality fields.** Each 3-Dimensional Reality Field is called a **HARMONIC UNIVERSE,** and each represents a **level of matter densification** specific to its intrinsic rates of Partiki Phasing. One Time Matrix is thus a **15-Dimensional Scalar Grid** with 5 separate yet interwoven reality fields and 5 different densities of matter manifestation.

- Each of the 5 Harmonic Universes within a Time Matrix represents a **TIME CYCLE.** A Time Cycle is a fixed, repeating pattern of Partiki Flash Line Sequences, or a repeating cycle of specific ratios of energy expansion-oscillation and contraction-vibration. The Time Cycle of a Harmonic Universe is called an **EUIAGO CYCLE.** There are **5 simultaneously manifesting Euiago Cycles in every Time Matrix,** through which consciousness passes in order to experience linear evolution through space, time and matter. Each Euiago cycle contains within it 6 smaller Flash Line Sequences forming6 smaller cycles of time called **TIME CONTINUUA.**

The **PRIMAL ORDER of Manifestation Templates** represents the core mathematical and geometrical interrelationships of energy that consciousness takes on in order to enter the holographically projected experience of external space, time and matter. All manifest forms, including the **HUMAN BODY** and **PSYCHE** , are built upon a Manifestation Template that begins with the Primal Order of Dimensionalization, through which the consciousness anchors itself into the Time Cycles of the Universal Manifestation Template Time Matrix, to begin the experience of evolution through time.

Understanding the **PRIMAL ORDER OF DIMENSIONAL STRUCTURE,** as it pertains to the human organism, allows for comprehension of the greater causal framework through which personal healing must occur. Such comprehension of the core causal structure of manifestation enables one to work cooperatively, rather than in resistance to, the natural **Universal Laws of Manifestation,** progressively restoring the **NATURAL HARMONIC ORDER** of wellbeing and **DIVINE RIGHT FORM,** through which the indelible **Organic Imprint for Health** can be progressively restored.

Dimensional Structure

A Dimension represents a full ***Frequency Band***, or repeating, cyclic sequence of "flashing on and off" scalar-wave points within a morphogenetic field. The morphogenetic field scalar grid structure of dimensions takes the form of ***sets of 15-Dimensional Matrices***. The 15 Dimensions are grouped into sets ***of 3 Dimensions each***, forming ***5 sets of 3-dimensional reality fields*** called **HARMONIC UNIVERSES**. The 15-Dimensions composing the 5 Harmonic Universes together represent one TIME MATRIX system.

Each dimension of frequency is composed of **12 Sub-frequency Bands**, or shorter cycles of the "flashing on and off" of scalar-wave points, which exist as part of the longer cycle of the full Dimensional Frequency Band. The Partiki in each dimension have a specific rate of **vibratory-oscillation** (contraction and expansion of energy), which determines the **Angular Rotation of Particle Spin** (angular axis upon which particles will spin). There is a **90-degree shift of angular rotation** of particle spin between each dimensional frequency band and a **45-degree reverse shift** between **Harmonic Universes** (sets of 3 dimensions/frequency bands.)

Particles having varying vibratory-oscillation rates and angles of spin allow multiple dimensional reality fields to co-exist within the same space while remaining perceptually invisible to each other. The *relationships between wave strata* within the dimensional frequency bands create the **holographic refraction** of light, sound and scalar waves that allows consciousness to *perceive the illusions of* **matter solidity, space, time and externalization of reality** while it is ensconced within the structures of dimensionalization.

Frequency Bands and Sub-Frequency Bands within the 15-Dimensional Scale

Frequency Bands are cyclic, repeated sequences of *"flashing on and off"* of scalar standing-wave points that create the appearance of manifest wave spectra within a dimensional system. ***Sub-frequency Bands*** are shorter cycle segments of the longer *"flashing on and off"* sequence of the *full* Frequency Band. Frequency and Sub-frequency Bands make up the foundation wave strata of Dimensions.

Partiki Phasing – *Scalar Standing-Wave flashing*. The internal expansion/ fission/ "flashing on" and contraction/ fusion/ "flashing off" of scalar standing-wave points made of Partiki units. *Partiki Phasing* govems the mechanics of matter manifestation within the Dimensionalized Frequency Bands of the Time Matrix. Through Partiki Phasing HARMONICS of Manifestation and varying levels of matter density are created.

Each of the 5 Harmonic Universes, moving upward in the 15-Dimensional Scale, has a progressively less dense state of perceivable matter. As you go up the Dimensional Scale each Dimension has a progressively faster rate of Partiki Phasing with its corresponding higher frequency, faster oscillation, lower vibration, shorter wave length, greater expansion and less matter density. **These conditions represent the stages of perceivable matter density consciousness will experience as the focus of attention expands progressively upward/outward into the higher Dimensions of the Dimensional Scale through the process of evolution** (accretion of frequency from the Unified Field into the personal morphogenetic field).

As consciousness progressively expands back into the 15-Dimensional structure of its original morphogenetic field, matter density perception will change from perceivable Gross Matter physical density, to Semi-etheric Matter density, to Etheric Matter density, to Pre-matter Liquid Light density and to its original Ante-matter scalar wave form of non-density consciousness. **As the morphogenetic field expands through drawing in more frequencies of consciousness, the perceivable matter density of the body and external reality field progressively lessens.**

UNIVERSAL AND PLANETARY KATHARA

Kathara Level-1: 12-Tree, Kathara Level-2: Crystals, Kathara Level-3 Diodic Points, Kathara Centers and Kathara Lines.

The Kathara Grid is the *primary mathematical-geometrical organization of units of consciousness* upon which Partiki units group to form morphogenetic field scalar grids. It is the CORE level of scalar standing-wave creation and energetic organization within and behind all dimensionalized systems, and is thus considered to be the **Core of the Holographic Template** upon which the morphogenetic scalar wave blueprint and all other dimensions of form anatomy are built. The Kathara Grid is the causal element within all manifest affects of dimensionalization and consciousness.

The form of the Kathara Grid is reflected in the Macrocosm and Microcosm of all manifestation. All forms have at their core the *common structure of the Kathara Grid Holographic Template*. The Kathara Grids of all forms - universes, galaxies, planets and species - are linked to each other and to the Kathara Grid of the Cosmos through the interwoven Partiki scalar standing-wave grids of the *Kathara Grid Holographic Core*. **The *Cosmic Kathara Grid* represents the scalar field of the Cosmic Unified Field of Consciousness-Energy** through which the *Hologram of manifest experience* is perpetually created.

Energy cannot be created or destroyed, it only changes form. Energy IS *Eternal Consciousness* that perpetually changes form by projecting through the structures of the Kathara Grid, while simultaneously remaining *always the same* - the *singular wholeness* of the **Cosmic Unified Field of Consciousness-Energy**.

Structure of the Kathara Level-1 12-Tree Grid Core Scalar Template

12 PRIMARY KATHARA CENTERS:

Kathara Centers are condensed Scalar Wave points that hold the core electro-tonal geometrical-mathematical program for dimensionalized structure. There are 12 Kathara Centers, each holding the program for one Dimension. The program for Partiti Phasing and Vibration-Oscillation for each Dimensional Frequency Band is set in the corresponding Kathara Center. The Kathara Centers set the template for each Dimension, to ground consciousness within the Holographic experience of manifestation.

15 PRIMARY KATHARA LINES:

Kathara Lines are the primary sequences of Partiti Phasing that transmit the electro-tonal programs held within the Kathara Centers from one Dimension to another, to keep the continual flow of consciousness circulating throughout the 15-Dimensional levels of the Morphogenetic Field. When functioning properly, the Kathara Lines connect each Harmonic and Dimension of consciousness to the other and govern the synchronization of cycles of time within the Dimensional Fields and within the morphogenetic field, DNA and body rhythms of dimensionalized forms. The 3 Vertical Kathara Lines control the operation of the other 12 Kathara Lines. The Central Vertical Kathara Line is the control center for Partiti Phasing rhythms throughout the Kathara Line System.

There are 3 **Primary Levels** to the structure of the Kathara Grid. **Level-1: *The Kathara 12-Tree*, Level-2: *The Crystal Seals*** and **Level-3: *The Diodic Points*.**

Level-1:The 12-Tree holds the first mathematical-geometrical program upon which Kathara Grid Levels 2 and 3 are created, and is composed of the **Kathara Centers** and **Kathara Lines.**

Level-2: The Crystal Seals are groups of 3-Dimensional Partiki scalar wave composites that regulate the rate of *Partiki Phasing* to create the base structures upon which *dimensionalization* is formed. The flow of Frequency (sequences of scalar standing-wave flashing/ cycles of Partiki Phasing) between dimensional bands and Harmonic Universes, the fixed expansion and contraction rates of Partiki, the Vibration-Oscillation and the Angular Rotation of Particle spin are all regulated by the Crystal Seals.

Level-3: Diodic/Miodic Points represent **concentrated areas of energy** that emerge at points where *dimensionalized levels of scalar grids cross over and through each other*, creating **minute vortices** of wave spectra that serve as *frequency modulation zones* (scalar flash-cycle transition points) between Dimensional Frequency Bands. **Diodic Point** vortices are **White Hole** vortices that **transmit energy** into the *Particle Universe* from their counterpart **Miodic Point** vortices within the *Anti-particle Universe*. Through the structure of Dimensionalization, each Harmonic Universe, and the structures contained there within, have within their morphogenetic fields *sets of Diodic and Miodic Points* – sets of **White and Black Holes** – that regulate the flux of consciousness-energy between systems.

The entire cosmic structure is built upon the morphogenetic foundations of *Interwoven Kathara Grids*. Within the structures of forms, such as planets or people, the Kathara Grid is the *Core Template of Holographic Manifestation* and controls the structure and function of all of the other *subtle and physical energy systems.*

Planetary scalar templates - **Planetary Shields** - vortices, electro-magnetics, Axiom and Ley Lines are all governed by the operations of the *Kathara Grid.* In the **human body**, personal scalar templates - **Hova Bodies** -, Chakras, Axiom and Meridian Lines and Bio-energetic Field Auric Levels, as well as the physical systems, conscious awareness and DNA, are controlled by the *personal Kathara Grid.* **In terms of generating the *Imprint for Health* within the human organism, as well as *reclaiming dormant potentials of Immortality*, the Kathara Grid is the *causal mechanism* through which such affects can occur.**

KATHARA LEVEL-2 CRYSTAL SEALS GRID

Level-2: The Crystal Seals are groups of 3-Dimensional Partiki scalar wave composites that regulate the rate of *Partiki Phasing* to create the base structures upon which *dimensionalization* is formed. The flow of Frequency (sequences of scalar standing-wave flashing/ cycles of Partiki Phasing) between Dimensional Bands and Harmonic Universes, the fixed expansion and contraction rates of Partiki, the Vibration-Oscillation and the Angular Rotation of particle spin are all regulated by the Crystal Seals.

Planetary Star Crystal Seals

In the *Planetary Kathara Grid*, the **15 Primary Star Crystal Seals** exist *between* each planetary Vortex or Chakra, on the **Central Kathara Line** or **Central Planetary Axis**. The Star Crystal Seals serve as **"Frequency Seals"** that open or close the *flow of wave spectra* and *Frequency Bands* from one **Harmonic Universe** to another, by regulating and modulating the *sequences of Partiki Phasing and the Vibration-Oscillation rates of Partiki units* within the Dimensional Scale. They control the opening and closing of the *Central Vertical Kathara Line* and *Central Planetary Axis*, through which particles are *phase-locked* into their respective dimensional placements and linear time cycle orientations. Opening of the *Star Crystal Seals* releases the planetary particles and *Ley Lines* from their *dimensional phase-lock*, opening **Inter-harmonic Star Gates** (*wave spectra vortices*) within the Ley Lines, for *molecular transmutation and time continuum shift*, through blending the Inter-Harmonic wave spectra of the planetary morphogenetic field. **The Planetary Star Crystal Seals control the opening and closing of the 3 *Vertical* Kathara Lines (and Vertical *Star Gate passageways*) of the Level-1: 12-Tree Kathara Grid with in planetary body.**

Biological Star Crystal Seals

In the *human body* the **15 Primary Star Crystal Seals** exist *between* each Chakra on the **Central Kathara Line** or **Central Body Current**. The *biological Star Crystal Seals* serve as **"Frequency Seals"** that open or close the *flow of wave spectra and Frequency Bands* from one *Harmonic of consciousness* to another, by regulating and modulating the *sequences of Partiki Phasing and Vibration-Oscillation rates of Partiki units* within the Dimensionalized scalar wave grid of the morphogenetic field. They control the opening and closing of the *Central Vertical Kathara Line* and *Central Body Current*, through which particles are *phase-locked* into their respective dimensional placements and linear time cycle orientations. Opening of the *biological Star Crystal Seals* releases the *body particles* and **DNA** from their *dimensional phase-lock*, opening **Inter-Harmonic Star Gates** (*wave spectra vortices*) within the DNA, for **cellular transmutation** (via particle+anti-particle *fusion*) and time continuum shift, through blending the Inter-Harmonic wave spectra. **The Biological Star Crystal Seals control the opening and closing of the 3 *Vertical* Kathara Lines (and Vertical wave spectra vortices) of the Level-1: 12-Tree Kathara Grid within the biological form.**

Seed Crystal Seals

Along with the 15 Primary *Star Crystal Seals* that control the *Vertical* modulation of wave spectra, there are also **15 Secondary Crystal Seals** that control the **HORIZONTAL** Kathara Lines of the Level-1: 12-Tree Kathara Grid within the planetary and biological bodies. The *Horizontal Crystal Seals* are called **SEED SEALS**, they exist and serve as **"Frequency Seals"** *within* the planetary vortices and biological Chakras, modulating the wave spectra between Parallel (particle/ anti-particle) Dimensional Frequency Bands.

KATHARA GRID LEVEL-3 DIODIC POINTS

Level-3: Diodic/Miodic Points represent concentrated areas of energy that emerge at points where *dimensionalized levels of scalar grids cross over and through each other*, creating minute vortices of wave spectra that serve as *frequency modulation zones* (scalar flash-cycle transition points) between Dimensional Frequency Bands. **Diodic Point** vortices are **White Hole** vortices that transmit energy into the *Particle Universe* from their counterpart **Miodic Point** vortices within the *Anti-particle Universe*. Through the structure of Dimensionalization, each Harmonic Universe, and the structures contained there within, have within their morphogenetic fields *sets of Diodic and Miodic Points* – sets of **White and Black Holes** – that regulate the flux of consciousness-energy between systems.

Planetary Diodic Points

Within the **planetary body** and morphogenetic field, **Diodic Points** are located in **geographical locations** where Inter-dimensional and Inter-harmonic Horizontal and Vertical Kathara Lines *intersect* to form small **vortices** of inter-dimensional or inter-harmonic wave spectra that serve as passageways – **time portals**– between Dimensional Time Continua or Harmonic Time Cycles. They connect planetary and stellar bodies to their *anti-particle counterparts* and intersect with Vertical Inter-harmonic Star Gates and Horizontal Inter-dimensional Time Portals, through sets of Diodic-Miodic **White and Black Holes** at the center of planetary and stellar cores.

Biological Diodic Points

Within the **biological form** and morphogenetic field, Diodic Points are located in **physical body regions** where Inter-dimensional and Inter-harmonic Horizontal and Vertical Kathara Lines *intersect* to form small **vortices** of inter-dimensional or inter-harmonic wave spectra that serve as ***gateways of consciousness*** between Dimensional Time Continua or Harmonic Time Cycles. They connect physical bodies to their *anti-particle counterparts* and intersect with the Vertical and Horizontal *relationships of wave spectra within the DNA/ RNA and bio-energetic field*, through sets of **White and Black Holes** at the center of the biological Harmonic scalar grids.

Diagonal Grid Control

The *Kathara Grid Level-3: Diodic Points* control the **Diagonal Kathara Lines**, Diagonal *Inter-dimensional portals*, Diagonal *Planetary Ley Lines* and Diagonal relationships between inter-dimensional wave spectra within the biological DNA. **In *Kathara Healing*, the *Diodic Points* are used to open and close the *Diagonal Kathara Lines* for channeling higher dimensional frequency into the Level-1 Kathara Grid, to regenerate the Imprint for Health and to revitalize the Bio-energetic and physical systems.**

THE UNIVERSAL TEMPLAR COMPLEX

- The systems of interwoven Manifestation Templates within the 5 Matter Density Levels of the 15-Dimensional Universal Kathara Grid are collectively referred to as the **UNIVERSAL TEMPLAR COMPLEX.** The Manifestation Template of the human body, likewise structured upon this Primal Order, also manifests through a personal **INTERNAL TEMPLAR COMPLEX** of interwoven 15-Dimensional Manifestation Templates.

- Universal, Galactic and Planetary Scalar-wave Templates of the Universal Templar Complex are called **Scalar SHIELDS.** Shields are sets of 3-Dimensional Scalar Grids upon which the 5 Matter Density Levels of the Universal Manifestation Template manifest. A Shield is composed of the distinct 3 **Primary Flash Line Sequences**, or Partiki Phasing Rhythms, characteristic to the 3 dimensions of which the Shield is composed. The Internal Templar Complex of the human body is also organized into 5 sets of 3-Dimensional **Personal Scalar Shields**, through which the matter form and 5 Matter Density Levels of the 15-Dimensional human consciousness are projected into manifest experience.

- Through the intrinsic dynamics of synchronistic Partiki Phasing, each 3-Dimensional Scalar Shield manifests a **3-DIMENSIONAL SPHERICAL ELECTROMAGNETIC DOMAIN** that creates the energetic framework within which externalized manifest experience can take place. Within the Universal Templar Complex, these Spherical Domains form 5 separate yet interwoven Reality Fields or **Harmonic Universes**, each with a different level of Matter Density, rate of Vibrational Oscillation, different Angular Rotation of Particle Spin and variance in Time Cycle orientation. Within the Personal Internal Templar Complex, the Spherical Electromagnetic Domains created by synchronistic, dimensionalized Partiki Phasing form within the 15-Dimensional Time Matrix 5 separate yet interwoven **STATIONS OF CONSCIOUSNESS** called **HOVA BODIES.** The **5 Hova Bodies** of human Manifestation Template Anatomy within the Time Matrix represent the **5 Subtle Energy Bodies** of human bio-energetic field construction, through which human identity experiences series of **SIMULTANEOUS INCARNATIONS** within the various Time Cycles and matter density levels of the Time Matrix. **Human Evolution** is the process by which the electromagnetic frequencies and stations of consciousness of the 5 Hova Bodies progressively merge to transmute the physical matter form backward through the various Matter Density stages through a process called **TRANSMUTATIONAL DIMENSIONAL ASCENSION.**

  Each of the 5 Shields within a 15-Dimensional Manifestation Template is structured upon 3 **KATHARA CENTERS** within the core Primal Order of the Level-1 Kathara 12-Tree Grid. Each Kathara Center of the Universal Kathara Grid forms a core point of consolidated frequency called a **SIGNET Star Crystal Seal** within the 3-Dimensional scalar Shields. Within the universal, galactic and planetary Templar Complex the Signet Seals operate as **Star Gates** between the Time Cycles of the 5 Matter Density levels of the 15-Dimensional Time Matrix. Within the Personal Internal Templar Complex, each **Hova Body** is structured upon 3 **Kathara Centers** within the embodied Personal Kathara Grid. Each embodied Kathara Center forms a **Signet Star Crystal Seal** within the human anatomy. The embodied **Signet Seals** operate as **Bio-electric Windows** within the **DNA-RNA**, that link the Stations of Consciousness and various **Simultaneous Incarnations** of the identity that

exist within the Time Cycles of the Time Matrix to each other, across the illusions of time. Through the embodied Personal Kathara Grid, Scalar Shields, Signet Seals and DNA Windows, the individuated aspects of **ETERNAL IDENTITY** in time are indelibly linked in consciousness. This intrinsic linking of personal consciousness within the various simultaneous cycles of time appears to the embodied human awareness as **REINCARNATIONAL MEMORY.**

The embodied Manifestation Template of the human form is a microcosmic reflection of the Macrocosmic Universal and Cosmic Manifestation Templates. Both microcosmic and macrocosmic Manifestation Templates share, and are interwoven through, the same **Primal Structures** of the Kathara 12-Tree Scalar Grid, the 5 3-Dimensional Scalar Shields and Signet, Star and Seed Crystal Seals and the Diodic Point "Black and White Hole Sets" of energy vortices that manifest upon the Kathara Grid. Human consciousness and biology are directly and indelibly connected to the Universal Templar Complex through the **Personal Internal Templar Complex** of the Personal Manifestation Template.

HEALING AND PRIMAL FULFILLMENT

A rudimentary but operational understanding of the intrinsic structure of the embodied Personal Manifestation Template- (*the Level-1Personal Kathara 12-Tree Grid, Level-2 Scalar Shields, Hova Bodies and Signet, Star and Seed Crystal Seals, and Level-3 Diodic Points*) - and its relationship to the Universal Templar Complex, allows the embodied human consciousness the opportunity for progressive participation within the processes of **CONSCIOUS EVOLUTION** and intentional restoration of the **Organic Imprint for Health.** All manifest **DIS-EASE** originates through **distortions** in the electro-tonal scalar wave programs of the **Kathara Grid, Scalar Shields and Manifestation Template.** To achieve true and lasting healing, rather than suppression and transference of dis-ease to other embodied systems, distortions within the personal Manifestation Template need to be realigned from the causal Kathara Grid level through **REGENESIS** of **Primal Order** within the **Organic Imprint for Health.**

Manifestation Template healing therapeutics based upon knowledge of the Kathara Grid, simultaneously work to restore the natural intended Primal Order and function of the human body and consciousness, while expediting the evolutionary process of merging the stations of identity through time, to facilitate fulfillment of the organic **PRIMAL PURPOSE.** The **Primal Purpose** of human evolution is the achievement of **Transmutational Dimensional Ascension** and **Co-creative Mastery** over the Personal Eternal Consciousness and Internal Templar Complex within the Holographic Fields of the Time Matrix. Through fulfillment of the **Primal Purpose,** humanity will regain **THE PRIMAL CONDITION** of Conscious AT-ONE-ment with the Universe and the Central Source of Creation, or **GOD.**

SIGNET SEALS are the core points of consolidated frequency corresponding to each Dimension that represent the first manifest arrangement of scalar waves created through the mathematical programs of the corresponding Kathara Centers. The Signets transmit the organizational programs upon which the Scalar Shields manifest. Each 3-Dimensional Scalar Shield manifests on the electro-tonal programs of 3 Signet Star Crystal Seals. Signet Seals keep the Harmonics of Matter Density separate from each other by keeping Partiki units phase-locked into their 3-dimensional electromagnetic domain.

When released, Signet Seals serve as Star Gates, allowing the Time Cycles and Matter Density Levels within the Time Matrix to merge and blend. Signet Seals are the central control points for Scalar Shield programming.

The Transduction Sequence

The *Transduction Sequence* represents the phases consciousness passes through into dimensionalization and the process by which conscious energy is transduced and *changes form* to enter the wave spectra within which perception of manifestation is possible.

CHAPTER 1 HIGHLIGHTS

THE HOLOGRAPHIC TEMPLATE

- **External reality is a HOLOGRAPHIC PROJECTION.** Perception of **solidity** and **externalization** are determined by the **oscillation rates** between **dimensionalized units of consciousness** - ***Partiki, Partika*** and ***Particum.*** Dimensionalized units of consciousness form **Frequency Bands** that exist in specific relationships to each other. We perceive as solid the Frequency Bands that exist 1 full Dimensional Band **below** the frequencies within which the consciousness is stationed.

- **Dimensionalization** creates the structure through which consciousness can perceive the **Hologram of Externalization.**

- The human body is a **Hologram** built upon a **Holographic Template** of units of consciousness structured into **Scalar Standing-wave Grids** that represent the **Living Morphogenetic Field** blueprint upon which matter and dimensionalized consciousness manifest.

THE STRUCTURE OF DIMENSIONS

- The **Unified Field** is built upon ***dimensionalized sets*** of ***Scalar Standing-wave Points***, **Wave Strata** formed of units of consciousness that form the basis of energetic relationship through which the **Hologram of Manifestation** can be perceived.

- The human body is a construct of ***Conscious Energy***, built upon **a15-Dimensional Anatomy of Dimensionalized Scalar-Grids.** Perceived physicality emerges through the **Perceptual Lens of Dimensionalization** which provides the picture of seemingly manifest particles, atoms, molecules and physical systems.

- Understanding the nature and structure of **Holographic Reality** allows us to understand the foundations upon which the **body** is built and the **context** within which **healing** must occur.

- **Scalar Waves** are standing wave points that emanate out of fixed points of sound (electro-tonal Partiki units), which form the **Scalar Grid morphogenetic templates** that house consciousness in **dimensionalization** for experience of manifest reality. Scalar Grids are created through **Partiki Phasing**.

- **Partiki Phasing** is the process of ***internal fission/ expansion and fusion/ contraction*** characteristic of **Partiki Units**, through which the units perpetually break apart and replicate through *fission*, then re-merge through *fusion*. Creates a "*flashing on and off*" *of* ***Scalar Wave points***, or **"Flash-line Sequences"** that determine the intrinsic orientation of consciousness within the Scalar Grids composing morphogenetic fields.

- **Dimensions** are Scalar Grids of consciousness composed of interwoven layers of Scalar waves with **varying Flash-line Sequences**, or *Frequency Bands*. **Dimensions are Frequency Bands**, or Partiki wave spectra, that exist within specific relationship to each other to form the template of Holographic Reality.

Frequency Bands are synchronized, repeating ***Flash-line Sequences of Partiki Phasing*** that give the appearance of manifest movement of wave spectra within a Dimensional Scalar Grid **Sub-frequency Bands** are *portions* of the *Flash-Line Sequences* that make up the whole Dimensional Frequency Band. The Frequency of a Dimensional Band is determined by the **Vibratory-Oscillation** rate of Partiki units that make up the Dimensional Scalar Grids.

Vibration is the "internal movement" or **ENERGY HOLDING** of Partiki units. **Oscillation** is the "external movement" or **ENERY EXPENDED** by Partiki units. **Vibratory-Oscillation rate is the rate at which Partiki Phasing "flashing on and off" occurs**. Vibration and Oscillation exist in **direct proportion** to each other. As Vibration increases (energy holding), Oscillation decreases (energy expenditure). Faster Flash-line Sequences (higher frequency) *expend* more energy, raise Oscillation and lower Vibration of Scalar Templates. **Higher Oscillation/ Slower Vibration creates slower electron movement around nucleus and less perceivable density of matter.**

FREQUENCY VIBRATION

A **Dimension** is a full Frequency band or **full cycle** of a **Flash-line Sequence.**

The **Universal Morphogenetic Template** is built upon ***sets of 15 Primary Flash-line Sequences*** that form **15-Dimensional Time Matrices** within which manifestation can be experienced.

Dimensions are organized into sets of 3, (3 full Flash-line Sequences/ 3 Frequency Bands), that create the template through which 3-dimensional manifestation can be experienced. Each set of 3 Dimensions is called a **Harmonic Universe**. There are **5 Harmonic Universes** within a **15-Dimensional Time Matrix.**

Each Dimension contains **12 Primary Sub-frequency Bands** (partial Flash-line Sequences).

Partiki in each Dimension have specific set **Partiki Phasing rhythms** giving each Dimension a specific ratio of **Vibration-Oscillation.** Higher Dimensions have Faster Partiki Phasing, are higher frequency and thus have higher oscillation, lower vibration and less particle density.

Vibratory-Oscillation rate within a Dimension determines the **Angular Rotation of Particle Spin** (**ARPS**), or *rotational axis of particles* in a Dimension. There is a **90-Degree Shift** in ARPS between each Dimension and a **45-Degree Reverse Shift** in between Harmonic Universes.

Particles having varying **Vibratory-Oscillation** rates and **ARPS** allow *multiple 3-Dimensional Reality Fields* to *co-exist* within the same space while remaining perceptually and experientially **invisible** to each other.

The **relationship between wave strata** and **variance in Partiki Phasing Flash-line Sequences** within Dimensional Frequency Bands create **Holographic Refraction** of consciousness-energy that allows perception of an externalized, 3-Dimensional **Holographic Illusion** for consciousness focused within the Scalar Grids of the 15-Dimensional Time Matrix.

UNIVERSAL AND PLANETARY KATHARA

The **Kathara Grid** is the **first level** of Partiki structure/ *Scalar Grid organization* that sets consciousness into dimensionalization. It is thus the **CORE HOLOGRAPHIC TEMPLATE** upon which the *morphogenetic field blueprint* is structured.

The *Kathara Grid* is the *Core Holographic Template* for **dimensionalization of the Unified Field** of Consciousness-Energy through which the **Microcosm** and the **Macrocosm** are structured. **All things are built upon the foundation of the *Kathara Grid.***

There are **3 Primary Levels to the Kathara Grid**. **Level-1:** ***The 12-Tree Grid*** with **Kathara Centers** and **Kathara Lines**. **Level-2:** ***The Crystal Seals*** with **Hova Bodies** and **Scalar Shields** and **Level-3:** ***The Diodic Points*** of minute energy vortex **"White and Black Hole" sets.**

KATHARA 12-TREE GRID

Level-1 Kathara holds the base electro-tonal **programs** of Partiki Phasing and Dimensional/ Frequency structure upon which the other Kathara Levels and the morphogenetic field are built.

KATHARA SCALAR SHIELDS AND CRYSTAL SEALS

Level-2 Kathara Grid is composed of 5 groups of 3-Dimensional **Scalar Shields and Crystal Seals** - that regulate the rates of Partiki Phasing to create the base structures upon which ~~dimensionalization is built.~~

KATHARA DIODIC POINTS

Level-3 Kathara Grid is made of sets of minute White and Black Hole energy **vortices**, made of inter-dimensional Scalar Wave spectra, that **regulate the flux of consciousness-energy** between Dimensional, Harmonic and Parallel/ anti-particle systems.

Cosmic *morphogenetic structure* is built upon interwoven **Kathara Grids** and the Dimensionalized Scalar Standing-wave Templates they form.

- The **5 Primary Scalar Templates of Dimensionalization** are formed on **Scalar Shields** composed of sets of 3 Dimensions, which form *5 3-dimensional spheres of energy* called **HOVA BODIES**. Hova Bodies and their Scalar Shields hold consciousness-energy into **5 separate but interwoven 3-dimensional systems.**

- The **Kathara Grid** and the multiple levels of morphogenetic structure built upon it is the **CAUSAL ELEMENT** behind and within all manifestation, and thus the **CORE HOLOGRAPHIC TEMPLATE** through which the **Imprint for Health** can be restored to Biology.

- All manifest **Dis-ease** originates through **distortions** in the natural electro-tonal programs/ *Partiki unit arrangements* of the *Kathara Grid* and *Hova Body Scalar Shields*. The Kathara Grid and morphogenetic field are the **core elements** through which **lasting healing** is created. **Healing** occurs through **REGENESIS** of natural electro-tonal **programs** of the **Holographic Template**.

- **Partiki Units, Scalar Standing Waves, and Crystalline Keylons and Keylon Codes** represent the **PRIMAL SUBSTANCE** in energy that consciousness takes on in order to create the **Holographic Projection** of external manifestation.

- The **Kathara Grid, 15-Dimensional Structure, Scalar Shields, Crystal Seals, 5 3-Dimensional Harmonic Universes and Hova Bodies, Diodic Point** vortices and the subtle and dense matter energetic systems that manifest upon them represent the **PRIMAL ORDER** of mathematical and geometrical interrelationship that **Primal Substance** utilizes to orchestrate the manifest Hologram through creation of **Manifestation Templates.**

- The interwoven, ordered structures of scalar wave fields that form the **Universal Manifestation Template** of the 15-Dimensional Time Matrix are collectively referred to as the **UNIVERSAL TEMPLAR COMPLEX.**

The interwoven, ordered structures of scalar wave fields that form the **Personal Manifestation Template** of **15-Dimensional Human Anatomy** are collectively referred to as the **Personal INTERNAL TEMPLAR COMPLEX.** The Internal Templar Complex, a structural replica of the Macrocosmic Universal Templar Complex, anchors personal consciousness into the Time Matrix for the experience of the space, time and matter Hologram.

The **PRIMAL PURPOSE** of human evolution is the achievement of **Transmutational Dimensional Ascension** and **Co-creative Mastery** over the **Personal Eternal Consciousness** and **Internal Templar Complex** within the holographic fields of the Time Matrix. **REGENESIS** of **Primal Order** within the **Organic Imprint for Health** creates true healing and expedites the natural processes of human evolution.

Through fulfillment of the **Primal Purpose** humanity will regain **THE PRIMAL CONDITION** of **Eternal Conscious At-ONE-ment** with the Central Source of Creation or **GOD.**

THE HUMAN BODY KATHARA AND THE MULTIDIMENSIONAL ANATOMY OF HUMAN FORM

The Structures of Manifestation and Reclaiming Our Power

In *PART-I* of this program, THE CONTEXT OF HEALING, we explored the hidden foundations of *reality structure* within which our existence takes place, the *context of relativity* through and within which *healing* occurs. We learned that the context of existence can be viewed as taking place within a **Unified Field of Energy**, and that **Energy IS consciousness and Consciousness IS energy.** In our exploration we encountered the **Partiki, Partika** and **Particum**, the ultra-micro-particle units of consciousness in electro-tonal form, through which the tangible structure of living **Morphogenetic Fields** are formed. In learning the foundation structures of the Unified Field of Consciousness-Energy, we come to understand that the anatomy of any form, including that of the human Body-Mind-Spirit System, is a **multi-dimensional construct** built on an ordered template of **sets of 15-Dimensions**, through which all conditions of apparent manifestation are created.

Through reviewing the underlying structures of manifest reality (units of consciousness, the ***Partiki Scalar Standing-wave Grids*** that hold consciousness into individuated dimensionalized "packages" of awareness to allow for experience of space, time, matter and form, the core ***Kathara Grid Holographic Template*** that sets the pattern of dimensionalization for consciousness to follow into the manifest experience, the ***Levels of Matter Density*** corresponding to the ordered structure of Dimensions, and the reality that **Dimensions** are *tangible constructs of energy* created through the process of ***Partiki Phasing***-the fission-fusion "flashing on and off" of scalar standing-waves composed of units of consciousness) **we have already expanded our perceptions of the nature of reality itself.** With these **simple revelations of knowledge**, we have shifted ourselves from a perspective of viewing the reality before us as one of *separate manifestations disconnected from our being*, to a perspective of viewing reality as an *intricate system of interwoven consciousness, expressing in the form of standing-wave strata*, to which we are *intimately and indelibly connected*.

Suddenly we find that we cannot be "left out" of things, we cannot "be on the outside as life passes us by", **that there IS no "outside" to which we may stand separate, as by the *nature of our existence* we are an *intrinsic element and force of creative affect* within the whole of creation.** Through this knowledge we have begun to tap the **secrets of SELF**, as we shift from viewing ourselves as *mortal creatures trapped within a gross-matter finite physical body*, to KNOWING OURSELVES AS THE EXPRESSION OF CONSCIOUS, SENTIENT WAVE-STRATA - ETERNAL BEINGS ENSCONCED WITHIN AN ETERNAL UNIVERSE, within which **Energy-Consciousness cannot be created or destroyed, it simply changes form perpetually.** We move from perceiving ourselves as finite beings of limited power to affect a world that is separate from us, to knowing that we are *walking wave-forms within a sea of interrelated wave forms*, and that the pattern of our being operates as an intrinsic part of the whole. **As we begin to perceive ourselves in terms of the *unlimited reality of our nature*, rather than define ourselves by the limited boundaries of the *manifest illusion* before us, we begin to reclaim our power to *affect desired change* within the contours of our lives.**

Reciprocal Reflection and the Kathara Grid

All conditions of dis-ease within the Body-Mind-Spirit System *share a common core of causality - distortions of the Kathara Grid* upon which manifestation is built. All symptoms affect the Body, Mind and Spirit *simultaneously*, malfunction in one aspect of being will have its *reciprocal reflection* in the other aspects of being, as the symptoms emanate from distortion in the *Kathara Core*, upon which all aspects of being simultaneously manifest.

As we work with restoring integrity to the *Holographic Template Kathara Grid*, we are thus creating *simultaneous restoration through Reciprocal Reflection* within the *Body*, the *Mind* and the *Spirit* (the CONSCIOUSNESS that makes up the substance of our multidimensional anatomy and identity).

The Maharic Shield and Whole-Being-Healing

In activating the *Maharic Shield* to regenerate the *Imprint for Health*, you will have change occurring within multiple levels of being. Your **BODY** will begin to reflect change as dis-ease-causing distortions are released from the *biological imprint*, and a higher level of order is reestablished within the ***atomic structure***. Your **MIND** will begin to reflect change as dis-ease-causing distortions in your **thoughts, ideas and beliefs** are released from the *mental body* awareness. Your **SPIRIT**-consciousness, will reflect change, as divisions between your embodied awareness and the expanded portions of your multidimensional awareness will begin to dissolve, and you will become progressively more able to embody greater states of *cognition, creativity and awareness*. ***Kathara Grid recoding*** through the use of the ***Maharic Shield*** will set in motion the processes of **WHOLE BEING HEALING**, as the ***Imprint for Health*** is progressively reawakened and restored within the **Body-Mind-Spirit System**. Activation of the **Maharic Shield** within the personal Kathara Grid will lay the foundations for progressive, lasting and powerful restoration of the **Imprint for Health** within your Body-Mind-Spirit System.

Learning to activate the Maharic Shield to restore the Imprint for Health requires a bit of **knowledge** regarding *Elements* of the hidden anatomy of multidimensional being, and application of specific **energetic mechanics** that will directly affect these hidden structures of energy. We will begin PART II with a discussion on the **ELEMENTS OF HEALING as they apply to *developing the skills required to create the condition of Maharic Shield activation*, through which the *Imprint for Health* can receive its wake-up call.**

THE PLANETARY BIO-FEED INTERFACE SYSTEM™

Awakening the Personal and Planetary Templar Complex Connection

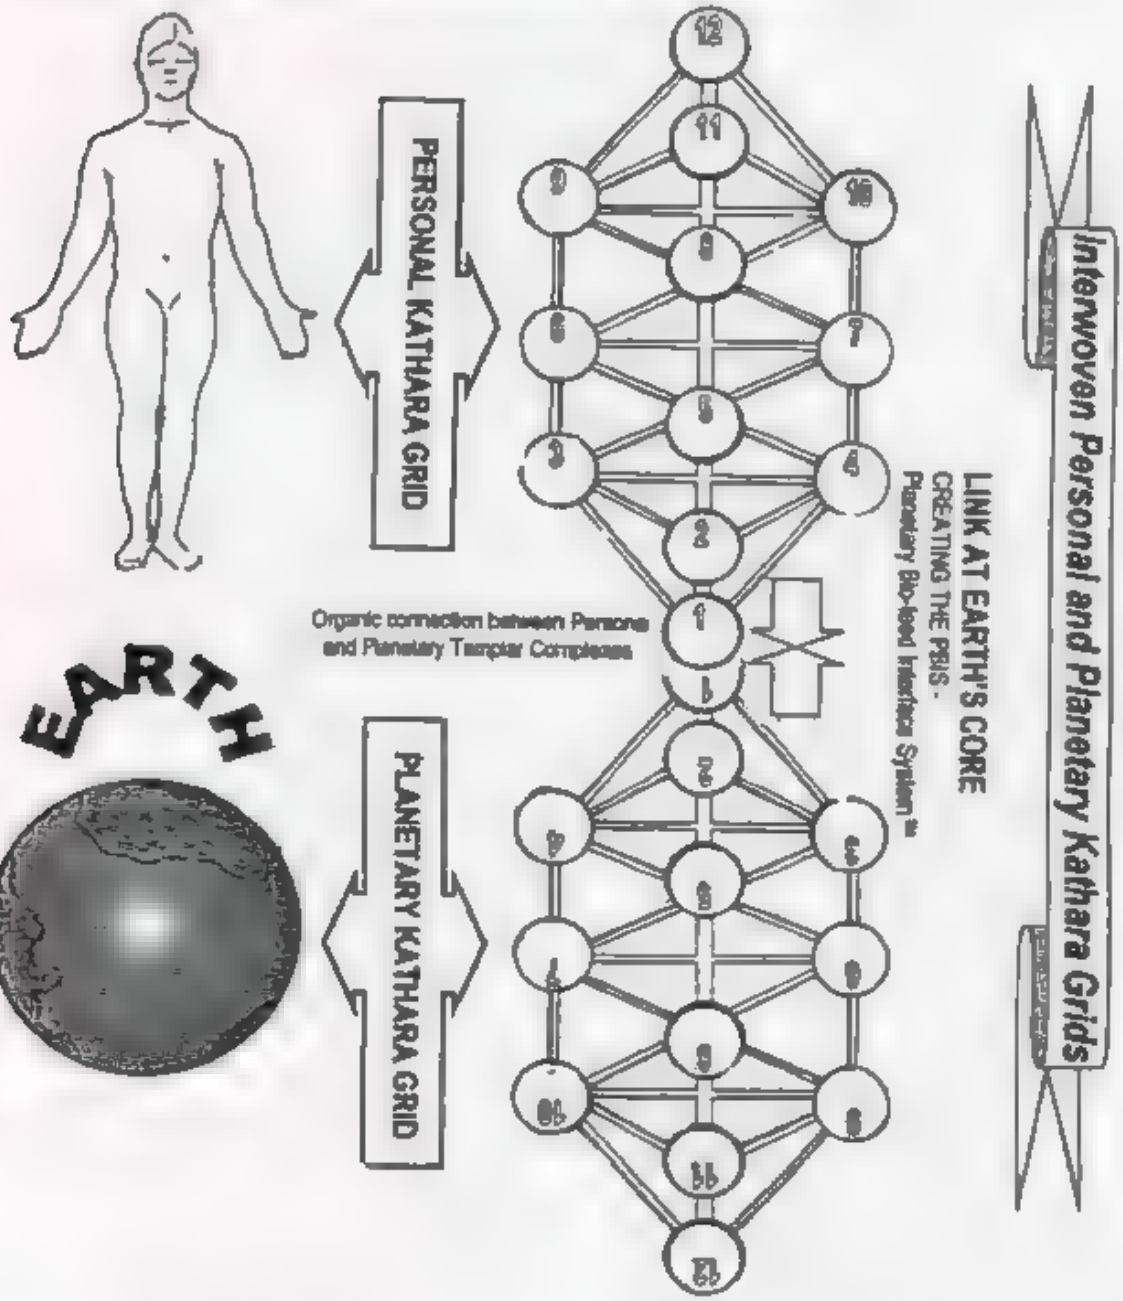
Interwoven Personal and Planetary Kathara Grids

The core Holographic Templates of both the *personal* and the *planetary* morphogenetic fields are built upon a Scalar standing-wave *Kathara Grid*. As the morphogenetic fields of species are interwoven into the larger morphogenetic field of the planet they inhabit, there is a direct energetic connection between the Kathara Grids of individuals and that of the planetary body. This connection between personal and planetary Kathara Grids is called the *Planetary Bio-feed Interface System*™, - PBIS. For thousands of years the planetary Kathara Grid has carried distortions in its natural pattern that have rendered the PBIS primarily inoperable. Kathara distortions in the planetary morphogenetic field blocked the human's innate ability to draw energy for regeneration and revitalization from the planetary morphogenetic field.

When the human Kathara Grid system is working properly there is a *natural sympathetic rapport* between the personal and planetary Kathara Grids that keeps the *Imprint for Health* within the human *Maharic Shield* functioning properly. Due to the distortions of the planetary Kathara, the human Kathara developed reciprocal distortions, which created blockages between the Maharic Shield Imprint for Health and the other functional portions of the human Kathara. The blockages with the human Kathara manifested as distortions within the natural function of the DNA and bodily systems, disarming many of the natural *self-regenerative functions* organic to human biology and rendering the human form more susceptible to disease and malfunction of the biological system. As there is a Reciprocal Reflection of patterns between the Body, Mind and Spirit aspects of the human organism, due to their *common causal element* of the *Kathara Grid Holographic Template*, distortions within the DNA and physical body function also become reciprocal distortions within the mental body and its perceptual facilities, and within the Spiritual Body, as the Kathara distortions *block and distort* the organic cycles through which higher dimensional aspects of consciousness would progressively embody within and expand the human form.

The Planetary Bio-Feed Interface System™

As the morphogenetic fields of species are interwoven into the larger morphogenetic field of the planet they inhabit, there is a direct energetic connection between the Kathara Grids of individuals and that of the planetary body. This connection between personal and planetary Kathara Grids is called the *Planetary Bio-feed Interface System* ™, - PBIS.



Return of the PBIS - Gift of the 21st Century

The secrets of utilizing the PBIS have been passed down within the generations of the Melchizedek human families who brought these teachings to Earth long ago, kept hidden from public display until a day when the PBIS could once again become operational through evolution and clearing of the planetary Kathara Grid. These teachings are now being returned into the public arena because progress has been made in restoring the integrity of the planetary Kathara Grid system. For the *first time in many thousands of years* the potentials of healing held within the PBIS can be returned to humanity, and the PBIS can now be *activated within the personal biology* to reawaken the *Maharic Shield* and its *Imprint for Health*, within the human Kathara System. Reawakening the *PBIS* and the *Maharic Shield* within the human body *allows the personal Kathara Grid to open into the planetary Kathara Grid*, through which the now-functional Holographic Template of the planetary Kathara can be used to RESET the original imprint of function within the personal Kathara, for accelerated regeneration of the Imprint for Health within the human form.

HIEROPHANT SYMBOL CODE

The *Hierophant Symbol Code* PBIS Trigger

The first application of the PBIS that we will employ in Kathara Healing is utilizing the energies flowing through planetary Kathara to reawaken the Maharic Shield within human anatomy. The process of opening the PBIS within the personal morphogenetic field involves using a specific scalar standing-wave-guide GEOMANCY - a consolidated inter-dimensional *frequency pattern* that triggers release of the *frequency seals* (Kathara Level-2 Crystal Seals) on the presently dormant 10th, 11th and 12th Chakras, opening the human Bio-energetic Field and Kathara Grid to the Kathara Grid, Bio-energetic Field, Ley Lines and energy Vortices of the planetary morphogenetic field. The wave-guide Geomancy containing the frequencies to activate the PBIS and the Maharic Shield can be directed by the human consciousness in the form of a visually created symbol code. This symbol code is called the HIEROPHANT. In TECHNIQUE # 2: *The Maharic Seal and the Liquid Light Cleanse*, to be explored in *PART III. of Section I*, the Hierophant Symbol Code will be used to bring the Maharic Shield and the PBIS out of dormancy, in order to RESET the Imprint for Health within the operational Holographic Template of the human Kathara Grid.

Ease of Kathara Healing Techniques

Through using the *Hierophant Symbol Code* we awaken the restorative frequency patterns within the *Maharic Shield* and the *PBIS*, beginning the process of regenerating the organic *Imprint for Health in* the human Holographic Template Kathara Grid. The restorative effects of using the *Hierophant Symbol Code* to activate the *Maharic Shield* and the *PBIS* will occur upon using the *Kathara Mechanics* provided in Technique # 2, *whether or not* an individual understands the realities in frequency that are taking place through using this process. Therefore, the complex mechanics of activating the *Maharic Shield* to reset the *Imprint for Health*, can be *reduced to simple instructions* for the direction of energy. Though the theory of Kathara Healing is highly *detailed and complex*, the Techniques by which *active results are achieved* employ simple exercises in *Mental Symbol Code Visualization* and mental energy direction, coupled with the application of simple *Kathara-stimulating massage* to specific corresponding body points. **The *Techniques* of Kathara Healing and regeneration of Kathara Grid Integrity are *so simple* that even a young child can learn to actively employ them, to achieve the desired result of restoring the *Imprint for Health*.**

MORPHOGENETIC EXPANSION

Frequency Accretion, Growth, Age Rhythms, Degeneration, Death and Kathara Blockage

Frequency Accretion and Growth Through Time

The morphogenetic field of the human body evolves through time via the process of **Frequency Accretion**. The human morphogenetic field *exists within* the larger morphogenetic field of the planetary and universal dimensionalized **Unified Field of Consciousness-Energy.** Through the inherent function of the **Kathara Grid** and the multi-layered systems of energy built upon it, *progressively more frequency and corresponding wave spectra* from the *dimensionalized Unified Field* are **drawn into** the *personal morphogenetic field* to create **progressive expansion of the morphogenetic imprint and its resulting progressive *expansion of consciousness* and *growth of the physical body* in time.**

Kathara blockages and Organic Growth Cycles

Blockages and scalar wave distortions within the **Kathara Grid** *impede* the natural functions of **Frequency Accretion**, and so **distort the intended natural processes of consciousness expansion and growth of the body form in time.** When the Kathara Grid is functioning properly, there are **certain *specific points in linear time* when *specific aspects of morphogenetic expansion* via Frequency Accretion are intended to occur. The original cycles of growth and expansion inherent to the human form** occurred between **1. fetal integration through age 11-12, 2. age 11-12 through age 22, 3.age 22 through age 33** and **4. age 33 through age 44**, at which time the human morphogenetic field would reach its **full expansion,** the DNA would reach its organic **12-strand activation,** the identity would expand to hold **12-dimensionsof consciousness** within embodiment, and the organism would have **full conscious control of *manifesting and de-manifesting* its 15-Dimensional anatomy in time. The body forms of the original human imprint are IMMORTAL** - deterioration and death were **not a part of the original *Imprint for Health*** within the human Bio-Spiritual makeup. Through understanding how the natural process of growth and expansion in time were INTENDED to work, we can also understand the core reason for the manifestation of the SYSTEMS MALFUNCTIONS - the conditions of biological and mental deterioration that lead to the condition of **BIOLOGICAL DEATH** - a condition that is **INORGANIC TO THE ORIGINAL GENETIC IMPRINT OF THE HUMAN FORM.**

The First Natural Expansion Cycle

In the original human genetic blueprint, the frequencies and dimensions of consciousness corresponding to the wave spectra of Dimensions 1, 2, and 3, were intended to accrete or draw into the morphogenetic field between fetal integration and the age of 11-12. At the age of 11-12 the wave spectra of which the body was composed would take a leap in frequency, beginning the process of expanding the morphogenetic field to hold the higher frequency wave spectra of Dimensions 4, 5 and 6.

The *expansion of the morphogenetic imprint* is reflected in the *DNA*, and *chemical and hormonal balances* within the body, which govern the function of the *metabolic rate* and the operation of molecular function. The first cycle of *morphogenetic expansion* into the wave spectra of Dimensions 4, 5 and 6, represents the process of SOUL INTEGRATION for the embodied identity, and begins the natural process of de-densification of matter - *by lowering of morphogenetic vibration, raising of oscillation rate and frequency, and shortening of the wave-length of the scalar waves that compose the matter form and consciousness.* These changes in *intrinsic wave characteristics* have their reflection within the behavior of *atomic structure*- as the morphogenetic field wave spectra raises in frequency, the *electron spin* around the atomic nucleus *slows*, thereby increasing the electrical nature, and reducing the magnetic orientation of atomic function, *transmuting the perceivable matter substance* of the cells to a *less dense* state of being. Completion of the *Soul Integration process* marks the transmutation of *Carbon-based Gross-matter density* into the *Carbon-Silica based Semi-etheric matter density*, and the expansion of embodied awareness from 3 to 6 Dimensions of consciousness.

Completing Expansion

This process of *progressive morphogenetic field and consciousness expansion* and *resulting de-densification of biological matter* continued throughout the remaining *expansion cycles*. Age 22 to age 33 marked the accretion of the 7th, 8th and 9th -Dimensional wave spectra, the process of *Over-Soul Integration*, expansion into a 9-Dimensional consciousness and transmutation to a *Silica-based Etheric matter density biology*. Age 33 to 44 marked the accretion of the 10th, 11th and 12th Dimensional wave spectra, the process of *MAHARIC INTEGRATION*, expansion into a 12-Dimensional consciousness and transmutation out of biology into the Crystalline Liquid Light wave form of Pre-matter substance. At this point the identity is considered a full AVATAR and has complete control over *manifesting and de-manifesting* the Holographic Projection of its desired body imprint in time.

SOUL INTEGRATION (Doradic Integration) – KATHARA BLOCKAGE

OVERSOUL INTEGRATION (Teuric Integration) – KATHARA BLOCKAGE

CHRISTOS AVATAR INTEGRATION (Maharic Integration) – KATHARA BLOCKAGE. Deterioration and Death of the physical body occur rather than progressive frequency accretion for Cellular Transmutation and Dimensional Ascension. Distortions in the personal Kathara Grid and Scalar Shields manifest in the DNA Template and block natural inflow and Morphogenetic Field accretion of frequency from the higher dimensional stations of identity. Conscious awareness remains polarized in Duality Consciousness and physical body is rendered finite and vulnerable to dis-ease.

THE 4 NATURAL CYCLES OF MORPHOGENETIC FIELD EXPANSION

THE *4 CYCLES OF MORPHOGENETIC FIELD EXPANSION* REPRESENT THE *ORIGINAL ORGANIC PROCESS* BY WHICH THE HUMAN ORGANISM WAS *INTENDED* TO EVOLVE THROUGH TIME.

The Inorganic Condition of Human Illness and Death

The processes of biological and mental deterioration and resulting DEATH of the biological form, which we presently view as FACTS OF LIFE regarding the process of human passage through linear time, ARE NOT ORGANIC CONDITIONS TO THE HUMAN ORGANISM. Other life forms, such as the animal kingdoms, that manifest through morphogenetic fields having *less than 12 Kathara Centers active* within their Kathara Grid, cannot undergo the full process of bodily transmutation into Pre-matter substance, and cannot fully expand their embodied awareness into 12th-Dimensional consciousness. For the animal kingdom, the process of evolution is also Frequency Accretion, but it is achieved through expanding one's body form to its full capacity, then entering the consciousness into a morphogenetic imprint with a bit higher capacity, until eventually the consciousness can accrete enough frequency to take it into the next level of matter de-densification and consciousness expansion. Death is natural to the organic animal kingdom.

Humans were intended to undergo the *full spectrum of morphogenetic expansion and cellular transmutation* WITHIN ONE ETERNAL BODY IMAGE, that was built upon a program of *full activation* of the *12 Kathara Centers* of the Kathara Grid. Death is NOT natural for humans.

Kathara Grid Blockage and Molecular Compaction

The process of *biological deterioration* and progressive movement toward biological DEATH is the *direct result* of unnatural BLOCKAGES WITHIN THE KATHARA GRID HOLOGRAPHIC TEMPLATE. Blockages within the Kathara Grid program presently block the process of Frequency Accretion at the beginning of the First Expansion Cycle- as accretion of the 4th, 5th and 6th Dimensional frequencies representing the *Soul Integration Process* is blocked within the Kathara Grid and thus within the biological DNA, the incoming frequencies of the Soul Level consciousness push on and CRUSH the morphogenetic field, rather than *expand the morphogenetic field into a higher level of frequency holding*. When the incoming scalar wave frequencies of Soul Integration begin to crush the morphogenetic field, a condition called MOLECULAR COMPACTION is created.

MOLECULAR COMPACTION -

over exposure to scalar wave spectra **and its resulting** ***fragmentation of the morphogenetic field and Kathara Grid*** **-** **IS THE *ONLY TRUE CAUSE OF DIS-EASE*, AND THE *CORE CAUSAL ELEMENT* OF THE *UNNATURAL DEATH EXPERIENCE*.**

The *Maharic Shield* and Human Healing

Within the imprint of the **MAHARIC SHIELD** of human morphogenetic structure, is the dormant imprint of the *10th, 11th and 12th Dimensional electro-tonal programs* that represent the **ORGANIC PROGRAM OF THE KATHARA GRID. Through activation of the Maharic Shield** - the scalar standing-wave template that corresponds to the Pre-matter Liquid Light fields of Dimensions 10, 11 and 12 - **blockages within the Kathara Grid Holographic Template, that result in the genetic mutation that causes Molecular Compaction, can be progressively realigned with the original IMMORTAL IMPRINT FOR HEALTH.** Though it takes time and consistent application of **Kathara Healing Technique** to fully regenerate the **Imprint for Health and Immortality** within the 15-Dimensional Levels of human anatomy, working to heal distortions within the Kathara Grid through **MAHARIC INFUSION** (running the frequencies and wave spectra of the *Maharic Shield* through the Kathara Grid, Bio-energetic System and Body), **can create progressively more observable affects in creating and maintaining health, and slowing the bodily deterioration process, within the normal life span of an individual.**

Potentials of Kathara Healing

The true beauty and significance of *Kathara Healing* is that it can not only do wonders for creating and maintaining *higher standards of health* within the average human life span, but within the applications of KATHARA MECHANICS lies the *promise and potential* of human biological IMMORTALITY and the fulfillment of SPIRITUAL ACTUALIZATION and evolution to MASTERY- through progressive embodiment of and conscious mastery over our 15-Dimensional Anatomy and the creative process of Holographic Projection within the dimensionalized fields of space, time and matter.

KATHARA HEALING HOLDS THE KEY TO HUMANITY RECLAIMING ITS ANCIENT HERITAGE OF THE ETERNAL SELF AND IMMORTAL AT-ONE-MENT WITH SOURCE.

LEVELS OF HUMAN ANATOMY- THE EMBODIED KATHARA

The Human Body Kathara Grid

The Kathara Grid of the human body is the *Core Holographic Template* upon which the morphogenetic scalar-wave template, and all other levels of identity and form are built. It is the "**Control Center**" for manifestation of the human being.

LEVEL-1 KATHARA 12-TREE GRID

THE KATHARA GRID LEVEL-1: 12-TREE

Level-1 Kathara Grid 12-Tree: The first level of the Kathara Grid **sets the *pattern for dimensionalization of consciousness* through which identity can enter the Time Matrix for the Holographic Experience of manifestation. The Kathara Grid 12-Tree is the first wave spectra composite through which consciousness anchors itself into dimensionality in order to experience manifestation of form.** All things within dimensional structure have the Kathara 12-Tree at the core, but not all manifest forms have the full pattern of the 12-Tree *activated* within their morphogenetic pattern. The 12-Tree is composed of **12 Kathara Centers** or *Kathara Spheres*, and **15 Kathara Lines.**

KATHARA CENTERS

The **Kathara Centers** are *crystallizations of Partiki units* that hold *composite electro-tonal energy signatures for each dimensional band.* The electro-tonal programs of the Kathara Centers hold the **foundation template** upon which the biological **DNA will** manifest.

KATHARA LINES

The **Kathara Lines** are sequences of *Partiki Phasing rhythms* ("flashing on and off"/fission-fusion sequences) that *transfer the dimensionalized electro-tonal programs of the Kathara Centers between each center* , to form the **core level of the scalar standing-wave template** upon which subsequent levels of the Kathara Grid, Bio-energetic System and body will build.

KATHARA HEALING AND THE LEVEL-1 12-TREE GRID

The *Kathara Centers* and *Kathara Lines* are used in *Kathara Healing* to realign and awaken the original 12-Dimensional imprint within the human morphogenetic field, in order to *reinstate the original imprint for Health and Bio-Spiritual Mastery* within the operational evolutionary blueprint for the Body-Mind-Spirit System of the Human form.

LEVEL-2 KATHARA CRYSTAL SEALS GRID

Level-2: Crystal Seals and 15 Primary Chakras

The Crystal Seals are groups of 3-Dimensional Partiki scalar wave composites that regulate the rate of Partiki Phasing to create the base structures upon which dimensionalization is formed. The *flow of frequency* between dimensional bands and Harmonic Universes, the fixed expansion and contraction/ fission and fusion rates of Partiki, the *Vibration-Oscillation Rates* of Partiki and the *Angular Rotation of Particle Spin* are all regulated by the Crystal Seals.

Star Crystal Seals are positioned between the Chakra Centers along the **Central Body Current**, and **Seed Crystal Seals** are positioned between them, and serve as the *point of composite frequency* out of which the **15 Primary Chakra Center Vortices** emerge.

HOVA BODIES AND SHIELDS

5 Dimensionalized Hova Body Shields and 5 Auric Capsules

Hova Bodies are **3-Dimensional, tri-tonal scalar standing-wave grids** composed of numerous sets of **Crystal Seals** that form the electro-tonal program upon which the **Kathara Grid Level-3: Doradic Points** emerge. **The Hova Body Grids are called Crystal Shields.** The **5 Dimensionalized Hova Bodies** are structured as **5 Concentric Spheres** of energy that *surround and permeate the human body* and serve to *hold the embodying consciousness into dimensionalized levels* through which the **Holographic Projection** of *experienced manifestation* can occur. The Hova Bodies form **"tissue capsules"** of *subtle energy* around **each 3-dimensional Harmonic** level of the **Bio-energetic Field**, within which the **15 Dimensional levels** of the **Auric Field** are stationed.

In Kathara Healing, restoration of the original **4th-Harmonic Maharic Shield** *Imprint for Health* is used to *realign and clear blockages* from the lower Hova Bodies and corresponding **Kathara Centers** and **Kathara Lines**, to awaken the **Imprint for Health and Spiritual Actualization** within the Body-Mind-Spirit System.

HOVA BODIES, SHIELDS & SIGNETS

5 Ariea Hova Bodies, Kathara Grid and Harmonics of Manifestation

Hova Bodies are *tri-tonal scalar grids* that form *spherical energy "tissue capsules"* around each 3-dimensonal level of the multi-dimensional identity. Within 15-Dimensional Human Anatomy, there are **5 Dimensionalized Hova Bodies** called **Ariea Hova Bodies**. The Ariea Hova Bodies form out of the electro-tonal programs held within the **Kathara Centers** of the *Level-1 Kathara 12-Tree Grid*. The *12th Kathara Center* of the Kathara 12-Tree Grid connects to the *12th Kathara Center* of the *Universal Kathara Grid*, just as the *1st Kathara Center* in the personal Kathara connects to the *1st Kathara Center* in the *Planetary Kathara Grid*. *The 12th and 1st Kathara Centers, the personal Kathara Grid and morphogenetic field connect to the planetary and universal morphogenetic fields*. **When working with the Hova Bodies we first focus upon the lower four , as these must be functioning properly before the 5th Hova Body and its connection to the Universal Kathara Grid can be activated within the Bio-energetic Field.** Four of the 5 Ariea Hova Bodies are directly connected to the Crystal Seals within the human body **Central Body Current** on a **HORIZONTAL PLANE**. These first **4 Hova Bodies** correspond to each of the **12 Kathara Centers** of the personal Kathara 12-Tree Grid. **The Hova Bodies represent Harmonics of Manifestation.**

Hova Bodies, SIGNETS and SHIELDS

Each Hova Body **emanates outward** from a set of **3 Kathara Centers** and their corresponding **Crystal Seals. The *core template of the Hova Body* is a *Triad of Crystalline Spheres* that connect directly to the *3 Kathara Centers* to which they correspond.** This Triad of Crystal Spheres is called a **SIGNET. The Signets are the smaller, *fixed, consolidated frequency points*, out of which the *Seed Crystal Seals* that form the *Chakras* manifest.** The Signets and the smaller Crystal Seal formations that manifest through them, create a **disc** of spinning, **horizontal wave spectra** that direct the function of *Hova Body merger*; these scalar discs are the scalar templates upon which the Hova Bodies manifest, and are called **SHIELDS.**

The *Shields and the Signets* that direct them are considered to be the *core of the Level-2 Crystal Seals Kathara Grid*. Each of the 4 Hova Bodies of the first 12 Dimensions form upon a set of **3 Signets**. Each **Signet *transmits a flash-line*** (Partiki Phasing Sequence) **on a different axis**, one **vertical**, one **horizontal** and one **diagonal**, forming a **3-plane projection of flash-lines** that form the base of the **3-dimensional Holographic projection.**

Kathara Centers and Activating the Signets and Shields

In each set of *3 Signets* at least one corresponds to the *Central Vertical Kathara Line*, the control center of the Level-1 Kathara Grid 12-Tree. The Signets and Shields can therefore be used to direct the function of the Kathara Grid 12-Tree and all built upon it, and the Kathara Centers can be used to trigger activation of the Signets and Shields within the Hova Bodies. When a **Signet is activated** its corresponding **disc or *Shield* begins to spin**. When a certain spin rate of the Shield is reached, it triggers the activation of the next set of Signets in the next Harmonic setting the next Shield to spin. **When *2 Shields activate* and reach a reciprocal spin rate the *tissue capsule* separating the 2 corresponding Hova Bodies releases and the *2 Hova Bodies merge*, which is the process by which *Higher Identity Integration* occurs. It is also the process by which the *Merkaba Vehicle* is activated within the Bio-energetic field.** When all **four Shields** activate and spin, the body matter is able to **transmute** out of matter density and into pure wave form, which represents Maharic/ Avatar Integration for the identity.

THE 5 HOVA BODY SHIELDS

The Hova Bodies and the Shields

Each Hova Body contains at its core a Shield through which the Hova Body functions are governed. The **Nada Hova Body** of dimension 1-2-3 forms on the **TELLURIC SHIELD**, its control center being the 2nd Kathara Center that is composed of 2nd Dimensional Frequencies. The **Alphi Hova Body** of dimensions 4-5-6 forms on the **DORADIC SHIELD**, its control center being the DORA or Archetype of the 5th Dimensional Frequencies. The **Betcha Hova Body** of dimensions 7-8-9 forms on the **TEURIC SHIELD**, its control center being the TEURA or Monad of the 8th Dimensional Frequencies. The **Mahara Hova Body** forms on the **MAHARIC SHIELD**, its control center being the *Mahunta* or Avatar Core of the 11th Dimensional Frequencies. The 5th Hova Body, the **Raja Hova Body**, forms on a set of Signets that correspond to **stellar points** within the **Universal Kathara Grid.** Its Shield, the **RISHIC SHIELD**, rotates on a **vertical plane** and it comes into activation within the personal morphogenetic field only after the four lower Shields have transmuted the body into Pre-matter Liquid Light of the MAHARIC SHIELD. **In terms of healing and advancing evolution of the earthly identity, the first four Shields are of greatest significance.**

Hova Bodies, Shields, Signets and Healing

In all healing application knowledge of the Shields is of great value, for any manifest condition of disorder will have its first manifestations within the Kathara Grid and the Shields that form upon it. The process of healing, therefore, is the process of *restoring the Shields to their proper order* so they may activate to build the Merkaba Vehicle through progressive Higher Identity Integration. **In Kathara Healing we begin with the MAHARIC SHIELD**, the Shield that contains the *pure form of electro-tonal programs upon which the consciousness first entered matter density* through the Pre-matter Liquid Light Fields of the 4th Harmonic - Dimensions 10-11-12. **Through activating and progressively drawing in the highest 11th and 12th-Dimensional frequencies of the Maharic Shield, distortions in all lower Shields can be more rapidly realigned with their original pattern.** When we work with the **Kathara Centers** of the Level-1 12-Tree Grid we simultaneous create change within the **SIGNETS** that direct the function of the **SHIELDS**, and so we are able to more rapidly facilitate appropriate realignment of the Shields and Hova Bodies. **THE CORE OF HEALING IS RESTORING THE HOVA BODIES AND THE SHIELDS UPON WHICH THEY MANIFEST TO THEIR ORIGINAL INTEGRAITY OF ORDER.**

Shields, Signets and Diodic Points

Through the interaction and interplay of multi-harmonic frequency between the **Shields, Signets** and their **Crystal Seals, Kathara Grid Level-3- DIODIC POINTS** come into manifestation, to fill out the 3-plane, 3-dimensional "armature" of scalar waves and flash-lines, upon which more Partiki units will cluster and crystallize to build up the particle base for form manifestation. The **Diodic Points** within the body and morphogenetic field connect directly to the Shields of the Hova Bodies in areas where the *flash-lines and scalar points* within the Crystal Seals of the Shields *align with and pass through each other*. **Flash-Lines from one Hova Body Shield crossing through those in other Hova Body Shields form *COORDINATE POINTS*, or "Gateways" of energy-consciousness *transference* through which frequency and awareness from one Hova Body and identity level can cross through into other Hova Bodies and identity levels.** The *Coordinate Points*, or *regularly scheduled points of flash-line intersection*, form **tiny vortices of energy**, which keep energy and consciousness flowing throughout the multiple dimensional levels of identity and anatomy. **The vortices of energy created by the Coordinate Points of flash-line sequences are called *DIODIC POINTS* and they have a counter reflection within *anti-particle manifestation* called *MIODIC POINTS*.** Diodic and Miodic Points are sets of **White and Black Holes** that circulate energy throughout the anatomy.

LEVEL-3 KATHARA GRID DIODIC POINTS

Diodic and Miodic Points

Diodic/ Miodic Points represent *concentrated areas of energy* that emerge at points where *dimensionalized levels of scalar grids cross over and through each other*, creating minute vortices of wave spectra that serve as frequency modulation zones (*scalar flash-cycle transition points*) between Dimensional Frequency Bands. Diodic Point vortices are White Hole vortices that *transmit energy* into the Particle Universe from their counterpart Miodic Point vortices within the Anti-particle Universe. Through the structure of Dimensionalization, each Harmonic Universe and the structures contained there within, have within their morphogenetic fields *sets of Diodic and Miodic Points* - sets of White and Black Holes - that regulate the flux of consciousness-energy between systems.

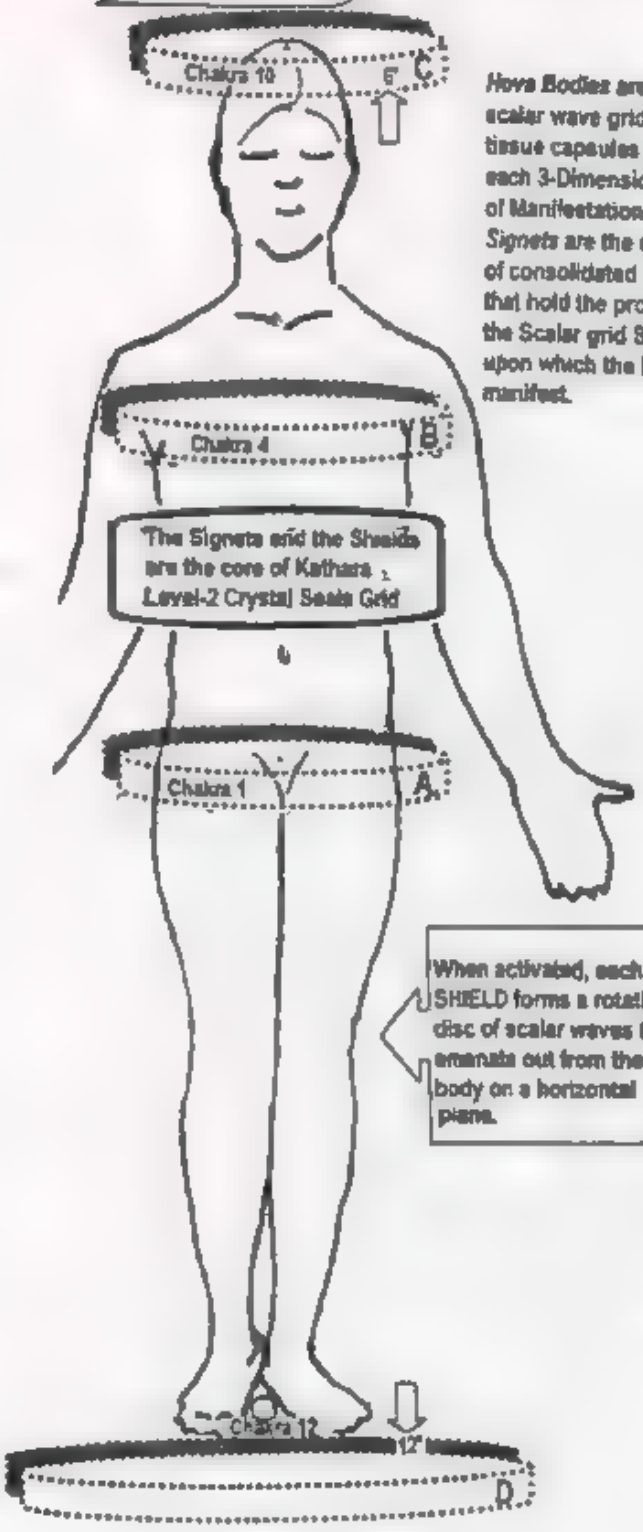
Within the biological form and morphogenetic field, Diodic Points are located in physical body regions where Inter-dimensional and Inter-Harmonic Horizontal and Vertical Kathara Lines intersect to form small vortices of inter-dimensional or inter-harmonic wave spectra that serve as **Gateways of Consciousness** between Dimensional Time Continua of Harmonic Time cycles. They connect physical bodies to their anti-particle counterparts and intersect with the Vertical and Horizontal relationships of wave spectra within the DNA/ RNA and bio-energetic field, through sets of White and Black Holes at the center of the biological Harmonic scalar grids.

Diodic Points and 3-Dimensionality

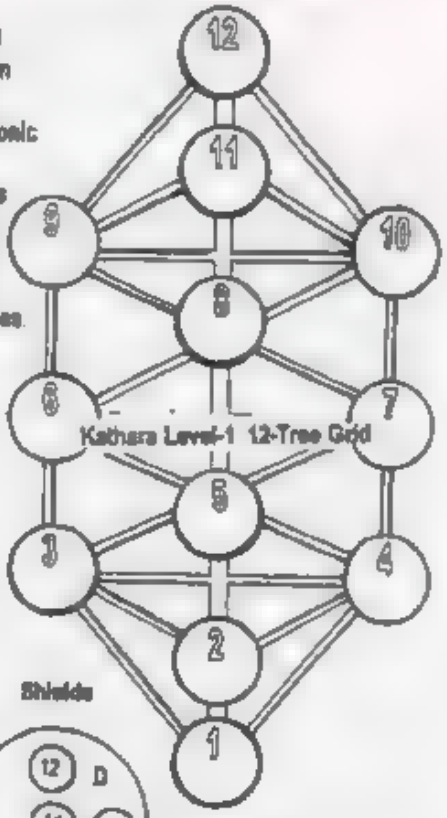
Diodic Points control the **Diagonal Kathara Lines** the **sequences of Partiki Phasing** or ***"flash-lines"*** that run on a diagonal between the Kathara Centers. Whereas the **Kathara Level-1 Kathara Lines** direct the **Vertical flash-line sequences** and the **Level-2 Crystal Seals** control the primary **Horizontal flash-lines** and their relationships to the Vertical flash-lines, the **Diodic Points** further regulate the relationships of flash-line sequences through the Kathara Grid by serving as **"turnstiles of energy"** The Diodic Points intersect with the crossover points of the Vertical and Horizontal flash-lines , *adding a further level of modulation* to the frequences passing through allowing a **3-dimensional Harmonic Projection of flash-lines** (flash-lines projecting on 3 differ angular planes)to build within the morphogenetic field. **The Diodic Points add the third plane of projection to the Kathara Grid, beginning the formation of what will appear as a 3-dimensional "armature" of flash-points upon which particles will accrete to "fill out" the Holographic illusion of 3-dimensionality.**

Diodic Points and Healing

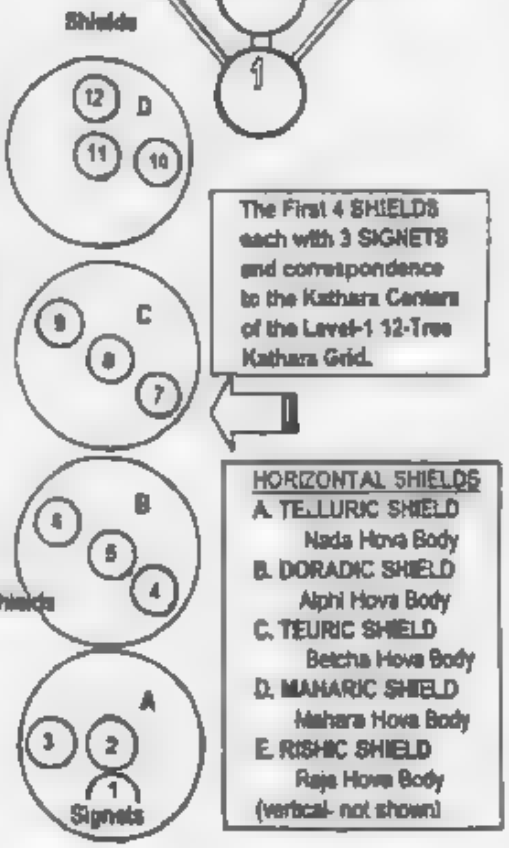
In Kathara Healing Diodic Points are used to open the **Diagonal Kathara Lines** for reprogramming. When Diodic Points become blocked, due to blockages within the Kathara Grid (which appear as "gaps" or missing sequences of flashes along the flash-lines of Partiki Phasing), energy builds up in the *Level-3 Kathara Grid* forming *distortions* in the natural pattern that will manifest in the body and bio-field systems as *disease or disharmonic condition*. In later applications of Kathara Healing we will learn to identify points of Diodic and Miodic build-up in the body and use *primary flash-line sequences applied through touch points* to realign the natural flash-point sequences and clear the Diodic Blockages.



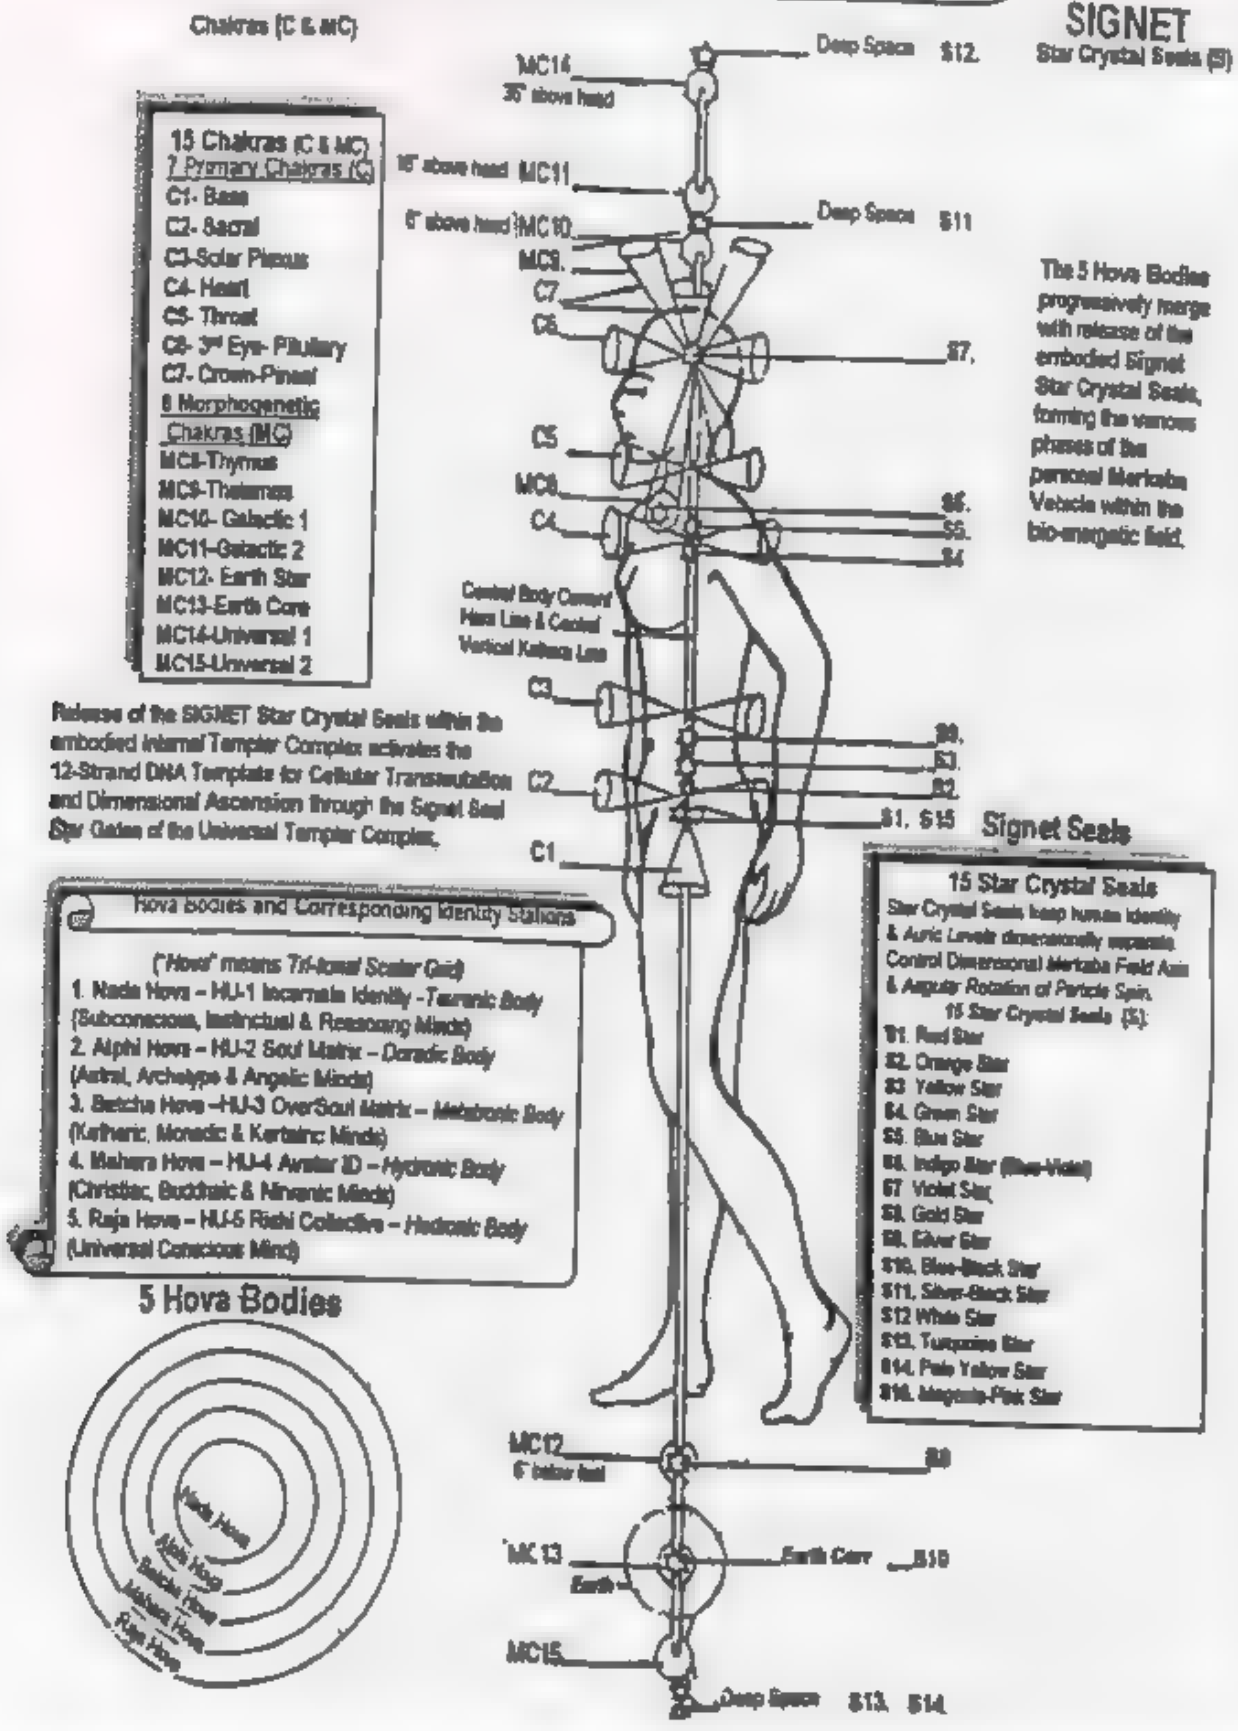
Hova Bodies are spherical scalar wave grids that form tissue capsules between each 3-Dimensional Harmonic of Manifestation.
Signets are the core points of consolidated frequency that hold the programs for the Scalar grid SHIELDS upon which the Hova Bodies manifest.



When activated, each SHIELD forms a rotating disc of scalar waves that emanate out from the body on a horizontal plane.



Level-2 Kathara Crystal Seals Grid and Chakras



AXIOM LINES, AURIC LEVELS AND CHAKRAS

Diodic Points, Signets, Seed Seals and AXIOM LINES

Each **Signet** within a Hova Body Shield holds the electro-tonal program for one *Seed Crystal Seal* and one *dimensionalized flash-line sequence*. Each Seed Seal program corresponds to one *dimensionalized flash-line program* from one *Level-1 Kathara Center*. Each **Seed Crystal Seal** holds intact the electro-tonal program for one ***dimensionalized flash-line projection angle***, or **Single Axis Dimensional flash-line sequence.** The Single Axis Dimensional flash-line sequences controlled by each Seed Crystal Seal are called **AXIOM LINES.**

There are **12 Primary Axiom Lines** that correspond to the 12 Kathara Centers in the *Personal and Planetary Kathara Grids*. There are 12 additional **Stellar Axiom Lines** that correspond to the 12 Kathara Centers in the Universal Kathara Grid. **The Axiom Lines represent single-axis flash-line sequences** - (fixed points of conscious electrified sound- *electro-tonal units*- that form strands of scalar standing waves) **that intermesh to refine the scalar-grid webbing upon which Kathara Grid Level-3 Diodic Points will emerge.**

Axiom A-B Tonal Lines, Diodic-Miodic Vortices, Chakras-DNA-Portals-Ley Lines & Healing

Each of the 12 Primary Axiom Lines has a **reverse reflection** within the dimensions of the **anti-particle universe**. The 12 Primary Axiom Lines governing the **Diodic "White Hole" Vortices** of the **particle universe** are called **Axi-A-Tonal Lines** (or "Axiatonal" Lines). The corresponding reflections of the Axi-A-Tonal Lines in the **anti-particle universe,** which govern the **Miodic "Black Hole" Vortex** reflections of the Diodic Points, are called **Axi-B-Tonal Lines.** In Kathara Healing the integrity of the Axi-A-Tonal Lines is restored through realigning the electro-tonal programs within the corresponding **Kathara Centers**. The 12 Primary **Axi-A-Tonal Lines** set the morphogenetic imprint upon which the **Chakra System** and foundation DNA organization of the human body will manifest and upon which the **Planetary Vortex/Portal System** and primary **Planetary Ley Lines** will emerge within the planetary body. Restoring the *Imprint for Health* to the **Axi-A-Tonal Lines** and corresponding **Kathara Centers** will regenerate integrity within the **DNA** and **Chakra System** of the body and will restore the organic operations of the planetary **Vortices-Portals** and **Ley Lines** of the planetary morphogenetic grid.

Restoring the **Imprint for Health** within the **Axi-A-Tonal Lines** simultaneously restores integrity to the corresponding **Diodic Points** and to the **Axi-B-Tonal Lines** and their **Miodic Points.** When working with *Kathara Techniques* that "clear the **Miasmic Imprint**" – *the anti-particle blockages within Diodic Points* – the *Diodic Points* are realigned by clearing their *Miasmic distortions*, which then reestablishes the integrity of corresponding **Axiom A and B Tonal Lines**, sending a realigned electro-tonal program back through the **Seed Seals** and the Level-1 **Kathara Centers.** If the programs within the **Kathara Centers** are **simultaneously realigned** using infusion of the frequencies from the **Maharic Shield**, the Kathara Center programs, the Axiom Lines and the Diodic Points will be progressively restored to health. If the Kathara Centers are not simultaneously realigned, the restored Axiom Line programs will be overridden by the Kathara Center programs until the restored programs reach *critical mass* through *prolonged repetition*. ***Clearing the Miasmic Imprint* while simultaneously *Repatterning the Level-1 Kathara Centers and Kathara Lines* via *Maharic Infusion* is the fastest way to restore the *Imprint for Health*** within the **Human Body-Mind-Spirit System** and within the **natural operations of planetary bio-mechanics.**

Axiom Lines, Diodic Points, Hova Bodies, Shields and Auric Field Levels

The Single Axis flash-line sequences of the 12 Primary Axiom Lines cross over and through each other to form COORDINATE POINTS between the Hova Body Shields, through which the "White Hole" *Level-3 Diodic Point Vortices* emerge. The varying angles of flash-line projection within the Axiom Lines create separate dimensionalized bands of frequency (separate sets of flash-line sequences) within the Hova Body structure. As there are 3 Signets and thus 3 Seed Seals and 3 Axiom Lines inherent to each Hova Body Shield, each Hova Body becomes *dimensionally compartmentalized* into 3 separate yet interrelated sections, each section having inherent sets of Diodic Points. Each dimensionalized aspect of the Hova Bodies becomes a *Level of the Auric Field* within the bio-energetic system. There are 12 Inner Layers of the Auric Field, which correspond to Dimensions 1-12 and to the 12 Primary Kathara Centers, Seed Seals and Axiom Lines of the *first 4 Hova Bodies*. There are 3 Outer Layers of the Auric Field that correspond to Dimensions and Seed Seals 13-15, to the *first* 3 Kathara Centers and Axiom Lines of the Universal Kathara Grid and to the *5th Hova Body*.

Seed Seals, Axiom Lines, Consolidated Diodic Points, Chakras and Auric Levels

The points in the Kathara Grid where the Single Axis Axiom Lines cross over and through the Central Vertical Kathara Line in the Level-1 Grid and the Horizontal flash-lines of the Seed Crystal Seals form fixed, consolidated Diodic Points –larger vortices of energy composed of many smaller Diodic Vortices. The larger vortex points are called CHAKRAS. Each Chakra Vortex is formed upon the electro-tonal program of its corresponding Dimensional Frequency Band, Kathara Center, Seed Seal and Axiom Line, and each chakra corresponds to one Auric Field Level, DNA strand imprint and level of consciousness. As 3 *Signets*, *Seed Seals* and *Axiom Lines* correspond to each *Hova Body Shield*, 3 Chakras regulate and correspond to each of 5 Hova Bodies, for a total of 15 Primary Chakras. Primary Chakras 1-12 correspond to Kathara Centers 1-12 in the Personal and Planetary Kathara Grids and Primary Chakras 13-15 correspond to the *first 3 Kathara Centers and Axiom Lines* of the Universal Kathara Grid. Chakras 13-15 are considered Universal Trans-stellar Chakras.

The *Chakras* regulate the *transduction of flash-line sequences* from the *Dimensionalized Unified Field* and *Diodic Vortices* of the Axiom Lines and Auric Field Levels into the *Hova Body tissue capsules* and *rivulet channels* that connect to the physical, electro-magnetic, chemical and hormonal aspects of the visibly manifest form. Chakras regulate the flow of consciousness-energy between the dimensionalized Auric Field levels of the Hova Bodies, keeping the various multi-dimensional stations of consciousness separate, in order to allow for experiential perception of holographic manifestation. Each Chakra circulates its Single Axis flash-line sequence along the angle of projection carried within its corresponding Axiom Line, and this *angle of flash-line projection* determines the Angular Rotation of Particle Spin (ARPS) – or the *axis upon which particles rotate*- within each dimensionalized portion of the anatomy. There is a 90-degree shift in the *flash-line angle of projection* from one Chakra and dimensional band to the next, which creates a 90-degree shift in the Angular Rotation of Particle Spin between each dimensionalized portion of the anatomy. Between each 3-dimensional Hova Body there is also a 45-degree reverse shift in flash-line projection angle, which creates a 45-degree rather than a 90-degree forward shift of flash-line projection angle between each Hova Body and between each set of 3 Chakras (Chakras 1-2-3 * 4-5-6 * 7-8-9 * 10-11-12 * 13-14-15). The precise angles of flash-line projection and ARPS between Chakras, creates the perceivable 3-dimensional hologram.

Chakras

A Chakra appears within the bio-energetic field as 2 cones or spirals of multi-colored energy that are linked together at the tip in the Central Body Current through the Seed Crystal Seal out of which the cones emerged. Chakras 2-6 extend from the Seed Seals outward through the body and Auric Field on a Horizontal axis and Chakras 8 and 9 intersect with 6 and 7 at the *Pineal Gland* on 2 rotating Diagonal axes running through the head. Chakras 1 and 7 and 10-14 are stacked above and below the body on a Vertical Axis aligned with the *Central Body Current* (CBC) and the *Central Vertical Kathara Line*. Chakras 1&7, 10&12, 11&13 and 14&15 are actually the bottom and top cones of 4 Large Vertical Chakra Spirals, but are counted as separate chakras. Chakra 15 is a "roving chakra", which travels the course of the 12 Primary Axiom Lines far out in Level–15 of the Auric Field. Each Chakra draws in energy from and transmits energy into the dimensional Unified Field corresponding to the *chakra number* and carries as its dominant perceivable color the hue characteristic to the primary frequency band wave-length of its dimensional affiliation.

Chakras and Dimensional Merkaba Fields

When the Seed Seal at the core of a Chakra is released, the 2 cones of the Chakra move through each other to form a Dimensional Merkaba Field- *2 counter-rotating spirals of electro-magnetic energy that take the form of a Star-tetrahedron.* When the Seed Crystal Seal releases, the corresponding scalar-wave points within the Hova Body Shield are *released from Dimensional Phase-lock* – they are released from *polarity* by the re-combining of their inherent *Particum-Particles* and *Partika-anti-particles*. Through re-combining Particum and Partika the scalar standing-wave points undergo fusion, then a reciprocal fission and replication within the Harmonic above. Through release of the Seed Seals the *Dimensionalized Auric Field Levels* of the *lower Hova Body* align along the same *Angular Rotation of Particle Spin* / angle of flash-line projection, which transmutes them into the *angle of flash-line projection* and *Partiki Phasing rate* of the Dimensionalized Auric Field Levels of the Hova Body from the *Harmonic* above. Seed Crystal Seals are released by infusing them with the frequencies/ flash-line sequences of the corresponding dimension from the Harmonic above. Progressive release of the Seed Seals within the Chakras creates opening and merging of the Kathara Lines in the Level-1 12-Tree Grid, and merging of the *Hova Bodies, Shields, Diodic Points, Auric and Identity Levels* and *DNA strands, through which activation of the Merkaba Vehicle and de-densification of matter occurs.*

AXI-A-TONAL LINES, THE HARA LEVEL, 6 HARA POINTS AND COMPLEXES

Axiom Lines, Rotating Flash-line Projection and the Human Body

Each Seed Crystal Seal within the Signets of the Hova Body Shields holds the electro-tonal program for a Single Axis Axiom Line flash-line projection. **The flash-line sequences of each Axiom Line are not simply *stationary* single-line projections of flash-lines, but rather operate as *rotating* single-line projections**. Each rotating Single Axis flash-line projection is ***synchronized*** with the other rotating Single Axis flash-line projections of Axiom Lines from the other Seed Crystal Seals. Through the ***rotational synchronization*** of the Axiom flash-line sequences, the flash-lines of each Axiom Line regularly cross through each other, and through the vertical and horizontal flash-line sequences from the Level-1 and Level-2 Kathara Grid. The points of *synchronized flash-line crossover* form ***consistent points of intersection*** through which the **Level-3 Diodic Vortices** and **Chakras** manifest. Within the human body and Aunc Field the **consistent points of flash-line crossover** can be charted in the form of fixed **lines of energy** that run through the body. **The charted Axiom Lines within the human body represent series of regularly scheduled flash-line intersection points, created through the synchronized rotation of the Single Axis Axiom flash-line sequences.**

Axiom A Lines – "Axi-A-Tonal" Lines in the Human Body

The consistent points of Axiom Line flash-line crossover that form fixed lines of energy within the body can be charted as **Axiom A and B Line** energy flows within the body. The Axiom A Lines correspond to the body manifestation in the particle universe, the B Lines to the body double in the anti-particle universe. **For Kathara Healing applications the A Lines – Axi-A-tonal Lines- of the particle body are used for various purposes of facilitating Kathara Center realignment and revitalization of the Body-Mind-Spirit System.** Within the body the Axi-A-Tonal Lines can be charted as **Primary Flow Lines** – conduits through which energy-consciousness, in the form of scalar-point flash-line sequences, circulates through the morphogenetic field. The fixed flash-line crossover points that form the **charted Axi-A-Tonal Lines** appear in the body as a set of **12 Vertical Flow Lines**, one running from each of 12 Aunc Field Levels, which run through the body within the **Level-2 Crystal Seals Kathara Grid**. Each Axi-A-Tonal Line corresponds to one of 12 Dimensional Frequency Bands, Kathara Centers, Seed Crystal Seals, Chakras and DNA strand imprints. **The 12 Primary Axi-A-Tonal Lines appear to enter and leave the body through the head and feet, with conduits running through the arms, hands and out the finger-tips, and through the legs, feet and out the tips of the toes. Each Axi-A-Tonal Line appears as a colored cord of energy, its hue determined by the wave length characteristic to its corresponding dimensional frequency band.** In charting the positions of the 12 Primary Axi-A-Tonal Lines in the body, **numbering** and **color** are used to denote the *Dimensional correspondences* of each Axi-A-Tonal Line.

Axi-A-Tonal Lines 11 & 12 and the "Hara Line"

Axi-A-Tonal Lines 11 and 12, which correspond to the 11th and 12th Dimensions, Kathara Centers, Seed Seals and Chakras, run vertically through the center of the body along the Kathara Grid Level-1 **Central Vertical Kathara Line**, forming a ***twisted "rope"*** of Dark Silver (D-11) and White (D-12) energy that wraps around the Central Vertical Kathara Line Flash-line Sequence. The **Central Vertical Kathara Line**, which appears as a **thin Silver-gold flash-line of energy** running from the 14th Chakra (36"above the head) through the body and into the 13th Chakra at Earth's Core, is imbued with frequencies from the **12th, 11th and 8th Dimensions** – the frequencies of White, Dark Silver and Gold.

In *Level-2 Kathara Grid*, the rotating single axis flash-lines of *Axi-A-Tonal Lines 11* and *12* spiral around the thin Silver-Gold flash-line of the *Central Vertical Kathara Line*, merging into a thin, vertical tri-tonal flash-line of primarily *Gold* hue that becomes the core of the *Central Body Current*. In ancient Eastern Healing Systems this **thin Gold Vertical Line** is called the **"Hara Line"**, and is often considered the foundation of the manifest form. In truth, the **Level-1 Kathara 12-Tree Grid** and the *Signets*, *Crystal Seals* and *Shields* of **Kathara Level-2** are the deeper foundations upon which the Hara Line manifests.

The *Hara Level* of Kathara Level-2 Crystal Seals Grid

The mechanics of the Crystal Seals in the Level-2 Kathara Grid are complex, but can be employed with relative ease through working with the energetic dynamics of the ***outer levels* of the Level-2 Kathara Grid**, the level in which the *Hara Line* can be viewed using *9th-dimensional Higher Sensory Perception*. We refer to this level of the Level-2 Crystal Seals Grid as the **HARA LEVEL**. The Hara Level is composed of the Hara Line, and 6 of the 15 Star Crystal Seals of the Kathara Level-2 Crystal Seals Grid.

The *6 Hara Points* (Crystal Seals) apparent from the Hara Level are as follows:

1. The 9th *Silver* Core Star Crystal Seal, called the **HARA CENTER**
2. The 6th *Indigo (or Blue-Violet)* Star Crystal Seal, called the **SOUL STAR**
3. The 12th *White* Star Crystal Seal, called the **GALACTIC STAR**
4. The 3rd *Yellow* Star Crystal Seal, called the **SUN STAR**
5. The 8th *Gold* Star Crystal Seal, called the **EARTH STAR**
6. The 10th *Blue-Black* Star Crystal Seal, called the **EARTH CORE SEAL**

The 6 Hara Points govern and regulate the function of **Complexes** of *energy synthesization and distribution* that control the operations of all primary body systems and bio-energetic field dynamics. In *Kathara Healing Level-2* we will explore mechanics of the Hara Level. In Level-1 Kathara Healing we will simply become familiar with Hara Level as an element of 15-dimensional human anatomy.

THE HARA AND THE KUNDALINI

The Silvery-gold energies of the **Hara Center** (9th Star Crystal Seal) are interwoven at the **base of the spine** with what is referred to as the **KUNDALINI life-force energies.** The Kundalini energies represent the **PRIMARY ENERGY CURRENTS** through which the incarnating consciousness anchors its morphogenetic field within the **Fetal Body** through the **FIRST 8 CELLS** of conception. **The Hara Center energies interweave at the base of the spine with the frequencies of the first Star Crystal Seal, the *RED Star Seal*,** in the First Cell. When the Hara Center Seal is dormant and activated only to *the 3-Dimensional Level* its Pale Silvery-gold frequencies appear to be encased within a **crimson RED sheathe** of 1st-Dimensional energy, often **making the Hara Center and Hara Line appear to be RED in color.** As the Hara Center comes into activation through progressive release of the 9th Star Crystal Seal, the Gold 8th-Dimensional and Silver 9th Dimensional frequencies of the Hara become the dominant hues, giving the Hara Center and Hara Line its natural **Silvery-gold color.** With full activation of the Hara Center and 12th-Dimensional **Maharic Integration,** the tri-tone frequencies of the Hara Center and Hara Line take on a **tri-color spectrum of Pale Silver, Gold and Red-Violet** (pale Magenta), as the Kundalini primary life force currents at the base of the spine activate within the Central Vertical Current of the body. Full activation of the Kundalini merges the 7th-Dimensional **Violet,** 1st-Dimensional **Red,** 8th-Dimenional **Gold** and 9th Dimensional **Silver** frequencies with the full spectrum **White-Silver** energies of the 12th Dimensional Maharic Current.

The Hara Center, like all Star Crystal Seals, is one of the primary regulatory elements of the natural Kundalini energies. As the Kundalini energies at the base of the spine are brought out of higher dimensional dormancy, through progressive activation of the Star Crystal Seals in the Kathara Level-2 Crystal Seals grid, the Hara Center progressively reflects these changes by expanding in size and energy processing capacities and taking on the hues (wave spectra) of the higher dimensional frequencies. The **Kundalini energies at the base of the spine are the key to physical cellular transmutation** of the body. Kundalini energy currents **regulate the physical body's position in space-time,** keeping the physical body phase-locked into the planetary Time Cycle in which it was conceived, following the mathematical programs set by the Star Crystal Seals and the Kathara Grid. For physical transmutation to occur, the Kundalini energies of the higher dimensions must be brought into embodied activation, setting the processes of the **Internal Templar Complex** in motion.

The **DNA Template** manifests upon the programs set by the **Kathara Grid.** As the Kathara Centers and their corresponding Star Crystal Seals, Shields, Kundalini currents, Cranial-Sacral (Pineal-Tailbone) Seals, Seed Crystal Seals and Chakras activate, dormant DNA Strand Template also activate, progressively altering the **Angular Rotation of Particle Spin,** energy-processing capacities, **metabolic orientation and neurological processes** of the body and molecular structure. As these physical changes occur through activation of the Crystal Seals and Kundalini energies, the **Merkaba Vehicle** (interdimensional counter-rotating electro-magnetic fields in star-tetrahedral form) progressively builds within the bio-energetic field, allowing the physical body **release from phase lock** within its home space-time vector. **Activation of the Hara Center represents one of the stages of this natural transmutational process.**

THE HARA CENTER

The 9th Core Star Crystal Seal, the Hara Center (Tan Tein) and the D-9 Thalamus Complex

The **Star and Seed Crystal Seals** of the Level-2 Kathara Grid that hold consciousness into the dimensional phase-lock set by the Level-1 Kathara Centers accrete along the Central Vertical Kathara Line and the Central Body Current. **From the *Hara Level* – the *outer portions of the Level-2 Kathara Grid* - the *12th, 9th and 6th Star Crystal Seals*, appear as *areas of condensed light* positioned along the *vertical Hara Line*.**

The **9th Star Crystal Seal**, located about 2 " below the Navel is known as the ***Core Star Crystal Seal*** – the point of **8th and 9th dimensional frequency** of the Harmonic-3 Over-Soul Matrix (***Teuric Shield***) that **anchor the personal morphogenetic field into that of the Earth and serve as the center of gravity** for the adult human body. **The *Core Star Seal* appears from the Hara Level as a 2" ball of Gold (D-8) energy encased in a thin Silvery (D-9) membrane; in Eastern theory this ball of energy is called the *Tan Tein*, and is used for direction of bodily and Earth energies in advanced martial arts and healing practices.** In Kathara theory we simply refer to this energy ball as the ***Hara Center***, or the 9th **Core Star Crystal Seal.**

The ***Hara Center*** is the point at which the dimensionalizing identity enters the **Etheric Matter densities** of Harmonic Universe-3. The Hara Center represents the point into which the **Over-Soul Identity, its Monadic Core, the Betcha Hova Body** and **Kathara Centers 7, 8 and 9** first anchor within the body. The Hara Center holds the morphogenetic imprint for **DNA strands 7, 8 and 9,** corresponds to **Chakra Centers** and **Axi-A-Tonal Lines 7,8 and 9** and is a key point for repatterning the electro-tonal programs of the **Teuric Shield** and realigning and activating corresponding DNA strands, Chakras, Axi-A-Tonal Lines and body regions they govern.

The Hara Center is associated with the ***Thalamus Complex***, the chemical translation and regulatory system that governs the **9th-Dimensional interface** between various **brain-function areas** and the glandular and metabolic operations of the **Thymus Complex, Gonads, Lymphatic System** and corresponding body systems. Through the ***9th-Dimensional Thalamus Complex*** the electrical impulse, chemical and hormonal relationships between the ***10th-Dimensional Shara Complex*** and the ***8th-Dimensional Thymus Complex*** and its related body systems are governed.

The Hara Center and the Thalamus Complex link the functions of the **Mahara** and **Betcha Hova Bodies,** the **Maharic** and **Teuric Shields** and the **Avatar** and **Over-Soul** levels of consciousness and identity within the body and bio-energetic field.

The primary area of dominion of the *D-9 Thalamus Complex* is *Brain Function*.

THE SOUL STAR

The 6th Soul Star Seal and the D-8 Thymus Complex

Also visible along the Hara Line of Kathara Gnd Level-2 is the **6th Star Crystal Seal**, located around the **Thymus** at the top of the breast bone and associated with the **5th and 6th dimensional frequencies** of the Harmonic-2 Soul Matrix (*Doradic Shield*). The **6th Star Seal**, visible as a **pale Blue-Violet-white point of diffused light** along the Hara Line, is called the *Soul Star Seal.*

The *Soul Star Seal* is the point at which the dimensionalizing identity enters the **Semi-Etheric Matter densities** of Harmonic Universe-2. The Soul Star represents the point into which the **Soul Identity**, its **Archetype Core**, the **Alphi Hova Body** and **Kathara Centers 4, 5 and 6** first anchor within the body. The Soul Star holds the morphogenetic imprint for **DNA strands 4, 5 and 6**, corresponds to **Chakra Centers** and **Axi-A-tonal Lines 4, 5 and 6** and is a key point for repatterning the electro-tonal programs of the **Doradic Shield**, and realigning and activating corresponding DNA strands, Chakras, Axi-A-Tonal Lines and body regions they govern.

The Soul Star is associated with the **Thymus Complex**, the chemical translation and regulatory system that governs the **8th-Dimensional interface** between the **Pineal, Pituitary**, and **Thyroid Glands**, which govern the chemical and metabolic operations of the **hormones, Adrenal Glands, Endocrine System, Spleen**, and *crystalline* formation of the **Red Blood Cells** and **Hemoglobin.**

The *Thymus Complex* and its related glandular and metabolic systems, govern the *cyclic rhythms* by which the **DNA strands** will activate through the **Pineal Gland**, the rate of *growth and degeneration* of body tissue through the **Thyroid Gland** and through the **Pituitary Gland** and its inter-glandular processes, the functions of *electro-tonal impulse conversation, translation and distribution* through the **brain, Central Nervous System** and **blood** are regulated.

The *Thymus Complex* controls the **inter-glandular systems balances** between the **Pineal, Thyroid and Pituitary Glands** and regulates the *primary operations* of electrical impulse and chemical translation and transfer throughout the brain and body systems via the **Thymus Gland.** The *8th-Dimensional Thymus Complex* is governed by the functions of the *9th-Dimensional Thalamus Complex* and the *10th-Dimensional Shara Complex.*

The Soul Star and the Thymus Complex link the functions of the **Betcha** and **Alphi Hova Bodies**, the **Teuric** and **Doraidic Shields** and the **Over-Soul** and **Soul** levels of consciousness and identity within the body and bio-energetic field.

The primary area of dominion of the *D-8 Thymus Complex* is *Metabolic Function.*

THE SUN STAR

The 3rd Sun Star Seal and the Nadial Complex

Also present, but less distinctly visible along the Hara Line of Kathara Grid Level-2 is the 3rd **Star Crystal Seal**, located just beneath the **Hara Center** of the 9th *Star Seal* 2" below the Navel and associated with the 2nd and 3rd **dimensional frequencies** of the Harmonic-1 Incarnate Matrix (*Telluric Shield*). The 3rd **Star Seal**, visible as a subtle pale **Yellow-Orange-Red point of diffused light** along the Hara Line, is called the *Sun Star Seal*. Due to its proximity to the Silver-Gold *Hara Center* 9th Star Seal the Sun Star is often considered to be part of the Hara Center, but in deeper Hara Level scanning the distinction between these crystal seals can be evidenced. The *Sun Star Seal* is the point at which the dimensionalizing identity enters the **Gross Physical-Matter densities** of Harmonic Universe-1.The Sun Star represents the point into which the **Incarnate Identity**, its **Subconscious-Telluric Core**, the **Nada Hova Body** and **Kathara Centers 1, 2 and 3** first anchor within the body. The Sun Star holds the morphogenetic imprint for **DNA strands 1, 2 and 3**, corresponds to **Chakra Centers** and **Axi-A-tonal Lines 1, 2 and 3** and is a key point for repatterning the electro-tonal programs of the **Telluric Shield**, and realigning and activating corresponding DNA strands, Chakras, Axi-A-Tonal Lines and body regions they govern.

The Sun Star is associated with the **Nadial Complex**, the electrical impulse and chemical translation and regulatory system that governs the 4th **-Dimensional interface** between the **Thymus Complex, Thalamus Complex** and the functions of the **physical body systems**, through which the electrical, chemical and metabolic operations of the **Blood, Cardio-Vascular, Pulmonary** and **Respiratory Systems** are governed. The Nadial Complex governs the operations of **Heart and Breathing rhythms**, the flow of consciousness-energy or **"Prana"** from the higher dimensional anatomy into physical embodiment and regulates many key functions within the processes of **nutrient conversion and distribution** within the Skeletal and soft tissue systems. The *Nadial Complex* **is a key center for the direction of healing energies within the Nada Hova Body, Telluric Shield and physical body systems.**

In advanced applications of healing and manifestation, the Nadial Complex is combined with the attributes of the **Shara, Thalamus** and **Thymus Complexes** and with the **Universal Raja Complex** of Harmonic-5, which links the human body to the planetary, galactic and universal Unified Fields through the *12th and 13th Chakras* and *10th Star Crystal Seal* at Earth's core via the *Planetary Bio-Feed Interface System*. The frequencies of the *3rd Sun Star Crystal Seal*, that govern the function of the *Nadial Complex* can be combined with those of the 9th Core Star Seal *Hara Center* and the *8th and 10th Star Crystal Seals* through the 12th and 13th Chakras, *PBIS, Doradic, Teuric, and Maharic Shields* and *Raja Complex* to form a potent **Teuric-Telluric Current** for **healing and manifestation**, once the *Doradic* and *Teuric Currents* have been activated within the body.

The *Sun Star* and the *Nadial Complex* link the functions of the **Alphi** and **Nada Hova Bodies**, the **Doradic** and **Telluric Shields** and the **Soul** and **Incarnate** levels of consciousness and identity within the body and bio-energetic field.

The primary areas of dominion of the D-4 *Nadial Complex* are *Cardio-Vascular, Pulmonary* and *Nutrient Absorption/Conversion Functions.*

THE GALACTIC STAR

The 12th Galactic Star Seal and the D-10 Shara Complex

The third point of condensed light visible along the Hara Line of Kathara Grid Level-2 is the **12th Star Crystal Seal**, located at the **14th Chakra** 36" above the head and associated with the **11th and 12th dimensional frequencies** of the Harmonic-4 Avatar Matrix (*Maharic Shield*). The **12th Star Seal**, visible as a **White-Silver point of Light emanating an inverted White-Silver-Gold *cone of energy* at the 14th Chakra**, is the White Star or ***Galactic Star Seal***.

The *Galactic Star Seal* is the point at which the dimensionalizing gestalt identity enters the **Pre-Matter Liquid Light densities** of Harmonic-4, the point at which identity begins its individuation and journey of densification into the wave spectra of perceivably experiential matter. The Galactic Star represents the point into which the **Avatar Identity, its Buddhaic Core, the Mahara Hova Body** and **Kathara Centers 10, 11 and 12** first anchor within the **Bio-energetic Field** to begin setting the scalar field for the body. The Galactic Star Seal holds the morphogenetic imprint for **DNA strands 10, 11 and 12**, corresponds to **Chakra Centers** and **Axi-A-Tonal Lines 10, 11, and 12** and is a key point for repatterning the electro-tonal programs of the **Maharic Shield**, and realigning and activating corresponding DNA strands, Chakras, Axi-A-Tonal Lines and body regions they govern.

The Galactic Star is associated with the *Shara Complex*, the regulatory system that governs the **10th-Dimensional Interface between the D-9 Thalamus Complex** and the D-13 portion of the **Rishi Shield** in Harmonic-5. Through the Shara Complex the Scalar Fields holding the gestalt identity of Harmonic-5 Rishi Consciousness Collective- the "*Universal Family of Consciousness*" – translate via electro-tonal conduction, into the more individuated Scalar Fields that house the Avatar identity gestalt Consciousness Collective- the "*Galactic Family of Consciousness*".

The **Shara Complex *regulates the disbursement of consciousness*** in individuated form through the dimensional fields of the Time Matrix and serves to link each individuated and incarnate member of the Geomantic Entity Collective beyond the Time Matrix, to its Avatar identity and Galactic Family of Consciousness in Harmonic Universe-4, through the Universal Family of Consciousness of the Rishi identity in Harmonic Universe-5. The Shara Complex represents the primary facility through which an individual consciousness retains its indelible energetic connection to its greater **family of consciousness**, through which it is directly linked to **Source**.

The Shara Complex governs, regulates and orchestrates the transduction, translation and cyclic rhythms of **electro-tonal projection of consciousness into dimensionalization**, sets the original operational structures of **Kathara Scalar Grid** arrangement and directs the synchronistic **evolution of families of consciousness** through time. Through the operations of the Shara Complex, an identity's cycles of **incarnation and manifestation** within the 5 Harmonics of a 15-Dimensional Time Matrix are regulated, which sets the **core regulatory rhythms of Partiki Phasing**, expansion and contraction of consciousness, and vibration-oscillation ratios that govern **the formation and function** of the **Thalamus and Thymus Complexes** and all aspects of the individuated **Kathara Grid, Bio-energetic Field and bodily systems**. The Shara Complex controls the cycles of in-flow and out-flow of energy between the personal morphogenetic field and that of the dimensional Unified Fields, and thus affects all systems of the body and consciousness, with a primary emphasis upon the functions of the **blood, consumption-excretion and immunological facilities** of the body and of the activation of the **higher dimensional sense facilities** within the embodied consciousness.

The Shara Complex links the functions of the **Mahara and Raja Hova Bodies**, the **Maharic and Rishic Shields** and the **Avatar and Rishi levels of identity** within the embodied consciousness. **Primary area of dominion of the D-10 Shara Complex is the Immune System and HSP.**

THE EARTH SEALS

Earth Seals 8 and 10 and the Raja Complex

Within the Hara level of field depth in which the 3rd Sun Star Crystal Seal can be detected there are 2 other Star Crystal Seals of primary importance stationed along the Hara Line of Kathara Grid Level-2; these are referred to as the **Earth Seals**. The Earth Seals function as intrinsic aspects of the **Planetary Bio-feed Interface System** and the ***Raja Complex***. The **8th Star Crystal Seal**, called the ***Earth Star Seal*** is located within the **12th Chakra** 6" below the feet and is associated with the **7th, 8th and 12th dimensional frequencies** of the Harmonic-3 Over-Soul Matrix (***Teuric Shield***) and the Harmonic-4 Avatar Matrix (***Maharic Shield***). The Earth Star is visible as a subtle **Gold-Orange point of diffused light** positioned along the Hara Line **6" below the feet**, as the Hara Line leaves the physical body through the 1st Base Chakra to extend downward into the Earth's core. The **10th Star Crystal Seal**, called the ***Earth Core Seal***, is located within the **13th Chakra** where the Hara Line connects into the Earth's Core and is associated with the 9th, 10th, 12th and 13th dimensional frequencies of the Harmonic-3 Teuric Shield, Harmonic-4 Maharic Shield and Harmonic-5 Rishi Matrix (***Rishic Shield***). The Earth Core Seal is visible as a **pale Blue-Black point of diffused light** positioned in the **Earth's Core**, at the point where the personal Hara Line connects to the center of the Earth's Core at the *1st and 12th Planetary Kathara Centers*.

The ***8th Earth Star Seal*** is the point at which the dimensionalizing identity combines the 12th-dimensional frequencies of the **Harmonic-4 Pre-matter Liquid Light density** with the 8th and 9th-dimensional frequencies of the **Etheric Matter densities of Harmonic-3** to connect the personal morphogenetic field and Kathara Grid to those of the Planetary Body. The **Earth Star Crystal Seal** can be viewed as the point where **Personal and Planetary Kathara Grids connect to Galactic Kathara Grid.** The Earth Star represents the point into which the **Mahara and Betcha Hova Bodies, Kathara Centers 8, 9 and 12 and the 12th Galactic Star Seal and Shara Complex** first anchor into the **Planetary and Galactic Kathara Grids.** The Earth Star holds the morphogenetic imprint for **all DNA strands for all manifest incarnations in *4 Harmonics of Time***, corresponds to **Chakra Centers and Planetary Vortices** and **Personal and Planetary Axi-A-tonal Lines 8, 9, 10 and 12** and is a key point for repatterning the electro-tonal programs of the ***Personal* Maharic, Teuric, Doradic and Telluric Shields**, and realigning and activating corresponding DNA strands, Chakras, Planetary Vortices, Axi-A-Tonal Lines and personal or planetary body regions they govern. In the **Maharic Shield Activation process** the **Earth Star** is activated to release phase-lock on the **12th Chakra** to open the personal Kathara Grid to the PBIS.

The ***10th Earth Core Seal*** is the point at which the dimensionalizing identity combines the frequencies of the **8th Earth Star Crystal Seal** with the **13th-dimensional frequencies of Harmonic-5 Ante-matter density** to connect the personal and planetary morphogenetic field and Kathara Grid to those of the Universal Kathara Grid of Harmonic-5. The **Earth Core Seal** can be viewed as the point where **Personal, Planetary and Galactic Kathara Grids connect to the Universal Kathara Grid.** The Earth Core represents the point into which the **Rishi Identity, the Raja Hova Body and Universal Kathara Centers 1, 2 and 3** first anchor into the 3rd Earth Star and 12th Galactic Star Seals to form the Raja Complex of 5 Harmonic scalar fields through which personal, planetary, galactic and universal expenential manifestation takes place. The Earth Core Seal corresponds to **Chakra 13**, and holds the morphogenetic imprint for **all manifest incarnations of persons, planets and galaxies within the 5 Harmonics of Time in one 15-dimensional Time Matrix.** Through the combined frequencies of the Earth Star and Earth Core Seals the personal Kathara Grid connects to the Planetary, Galactic and Universal Kathara Grids forming the Planetary Bio-feed Interface System and the ***Raja Complex*** – or ***Universal* Bio-feed Interface System** – that links personal, planetary, galactic and universal consciousness in time.

THE RA CENTER

The 3rd Sun Star Seal, 8 and 10 Earth Seals and *RA Center*

When combined with PBIS, Doradic, Teuric and Maharic Shields and **Raja Complex**, the 3rd **Sun Star Crystal Seal** and the 12th **Core Star Crystal Seal** *Hara Center merge* to form a *Teuric-Telluric Current* that encompasses the *Seed Crystal Seal* within the 3rd **Solar Plexus Chakra**, forming a ***sphere of powerful healing energies*** at the 3rd **Chakra** called the **RA Center**. In **Kathara Healing Level-2** we will begin activation of the *Teuric Current* of the Harmonic-3 Betcha Hova Body, through activation of Doradic Current Phase-2 and will explore beginning applications of combining the Doradic Phase –1 and Teuric Currents with the natural *Telluric Current* of the Harmonic-1Nada Hova Body to begin bringing the RA Center for **healing and manifestation** into activation. (For more on the 4 Primary Triadic Healing Currents see Chapter 4 of this manual.)

The Hara Level of Kathara Level-2 and the 6 Primary Hara Points

Though the study of the Crystal Seals of Kathara Level-2 Crystal Seals Grid is complex in detail, one can become skilled in healing facilitation through Crystal Seals mechanics by learning the basic orientation of the **outer levels** of the **Kathara Level-2** scalar grid – ***The Hara Level.*** In simple analysis, the ***elements* of the Hara Level can be viewed as follows:**

The Hara Line – the Central Body Current, that is formed by the *11th and 12th Axiom Lines* wrapping around the fixed flash-line sequence of the *Level-1 Kathara 12-Tree Central Vertical Kathara Line.*

The 6 Primary Hara Points: Star Crystal Seals 1. # 9-Hara Center, 2. #6-Soul Star, 3. #12 Galactic Star, 4. #3-Sun Star, 5. #8-Earth Star and 6. #10-Earth Core. Each primary Hara Point governs the function of a **complex** of interwoven scalar, bio-energetic and physical systems. Knowledge of the 6 **Hara Points** and the **Thalamus, Thymus, Shara, Nadial** and **Raja Complexes** they respectively govern, allows the healing facilitator a greater understanding of the 15-dimensional anatomy. Such **Foundations of Kathara Healing** are necessary in preparation for **Kathara Healing Level-2** practices that will utilize the **Hara Level** of the **Kathara Level-2 Crystal Seals Grid** in combination with the Kathara Healing Level-1 **Maharic Recoding Process** and other elements to begin activation of the **RA Center** for advanced healing and manifestation.

Axi-A-Tonal Lines 1-10

In our exploration of the Hara Level of the Crystal Seals Grid we have learned that of the **12 Primary Axi-A-Tonal Lines,** (12 primary vertical energy-flow lines within the body and bio-energetic field, created by cross-over points of the rotating, single axis, flash-line sequences projected by each of 12 Seed Crystal Seals), the 11th and 12th Axi-A-Tonal Lines spiral around the Kathara Level-1 12-Tree Grid *Central Vertical Kathara Line* to form the Hara Line and Central Body Current. Axi-A-Tonal Lines 1-10 also run vertically through the body, from the head to the toes and through each arm to the finger tips, connecting body regions to corresponding levels of the Auric Field, Chakras, Kathara Centers, Crystal Seals and DNA. The sequence of Axi-A-tonal Line position is as follows:

Right Side of Body to Center- 3,6,9,2,8 **Center of Body**-11, 12 **Center to Left Side of Body**-. 5,1,10,7,4 Each line of Axi-A-Tonal Lines 1-10 ends in one finger-tip and toe on the corresponding side of the body, and runs vertically through the top of the head to merge with Axi-A-Tonal Lines 11 and 12 and the Hara Line at **Chakra 10**, and down through the feet to merge with the Hara Line at **Chakra 12.**

Knowledge, KNOWING and the Imprint for Health

Knowledge is an agent of freedom, IF it is used to foster practical applications of change. Knowledge can also become a *perpetual quest of distraction*, through which we deny ourselves the ability to EMBRACE the experience of living as we seek outside of ourselves the answers that live within. **Knowledge is power if it is applied appropriately, it can be an agent that leads one through the door to the WISDOM that awaits on the other side.** Knowledge alone cannot provide cognition, cognition comes through the *application of applied knowledge* to provide **tangible, experiential** KNOWING, a knowing derived only through the direct experience of BEING. **In Kathara Healing™ *knowledge* is applied as a *tool* through which one can grow into the *wisdom of direct experience*** - from ***thinking or believing***, which are knowledge/data-based characteristics of a mind perceiving itself as *finite* - to KNOWING, through Direct Cognition of the Experience of BEING, which is a characteristic of a consciousness KNOWING itself as ETERNAL. .

In our first lessons of Kathara Healing, we gained *knowledge* of the *Context of Healing* and the *structure* of that which exists within and around us, so that we may become more empowered to serve as a *healing force*, within ourselves and within the collective of the Whole. **But this knowledge will only become practical or useful to us if it is applied to foster the direct experience through which the wisdom of KNOWING may emerge.** Then, and only then, will we be changed...then and only then will we become *true agents of healing*. **Knowledge can help you to *understand the nature of health and healing*, but only through KNOWING HEALTH through *direct experience* will you be *healed*.** To KNOW HEALTH we must rediscover this quality within ourselves, to EXPERIENCE the *quality of wellness* that emerges as the **Imprint for Health** is reawakened within the human body. **First we must use *knowledge* to recognize that the *Imprint for Health* is there, sleeping silently within us awaiting this awakening.**

Healing the Causal Core

Fixing symptoms does not restore the *Imprint for Health*, it simply masks from view the *causal elements* through which non-health manifested. Removing the symptom *without addressing the underlying cause* simply sets the stage for the cause to *re-manifest itself* in new ways, through *new sets of symptoms*. **Each symptom you remove will give birth to another symptom if the *underlying cause* is not changed.** Kathara Healing addresses the **deepest *causal factor*** in manifestation, the **Holographic Template Kathara Grid**, upon which all conditions come into being **Within the intrinsic structure of the Kathara Grid the dormant *Imprint for Health* is sleeping, and through knowledge of the Kathara and applications of its methods we can reawaken the Imprint for Health within ourselves, to progressively move into KNOWING HEALTH** through the cognition of Direct Experience.

In Kathara Healing you are provided with the knowledge you need to understand the structures upon which the *Imprint for Health* is built, for in understanding these structures you will be enabled to call the Imprint for Health into awakening. **But it is through the APPLICATION OF KATHARA TECHNIQUE that you will AFFECT CHANGE. The technique applications offered in Kathara Healing allow you to "bring the knowledge home" to the core of its usefulness, the ability to lead you into the *direct experience of health-ward change*.**

Elements of Healing

In **PART II THE ELEMENTS OF HEALING**, we will apply the knowledge of the *Context of Healing* that we acquired in *PART I*, directly to its relevance in terms of the **HUMAN BODY**. We will now explore **Kathara Mechanics** as they apply directly to the human system, and you will gain the knowledge of your **15-Dimensional Anatomy** through which you may then effectively utilize **Kathara Mechanics Techniques** to begin your journey into the **EXPERIENTIAL REALITY OF HEALING**. We will discover the long forgotten potentials of the ***Planetary Bio-feed Interface System™*** and how to receive energy for healing directly from the Kathara Grid of the Earth. We will explore the real processes within and behind the experience of growth through time, so that we may finally identify the **true causal element intrinsic to the *degeneration* and *death* of the body.** We will come to understand the functions of the Body-Mind-Spirit System as they are **INTENDED to operate**, to identify the areas in which malfunction is occurring, so that we may *remedy the casual factors* to progressively restore the **INTENDED INTEGRITY OF THE BODY-MIND-SPIRIT SYSTEM. In PART II we will reclaim our knowledge of our *multidimensional anatomy*, and rediscover the buried secrets of awakening the *Imprint for Health*.**

MAHARIC SHIELD

The Imprint for Health and the *Maharic Shield*

Restoration of health within the body is a progressive endeavor that takes time. Portions of the Body-Mind-Spirit System that have been malfunctioning must readjust to a new process of function that will progressively work its way up from the core **Kathara Grid Holographic Template**, into the **Bio-energetic Field**, **Chakra System** and **DNA**, to progressively *reset* the **Imprint for Health** within the Body-Mind-Spirit System. **The Imprint for Health sleeps soundly now within a portion of the multidimensional anatomy called the *MAHARIC SHIELD*.** The Maharic Shield is a buried treasure of **REGENERATION and REVITALIZATION** of the human organism, as it is the key to *recoding the human Kathara Grid* back into its original Imprint for Health. **The *Imprint for Health* is a tangible construct of energy that is located within the structure of the *Maharic Shield*.** In calling these dormant energy systems into activation within the body, one has the opportunity to restructure the causal level of malfunction, and to recode the Holographic Template upon which malfunction manifests.

Axi-A-Tonal Lines are
Points where the rotating, single-axis flash-line sequences from the Seed Crystal Seals cross over and through each other to form 12 primary vertical flow-lines within the body. The Axi-A-Tonal Lines create the web-work of energy upon which the Kathara Grid Level-3 Diodic Points and the DNA manifest.

Each Axi-A-Tonal Line corresponds to a Dimension, DNA Strand, Kathara Center, Chakra & Seed Crystal Seal, & carries the color associated with the primary wave-length of its corresponding Dimension.

The 7 Primary Embodied Chakras emerge where the 11th & 12th Axi-A-Tonal Lines cross through each other as they spiral around the Central Vertical Current. Secondary Chakras form in areas where other Axi-A-Tonal Lines cross through each other.

Axi-A-Tonal Lines and the Meridians

The Axi-A-Tonal Lines within the body set the primary holographic scalar field upon which the Meridian Lines – or Secondary Flow Lines- of the body manifest. **The Meridian Lines can be used to access the Axi-A-Tonal Lines and the Axi-A-Tonal Lines can be used to access the flash-line programs of the Kathara Centers and 3 Levels of the Kathara Grid, if the *correspondences* between *the Meridians, Axi-A-Tonal Lines, Kathara Centers* and *Chakras* are understood.** For centuries the Meridian Lines and Chakras have been used in subtle-energy healing systems. This knowledge can be applied and the potential results of related healing techniques amplified by employing the correspondences between the Meridian and Chakra systems and the Axi-A-Tonal Lines and 3 Levels of the Kathara Grid. Bringing the Kathara Grid into the picture allows for restructuring the Imprint for Health within the *causal core* while *expediting* the healing process by restructuring the various other levels of the bio-energetic anatomy.

In Level-1 Kathara Healing we focus primarily upon Core Morphogenetic Repatterning – resetting the electro-tonal programs of the Kathara Grid through the uncorrupted programs of the ***Maharic Shield***- to set the "*ground*" into which other healing applications can anchor. In later Kathara Healing Levels we will explore technique applications that affect various other levels of the bio-energetic anatomy. **In Level-1 Kathara Healing we strive to create a basic familiarity with the elements of, and the interrelationships between, the various levels of bio-energetic anatomy.** Through understanding the basic correspondences between the 3 Levels of the Kathara Grid – the *Kathara Centers* and *Kathara Lines*, the *Hova Bodies*, Auric Levels, *Signets, Shields, Crystal Seals* and *Axiom Lines*, and the *Diodic Points* and *Chakras* – and the other aspects of energetic anatomy, such as the Meridian Lines and DNA, the healing facilitator is equipped with a knowledge base through which more precise healing facilitation can be applied. Meridian Lines and their applicatons to Kathara Healing will be explored in later Levels of the Kathara Healing Program.

The DNA Connection

In this Chapter we have explored the various elements of the 15-Dimensional Anatomy of the human form, from the Kathara Grid holographic scalar template, to the Hova Bodies, Shields, Axiom Lines, Chakra Centers, Auric Field Levels and the Hara Level with its related Complexes of energetic interface. Throughout all of these elements of the multi-dimensional anatomy we have seen how each element interrelates with the others through their *correspondences within the structure of the 15-Dimensional Scale*. The elements of the subtle body anatomy also systematically correspond to the structure and function of the human DNA. Through direct interaction with various elements of the subtle body anatomy, the operations of corresponding aspects of the human DNA can be repaired, enhanced and altered, to advance applications of healing, and to expedite the evolution of human biology and consciousness. In the *Kathara Healing Level-2 program* we will further explore the correspondences between the subtle body anatomy and the DNA, and methods by which the DNA can be repaired and activated to a more advanced level through employing the use of Kathara Healing mechanics.

The Silicate Matrix 12-strand DNA Pattern

The core human DNA imprint is built upon a **12-Dimensional** Structure, each of 12 strands building up upon one of the Primary 12 Axi-A-Tonal Lines and each strand corresponding to 1 of 12 dimensional frequency bands within the 15-dimensional scale. The original human DNA imprint is called the **Silicate Matrix**, the 12-strand scalar-wave configuration that allows for the progressive **transmutation** of Harmonic-1 carbon-based molecular-elemental structure into the Silica-based structures of higher Harmonic matter. The 12-strand DNA imprint of the human form implies that human biology was designed to embody **12 dimensions of conscious awareness**, or to fully embody the Avatar identity level - the "*Christed" identity* of Harmonic-4 Pre-matter Liquid Light matter density. The human form is organically designed to undergo **full cellular transmutation** through 4 Harmonics of manifestation and their corresponding matter density levels. When the gene code is working properly, the process of cellular transmutation is directed by the embodied human consciousness. In historical terms, the process of *conscious cellular transmutation* has been referred to as the process of **"Ascension"**, which is *Dimensional Expansion*, the mechanics of which have been hidden with ancient texts dealing with **Merkaba Mechanics**. The **Merkaba Vehicle** of inter-harmonic scalar-wave configurations, which forms within the bio-energetic field, is a consequence or *simultaneous affect* of progressive activation of the Silicate Matrix within the genetic [redacted].

The Silicate Matrix and Subtle Body Anatomy

Just as each Axi-A-Tonal Line of the subtle body anatomy has its correspondence to a Kathara Center, Crystal Seal, Axi-A-Tonal Line, Aunc Field Level and Chakra, so too do the DNA strands have their specific affiliations to each *dimensionalized element* of the subtle body anatomy. Each DNA strand translates into electrical-elemental-chemical form from the governing Axi-A-Tonal Line flash-line sequence to which it corresponds. The **Hova Bodies** and **Shields** of subtle body anatomy each correspond to a *set of 3* Axi-A-Tonal Lines, Aunc Field Levels and Chakras and thus also correspond to a set of **3 DNA strands**, that together create the experiential projection of separate 3-Dimensional holographic reality fields. Distortions and blockages in the Kathara Grid, Hova Bodies, Shields, Axi-A-Tonal Lines and Chakras appear as distortions and malfunction within the DNA. **The function of the DNA determines the *quantity of interdimensional frequency*, and thus the *amount of dimensionalized consciousness*, that can actively process through and embody within the physical body system.** DNA distortions manifest as distortions of biology and consciousness.

The 12 DNA strands of the Silicate Matrix are *sets of scalar-wave spectra* that correspond to each dimensional band, through which each dimensionalized level of the subtle body anatomy is translated into wave-spectra that is within the range of perceivable matter manifestation. *The DNA can be viewed as the primary structure through which subtle energy-consciousness translates into manifest physicality.* As each full dimensional band contains 12 primary Sub-frequency Bands (See Chapter 1 for Dimensional Structure), each of the 12 DNA strands contains *12 primary Seed Codes*, or *consolidated scalar points* composed of electro-tonal flash-line sequences, that correspond to the Sub-Frequency Bands within each dimension. The 12 primary Seed Codes within each DNA strand have an *anti-particle counterpart* composed of frequencies from the Anti-particle system. The 12 particle Seed Codes in each strand are called BASE CODES, their anti-particle counterparts are called ACCELERATION CODES. The Seed Codes of the core DNA scalar imprint are the *points of consolidated frequency* through which energy-consciousness is drawn in from the dimensional Unified Fields to expand the personal morphogenetic field.

DNA Fire Codes- Genetic Time Codes

Along with the **12 Base Codes** and **12 Acceleration Codes** of each DNA Strand Template there are also 12 Primary DNA Codes called **DNA FIRE CODES** that regulate the relationship between human biology and the **Planetary Time Cycle** in which the biology manifests. The DNA Fire Codes can be conceptualized as existing *between* the Primary 12 Strands of the Silicate Matrix. Each Fire Code is composed of one half of the scalar frequency patterns from each of the two Primary Strands that the Fire Code is placed between. Each of the 12 Fire Codes corresponds directly to one of 12 **Signet Star Crystal Seals** in the Personal Shields of the Internal Templar Complex, and with release of the corresponding **Signet Seal**, the Fire Code comes into activation.

The DNA Fire Codes release the natural scalar barriers between particle and anti-particle DNA Strands, allowing **STRAND FUSION** to occur. Fusion of DNA strands in the particle body with corresponding strands in the anti-particle body creates a progressive transmutation of the scalar wave forms of the DNA Template and Scalar Shields, through which the polarized Particum-**Particles** and Partika-**Anti-particles** merge and transform into their original Omni-polar Partikl **Ante-matter** state. Through strand fusion, the biological carbon-based biology progressively **lessens in density** as its elemental agents are transmuted from the Kathara level, into elemental agents characteristic of the higher dimensional matter densities. **Dimensional Ascension** is achieved through release of the Kathara Grid Seals. Release of the Kathara Grid Seals creates merger of the Hova Bodies, activation of the Kundalini energies, release of the Cranial-Sacral Crystal Seals, **fusion of the DNA Strand Templates via the DNA Fire Codes**, building of the Merkaba Vehicle in the bio-energetic field and the resulting transmutation of bodily matter and shift in Angular Rotation of Particle Spin within molecular construction. Through this transformational process the human biology is released from its organic phase-lock within its current space-time cycle, and is able to engage in **transcendental travel** through the various matter density levels and Time Cycles in and beyond the 15-Dimensional Time Matrix. **As the DNA Fire Codes regulate the body's orientation to space-time, they are also referred to as the GENETIC TIME CODES.**

The DNA Fire Codes are an essential element in the natural process of restoring the natural Immortal **Organic Imprint for Health** within the human body. The ability of the human form to become **perpetually self-sustaining** is dependent upon the Kathara Grid and DNA being able to continually renew the natural Primal Order of Maharic Shield scalar arrangement upon which the body is built, to keep the Star Crystal Seals and conduits of interdimensional energy supply open. **Perpetual revitalization of the body** is achieved through full activation of the 12-Strand DNA pattern. When activated, the **DNA Fire Codes** keep the Crystal Seals, the **interdimensional INTERNAL STAR GATES of energy inflow**, open, so the finite supply of frequency held within the personal Manifestation Template can be continually renewed. Restoration of the Organic Imprint for Health, as held within the **Maharic Shield**, is achieved through progressively clearing distortions of scalar-wave arrangements within the Kathara Grid, Shields and DNA Template and realigning the entire subtle energy and physical energy systems with the Primal Order of the Maharic Shield. This process of whole-being-healing does not occur overnight, as many genetic distortions (which emerge from Kathara Grid misalignment) have served as the dominant bio-electrical program within the human genome for many thousands of years. With knowledgeable practice of Kathara Grid realignment, and supportive healing applications within the various Body-Mind-Spirit systems, these inherited distortions can be progressively healed through Regenesis of the Primal Order as held within the personal Maharic Shield.

Science, "Junk DNA" and Evolution

In the contemporary human genetic code the majority of the DNA strands corresponding to higher dimensional anatomy and consciousness are dormant or damaged due to ancient blockages within the Kathara Grid and its corresponding elements of the subtle body anatomy. Present day humans function primarily on a 3 to 3.5 DNA activation level, while the imprint and potentialities for strands 4-12 lie dormant within the morphogenetic field and within the fragments of non-functional DNA that contemporary science has labeled *"junk DNA"*.

The portions of the DNA chain that science has presently identified as the "Double Helix", represent only the **surface portions** of the chemical, elemental and electrical components of the active DNA strands. Science has yet to identify the *multidimensional spectra* of DNA manifestation, and has yet to realize that within the structures of detectable DNA, there are *levels of structure and function* that direct the operations of the *entire genetic imprint*, which are *not presently detectable* by contemporary scientific technique. The human DNA imprint will always appear from external analysis, as a *2-strand Double Helix* configuration, but what is not understood, is that within this Double Helix there are, and will be progressively more, **additional Double Helix strands**, which *fuse together* and add their operational coding into the active DNA imprint. By contemporary standards of categorization, if science were to objectively observe the activated 12-strand pattern (or even an activated 4-strand pattern), the DNA would *not appear to be human at all*, but rather as the seemingly incomprehensible genetic signature of an "unknown" species. As science evolves into comprehension of the multi-dimensional spectrum, the understanding of the true structure and function of DNA will progressively advance.

DNA, Kathara Healing and Bio-Spiritual Evolution

One does not have to wait for scientific theology to catch up with a rapidly evolving humanity in order to begin advancing the functions of the DNA. Through the processes of Kathara Healing, as we work to clear blockages from the Kathara Grid and to reawaken the *Imprint for Health* within the human body, we are *simultaneously - directly effecting* the operational structure of the DNA. As we work to create Hova Body merger- *merging of the scalar-grid flash-line sequences of the 5 Harmonic Hova Bodies*- we are progressively reordering portions of the "junk DNA" and stimulating dormant portions of the DNA into activation. As we work with subtle energies to clear blockages within the Kathara Grid, we are progressively purging ancient distortions and mutations within the gene code, distortions that have kept our collective consciousness locked into the limited 3-dimensional perceptual range of Harmonic Universe-1.

It is through the ancient distortions of the human Kathara Grid and the resulting mutations of the human DNA, that the multidimensional portions of identity seem separate from each other. The higher levels of conscious awareness that are stationed within the scalar grids of the higher dimensional Hova Body Shields have been unable to *electronically translate* into the lower dimensional identity stations of the Nada Hova Body and its apparent physical manifestation. As we work with Kathara Healing to create progressive Hova Body merger and DNA strand ordering and activation, we will progressively experience *advancement of conscious awareness* and *expansion of the perceptual field* and *Higher Sensory Perception* (HSP). This expansion and advancement occurs because we are able to progressively embody higher frequencies of consciousness and scalar wave flash-line sequences into the personal morphogenetic field, via the energetic conduits of the DNA. **Kathara Healing modalities are the fastest and easiest methods available to repair and advance the function of the DNA and to expedite the organic processes of *Bio-Spiritual Evolution*.**

THE 12 HUMAN SENSES, APPARTHI AND HSP

Perception and the Hologram

In earlier text we have explained that **manifestation is not what it appears to be,** but rather a **Holographic Projection** of consciousness through the structures of **dimensionalization.** Further, that dimensionalization itself is a *compartmentalization* of consciousness created through units of consciousness (Partiki, Partika and Particum) *assembling in specific mathematical-geometrical ratios* to form **scalar grids,** interwoven fabrics of *fixed points of electro-tonal units* that form layers of standing-waves **-scalar waves** - that serve to "flesh out" the structure of the Hologram, through projection along a *vertical, horizontal* and *diagonal axis.* We have explored the **Kathara Grid** - the *core template* of scalar standing-waves upon which consciousness begins its experience of dimensionalization, the structures of the **15-Dimensional Universe** construction, and how these characteristics of the Hologram relate to forming the structure of **15-Dimensional Human Anatomy.** In understanding the basic foundations upon which our perceivable Hologram forms, we begin to better comprehend the nature of reality and of ourselves within this multi-dimensional reality structure. **Through the Holographic Projection of consciousness within the cosmic Unified Field of Energy-consciousness and its scalar fields of dimensionalization, we perceive the conditions of space, time, matter, externalization of reality and individuation of identity.** Within the Hologram of consciousness we perceive as **solid and objectified** the **wave spectra** and their inherent energy constructs of that which exists **precisely one dimensional band below the present station of our consciousness focus.**

In this section we will explore a bit about the **apparatus of perception** that allow us to perceive externalization in such a manner, the **facilities of energy inherent to the scalar-wave construct of the human form,** which together work to bring the Hologram into perceivable manifestation. We will call the constructs of energy formed through scalar organization, which allow for perception of the manifest Hologram, the **HUMAN SENSES.**

THE *HUMAN SENSES* ARE THE *EXPERIENTIAL RESULT* OF *ORGANIZATIONS OF WAVE PATTERNS* INHERENT TO THE ELECTRO-TONAL PROGRAM AND SCALAR ORGANIZATION OF HUMAN CONSTRUCTION.

What ARE Senses?

Senses are the **scalar-wave apparatus**, and their seemingly manifest parts, that allow the personal morphogenetic field to **synthesize and translate frequency** from the dimensional bands of the Unified Field, into **coherent perceptual and experiential qualities** that give embodied consciousness a **translation of its relationship to other forms of consciousness within the Unified Field.** Senses - or the apparatus which give us the *ABILITY TO SENSE*- are scalar arrangements inherent to our form that **TRANSLATE ENERGY SIGNATURES FROM THE UNIFIED FIELD INTO USABLE DATA OF RELATIONSHIP.**

Like the true substance of the human body and consciousness, the Unified Field exists as a *quantity of dimensionalized energy-consciousness in electro-tonal scalar wave form* - a compartmentalized field of **ENERGY SIGNATURES**, within which a vast number of **consciousness constructs** exist The human organism is one such **construct of consciousness**, and through its inherent form, the *energy signatures* of other scalar forms are translated into perceptual data. **The senses are simply *energy constructs* within the human morphogenetic field, that *separate and translate energy signatures from the Unified Field* into sets of experiential stimuli, through which the contours of the manifest Hologram can be *recognized* and *experienced.***

The APPARTHI and Perception

The sense facilities are *organizations of energy* within the morphogenetic field that hold sets of "*energy receivers*" *or magnetic points of cohesion*, into which *like frequency patterns* from the Unified Field are drawn in for translation. Every organism has a different configuration of energy receivers within its morphogenetic makeup, and so every organism will have a variation of perception. The **morphogenetic energy receivers**, or **APPARTHI** of an organism's construction serve to *draw certain frequency bands into the morphogenetic field for translation and to block out other frequency bands*, making them unavailable for translation. The frequency bands, or *flash-lines of Partiki Phasing*, that are blocked out of the personal morphogenetic field, create **GAPS OF PERCEPTION** of the Unified Field, through which the Holographic picture of "space between objects", "externalization of form" and "separation of SELF from the Unified Field" becomes perceivable to the organism. **These qualities of *objectification* are the result of BLOCKED FLASH-LINE SEQUENCES, portions of the *scalar fields* of the Unified Field and their inherent *sequences of Partiki Phasing*, that *cannot translate* through the personal morphogenetic field due to the arrangement of the APPARTHI within the personal morphogenetic structure.**

Senses as Scalar-wave Constructs & Expanding our Perception of Perception

If it can be recognized that externalization of experience is a perceptual illusion of consciousness created through selectivity of range within the perceptual field, the true nature of the human sense facilities can be better understood as a pattern of interrelated scalar-wave forms that serve to block out portions of the Unified Field so that other portions may be brought more fully into perceivable view. **When viewing the *physical apparatus* through which the known human senses appear to occur as part a of larger, interwoven system of *scalar construction*, it will be easier to understand that *perception is not a localized phenomena created by and limited to the identified organs of perception.*** The experiential capacities of even the 5 known human senses have a much broader range than what is presently assumed or identifiable through analysis of the manifest sense organs. *If one can understand that perception of manifestation itself is an affect of these greater scalar wave constructs, it will not seem so outrageous to consider the reality and integrity of sensing and perception beyond the range of the presently identified sense facilities.*

ESP, HSP and Evolution

"Extra-sensory perception" is not "EXTRA" at all, it is a *normal attribute* of the *evolving human organism*, as the consciousness ensconced within the *body hologram* continues its *natural expansion* into the greater portions of its evolutionary imprint. Individuals displaying abilities of "Extra-sensory Perception" are not gifted with something *other than what is characteristic to the human form*, **they are simply *a bit ahead in the stage of development* of the natural human perceptual capacities. Everyone has dormant potentials for some degree of "ESP"; like all things within the human organism, ESP is regulated by the *function of the DNA* and its naturally intended *relationship* to the *Kathara Grid and morphogenetic structure.*** Individuals with **less distortions and blockages** within the **Kathara Grid** (and the resulting DNA malfunctions such distortions create) will have *greater ease* in calling the dormant perceptual facilities into activation. *Individuals who consciously attempt to use the greater perceptual facilities will stimulate a more rapid advancement into reclaiming this stage of evolution, than those who refuse to acknowledge the existence of their greater sensing facilities.* **The greater sense facilities bring the *higher dimensional wave spectra* and its inherent reality fields into the *perceptual range* of the earthly embodied human consciousness, and so the greater sense facilities can be considered the HIGHER SENSES, a term far more accurately describing their orientation than the term *Extra Senses*. "ESP" becomes "HSP"- *Higher* Sensory Perception - a *natural attribute of experience for the evolving human organism.***

THE 5 KNOWN SENSES

The 5 Known Human Senses

In order to understand the nature of the **Higher Senses** it is necessary to understand a bit more about the nature of the **common senses**, or the "*lower senses*" if you will, for the **common senses** are those that are "tuned to" perception of the **lower frequency dimensions. Perception of *Sight, Sound, Touch, Taste and Smell* are *experiential affects* of the *scalar-wave constructs* that exist within the NADA HOVA BODY and the TELLURIC SHIELD, the Kathara Grid and morphogenetic field structures that are composed of and stationed within the frequency bands of dimensions 1, 2 and 3, the first Harmonic of manifestation.** The **APPARTHI**, or "***energy receivers***" within the Nada Hova body have their first imprint within the **Kathara Grid Level-2: Crystal Seals** structure. The first pattern for the sense facilities responsible for manifesting the organs of perception of the 5 identified senses exist within the configurations of electro-tonal Partiki units that form the crystalline seals of which the dimension-2 **Telluric Shield** is constructed. Through the Partiki Phasing flash-line projections of the Telluric Shield, the "armature" or 3-dimensional blueprint for the organs of perception are set for manifestation within the body hologram.

The 5 Known Senses and Sound Transduction

The 5 known senses are more intimately related than commonly supposed; ALL represent a form of SOUND TRANSDUCTION - the frequencies, or flash-line sequences, within the 1st, 2nd and 3rd dimensional bands, that form the identifiable wave patterns presently associated with sound waves, are drawn into the Level-2 Kathara Grid Crystal Seals by **Apparthi receivers** that carry like flash rhythms. Once drawn into the Apparthi receivers the sound spectrum becomes modulated into different flash-line rhythms and sent into the **Diodic Points of the Level-3 Kathara Grid.** Once intersecting with the frequencies within the Diodic Points the frequencies from the Apparthi are then **divided/ polarized** and projected up and down the Harmonic-1 dimensional scale, **creating a pattern of energy refraction** within the morphogenetic field and physical body apparatus. The polarized frequencies first appear within the DNA as part of the core electrical vibration, and then further transmute into **electrical impulse** that manifests as configurations with the **blood chemistry** and within the **Central Nervous System.** These synthesized electrical impulses are further projected through the **scalar-wave grids** that hold the form of the **identified sensory organs**, finally **culminating in the interrelated qualities of perception associated with the identified sensory organs and their 5 known attributes of sensing.**

THE 12 HUMAN SENSES

The Interwoven Senses and the Hova Bodies

As in the case of the Lower Senses, the *Higher Senses* and their experiential manifestations are the product of consciousness interacting with the *dimensionalized scalar organization* of the human morphogenetic anatomy. Whereas the Lower Senses are affiliated with the transduction of sound frequency within the *1st, 2nd and 3rd Dimensions*, through the structures of the *Nada Hova Body* and the *Telluric Shield* of the *first Harmonic*, the Higher Senses are in like fashion associated with the scalar organization of the *Higher Dimensional Hova Bodies* and their corresponding *Shields*.

In truth, all of the sensing facilities organic to the human form comprise interwoven and interrelated systems of *energy refraction* that together create the perceptual experience of *externalization* within the hologram of manifestation. For example, it is not commonly recognized that the sense of **smell** is in actuality part of the function of the **auditory facility**, and thus represents an intrinsic part of the sense of hearing. It is also not commonly understood that the processes associated with **vision** are not only connected to the processes of the brain and Central Nervous System, but also with the formation of *crystalline structures* with the plasma of the **blood. The senses are not nearly as *separate* and *independently functional* as they appear to be when viewed from outside analysis.** They are rather a part of an **interwoven system of electro-tonal information relay** that spans the 15-Dimensional morphogenetic field anatomy of the human organism.

The 12 Human Senses

In terms of breaking down the sense facilities for structural analysis, such as is done by modern science in identifying the 5 Known Senses, we will describe the sensory attributes of the **Higher Sense facilities** in terms of their *primary orientation*, *location of their primary Apparthi receivers* within the *Hova Body* structures and by the type of *perceptual or experiential attributes* produced through their function. **In such categorization of the human sense facilities there are *7 additional*, as yet unidentified, *sense facilities* operating within and through the human consciousness**, which are collectively responsible for translating the scalar fields of dimensionalized reality into the *illusionary holographic picture* of externalized manifestation and its qualities of space, time, matter and identity individuation. **Collectively there *are 12 Primary Sensing Facilities* within 15-Dimensional Human Anatomy.**

PERCEPTUAL BLOCKAGE, KATHARA GRID DISTORTION AND KATHARA HEALING

Perceptual Blockages

The Higher Senses are connected to the Lower Senses and provide attributes of perceptual experience characteristic to their dimensional levels, but in the present stage of human genetic evolution the Higher and Lower Senses are not fully "plugged into" each other, and so the various higher dimensional fields, and the sensory abilities associated with the Higher Senses, appear to be separate or unavailable to the embodied human consciousness.. **The Higher and Lower Senses plug in through opening of *Kathara Lines* in the *Level-1 12-Tree Kathara Grid*, which creates a reciprocal opening and expansion of the DNA, Hova Bodies and activation of dormant nerve networks within the brain, molecular core and Central Nervous System of the body.**

Presently the human senses are *phase-locked into a 3-dimensional perceptual field* due to blockages between the *3rd and 4th Kathara Centers*, which block the Apparthi receivers within the Nada Hova Body from accepting compatible electrical impulses from the higher dimensional Hova Bodies. This Kathara Grid blockage manifests within the body as fragmented units of DNA ("**Junk DNA**"), that serve to render the natural processes of multi-dimensional data transfer into the Central Nervous System inoperable. Portions of *higher dimensional experience* come to conscious attention in the form of *dream perception* or *intuitive impression*, but the natural clear pathways of multi-dimensional perception are blocked to a large degree within contemporary humanity.

Perceptual Blockages and Kathara Healing

Blockages in the Kathara Grid and their reciprocal blockages in the human perceptual field can be progressively removed through practices of *Kathara Healing*, and utilizing the *Maharic Shield* to reawaken the Organic Imprint for Health.. As Kathara blockages are progressively repaired, the genetic code will expand its function by reassembling and activating the presently dormant portions of the DNA imprint. DNA expansion will create reciprocal alterations in the bodily metabolic rate, brain, blood, glandular and hormonal function, particle spin speed and operation of the Central Nervous System, that will allow for a progressive, natural activation of the Higher Sense facilities and expansion of the human perceptual field into the multi-dimensional arena. **In Kathara Healing the dormant Higher Senses will be progressively brought into activation**, beginning with the **6th -Audurea-Merkaba Sense** and the **7th-Tristet-Cellular Telepathy Sense** through which **Inner audio-visual-direct cognition** skills will progressively develop. These skills will be employed in the processes of Kathara Healing, and in so doing they will be progressively stimulated into greater levels of activation. As the dormant Sense facilities are called into activation, Kathara Healing techniques to remove Kathara Grid blockages are used to realign the *Holographic Template* to restore the **Imprint for Health**, through which natural perceptual expansion will progressively take place.

CHAPTER 2
HIGHLIGHTS

THE IMPRINT FOR HEALTH

- Healing occurs through correcting distortions within the Kathara Grid and Hova Body Shields.

- The human body blueprint was designed to hold 12 Dimensions of Frequency/ Flash-line Sequences and 12 Dimensions of Consciousness, the content of 4 out of the 5 Hova Bodies within the 15-Dimensional Anatomy.

- The **4th Hova Body** - the **Mahara Hova Body** - is composed of Frequencies/ Partiki Phasing Flash-line Sequences of the **10th, 11th** and **12th Dimensions.** It manifests through the 10th, 11th and 12th *Kathara Centers* and the **Maharic Shield** Scalar Grid of the **4th Harmonic**.

- The **Maharic Shield** of *Level-2 Kathara Grid Crystal Seals* holds the original **IMPRINT FOR HEALTH**- the original *Flash-line Sequences* of *Harmonic 4 Pre-matter Liquid Light* - that represent the *point of entry* into perceivable manifestation.

- The **Maharic Shield** can be used to **repattern** the Kathara Grid Holographic Template back to the original **Imprint for Heath**. The Flash-line Sequences of *Dimension 12* can *override* and correct *faulty Flash-line Sequences* that manifest as distortions within the Kathara Grid and Hova Body Shields.

- The **Hierophant Symbol Code** is a *Scalar Standing-wave* pattern containing the electro-tonal programs of the 11th and 12th Dimensions. The Hierophant Symbol code serves as a *Frequency* ***WAVE GUIDE*** through which the **Maharic Shield** can be activated to run 11th and 12th Dimensional Frequency through the Kathara Grid for **repatterning** the **Imprint for Health** within the Core Holographic Template of the body.

- Using the *Hierophant Symbol Code* the **Planetary Bio-feed Interface System™** can be activated to **empower** the Kathara Grid repatterning process via drawing Frequency from the **Planetary Maharic Shield.**

MORPHOGENETIC EXPANSION

- Growth through time is created through **FREQUENCY ACCRETION** - drawing Frequency Bands from the Dimensional Unified Fields of Consciousness into the personal morphogenetic field for expansion.

- When the Kathara Grid is functioning properly there are **set morphogenetic field expansion periods** within the linear growth cycles of the human body.
  1. **Fetal Integration** to age 11-12.
  2. **Harmonic 2 Integration** age 12-22
  3. **Harmonic 3 Integration** age 22-33
  4. **Harmonic 4 Integration** age 33-44

  If the Kathara Grid is working properly the **body does not die** but rather **progressively transmutes** into *less dense states of matter* in an **immortal body form**, via accretion of the 4 Harmonics of Frequency.

- Present **Kathara Distortions** block integration of **Harmonic 2** and begin Molecular Compaction, body degeneration and Death.

GROWTH RATES

LEVELS OF HUMAN ANATOMY

The **Kathara Grid** is the *Core Holographic Template* upon which the human body and consciousness enter dimensionalization in order to experience manifestation.

There are **3 Levels** to the Human *Kathara Grid*: *Level-1*- The **12- Tree**, *Level-2* – **Crystal Seals** and *Level-3* – **Diodic Points**.

Kathara Level-1 –12-Tree contains the primary **12 Kathara Centers** and primary **15 Kathara Lines**, that correspond to various regions of the physical body and bio-energetic field and which "ground" consciousness into the framework of dimensionalization.

Kathara Level-2 – Crystal Seals contain the **Signets** *–consolidated points of dimensional frequency* – the **Shields** – *3-dimensional scalair-wave discs emanating from sets of 3 Signets* through which the *Hova Body* energy capsules form– and the **Star Crystal Seals** and **Seed Crystal Seals** through which the *Chakras* and *Bio-energetic Field* levels emerge.

HOVA BODIES AND SHIELDS

- *Kathara Level-3 – Diodic Points* are **Coordinate Points** where the flash-line sequences from one Shield and its Seals cross over and through those of other Shields to form minute **"White Hole" vortices** of energy-consciousness relay between the Hova Bodies and stations of identity.

- **Hova Bodies** are *3-dimensional scalar grids* in the form of **Concentric Spheres** that form around each **Shield** in the *Kathara Level-2 Crystal Seals Grid*, which serve as "tissue capsule" encasements around each Harmonic of energy-identity within the 15-dimensional scale.

- There are **5** *Dimensionalized* **"Ariea" Hova Bodies** forming human anatomy, which emanate from the **5** 3-Dimensional scalar **Shields** of the *Level-2 Kathara Grid*. Each Shield and Hova Body corresponds to **3 Kathara Centers** in the *Level-1 12-Tree Grid*.

- **5 Ariea Hova Bodies** and Corresponding **Shields**:
  Nada Hova-Telluric Shield-Dimensions1-3
  Alphi Hova-Doradic Shield-Dimensions 4-6
  Betcha Hova-Teuric Shield-Dimensions 7-9
  Mahara Hova-*Maharic Shield*-Dimensions 10-12
  Raja Hova-Rishic Shield-Dimensions 13-15

- The **Signets** and the **Shields** can be used to direct the function of the *Kathara Level-1 12-Tree Grid* and all built upon it. **Kathara Centers** can be used to trigger activation of the *Signets* and *Shields*.

- The first **4 Hova Bodies** and their **Horizontal Shields**, are most important in terms of human evolution. Activation of the **Signets** activates their corresponding **Shield**, which in turn releases the **tissue capsules** between *Hova Bodies*, allowing merger to occur. When the **first 4 Shields** activate the body is able to integrate the Avatar identity and **transmute** into pre-matter liquid-light wave form.

- In *Kathara Healing* the Harmonic-4 **Maharic Shield** is used to restore integrity to all *Shields* and *Hova Bodies* below, which progressively clears the *Kathara Grid* of distortions.

- *Level-1 Kathara Lines* direct the **Vertical** Flash-lines, *Level-2 Crystal Seals* control the **Horizontal** Flash-lines and *Level-3 Diodic Points* govern **Diagonal** Flash-lines. Together the 3 levels of the Kathara Grid form the 3-plane armature upon which the 3-dimensional hologram is created.

Each **Signet** within a Hova Body Shield holds the electro-tonal program for one *Seed Crystal Seal*. Each *Seed Crystal Seal* corresponds to one Level-1 **Kathara Center** and holds the program for one primary **Axiom Line** – a *single axis* dimensional flash-line sequence.

The **12 Primary Axiom Line** programs of the *Seed Crystal Seals* create separate *dimensionalized bands of frequency* within each Hova Body, forming a distinction between *dimensionalized levels* within the bio-energetic **Auric Field**. The Axiom flash-lines cross over and through each other to form the *Coordinate Points* between the Shields through which the *Level-3* **Diodic Point Vortices** emerge.

The points in the Kathara Grid where Axiom Lines cross over and through the **Central Vertical Kathara Line** in the *Level-1 Grid*, and the **Horizontal flash-lines** in the *Crystal Seals* of the *Level-2 Grid*, form **consolidated Diodic Points** with *numerous Diodic Vortices* – these are called **CHAKRAS**. Each Chakra corresponds to an *Axiom Line, Auric Level, Seed Seal, Kathara Center*, and *Dimensional Frequency Band* and ***Merkaba Field***.

- The **12 Primary Axi-A-Tonal Lines** are a set of 12 *Vertical Energy Flow-lines* that run through the body, which are created by the consistent cross-over points of the rotating, single-axis flash-line sequences projected from the **Seed Crystal Seals.**

- **Axi-A-Tonal Lines 11 and 12** combine with the **Central Vertical Kathara Line** to form the **Hara Line**, the foundation of the **Central Body Current.**

- The **Hara Level** is the ***outer level*** of the **Kathara Level-2 Crystal Seals Grid**, can be viewed from *9th-Dimensional perception* and is used in Kathara Healing Level-2 .

- The *Hara Level* is composed of the **Hara Line, 6 Primary Hara Points** and the **Complexes** of energy processing they govern.

- The **Axi-A-Tonal Lines** and **Hara Level** of the *Kathara Level-2 Crystal Seals Grid* are elements of 15-Dimensional anatomy that are used in later applications of Kathara Healing.

- *Axi-A-Tonal Lines* set the core electro-tonal scalar-wave program upon which the **DNA** will manifest. The human DNA imprint contains the program for **12 strands of DNA**, one manifesting upon each of the **12 Primary Axi-A-Tonal Lines.**

- The human form was designed to embody **12 dimensions** of consciousness. The original human genetic code is called the **Silicate Matrix** and when operational it allows human cellular structure to **transmute** through ***4 Harmonics*** *of matter density*.

- The Silicate Matrix is mutated in present day humans due to ancient **Kathara Grid blockages**, which manifest as distortions of form and function within the DNA. "*Junk DNA*" is part of this distortion.

- Contemporary human DNA can be **reverse-mutated,** and its interdimensional functions restored, by applications of **Kathara Healing**.

- Each of the 12 strands of DNA *corresponds to* one of 12 *Dimensional Frequency Bands, Kathara Centers, Seed Crystal Seals, Signets, Axi-A-Tonal Lines*, and *Chakras*. Each **Hova Body Shield** governs the function of a **set of 3 DNA strands.**

THE 12 HUMAN SENSES

The **human senses** are the *experiential result* of the *scalar standing-wave organization* inherent to the human form.

Senses are **scalar arrangements** that *translate energy signatures* from the **Unified Field** into *usable data of relationship*.

The sensing systems are built upon sets of **energy receivers** within the morphogenetic field that are called **APPARTHI**. The Apparthi inherent to Kathara structure serve to **block certain flash-line sequences** out of the morphogenetic field and allow others in to translate into perception.

The flash-line sequences blocked by the Apparthi create **Gaps of Perception** of the *Unified Field*, which give us the *experience* of **externalization** and **separation of form**.

Apparthi receivers create **refraction and polarization of flash-line sequences** that translate into a variety of identifiable ***holographic sensory perceptions.***

SENSES AND APPARTHI

- The sense facilities correspond to the structure of the **Hova Body Shields** and **DNA.** In categorizing the interwoven sense facilities by their *primary orientation*, location of their *Apparthi receivers* within the Hova Bodies and the *experiential attributes* they produce, the human organism can be said to possess **12 Primary Senses**.

- The **5 known senses** are products of the operations of the **Nada Hova Body** and **Telluric Shield**, and thus correspond to **dimensions 1-3**.

- There are **7 as yet unidentified senses** that correspond to the higher dimensional *Hova Bodies*, *Shields* and presently dormant strands of *DNA*.

- As we evolve to *activate* and *reverse-mutate* the **DNA** imprint, through *Hova Body* alignment and merger, the experiential attributes of the higher dimensional senses will become more apparent.

- Due to their *dimensional affiliation*, the *5 known senses* can be viewed as the **Lower Senses**, the *higher dimensional senses* as the **Higher Senses**. Perception through the *Higher Senses* is called ***Higher Sensory Perception*** or **HSP**.

TAPPING THE INNER MENTOR

Levels of Consciousness and the Perceptual Bridge

In earlier text we have learned of the structure human consciousness takes when entering the scalar fields of dimensionalization for the perceivable experience of manifestation. In comprehending the true structure of multi-dimensional anatomy, with its **Kathara Grid, Hova Bodies** and **Shields, Diodic Points** and **levels of bio-energetic substance**, we can begin to see that there is much more to human consciousness than meets the eye - **much more *energy-identity* operating presently beyond the view of our 3-dimensionally focused earthly personality.**

There are portions of our consciousness stationed within the Hova Bodies of the higher dimensional fields, and these expanded levels of ourselves hold knowledge and participate in perceptual experience beyond the usual range of our waking perceptions. As we evolve and expand through **Hova Body Integration** and the resulting activation of dormant **DNA** components, we will progressively have *greater conscious access* to these expanded levels of consciousness while we are actively focused within the waking 3-dimensionally embodied state. However, **we do not have to wait until our evolution plods along to bring us to these expanded perceptual states**, we can, from our waking state of 3-dimensional consciousness begin to actively tap this hidden reservoir of knowledge and perceptual experience. **We can take an active hand in *expediting the process* of our multi-dimensional evolution by using our dimension-3 *mental body awareness* to direct our higher awareness into our current range of perception.** We can begin to build a **PERCEPTUAL BRIDGE** between our 3rd-Dimensional and Higher Dimensional consciousness. **In taking the initiative for building this Bridge of Consciousness we begin to stimulate our Higher Senses into operation, expediting the natural process of Higher Identity Integration.**

Through building a PERCEPTUAL BRIDGE
between our present state of awareness
and the levels of our consciousness
stationed in the Higher Dimensional Hova Bodies,
we can actively expedite our own Bio-Spiritual Evolution.

THE MENTOR

The Perceptual Bridge and Creating the Mentor

The Higher Dimensional levels of human consciousness are not dormant within their respective dimensional bands of function, they are quite awake and aware within their own dimensional fields. As we perceive and interact with the 3-dimensional world within which our present awareness is focused, the Higher Dimensional portions of our consciousness are also actively perceiving and interacting with the dimensional environments within which they are focused **Higher dimensional aspects of our awareness *seem cut off* from our perceptual view because our consciousness is presently focused through a *genetic code arrangement and Kathara Grid orientation* that blocks out the frequencies of those higher stations of identity.** If we can realize that expanded portions of our consciousness simultaneously exist within the higher dimensional frequency bands, we can also realize that it is possible to access such levels of our own identity by building **Perceptual Bridges** between our 3-dimensional perspective and the portions of our consciousness stationed within the Higher Dimensional Hova Bodies.

We can begin to build a *Perceptual Bridge* between ourselves and our *Higher Selves*, by using simple *frequency modulation techniques* of Kathara Healing, such as Technique #1: *Awakening the Mentor and the 6th and 7th Senses*. In this scalar-grid activating exercise, we will awaken dormant **Partikl Phasing Flash-lines** and activate dormant portions of the **Kathara Lines** in the *Kathara 12-Tree Grid*, to begin opening the channels of communication between the consciousness focused within the *Nada Hova Body* and that focused within the *Alphi Hova Body* of Harmonic-2. **In this exercise we will create the MENTOR, a portion of our consciousness composed of *3rd, 4th and 5th Dimensional frequencies*, that will serve as an *intermediary focus of awareness* through which we can begin to receive guidance and knowledge from our 2nd-Harmonic of consciousness.** Creating the MENTOR will begin the process of activating dormant **DNA** , opening new **nerve networks** within the Central Nervous System of the 3-dimensional body, and activating dormant **APPARTHI** frequency receivers within the *Level-2 Crystal Seals Kathara Grid*. **Through creating the MENTOR, we begin to build the Perceptual Bridge between the 1st and 2nd Harmonic of our conscious awareness.**

The MENTOR is a portion of our identity that we create to serve as an intermediary focus of awareness between the Nada Hova Body and the Alphi Hova Body; a PERCEPTUAL BRIDGE between our first and second Harmonics of Consciousness.

The MENTOR and Kathara Healing

In the practices of Kathara Healing we will use the MENTOR as a source of **guidance, information retrieval, objective observation** and as a **communications link** between our own higher consciousness and the higher levels of consciousness in those who come to us for healing facilitation. **Awakening and working with the MENTOR will become a standard practice in our applications of Kathara Healing.** In creating the MENTOR we are using our creative power of scalar-grid manifestation (thoughts and mental images are scalar-grid morphogenetic field forms) to bring into being a **specialized portion of our consciousness** that can **relay frequency** from our higher Harmonics of Consciousness to our 3-dimensionally focused identity. **With repeated use of the MENTOR focus of awareness we will develop the ability to simultaneously hold 2 Harmonics of consciousness, and we will begin to reclaim the natural flexibility of focus that is the healthful condition of embodied human consciousness.** Through the MENTOR focus of attention we can reach higher levels of cognition and understanding regarding application of healing facilitation, and we will more rapidly call into awakening the Higher Sense facilities of the 15-Dimensional Anatomy.

Other Uses of the MENTOR Focus

In creating the MENTOR focus we will begin to realize that even the 3-dimensional focus of awareness with which we are most familiar is far more flexible than once supposed. The MENTOR is not simply an **inert creation**, but rather a **living** portion of our conscious identity composed of portions of the waking self and portions of the Higher Self. MENTOR can become an **advisor**, a portion of self able to "keep its head above the illusion" when you are confronted with challenging events in the 3-dimensional arena; a part of you able to remain clam, focused and able to make clear decisions beyond the confusion of mental or emotional body processing. MENTOR can be sent into the **Cellular Memory** of the body to locate core issues or reincarnational blockages, and can serve to moderate between sub-personality fragments and the "Inner Child". MENTOR can like wise be used to **harmonize communications** between self and others, as you can send the MENTOR focus into the higher dimensional fields to connect with the higher selves of others for conflict resolution. Playing with the MENTOR focus can also have great rewards. You can focus your attention in the Mentor Space and then direct the MENTOR across the room to begin practicing affects of **BILOCATION.** You can travel with MENTOR to distant locations to develop **REMOTE VIEWING SKILLS,** which will be used in later Kathara Healing levels for **REMOTE HEALING FACILITATION.** MENTOR can become a **vehicle for conscious transport** of your awareness, while awake and also in **dreaming and higher dimensional projection.**

TECHNIQUE # 1

AWAKENING THE *MENTOR* AND THE 6TH AND 7TH SENSES

Awakening the Mentor:

1. Place the **fingertips** of both hands and the focus of your attention at the **Navel.** Take a few slow, full breaths then visualize the image of a **Blue Flame** (like a gas stove flame) deep inside the body behind the Navel. Gently **massage** the Navel region while envisioning the **Blue Flame.**

2. **Stop massage** and visualize a **Sphere of White Light within the Blue Flame** behind the Navel. **Place your attention within the White Sphere** and imagine that you can feel its reality around you, as if you are sitting within the White Light Sphere.

3. Breath gently and visualize the **White Light Sphere moving upward** through the center of your body until it reaches the center of the brain at the **Pineal Gland. Stop movement of White Light Sphere at the Pineal Gland,** then visualize the **White Light Sphere moving to the RIGHT** in a straight, horizontal line **OUTSIDE OF THE BODY** until it is positioned in your **auric field** just above your **RIGHT SHOULDER.** *The White Light Sphere positioned over the Right Shoulder now represents a portion of your awareness that was raised to the 5th-Dimensional frequencies via its passage through the Blue Flame and the 5th Kathara Center at the Navel.* You will name this part of your higher identity **MENTOR.**

4. Imagine that you can **feel the reality of the White Light Sphere** that holds your MENTOR resting gently above your Right Shoulder **as a "fuzzy ball of energy".** *MENTOR serves as the meeting point between your waking conscious mind and the 5th-Dimensional portion of your Soul Matrix Identity- the Archetype. With practice, you can lean the energy of your waking awareness from its position within your head, over to the right and into the MENTOR Sphere, to receive direct cognition, audio and visual guidance from your 5th-Dimensional Identity Station.* In **Healing Facilitation** MENTOR **will** communicate with the 5th-Dimensional Archetype aspect of your **Client's Soul Matrix,** asking how you may best serve the Client's Highest Evolution; guidance MENTOR receives will be translated to you from MENTOR in the form of intuitive urge, spontaneous cognition or audio-visual directions. MENTOR **will** also serve as a **translator** of **information** from your higher **dimensional Stations of Identity** to your conscious mind. MENTOR can also be taken into the Dream State with you to assist in **Dream Recall** and initiating **Out-Of-Body Travel.**

5. Practice creating and sensing the Mentor Sphere over your Right Shoulder. Carry it around with you wherever you go, and play with *moving the focus of your consciousness back and forth between the inside of your head and MENTOR.* Try perceiving from both focuses of attention simultaneously. Such play will help stimulate neurological sensitivities to translating and perceiving information from the 5th and higher dimensional Stations of Awareness.

TECHNIQUE # 1: continued
AWAKENING THE *MENTOR* AND THE 6TH AND 7TH SENSES
Awakening the 6th and 7th Senses: The *Audurea* and the *Tristet*

1. Focus your attention on the **MENTOR Sphere** over your Right Shoulder. Take a few slow, deep breaths and visualize MENTOR *expanding into a Sphere the size of a Basket Ball*. Use the next **INHALE** to draw the MENTOR Sphere *toward your head*, visualizing MENTOR moving from over your Right Shoulder to a position *surrounding your entire head*. **EXHALE**, *stop the movement* of the MENTOR Sphere, and imagine that you can feel its "fuzzy energy" all around the outside of your head; *as if your head is now within the Basket Ball size MENTOR Sphere.*

2. With the next **INHALE** breath, **contract MENTOR into a small Sphere of White Light** positioned inside the center of the brain at the **Pineal Gland**. Exhale and breathe slowly for a moment. With the next **EXHALE** breath, *push* the small MENTOR Sphere from the Pineal Gland, straight forward and into the **6th-Chakra** at the *Forehead*. Visualize MENTOR moving into the 6th-Chakra from inside the head, then continuing to move through the 6th Chakra spiral straight outward *and away from the body*. Imagine the MENTOR Sphere traveling outward through the long **Blue-Violet Tunnel** of the 6th Chakra spiral, until you visually loose track of the MENTOR Sphere far out in front of you.

3. Take a few slow breaths, then on the next **INHALE** visualize the MENTOR Sphere *re-appearing* in the distance of your 6th Chakra spiral, and *riding in on the inhale breath*, back into the **Pineal Gland**. Breathe slowly.

4. With the next **EXHALE**, visualize the MENTOR Sphere moving *down from the Pineal Gland* at the center of the brain, stopping at the center of the **5th Chakra** in the *Throat*. Breathe slowly. On the next **EXHALE** push the MENTOR Sphere straight outward, imagining it moving forward from inside the Throat, into the [illegible] spiral of the *5th Chakra*. Visualize MENTOR *riding the current of the exhale breath* out into the distance within the [illegible] **tunnel** of the 5th Chakra spiral, until it fades from view. Take a few slow breaths and on the next **INHALE** imagine MENTOR returning through the 5th Chakra [illegible] spiral to rest deep within the **Throat**. Use the **final INHALE** to move MENTOR back up to the **Pineal Gland** and the final **EXHALE** to *push* the MENTOR Sphere back out to its "home" position in the auric field over the **Right Shoulder**.

This process opens up the 1st-5th Sub-frequency Bands within each dimensional layer of the 6th and 5th Chakras, beginning the process of opening the 6th-Audurea and 7th-Tristet Senses, stimulating Inner Vision and Audio to higher dimensional frequency perception.

MAHARIC RECODING, FREQUENCY SUB-HARMONICS & THE MAHARIC SEAL

Kathara Healing and Reaching the Core of Dis-ease

In earlier text we have explored the significance of the **Kathara Grid** and its role as the **Holographic Template** upon which the morphogenetic field, body and consciousness manifest within the 15-Dimensional system. We have learned that the Kathara Grid is the **core template** upon which the *morphogenetic field* manifests, and that the *morphogenetic field* is the **blueprint** upon which the body systems and embodied consciousness manifest. Through our study of these *core structures of manifestation* we come to realize that *true and lasting health or healing* must be approached from the deepest levels of personal creation, the *morphogenetic reality* within which all dis-ease conditions have their origin. **Kathara Healing applications are intended to reach the *core of systems malfunction*, the various levels of the *morphogenetic field and Kathara Grid*, in order to restore the *Imprint for Health* within the Holographic Template for manifestation.**

The Mahara Hova Body, Maharic Shield and the Imprint for Health

In ***Level-1 Kathara Healing*** **we will learn the first and most important level of *restructuring the Holographic Template* to hold its original Imprint for Health - the MAHARIC RECODING PROCESS.** The **MAHARIC SHIELD** is the manifestation template upon which the **MAHARA HOVA BODY** of *Harmonic-4* manifests. The Mahara Hova Body is the scalar-grid that holds the **10th, 11th and 12th-Dimensional** aspects of consciousness, and represents the **ORIGINAL POINT OF MANIFESTATION** -the **creation point** when consciousness moved from its pure scalar-wave state of being into the dimensionalized scalar-grids through which the illusion of external holographic projection could be experienced. The Mahara Hova Body and its station in Harmonic Universe-4 represent the original **PRE-MATTER LIQUID LIGHT** fields of manifestation through which we passed in order to enter the experience of density and individuation of matter form.

Prior to our entering the dimensionalization of the systems within which matter can be perceived, we existed in **pure scalar-wave form** - a scalar-pattern that held the **original, pure and perfect pattern** for our creation as consciousness. The Mahara Hova Body and the Maharic Shield are the Liquid Light Pre-matter Scalar-templates that hold our original pattern of wholeness, our original **CREATION IMPRINT.** Our creation imprint is the **ORIGINAL IMPRINT FOR HEALTH,** the condition of **eternal being** free from Hova Body distortions picked up in the lower dimensional fields.

THE 12th-DIMENSION and FREQUENCY SUB-HARMONICS

In Level-1 Kathara Healing we will utilize the *Imprint for Health* as held within the *Maharic Shield* to begin REPATTERNING the Kathara Grid back to its original level of function. The frequencies of the 12th-Dimension, as embodied within the Maharic Shield, contain within them as Frequency Sub-Harmonics ALL OF THE FREQUENCY BANDS FROM THE DIMENSIONS BELOW, along with the natural frequency spectra characteristic to the 12th-Dimension. Each Dimensional Frequency Band within the 15-Dimensional Spectra contains within itself its own 12 Primary Sub-frequency Bands (portions of the whole dimensional Partiki Phasing flash-line sequences), plus a reflection set of the frequency spectra from all of the Dimensional Bands below.

For example, Dimension 2 contains its own *12 Primary Sub-frequency Bands*, plus *a reflection set of the 12- Primary Sub-frequency Bands* that make up the *Dimension-1 Frequency Band* below. Dimension-1 has 12 Primary Sub-frequency Bands, Dimension-2 thus has 12 Primary Sub-Frequency Bands plus 12 Secondary Sub-Frequency Bands from Dimension-1for a total of *24 Sub-Harmonics* in Dimension 2. This pattern of FREQUENCY SUB-HARMONICS builds upward through the 15-Dimensional Scale. The 12th-Dimensional Frequency Band has a total of 144 Sub-Harmonics - 12 Frequency Bands x 12 Sub-Frequency Bands each = *144 Sub-Harmonic Frequency Bands*, Because the 12th-Dimension holds within itself *all of the Frequency Spectra and scalar-grid programs* from the lower dimensions, the *12th-Dimensional Frequencies have the ability to "plug into" and overnde any Partiki Phasing flash-line pattern from the lower dimensional fields*. The ORIGINAL PATTERN OF CREATION for the lower dimensional structure itself is held within the *12th-Dimensional Frequencies*, and so the 12th-Dimension *Sub-Harmonics* can be used to *correct any distortion* with the dimensional frequencies of the Lower Hova Bodies and their Shields.

The Maharic Shield and the 12th-Dimension

As the Maharic Shield and Mahara Hova Body are composed of 10th, 11th and 12th-Dimensional scalar grids, they contain within them the 144 Frequency Sub-Harmonics of the entire 12-Dimensional Spectrum. The human morphogenetic field is designed to hold the 144 Sub-Harmonic Spectrum, which is fulfilled through activation of the original 12-Strand DNA Silicate Matrix gene code. Because of its 144 Sub-Harmonic scalar-wave spectrum, the 12th-Dimensional level of the Maharic Shield can reset the *original, non-distorted imprint of Partiki Phasing flash-line sequences* within the entire *Kathara Grid 12-Tree, the Kathara Centers, Kathara Lines, the Hova Bodies, DNA* and within any level of the morphogenetic field and manifest body built upon them. The *Maharic Shield* is the Kathara RESET BUTTON.

REMEMBER: A FREQUENCY BAND is a *fixed, repeating sequence of Partid Phasing Flash-lines* - "flashing on and off" cycles of scalar standing-wave points within the scalar-grid template, caused by the *fission/ expansion and fusion/ contraction of Partid Units*. A SUB-FREQUENCY BAND is a *fixed, repeating sequence of Flash-lines* that is *part of* the full cycle of the *Frequency Band* Partid Phasing sequence. A FREQUENCY SUB-HARMONIC represents a replica of Frequency Band Flash-line sequences from the dimensions below, carried within the Primary Flash-line sequences of the Dimensions above.

HIGHER DIMENSION = MORE FREQUENCY SUB-HARMONICS = FASTER FLASH RATES = HIGHER FREQUENCY = FASTER OSCILLATION/ SLOWER VIBRATION = SHORTER WAVE LENGTH = SLOWER ELECTRON SPIN = LESS PERCEIVABLE MATTER DENSITY

The Maharic Shield - Core of Healing Therapeutics

To restore the **Imprint for Health** within the *Body-Mind-Spirit System*, the **Holographic Template of scalar-grids** upon which the system manifests must be **restored to its original function.** *Topical applications* of healing modalities within the physical body, bio-chemistry, DNA, Auric Field, Chakra System, and Level-2: Crystal Seals and Level-3: Diodic Points of the Kathara Grid can create *temporary change* toward healing, but the **disharmonic conditions** held within the core **Level-1 12-Tree Kathara Grid** will eventually **override** alteration made to the outer levels of the morphogenetic field or body systems. **Working with outer levels of the Bio-system can *assist* in the healing process, but first the *Imprint for Health* must be restored within the *Level-1 12-Tree Kathara Grid.*** The *Level-1 12-Tree Grid*, with its *Kathara Centers* and *Kathara Lines* is created upon the **144 Frequency Sub-Harmonic** Pattern. As the **Maharic Shield** and Mahara Hova Body are the only portions of the dimensionalized scalar-grid anatomy that hold the full **12th-Dimensional Frequency Band** with its *144 Sub-Harmonics*, the **Maharic Shield** and its corresponding **10-11-12 Kathara Centers** are the *only portions of the morphogenetic anatomy that can override and restructure the electro-tonal scalar standing-wave point arrangements within Level-1 Kathara Grid.* **Thus it is with the *Maharic Shield* that core healing therapeutics must begin.**

Critical Mass and Simultaneous Healing of Core/ Outer Morphogenetic Levels

Activating the **Maharic Shield** will **open, activate and realign** the *scalar-wave flash-line sequences* of dormant *Kathara Centers, Kathara Lines, Crystal Seals, Hova Bodies, Diodic Points, Chakras* and *DNA* within the outer levels of the morphogenetic field and body. Once the **Imprint for Health** has been *temporarily restored* within the *Core Holographic Template Kathara Grid* via running the *Flash-line sequences* of the **Maharic Shield** through the *Level-1 Kathara Grid*, the *outer layers of the anatomy can be further realigned* to expedite manifestation of the Kathara Grid Repatterning into the outer levels of the Bio-system. **Technique # 2: The Maharic Seal and the Liquid Light Cleanse**, begin the process of running the 12th-Dimensional Flash-line sequences, via their Frequency Sub-harmonics, through the Kathara 12-Tree Grid to **REPATTERN** *distorted flash-line sequences* within the core Holographic Template. In the beginning of using this technique, the affects of this reprogramming will last only several hours, as the outer levels of the Bio-field will have greater **"Critical Mass"** in their distortion patterns, than the Kathara Grid can immediately override. **Full healing comes when the renewed Imprint for Health reaches CRITICAL MASS within the morphogenetic field.** Critical Mass is reached via *frequent use of the Maharic Seal* and *outer level Bio-field therapeutics.*

Kathara Healing Theory and Applied Methods

In Kathara Healing the first priority is to *reset the integrity* of the *Kathara Level-1; 12-Tree Grid* by Re-patterning its flash-line sequence program to the *Maharic Shield* via the *Maharic Seal and Liquid Light Cleanse.* This process sets the electro-tonal **"ground"** within which alterations of *outer morphogenetic levels* can connect, reawakening dormant **APPARTHI** *frequency receivers* within the *Level-2: Crystal Seals*, which allows the morphogenetic field levels to *expand* enough to hold the *higher frequencies* of the *Imprint for Health*. After the **Healing Ground** is set within the *Kathara Grid*, additional applications of Kathara Healing can then be applied to various other levels of the Kathara Grid, Morphogenetic Field and Body. **There is an infinite variety of Kathara Healing Bio-energetic applications**, that range from Levels 1, 2 and 3 Kathara Grid work, reprogramming the Kathara Centers, Kathara Lines, Hova Bodies, Shields and Signets, reversing the Miasmic/Karmic Imprint and accelerating the opening of the Diodic Points, to working with the Chakra System, Meridian and Axiom Lines, DNA and physical body points while running the Triadic Currents for healing. In coming Levels of the *Kathara Healing Program* we will learn the use of the **GEOMANCIES** and **FIRE LETTERS**-key **Symbol Codes** that serve as **scalar-wave guides** to reset the electro-tonal *flash-line sequences* within the morphogenetic body, and the application of the Symbol Codes to the treatment of specific physical, emotional, mental and spiritual dis-ease conditions. We will explore working with the **Color Cap Stones** of the Dimensional Frequency Bands and how they can be used in combination with the Symbol Codes for use in **Manifesting** desired conditions and **De-manifesting** undesirables, both within the body and in the 3-dimensional life drama.

Applications of the Level-1 Kathara Healing Program

In Program Level-1 we are setting the foundations upon which all the other skill levels of Kathara Healing are built. The focus of the Level-1Program is to create Morphogenetic Repatterning via the Maharic Shield, and to begin clearing the Miasmic/ Karmic Imprint that blocks various areas of the Hova Body Imprint. We will next learn to add **FORCE AND POWER** to our *Morphogenetic Recoding Process* by opening the **PLANETARY BIO-FEED INTERFACE SYSTEM™** to draw energy directly from the **Planetary Maharic Shield**, and we will begin learning of the *physical body massage point sequences*- **Sequence 1 and 2 Kathara Points** - through which we can begin to *regulate the flow of energy within the Bio-system* for **Regeneration** of the Imprint for Health and **Revitalization** of the Body-Mind-Spirit System. In **Section 2** of this course we will explore **MULTI-VECTOR HOLOGRAPHIC RECODING** - clearing the *Miasmic Imprint* from the Kathara Grid.

SEQUENCE 1 AND 2 KATHARA POINTS

Sequence-1 Kathara Points for REGENERATION

Sequence-1 Kathara Points are mini-energy-vortex points in the body that connect directly to **Diodic Points** within the *Kathara Level-3 Diodic Points Grid*. Stimulation of the Kathara Points affects the movement of energy within related areas of the Kathara Grid, which creates a reciprocal movement of energy within the cellular structure corresponding to the Kathara Points.

When used **in proper sequence**, *Sequence-1 Kathara Points* ***open energetic gate ways to the Kathara Lines*** of the Kathara Level-1 12-Tree Grid, allowing patterns of frequency to be entered into the Kathara Lines, to realign disharmonic patterns of frequency running through the Holographic Program of the Kathara Lines. When the Kathara Lines are opened to receive 11th and 12th dimensional frequency infusions from the **Mahara Hova Body**, the Holographic Program of the Kathara Grid can be progressively ***regenerated*** to the Imprint for Health, as held within the program of the Maharic Shield.

Sequence-1 Kathara Points are used to *open* the Kathara Lines prior to *Technique # 2: The Maharic Seal and the Liquid Light Cleanse* and *Technique # 4: The Maharic Infusion*. They **may also be used alone** with deep breathing, for frequent healing support, to draw energy up from the Maharic Shield, re-balancing and regenerating the Imprint for Health within the Kathara Grid and Body-Mind-Spirit System. It is not necessary to close the Kathara Lines after using Sequence-1 Points as they will **close automatically in several hours**. If one desires to further revitalize the cellular structure, running the *Sequence-2 Kathara Points* for *closing* the Kathara Lines will increase the amount of energy running through the *body cells*, as the Kathara Lines are no longer absorbing the energy.

Sequence-1 Points **regenerate and re-balance the *Kathara Core* first, which creates *more lasting but less immediate* changes in the body. *Sequence-2 Points*** **close the Kathara Lines if they are opened and draw energy from the Maharic Shield *directly into the bio-energetic field and physical cells*, rather than the core Kathara Grid, creating *more immediate, but temporary,* revitalization of the body.** The patterns held within the Kathara Grid- core holographic template will eventually override those set into the bio-energetic field alone. **Used in *combination* with each other the *Sequence-1 and Sequence-2 Kathara Points* can affect more lasting revitalization by *simultaneously realigning the core template and the outer layers* of the bio-energetic system and cellular structure.** In combination with other Kathara Healing techniques the affects and restoration of the Imprint for Health are further amplified and accelerated.

Sequence-2 Kathara Points for REVITALIZATION

Sequence-2 Kathara Points are mini-energy-vortex points in the body that, like *Sequence-1 Kathara Points*, connect directly to **Diodic Points** within the *Kathara Level-3 Diodic Points Grid*. Stimulation of the Kathara Points affects the movement of energy within related areas of the Kathara Grid, which creates a reciprocal movement of energy within the Bio-Field and cellular structure corresponding to the Kathara Points.

When used **in proper sequence**, *Sequence-2 Kathara Points* ***close the energetic gate-ways to the Kathara Lines*** of the Kathara Level-1 12-Tree Grid, which the *Sequence-1 Kathara Points* had opened. Closing of the Kathara Lines governed by the Sequence-1 Kathara Points, ***creates a reciprocal OPENING of Nadial Lines (Nadis*** energy rivulets that carry energy from the Nada Hova Body/ Nadial capsule, into the physically manifest systems) within the *outer levels* of the Bio-energetic Field. Opening of corresponding Nadis allows restorative patterns of frequency to be entered into the **outer levels** of the Bio-energetic Field and Chakra System, to realign disharmonic patterns of frequency running through the *Chakras, Auric Field and Physical Cells*. When the Nadis, Chakras and outer Bio-energetic Field are opened to receive 11th and 12th dimensional frequency infusions from the **Mahara Hova Body**, the energetic integrity of the physical cells and Bio-energetic Field can be progressively ***revitalized*** with Maharic frequency and the Imprint for Health, as held within the program of the Maharic Shield.

Sequence-2 Kathara Points are used to close the Kathara Lines following *Technique # 4: The Maharic Infusion*. They may also be used alone with deep breathing, for frequent healing support, to draw energy up from the Maharic Shield, through the Kathara Grid and into the outer levels of the Bio-energetic Field. Directing Maharic frequency into the outer levels of the Bio-energetic Field regenerates the Imprint for Health within, and directly **revitalizes** the *body cells* for accelerated Body-Mind-Spirit healing. If one desires to revitalize the cellular structure, running the *Sequence-2 Kathara Points* for closing the Kathara Lines will **increase the amount of energy** running through the ***body cells***, as the Kathara Lines are no longer absorbing the energy. **Sequence-2 Points revitalize and rebalance the *outer levels of the Bio-energetic Field* first, which creates more immediate but temporary revitalization of the body, as restorative energies do not directly enter the Level-1 Kathara Grid.** To create *lasting change* when using the *Sequence-2 Points* alone, restorative electro-tonal programs must be **repeatedly** entered into the Bio-energetic field until the new programs reach **critical mass**, at which time the new programs will begin to *subtly influence* the programs held within the Kathara Grid. **The primary difference between Sequence-1 and Sequence-2 Kathara Points is this: *Sequence-1 Points*** channel energy from the Maharic Shield into the ***core Kathara Grid*** holographic template. ***Sequence-2 Points*** channel energy from the Maharic Shield into the ***outer levels*** *of the Bio-field and body cells*. **For this reason the affects of *Sequence-2 Kathara Points* are more *immediate*, and those of *Sequence-1 Kathara Points* are more *permanent*.**

The patterns held within the Kathara Grid core holographic template eventually override those set into the outer Bio-field alone. **Used in *combination* with each other and other healing applications the *Sequence-1 and Sequence-2 Kathara Points* can affect more lasting revitalization by simultaneously *realigning the core template and the outer layers* of the Bio-field and cellular structure.** Using ***Kathara Point Sequences*** in combination with each other and other Kathara Healing techniques will amplify and accelerate the affects and restorative function of the Imprint for Health within the Body-Mind-Spirit system.

14 SEQUENCE 1 KATHARA POINTS

Regeneration of the Imprint for Health

Sequence-1 Kathara Points **OPEN** energetic gate-ways within the **Kathara Lines** of the *Kathara Level-1 12-Tree Grid*, to receive electro-tonal reprogramming for **regeneration** of the *Imprint for Health*. *Sequence-1 Points* are used to open the Kathara Lines **prior to** other energy-healing applications, to open the Kathara Grid so the regenerative patterns of other healing applications can "ground" within the Kathara. Sequence-1 Points re-generate and rebalance the **Kathara Core** first, creating **more lasting but less immediate changes** in the body.

TECHNIQUE # 2

THE *MAHARIC SEAL* AND THE *LIQUID LIGHT CLEANSE*

1. Close your eyes and visualize the image of a flat (2-dimensional line drawing) 6-Pointed Star of David (The **Merkaba Star**) made of **White Light**, stationed at the **6th-Chakra** on the *inside of the Forehead*. (If you cannot yet generate inner visualizations, simply imagine that the symbol is there.) Continue to visualize or imagine, and move the **White Merkaba Star** image over toward the **left** in your inner field of vision. In the *center* of your inner field of vision, visualize/ imagine the image of *another Merkaba Star*, made of a **Dark Silver Light**. Observe or imagine the **2 Merkaba Stars** in your inner field of vision and then slowly *move the images toward each other* until they have merged into *one Merkaba Star* Symbol made of **Pale Silver Light**. (The *Pale Silver Double Merkaba Star Symbol* is called the **HIEROPHANT** – it is the scalar wave template that governs the release of phase-lock on the *Maharic Shield.)*

2. Visualize/ imagine the Hierophant Symbol clearly in mind, then shift attention to the sound of your breath. Take several slow, deep breaths. On the next **EXHALE** use the force of breath to *forcefully push* the **Hierophant** down from its position at the 6th-Chakra, through the *Central Body Current* and into the **Earth's Core.** Take a few more slow breaths while visualizing/ imagining the Hierophant Symbol in the center of the Earth's core. Imagine now that the *Hierophant begins to spin in the Earth's core*, the Dark Silver Merkaba Star and the White Merkaba Star spinning in *opposite directions*. Spin the Hierophant progressively faster until it "takes on a .life of its own", and suddenly "pops and expands" to form a **Pale Silver Sphere of Light** *spinning in the Earth's core.*

3. Observe the Pale Silver Hierophant Sphere spinning in Earth's core, then visualize/ imagine that a **huge, horizontal Pale Silver spinning disc** emerges out from the Hierophant Sphere, forming a **massive Pale Silver Disc of Light** *spinning throughout the Earth and extending outward into the atmosphere* as a **rotating, horizontal plane.**

This horizontal disc-plane extending through the Earth represents the *Mahara Hova Body* or **Maharic Shield** of the planetary morphogenetic field – the Pre-matter Liquid Light scalar grid composed of frequency from dimensions 10, 11 and 12. (Known as the *Shield of Amaratene*). Using the Hierophant wave template you have now activated the planetary Maharic Shield, *opening the Planetary Bio-feed Interface System™ into your bio-energetic field.* This constitutes opening your personal Kathara Grid and morphogenetic field into the Planetary Kathara Grid and morphogenetic field, allowing you to draw an *unlimited supply of energy* from the planetary field. You can draw in only as much as your personal morphogenetic field can hold. With *repetition* of this practice the energy-holding capacity of your Kathara Grid progressively increases, allowing you *a continually expanding supply of energy* for healing and revitalization.

TECHNIQUE # 2: Continued
THE *MAHARIC SEAL* AND THE *LIQUID LIGHT CLEANSE*

4. While remaining aware of the *Planetary Maharic Shield* spinning on a horizontal plane throughout the Earth's body, return the focus of your attention to the spinning **Silver Hierophant Sphere** rotating at Earth's core. (You will now use the Hierophant Sphere to activate your personal Maharic Shield and release the 12th-Dimensional Pillar of Light within your bio-energetic field.). Take several slow, deep breaths, while visualizing/imagining the Hierophant Sphere spinning in Earth's core. On the next **INHALE**, draw the Hierophant Sphere *up from Earth's core* with the inhale breath, forming a **Pale Silver Cord** *about 6" thick* trailing behind the Hierophant as it rises to the **12th Chakra**, 6" beneath the feet. *One end of the Silver Cord remains rooted in Earth's core, the other end is attached to the* ***Hierophant Sphere*** *and follows its movement.* Visualize the **12th Chakra** as a small, **transparent disc** about *3" in diameter*, positioned *6" below the feet.* Stop the movement of the Hierophant in the *center of the 12th Chakra*, imagine the Sphere beginning to spin and *visualize the diameter of the 12th Chakra disc expanding to about 6" in diameter*, as the Hierophant spins at its center. Take a few slow, deep breaths as the *Hierophant spins in the center of the 12th Chakra.*

5. On the next **INHALE** draw the Heirophant Sphere *up from the 12th Chakra*, through the **Central Body Current** and up to the **14th Chakra** *36" above the head.* As the Hierophant Sphere rises, visualize the *6" thick* **Silver Cord** drawing up through the **12th Chakra** and farther up through the **Central Body Current**, following the path of the Hierophant Sphere to the **14th Chakra.** Visualize the Silver Cord as a long, thick **Pale Silver Cord of Light**, running from the *Earth's core, through your body and out the top of your head*, connecting to the **14th Chakra** 36" above the head. Take several deep, slow breaths while imagining that you can *feel the sensation* of this *massive current of clear, pure energy* running through the *center* of your body.

6. On the next **EXHALE**, push the spinning Hierophant Sphere *down* through the **Central Body Current**, while leaving the *top end* of the Pale Silver Cord attached to the **14th Chakra** 36" above the head. Move the Hierophant down through the **12th Chakra** 6" below the feet, and **stop the Hierophant** *6" below the 12th Chakra;* a position about **12" below the feet.** This is the location of the **Maharic Shield within the morphogenetic field of the body** Breath slowly and visualize the Hierophant *spinning progressively faster* 12" beneath the feet, until the Hierophant "takes on a life of its own" and suddenly "*pops and expands*" to form an **expanding horizontal disc of Pale Silver Light spinning 12" beneath the feet.** ***Feel the disc as a circular platform 3 yards in diameter below feet.***

TECHNIQUE # 2: Continued
THE *MAHARIC SEAL* AND THE *LIQUID LIGHT CLEANSE*

7. Call to mind the image of the *massive horizontal disc of Pale Silver Light* spinning through the Earth's body – the **Planetary Maharic Shield**. Imagine the sensation of the large, spinning *Pale Silver platform disc* spinning 12" beneath your feet – your **personal Maharic Shield**. Breathe slowly and deeply while visualizing/ imagining a *massive rush of pure, cool* ***Pale Silver energy*** running from the *planetary Maharic Shield*, up through the **Pale Silver Cord** and into the *personal Maharic Shield* 12" beneath your feet. Breath as this energy runs, *filling your Maharic Shield to its energy-holding capacity.* When your Maharic Shield has received as much Pale Silver energy as it can hold, it will "take on a life of its own", and suddenly "*pop and expand*" upward into an ***oscillating Pale Silver Pillar of Light*** *surrounding and permeating the body*, a *tube of light* extending beyond the body *about 18"*, and running from the **Earth's Core** to the **14th Chakra** 36" above the head. *Feel the reality of your body encased in the cool, refreshing Pale Silver Pillar of oscillating light.* Take a few slow deep breaths and imagine the energy from the Pillar *emanating through all of your body cells.* Your Bio-energetic Field is now sealed with a protective barrier of 11th/12th-Dimensional frequency – the Maharic Seal.

8. As the Pale Silver Pillar of Light oscillates around you, place your attention for a moment at the **13th Chakra** in Earth's core and **INHALE** a final **Spark** of *Pale Silver Light* from Earth's core, drawing the Spark up through the **Pale Silver Cord**, into the **Main Vertical Channel of the Kathara Grid**, and into the center of the **4th Heart Chakra.** Breath slowly and easily while visualizing energy from the *Silver Spark* radiating throughout the embodied **12-Tree Kathara Grid**, *filling it with Pale Silver Light.* When the Kathara Grid has reached its energy-holding capacity, the ***12th Chakra*** *will automatically contract* to decrease the flow of Silver Light from the Earth's core. As the 12th Chakra contracts, the *Planetary Maharic Shield* stops spinning and transmitting energy through the Silver Cord, returning the Silver Chord to its dormant state. The ***Maharic Seal*** **Pale Silver Pillar of Light** will remain in your bio-energetic field between **1-3 hours**. Over a *3-month period* of frequent, consistent *daily practice* of this process, the Maharic Seal will self-sustain in the bio-energetic field for **12-14 hours.**

Use of this technique allows a healing Facilitator to activate the Maharic Shield and Seal in others, through the *Maharic Infusion process* (Technique # 4), while Facilitator's Pillar remains active. Progressive use of the Maharic Seal and running the Liquid Light creates a reciprocal clearing, reordering and realignment of the Kathara Grid-*Holographic Template* – and all subtle energy and physical systems built upon it. The Lower Hara Bodies are progressively cleared and realigned with the *original perfection of the Pre-matter Liquid Light Mahara Hara Body*, and the body and genetic code progressively expand to hold higher dimensions of conscious awareness.

TECHNIQUE # 2B: THE MAHARIC QUICK SEAL

1 Work with a 24 pointed, 3 Dimensional Star (Heirophant) and be aware that you will be working with beings known as the Breneau Rishi .

2 Begin by slowing your breathing , as you imagine or visualize a 24 point, 3 -Dimensional, Heirophant at the Pineal Gland in the center of your brain. Visualise the Heirophant surrounded by a Pale Blue Sphere of Light.

(The Blue Sphere serves as a buffer for your readiness to accept the frequencies associated with using the 24 pointed Star; the Blue Sphere holds the energy for you until your body can handle the energy If you can handle it, the energy will simply pass through the blue sphere).

3 INHALE as if you are going to grab the blue sphere containing the 24 point star located at the Pineal, and on the EXHALE move the 24 point star/ blue sphere, all the way down to Earth s Core Try to hear a sound tone as the Heirophant/ Sphere hits the Planetary Shield . .

4 INHALE and draw the Heirophant/ sphere up to your Personal Maharic Shield 12" below your feet . and EXHALE while watching the Pale Silver-Blue sphere expand out to a large sphere and watch as your Maharic Shield pop out as a disc, about 4' in diameter, Pale Silver with a light coating of Pale Blue.

5 Bring your attention to the center of your Maharic Shield 12" below your feet . and INHALE the 24 point Star (only) up into the Heart Chakra. EXHALE, expanding the frequencies of the 24 point Star into the Heart Chakra.

6 INHALE to grab the 24 point Star, and EXHALE, pushing the Star up into the 14th Chakra 36" above the head Imagine that the 24 point Star is spinning in a clockwise direction in the 14th Chakra As you do this, try to feel/ sense the energy around you, just a few inches out from your body ...

7 Now, put your attention into your Maharic Shield 12" below your feet, take a couple of relaxing breaths and INHALE deeply pulling the Pale Silver and Blue energy up, as if you are pulling on your Maharic Seal to latch it on to your 14th Chakra. Try and feel the sensations just a few inches from your body now – feel the difference if you can. This procedure gives you a Quick Seal.

8 Now envision the cord of Pale Silver Maharic Light that would normally come up with your Shield and focus on the Earth's Core. Begin drawing energy all the way up the 4" diameter cord and into the body INHALE the energy up into the Heart Center, and expand it there. Begin to form a pale Silver ball of Maharic frequency.

On each EXHALE send your energy down to the Earth's Core to bring up another load of Maharic frequency, up from the Planetary Shields, expand it into the Heart center and repeat several times. Notice that the Cord grows larger as you do this expanding from approximately 4" to 6 to 8" diameter, until finally it feels like a skin around (as well as within) your body . as you load your Astral field with Maharic Frequency

9 Move your attention to the Pale Silver ball you have created in your Heart Center, INHALE and move it up to the 14th Chakra 36" above your head as you do feel for the sheath of Maharic Frequency encasing your etheric body, close to your skin. (This Maharic/ Christos skin charges, and saturates, your etheric body – feel the peacefulness and all-knowing nature of this frequency).

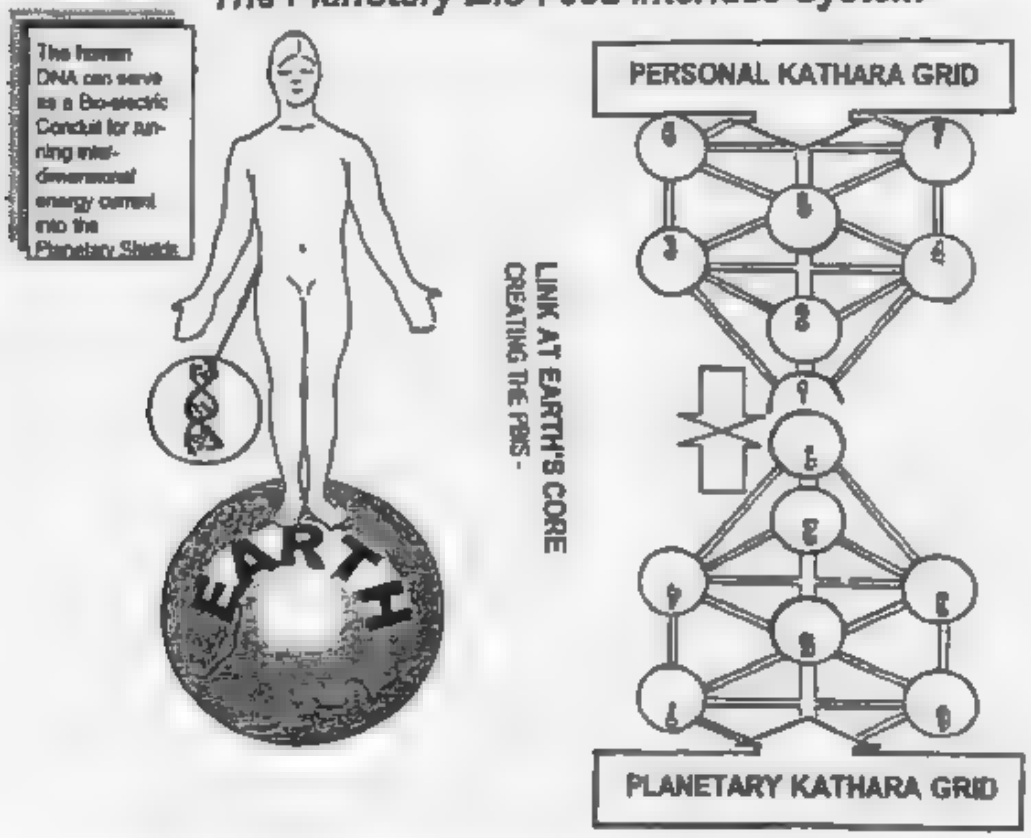
The Planetary Bio-Feed Interface System and the Maharic Seal

Use of the *Maharic Seal and Liquid Light Cleanse* begins the process of activating the **8th through 12th Chakras** and opening the natural **PLANETARY BIO-FEED INTERFACE SYSTEM (PBIS)** within the human body. Through the PBIS, the finite quantity of scalar frequency of which the personal Maharic Shield, Hova Bodies and individual identity are composed expands to infinite potential, as the Planetary Scalar Shields can be used to open dormant Crystal Seals within the Scalar Shields of the personal Level-2 Kathara Grid. **Once activated through the 12th Chakra, the PBIS opens a conduit of perpetual energetic supply between the human body and the planetary Morphogenetic Field, allowing the body to continually draw in as much higher dimensional frequency as the DNA Template can hold.**

With the PBIS activated, the human body can also become a tool for reprogramming and re- balancing the Planetary Shields, Vortices, Ley Lines and energetic grids of the Planetary Templar Complex. When the Crystal Seals of the personal Shields are released, the human DNA Template can serve as a bio-electric conduit for running higher dimensional frequency into the Planetary Shields. The human body, with its **12-Strand DNA Template potential,** is the only mechanism on Earth, other than the Planetary Shields themselves, that is capable of running a full 12th-Dimensional **Maharic Current.** Just as within the human Manifestation Template, the Maharic Current can be used to purge distortions within the Planetary Shields, to restore the Planetary Templar Complex to its original **Primal Order.** Kathara Healing technologies not only provide the opportunity for individuals to facilitate healing in other *biological life forms*, they also reawaken the human potential to facilitate healing within the geophysical planetary body.

The Planetary Bio-Feed Interface System

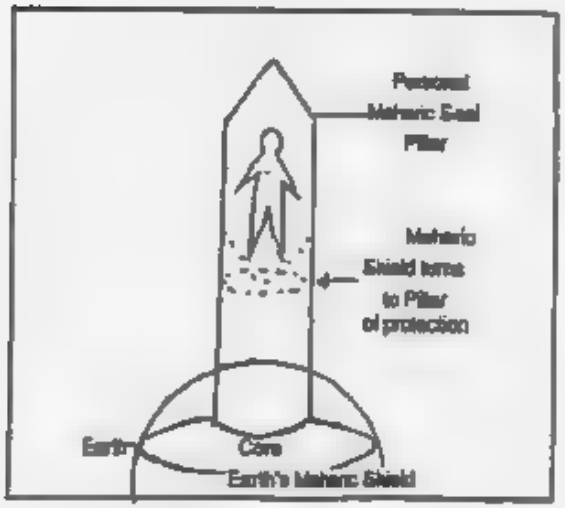


The Maharic Seal and Client Sessions

Through understanding the **Context of Healing**- *The Structure of the Unified Field*, the **Elements of Healing** – *The Anatomy of the Human Body Kathara Grid* and **Kathara Healing Beginning Applications** - *Morphogenetic Repatterning* through the ***Maharic Seal and Liquid Light Cleanse*** and *Awakening the Mentor* for access to 5th Dimensional awareness, the Kathara Healing Facilitator has developed the rudimentary skills necessary to begin **personal Core Holographic Template Healing. To effectively facilitate Core Template healing in others it is important for Kathara facilitators themselves to employ personal Template Healing.**

The ability to hold the **12th-Dimensional Maharic frequency sub-harmonics** (the 12th-sub-frequency band within each of the full Dimensional Frequency Bands) in body to assist in its transmission to a client for healing support increases as the facilitator utilizes the **Maharic Seal and Liquid Light Cleanse** technique for **personal healing.** The *Maharic Seal and Liquid Light Cleanse* technique not only increases the facilitator's ability to transmit 12th-Dimensional frequency sub-harmonics, it also temporarily **realigns distortions** within the *facilitator's* bio-energetic field and Kathara Grid and creates a temporary **12th-Dimensional Scalar Frequency Seal** within the *facilitator's* bio-energetic field. **Without use of the *Maharic Seal*, the facilitator will inadvertently transmit bio-energetic field and Kathara Grid distortions to the client and will energetically pick up scalar distortions** (including part of the "Karmic" Miasmic Imprint) **from the client.** (This problem occurs in all subtle-energy healing modalities that do not employ the Maharic Seal). Both of these conditions serve to amplify, rather than remedy, dis-ease and disharmony within the Mind-Body-Spirit system, for both *facilitator and client.* For these reasons, the ***Maharic Seal and Liquid Light Cleanse*** **technique needs to be employed prior to ANY healing facilitation work,** to protect the **bio-energetic field** integrity of facilitator and client. **The *Maharic Seal and Liquid Light Cleanse* technique represents the facilitator's preliminary preparation prior to Kathara Healing Facilitation Client Sessions.**

Safety in Healing Facilitation!



The *Maharic Seal and Liquid Light Cleanse* technique, used as facilitator preparation prior to Client Sessions, protects facilitator and client from taking on bio-energetic field distortions from each other. Maharic Seal is the preliminary step before any Kathara Healing application and is needed to effectively run interdimensional healing currents.

CO-GENERATIVE HEALING

The final phase of education necessary before engaging the adventure of **Kathara Healing Client Facilitation** is rediscovering the structure of personal **Multi-dimensional Identity** and how to use the personal **Hova Bodies** to tap the higher dimensional scalar frequencies for enhanced healing facilitation ability. The ability to understand and utilize the **PRECISE HEALING CURRENTS** of the interdimensional spectrum adds **greater power and skill** to the healing facilitation process. Unlike many other energy healing systems, **Level-1 Kathara Healing** trains the facilitator to identify, awaken within the body and employ in client service **specific combinations of interdimensional healing current** that fine-tune and amplify the beneficial effects of subtle energy healing. This chapter will conclude with an overview of the **4 PRIMARY TRIADIC HEALING CURRENTS**, 4 of the 5 **3-Dimensional Primal Energy Currents** that can be awakened within the body through activation of the **Maharic Shield**.

The natural **Primal Triadic Healing Currents**, which exist naturally as part of the personal Hova Body, Scalar Shield and Kathara Grid anatomy, create powerful, effective and user-friendly energetic healing tools when combined with the 12th-Dimensional frequencies of the **Maharic Shield**. Running the Triadic Currents is achieved by using the current to first activate the frequencies of the corresponding Hova Body and station of awareness within the personal Scalar Shields and **DNA Template**. Once activated in the DNA Template, the **Hova Body** is used to draw perpetual supply of the desired current from the Dimensional Unified Field corresponding to the chosen current. **Running the Triadic Currents requires activation of the corresponding frequencies within the facilitator's DNA Template, thus using the Triadic Currents in Client facilitation also serves to progressively stimulate and expedite activation of dormant frequencies in the facilitator's DNA Template.** Using the Triadic Currents in client facilitation serves to accelerate the processes of Holographic Recoding, higher identity Hova Body integration and multi-dimensional evolution within the Body-Mind-Spirit system of the *facilitator*, as well as that of the *client*, creating a condition of **CO-GENERATIVE HEALING** between client and facilitator.

Healing, Evolution and Ascension

In the Kathara Healing paradigm the art and science of healing the Body-Mind-Spirit system is viewed in terms of the *human relationship to the natural structure and dynamics of creation.* **Healing becomes a necessity when the intrinsic energetic systems and scalar-wave constructions of consciousness upon which the biological manifestation is built become incongruent with the natural Primal Order of the dimensionalized Time Matrix system.** The processes of natural healing and the hidden, organic functions of **human evolution** are intimately intertwined. Conditions that facilitate natural healing also facilitate fulfillment of the naturally intended course of human evolution, while conditions detrimental to Body-Mind-Spirit health are likewise detrimental to the evolutionary objectives of both the individual and the species.

The processes by which lasting healing occurs through re-genesis of Primal Order within the Scalar Shields and personal anatomy, are the same processes by which the **CONSCIOUSNESS** evolves to the fulfillment of **Spiritual Actualization**, through embodiment of the 12-dimensions of consciousness inherent to human DNA Template design. The genetic code of the biological Imprint is built upon the Scalar-wave Templates of Consciousness that serve to hold the identity as energetic substance into physical embodiment. **Distortions within the physical manifestation indicate distortions in the Manifestation Template and thus constitute distortions in CONSCIOUSNESS.** Genuine healing is a *FUNCTION OF CONSCIOUSNESS*, first and foremost, and it is through realignment of consciousness itself that full healing can occur.

In the Kathara program it is understood that biology and consciousness are intimately intertwined and thus interdependent. The techniques of **Bio-Regenesis** provided in Kathara Healing assist in the processes of restoring the **Organic Imprint for Health** while simultaneously serving to **expedite the natural processes of interdimensional evolution** through DNA Template, Kundalini, Crystal Seals and Merkaba activation. **Human evolution is not a random, goal-less occurrence; it is rather an ordered system of interdimensional physics dynamics by which human consciousness progressively masters the contours of creation in time.** The evolutionary objective of human creation is **mastery,** which is progressively attained through the dynamics of **Transmutational Dimensional Ascension. Ascension** is therefore the intrinsic and indelible **goal** within human evolution, the **hidden impetus for action** that moves the human species forward in time.

Healing and Bio-Spiritual Evolution

When we begin running the higher dimensional frequencies of the 4 Primary Triadic Currents for Kathara Healing applications, we are, in truth, running **FREQUENCIES OF CONSCIOUSNESS**, that emanate from the **Hova Bodies** in which the expanded spiritual portions of our personal identity are stationed. As we reawaken the higher dimensional frequencies of consciousness within the **DNA Template** we are progressively expediting the reintegration of personal **Multi-dimensional Identity**, serving the **spiritual goal of Ascension** through stimulating into activation the scientific dynamics of **Unified Field Physics** by which genuine Ascension occurs. **Kathara Healing** progressively restores the functions of universal physics dynamics within the human body, as they apply to the pathway of Ascension, and so Kathara Healing applications are considered to be processes of **ACCELERATED BIO-SPIRITUAL EVOLUTION**, as well as processes of holistic Body-Mind-Spirit healing. Both facilitator and client simultaneously receive the subtle but progressive benefits of evolutionary acceleration and spiritual development through Kathara Healing **Bio-Regenesis Technologies**, through which the expansion of personal consciousness into the higher dimensional aspects of spiritual awareness occurs.

Kathara practices serve to stimulate progressive integration and embodiment of the Multi-dimensional Identity by activation of dormant portions of the **DNA Template** through which the scalar-wave patterns of the higher frequencies of identity can enter the physical form. As spiritual advancement through Hova Body integration and DNA Template activation is a beneficial "side effect" of Kathara Healing practice, it is helpful for the Kathara facilitator to understand the order of **Multi-dimensional Identity Structure**. It is also helpful to realize that the **Unified Field of Energy** utilized in Kathara Healing is, in fact, a **UNIFIED FIELD OF CONSCIOUSNESS**. Healing is a function of energy dynamics and at its core, energy is the **substance consciousness adopts** to experience manifestation, thus **HEALING IS A FUNCTION OF CONSCIOUSNESS**. When personal consciousness is applied in ways that are congruent with the natural **Laws of Unified Field Physics**, the effects of healing and wellbeing are met in manifestation.

MULTI-DIMENSIONAL IDENTITY STRUCTURE

Consciousness and the Physical Illusion

In Chapter 1 we explored the **Structure of the Unified Field** and discovered the morphogenetic framework, or **Holographic Template** upon which matter systems are constructed. We learned how the structure of dimensionalization applies to the anatomy of the **15-Dimensional Human body**, from the **Core Template Kathara Grid**, the **Hova Bodies and Shields**, to the **Chakras, Bio-energetic Field** and physical matter structures built upon them. **We also discovered that *physical manifestation* is not what appears to be - that *nothing is really manifest at all*, but only *appears to be so* due to the *relationships of compartmentalized consciousness interacting with each other through the framework of dimensionalization***. Our physical parts and our manifest world are **scalar wave constructions**, appearing solid and externalized because we view them with a level of consciousness that is **stationed one full dimension above** the wave forms we perceive as solid and objectified. Our consciousness structures itself into the scalar wave forms of dimensionality in order for us to perceive the illusion of manifestation. There is no difference, other than the **dimensional frequencies from which one is perceiving**, between the *substance that composes physical matter* and that which *composes our seemingly non-manifest portions of consciousness*. **The core of reality is CONSCIOUSNESS - it is the *energetic substance* out of which all things are made.**

Hova Bodies- Platforms of Perception

In this Section we will learn how the attributes of mind and sentient identity fit into the multidimensional anatomy of human consciousness. The scalar grids of the **Hova Bodies** and **Shields** that hold portions of our consciousness separate from each other so we may experience objectification, can be understood as **PLATFORMS OF PERCEPTION**. A portion of our conscious identity is **stationed within each of the Hova Body Shields**, and the dimensions contained within the Shield become the *platform* from which *that portion of our selves* will perceive matter objectification. **We are simultaneously focused within each Hova Body Platform of Perception, and this gives us separated but interrelated stations of identity and different LEVELS OF MIND from which we simultaneously perceive.** The amount of perception we are able to incorporate into our embodied focus on Earth is determined by the Level of Higher Identity Integration that has occurred. Integration of Higher Identity is the *merger* of the **Hova Bodies**, which creates changes and advancement in the **biological gene code** that allows the neurological and metabolic functions of the body to expand.

Our Present Platform of Perception

Presently we are accustomed to perceiving from the Platform of Perception provided by the **NADA HOVA BODY**, the *scalar grid* that houses the 1st, 2nd and 3rd Dimensional Aspects of our identity and anatomy. While perceiving from the Nada Hova Body and the **TELLURIC SHIELD** that holds its form, we are functioning as a **3-Dimensional consciousness** and will not be aware of the perceptions of the other levels of ourselves that are perceiving from the *Platforms of Perception* from the other Hova Bodies. **As we expand and evolve we will progressively incorporate the portions of our awareness stationed in the other Hova Bodies into our earthly focus of attention.**

The *Higher Identity Structure* of the Hova Bodies and related *Levels of Mind* within dimensionalization are as follows:

Stations of Identity and Levels of Mind in the Hova Bodies

INCARNATE IDENTITY: Nada Hova Body/ Telluric Shield / dimensions 1, 2 and 3.
The Subconscious (D-1), Instinctual (D-2) and Reasoning (D-3) Levels of Mind

SOUL IDENTITY: Alphi Hova Body/ Doradic Shield/ Dimensions 4, 5 and 6
The Astral (D-4), Archetype or Dora (D-5) and the Angelic (D-6) Levels of Mind

OVER-SOUL IDENTITY: Betcha Hova Body/ Teuric Shield/ Dimensions 7, 8 and 9
The Ketheric (D-7), Monadic or Teura (D-8) and the Keriatic (D-9) Levels of Mind

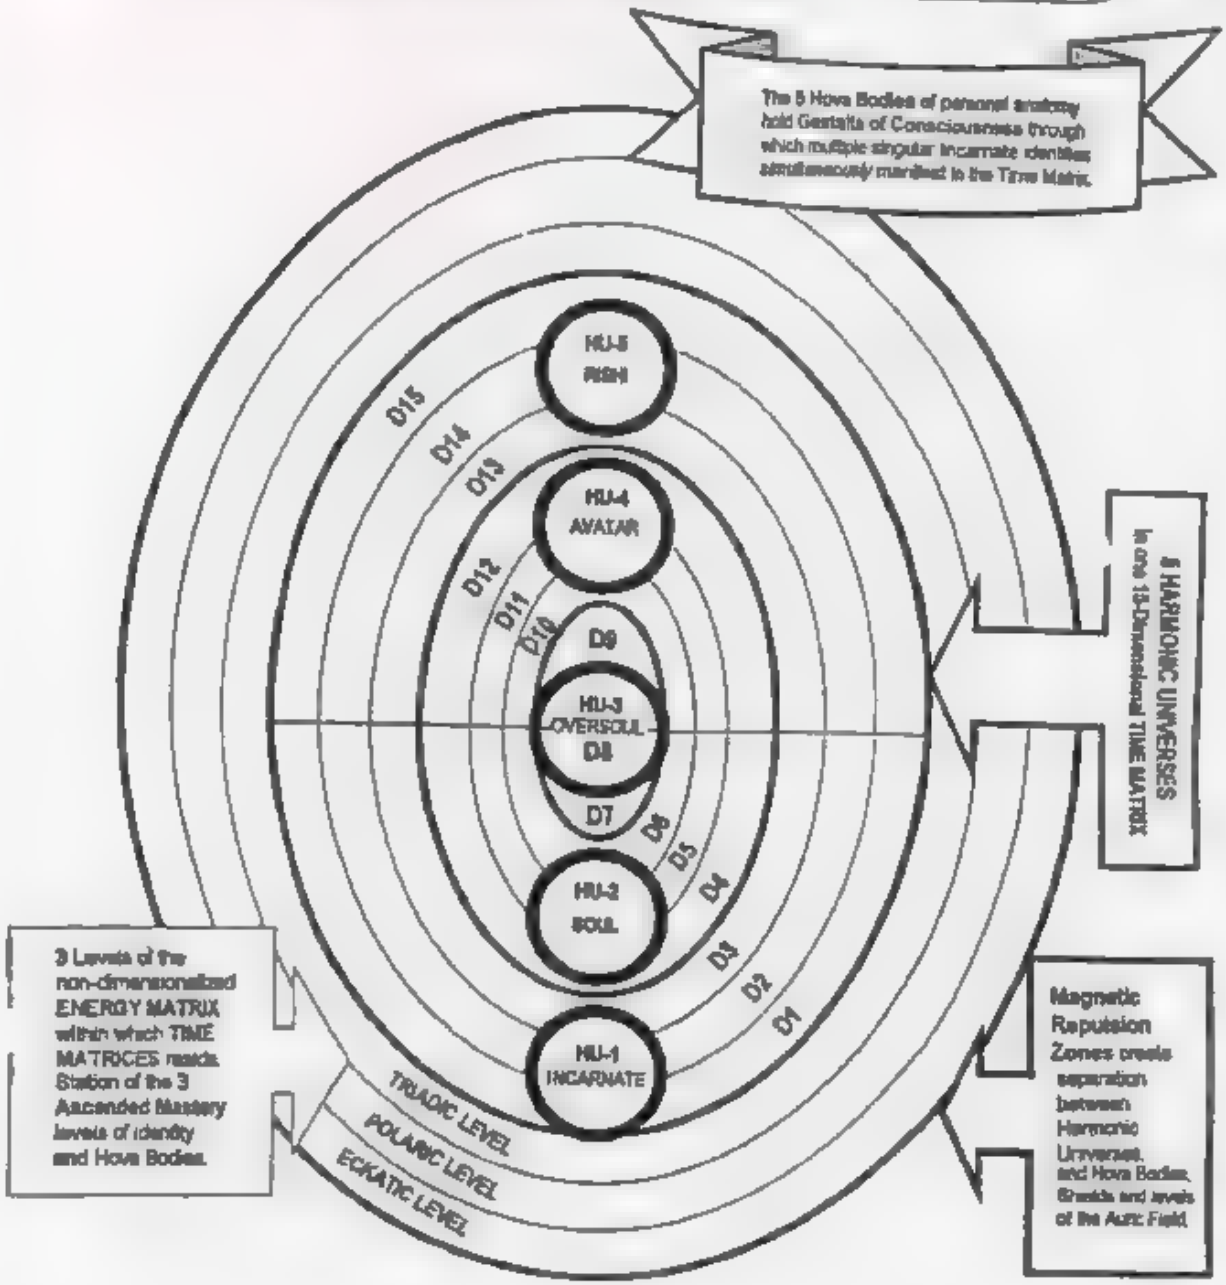
AVATAR IDENTITY: Mahara Hova Body/ Maharic Shield/ Dimensions 10, 11 and 12
The Christiac (D-10), Buddhiac (D-11) and the Nirvanic (D-12) Levels of Mind

RISHI IDENTITY: Raja Hova Body/ Rishic Shield/ Dimensions 13, 14 and 15
Universal Consciousness Mind

There are 3 additional Platforms of Perception and 3 additional Hova Bodies beyond the structure of Dimensions;Hova Bodies that represent 3 Levels of **Ascended Mastery Identity.**

Spiritual Actualization is the process of progressive Higher Dimensional Identity Integration. *Higher Identity Integration* is the merger of the *Hova Bodies*, which creates changes and advancement in the biological *Genetic Code* through progressive activation of dormant portions of the *Silicate Matrix 12-Strand DNA Template.*

5 Hova Bodies and Levels of Identity in the 15-Dimensional Time Matrix



THE 4 PRIMARY TRIADIC HEALING CURRENTS

Hova Bodies and the 4 Primary Triadic Currents

Each of the Hova Bodies and Shields contains a portion of your energy-identity that exists in the form of electro-tonal impulse born of Partiki Phasing. The energy of your higher stations of identity and that of the Universal Unified Fields of Consciousness-Energy can be drawn into the Nada Hova body and earthly incarnate identity for the purpose of healing facilitation. There are four Primary Triadic Healing Currents, each corresponding to one of the four higher dimensional Hova Bodies. Through *your* corresponding Hova Body station you can *draw energy from the higher dimensional Unified Fields* and channel it into your Nada Hova Body for direction into healing within the first Harmonic. The ***4 Primary Healing Currents*** are HARMONIC CURRENTS OF ENERGY, each composed of ***3 Dimensions of Frequency***. Each Dimensional Band within a Harmonic or TRIADIC current is referred to as a PHASE *of that current*. In Kathara Healing we develop the ability to activate each progressive PHASE of each TRIADIC CURRENT, through grounding the current into the body via the activated MAHARIC SHIELD.

Triadic Currents and Color

Each Phase of Triadic Current corresponds to a wave length in the dimensional spectrum that appears as COLOR to the embodied human mind. In directing the Triadic Currents we therefore use the color translation of the primary dimension wave spectra to differentiate between Phases of current for various applications. The first current to be activated in Kathara Healing is the that of the DORADIC CURRENT, the frequencies drawn in from Harmonic 2 through the Doradic Shield and Alphi Hova Body. The Doradic Current has 3 Phases: Phase -1: 4th Dimensional current/ GREEN wave, Phase-2: 5th - Dimensional Current/ BLUE wave and Phase -3: 6th-Dimensional current/ Blue-Violet wave. In Level-1 Kathara Healing we learn to activate and run the Phase-1 Green Doradic Current.

Current Combining

When using Triadic Phase Currents, each Phase current is *combined* with the current running from the activated *Maharic Shield*, in *combination with* the Phase current from the *Harmonic ABOVE the Phase current you are using*. The DORA DIC PHASE-1 current is therefore composed of: D-11/D-12 PALE SILVER (Maharic Shield), D-4 GREEN Doradic Shield Phase -1 AND D-7 VIOLET, the *Phase-1 current* of Harmonic 3 - Teuric Shield, one *Harmonic* up from Doradic Phase-1. In activating the DORADIC-1 (Doradic Phase-1) current you are using SILVER-GREEN-VIOLET color to direct Dimensions 12-11-7-4 current.

PHASE-3: **PALE SILVER** + **WHITE** (D-12) + **PALE MAGENTA** (D-15)

In **Level-1 Kathara Healing** we begin preparing the body and DNA Template to receive the higher dimensional Phase Currents by initiating transmission of the **Doradic Phase-1 Healing Current**- the *Pale Silver* + *Green* + *Violet* frequencies of dimensions *12, 11, 7 and 4.*

Through the 7th-Dimensional aspect of the **Teuric Shield** and 11th and 12th Dimensional aspects of the **Maharic Shield**, the **Doradic-1 Healing Current** allows for recoding and realignment of the 1st-4th-Dimensional aspects of the **Nada** and **Alphi Hova Bodies**, the **Telluric Shield** and **Physical, Emotional** and **Mental Bodies** of Density-1, the **D-4** aspect of the **Doradic Shield** and **Astral Body**, the **1st-4th DNA Strand Templates**, the **1st-4th Chakras**, and the **1st-4th Sub-harmonics** of all Scalar Shields, DNA Templates, Hova Bodies and Chakras. Doradic-1 Healing Current is effective in clearing the **Karmic-Miasmic Imprint** from the **Density-1 Time Cycle incarnations** and the beginning of Density-2 Time Cycle Incarnations.

CHAPTER 3 HIGHLIGHTS

KATHARA BEGINNING APPLICATIONS

- The **Hova Bodies** of personal anatomy contain portions of our higher dimensional awareness. One can begin accessing this awareness by building a **Perceptual Bridge** between the 3-Dimensional Self and higher identity aspects.

- Taking conscious initiative in building a Perceptual Bridge expedites **DNA Template activation** and the organic evolutionary process.

- The **MENTOR Technique** assists in building the Perceptual Bridge and activates dormant **Kathara Lines** in our **Level-1 Kathara Grid** to open communication between our D3 and Density-2, D4 and D5 levels of awareness.

- The Mentor is a part of our awareness that is composed of 3rd, 4th and 5th **Dimensional frequencies** of consciousness, which exists as a quantity of **Scalar Wave patterns** that span **Densities 1 and 2.**

- The **Mentor Focus** will be used in **Kathara Healing** for **guidance, information retrieval** and **objective observation.** It can also be used to access **Cellular Memory,** and in **"Inner Child", Bi-location, Remote Viewing** and **Dream work.**

- Through a process called **Morphogenetic Repatterning**, Kathara Healing effects the **Core** of Dis-ease and dis-harmony in the Body-Mind-Spirit system by **repatterning** the Scalar-wave Programs in the personal **Holographic Template** to their original **Primal Order.**

- In **Level-1 Kathara Healing** we learn the **MAHARIC RECODING PROCESS**- the most important level of Holographic Template realignment.

- The **Maharic Shield** is the 3-Dimensional Scalar Grid corresponding to the **10th, 11th and 12th-Dimensional frequencies** of **Density-4.** It represents the **Original Point of Manifestation** and holds our original "Liquid Light" **Hydroplasmic Pre-matter Creation Imprint**, which is the **Organic Imprint for Health.**

- In Kathara Healing, the **Maharic Shield** Organic Imprint for Health is used to progressively **repattern** the embodied **Kathara Grid** and body systems to their original **Primal Order.**

- The **12th-Dimensional Frequencies** of the Maharic Shield contain within them the **144 Sub-frequency Band** Scalar patterns of **ALL** of the Dimensions below.

- 12th-Dimensional **Maharic Frequency** can be used to **effectively correct distortions** in the lower dimensional levels of the Manifestation Template, Scalar Shields and Kathara Grid.

- Activation of the **Maharic Shield** serves as the **RESET BUTTON** for the embodied **Kathara Grid** and for 12 Dimensions of Body-Mind-Spirit anatomy.

THE MAHARIC SEAL AND LIQUID LIGHT CLEANSE

- In bio-energetic healing, **Level-1 Kathara Grid** distortions override realignments made to the **outer levels** of the bio-fields alone. For **lasting healing** to occur, Level-1 Kathara Grid distortions must be realigned.

- The **Maharic Shield**, with its **144 Frequency Sub-Harmonics**, is the only portion of the Morphogenetic anatomy that can fully repattern and realign the **Level-1 Kathara 12-Tree Grid**. In **Kathara Healing**, the **Maharic Shield** is used to realign the Level-1 12-Tree Grid.

- The **Maharic Seal and Liquid Light Cleanse** technique is used to restore distorted **Partiki Phasing Sequences** and **Scalar-wave arrangements** within the **3 Levels of the Kathara Grid** and **Scalar Shields**.

- Realignment will be **temporary** until the Kathara Grid reaches "**Critical Mass**" of energy in the **new**, realigned pattern.

- Until **critical mass** is reached, the outer levels of the anatomy will continue to **reverse** the Kathara Grid healing. With practice and **consistent application** of the **Maharic Seal and Liquid Light Cleanse** technique, the realignment of the Kathara Grid will become **permanent.**

- In future applications of Kathara Healing processes will be used to realign the **outer levels** of the bio-field and the **Kathara Grid simultaneously,** to expedite the healing process.

- The Focus of **Level-1 Kathara Healing** is **Morphogenetic Repatterning** and **Holographic Template Recoding** via the **Maharic Shield,** to clear distortions and the **Karmic-miasmic imprint** from the personal **Scalar Shields, Kathara Grid** and **DNA Template,** utilizing the **accelerated energies** of the *Planetary Bio-feed Interface System* **(PBIS).**

KATHARA POINTS

- **Kathara Points** are mini energy-vortex points in the body that connect directly to **Diodic Point vortices** in the **Level-3 Kathara Diodic Point Grid.**

- Stimulation of the Kathara Points through **manual massage** effects the **movement of energy** within related areas of the Kathara Grid and body systems.

- Used in sequence, **Sequence-1 Kathara Points for Regeneration** *open* energetic gateways to the **Kathara Lines** of the **Kathara Level-1 12-Tree Grid**, to allow new, realigned scalar patterns from the **Maharic Shield** to run through the Kathara Lines and Kathara Grid for **Core Template Repatterning.**

- **Sequence-1 Kathara Points** create **more lasting but less immediate** effects of realignment and healing. They can be **used alone** for **deep healing** and re-balancing of the **Core Kathara Grid.**

- **Sequence-2 Kathara Points for Revitalization** *close* **Kathara Lines** in the 12-Tree Grid and **channel** energy into the **Nadial Lines** of the **outer bio-energetic field** for more rapid revitalization and re-balancing of the **outer auric levels, chakras** and **physical cells.**

- **Sequence-2 Kathara Points** create **more immediate but less lasting** effects of realignment and healing. They can be **used alone** to create **temporary revitalization of** the **outer levels** of the bio-system.

- **Used together, Sequence-1** Kathara Points can run **Maharic energy** through the **core Kathara Grid** for **Template Recoding. Sequence-2** Kathara Points can then be used to **direct the Maharic energy** into the **outer levels** of the bio-field and physical body, to **expedite healing** through **simultaneous** inner and outer bio-field realignment.

In **Kathara Healing, Sequence-1** Kathara Points are used to **OPEN** the Kathara Lines **prior to** running the **Maharic Seal and Liquid Light Cleanse** and **Sequence-2** Kathara Points can be used **following** the procedure to **revitalize** the outer bio-field **and body systems.**

THE MAHARIC SEAL, PBIS AND HEALING

- Use of the **Maharic Seal and Liquid Light Cleanse** technique begins activation of dormant **Chakras 8-12** and the **Planetary Bio-feed Interface System (PBIS).**

- **Opening the PBIS** allows energy from the **Planetary Shields** to be drawn into the **human body** for **rapid activation** of the **personal Maharic Shield** and **Crystal Seals,** to **expedite** the processes of **DNA Template activation, healing, recoding of the Holographic Template** and interdimensional evolution.

- Opening of the PBIS can also allow the human **DNA Template** to serve as a **Bio-electric Conduit,** through which the **Planetary Scalar Shields** and Electro-magnetic Grids can be realigned with their **Primal Order** for **geophysical planetary healing.**

- Through the PBIS humans can directly facilitate healing of the **Planetary Templar Complex** from the Manifestation Template level, as well as facilitate healing in other biological organisms.

- Each use of the **Maharic Seal and Liquid Light Cleanse** technique assists in **planetary healing**, as the process progressively stimulates the **Planetary Maharic Shield** into activation, to realign **Planetary Shield** distortions.

- The **Maharic Seal and Liquid Light Cleanse** technique is used as **preliminary preparation for ALL Kathara Healing applications.** It creates a temporary **12th-Dimensional Scalar Frequency Seal** in the facilitator's bio-field to **protect** both facilitator and client from taking on each other's bio-field distortions.

- In **healing applications**, the **Maharic Seal** is needed to run interdimensional healing currents to their most effective **12th-Sub-Harmonic level.**

- The processes by which **healing** occurs through re-genesis of Primal Order are the same processes through which true **Spiritual Actualization** takes place.

- **Biology** and **consciousness** are **intimately intertwined** through the natural **Laws of Universal Unified Field Physics**, the **energetic dynamics** through which consciousness enters manifestation.

- The hidden **impetus for action** behind human evolution is the core species objective of **Mastery of Co-creation** within the space-time system. This **Evolutionary Objective** is obtained through achievement of the Evolutionary **Goal** of **Transmutational Dimensional Ascension.**

- **Kathara Healing** applications generate **healing** through restoring the **Original Imprint for Health.**

- Restoration of the **Original Imprint for Health** simultaneously expedites the natural processes of **evolution,** through activation of the **12-Strand DNA Template, Kundalini** energies, and **Merkaba Vehicle** and integration of the **Hova Bodies, Scalar Shields** and higher dimensional aspects of personal **spiritual identity.**

- **Kathara Healing** facilitates healing while simultaneously facilitating **Spiritual Actualization** and expediting the Goal of **Transmutational Dimensional Ascension.**

- **Healing is a function of consciousness.** There is no difference between the substance that composes physical matter and the substance that composes consciousness, other than the **dimensional frequency** from which one is perceiving.

- When personal consciousness energy is applied in **congruence** with the natural Laws of Universal Unified Field Physics, **healing, wellbeing** and **Spiritual Actualization** result.

MULTI-DIMENSIONAL IDENTITY STRUCTURE

- **Human anatomy** is a **15-Dimensional Scalar-wave construct.** Part of our identity exists **simultaneously** within the Time Cycles of the higher dimensional **Harmonic Universes.**

- We are indelibly **linked** to our higher identity levels through our embodied **Kathara Grid, Scalar Shields** and **DNA Template.** As we evolve biologically to activation of dormant portions of our DNA Template and Scalar Shields, the conscious awareness of our higher identity levels **progressively embodies.**

- The 3-Dimensional Hova Body **Electro-magnetic Domains** and Scalar Shields that form them represent **Platforms of Perception** through which our higher identity levels perceive.

- **Merger** of the **Hova Bodies** via activation of the **DNA Template** and **Scalar Shields** creates **reintegration** of the **Multi-Dimensional Identity Structure.**

4 PRIMARY TRIADIC HEALING CURRENTS AND IDENTITY

- The **5 Levels of Multi-Dimensional Identity Structure** are: **Incarnate**-Density-1, **Soul**-Density-2, **Oversoul**-Density-3, **Avatar**-Density-4 and **Rishi**-Density-5. There are also **3 Ascended Master** identity levels, Hova Bodies and Shields existing **beyond** the dimensionalized **Time Matrix.**

- In **Kathara Healing** we use the various levels of higher dimensional identity to draw in **healing current** from the higher dimensional Unified Fields, by activating the portions of the **personal Scalar Shields, Kathara Grid** and **DNA Template** that correspond to the higher dimensional **Hova Bodies.**

- There are **4 Primary Triadic** (3-Dimensional) **Energy Currents** that can be used in **Healing Facilitation**: The **Telluric Current**-Density-1, the **Doradic Current**-Density-2, the **Teuric Current**-Density-3 and the **Maharic Current**-Density-4. The **Rishic Current** of Density-5 can be run only by beings with **full 12-strand DNA activation.**

4 PRIMARY TRIADIC CURRENTS

- Each of the **4 Primary Triadic Healing Currents** corresponds to one of the first 4 **Hova Bodies** of human anatomy.

- In Kathara Healing, the 4 Primary Triadic Currents are harmonically interwoven to create 4 powerful **Combined Healing Currents.**

- Each of the 4 Triadic Healing Currents has 3 Phases, or **3 Phase Currents**, each representing one of the three dimensional frequency bands within the **Triadic Current.**

- Each of the **12 Phase Currents** is run in combination with the 11-12th-Dimensional **Maharic Current** and the Phase Current from the **harmonic directly above**, to form a powerful **Triadic Healing Current.**

- In **Kathara Healing**, specific Healing Currents are directed by using the **Color** of their dominant **wave-length.**

- **Level-1 Kathara Healing** teaches us to activate our **Doradic-Phase-1 Current**- the **Pale Silver** (D11-12) + **Green** (D-4) + **Violet** (D-7)- for **Healing Facilitation** and **personal** DNA Template and Shield activation.

- The **Doradic-Phase –1 Current** can realign the **1st-4th** Dimensional aspects of the **Scalar Shields**, the **1st-4th Chakras**, **Axi-A-Tonal Lines** and **DNA Strand Templates**, the **Physical, Emotional** and **Mental** bodies of the **Nada Hova Body** and the D-4 **Astral body** of the **Alphi Hova Body.**

- **Doradic-Phase-1 Current** can also be used to realign the **1st-4th Sub-Harmonics** of ALL Shields, DNA Strand Templates, Axi-A-Tonal Lines, Chakras and Hova Bodies and to clear the **Karmic-Miasmic Imprint** from the **Density-1** incarnational Time Cycles and the **first part** of the **Density-2** incarnational Time Cycles.

DORADIC-PHASE-1 CURRENT

Interdimensional Currents and Signet Star Crystal Seals

Activation of any Triadic Healing Current requires temporary release of the corresponding Signet Star Crystal Seals within the personal Scalar Shield and a temporary activation of the portions of the dormant 12-Strand DNA Template that correspond to the Signet Seals. Signet Seals modulate the flow of frequency between the 3-Dimensional Harmonic Density Levels. When Signet Seals are in their usual (for this time period) dormant phase, they keep the 5 Hova Bodies of the personal 15-Dimensional anatomy separate from each other by creating an electro-magnetic barrier or Magnetic Repulsion Zone between each 3-Dimensional level of the energetic anatomy. This *Magnetic Repulsion Zone* between embodied Harmonics of Manifestation manifests as polarity resistance to frequency inflow within the 3 Levels of the Kathara Grid, the Scalar Shields, Axi-A-Tonal Lines, Chakras and Auric Field levels of the embodied Inner Templar Complex. In order to run higher dimensional frequency currents through the physical body for healing applications, it is necessary to temporarily release portions of the Magnetic Repulsion Zones between the Hova Bodies. Releasing the electro-magnetic resistance to higher dimensional frequency inflow within the Inner Templar Complex is achieved through temporary activation of the Signet Seals within the Kathara Level-2 Crystal Seals Grid of the personal [redacted].

Most contemporary energetic healing systems rely upon using the 1st, 2nd and 3rd-Dimensional frequencies of the TELLURIC PHASE CURRENTS in the Nada Hova Body. Through the Nada Hova Body alone, only the 3-Dimensional Sub-Harmonics of higher dimensional frequency currents can be run, as the dormant *Signet Seals* block the faster moving *Partiki Phasing Flash-line Sequences* of higher dimensional frequency bands from running through the DNA Template. If a frequency band is blocked from running through the DNA Template that frequency cannot be energetically transmitted through the Nada Hova Body and physical bio-electrical systems. In conventional energy healing methods, even those emerging from ancient systems of subtle-energy healing, the Signet Seals, and thus the *Scalar Shields, Hova Bodies* and *DNA Template* remain dormant in their usually closed position, phase-locked into a 3-Dimensional orientation. While the DNA Template remains phase-locked into the 3-Dimensional orientation of the Nada Hova Body, only the 1st through 12th Sub-frequency bands (Sub-Harmonics) of 1st through 3rd Dimensional Current (Telluric Current), and the 1st through 3rd Sub-frequency bands of 4th through 12th Dimensional Current can be run through the human body for transmission. Use of the lower frequency (slower Partiki Phasing rhythm) Telluric Currents can effect temporary beneficial change in the outer layers of the bio-energetic field, but Telluric Currents alone cannot facilitate full repatterning of the 3 Levels of the Kathara Grid where Scalar Shield distortions that cause genetic malfunction are embedded. The 11th-12th-Dimensional frequencies of the Pre-matter Hydroplasmic Maharic Currents are the only dimensional frequencies powerful enough to affect change in the embodied Kathara Grid. To run Maharic Current, and the high frequency interdimensional Triadic Phase Currents, through the human body requires release of the Signet Seals within the personal Scalar Shields.

Triadic Phase Currents, the Maharic Shield and the PBIS

Most healing systems have not incorporated the **Maharic Current** into their frequency application procedures because the **Planetary Templar Complex** has not been able to run a D-12 **Maharic Current** through the planetary grids for 210,216 years. Like the human DNA Template, if the **Planetary Shields** and Manifestation Template are blocked from processing interdimensional frequency, that frequency will be unavailable for use on the planet. If the **Signet Star Crystal Seals** (Star Gates) in the **Planetary Shields** are dormant, closed and phase-locked into Density-1 orientation, no one on the planet will be able to draw interdimensional frequency into their personal **Shields** because the frequency is unavailable within the **Planetary Shields**. The personal and planetary Templar Complexes are intimately interwoven, and what effects one will inevitably effect the other.

In order to run the full spectrum of interdimensional **Triadic Phase Currents** through the human body it is necessary to open the **Signet Seals** in the personal Inner Templar and the **Signet Star Gates** in the **Planetary Templar Complex**. In conventional human evolution, the Internal Signet Seals, which serve as the **Genetic Time Codes** or "Fire Codes" of the human DNA Template, automatically, progressively and sequentially open over very long cycles of time. During the slow activation of the Genetic Time Codes the conscious identity experiences passage through numerous incarnate lifecycles within the planetary Time Cycle, evolving through a series of **Single Vector Incarnations** before being released from the 3-Dimensional phase-lock of Density-1 manifestation. One can manually open the **Signet Seals** in the embodied Inner Templar Complex to expedite evolution into the Multi-dimensional, **Multi-Vector Time Cycles** through use of the 11th-12th Dimensional **Maharic Current**.

Activation of the personal **Maharic Shield** allows for rapid release of the embodied **Signet Seals** and activation of the **Fire Codes** in the DNA Template. The **Maharic Current** from the personal Maharic Shield can be used to release the **Signet Star Crystal Seals** within the body which in turn activates the dormant **Kundalini** energies at the base of the spine and the **Cranial-Sacral Kundalini Seals** within the **Tailbone** and **Pineal Gland**. Release of the Cranial-Sacral Seals of the Internal Templar Complex allows the **Magnetic Repulsion Zones** between the **Hova Bodies** to release so the DNA Template, personal Scalar Shields and physical body systems can receive inflow of higher dimensional frequency. To gain conscious mastery over the process of releasing the internal Signet Seals requires activation of the personal **Maharic Shield**, and the personal Maharic Shield can be manually activated only through drawing **Maharic Current** into the personal Shields via the **Planetary Maharic Shield**. The entire process of releasing the internal *Signet Seals* by activating the personal *Maharic Shield*, in order to enable the *DNA Template* to run *Triadic Phase Currents* for healing is entirely dependant upon the *operational function* of the *Planetary Bio-feed Interface System* (PBIS).

If the **Planetary Templar Complex** is blocked, or the Signet Star Gates are dormant, and **Maharic Current** from the **Planetary Maharic Shield** is not able to run through the planetary grids, humans on Earth do not have the option of manually activating the personal **Maharic Shield**, because the PBIS is not operational. The PBIS becomes operationally functional within the human body through activation of the 12th **Chakra**. The 12th Chakra cannot activate in the personal Templar Complex if the **Planetary Templar Complex** cannot run 12th-Dimensional **Maharic** frequency. For over 200,000 years, the Planetary Templar Complex could not run Maharic frequency, and thus manual activation of the personal Maharic Shield and release of the embodied Signet Seals to open the Hova Bodies for running interdimensional Triadic Phase Currents for healing were not available options for Earth humanity. Since the recent activation of the **Planetary Templar Complex**, **Maharic Shield** and PBIS activation and **Kathara Healing** applications are now available on Earth.

Opening Triadic Phase Currents in the Human Body

The method by which **Triadic Phase Currents** are activated within the human body is a **progressive process**. First, opening of the personal **Kathara Grid, Telluric Shield** and **Nada Hova Body** is orchestrated through activation of the **Maharic Shield** and **Signet Seals**, to allow inflow of frequency from the higher dimensional **Hova Bodies**. Next, the incoming frequency is harnessed and **collected** within the **Chakra System**. Finally, the collected frequency is then **transmitted** for healing facilitation in others, either through direct **Chakra transmission** or by close-range **Frequency Induction** via transmission of frequency from the activated **Secondary Chakra Centers** within the **PALMS.**

The ability to run the higher dimensional Triadic Phase Currents within the body must be built up within the Internal Templar Complex, starting with the **slowest-moving current** of the higher dimensional spectrum- the **DORADIC-PHASE-1 CURRENT**. The *Doradic-Phase-1 Current* utilizes the **sub-frequencies** of the 11th-12th-Dimensional **Maharic Current** from the Density-4 *Mahara Hova Body* as a **carrier wave** that will carry the desired interdimensional currents through the **Signet Seals** of the personal **Scalar Shields**. The **full spectrum** of the 4th Dimensional **Doradic-Phase-1** current from the Density-2 *Alphi Hova Body* is activated as the **primary healing frequency** for transmission. The **full spectrum** of the 7th-Dimensional **Teuric-Phase-1 Current** (one Harmonic above the Doradic-Phase-1 Current) from the Density-3 *Betcha Hova Body* is used to release the 4th-Dimensional **Signet Seal**, allowing the 4th-Dimensional Doradic-Phase-1 current to enter the **Nada Hova Body**.

Activating the 4th **Signet Seal** triggers temporary activation of the 4th **DNA Strand Template** and corresponding 4th **Kathara Center** in the Level-1 12-Tree Grid, which allows the 4th-Dimensional frequencies of the **Doradic-Phase-1 Current** to pass through the **active DNA** and into the bio-energetic and bio-electrical systems of the body for transmission. Once the DNA Template becomes accustomed to holding a **4th-DNA Strand Template Activation**, after **several months** of practice in running the 4th–Dimensional *Doradic-Phase-1 Current*, the body will be able to begin receiving the primarily 5th-Dimensional **Doradic-Phase-2 Current. The lower dimensional Triadic Currents must be activated within the DNA Template before the higher dimensional Triadic Currents can run.** In **Level-1 Kathara Healing** the first step of activating the full spectrum (12 sub-harmonics) of the 4th-Dimensional **Doradic-Phase-1 Current** is achieved.

Triadic Phase Currents and Color Cap-Stones

The **Color Cap Stone** of a dimensional frequency band is the visual representation of the **primary wave-length** formed by the specific **Partiki Phasing Rhythm** for that dimension. A specific dimensional frequency band can be chosen and directed by the **color translation** of its primary wave-length. The **Color Cap Stones** of the dimensional frequency bands are used in Kathara Healing to direct specifically selected dimensional frequency bands (Partiki Phasing Rhythms) for specific applications. The **Color Cap Stones** for the **Doradic-Phase-1 Current** are **PALE SILVER** (D-11-D-12 Maharic) + **GREEN** (D-4 Doradic) + **VIOLET** (D-7 Teuric). In **technique # 3 – OPENING THE HEALING CHANNELS-DORADIC-1** - the ***Pale Silver*** + ***Green*** + ***Violet*** Cap Stone Colors will be used to activate the **Doradic-Phase-1** Healing Current within the body.

DORADIC SPHERE, CORDS AND BALLS

The Doradic Sphere and Current Collection

The **DORADIC SPHERE** is a **frequency repository** that is formed to hold the activated **Doradic-Phase-1 Current** within the **Chakra system** for transmission in healing facilitation. As the Doradic-Phase-1 Current is primarily a **4th-Dimensional Current**, the **Doradic-1 Sphere** will be formed in the **4th Chakra**, which corresponds to the 4th-Dimensional **ASTRAL body** of the Alphi Hova Body and Auric Field. **Transmission** of the Doradic-Phase-1 Current will take place from the **Doradic Sphere** at the **4th Chakra**, creating a **4th-Dimensional ASTRAL INFUSION** of frequency into the bio-energetic field of the client in **close-range healing**, and a general **Astral Plane Infusion** of Doradic-Phase-1 frequency into **Manifestation Templates** of areas(and everything contained within the space) when transmitted directly from the **4th Chakra**.

Doradic Cords and Current Induction

The **DORADIC CORDS** are **energy conduits** that are formed by opening the embodied **Axi-A-Tonal Lines** within the **arms, hands** and **fingers**. Opening the Doradic Cords allows the **Secondary Chakras** within the **palms** of the hands to carry the **Doradic-Phase-1 Current** for application in **close-range transmission**. Though Triadic Phase Currents can be transmitted directly from the **Chakra Center** in which the **Collection Sphere** is placed, the energies are more **diffused** and **diluted** in this form of transmission, **unless** the personal DNA Template holds a **full, permanent activation** of the Strand Template corresponding to the Triadic Current being transmitted. It takes time, often years, for the DNA Template to acquire and permanently hold a higher strand activation level. One-on-one healing facilitation is more effective when conducted through **concentrating** the Triadic Current through the **Axi-A-Tonal Lines** for **DIRECT INDUCTION** of current through the **Palm Chakras** in **close-range transmission**. Close-range transmission also allows for **more precise application** of frequency to specific areas of the body systems. In **Level-1 Kathara Healing**, the **Doradic Cords** are activated within the arms, palms and fingers to allow for concentration, focused direction and **Direct Induction** of the **Doradic-Phase-1 Current**.

For **general healing** purposes, such as **"clearing rooms"** or geographical spaces, or when attempting to transmit healing current into **groups of people**, transmission of the **Doradic-Phase-1 Current** can be orchestrated directly from the **4th Chakra** for **NON-SPECIFIC INDUCTION**. In **Non-Specific Induction**, following activation of the Doradic-Phase-1 Current, each **INHALE** breath is used to fill the **Doradic Sphere** with more energy and each **EXHALE** breath is used to expand and transmit the energy into the room or bio-fields of a group of people. It is not necessary to activate the Doradic Cords for Non-Specific Induction applications. In **Level-1 Kathara Healing** applications use of the **Doradic Cords** and **Palm Chakras** is employed for Direct Induction close-range transmission in Client Sessions. To enhance and expedite **personal healing**, the activated **Doradic-Phase –1 Current** can be run through the personal **Level-1 Kathara Grid** with the ***Maharic Shield and Liquid Light Cleanse*** technique and then through each of the **7 Primary Embodied Chakras**.

Doradic Balls and Palm Transmission Direct Induction

The **DORADIC BALLS** are small energy repositories that form in the **Palms** of the Hands when the **Doradic Cords** have been activated to run Doradic-Phase-1-Current through the **Palm Chakras**. Doradic Balls are used to **accumulate current** in the **Palm Chakra vortices** prior to transmission, to **strengthen** the intensity of the current.

PALM CHAKRAS AND TRANSMITTING CURRENT

Primary Polarities of Palm Chakras

Along with the **15 Primary Chakras** within human anatomy there are many other smaller **Secondary** and **Tertiary Chakra Centers** throughout the body, which correspond to the energetic interrelationships of scalar-wave patterns within the **Kathara Level-3 Diodic Points Grid.** All Chakras operate as sets of **Black and White Holes,** through which energy from the Dimensional Unified Fields circulates into and out of the body and Manifestation Template. The **Palm Chakras** are part of the **Secondary Chakra System**. Like all Chakras, the Palm Chakras are structured as **2 vortices** of energy **joined at the tip** by a minute **Crystal Seal** within the **Kathara Level-2 Crystal Seals Grid**. The Palm Chakras run through the **center of the Palms** and out of the **back of the hands.**

In any set of Chakra vortex spirals, one vortex represents the **magnetic Black Hole,** a *counter-clockwise rotating* spiral that **draws energy IN** toward the central Crystal Seal, and the companion vortex represents the corresponding **Electrical White Hole,** the *clock-wise rotating* spiral that **sends energy OUT** from the central Crystal Seal. The **Black Hole** vortex represents the **RECEIVING spiral** or **Magnetic Pole** and the **White Hole** vortex represents the **TRANSMITTING spiral** or **Electrical Pole.** The **Electrical Pole** of a Chakra represents the **EXPANSION CURRENT** of the Chakra, through which it **expands energy out** from the personal Shields; it is referred to as **BASE ELECTRICAL**. The **Magnetic Pole** of a Chakra represents the **CONTRACTION CURRENT** of the Chakra, through which it **contracts energy in** from the external Unified Field to the personal Shields; It is referred to as **BASE MAGNETIC.**

The Chakras in the **Palms** are composed of many smaller minute **vortex sets**, each with Magnetic and Electrical Poles, but the **PRIMARY POLE** of each Palm Chakra is that pertaining to the **larger Black-White Hole set** and **Crystal Seal**. Though each Palm Chakra is capable of both **Transmitting and Receiving** energy current, the **strongest and most focused currents** can be achieved by utilizing the natural polarity orientation of the Primary Vortex Set. The Chakra in the **RIGHT PALM** is **BASE ELECTRICAL;** its corresponding vortex on the back of the right hand is **Base Magnetic.** The Chakra in the **LEFT PALM** is **BASE MAGNETIC,** its corresponding vortex on the back of the left hand is **Base Electrical.** When running Triadic Phase Currents it is helpful to understand the **Primary Polarities of the Palm Chakras** in order to create the **strongest** and **least distorted** healing current. In **Kathara Healing**, the **RIGHT HAND** is the **TRANSMITTING HAND,** through which Triadic Current is **Exhaled** down the **Cords** in the arms and **EXPANDED** into the **RIGHT PALM CHAKRA** for **TRANSMISION**. The **LEFT HAND** is the **RECEIVING HAND,** through which the Triadic Current transmitted from the Right Hand is **drawn back** into the facilitator's body **TO CREATE A CLOSED CIRCUIT OF CURRENT** for the **strongest current intensity** and **purest frequency content.**

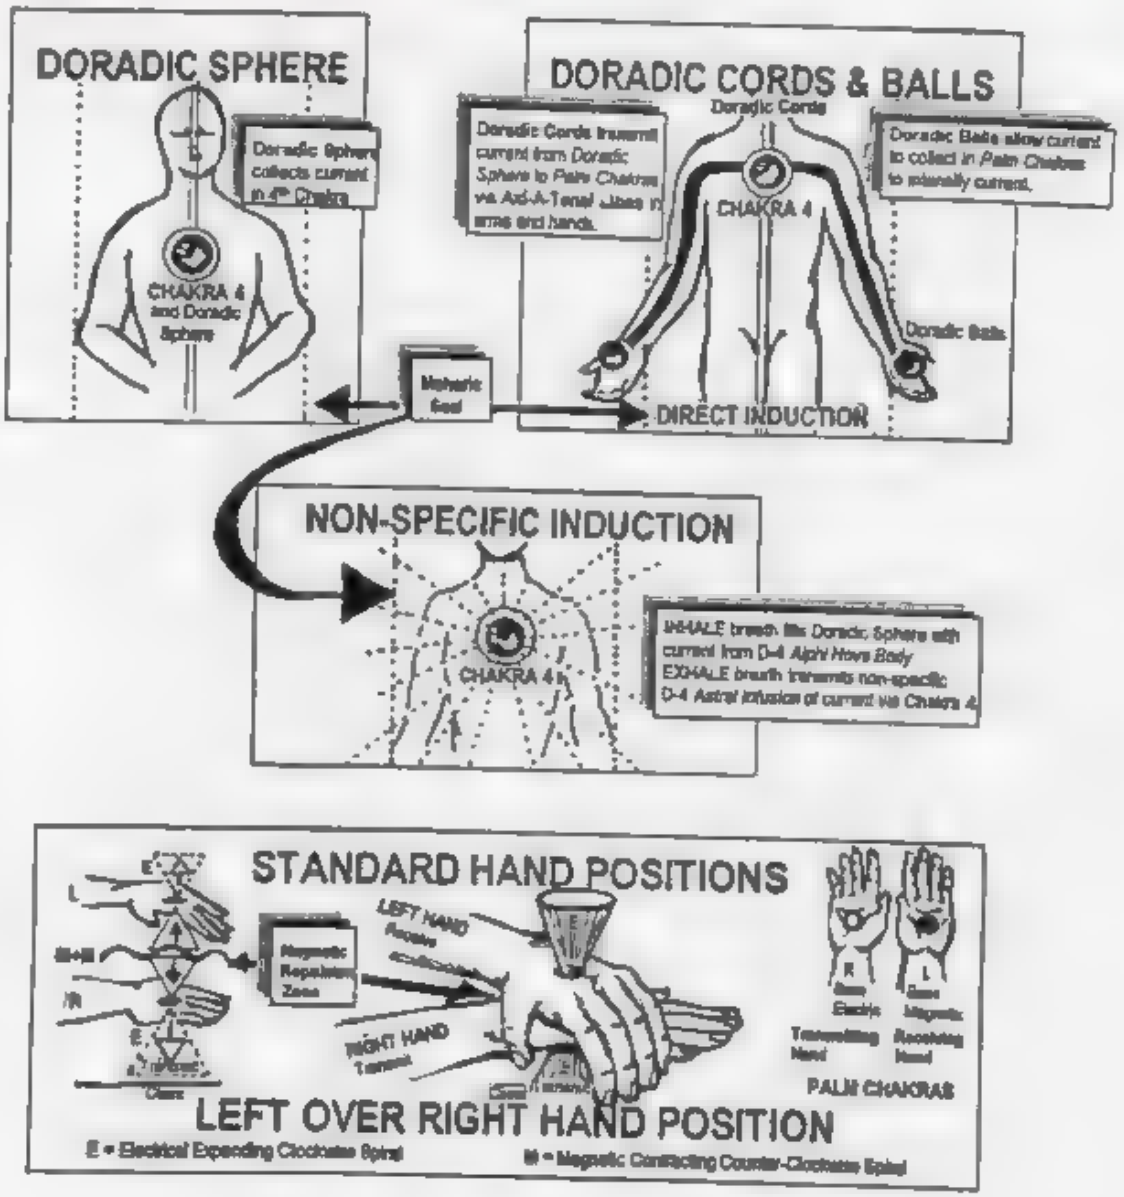
HAND POSITIONS

Standard Hand Position for Transmitting Triadic Current

When transmitting Triadic Current, the **LEFT PALM** is **PLACED OVER THE BACK OF THE RIGHT HAND**. The *Base Magnetic* Current of the *Left Palm* **interfaces** with the *Base Magnetic* Current in the *Back of the Right Hand*, creating a **MAGNETIC REPULSION ZONE**, which **blocks the vortex on the Back of the Right hand** from drawing **non-specific frequency** from the Density-1 Unified Field. This keeps the current transmitted from the *Right Palm Chakra* **pure** to its specifically chosen content. The *Base Magnetic* vortex in the *Left Palm* simultaneously draws the **transmitted current** back up through the smaller vortex sets after it runs through the client's body, creating a **closed circuit of pure frequency** running between the **Hova Bodies** of the **client,** the **facilitator** and the higher dimensional **Unified Fields**. Options of **Frequency Modulation** for other healing applications also become available through using this **HAND POSITION** when transmitting healing current. In some applications a **modulated current** that includes bursts of Density-1 Telluric Current interspersed with current transmission from the higher dimensions is desired; this can be achieved by moving the Left Hand on and off of the vortex on the back of the Right Hand. The **LEFT OVER RIGHT HAND POSITION** is used in **Level-1 Kathara Healing** applications.

Elements of Doradic-Phase-1 Current Activation

Doradic-1 Cap Stone Colors:
PALE SILVER (D-11&D-12) + **GREEN** (D-4)+ **VIOLET** (D-7)



Intrinsic Process of Activating a Triadic Phase Current

ACTIVATE MAHARIC SHIELD

1. Open the PBIS using the D-11 – D-12 Wave Guide Symbol Code, the **Hierophant Symbol**, to open the 12th **Chakra** and stimulate release of **Maharic** frequency from the **Planetary Maharic Shield.**
2. From the PBIS draw Maharic frequency from the Earth's Maharic Shield up into the dormant personal Maharic Shield 12" below the feet, to activate the **personal Maharic Shield.**

ACTIVATE TRIADIC PHASE CURRENT

3. Choose the specific Triadic Current you desire to run.
4. Use the inflow of **Maharic Current** from the personal and planetary Maharic Shield as a **Carrier Wave** to carry the **Cap Stone Color frequencies** of the **Signet Star Crystal Seals** in your Scalar Shields that correspond to the **Triadic Phase Current** you wish to activate.
5. Temporarily release the **Signet** and **Cranial-Sacral Kundalini Seals** and activate the **DNA Strand Template** corresponding to the chosen **Triadic Phase Current**, by running the **Primary Frequency** and the frequency **one Harmonic above it** through the **Signet Seals**, on the Maharic carrier wave current, to open the **Nada Hova Body** and physical body systems to inflow of the higher dimensional **Triadic Phase Current.**

COLLECT AND TRANSMIT HEALING CURRENT

6. As the Triadic Phase currents transmits into the body through the Signet Seals, Kundalini energies and DNA Template, **collect and build the current as a Sphere of energy** within the **Chakra** corresponding to the Primary Triadic Current you are running.
7. Run the current from the **Collecting Chakra** through the **Axi-A-Tonal Line Cords** in the arms, to activate the **Palm Chakras.**
8. Exhale current from the **Chakra Collection Sphere** through the **Cords** and allow it to build into **Balls** of energy within the **Palm Chakras** before transmitting.
9. Transmit the Triadic Current through the **RIGHT PALM CHAKRA** into client's bio-energetic field while drawing more current into the **Chakra Collection Sphere** with each exhale breath and draw the current back through the **LEFT PALM** on each inhale breath to create a higher dimensional Closed Circuit Healing Current. Use **LEFT PALM OVER BACK OF RIGHT HAND** hand position.

TECHNIQUE # 3 93

Opening the Healing Channels- Doradic-Phase-1 Current

1. Breathe slowly and deeply for several breaths while visualizing or imagining a 4" Violet Dot on the center of the *inside of your forehead*. Make the color image as strong as you are able.(If you can't yet perceive inner colors or visualization, simply imagine the Violet Dot as being there). Move the Violet Dot to the center of the brain at the **Pineal Gland**, and then upward into the 7th Crown Chakra, from the inside of the head moving upward and outward until the Violet Dot *rests on top of your head* at the Crown Chakra.

2. Call to mind the **Hierophant Symbol** (Pale Silver Merkaba Star formed by combining 2 Merkaba Stars). Visualize the spinning Hierophant stationed 12" below the feet within your **Maharic Shield** and slowly **INHALE**, drawing the *Hierophant* up through the Central Body Current, up to meet the Violet Dot at the 7th Crown Chakra at the top of the head. When the *Hierophant connects with the Violet Dot* visualize the Violet Dot bursting into a 4" **Vertical Pillar of Violet-Silver Light**. Imagine the *Violet-Silver Pillar* running down through the body into the *Earth Core* and upward to the 14th **Chakra** 36" above the Head. You have activated **the Violet Ray of Transmutation.**

3. Move your attention to the 4th **Heart Chakra** and imagine a *small Green Spherical Crystal* – the **Green Star**- stationed at its core. This is the *Green Star Crystal Seal* that controls release of 4th *Dimensional* frequency – *Phase-1 Doradic Current* - into the body. **INHALE**, drawing Violet-Silver energy from the Violet-Silver *Pillar* into the *Green Star*. **EXHALE**, *expanding* the Violet-Silver energy *into the Green Star sphere. Repeat 2 more INHALE-EXHALE* breaths, drawing Violet-Silver Energy from the Pillar and expanding it into the Green Star sphere. At the end of the last **EXHALE**, imagine the Green Star popping, turning into a spinning Green and Violet Starburst of Light, as the *Violet-Silver Pillar disappears. Spin the Green-Violet Starburst* faster until it becomes a *ball of Green-Violet Light* about the size of a *grapefruit*, spinning in the center of the *4th Heart Chakra*. The *Green-Violet* ball is the store-house for your Phase-1Doradic Current – it is called the **Doradic Sphere. INHALE** and draw Pale Silver energy from your **Maharic Shield**, through the Central Body Current and into the center of the **Doradic Sphere** at the 4th **Heart Chakra**, encasing the Sphere in translucent Pale Silver Light.

4. **EXHALE** quickly and push 2 **Cords** of *Green-Violet-Silver energy* – **Doradic Cords** -from the Doradic Sphere *down the inside of your arms*, one Cord through each arm. As the ends of the Doradic Cords reach the inside of the hands, notice a sensation of *mild resistance* as the Cords push against the *etheric membranes* covering the *small chakras* in the palms. **INHALE** a full breath, drawing Silver energy up from the **Maharic Shield**, into the *Doradic Sphere* at the 4th Chakra. **EXHALE** forcefully, pushing more energy down through the *Doradic Cords* in the arms, and feel this energy "pop" out of the *palms, releasing the membranes* on the palm chakras. Continue to **INHALE** energy up from the *Maharic Shield* into the *Doradic Sphere* and **EXHALE** it through the *Doradic Cords, building the strength of the Doradic Current* in both palms. Imagine the Doradic Current *pooling in the palms* to form *2 Green-Violet balls of light*, about the size of *tennis balls*. Energize the Doradic Sphere and Cords until you can sense the smaller **Doradic Balls** formed in the *palms* of your hands. Your *Doradic Current* is now **activated for use in healing facilitation.**

1. **4" Violet Dot** inside forehead, move to **Pineal Gland** then up through **7th Crown Chakra** to **top of head**.
2. **Hierophant Symbol** at center of your **Maharic Shield** 12" below feet. Inhale Symbol **up** to **Violet Dot** at top of head. See **Violet Dot burst** into **4" Violet-Silver Pillar** running through body to **Earth's core** and up to **14th Chakra** 36" above head.
3. Small **Green Star Crystal Seal at 4th Heart Chakra**. Inhale drawing **Violet-Silver** energy from **Violet-Silver Pillar** into **Green Star Crystal Seal** and see **Green Star Crystal Popping** into a spinning **Green-Violet Starburst,** as Violet-Silver Pillar **disappears**. Spin Green-Violet Starburst faster until it becomes grapefruit-size **BALL** of **Green-Violet Light**, the **Doradic Sphere,** at the center of the **4th Heart Chakra**. Encase Green-Violet Sphere in **Pale Silver** Maharic energy.
4. Push a **Green-Violet-Silver Doradic Cord** down each arm to **Palm Chakra Membranes** and draw **Pale Silver** up from **Maharic Shield** to **Doradic Sphere** and forcefully push Maharic Current **down arms** to **pop Palm Chakra Membranes.** While running **Doradic-1 Current** draw energy from **Maharic Shield** to **Doradic Sphere** and push it down arms from **Doradic Sphere** through **Doradic Cords** to **pool** into **Doradic Balls** at **Palm Chakras**.

THE NATURE OF KARMA

Karma, Identity, the Christos and the Physics of Divine Right Order

When an identity enters the **Time Matrix** to begin **simultaneous cycles of evolution** through time, it enters the manifest fields through first adopting a **Manifestation Template** composed of Partiki Units and Scalar Waves. The first Manifestation Template is called the **Rishic Shield;** it exists at the **Ante-matter** scalar-wave level of **Density-5** and holds the complete **Primal Scalar Pattern** for all of the **Singular Identities** that will **simultaneously** manifest into incarnation within the lower dimensional Densities and Time Cycles. The **Rishic Shield** represents the **Identity Gestalt** or **Family of Consciousness** through which identity enters manifestation. The Rishic Shield carries the precise configuration of Scalar-wave patterns, the **Primal Order** of energetic substance, through which the consciousness individuated to form a collective of consciousness within the dimensionalized Time Matrix. Every individual incarnate from the Rishic Family of Consciousness in time carries as part of its core **Karhara Grid** scalar program the **electromagnetic energy signature** of Primal Order carried by the **Rishic Shield** through which it manifested.

The Scalar-wave design of the Rishic Shield represents **DIVINE RIGHT ORDER**, the **Primal Order** of scalar-wave energetic relationship and **Partiki Phasing Sequences** that individual identities in time must re-evolve to hold within their embodied **Manifestation Templates** in order to **regain freedom** from the dimensional systems of the Time Matrix. Consciousness from the Rishic Shield, in the form of **Omni-polar wave spectra**, enters the manifest Densities by projecting portions of itself into **smaller Consciousness Gestalts** within the lower dimensional fields. The smaller Gestalts of Consciousness form the **3-Dimensional Scalar Shields** of the identity within the dimensionalized matter systems. **Each Scalar Shield holds the consciousness of numerous simultaneous Cycles of Incarnation within each of the 4 Primary Time cycles of Densities 1 through 4.** Each individual incarnate in time is directly linked to its original **Rishic Shield Family of Consciousness** through the **Density-4 Maharic Shield.** The Maharic Shield of dimensions **10-12** contains the first **Pre-matter Hydroplasmic scalar-wave spectra** through which identity began its experience within the holograms of Space, Time and Matter. The **personal Maharic Shield,** often called the **PERSONAL CHRISTOS IMPRINT,** holds the original **Primal Order** of scalar waves through which manifest consciousness links to its **Rishic Shield.** The **Christos Imprint** of the **Maharic Shield** represents the **PATH OF DIVINE RIGHT ORDER** through which each individual consciousness in time can **re-evolve** to its original Eternal Non-manifest State of Wholeness in Consciousness beyond the Time Matrix. **Divine Right Order is not only a spiritual concept; it is a reality in energy within the scientific dynamics of Universal Unified Field Physics.** Divine Right Order represents the Primal Order of scalar-waves that make up the original **Manifestation Template** from which individual **singular lifetimes** emerge, and it is the necessary pattern of energetic order within the personal multi-dimensional Manifestation Template which allows incarnate beings to fulfill the evolutionary objective of Transmutational **Dimensional Ascension. The result of an incarnate being's *Manifestation Template* and Conscious Awareness becoming mis-aligned with the energetic structure of *Divine Right Order* is called KARMA.**

Karma, Divine Right Order, the Scalar Shields, Free Will and Miasms

If it is understood that the universe and all things within it exist as **manifestations of consciousness** in the form of precisely ordered scalar wave arrangements, and that there is an intrinsic and indelible Primal Order upon which all manifestation functions, it will not be difficult to conceptualize the **literal and tangible nature** of the Karmic Imprint. In energetic terms, Divine Right Order represents the **natural alignment** of conscious energy fields within the intrinsic Laws of Universal Physics characteristic to the dimensional structures of time. Divine Right Order exists as a tangible, specific and harmonious organization of energy interrelationships within the Primal Order of energetic structure that creates dimensionality. The condition frequently referred to as **Karma** is, like Divine Right Order, a tangible, specific organization of energy interrelationships. Unlike Divine Right Order, *Karma* represents dis-harmonious interrelationships of energy within the context of the Primal Order that creates dimensionality. Karma can be viewed as CHAOTIC, incoherent energetic disorganization, whereas Order represents coherent energetic organization.

In terms of the 15-Dimensional anatomy of the personal Manifestation Template, the Karmic Pattern represents areas of incoherent energetic disorganization within the structure of the personal Scalar Shields. The 12th-Dimensional Level of the personal Maharic Shield holds the original Christos Imprint, the Primal Order *perfect organization* of scalar-wave configurations that links our consciousness and DNA Template to the Rishic Shield Family of Consciousness through which we entered the Time Matrix. While the Maharic Shield holds our original Perfect Organization of Consciousness, the Scalar Shields upon which our lower dimensional Nova Bodies and Incarnate, Soul and Over-Soul Manifestation Cycles emerge often become distorted from their original Primal Order as held within the Maharic and Rishic Shields. Human consciousness, in its multidimensional forms, was designed "in the image of its Creator", having Free Will to *apply the dynamics of energetic creation in time* in accordance with personal intention, within the greater context of the fixed Natural Energetic Laws of Creation.

When we use our gift of Free Will to direct our energies in a manner congruent with the Divine Right Order of Universal Unified Field Physics (which implies co-creative, not competitive co-evolution for all), the scalar-wave design of our personal Scalar Shields remains organized upon the intrinsic design of universal and personal Primal Order. Through embodiment of Divine Right Order within our personal Scalar Shields and consciousness, we know conditions of perfect health and harmony within the Time Matrix. When our Free Will is used to direct our energies in ways that are incongruent with and non-supportive of Primal Order, the disorganization of our energetic orientation manifests as literal Partikl Phasing Sequence distortions that create misshapen scalar-wave groupings within the anatomy of the personal Kathara Grid, Scalar Shields and the DNA Template built upon them. These misshapen scalar-wave groupings within the Kathara Grid, Scalar Shields and DNA Template are called MIASMS and they hold, in tangible scalar frequency form, the disorganized energetic patterns of our Free Will choices through which we have used our energies in a manner incongruent with Divine Right Order.

Miasms **are the** ***tangible substance*** **of our** ***Karmic Pattern*** **that reflect the areas in which our** ***consciousness*** **and** ***Scalar Shields*** **are** ***distorted*** **from our original** ***Maharic Shield Christos Imprint*** **of** ***Perfect Organization*** **within the context of** ***Universal Primal Order.***

TIME VECTORS AND THE KARMIC-MIASMIC IMPRINT

Miasms, Incarnational Time Vectors, Vector Imbedding and the DNA Template

The **Miasmic Imprint** within the body and Manifestation Template that holds the personal **Karmic pattern** manifests as **mathematical, geometrical** and **electro-magnetic distortions** in scalar-wave forms within the Kathara Grid and Scalar Shields, that cause groupings of **Anti-particles** to build up within the **Particle field** of the physical and energetic anatomy. The build-up of **Anti-particles** within the Particle Field blocks the natural flow of energy and consciousness through the Kathara Level-3 **Diodic Points Grid**, and manifests as **malfunctions** within the **Partiki Phasing Programs** within the **Kathara Centers** of the Level-1 12-Tree Grid and within the **Signet Star Crystal Seals** of the Kathara Level-2 **Crystal Seals Grid**. The **3 Levels of the Kathara Grid** set the blueprint for manifestation of the **Scalar Shields, Hova Bodies, Chakra System** and **DNA Template. Miasmic distortions** in the **Kathara Grid** effect every level of **personal manifestation**, from the operation of the **physical genetic code** to the ability of consciousness to successfully embody within the physical form, to the potentials of **Transmutational Dimensional Ascension** and attainment of **Spiritual Actualization.**

Karma*- the *Miasmic Imprint*- is a *biophysical phenomenon* of scalar-wave distortion that directly effects the *human DNA.

The **Incarnations** of SELF that **simultaneously manifest** into incarnational cycles of divergent space-time placement within the 4 Densities and 12-Dimensions of Matter are all directly **interconnect** through the **Kathara Grid, Scalar Shields** and **DNA TEMPLATE**. The **Free Will choices made** by other manifestations of ourselves **concurrently existing** in other space-time locations and different manifest body forms, effect the function of our personal Kathara Grid, DNA Template, **conscious awareness** and **life experience**. The **choices WE make** in our present lifetime directly effect the **Kathara Grid, DNA Template, consciousness** and **life experience** of our **other-time incarnations**. The energetic connection between incarnations of the SELF is an **immediate, living connection** of energy and consciousness. Because our numerous simultaneous incarnations in time are directly, energetically linked to each other via the Kathara Grid and DNA Template, we literally **inherit Miasmic Buildup from each other** on a continual basis. When we make the choice to restore our personal **Imprint for Health**, our **Christos Imprint**, as held within our **Maharic Shield**, part of these efforts must involve **clearing the Miasmic Imprint** that is bleeding through into our personal Manifestation Template for the other incarnations of [redacted].

Each of our simultaneous incarnations in time represents one **SINGLE VECTOR CONSCIOUSNESS**, one portion of our **Eternal Identity** that experiences 3-Dimensional **linear evolutionary progression** along **ONE TIME VECTOR** (one cycle of Partiku Phasing Sequences). **Each incarnate represents a TIME VECTOR**. The multiple Time Vectors of our Multiple Simultaneous Selves are literally encoded within core scalar-wave programs of our **DNA Template**; this is called **VECTOR IMBEDDING**. To fully heal our Body-Mind-Spirit system by restoring it to its **Organic Imprint for Health**, the **Maharic Shield Christos Imprint**, we need to clear the Miasmic Imprint from our other simultaneous incarnations as it is presently embedded within our DNA Template. **Transmuting the Miasmic Imprint that is embedded in our DNA Template to restore the original perfect Primal Order is called "Clearing the Karmic Pattern"** or **MULTI-VECTOR HOLOGRAPHIC RECODING.**

MULTI-VECTOR HOLOGRAPHIC RECODING

REGENESIS OF THE PERSONAL CHRISTOS

Restoring the Organic Imprint for Health and Clearing the Karmic-Miasmic Imprint

Literally all conditions of dis-ease in the human body and dis-harmony in the life experience, including the unnatural condition of death of the human body form, result from **Miasmic Distortions** within the embodied **Kathara Grid, Scalar Shields, DNA Template** and personal **Inner Templar Complex**. The natural state of **Universal Primal Order** is harmonious co-creative interrelationship of consciousness. Humans can progressively return to their natural condition of **Ordered Perfection** through **re-genesis**, or *re-creation*, of the **Organic Imprint for Health** – the **Maharic Shield Christos Imprint** – within the Kathara Grid blueprint of the personal Manifestation Template. **Regenesis of the Personal Christos** is a **Multi-Vector Endeavor**, involving clearing the karmic-Miasmic imprint from a myriad of various simultaneous selves presently evolving in the Time Matrix. The **hard way** to clear the Miasmic Imprint is by **"walking the Karma"**, which means allowing progressive levels of the **Miasmic Imprint** to repeatedly **re-manifest** in the personal life experience, until the **proper application of Free Will choice** used in congruence with **Divine Right Order** becomes consciously apparent and the **"Right Choices"** are made to re-ordered the disorganized use of energy that caused the Miasm to form. In our present time, this approach to "clearing the Karmic Pattern" is no longer effective as a learning tool by which embodied consciousness teaches itself the etiquette of creation. **The Miasmic Imprint within the collective human species has grown so extensively that the core issues of misapplied Free Will that cause Miasmic Buildup can no longer be consciously identified, and the Miasmic Imprint continues to compound and amplify itself as the same errors of Free Will energy use are perpetually repeated and reinforced.**

The Karmic-Miasmic Imprint is an **ENERGY FORM**; a literal **construct of scalar-wave frequency** with its corresponding **Anti-particle Manifestation**. As a form of energy, the **Miasmic Imprint** can be dealt with **AS ENERGY, WITH ENERGY**, for the most expedient clearing, healing and realignment of the **Karmic Imprint**.

The **Karmic-Miasmic Imprint** manifests within the **causal level** of manifestation, the **3 Levels of the embodied Kathara Grid** of the **personal Internal Template Complex**, and from the Kathara Level the Karmic-Miasmic Imprint manifests as **misalignment** and **malfunction** within all levels of Body-Mind-Spirit system. To clear the Karmic Imprint **AS ENERGY, WITH ENERGY**, its disorganized scalar-frequency patterns must be realigned from the **Core Template Kathara Grids**, the **causal level** of miasmic manifestation. Restoring the **Maharic Shield Christos Imprint** to the personal **Kathara Grid** takes time and **precise applications of frequency re-ordering** in all levels of the Body-Mind-Spirit system. The first step to **Regenesis of the Personal Christos** is the **MAHARIC RECODING PROCESS.**

MULTI-VECTOR HOLOGRAPHIC RECODING

Recoding the Time Vectors of the DNA Template and the DNA Fire Codes

The process of regenerating the **Christos Imprint** within the **Kathara Grid** of the human body is a **MULTI-VECTOR** undertaking. A **Vector** is a **set cycle of vibrational-oscillation rhythm** that creates a **specific repeating Partiki Phasing Rhythm** and **Flash Line Sequence**. Each individual incarnate self in time holds within the electro-magnetic programs of its embodied **Kathara Centers** the precise **Partiki Phasing Rhythms** that correspond to its particular placement within the planetary **Time Cycles**. The **Time Vector**, or **Flash Line Sequence** that creates one linear **Event Horizon**, is literally encoded and actively operational within the **Kathara Grid** and **DNA Template** of each incarnate identity. In the process of restoring **the Organic Integrity** to the personal Manifestation Template, the dormant **Partiki Phasing Rhythms** that correspond to one's **other-time incarnates** are progressively **brought into activation** and **realigned** with the Christos Imprint of the **Maharic Shield.**

The **Partiki Phasing Flash Line Sequence programs** within the embodied **Kathara Centers** manifest within the **DNA Template** as the **GENETIC TIME CODES**, or **Fire Codes**, of the DNA. In restoring **Maharic Order** to the personal **Kathara Grid**, the **12 Dormant Fire Codes** of the DNA Template will be slowly but progressively brought into **activation** through the 11th-12th –Dimensional Frequencies of the **Maharic Shield Mahara Hova Body Current.** Activation of the **DNA Fire Codes** creates a reciprocal release of the **Signet Star Crystal Seals** and **Cranial-Sacral Kundalini Seals** within the **Kathara Level-2 Crystal Seals Grid**, progressive activation of the dormant **Kundalini energies** and **Merkaba Vehicle Phases**, merger of the **Hova Bodies** and embodiment of the higher dimensional **Spiritual aspects** of conscious awareness. The process of recoding the multiple time vectors within the DNA Template – **Multi-vector Holographic Recoding**- is a process of progressive **WHOLE-BEING HEALING** that is achieved through **consistent application** of the **MAHARIC RECODING PROCESS,** and expedited through complimentary processes of **DNA Template, Kundalini** and **Merkaba Vehicle** activation. Level-1 Kathara Healing introduces the operational mechanics of the **Maharic Recoding Process.**

1. **The Maharic Seal and the Liquid Light Cleanse** (Technique # 2)
2. **Opening the Healing Channels** (Technique # 3)
3. **Amplifying Inner Audio-Visual and Kathara Scan** (Technique # 4)
4. **The Maharic Infusion** (Technique # 5)

The **4 Primary Elements of Action** to begin the **Maharic Recoding Process,** through which **Multi-Vector Holographic Recoding** of the **Morphogenetic Field Manifestation Template** is achieved. Begins realignment of the Core Manifestation Template **Kathara Grid Levels, the Scalar Shields, Hova Bodies, Axi-A-Tonal Lines** and **DNA Template** with the **Primal Order** perfect scalar-wave pattern of the personal 12th-Dimensional Pre-matter Hydroplasmic **Maharic Shield-the Christos Imprint** and **Organic Imprint for Health.** Also begins activation of dormant **DNA Strand Templates, Kundalini** energies and the **Merkaba Vehicle** for **Transmutational Dimensional Ascension.**

TECHNIQUE # 4

AMPLIFYING INNER AUDIO-VISUAL AND KATHARA SCAN

1. Place RIGHT palm (*electrical-transmitting hand*) over the 5th Kathara Center at the Navel, and place the *Left palm* (*magnetic-receiving hand*) over the *back of the right hand* (to block 3rd-Dimensional energies from entering the rear of the right hand chakra). INHALE energy from your Maharic Shield – the *Maharic Carrier Wave*- into your Doradic Sphere at the 4th *Heart Chakra*. EXHALE and run the *Maharic Wave* down the *Doradic Cords* in the arms and into the *Doradic Balls* in the palms. Inhale, then EXHALE, using the exhale breath to *push* energy from the *Doradic Sphere*, down the *Doradic Cord* in the RIGHT arm, through the RIGHT Doradic Ball and into the 5th Kathara Center at the *Navel*. Run several breaths of *Doradic-1 Current* into the *5th Kathara Center* at the Navel, until a mild tingling sensation is felt.

2. Place the LEFT palm over the 5th Chakra at the *Throat*, with the *Right palm* covering the *back of the LEFT hand*, and INHALE the Doradic-1 Current up from the *5th Kathara Center* at the Navel, into the Seed/Center of the 5th Chakra. EXHALE and *expand* the Doradic-1 frequency into the *5th Chakra spiral*, allowing the magnetic current from the LEFT hand to draw the energy out through the spiral. As you EXHALE, slowly move the hands forward, away from the body and the 5th Chakra.

3. Repeat the same process over the 6th Kathara Center, placing the RIGHT palm over the 6th *Kathara Center* below the Right Shoulder, with the *Left palm* covering the back of the *RIGHT hand*. INHALE/Draw energy up from the *Maharic Shield*, into the *Doradic Sphere*. EXHALE energy down the *Doradic Cords* into the *Doradic Balls*. Inhale, then EXHALE energy down the *RIGHT Doradic Cord* through the *RIGHT palm* and into Kathara Center 6. Run several breaths to energize the *6th Kathara Center*. Then move LEFT palm over the *6th Third Eye Chakra* in the forehead, with Right palm behind. INHALE the Doradic-1 Current from the 6th *Kathara Center* into the Seed/Center of the 6th Chakra and EXHALE the energy into the 6th Chakra spiral while drawing it through with the magnetic current from the LEFT hand. The 6th Sense-*Auduna*, which provides inner audio perception, and the 7th Sense-Trialel, which provides inner visual perception are now energized and amplified in preparation for Kathara Scan.

4. Close your eyes and focus your attention in a single point at the *inside of your forehead*. Inhale, and as you EXHALE run your attention outward *through your 6th Chakra spiral*, into the 6th Chakra Spiral of your Client. Move your attention into the center of your Client's brain, the Pineal Gland. Inhale, and EXHALE moving your awareness down from the Client's Pineal, through your *Client's Central Body Current* and down into the Earth's core. INHALE and move your awareness back upward to your Client's Maharic Shield, and spread your awareness outward through the *Maharic Shield* with the EXHALE. On the *inside of your forehead*, imagine the image of the Kathara 12-Tree Grid. INHALE energy from the *Client's Maharic Shield* and EXHALE the energy out into the *12-Tree image*. Breathe gently for a moment, *observing the 12-Tree Grid*, which will register tones of white, black and ranges of gray in between. If you cannot yet visualize, you will still get a sense of the 12-Tree image and the areas of dark and light within it. The dark areas represent layers of the MIASMIC BODY, areas of the *karmic imprint* that need clearing when you run *Technique # 4: The Maharic Infusion*. Remember the areas of the Client's Kathara that need clearing. Inhale, and *open your eyes* on EXHALE.

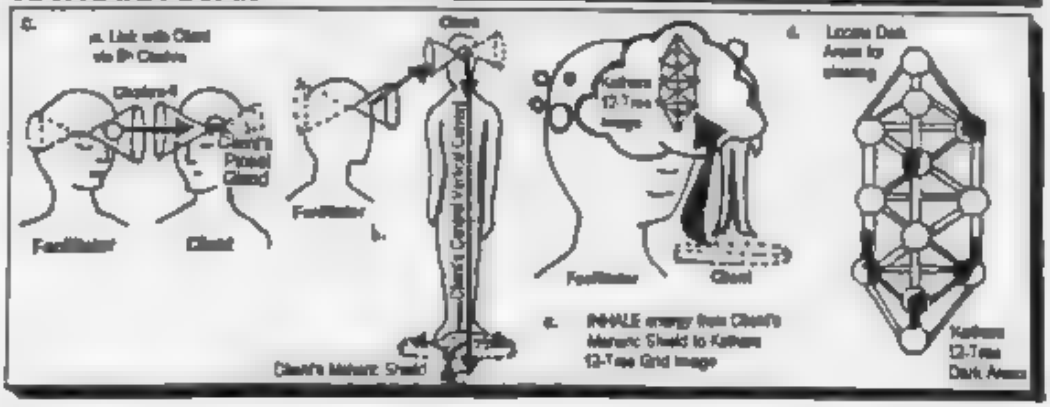
KATHARA SCAN



TECHNIQUE # 5

THE MAHARIC INFUSION – CLIENT FACILITATION

Prior to using this technique you should have completed the following: 1.Positioned *MENTOR* over your Right shoulder to assist (*Tech. # 1:Awakening the Mentor and the 6th and 7th Senses*). 2. Activated your *Maharic Shield, Maharic Seal* and run the *Liquid Light.* (*Tech. # 2: The Maharic Seal and the Liquid Light Cleanse.*) 3.Activated your *Doradic Current, Inner audio/Visual* and *Client Kathara Scan* (*Tech. # 3 and # 4)*
4. Opened the *Kathara Lines* for you and your Client (*Sequence-1 Kathara Points*)

Place Client in a reclining position with shoes off:

1. Position yourself at the **feet** of the reclining Client. Place **RIGHT palm** *12" below Client's feet* at the **Maharic Shield,** *left palm* over the back of Right hand.

2. Visualize the **Hierophant symbol** on the *inside of your forehead.* Inhale, then **EXHALE,** moving the *Hierophant* down to **Chakra 4** and into the **Doradic Sphere** with the exhale breath. **INHALE** energy upward from your **Maharic Shield** and into the *Doradic Sphere.* **EXHALE** the **Hierophant** with *Doradic-1 current* down the **Right Doradic Cord** and into the *Doradic Ball* in the **Right palm.** .

3. Inhale, then **EXHALE** the *Hierophant and Doradic-1 current* into the *center* of the **Client's Maharic Shield.** Visualize the *Hierophant spinning* in the center of the Client's Maharic Shield until you sense a **mild shift** in the energy below the Client's feet. The shift indicates that the Client's *Maharic Shield* has activated and the *Maharic Pillar* has "popped" vertically upward from the Shield – the Client's bio-energetic field now carries the **Maharic Seal.**

4. **INHALE** energy from your *Maharic Shield* into your *Doradic Sphere,* then **EXHALE** the energy down **both Doradic Cords,** into the Doradic Balls in the palms. Visualize the **12-Tree Kathara Grid** *within the Client's body.* You will now run the **Maharic Infusion** through the *small chakra points in the feet.*

TECHNIQUE #5 : Continued
THE *MAHARIC INFUSION*

5. Place your **Right palm** on the *bottom* of **Client's Left foot** and your **Left palm** on *top of the foot*, centered over the *Right palm*. Imagine that you are lining up the *small vortex* beneath the ball of the Client's foot (which extends *through the foot* to come out on top), with the *small chakras* in your palms. Inhale, then **EXHALE** energy from your **Doradic Sphere** through the **Right Doradic Cord, Right palm** and *into the sole of the Client's foot*. Visualize the **Green-Violet-Silver energy** traveling up the **Kathara Line on the** *Left side of the body*, through the *4th, 7th and 10th Kathara Centers*. Continue **EXHALING** energy into the **Left foot** until you begin to feel a bit of **fuzzy energy** coming out of the foot toward your palm. This indicates that the *Kathara Line* has *reached its energy-holding capacity*. **Repeat** the process on the **Right foot**, running energy through the *Kathara Line on the Right side of the body and the 3rd, 6th and 9th Kathara Centers*.

6. You will now clear and align the **Central Vertical Kathara Line** to complete the **Maharic Infusion. Move to Client's head.** Place **Right palm** over **Client's 10th Chakra** 6" above the head, the location of the *12th Kathara Center*. Place *Left palm* over back of Right hand. **INHALE** energy from your **Maharic Shield** into your **Doradic Sphere** then **EXHALE** energy down the **Right Doradic Cord**, into the **Right palm** and through the **10th Chakra**. Visualize the energy moving down from the *10th Chakra* into the **7th Chakra**, to the **Pineal Gland** (11th Kathara Center), then *rapidly* down the **Central Body Current** and **Central Kathara Line**, through *Kathara Centers 8* (thyroid), *5* (Navel), *2* (at Base Chakra) and into *Kathara Center 1* at **Earth's core**. Continue **EXHALING** energy into the **10th Chakra** and **Central Kathara Line** until you feel **fuzziness** against your *Right palm*, indicating that the *Kathara Grid* has reached its *energy-holding capacity*.

7. *Before releasing 10th Chakra* direct a bit of additional energy through the **Central Kathara Line** into areas that revealed **dark spots** during the *Kathara Scan*. Visualize the areas *getting light* as the energy runs through them. **You may add other healing modalities at this point, if desired.** *Close* by using the **Sequence-2 Kathara Points** to close the Kathara Lines and *revitalize the body*. Allow Client a few moments to recline before ending session.

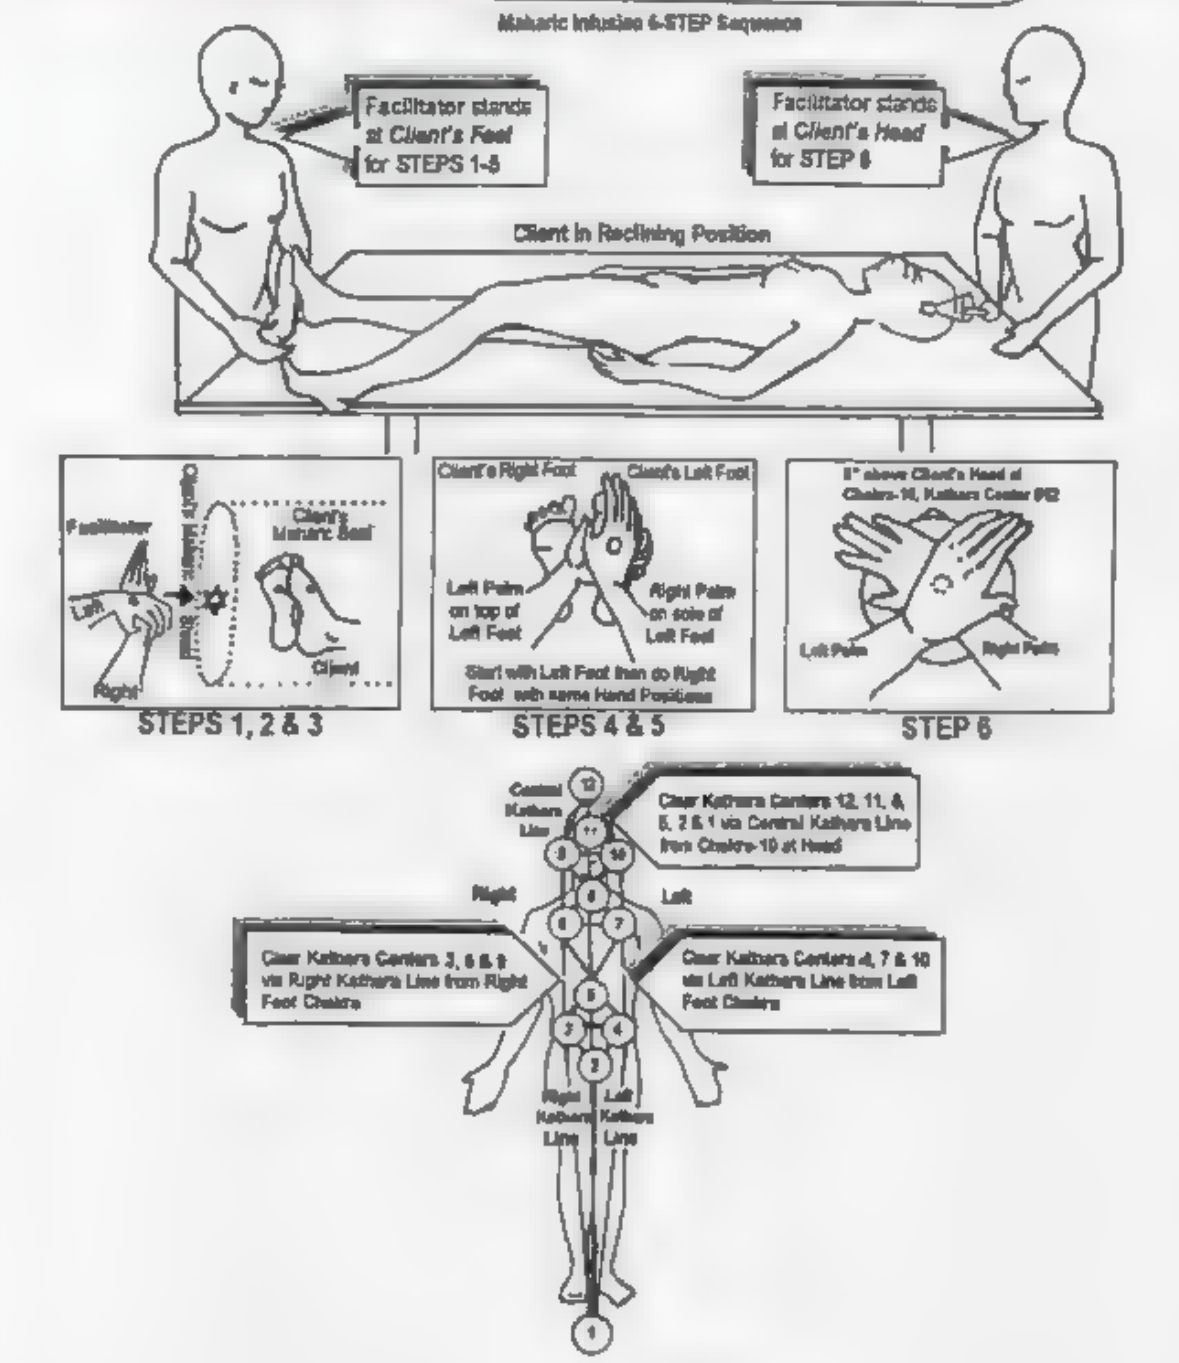
Add any additional healing technologies following Client's Maharic Infusion. Close with SEQUENCE-1 KATHARA POINTS massage. Allow Client to remain relaxed in reclining position for several minutes following Maharic Infusion.

TECHNIQUE # 5: THE MAHARIC INFUSION – CLIENT FACILITATION



MOTIVATION TO HEAL

Healing Facilitation is an art and a science, but most importantly, healing facilitation is an **interrelationship of SOULS.** Egotistical objectives have no place in quality Healing Facilitation. The decision to participate in Healing Facilitation should not be motivated by a desire to prove you have "special abilities" to boast about, nor with the primary motive of gaining **financial profit** from Healing Facilitation endeavors. The energies exchanged in healing facilitation are **FREE TO ALL**, a **DIVINE GIFT** from the universe, and they belong to all beings equally. A facilitator cannot rightly request payment from a client for providing what the client already possesses- **Natural Healing Energies.**

In Divine Order, it is appropriate for the facilitator to accept **payment** for the **personal time and energies** invested in **learning and developing facilitation skills,** and for the time spent in active facilitation. It is important that the facilitator understands this subtle difference of **"fair exchange of energy"**. If the facilitator mistakenly assumes they are requesting payment **for healing energies** they supply, they are inadvertently misrepresenting themselves to the client. The client possesses personal healing energies and does not need to purchase such energies from others. The **time and expertise** offered by the facilitator to assist the client in stimulating their own healing energies, is a service worthy of reciprocation. If a client chooses such assistance, the **facilitator** has **legitimate right** to honor their own worth as a being by **requesting reasonable payment or barter** in **fair energetic exchange** for the service they offer. However, if a client is in need of healing facilitation, and has no means of fair exchange at that time, the facilitator should honor the worth of the client by providing assistance of equal value **free of charge.**

In spiritual principal, "making money" is not a legitimate motivation for participating in Healing Facilitation. Seeking to find one's personal **"Divine Right Livelihood"** in **sincere service** to others, which might possibly involve providing client service in Healing Facilitation, IS a spiritually legitimate motivation. Healing Facilitators will discover that when they put the objective of **GENUINE SERVICE TO THE DIVINE** as the **first Priority,** rather than the pursuit of personal monies or status, the **Universe Will Provide.** Facilitators who enter the healing field with hidden personal motivations incongruent with **Universal Laws of Energy**, which imply **equality, respect, reverence** and **balanced exchange of energy** between all beings, will find difficulties emerging in their lives as the personal **SOUL** sets up lessons through which **Universal Principles** become more apparent. There is only **ONE TRUE MOTIVATION** for participation in Healing Facilitation- **the motive is LOVE.**

POSTURES OF LOVE

The Energy-Reality of LOVE

In terms of **Universal Physics**, Love is an **energy reality**, a **STATE OF VIBRATIONAL HARMONIZATION**, or **CO-RESONANCE OF FREQUENCY** that allows an **energetic bridge** to build between individuals. It is through this energetic bridge of frequency that one can assist in running healing energies that will facilitate the healing process of others. Without the sentiment and **FREQUENCY** of **GENUINE LOVE**, one cannot energetically facilitate the healing of another. **LOVE is the essential ingredient in healing,** for it allows the opening of facilitator and client's bio-energetic fields to the **Universal Frequencies** of the interdimensional spectrum. Cultivating the ability to embrace and hold the frequencies of Universal or **OMNI-LOVE** is the responsibility of any true healing facilitator. The emotionally experienced reality of the ***frequency of Love*** takes many forms. In healing facilitation it is important to **assess the most appropriate form of love** to engage with each individual client

Soft Love

Many people respond well to **"SOFT LOVE"**, the kind, gentle, nurturing, soothing love often displayed by mother's comforting their infants. Soft Love works well with client's whom possess some degree of spiritual maturity and who have cultivated the ability to hold some degree of a love frequency within themselves. Soft Love is the appropriate form of love for client's possessing the maturity to accept personal responsibility for themselves, their actions and their emotional reaction patterns, and who do not attempt to manipulate, drain energies from or place blame on others. Soft Love is characterized by **engaged detachment** of the facilitator and is demonstrated through soft-spoken, calm and sincere words and actions that are intended to place the client at ease.

Soft Love is always built up sincerity, kindness, respect and a genuine desire to see the client thrive and prosper. Developing the ability to carry the Soft Love frequency takes time, attention and practice, and requires that the facilitator works to heal personal **internal conflicts**, unresolved issues from **childhood** and **karmic** reaction patterns that disrupt the Soft Love vibration. Soft Love is a **vulnerable love** in that it necessitates one to show the self as it is, honestly expressing personal feelings tempered with kindness. Soft Love is **not approval seeking**, it is rather genuine, honest and **self-generated**. Soft Love requires **love** and **respect** of the self and others mutually. It is built upon a level of spiritual maturity in which it is understood that personal value is implied by the fact of existence and is not determined by the approval or **validation** of others outside of the self and the personal relationship to the Divine. The ability to carry the Soft Love frequency emerges through **spiritual integration, personal healing** of internal conflicts and power struggle issues and **intentional application of kindness and mindfulness.**

Tough Love

Soft Love does not facilitate healing on all occasions. Certain clients who come to a facilitator for healing assistance bring with them a great need for **emotional healing** and development of spiritual maturity. They may demonstrate demanding, arrogant or pushy attitudes and refuse to accept responsibility for their personal actions and resulting consequences. Most often such individuals carry deep wounds from childhood or from reincarnational bleed-through. Because they are **wounded within**, they have not yet developed the self-control or maturity necessary to treat themselves or others with kindness, respect or love.

Individuals who display unreasonable behaviors or attitudes pose quite a challenge to the love-based healing facilitator. If they are approached with Soft Love, the facilitator will often find themselves as a scape goat for the individual's personal problems, may have their energies and time excessively **drained** by such clients and might possibly be subjected to outright verbal or physical **abuse**. Clients exhibiting such personality traits are struggling within themselves to **gain control** over the various **conflicting portions** of their personal energies, and they tend to objectify this internal conflict resolution in the form of **POWER STRUGGLE** with others.

Personalities trapped within cycles of subconscious self or other-abusive attitude patterns need **love** more than anyone, but most often their behaviors push others **away**. Intrinsically the behaviors serve to keep the individual sheltered from **self-exposure**; they do not allow others close enough to inspire feelings of vulnerability or lack of self-esteem. Often such personality traits effectively keep the individual from seeing themselves and the inner pain and conflict from which they attempt to hide. To facilitate healing in such individuals without succumbing to their manipulation, aggression or abuse requires that the facilitator adopt a posture of **TOUGH LOVE**. In Tough Love the facilitator clearly establishes **personal boundaries** in their own mind as to what treatment they will and will not accept. If the client crosses those boundaries the facilitator **assertively addresses the issue** with the client, requests that the offensive behavior cease and provides **CLEAR CONSEQUENCES** as to what will occur if the offense continues. The Tough Love approach is rendered from a base of **Soft Love** and **Omni-Love**, but it is strengthened with **Self Love** on behalf of the facilitator. The facilitator recognizes that they are only assisting the client to continue with the self-destructive patterns by condoning or allowing offensive behavior, and chooses to **love the client enough** to **confront the pattern** so that it may begin to release. In **lovingly, calmly**, but **firmly confronting** poor behavior and **setting clear boundaries** and **consequences**, the facilitator assists such clients to temporarily find a new pattern of action because the old one does not work for manipulation in this instance. The Tough Love approach frequently requires facilitators to demonstrate that they hold their own power, even in the face of client disapproval. Tough Love is an ability of **personal empowerment** worth cultivating for personal and client healing.

Self Love

In healing facilitation **Love** is the essential ingredient. All love begins with the **Divinity Within the SELF.** You will be able to transmit the frequency of love to others in direct proportion to your ability to hold the frequency of love within yourself. If you do not recognize your intrinsic value as a **Divine Being** and seek validation of your existence through external sources such as achievements, status or other-approval, you will likewise project these sentiments into your love relationships with others. If a client does not meet the external standards of validation that you have placed on yourself to determine your personal worthiness of love, you will have difficulty not falling into **judgement** of the client.

Judgement and **love** cannot transmit through the human body at the same time. Judgement creates an **energy reality** of separation or **Non-Resonant Frequencies** of energy, whereas Love creates the **Co-resonance of Frequencies** needed for open flow of Universal Energies for healing facilitation. If one can realize that **LOVE IS THE ONLY CONSTANT** and that all conditions of judgement change, it is easier to cultivate the innate ability to fully hold the frequency of Love. Though **ASSESSMENT** of conditions, actions or attitudes is useful and necessary, such assessment can be rendered through **"separating the person from the action".** You can judge the effectiveness or value of the **action or idea** without assigning a **value-judgement** to the **person** to which it is attached.

If the healing facilitator can feel love, reverence, respect and honor for the **Divinity Within Themselves**, they will also transmit these qualities of **excellence in Love** to the client. The quality of Love brought into the healing facilitation experience will directly effect the success of healing assistance given. **Love the Self** and know that all beings possess an **unalienable worth and value** as a living part of the **Divine.** Begin to cultivate this awareness within your personal life and you will greatly increase your effectiveness as a healing facilitator. Love, honor and respect yourself, your feelings, your dreams and your desires, so you may better love those you wish to serve.

Love others as you would love the Self,
and love the Self as you would like to love others.

The Illusion of Martyrdom

People who love themselves do not buy into the idea that they must play "**martyr**" to others in order to be of service. **Martyrdom** implies a belief that you are **lacking in worth,** or must **earn** your worth in being, by relinquishing that which feels of most value to you. It also **undermines expression of the God-Presence** within others, by assisting them to believe that you are so vital to their wellbeing that they cannot function without you. In truth, martyrdom is an **expression of EGO,** most often used by people who feel they are **personally insignificant** in the eyes of the Divine, in order to **give themselves significance** and a **sense of personal power and purpose** for being. People who actively *know* the intrinsic **Spiritual Divinity** within themselves treat that Divinity with honor and respect and do not allow or need others to **depreciate the Self** and its desires in order to prove the existence of a *belief* in personal Divinity.

Martyrdom **does not facilitate healing** within the self or client, as it reinforces the **erroneous belief** in intrinsic **personal unworthiness**, which exists in **direct contradiction** to the **innate God-Presence** that exists in every living thing. Within the energy dynamics of **Universal Law,** natural **balance** is achieved in the flow or **GIVING**, and back-flow or **RECEIVING** of energy. In human spiritual relationships this **balance of energy** is achieved by **mutually valuing** each person in a relationship, through which the natural giving and receiving of energy can be exchanged unimpeded. **Martyrdom impedes the natural flow of energy**; the martyr customarily gives more than receives, which progressively diminishes the martyrs ability to keep open a perpetual flow of energies from the Divine because the martyr does not allow the Self to receive.

Martyrdom is not a demonstration of Love,
it is an exhibit of Love Deprivation.
The remedy for Martyrdom is
OMM-LOVE.

OMNI-LOVE: Fully Engaging the Love Vibration

The greatest love that can be embodied in human form is **OMNI-LOVE**. OMNI-LOVE is a pure state of vibrational Frequency Co-Resonance between the human identity and the **12 Dimensions** of reality within which the human anatomy is couched. Omni-Love is expressed in human form as **Christed Love** or **Christos Consciousness**, the **12th-Dimensional Love** of the **Maharic Level of Identity.**

Christos Love is a state of full Frequency Resonance with **everything existing** in the many universes contained within **12 Dimensions** of the 15-Dimensional System. It is a **transcendent love** that is attached to no thing but is **AT ONE with ALL THINGS** in a state of perpetual **Engaged Detachment.** Through Christos-Omni Love, the **SELF** is known as an **extension of God**, or the **Divine Source**; a **temporary mask of form** worn by the **ONE CONSCIOUSNESS** of the Cosmos. All things and beings are known as **simultaneous expressions** of the **ONE-SELF** that is God-Source. From this state of transcendence in love, all activity is understood to **exist within** the reality of LOVE, and all conflict and strife are viewed as the ONE-SELF **progressively expanding the ability of its expressions to carry the frequencies of energy** that constitute **ONE-LOVE**, a state of **total vibrational Frequency Co-resonance** with the **Cosmos.**

Activation of the full **12-Strand Silicate Matrix DNA Template** and full integration of the **Mahara Hova Body Avatar Identity** allows for the experiential embodiment and transmission of Christos-Omni-Love. **Embodiment of Omni-love is the goal toward which human evolution moves forth.** Omni-Love is Soft, Tough, and Enduring, honoring **Self , Other** and the **Divine** simultaneously. It is the **strongest healing force** of frequency in the 4 Harmonics of Matter Density. Christos-Omni-Love is the **fulfillment** of the **Christos Principle**. Strive to bring Omni-love into your life, and personal and client healing facilitation, and you will assist your higher identity levels to create transformation! Omni-Love is the **natural structure** of reality. **AWARENESS** of Omni-Love is cultivated through **intention** and appropriate use of **personal free will choice** in congruence with the **natural Laws** of the **Unified Field Physics of Consciousness and Creation.**

Through living in Omni-Love all moments are known as Sacred, all beings are known as Blessed and life becomes an ecstatic study in Reverence for Existence.

OMNI-LOVE EXERCISE TO AMPLIFY HEALING FACILITATION

EXERCISE

The MAHARA SPACE-COMFORT TOUCH

1. EXHALE Hierophant Symbol from behind forehead, down *Central Body Current*, into Earth's Core (Chakra 13), then INHALE *Hierophant* back up to your Maharic Shield 12" below feet. *Spin Hierophant to activate* Maharic Shield and Maharic Seal Pillar. INHALE energy up from your *Maharic Shield* into your Doradic Sphere at *Chakra 4*.

2. Breathe slowly and deeply while visualizing a small faceted Crystal Sphere in the center of your *Doradic Sphere* at Chakra 4. This is the Holographic Crystal Sphere; it represents the station of your inner AVATAR Identity – this is the MAHARA SPACE. Focus your consciousness within the *Holographic Sphere* and feel its reality around you, as if your body is encased within the Holographic Sphere.

3. Observe the interior of the Sphere as a pale Silver-White mist. Within the mist now envision a golden treasure chest- a treasure you had left for yourself long ago to one-day reclaim. This represents your Inner Arc of the Covenant – *a doorway to reclaiming your ancient immortal heritage*. Mentally command the lid of your inner *Arc of the Covenant* to lift. As the lid rises pale rainbow colored light fills the interior of your Holographic Sphere. Notice now that within the golden box there is a gleaming Silver Sword, the Silver Rod of Power that will enable you to more quickly evolve to your eternal state of being.

4. Mentally make the Silver Sword *rise from the golden box*, floating above the box in a vertical position. Now call to mind the image of your body *as it sits within the physical room*, imagine *the Silver Sword positioned above the body's head*, directly over Chakra 7. EXHALE and steadily lower the Silver Sword through the *7th Chakra and down the Central Body Current, through the Maharic Shield and down into Earth's core*. Observe the Silver Sword turn into a *Pillar of Pale Silver Light with pale rainbow colors flashing through it*. The Rainbow Pillar now *surrounds and runs through your body, raising its frequency while lowering its vibration*, lifting your body cells into a less-dense state of matter. Feel your body growing lighter and lighter as the Rainbow Pillar slows the spin-rate of your matter particles, making you more and more electric- more light.

5. As you feel the sensations of your density lessening, imagine that your body is beginning to glow with Pale Silver light – the *Pre-matter Liquid Light* of dimensions 10, 11 and 12. Feel the *features of your face and the contours of your body begin to melt* into a Silver, 2 –dimensional fluid body form. The form of the body still remains but it has been returned to its first-density state- the Silver Liquid Light holographic form of the avatar identity. Know yourself now as this avatar identity and feel the essence of pure love and eternity flow through you. Know yourself as this essence of Divine Love and Eternal Light.

6. Now INHALE and draw the Rainbow Pillar into the Holographic Sphere at *Chakra 4*, visualize the base pulling up from Earth's core and the portion above your head simultaneously *contracting into the Holographic Sphere*. EXHALE the energy of the *Rainbow Pillar* fully into [redacted] *Holographic Sphere* and observe the Holographic Sphere become a radiant Silver ball of Liquid Light stationed with your Doradic Sphere in the Heart Chakra.

EXERCISE: Continued
THE *MAHARA SPACE-COMFORT TOUCH*

7. **You may now transmit the frequencies of the 4th-Harmonic, dimensions 10, 11 and 12, to serve as a healing force for others.** You may transmit this energy into your environment directly through the 4th Heart Chakra, where it will enter the Unified Field at the 4th-Dimensional astral plane. You may use the breath to move the Holographic Sphere down into the 3rd Chakra *for 3rd-Dimensional transmission* into the *Earth's atmosphere* and the *Mental Body* levels of people's Bio-energetic field. You may transmit through Chakra 2 into the Telluric or *Elemental Kingdom* of the planet and into people's 2nd-Dimensonal *Emotional bodies*. Or you may transmit the frequencies of the Silver Sword through the 1st Base Chakra, *for sacred bonding in intimate relationship*, or to *raise the frequency and lower the vibration of the molecular and sub-atomic fields* around you. To transmit the frequencies of the Silver Sword through the chakras, simply use the EXHALE breath to move the Silver Light "charged" Holographic Sphere down to lower chakras, inhale and use the next EXHALE to *push the frequency outward* from the selected chakra into the environment. Use the INHALE breath to move the *Holographic Sphere* up through the chakra system. *Always move the Holographic Sphere up or down along the Central Body Current, to which the core of each chakra is attached.*

8. **You may also transmit the frequencies of the Silver Sword through APPLIED TOUCH –** *THE COMFORT TOUCH* **-to amplify specific healing facilitation functions and to establish a more harmonious rapport with other people and the nature kingdoms.** Simply visualize the Silver Liquid-Light charged Holographic Sphere at the center of your Doradic Sphere in the 4th Chakra. Activate your Doradic-1 current via the Maharic Shield and Seal, then visualize the *Silver Liquid Light from the Holographic Sphere combining with the Green-Violet-Silver Doradic-1 current* as you EXHALE the current into the Doradic Cords in the arms and into the Doradic Balls in the palms. *This application is especially useful to help Clients relax during sessions, or to comfort others when they are in a state of stress, unbalance or illness.*

Once your current is moving into the Doradic Balls, EXHALE the current through the Right palm. *Place the Right palm gentle and briefly over the Client's rear Chakra 2, or touch them gently on the left shoulder.* The amplified *Doradic-1 current* will move into the 4th-*Dimensional astral-body field* and move its way into the *mental, emotional and physical bodies* from there. The COMFORT TOUCH of the MAHARA SPACE can be applied to infants, children, older persons, animals and plants to comfort them and support their general well-being.

PROFESSIONAL USE OF THE KATHARA BIO-SPIRITUAL HEALING SYSTEM PROGRAM – THE KATHARA ALLIANCE

The Kathara System introduced in **The Kathara Bio-Spiritual Healing System ™ Level 1 Workshop & Course Manual with Introduction to The Kathara Bio-Healing System™ Level 2** is destined to become a ***12-level program*** that is focused on "whole being healing through progressive biological and spiritual awakening". Kathara is as much a course on non-denominational dogma-free **Spiritual Integration Mechanics** as it is a Holistic Healing course.

An individual completing training in the **Kathara Level-1 Bio-spiritual Healing System** delivered by a Certified Kathara Alliance instructor will receive a **Certificate of Completion** which recognizes the person named as attending and receiving training in the Kathara Level One Bio-Spiritual Healing System.

If you desire to practise the ***Kathara Bio-Spiritual Healing System™*** in a regular professional capacity through Client Service, you may use the techniques provided within this Kathara Healing Manual to begin. Prior to professional use, it is suggested that one becomes a Certified member of the **Kathara Alliance** through the ***Azurite Press MCEO (World-wide Consulate)*** and its appointed representatives.

The **Kathara Alliance** is a group of dedicated spiritual healing Practitioners and Instructors who have demonstrated a thorough understanding of the Theory and Practice of the **Kathara Bio-Spiritual Healing System™** and the Maharic Recoding Process, as deemed necessary by the **Azurite Press** for professionalism in the practice of Spiritual Healing Facilitation and Instruction.

All members of the ***Kathara Alliance*** are **Certified Kathara Healing Practitioners and Instructors**, and are permitted to practice Kathara Healing facilitation as **SPIRITUAL SERVICE.** For the protection of both Client and Practitioner, as well as the ethics inherent to the Teachings themselves, Kathara Healing is to be promoted, explained and practiced as **a non-diagnostic spiritual healing enhancement service only** and not as a replacement for traditional medical diagnosis or treatment.

Certification in the **Kathara Alliance** as an **Independent Spiritual Healing Practitioner and Instructor** of the **Kathara Bio-Spiritual Healing System™** requires formal application, including a written open book examination and video presentation by the applicant. The examination is intended to reveal areas in which applicants may need to further strengthen understanding of and personal relationship to the practice of Kathara Healing Facilitation and Instruction within the parameters of Excellence recognized as intrinsic by the Azurite Press MCEO.

All Instructors and Practitioners must be CERTIFIED to conduct **public presentation** of copyright materials contained in this, the authorized Kathara Bio-Spiritual Healing System Manual. To uphold standards of Professionalism and Excellence in practice, the Azurite Press MCEO **cannot** recognize **Non-Registered Facilitators or Instructors** as active participants in the ***Kathara Bio-Spiritual Healing System Program***. Obviously, non-certified Facilitators may use this program and its applications for their own **personal and spiritual enrichment. With regards to teaching the program there is a distinction between Teaching and Sharing **Teaching** is defined as formal presentation of the materials (following protocols described in the **Kathara Bio-Spiritual Healing System™** Manual and communications to Kathara Alliance applicants and members) in the form of a seminar workshop and payment is made by attendees To teach the Kathara Bio-Spiritual Healing System™ one needs to be a member of the **Kathara Alliance Sharing** is defined as leading a study group where attendees are not expected to pay (it would not be inappropriate to accept small donations if offered) To share one does not need to be a member of the Kathara Alliance but group size should be limited to less than 12

Within the **Kathara Bio-Spiritual Healing System™** there are specific pages for Kathara Alliance Instructors to use in their classes The Instructors pages are identified by having a number at the *top* of the page (as well as the regular number at the bottom) These are the only pages that can be photocopied for teaching purposes Only certified Kathara Alliance members (or a Kathara Alliance applicant who is delivering and recording a workshop for assessment purposes) are authorized to photocopy these pages.

The easy-reference **Instructor's pages** need to be sequenced in the order denoted by the number at the *top* of the page. These pages have been carefully sequenced to facilitate delivery and learning of the materials. Learners needs, including varying learning style preferences, were very much considered when preparing the text and visual presentation of these teaching materials In terms of frequency the learning process can be described as when previously dormant Scalar Standing Waves in the personal shields are stimulated and activate('switch on') As frequency is accreted (by progressive exposure to, and interaction with, the materials) the scalar waves in the personal shield self-sustain (we would say the person has 'learned' the material) The specific sequence of the pages are pre-set to create optimum frequency accretion in the personal shields of learners *even if this is not immediately perceived or understood by the learner* Therefore it is imperative that these pages are used in the delivery of this program and the instructor remains true to the given sequence.

As Independent Spiritual Healing Facilitators and Instructors, all Certified Facilitators and Instructors are expected to accept full personal responsibility and legal liability for the practice and application of the **Kathara Bio-Spiritual Healing System™**. Certified Facilitators-Instructors are **not required** to pay dues, royalties or revenues to the Kathara Alliance/APMCEO for use of this program other than the cost of initial personal **Training-Registration** and obtaining supplies of **Session Manuals, Certificates and Registration Examinations** for the professional Instruction-Certification of others

THE KATHARA ALLIANCE CERTIFICATION AND COMPETENCY REQUIREMENTS

The Certification Program is designed to enable the applicant to fully demonstrate his/her understanding of the material in a way that maintains the level of integrity and purity of the Program desired of the Kathara Alliance This also ensures the Student attains a desired level of understanding in taking the workshop The requirements of Certification are designed to protect the integrity of the material, those who participate with it and the rights and responsibilities of all concerned

Certified Kathara Practitioners and Instructors must not only be knowledgeable in the practice and teaching of Kathara, but are also asked to commit to the behavioral guidelines originating from the Covenant of Regent Consulate of the Melchizedek Cloister Emerald Order (MCEO) In this way those seeking out a Kathara practitioner can reasonably expect the highest integrity in both the teachings and in the individuals with whom they are relating.

Certified Kathara Alliance members are in no way affiliated with the MCEO Vehicle, the Azurite Press and should at no time state or imply such representation. Kathara Alliance members are independent Practitioners who offer local, community-based Kathara Healing Level courses and facilitation for individuals

PLEASE NOTE: The APMCEO & Kathara Alliance **reserve the right** to **revoke** any Kathara Alliance Certification and Rights of Association of Certified Facilitator-Instructors for ***any*** reasons of: *Misuse, misrepresentation and false claims pertaining to this Kathara Program; inappropriate treatment of APMCEO staff, clients or participants in Kathara Healing Programs, dishonest or unethical behavior and practices, and racial, gender, or religious discrimination of clients and participants or Kathara Alliance Members.*

THE 6-STEP MAHARIC RECODING SESSION

Before Client Arrives: ***Technique # 1-*** Activate Your Mentor Conduct ***Mahara-Space-Comfort Touch Exercise*** and remote-request permission from client's ***Rishi*** identity level to apply **Comfort Touch** when client arrives Create a calm, pleasant environment where you will not be interrupted by phone or other distractions. Optional: Sing 3 rounds of the ***Arlea-Khum-Nar'A*** **toning** to amplify personal healing and DNA Template activation during healing facilitation session.

When Client Arrives: Apply Comfort Touch if Rishi gave remote permission. Sit with client and review terms of the ***Client Agreement Form*** and secure client's signature on form. Offer client the option of audio-taping the session for client's at-home review.

6-Step Technique Application Sequence- *Maharic Recoding Session*

1. ***Technique # 2-*****The Maharic Seal and the Liquid Light Cleanse** *to seal and align personal bio-fields.*

2. ***Sequence-1 Kathara Points massage-*** first your points, then client's points, *to open Kathara Lines.*

3. ***Technique # 3-*** **Opening the Healing Channels** to activate your *Doradic-Phase-1* healing current and ***Technique # 4-*** **Amplifying Inner-Audio-Visual and Kathara Scan** to locate miasms for healing in client's Kathara Grid.

4. ***Technique # 5-*** **The Maharic Infusion** to activate client's Maharic Shield and Seal, recode client's Kathara Grid to the Maharic Shield and clear miasmic buildups.

5. **Optional:** Apply **light touch-massage** to miasmic areas, or employ other healing therapeutics after Maharic Infusion.

6. ***Sequence-2 Kathara Points massage*** on client to revitalize outer body systems and close Kathara Lines. Allow client to rest a few minutes before leaving Answer any client questions and allow time for client to discuss experience if desired.

When Client Leaves: To ensure clear bio-fields, while Doradic-1 Current is still running, draw energy up from Earth's Maharic Shield and run Maharic Current through your Kathara Grid and body, up to Chakra-14 and back down to Chakra-13, then push a Pillar of Silver Light out of Chakra-4 and EXHALE it to release it around body into auric field Next massage *your* **Sequence-2 Kathara Points** to revitalize bio-field systems and close Kathara Lines.

CHAPTER 4 HIGHLIGHTS

GENERAL KATHARA HEALING FIELD WORK

- Activation of any **Triadic Healing Current** requires temporary release of corresponding **Signet Star Crystal Seals** in the **Kathara Level-2 Crystal Seals Grid.**
- **Maharic 12th-Dimensional Frequency** is required to **manually release** the **Signet Star Crystal Seals** to activate **Triadic Healing Currents. Kathara Healing** utilizes **Maharic Frequency** to activate interdimensional **Triadic Healing Currents** for more powerful healing support.
- Most healing systems have not used **Maharic Current** because the **Planetary Templar Complex** could not run 12th-Dimensional Maharic Frequency for over 200,000 years, until January 2000.
- Release of the **Signet Seals** also activates dormant Strands in the **DNA Template** and releases the **Cranial-Sacral Seals** on the **Kundalini Energies.** Kathara Healing represents advanced, **12-Dimensional Kundalini Healing.**

OPENING THE HEALING CHANNELS

- Triadic Phase Currents are activated in the body by using **Maharic Frequency** from the **PBIS** to release the **Signet Seals** of the **Internal Templar Complex**, which allows higher dimensional frequency to run through the **physical body system** for transmission.
- Triadic Phase Currents are composed of **3 interwoven frequencies**, the **Maharic Frequency**, plus a chosen **dimensional frequency** and its corresponding frequency from **one Harmonic up**.
- Triadic Phase Currents are **directed** by their corresponding **Color Cap Stone**, the.**Primary Wave Length** of the dimensional frequency band from which the current is drawn. **Kathara Level-1** activates the **1st Triadic Phase Current**, the ***Silver (D-12) + Green (D-4) + Violet (D-7)*** **DORADIC PHASE-1 Current.**
- **Doradic Current** is activated through the **Maharic Shield**, then **collected** in the **4th Chakra** ***DORADIC SPHERE***, projected down the ***DORADIC CORDS*** in the **arms** and into the ***DORADIC BALLS*** in the **Palm Chakras** for **DIRECT INDUCTION** of frequency transmission in healing facilitation.

- The **Palm Chakras** are **Secondary Chakras** located in the **Palms of the Hands**. Like all Chakras, they function as **Black-White Hole Sets** for **transmitting** and **receiving energy** between the personal Manifestation Template and the dimensional Unified Fields of energy.

- The Palm Chakras are **double vortices** of energy, with **one spiral** exiting the **Palm** and its **corresponding spiral** exiting the **back of the hand.** The **2 Spirals** of the Palm Chakras are linked by a **Crystal Seal** at the center point where the 2 vortices meet. In one Palm Chakra, one spiral rotates **clock-wise**, is **Base Electrical** and **transmits energy** out of body, and the other spiral rotates **counter-clock-wise**, is **Base Magnetic** and **draws energy** into body.

- In **Level-1Kathara Healing** the **RIGHT PALM** is the **TRANSMITTING HAND** and the **LEFT PALM** is the **RECEIVING HAND**. For **transmission**, the **Standard Hand Position** is **LEFT Palm placed over the back of the RIGHT HAND** for pure transmission and **control of specific frequency** transmitted from the **RIGHT PALM.**

- The **RIGHT PALM** is **BASE ELECTRICAL**, the **LEFT PALM** is **BASE MAGNETIC**, but both have **subtle** electro-magnetic capacity.

THE KARMIC-MIASMIC IMPRINT

- To enter manifestation in time, identity enters **cycles** of **SIMULTANEOUS INCARNATION** within the **4 Harmonics of Matter Density** in **12-Dimensions** of the 15-Dimensional **Time Matrix.** The **PRIMAL ORDER Scalar-wave Template** through which an identity enters time is the **Density-5** (dimensions 13, 14 and 15) **RISHIC SHIELD**

- The **Rishic Shield** holds in the Time Matrix the identity of the **Family of Consciousness** from which **incarnates** emerge. The Scalar Patterns of the Rishic Shield represent the tangible **"DIVINE RIGHT ORDER"** in energy and consciousness, for each incarnate manifesting from it. The individual identity must **realign** its **Manifestation Template** with this **Primal Order** to become free from the Time Matrix in full **Ascension.**

- The **Density-4** Pre-Matter Hydro-plasmic **MAHARIC SHIELD** (Dimensions 10, 11 and 12) is the Scalar Template through which identity manifests in the lower-dimensional Densities and which **connects the individual incarnate** to its **Rishic Shield.** The **Maharic Shield** is often called the **PERSONAL CHRISTOS Template,** and it holds the consciousness and **Perfect Primal Order** for all incarnations of an identity in time.

- **"Karma"** is the result of **Free Will choices** made by **incarnates** that involve using personal energies in ways incongruent with the natural **Laws of Universal Unified Field Physics** and the **Primal Order** of the **Christos Template**. Karma creates **scalar-wave distortions** within the Scalar Shields of personal 15-Dimensional Anatomy that **manifest physically** as **energetic clusters** called **MIASMS.**

- **Miasms** are **unintended** groups of **anti-particles** lodged within the particle field of the personal **Manifestation Template** that block and impede the **natural flow of energy** and consciousness into embodiment. **Miasms,** and the misshapen scalar-wave distortions that form them, are the **cause of ALL disease** and dis-harmonic conditions.

- **Health** and Harmonious flow of energy are the **natural conditions** of human design. The **Maharic Shield Personal Christos Template** holds the **Organic Imprint for Health** for all simultaneous incarnates of an identity, and can therefore be used to **clear the Karmic-Miasmic Imprint** from the personal Manifestation Template to progressively restore **Healthful Primal Order.**

- Miasms from **all simultaneous incarnations** manifest within the personal Manifestation Template and within the DNA Template of each, where they become literal **genetic distortions.**

- Each of an identity's incarnates in various time cycles represents one **TIME VECTOR**, which is encoded in the Vector Codes of the **DNA Template.** Karmic-Miasmic **bleed-through** occurs **between incarnates** from different concurrent time cycles through the **living link** of scalar frequency that exists between the **DNA Templates** of simultaneous incarnations.

- The **Karmic-Miasmic Imprint** does not have to be suffered and cleared the **"old fashioned way"** by "walking through the Karma in physical reality". The **Miasmic Imprint** can be cleared **as energy, with energy,** to prevent its manifestation in physical terms via realignment of the **DNA Template** with the personal **Maharic Shield.**

- Any given incarnate can clear the Karmic-Miasmic Imprint by realigning the personal Manifestation Template with the shared Christos Template Maharic Shield. This process is called **MULTI-VECTOR HOLOGRAPHIC RECODING**, which creates **BIO-REGENESIS** of the original 12-Strand **Silicate Matrix DNA Template** of human design and restoration of the **Organic Imprint for Health.**

ATTITUDES AND ETIQUETTE IN HEALING

- **Holographic Recoding** and clearing the Karmic-Miasmic Imprint from the personal Manifestation Template begins with activation of the **Maharic Shield and Seal** in the bio-energetic field and progressive running of 12th-Dimensional **Maharic Frequency** from the **Personal** and **Planetary Maharic Shields** through the **3 Primary Levels** of the embodied **Kathara Grid**; the Level-1 **12-Tree Grid**, Level-2 **Crystal Seals Grid** and Level-3 **Diodic Points Grid.**

- Personal Holographic Recoding begins with consistent use of ***Technique* # 2- The Maharic Seal and the Liquid Light Cleanse**, and is further accelerated by facilitating **Maharic Recoding** in others through running the **Triadic Phase Currents** for **Co-generative Healing.**

- One can facilitate healing in others and amplify personal healing through the using ***Technique* # 5- The Maharic Infusion.**

- The **Maharic Recoding Session** utilizes the combined **Bio-Regenesis Techniques** presented in **Level-1 Kathara Healing** to facilitate **Client Healing Sessions.**

- Professionalism in Healing Facilitation requires an understanding of the **Postures of Love** and a willingness to **cultivate** the ability to hold and transmit **OMNI-LOVE, honoring the Divinity of ALL things and beings.**

- The Primary Postures of Love are **SOFT LOVE, TOUGH LOVE, SELF LOVE** and **OMNI-LOVE.**

- The emotionally experienced quality called **LOVE** is a **REALITY IN ENERGY PHYSICS.** LOVE is a **STATE OF VIBRATIONAL FREQUENCY CO-RESONANCE** that allows **free flow of energy** between consciousness within the Universal Unified Field.

- The human **12-Strand DNA Template** was designed to allow **12-Dimensions of Vibrational Co-Resonance**, the **Christos Consciousness** of the **Maharic Shield**, to embody in human form. **CHRISTOS-OMNI-LOVE** is Vibrational Co-Resonance with all that exists within **12 Dimensions** of the Time Matrix; its embodiment is the **primary goal** toward which **human evolution** progresses.

- Christos-OMNI-LOVE is the **strongest healing frequency** available within the Densities of Space, Time and Matter, and is **essential** for effective **Healing Facilitation** and personal **Ascension.**

The Reality of Spiritual Integration

- **Spiritual Actualization** is as much a function of **Divine Physics** as it is a product of **Divine Consciousness**. The natural Primal Order of **Universal Structure** sets the **Templates of Manifestation** to which consciousness **must conform** to enter the experience of manifest expression within a space-time-matter system.
- The personal Christos **Maharic Shield** Manifestation Template and the Christos **Tribal Shield** Species Manifestation Template are **microcosmic replicas** of the macrocosmic Primal Order upon which Universal and Cosmic structure are built.

- The Personal D-12 Christos Divine Blueprint Maharic Shield connects each Individual Christos self to the **larger** D-12 Christos Divine Blueprint of the **Species**. The D-12 Christos Divine Blueprint is called the **TRIBAL SHIELD**.
- To understand the realities of **personal Spiritual Integration and Actualization**, in order to **fulfill our personal life purpose**, it is important to comprehend the basic **Primal Order** structures of energy, the **personal D-12 Maharic Shield** and the **D-12 Species Tribal Shields**, through which our consciousness manifests in time.
- The secrets to **reclaiming the Divine Birthrights and Responsibilities** of Angelic Human heritage are hidden within the realities of the **Tribal Shield** and the specific **"Fire Letter Sequences"** of the Tribal Shield that manifest within and **govern the function** of the Angelic Human **DNA Template**.
- The **key to Spiritual Actualization** is activation of the dormant personal 12-Strand DNA Template. The **most rapid means** of activating the dormant Angelic Human 12-Strand DNA Template is through **activation of the Tribal Shield**, the Species D-12 Christos Divine Blueprint, which represents the **CORE PROGRAMMING** of the personal D-12 Maharic Shield.

Activating the Tribal Shield

- The 12-dimensional **Tribal Shield** is the dormant **Species Divine Blueprint** within the **DNA Template** core of the Angelic Human races of the 4 Evolutionary Rounds. The frequencies of energy and dimensions of consciousness of the **1728 simultaneous selves** of the Personal Eternal Christos Identity can be **activated in one incarnation** through **sequential activation** of the **Fire Letter Sequences** or "**Flame Codes**" of the **Tribal Shield.**

- The "Flame Code Fire Letters" within the DNA Template are the **DNA Signet Codes** that correspond to Earth's **12 Primary Star Gates** and the **Planetary Shields** through which the planetary body manifests. The Flame Codes serve as the core foundation of the personal 12-Strand DNA Template.

- The DNA Template Flame Codes of the Tribal Shield allow for the **Primal Life Force Currents** of the Density-5 (dimensions 13-14-15) **Kee-Ra-ShA Primal Light Fields** and the **Khundaray Primal Sound Fields** from the Energy Matrix, beyond the 15-Dimensional Time Matrix, to embody more fully within the Angelic Human form.

- A **Fire Letter** is a **fixed point of consolidated frequency** that holds specific frequencies consciousness into manifest form. The **Manifestation Templates** or Divine Blueprints of **all things** manifest are built upon **intricate patterns** of interwoven Fire Letters called **Fire Letter Sequences.** The Flame Codes of the Angelic Human personal DNA Template and Species Tribal Shield are composed of the **same Fire Letter Sequences** that make up the Divine Blueprint of **Earth's Planetary Shields.**

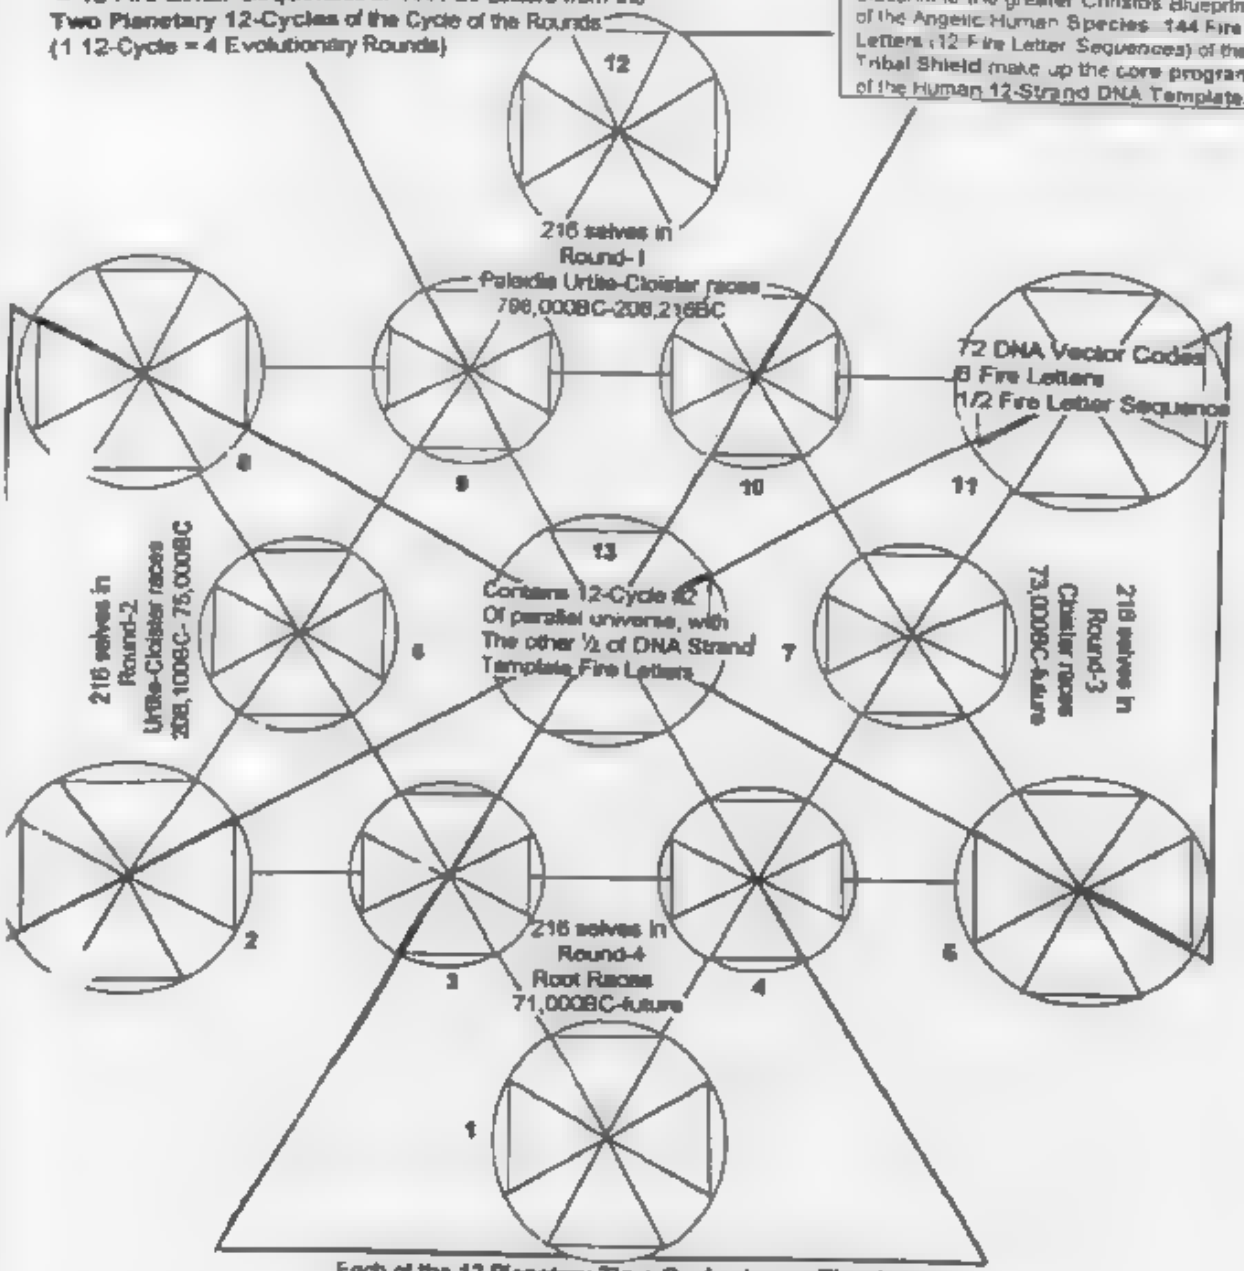
- Activation of the Tribal Shield **sets** in motion **simultaneous** "firing" or activation of the **144 Fire Letters** (**12 Fire Letter Sequences**) of the 12-Strand DNA Template, expediting the natural evolutionary process of Soul, Over-Soul and Christos Avatar Identity Integration, through progressively opening the "Trans-time DNA Template Star Gates".

- Activating the 12-Strand DNA Template allows the D-12 frequency of the **Universal "Christos" Maharata Current** to activate within and run through the Angelic Human DNA Template and into the Earth's **Planetary Shields.** Activation of the **Maharata Current** within **groups of Angelic Humans** on Earth allows for **collective anchoring** of the **D-12 Planetary Christos Divine Blueprint**, the **Shield of Aramatena**, to achieve fulfillment of Angelic Humanity's **Sacred Commission** of the **Planetary Christos Realignment Mission.**

The Tribal Shield- *Species D-12 Christos Divine Blueprint*

The Angelic Human 12-Strand DNA Template contains 6 Fire Letter Sequences from particle universe 12-Cycle plus 6 Fire Letter Sequences from anti-particle 12-Cycle = 12 Fire Letter Sequences or 144 Fire Letters from the Two Planetary 12-Cycles of the Cycle of the Rounds (1 12-Cycle = 4 Evolutionary Rounds)

The Tribal Shield connects our personal D-12 Maharic Shield Divine Christos Blueprint to the greater Christos Blueprint of the Angelic Human Species. 144 Fire Letters (12 Fire Letter Sequences) of the Tribal Shield make up the core program of the Human 12-Strand DNA Template.



Each of the 12 Planetary Time Cycles in one Planetary 12-Cycle of the "Cycle of the Rounds" has 72 Time Vectors. 12-Strand Angelic Humans have one self in each of the 72 Time Vectors of the particle universe Planetary 12-Cycle and 72 selves in the corresponding anti-particle Planetary 12-Cycle. 72 selves x 12 Planetary Time Cycles = 864 selves per one Planetary 12-Cycle + 864 selves parallel universe Planetary 12-Cycle = 1728 selves in Tribal Shield

Tribal Shield Activation Creates Cue Zones
In Earth's Planetary Shields.

Cue Zones

"Cue Zones" are locations on Earth where a small portion of Earth's D-12 Shield of Aramatena **Christos Divine Blueprint** has been re-set within Earth's Planetary Shields. During Stellar Activations Cycles, Cue Zones can be **manually set** by individuals or groups by running the **D-12 Maharata Current**, activating the **Tribal Shield** to draw in the Khurfararay Primal Sound frequencies, then singing the 12-Tribes **Master Psonns Suffixes** and running the tones through the body and feet and into Earth's Planetary Shields. After running the Master Psonns Suffixes, one can then allow the **"Song of the Christos Soul"**, the tones of the personal D-12 **Maharic Shield** (the "Elohei-Elohim Within") to run into the Planetary Shields. The personal Soul Song will create a **"Back Song"** transmission of frequency from Earth's Planetary Shields, a set of healing frequencies sent back to you in response to activating your Soul Song in Earth's Planetary Shields. Once set, Cue Zones will remain for a period of **3.5 to 5 years**, depending on strength of energy originally set. They can be **recharged** using the same "setting" procedure to **last indefinitely.**

Cue Zones are **"safe zone"** areas on the Planet that are protected from interdimensional interference. They can be used to amplify effects of energy **healing applications**, to **"charge" objects and substances** with sub-harmonics of D-12 Christos frequency and when used with the personal Temporary Maharic Seal, to get clear, protected **"meditation space"** free from interdimensional interference. Cue Zones are "keyed" to Earth's Planetary **Templar "Cue Sites"**, the activation sites for Earth's 12 Primary Star Gates, which exist on regions of Earth that correspond to the 12 Primary Star Gates of **Inner Earth.**

TECHNIQUE # 6 : THE MAHARIC QUICK SEAL

1 Work with a 24 pointed, 3 Dimensional Star (Heirophant) and be aware that you will be working with beings known as the Breneau Rishi ...

2 Begin by slowing your breathing as you imagine or visualize a 24 point 3 -Dimensional Heirophant at the Pineal Gland in the center of your brain. Visualise the Heirophant surrounded by a Pale Blue Sphere of Light.

(The Blue Sphere serves as a buffer for your readiness to accept the frequencies associated with using the 24 pointed Star the Blue Sphere holds the energy for you until your body can handle the energy If you can handle it, the energy will simply pass through the blue sphere)

3 INHALE as if you are going to grab the blue sphere containing the 24 point star located at the Pineal and on the EXHALE move the 24 point star/ blue sphere, all the way down to Earth s Core Try to hear a sound tone as the Heirophant/ Sphere hits the Planetary Shield

4 INHALE and draw the Heirophant/ sphere up to your Personal Maharic Shield 12" below your feet and EXHALE while watching the Pale Silver-Blue sphere expand out to a large sphere and watch as your Maharic Shield pop out as a disc, about 4' in diameter, Pale Silver with a light coating of Pale Blue.

5 Bring your attention to the center of your Maharic Shield 12" below your feet and INHALE the 24 point Star (only) up into the Heart Chakra. EXHALE, expanding the frequencies of the 24 point Star into the Heart Chakra

6 INHALE to grab the 24 point Star and EXHALE, pushing the Star up into the 14th Chakra 36" above the head. Imagine that the 24 point Star is spinning in a clockwise direction in the 14th Chakra. As you do this, try to feel/ sense the energy around you, just a few inches out from your body .

7 Now put your attention into your Maharic Shield 12" below your feet, take a couple of relaxing breaths and INHALE deeply pulling the Pale Silver and Blue energy up as if you are pulling on your Maharic Seal to latch it on to your 14th Chakra Try and feel the sensations just a few inches from your body now – feel the difference if you can. This procedure gives you a Quick Seal.

8 Now envision the cord of Pale Silver Maharic Light that would normally come up with your Shield and focus on the Earth s Core Begin drawing energy all the way up the 4" diameter cord and into the body INHALE the energy up into the Heart Center, and expand it there Begin to form a pale Silver ball of Maharic frequency

On each EXHALE send your energy down to the Earth's Core to bring up another load of Maharic frequency up from the Planetary Shields, expand it into the Heart center and repeat several times Notice that the Cord grows larger as you do this, expanding from approximately 4" to 6 to 8" diameter, until finally it feels like a skin around (as well as within) your body as you load your Astral field with Maharic Frequency

9 Move your attention to the Pale Silver ball you have created in your Heart Center, INHALE and move it up to the 14th Chakra 36" above your head as you do, feel for the sheath of Maharic Frequency encasing your etheric body, close to your skin. (This Maharic/ Christos skin charges, and saturates, your etheric body – feel the peacefulness and all-knowing nature of this frequency).

The Master Key Tones

- The **12-Tribes names** were the **audible-tone translations** of the **specific Fire Letter Sequences** contained within the **Tribal Shield DNA Templates** of each Tribe. The tones of the Tribal names were used to activate the **144 Fire Letters** of the Tribal Shield in the **personal DNA Template**, providing the Angelic Humans races with the ability to **consciously regulate** the **activation level** of their **DNA Templates** and **Primal Life Force Currents.**
- The **Sound-Tone Programs** that are used to activate the DNA Template and Primal Life Force Currents are called **"The Sacred Psonns"**. The **Tribal name** was the **Master Psonn.** In running the Rainbow Roundtables, the Signet Council Regents brought their Tribal Shield "Flame Codes" into activation by **singing rounds** of the **Sacred Master Psonns.**

Tribal Shield-Cue Zones Activation

Creating a Cue Zone

1. **Choose location** and **activate a personal "Maharic Quick Seal"** to "run the D-12 **Maharata Current**" in your body.

2. Once you can feel sensation of Maharata Current running, sing-tone 12-Tribes **Master Psonns** (names) for **Tribe-12** and **Tribe-1** to activate **Tribal Shields Flame Codes** in your DNA Template to run the **"Rainbow Ray"**. Direct Pale Silver Maharata Current and Rainbow Ray pale color spectrum through body and out **soles of feet** into Earth's Planetary Shields. Tone for a while to build critical mass of frequency.

3. Use a selected combination of 3 **Master Psonns Suffixes** and tone for a while, running sound through body and feet into Earth's grids. (avoid the Suffix combination of Tribe-4-7-10 used in that sequence to avert present distortions in Earth's grids that run on this mathematical coding)

4. Allow the **Christos Soul Song** to emerge from you "free style" and send the tones into Earth's grids.

5. When complete, sit quietly for a while and listen for the Earth's telepathically transmitted **"Back Song"**, drawing its gentle frequencies into your body for healing.

6. Close with singing several rounds of the **3 Master Psonns Suffixs** that you opened with. The Cue Zone you have set will extend out from your position in a radius of about **5 yards** and will last **3.5-5 years** depending on strength of energy you used in setting the Cue Zone.

7. To **amplify** strength of Cue Zone you can use the **"Merkaba Spin"** just after closing. Remain in same position, stand, the gently spin, first **clockwise** (as if you are standing on a clock face with the "6" in front of your feet, "3" at the left hand, "9" at the right and "12" directly behind you). Spin gently clockwise to bring electrical frequency down through your **"top"** Merkaba spiral. Then slow, stop and **reverse spin** to **counterclock-wise**, to activate **"bottom"** Merkaba spiral", drawing frequency up from Earth's grids. Personal Merkaba Activation will accelerate the frequencies of the D-12 energies you set at the site, making the Cue Zone **stronger and more lasting.**

The Solar Salutation
Electrical Merkaba Activation

- The ancient **Mu'a** and **Lemurian** Guardian Races ran the **Maharata** and activated the **Tribal Shield** each day to conduct the **Sacred Solar and Lunar Salutation Rites** each morning and evening. The **Sacred Salutations** are **Toning Dances** that activate the personal **Merkaba Field** for sustained activation of the DNA Template and amplification of the Maharata and Universal Life Force Currents in the body.
- **Solar Salutations** accelerate the spin of the **Electrical Harmonic Merkaba Spiral** (Top, CW spin), drawing increased amounts of **Electrical Anti-particle** frequency from the Solar **Electrical Merkaba Spiral** light spectrum into the **Electrical Acceleration Codes** in the **DNA Template** to **"charge" the body** with **Electrical Anti-particle frequency.**
- Accelerated **Electrical Merkaba Spiral Spin** of **Solar Salutations** increases the amount of **Anti-particle Base-Electrical** frequency **brought into** the body's **DNA Template** and **Kathara Grid** from the Dimensional Unified Fields and increases the amount of **Anti-particle** frequency **sent out** from the body into Earth's **Planetary Shields.** Frequency passes between the Human Body and Earth's Planetary Shields via the embodied **Kathara Grid** core templates that make up the **Planetary Bio-Feed Interface System** ("PBIS")
- **Electrical Anti-particle** energy enters the body via the **"Top" Electrical** Harmonic and Dimensional **Merkaba Spirals**, the **Base-Electrical Acceleration Codes** in the DNA Template, the **Electrical Kathara Centers 2-5-8-11** of the Kathara Grid **Central Pillar**, the **Electrical aspect** of **Electro-magnetic Kathara Centers 1-3-6-9-12** on the **Right Side** of body ("Left Side Pillar" in Kathara diagram), **Electrical Chakras 2-5-8-11** and the **Electrical aspect** of **Electro-magnetic Chakras 1-3-6-9-12.**

The Lunar Salutation
Magnetic Merkaba Activation

- **Lunar Salutations** accelerate the spin of the **Magnetic Harmonic Merkaba Spiral** (Bottom, CCW spin), drawing increased amounts of **Magnetic Particle** frequency from the **Lunar Magnetic Merkaba Spiral** reflected light spectrum and Earth's Planetary Shields into the **Magnetic Base Codes** in the **DNA Template** to **"charge" the body** with **Magnetic Particle frequency.**
- Accelerated **Magnetic Merkaba Spiral Spin** of **Lunar Salutations** increases the amount of **Particle Base-Magnetic** frequency **brought into** the body's **DNA Template** and **Kathara Grid** from the **Earth's Planetary Shields** and increases the amount of **Particle** frequency **sent out** from the body into Dimensional Unified Fields.
- **Particle Base-magnetic** energy enters the body via the **"Bottom" Magnetic** Harmonic and Dimensional **Merkaba Spirals**, the **Base-Magnetic Base Codes** in the DNA Template, the **Magnetic Kathara Centers 4-7-10** of the Kathara Grid on the **Left Side** of the body ("Right Side Pillar" on Kathara Diagram), the **Magnetic aspect** of **Electro-magnetic Kathara Centers 1-3-6-9-12** on the **Right Side** of body ("Left Side Pillar" in Kathara diagram), **Magnetic Chakras 4-7-10** and the **Magnetic aspect** of **Electro-magnetic Chakras 1-3-6-9-12.**
- **Lunar Salutations** (CCW spin Bottom Magnetic Merkaba Field Activation) **lower** the body's **Oscillation** (energy transmission-expansion), **raise** the body's **Vibration** (energy holding-contraction), making the body **Lower Frequency** and **More Magnetic** (draws in more energy than it is transmitting out).

- A **Lower Frequency Magnetic Body** has:
  - **Higher Vibration**, Lower Oscillation/Frequency, Greater **Matter Density**
  - **Fewer** activated DNA Strands, fewer chromosomes, embodiment of fewer levels of consciousness.
  - **Faster** heart, breathing and metabolic rhythms (energy expansion and contraction rates), thus requires **more food** (burns fuel **faster**).
  - Lesser **longevity** and needs more **sleep** (body can synthesize natural higher frequency energy and Stream of Consciousness for **shorter periods**; taxes more easily)
  - Greater **Carbon quantity** in **Silica-to-Carbon Ratio** of elemental composition and **smaller size** (less space between cells; more contracted matter).
  - Perception of **contracted or more confined Space** and **faster Time** movement.
  - Less **heat release**, thus **warmer** internal temperature.
  - Natural characteristic of **drawing** greater amounts of energy thrust from the Planetary Shields than it is transmitting into them. **Energy "taking"**.

The **Lunar Salutations** "charge" the **Bottom Magnetic CCW Merkaba Spiral** to maintain its natural cycle of **11⅓ rotations per 1 "trillionth" of a nano-second"**, through which the **Base-Magnetic** systems of the body are naturally maintained.

The **natural ratio** between the **Top-CW-Electrical-"Male" Harmonic Merkaba Field** and the **Bottom-CCW-Magnetic-"Female" Harmonic Merkaba Field** is **Electrical-Top 33⅓CW** rotations per 1 "trillionth" of a nano-second and **Magnetic-Bottom 11⅓CCW** rotations per 1 "trillionth" of a nano-second.

The NATURAL Spin Ratio between the Top (Male-Electrical-CW-Anti-particle) Density-4 Christiac Merkaba Spiral and the Bottom (Female-Magnetic-CCW-Particle) Density-5 Rishiac Merkaba Spiral is 33 1/3-CW-Male-Top to 11 2/3-CCW-Female-Bottom. The 33 1/3-CW/11 2/3-CCW Spin Ratio creates the NATURAL ratio of 33 2/3-Parts-Electrical Anti-Particles to 11 2/3-Parts Magnetic Particles, (or 33 1/3 energy expansion/oscillation/thrust to 11 2/3 energy contraction/vibration/draw) within earth's Density-1 Matter Base, the organic Divine Blueprint of Density-1. This Christiac Internal Merkaba Vehicle Spin Ratio creates a self-sustaining Eternal Matter-base that is MORE ELECTRICAL than Magnetic which perpetually re-fuels itself via natural circulation of the Maharata, Kee-Ra-ShA and Khandaray Universal Life Force Currents.

Technique # 8: Merkaba Salutations

Healing the Spin & Balancing Particle/ Anti-Particle Ratios

33 1/3-CW/11 2/3-CCW Christos Merkaba Activation

***Note:** Discern CW or CCW direction of Merkaba Spin by imagining that you are standing, with arms stretched out to the sides in the center of a round 12-digit clock-face. The **FRONT** of your body faces the **"6"-digit**, **"12"-digit** is positioned behind you, the **"3"-digit** is positioned at your **LEFT ARM** and the **"9"-digit** is positioned at your **RIGHT ARM**. CLOCKWISE "CW" SPIN: Hold **LEFT "3-Arm"** firmly out to the side of the body like a "clock hand" and begin Spin toward **FRONT** moving the body with the **LEFT arm** toward the **"6"-digit** position in **FRONT** of your feet. COUNTER-CLOCKWISE "CCW" SPIN: Hold **RIGHT "9-Arm"** firmly out to the side of the body like a "clock hand" and begin Spin toward **FRONT** moving the body with the **RIGHT arm** toward the **"6"-digit** position in **FRONT** of your feet. The **TOP-ELECTRICAL-MALE** Merkaba Spiral Christos Spin is always 33 1/3-CW rotation. The **BOTTOM-MAGNETIC-FEMALE** Merkaba Spiral Christos Spin is always 11 2/3-CCW rotation.

Lunar Salutation Rites: (best time *12:00 Midnight to 3:00AM*)
begin with *Bottom-Magnetic-CCW-"Female"* **Merkaba Spiral** activation, followed by *Top-Electrical-CW-"Male"* Merkaba Spiral
Use nbe-1 Activation Suffix **"UR"** as *Initiating Tone*

1. Activate ***Maharic Quick Seal*** Technique-6
2. Activate ***Tribal Shield-Cue Zone*** Technique-7
3. Stand with spine comfortably straight, breath slowly, in a relaxed manner and begin quietly toning the ***Initiating Tone*** continuing repetition while progressively increasing the volume and extending the Exhale Breath Tone thrust behind Initiating Tone until you can feel the subtle energy of Tone sound waves oscillating in the body
4. Activate First Merkaba Spiral (Top or Bottom Spiral first, depending on Solar or Lunar Salutation) by holding arms out to the side parallel with the ground, and begin to slowly SPIN in the direction (CW or CCW) natural to the " Christos Spin of the Merkaba Spiral you are activating. Continue to Spin AND Tone Initiating Tone while progressively increasing rate of Spin and Toning. To prevent dizziness, hold one arm out to front with thumb positioned UP and focus your eyes on the THUMB rather than the spinning scenery beyond. Do not Spin faster than comfort level. You may modulate toning in rounds of 3, between the Initiating Tone and toning the Christos Spin Rate Number ("33 1/3" for Electrical-Top Spiral, "11 2/3" for Magnetic-Bottom spiral), if desired.
5. When energy in body feels "charged" (a "doneness" intuitive feeling), slow spin to a gentle STOP while Toning 3 Times, the "*Um Shaddai Ur'-A ah-Khum' Turi*" Lyra-Halls of Amores D-12 activation sequence, to amplify the Merkaba Spiral "charge. Stand STILL and breathe quietly for a few moments while Spin stabilizes, then repeat STEPS 3-5 to activate other Merkaba Spiral.
6. End Salutation Rite with full 3 Rounds (minimum) Toning of the "*Arise Khum Nay-A*" (Song of Orion D-8 activation sequence) Part-1:Verses 1 and 2, to be sung while Walking 2 Circles, one CW, one CCW, beginning Circle Walk with Spin direction of First Merkaba Spiral activation, followed by a reverse-direction Circle, then Standing STILL for a few moments to allow the Christos Maharata Current to run between your body and Earth's Planetary Shields.

THE KUNDALINI LIFE-CURRENTS AND THE CRANIAL-SACRAL SEALS.

The human body is fuelled by ENERGETIC LIFE-FORCE CURRENT FROM SOURCE. In contemporary human anatomy, the only life-force currents running fully through the embodied Kathara Grid and body are those corresponding to the SINGLE-VECTOR time cycle of the Density-1 TELLURIC SHIELD. Each of the 4 HOVA BODIES and their corresponding SCALAR SHIELDS, DNA STRAND TEMPLATES, AXI-A-TONAL LINES, DIMENSIONS OF CONSCIOUSNESS AND MERKABA FIELD LEVELS process the frequencies of one TRIADIC CURRENT – a 3-dimensional Bi-polar life-force current. The life-force currents corresponding to the first 9 dimension and first 3 Hova Bodies, Mater Densities and Shields are referred to as the KUNDALINI ENERGIES. Each KUNDALINI CURRENT is a TRIADIC CURRENT – a set of 3 dimensional currents that function together and are separated by Magnetic Repulsion Zones within the embodied Kathara Grid. The 3 embodied Kundalini Currents are the TELLURIC, DORADIC and TEURIC CURRENTS.

Each of the 3 Kundalini Currents is spiralled within the regions of the 1st 8 CELLS of human conception, located in the TAILBONE at the Base of the Spine. (The incarnating consciousness anchors its identity and Christos Manifestation Template within the FIRST 8 CELLS, to initiate the FETAL INTEGRATION PROCESS.) The first Kundalini Current, the TELLURIC CURRENT that corresponds to the DENSITY-1 Nada Hova Body, is active within the human form from birth, enabling 3 dimensions of consciousness awareness, in the form of scalar frequency, to embody within the human organism. When the 2 dormant Kundalini Currents in the tailbone, the DORADIC and TEURIC CURRENTS, are activated, the frequencies of consciousness from dimensions 4-9 progressively awaken within the body, activating the dormant 4-9 strands of the 12-strand DNA Template. The 3 Primary Kundalini Spirals each contain 3 single-dimension currents, and are controlled by the corresponding SIGNET STAR CRYSTAL SEALS in the Kathara Level-2 Crystal Seals Grid. The Signet Seals create polarization between dimensionalized sets of scalar waves within the Scalar Shields, that manifest within the Kathara Level-2 Grid, First Eight Cells and DNA Template as FREQUENCY SEALS or blockages within the TAILBONE (Sacral region) and the PINEAL GLAND in the center of the brain – the CRANIAL-SACRAL SEALS.

When the Cranial-Sacral Seals are released through activation of the Signet Star Crystal Seals that govern them, the dormant Kundalini Currents come to life within the body, sending progressively higher-frequency energy through the CENTRAL VERTICAL CURRENT of the body. Activation of the 3 Kundalini Currents progressively creates integration of the higher dimensions of consciousness and de-densification of molecular structure. When ALL of the frequencies within the 3 embodied Kundalini Currents are activated, the 4th KUNDALINI CURRENT- the PRIMAL TRIADIC CURRENT, the KEE-Ra-ShA' is activated. The Frequency Seal on the KEE-Ra-ShA is located in the 12th Chakra, 6' below the feet. Activation of the KEE-Ra-ShA' anchors the 12th-Dimensional HYDROPLASMIC BEAM within the body, initiating the process of CELLULAR TRANSMUTATION and intentional de-manifestation and Dimensional Ascension of the human biological form.

THE EMERALD AWAKENING AND THE KEE-Ra-ShA'

The Emerald Awakening Masters Kundalini Activation is one of two inter-harmonic energetic activations of previously dormant frequency within the body that sets in motion simultaneous activation of the 12 MAGNETIC BASE TONES within the FIRE CODES between the 12 Strands of the SILICATE MATRIX DNA Template. Activation of the 12 Fire Code Base Tones begins activation of the 3 PRIMAL CREATION FREQUENCIES – the KEE-Ra-ShA – within the 4 Scalar Shields of the PERSONAL INNER TEMPLAR COMPLEX. Activation of the 12 DNA Fire Codes allow for progressive natural fusion of each dimensional DNA Strand Template to occur, through which the organic potentials of CELLULAR TRANSMUTATION are re-awakened within the physical body form.

Through the natural processes of Cellular Transmutation, once fully operational within human genetic design, the carbon-based elemental biology of Density-1 molecular structure is progressively and systematically transmuted to SILICA-based biology. Transmutation to Silica-based biology allows the physical body to pass through the levels of Semi-etheric, Etheric and Pre-matter Hydroplasmic Liquid-Silica Densities of Harmonics 2-4 (Dimensions 4-12), through which the consciousness continually enters manifestation, to achieve physical mastery of the organic process of Transmutational Dimensional Ascension. To accomplish mastery of the Ascension process, the SIGNET STAR CRYSTAL SEALS with the Scalar Shields, which keep the 12 dimensionalized frequency levels of the consciousness and molecular form Phase-locked into dimensional division polarization, must be released. Release of the Signet Star Crystal Seals allows the frequency spectra of the higher dimensional anatomy and the Primal Creation Currents of the KEE-Ra-ShA, to enter into the Template for the physical body and dormant DNA Fire Code Templates, progressively building the Merkaba Vehicle and setting the Cellular Transmutation process in motion. The process of progressive Transmutational Dimensional Ascension represents the function of the organic genetic design and evolutionary objective of the human creation blueprint, through which the natural immortal Christos-Angelic Form of the human being is actualised.

In the evolutionary cycles of contemporary humanity, actualization of the 12-Strand DNA potential takes place slowly in Earthly terms, as the incarnate identity experiences in single-life time-vectors, several cycles of Density-1 incarnation, spanning many thousands of years, in order to progressively activate the DNA Fire Codes within the Manifestation Template. When the human genome was operating in its organic form, this process took place in one lifetime, over a period of about 44 years, as the immortal human incarnate matured to embody the 12 dimensions of consciousness within its original Christos Manifestation Template- the MAHARIC SHIELD, actualizing its organic Angelic-human heritage and mastery over 4 Densities of manifestation within the Time Matrix.

The EMERALD AWAKENING Masters Kundalini Activation releases the Density-2 4TH – Dimensional Green Signet Star Crystal Seal and the Density-1 11TH-Dimensional Red Signet Star Crystal Seal, to open the Density-1 NADA HOVA BODY and TELLURIC SHIELD, and Density-2 ALPHI HOVA BODY and DORADIC SHIELD, to receive the Omni-polar frequencies of the 12th-Dimensional MAHARIC CURRENT (Hydroplasmic Beam) from the Pre-matter Christos Template Maharic Shield. Upon entering the Telluric and Doradic Shields, the 12th-Dimensional frequencies of the Maharic Current trigger simultaneous activation of the Base Tones within the 12 Fire Codes of the DNA Template, beginning the process of DE-POLARIZTION of the 12-Strands and levels of consciousness within the human Manifestation Template. Progressive de-polarization of the 12 levels of consciousness within the human Manifestation Template sets in motion the organic process of Cellular Transmutation and potential mastery over Transmutational Dimensional Ascension. The Emerald Awakening Masters Kundalini Activation initiates REGENESIS of the original function of the human genome, releasing the Base Tones

of the 3 KEE-Ra-ShA' Currents within the body via opening of 2 Signet Seals, through which the physical body begins the carbon-to-silica transmutation process and is prepared to receive the higher dimensional OVER TONE frequencies of the KEE-RA-Sha', to complete Cellular Transmutation via fusion and de-polarization of the particle (Particum) and anti-particle (Partika) aspects of the Manifestation Template. This is the natural process of UNIFIED FIELD PHYSICS by which a human being becomes "Christed".

THE AMETHYST AWAKENING AND THE KHUN-DA-RAY

The final step in fulfilling the potentials of original Angelic-human design is activation of the OVER TONE frequencies of the KEE-Ra-ShA', which allows fusion between DNA Strand Templates to complete on 12 dimensions of frequency. The final step in Transmutational Dimensional Ascension is called the AMETHYST AWAKENING MASTERS KUNDALINI ACTIVATION. Through the AMETHYST AWAKENING, the DENSITY-3 7TH-Dimensional VIOLET Signet Star Crystal Seal and 8th-Dimensional GOLD Signet Star Crystal Seal, and the DENSITY-4 11TH-Dimensional DARK SILVER Signet Star Crysta. Seal are released within the body's Scalar Shields. Release of the OVER TONE S GNET SEA..S allows the OVER TONES of the KEE-Ra-ShA Creation Currents to fuse with the BASE TONES, bringing the 3 OMNI-POLAR CREATION CURRENTS (Primal Creation Currents built upon a TRINITY OF TONES, BI-POLAR + NON-POLAR energy units) together as ONE PRIMAL NON-POLAR CURRENT – the KHUNDARAY (also called the "Rainbow Bridge" or the " Rainbow Serpent".)

The KHUN-Da-rAy is the PRE-LUMINAL vibration, or STANDING WAVE OF INTERNAL SOUND emitted from ONE-SOURCE/ GOD, that corresponds to the COMBINED ORIGINAL SOURCE CURRENT from which the 3 KEE-Ra-ShA' PRIMAL LIFE-FORCE CURRENTS of the 3 non-dimensionalized levels of the ENERGY MATR.X, beyond the 15-Dimensional Time Matrix emerge. The Emerald Awakening Masters Kundalini Activation, and its resulting activation of the BASE TONES of the KEE-Ra-ShA' within the human body, is the first step in manually expediting the natural process of Transmutational Dimensional Ascension.

AWAKENING THE KA AND REMOVING INORGANIC CRYSTAL IMPLANTS

Before the Emerald Awakening Kundalini Activation can be orchestrated, the MAHARIC SHIELD and the KA must be brought out of dormancy within the human Manifestation Template. Once the 12th-Dimensional Maharic Current is released within the embodied Kathara Grid, the KA can be activated. The "KA" refers to the 4 HOVA BODIES corresponding to dimensions 1 through 12. (Nada, Alphi, Betcha and Mahara Hova Bodies.) The KA becomes activated through removal of 4 inorganic Crystal Seal IMPLANTS that block the natural function of the 2nd, 3rd and 4th DNA Strand Templates. Following he procedure for AWAKENING THE KA, the Emerald Awakening Kundalini activation can be conducted.

Technique # 12: Ka-Ra-El Activation Sequence

ACTIVATING DORADIC PHASE I Awakening the Flame

Preparation: Activate Maharic Seal Technique-6 *Maharic Quick Seal*

1 Breath slowly and deeply for several breaths while visualizing or imagining a Violet Dot on the center of the *inside* of your forehead. Make the color image as strong as you are able (if you can't yet perceive inner colors simply imagine the Violet Dot being there)

Move the Violet Dot to the center of the brain, at the **Pineal Gland**, and then upward into the 7th Chakra, finally moving it out of your head to rest on the top of your skull, at the Crown Chakra.

2 Call to mind the Heirophant Symbol (Pale Silver Merkaba Star/ Star of David). Visualise the Heirophant spinning 12" below your feet, within your Maharic Shield and slowly INHALE drawing the Pale Silver Heirophant up through the Central Body Current, up to meet the Violet Dot at the 7th Crown Chakra at the top of the head

When the Heirophant connects with the Violet Dot, visualize the Violet Dot bursting into a 4" vertical Pillar of Violet-Silver Light. Imagine the Violet-Silver Pillar running down through the body and into the Earth's Core as well as upward into the 14th Chakra positioned 36" above your head. (This activates the Violet Ray of Transmutation)

3 Now move your attention to the 4th Heart Chakra, and imagine a small Green Spherical Crystal – the Green Star – stationed at it's core. This is the Green star Crystal Seal that controls release of 4th Dimensional frequency – Phase I Doradic Current – into the body. INHALE, drawing Violet-Silver energy from the Violet-Silver Pillar into the Green Star

EXHALE expanding the Violet-Silver energy into the Green Star sphere. Repeat two more INHALE/ EXHALE breaths, drawing Violet-Silver energy from the Pillar and expanding it into the Green Star sphere.

4 At the end of the last EXHALE, imagine the Green Star POPPING, turning into a spinning Green and Violet Starburst of Light, as the Violet-Silver Pillar disappears. Spin the Green-Violet Starburst faster until it becomes a ball of Green-Violet Light, about the size of a grapefruit, spinning the center of the Heart Chakra. (The Green-Violet ball is the storehouse for your Phase I Doradic Current; it's called the Doradic Sphere).

INHALE and draw Pale Silver energy from your Maharic Shield, through the central Body Current, and into the center of the Doradic Sphere at the heart Chakra .. encasing the sphere in Pale Silver Light.

AWAKENING the KA

1 Bring your attention back to the DORADIC SPHERE at the HEART CENTRE .

2 INHALE pale silver energy up from the EARTH CORE to fill & expand the DORADIC SPHERE, breath slow and deep 2-3 times

3 Now, put the tips of your fingers together, and feel the 'fuzziness' of the energy flow

4 Next, move the fingertips to the tail bone. , INHALE energy from the Maharic Shield into the DORADIC SPHERE

Continued Next Page

As you EXHALE, push PALE SILVER energy down to the finger tips and into the tail bone REPEAT 2-3 times and then remove the fingers

5 Now bring your attention to the 2nd CHAKRA (SACRAL) feel or visualize or just know a DOUBLE TERMINATED QUARTZ CRYSTAL (a crystal with a point at both ends) is beginning to "push out" of the front of your 2nd Chakra the Sacral center

6 Focus your attention on this, try to feel the crystal pushing use your hands to help ease it forward, and out.

7 There is a smaller double terminated crystal in the 3rd (Solar Plexus) Chakra, this will release on it's own because the currents have activated it to do so Help it out with your fingers

8 In the Heart Chakra, imagine a little sphere of energy colored green Bring this little green sphere more fully into focus and you will notice a little black cube of energy inside it look more closely again, and notice a smaller white cube inside the black one

9 As you focus on the two little cubes watch them merge together feel a ripple of vibration as they do, and then notice a little puff of smoke as they both disappear

Now, the body is activated to open the 4th and 1st Crystal Seals you are ready for <u>the EMERALD AWAKENING ...</u>

1 Now we will open the GREEN STAR CRYSTAL SEAL So, keeping your awareness on the Doradic Sphere the GREEN-VIOLET- SILVER ball at the Heart Center.....INHALE,

2 and on the EXHALE visualize or imagine pushing a cord of GREEN-VIOLET-SILVER Doradic Current down into the tail bone to the 1st Cell at it's very tip .

3 Breathe easy and take a moment to visualize the 1st Cell at the tip of your tail bone as a WHITE-SILVER SPHERE...

5 Now within the WHITE SILVER SPHERE visualize a GREEN SPHERE and then visualize a RED SPHERE inside the GREEN SPHERE ...

6 Bring your attention back to the SPHERE of GREEN-VIOLET-SILVER energy in your Heart Center ...

and on the next EXHALE visualize, or imagine, sending a cord of GREEN-VIOLET SILVER energy all the way down your central vertical column and into the GREEN SPHERE in the 1st Cell at the tip of the tail bone

7 AS you INHALE pull PALE SILVER LIGHT from your personal Maharic Shield the platform-disc 12" below your feet, up into the tail bone and into the GREEN SPHERE

8 As you do this visualize, the GREEN SPHERE 'pop' into a STARBURST of PALE GREEN-SILVER LIGHT

Continued Next Page

This has opened the kundalini seal – your WHITE-SILVER & RED Spheres REMAIN as you left them earlier Now we will work to open the RED STAR CRYSTAL SEAL....

---

9 Return your awareness to the Doradic Sphere at the Heart Center INHALE, and then on the EXHALE push a cord of GREEN-VIOLET-SILVER Doradic Current down to the 1st Cell at the tip of the tail bone.

10 INHALE and draw PALE SILVER energy up from the personal Mahanc Shield, the platform-disc positioned 12" below your feet, up into the tail bone and into the RED SPHERE ... inside .... the WHITE-SILVER SPHERE.

11 AS YOU DRAW the PALE SILVER energy into the RED SPHERE visualize the RED SPHERE pop into a STARBURST of PALE PINK-SILVER LIGHT and for the next few breaths EXHALE the PALE PINK-SILVER LIGHT into the 12th Chakra, positioned 6" below your feet..

You have now opened the Kee Ra ShA(Y) Seal so that the Sacred Flames of the Kee Ra ShA can be activated .....

ACTIVATING THE KEE RA SHA

The Kee Ra ShA appears as 3 little flames which exist in the 12th Chakra positioned 6" below the feet The 3 flames are PALE BLUE, PALE YELLOW & PALE VIOLET

1 Begin by focussing deeply on the 12th Chakra, 6" below your feet, and the three little flames held there one is PALE BLUE, one PALE YELLOW & the third PALE VIOLET.... We'll take a few moments to do this.....

If you have difficulty visualizing, just imagine that they are there.

2 On the INHALE, draw the PALE VIOLET FLAME up from Chakra 12 into the central vertical column and all the way up and out through the top of the head, to the 10th Chakra ... 6" above your Crown chakra.....

3 Next return your attention to the 12th Chakra 6" below your feet allow yourself time to connect with the little PALE YELLOW-GOLD FLAME. Breathe easy

4 On the next INHALE draw the PALE YELLOW-GOLD FLAME up from Chakra 12 , into the central vertical column and all the way up and out through the top of the head, to the 10th Chakra ... 6" above your Crown chakra

Again return your attention to the 12th Chakra 6" below your feet and connect with the PALE BLUE FLAME this FLAME is the INNER ARC of the COVENANT . Take your time, breathe easy.

5 On the next INHALE draw the PALE BLUE FLAME up from Chakra 12 into the central vertical column and all the way up and out through the top of the head, to the 10th Chakra ... 6" above your Crown chakra. . .

5D Continued Next Page

6 Now visualize or imagine the 3 little FLAMES together within the 10th Chakra 6" above your Crown Chakra in a moment we will create the Kee Ra ShA SPHERE Breathe easy

7 On the next INHALE draw PALE SILVER energy from your personal Maharic Shield 12" below your feet, all the way up your central vertical column, up into the 10th Chakra

EXHALE gently and INHALE once more, drawing more PALE SILVER energy up into the 10th Chakra visualize or imagine the 3 little flames enclosed within a SPHERE of PALE SILVER LIGHT ..

8 Breathe easy On the next EXHALE move the Kee Ra ShA SPHERE all the way down through the central vertical column, out through the 12th Chakra 6" below your feet and all the way down to the 13th Chakra at EARTH'S CORE

As the Kee Ra ShA enters EARTH'S CORE listen for sound tones w/ inner ear

These TONES represent the AMENTI "PASS KEY" which opens your personal GRU-AL POINT (#1) - the 1st Cell in the Tail Bone releasing the KEE RA SHA FLAMES into your AURIC FIELD

9 Breathe easy Watch as the Kee Ra ShA FLAMES rise up your Maharic Pillar and emerge through your 1st Cell passing like radiating waves of PALE BLUE PALE YELLOW & PALE VIOLET ,

10 As the waves of color move through you, bring your attention to your first 4 Chakras the base the sacral the solar plexus and the heart and visualize or imagine each Chakra emanate a SILVER MAHARIC SHEATH or OVAL POD completely surrounding each one

This completes the EMERALD AWAKENING the natural process by which we use Unified Field Physics to trigger our CHRISTED Selves Before we finish we must first establish the link to the Amethyst Awakening the process of activation and sheathing of the higher Chakras.

To complete the session we will now work with 8th & 11th Dimensional Energies to open DORADIC PHASE 2 & 3 CURRENT and activate TEURIC PHASE 2 CURRENT THIS IS CALLED <u>ACTIVATING THE RA CENTRE in the THYROID – and ANCHORING THE RAINBOW BRIDGE</u>

1 Begin by moving your attention to the area of your 3RD EYE and focus just inside your fore-head .. a little above and behind your eye brows..... Breathe easy

2 Now visualize, or imagine a DARK SILVER DOT in the position you are focussed on In the area of your 3RD EYE... Take a little time.

3 INHALE and move the DARK SILVER DOT into the Pineal Gland in the center of your head and then straight up through the CROWN CHAKRA until the DARK SILVER DOT sits on the top of your skull

Continued Next Page

© Ra Foundation Press 2006

4 On the next INHALE, pull PALE SILVER ENERGY up from your personal Mahanc Shield 12" below your feet all the way up the central vertical current and into the DARK SILVER DOT on the top of your head...

As the PALE SILVER ENERGY reaches the DARK SILVER DOT, the SILVER DOT 'pops' into a SILVER STARBURST

5 On the next EXHALE push the SILVER STARBURST down the central vertical channel all the way to the tip of the tail bone EXPANDING the SILVER STARBURST FULLY into the 1st Cell .

6 Breathe easily and watch, as GOLD-SILVER-CURRENT emerges from the tailbone and begins to flow up through each Chakra ..

from the 1st Chakra at the base of the spine , up through the Sacral the Solar Plexus all the way up to the Crown Chakra we'll take a little time for this ,

From the Crown Chakra the GOLD-SILVER-CURRENT continues upward out of the top of your head up through the 10th Chakra 6" above your head the 11th Chakra 15" above your head and finally the 14th Chakra 36" above your head

7 Once the GOLD-SILVER-CURRENT reaches the 14th Chakra it returns to the 1st Chakra the flow of the current creates a GOLD-SILVER SHEATH throughout your central vertical channel

8 Bring your attention to the 2nd Chakra now , were going to create a GOLD -SILVER- BALL there, in the SEED SEAL at the center of the Chakra ,just imagine the chakra as a bow tie shape, the SEED SEAL is at the narrow point in the middle. The GOLD-SILVER BALL is called the TEURIC SPHERE

INHALE and draw GOLD -SILVER-CURRENT from the GOLD -SILVER-SHEATH into the center of the Chakra as you EXHALE create and EXPAND the BALL to surround the bow tie ...

9 Now , INHALE and move the GOLD -SILVER-BALL up to the 1ST HARA CENTRE .. 2" BELOW the NAVEL (the 9th SILVER STAR SIGNET SEAL or TAN TIEN) . EXHALE GENTLY allowing the BALL to EXPAND

10 On the NEXT INHALE move the GOLD-SILVER-BALL up to the SOLAR PLEXUS and EXHALE GENTLY

11 INHALE and move the GOLD-SILVER BALL up to the HEART CENTRE
EXHALE GENTLY . . INHALE drawing more GOLD-SILVER CURRENT into the BALL and THEN EXHALE FORCEFULLY pushing cords of GOLD SILVER CURRENT down each arm and into the PALMS bring your fingertips together and feel the fuzzy buzz of TEURIC PHASE 3 CURRENT

You have now activated TEURIC PHASE 3 CURRENT in your palms – and – you are now able to run CURRENT from D4 thru' D8 to transmit to the THYROID GLAND to activate and anchor the Rainbow Bridge in others

End of Field Technique-5 *The K-RRT Activation Sequence* (5A-B-C-D-E)

You are now ready for the Amethyst Awakening *Masters Kundalini/DNA Template Activation-2* (*Field Technique-6 Initiating the Amethyst Awakening*) or to participate as an active member of a *Khundaray Rainbow Roundtable* (K-RRT) Signet Council (Field Technique-4 A-B-C) Wait at least 4 Hours before K-RRT participation, and no longer than 24 hours to maintain the appropriate level of critical mass Khundaray frequency in the body that is need for an effective K-RRT © Rev. Ashayma Deane, 2008

INITIATING THE AMETHYST AWAKENING

1 **Preparation:** Complete **Maharic Quick Seal Activation Sequence** Technique 6 and

2 This technique works to bring in a burst of the Khundaray Eckatic Blue frequency ...that sets the Amethyst Awakening in motion.

3 Place your attention at the center of your brain inside your pineal gland. Imagine that you see there a Pale Violet Spark of Light (this is the bottom of the Seal of your 7th Crown Chakra). Imagine that you are going to move this Pale Violet Spark of Light straight up into your 10th Chakra 6' above your head ... imagine that the 10th Chakra is a disc of Light, Blue/ Black – Sapphire.

4 Now see the disc of Light that was Blue/ Black take on a Violet hue. Try to feel it there ... a small horizontal disc ... On the INHALE you will move this disc of Violet-Sapphire Light up to the 24 point Silver Star at the 14th Chakra ... and, on the EXHALE move it down through the 10th Chakra, down through the Crown, down the Central vertical Current, down through your Personal Maharic Shield all the way down to the 13th Chakra at the Earth's Core ...

5 Notice as you do this a whole series of Violet-Blue Sparks flying out from the Planetary Maharic Shield as if they are alive as if electrical communication is taking place. Notice as this happens that the energy flowing up your Maharic Pillar from the Earth Core reflects this change as Violet-Blue energy flows slowly up toward you ... as this energy reaches your personal Maharic Shield notice that it does the same thing as the Planetary Shields – throws out a shower of Violet-Blue sparks ... all communicating with each other about the mathematical instructions about what to do with your body, your crystal seals, your chakras ...

6 Now move your awareness to the Pale Silver skin all round your body/ etheric body ... and be aware too of the Main Vertical Current that you brought the Pale Silver cord through ... and at the same time on each coming INHALE, bring up the Pale Silver-Violet-Sapphire energy simultaneously, from your Maharic Shield to infuse the Pale Silver skin all round you.

Take a few breaths to do this and watch as the 3 color flicker through you – when they reach the Heart Chakra feel them expand out ... and allow them to travel on up, all the way to the 14th Chakra ... expanding throughout every Chakra as the Pale Silver-Violet-Sapphire energy flows up, through and all around you ... See each Chakra respond with a spraying burst of Silver-Violet-Sapphire, backward and forward through both sides of the Chakras until they all shift ... try to feel the process as it awakens all the cell's of your body.

The brain cells and brain patterns begin to respond activating the Fire Letters, setting the grid of frequencies necessary to activate the Fire Codes 7, 10 and 12 in the DNA Template.

Your own 0-12 Christos Avatar Identity level will slowly release the *Khundaray Activation Frequencies* through which the Amethyst Awakening progressively unfolds in the DNA Template and body. This process can be naturally and safely accelerated by receiving a Level-3 MC Regent Ordination transmission from a qualified Indigo Child/Eleyani *Level-4 through Level-6 MC Ordinate* Consummate, Elder Consummate or Eclair that carries the necessary Amethyst Awakening Khundaray Activating Frequencies in their Eleyani DNA Templates.

The Merkaba Trinity Key Induction

The ***Merkaba Trinity Key Induction Technique*** begins the process of establishing a **conscious directional relationship** with various levels of your 15-Dimensional Anatomy (or that of your Client). The **Trinity Key Symbols** are **mathematical-geometrical programs** that carry the specific organic structure of **each dimensional frequency band** as it exists within the **D-12 Universal Divine Blueprint**. Imbuing the proper **Symbol Key** into the appropriate area of the personal anatomy can rapidly expedite **restoration the personal Divine Blueprint** within the **DNA Template, Chakra System** and embodied **Kathara Grid**. Use of the Trinity Master Key Symbols that correspond precisely to the natural order of each dimensional frequency band, can **intensify** all applications of **holistic and allopathic healing** as well as progressively and systematically assist in the process of accelerating **DNA Template** healing and **activation.** Every **condition** within the body-mind-spirit system has a specific **Energy Signature** unique to its own construction. Every **dis-ease** condition within any aspect of the personal experience (physical, emotional mental, spiritual, financial, social, etc.) is created and **held in manifestation** by a specific set of mathematical – geometrical energy relationships that are **stored** within the embodied **Kathara Grid** and **DNA Template** in the form of **Symbol Keys**. The mathematical-geometrical energy relationships that serve as the **blueprints** upon which experiential manifestation will emerge can be perceived by the conscious identity in its Symbol translation. When using the **Trinity Master Key Symbols** you are **resetting and activating very specific portions** of the personal **Divine Blueprint** (D-12 Pre-matter Maharic Shield) into a naturally harmonious relationship with Universal Order (the organic structure of dimensionalized frequency bands). The Trinity Master Keys provided in this Technique trigger activation of very specific **Fire Letters** (Keylons) within the DNA Template, allowing the DNA Template to receive rectly the **new electrical instructions** corresponding the personal Divine Blueprint. This technique can be used with Kathara Healing Techniques from Kathara Level-1 with any other healing modality or singly after activating the D-12 **Maharata Current** via **Techniue-6, *The Maharic Quick Seal.***

It is **necessary** to initiate a **D-12 Maharaic Seal** in order to run **any Symbol Key program** into the DNA Template and Level-1 Kathara Grid, it is the strength of the D-12 Maharata Current that allows access to the deepest levels of the Personal Shields and Divine Blueprint. The **Trinity Master Key Symbols** are a **set of 3 Symbol Keys** that are to be used **in sequence**. The first two Trinity Keys, the **Initiating Keys**, are used in **every application** to open the embodied Level-1 Kathara Grid to receive new instructions. The third Trinity Master Key Symbol, the **Transmitting Key**, corresponds directly to the Divine Blueprint of **one dimensional frequency band** and its corresponding **Kathara Center, DNA Strand Template, Chakra** and related body regions, **Axia-tonal Line, Auric Field Level** and **station of consciousness**. In a **Trinity Key Induction Session**, one can choose to work on only **one dimension** (Chakra-DNA Strand Template-Kathra Center-Axia-tonal Line-Auric Level) via its Transmitting Key, or each of the **12 Transmitting Key** of the Universal Kathara can be used, **in sequence**, following induction of the two Initiating Keys. The process of using the Trinity Keys is simple; the **Chakra** that corresponds to the Transmitting Key/ dimension/DNA Strand with which you desire to work is used as the **vortex** through which the Trinity Keys are **INDUCED** into the corresponding **Kathara Center**. From the Kathara Center, the Trinity Keys electrically pass on to the **DNA Template** and from there into the **Axia-tonal Line system** and corresponding areas of the body-mind-spirit system. Use of the Trinity Key Induction Technique progressively assists in activating the personal **Merkaba Vehicle** while **amplifying and expediting restoration** of the personal Divine Blueprint.

Technique # 3: Merkaba Trinity Key Induction

1 Activate the Maharata Current via **Technique-6: *The Maharic Quick Seal*** and decide which Transmitting Keys) you will use **Trace** the **3 Trinity Symbol Keys** onto **3 small squares of paper**

2 First place each of the papers with the two Initiating Keys **face up on the floor** then **stand** (barefoot or socks only) with **one foot on top of each of the papers; Initiating Key #1** under the **LEFT foot, Key #2** under the **RIGHT foot**. (Note: To run Trinity Key induction for a Client have them recline on their back and place the papers with Initiating Keys between your palms and the soles of Client's feet. As introduced in Kathara Level-1, use your **palm Chakras** to **transmit** the Symbols and the Pale-Silver Maharata Current, using the same action as described below into the **Client's foot Chakras**. Key-1LEFT foot-***right hand transmission*** Key-2 RIGHT foot-***left hand transmission***) In Self-induction, the papers with Symbols should be positioned beneath the **balls of your feet**, in the area of the main **Chakra** on the sole of each foot. Simply begin to **breathe deeply** and slowly for a few minutes. With each **INHALE** draw a **thick stream** of **Pale-Silver Maharata Current** from Earth's core through the **Central Vertical Current** of the body and out the top of the head to the **14th Chakra** 36-inches above the head. With each **EXHALE**, imagine a grapefruit sized Pale-Silver **Maharic Ball** rapidly moving down your Central Vertical Current. When the Maharic Ball reaches your 2nd-Chakra near the navel, imagine the Ball splitting into **Two Balls**, each continuing to **travel down each leg and out your feet Chakras**, through the **Symbol Keys**. Once the Two Balls of Maharic Current have passed through the Symbol Keys, imagine that they **re-merge** into the **one grapefruit sized Pale-Silver Ball** that continues to move downward into the **13th Chakra** at Earth's core. **Continue** this process until you sense a **momentary slight warmth, tingling or subtle itching** at the **balls of your feet**. These mild **momentary sensations**, called the **CUE RESPONSE** will grow stronger the more frequently you use the feet Chakras for Symbol Key induction. Once you have noticed the **Cue Response** you have **successfully induced** the two **Initiating Trinity Keys** and it is now time to utilize the remaining **Transmitting Key**

3. If you have chosen to use the Transmitting Key for D-1-Strand-1-Axiatonal Line-1-**Chakra-1** continue **standing** for the final Symbol Key induction, placing the paper with the Transmitting Key face up on the floor between **slightly parted feet: do not stand on Symbol Key paper** for **Base Chakra Induction**. For all other Chakras **recline on your back** and place the paper with the Transmitting Key **directly on top of the Chakra** to which it corresponds, **on the front of the body**. Use each **INHALE** breath to drawn Maharata Current up from Earth's Core, into the Central Vertical Current **only as far up as the selected Chakra**. On each **EXHALE**, push Pale-Silver Maharata Current **out from the Central Verticle Current** of the body and **into the Chakra** imagining that the Chakra is progressively turning into a **radiant vortex of Pale-silver light** that **spins faster and faster**. When you begin to feel a bit of warmth, tingling, energy running or itching of the skin **at the Chakra region** (the **Cue Response**), use a final **INHALE breath** to draw the image of the Symbol **down through the Chakra into the body** and into the **tiny Crystal Seal** that links the Chakra to the Central Vertical Current. Take a **FINAL exaggerated EXHALE**, and imagine that you have **pushed the energy of the Transmitting Symbol Key** out of the Chakra into the **corresponding level of the Auric Field**. Once imbued into the **Auric Field** the single image of the Symbol then **replicates automatically and rapidly** creating **millions of mini-replicas of the Symbol** within your bio-energetic field. When the **Cue Response** sensation at the Chakra has **completely ceased**, you have **successfully induced** the entire **mathematical program** of the Transmitting Symbol into the corresponding Kathara Center, DNA Strand Template, Axia-tonal Line, body region and level of consciousness

Number in circle represents the number of Chakra into which corresponding Transmitting Key Symbol will be induced

Note: The Smaller Symbols placed outside of SOME circles are Amplifier Key Symbols corresponding to the Chakra by which they are positioned. The Amplifier Keys can be used in place of the Transmitting Key within the circle, or the two Keys can be drawn on one paper for simultaneous induction. It is recommended to begin with the Transmitting Key inside the circle, then after a few induction exercise, switch to the Amplifier Key, and after several exercises with the Amplifier Key, use both Transmitting and Amplifier Keys simultaneously.

In **Kathara Level-1** we have learned of the innate structures of multidimensional reality and how these structures are intimately intertwined with the ***15-Dimensional Human Anatomy*** and levels of personal identity through the personal ***Maharic Shield*** and ***DNA Template***. In rediscovering these long forgotten aspects of the Human condition and our inherently implied relationship to Universal Order, we've become empowered to draw upon the natural **Triadic Phase Currents** indigenous to our personal biology and universal structure, in order to take an active hand in personal *Conscious Bio-spiritual Evolution* and healing and healing facilitation for others. ***Techniques 1-5*** (#1-*Awakening the Mentor*, #2-*Maharic Seal and Liquid Light Cleanse*, #3-*Opening the Healing Channels Doradic Phase-1 Current*, #4-*Multi-vector Holographic Recoding Kathara Scan* and #5- *The Maharic Infusion* client session) contained within *Chapters 1-4 of the Kathara Level-1 Maharic Recoding Process* enable us to begin conscious interaction with the "invisible" processes of **Body-Mind-Spirit Evolution** that are inherent to Human design. In our introduction to **Kathara Level-2** we have begun to explore the greater nature of ***Universal Life Force Currents***, the "mysterious" sciences of ***Merkaba Mechanics*** and their indelible connection to our personal evolution and **Bio-spiritual Actualization Processes**. ***Techniques 6-7-8-9-12*** (#6-*Maharic Quick Seal*, #7-*Ps13 Tribal Shield Activation*, #8-*Merkaba Salutations*, #9-*Merkaba Trinity Key Induction* and #12 *Kee-Ra-Sha Activation Sequence*) so far explored within this *Chapter 5* of the *Kathara Level-2 Introduction* enable us to advance our conscious interaction with the processes of personal Body-Mind-Spirit Evolution and Bio-Spiritual Actualization. As we increase our personal abilities to understand, embody, hold and direct the inherent powers of the Universal Life Force Currents, and to access the levels of personal spiritual identity and wisdom to which they correspond, we progressively increase our ability to consciously facilitate healing in ourselves and for others we may choose to serve. An in-depth study of Universal Life Force Currents and Masters Merkaba Mechanics involves cultivating a necessary familiarity with a broad spectrum of interrelated subjects that take us into the heart of the Science of Vibrational Mechanics and Holographic Creation Physics, as well as into the very Soul of our spiritual relationship to consciousness, ourselves, each other, our world and God. Mastery of Merkaba Mechanics is an attribute inherent to achieving the state of consciousness often called "Ascended Mastery", which requires much in-depth study into the "mysteries" of creation. However, a functional mastery of Merkaba and the related constructs of the personal "Inner Templar" system upon which the personal body and identity manifest can be achieved through gaining familiarity with and actively employing core mechanics of the personal Merkabic System.

As our *Kathara Level-2 Introduction* began, our exploration of active techniques of *Tribal Shield Activation*, *Merkaba Salutations* and *Trinity Keys* set us on the path of becoming functionally able to consciously direct elementary operations of the personal Merkaba Vehicle and Life Force Currents, as a means of expediting our progress of Bio-Spiritual Evolution through DNA Template/Merkaba Field Activation. As our *Kathara Level-2 Introduction* continues, we will begin to explore the seemingly "***magical world of Merkaba***", rediscovering the very tangible importance of the **Merkaba Field** in relation to the inherent dynamics of DNA, health, healing and spiritual actualization. To achieve genuine integrity in the facilitation of healing for others, one must simultaneously strive to heal and actualize the self. The greater the level of health and spiritual actualization possessed by a healing facilitator, the greater will be the facilitation of healing for the client to whom the healing facilitator is in service. As Kathara Level-2 Introduction draws to a close we will begin an introductory exploration of the "Ancient Secrets" of the **Veca Codes**, so that we may engage practical application of two additional techniques of Photo-Radionic and Photo-Sonic **Merkabic Healing. Techinque-#10** ***Restoring the Trion Field Veca Code Activation*** and **Technique-#11-*Restoring the Meajhe Field Ecksaha Activation*** will provide us with powerful tools of the Kathara Healing trade that will ***substantially increase the quality, amount and power of interdimensional frequency we are capable of receiving, holding and transmitting***. Through these simple but effective Merkabic Healing tools we can expedite our processes of personal healing and spiritual actualization, thereby enabling us to become more effective and powerful healing facilitators in our client session service.

The "Magic of Merkaba"

Spiritual-science teachings of **Merkaba Mechanics** emerge from the most ancient of times, record of Merkaba teachings is most often found in obscure traditional "Occult" texts or within New Age "Ascension" teachings. Genuine Merkaba Sciences hold the keys to understanding and mastering the processes of both spiritual and physical evolution, on a personal, planetary, galactic and universal level. Merkaba Mechanics are not the product of "science fiction" nor are they "magical hocus-pocus" of "occult mysticism" Merkaba Mechanics are not "magic" at all but rather an intrinsic element of universal Primal Order. **Merkaba Fields**, sets of Star-tetrahedron shaped counter-rotating electro-magnetic energy fields within and surrounding manifest forms, are simply an inherent element of the 15-Dimensional Anatomy of form manifestation and the Primal Order structure of multidimensional Creation Physics. In the "*Transduction Sequence*" described in *Kathara Level-1*, the sequence of energy transmutation by which conscious energy manifests into tangible biological form, the *Merkaba Field* represents the structure and stage of energy dynamics by which *Primal Life Force Currents* pass from the scalar-wave-template of the embodied *Kathara Grid levels* into the *DNA Template*. In terms of non-biological form manifestation, all forms possess an inherent structure of interwoven Merkaba Fields through which Primal Current energy is transmuted from the Kathara Grid Core scalar-template level into the outer levels of the Kathara Grid and Axiom Line template upon which the specialized structure of the form builds up, through particle/anti-particle accretion, into physical manifestation. Merkaba Mechanics seem "magical" only when the inherent **"Laws of Nature"** that govern the dynamics of **Multidimensional Universal Unified Field Physics** are not understood.

Through understanding of genuine *Universal Unified Field Science*, *Merkaba Fields*, and their inherent dynamics as utilized in the study of *Merkaba Mechanics*, are simply recognized as natural elements of the processes inherent to Creation Physics and the naturally occurring, organic relationships between Energy Consciousness, and the Holographic Manifestation of form.

As Merkaba Fields are an intrinsic, significant and natural part of the Body-Mind-Spirit anatomy, the study and application of **Merkaba Mechanics** is an essential component in any Masters Holistic Healing or Spiritual Actualization program. Merkaba Mechanics are "*Scientific*" in that they represent a core element within the innate processes of creation and manifestation that are intrinsic to the sciences of Creation Physics. Merkaba Mechanics are also "*Spiritual*" in that it is through the innate structures and dynamics of Creation Physics, of which Merkaba Mechanics are a natural part, that consciousness enters the manifest arena in the form of sentient, individuated, multidimensional identity. The "body, mind and spirit" of every manifest being is formed through and governed by the natural laws of Creation Physics and Primal Order. The Laws of Creation Physics and Primal Order are designed and maintained by and within a non-manifest, intelligent, central Consciousness Force and Source of Creation that is commonly referred to as **"God"**. God expresses It-Self in the form of *Conscious-energy Constructs* that carry the living "Spirit and Consciousness of God" in the form of **Primal Life Force Currents**, which are the foundations for macrocosmic and microcosmic creation and manifestation. Merkaba Fields and the mechanics by which they function are an indelible part of the physics of Creation and Consciousness, and are thus intimately involved with the Bio-Spiritual processes inherent to **Spiritual Actualization**.

Merkaba Fields, DNA, Healing and Spiritual Actualization

Particles, People, Planets, Galaxies and Universes all have **sets of interwoven Merkaba Fields** that serve as the "**core Primal Life Force Current circulation system**" between the Cosmic, Universal, Galactic, Planetary and Personal "Divine Blueprint" Kathara Grid scalar-templates and the manifestation of those blueprints into the tangible structures of matter. Merkaba Fields are the "**carriers of consciousness**" and the "**engines of energy**" by which physically manifest forms are created, maintained and evolved through the Holographic Unified Field of manifest space-time-matter reality. In relation to the processes of personal bio-spiritual healing and spiritual actualization, the personal Merkaba Field is an intrinsic aspect of 15-Dimensional Anatomy that directly governs the function of the physical, emotional, mental and spintual body systems. **The multidimensional structure of the personal Merkaba Field is the system of electro-magnetic interface by which the Primal Life Force Currents and Consciousness of God-Source and its sentient individuations pass from the Kathara Grid Core Template into the scalar-wave DNA Template that holds the blueprint for the physical-chemical biological DNA.** This reality of **Merkaba Field-DNA Connection** implies that the personal Merkaba Field is directly related to the function or dysfunction of the **biological genetic code.** As the Merkaba Field "carries the energy of consciousness" into the DNA and biological vessel, the *Merkaba Field-DNA Connection* also implies that the potentialities of consciousness and embodiment of spiritual identity, while a being is ensconced within the Time Matrix, are dependant upon the condition and function of the personal Merkaba Field, DNA Template and Kathara Grid.

*Merkaba Fields are the "**carriers of consciousness**" and the "**engines of energy**" by which physically manifest forms are created, maintained and evolved through the Holographic Unified Field of manifest space-time-matter reality.*

Universal Merkaba Field Structure

Basic Merkaba Field structure is relatively simple. Viewed Macrocosmically, in a 15-Dimensional Time Matrix there are **15 sets** of counter-rotating electromagnetic **Merkaba Spirals** that form 15 **Universal Dimensional Merkaba Fields**. A "**Merkaba Field**" is composed of a set of **2 Merkaba Spirals**, one electrical-transmitting "cone", the other magnetic-receiving "inverted cone". the 2 "cones" of the Merkaba Spirals, which operate as a **White Hole/Black Hole Pair**, intersect each other, creating a system of energy vortices that form an **Elliptical Sphere** of energy within the center of the intersected Merkaba Spirals. The Sphere of energy at the center of a Merkaba Field is called the **FORM CONSTANT**, it is a "**spherical energy domain**" within which the individuation of consciousness and holographic manifestation/projection of form can take place, akin to an "energy egg" within which manifest reality occurs. Within this Sphere of energy at the center of a Merkaba Field, the template-blueprints of a form are held "constant", allowing conscious Partiki units, particles, anti-particles and ante-particles to accrete in specific ratios to "fill out the form in matter". Within the Form Constant sphere, consciousness is able to perceive the **holographic illusion** of externalized space-time-matter manifestation, as the scalar-template of the form is held fixed within the sphere. The "hologram" appears to remain "constant" within the Form Constant sphere while consciousness is focused within the frequency bands of which the Merkaba Field is composed.

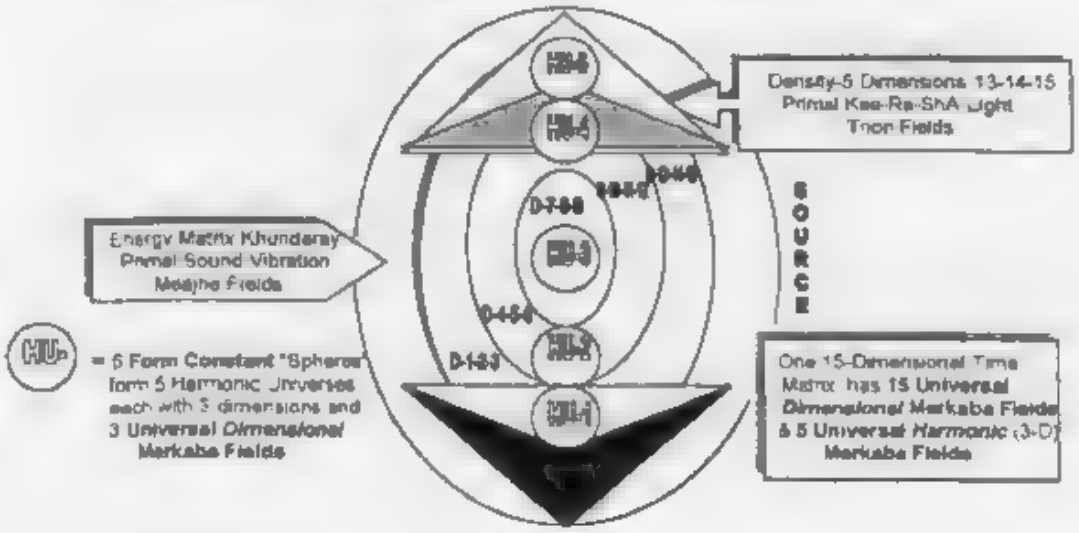
On the macrocosmic universal scale, the Form Constant of each Universal Dimensional Merkaba Field creates a single, elliptical-spiral shaped electromagnetic domain of frequency that represents a single dimension of manifestation. Following the innate mathematical-geometrical structure of Primal Order, the 15 Universal Dimensional Merkaba Fields group into 5 **sets** of 3-Dimensional Merkaba Fields called **Universal Harmonic Merkaba Fields**. The 3 Form Constant Spheres from each set of 3 Universal Dimensional Merkaba Fields forms a **Universal HOVA BODY**, or a "Harmonic Universe" electromagnetic domain. Following the mathematical Primal Order program of a Time Matrix as held within the Universal Kathara Grid template and transmitted through the rotation ratios of the Harmonic and Dimensional Merkaba Fields, each of the 3 dimensional levels of a Universal Hova Body holds the Partiki units, consciousness and matter particulates of its dimensional field into a specific angle and speed of rotation. The 3-Dimensional Harmonic Merkaba Field controls the relationship of particle rotation angle (angular rotation of particle spin or "**ARPS**") and rotation speed between each of the 3 Dimensional Merkaba Fields, holding together a 3-dimensional electromagnetic domain, within which consciousness can experience a 3-dimensional space-time-matter hologram. In a single 15-Dimensional Time Matrix there are thus 15 singular Universal Dimensional Merkaba Fields governed by 5 larger 3-dimensional Universal Harmonic Merkaba Fields, all of which circulate consciousness in the form of Primal Life Force Currents into and out of the hologram of manifestation. The seeming solidity and durability of an externally manifest matter-field in space-time is created, maintained, perpetuated and completely dependent upon the intrinsic function of the Universal Merkaba Fields.

Within the larger Form Constant elliptical-spheres of the 5 Universal Hova Bodies of a 15-Dimensional Time Matrix, the holographic perceptual realities of space-time-matter take place. Every being or thing in manifest form enters its reality hologram by *taking on the mathematical program* of first the *Universal Kathara Grid* and *5 Universal Hova Bodies*, which set the "Life Stream" or "Stream of Consciousness" of Primal Creation

Currents in motion following the specific **Harmonic Merkaba Field spin ratios** characteristic to each Harmonic Universe System. Galaxies are formed in this way, as individualized expressions of the greater Harmonic Universe of which they are a part. **Universal Harmonic and Dimensional Merkaba Fields** govern the birth, evolution and transmutation of the **galaxies** within them. **Galactic Harmonic and Dimensional Merkaba Fields** govern the birth, evolution and transmutation of **star systems and planets** within them. **Planetary Harmonic and Dimensional Merkaba Fields** govern the birth, evolution and transmutation/death cycles of the **species and matter forms** existing upon the planet. The **Personal Merkaba Fields** of species and individuals direct the function of the personal **DNA Template, chemical DNA** and **biological genetic code**, thus governing the birth, evolution and transmutation processes of individual organisms. The mathematical-geometrical programs of the **Primal Order "Divine Blueprint"** that govern Merkaba Field formation and spin ratios are held within the Universal, Galactic, Planetary, Species and Personal Kathara Grid structures. In a singular 15-Dimensional Time Matrix, the **inter-linked Universal, Galactic and Planetary Harmonic and Dimensional Merkaba Fields** circulate Primal Life Force Currents and consciousness into and out of manifestation in space-time.

Universal Merkaba Fields

Universal Merkaba Field of One 15-Dimensional Time Matrix



The Personal Merkaba, Trion-Meajhe Field, Radial Body and Radis.

Each individual being receives its life force consciousness biology and manifest hologram through the innate connection between the **Personal Merkaba Field** and the Merkaba Fields of the Planet Galaxy Universe and Time Matrix When the **D-12 Pre-matter Divine "Christos" Blueprint** is expressing naturally in a planetary system the organisms on the planet circulate Life Force Currents and consciousness through the physical and "spiritual" bodies via the Personal and Planetary Merkaba Fields. The **Planetary Merkaba Field** circulates Life Force Currents through the **Personal Kathara Grid** template (morphogenetic field) of the organism via the **Planetary Bio-Feed Interface System.** The organism s **Personal Merkaba Field** then picks up the energy from the Kathara Grid and continues to circulate the Life Force Currents from the Personal Kathara Grid and into the **Maharic Shield Imprint** in the **DNA Template** that is held within the Level-1 *Kathra 12-Tree Grid*, Level-2 *Kathara Crystal Seals-Hara Grid* and Level-3 *Kathara Diodic Grid* From the Maharic Shield imprint in the Kathara Grid the Personal Merkaba Fields distribute the Life Force Currents and consciousness into the **DNA/RNA Template** and **Axiom Lines.** The Life Force Current continues circulation from the DNA/RNA Template and Axiom Lines into the **Personal Hova Bodies** and **Auric Field**, to the **Chakras** and **Meridian Lines** Passing through the Meridian Lines the Life Force Current, imbued with the specific mathematical manifestation program picked up from the Kathara Grid Divine Blueprint Template, then enters a state of final transmutation into 3-dimensional particles by passing through an electrostatic **Repulsion Zone** barrier that exists surrounding each 3-dimensional Hova Body

The frequency barrier surrounding each 3-dimensional Hova Body forms as **thin, skin-like membrane** or **"Tissue Capsule"** surrounding each of the 5 Hova Bodies in the 15-Dimensional Anatomy The **Hova Capsule** membrane is composed of Density-5 **Primal Light** ante-matter units called **TRION UNITS** that exist in the form of fixed standing-columnar-scalar-light waves made of **Keylons**, or 3-dimensional **Partiki Grids** The Trion Units and Keylon Partiki Grids within them are anchored upon a fixed field template of **Primal Sound** units, called **MEAJHE UNITS**, which exist as fixed points of mathematically organized vibration The outer layer of each Hova Capsule is called the **Trion Field** as it is composed of **Trions** or units of Density-5 ante-matter Primal Light. The inner portion of the Hova Capsule is called the **Meajhe Field** as it is composed of **Meajhons** (mE' yans) or fixed points of Primal Sound vibration from the **Energy Matrix** beyond the holographic manifestation of the Time Matrix Light Fields The collective body of the 5 Hova Capsules is called the **RADIAL BODY** or **Trion-Meajhe Field** All manifest forms possess a core Radial Body/ Trion-Meajhe Field **Hova Capsule** structure as part of the intrinsic 15-Dimensional anatomy

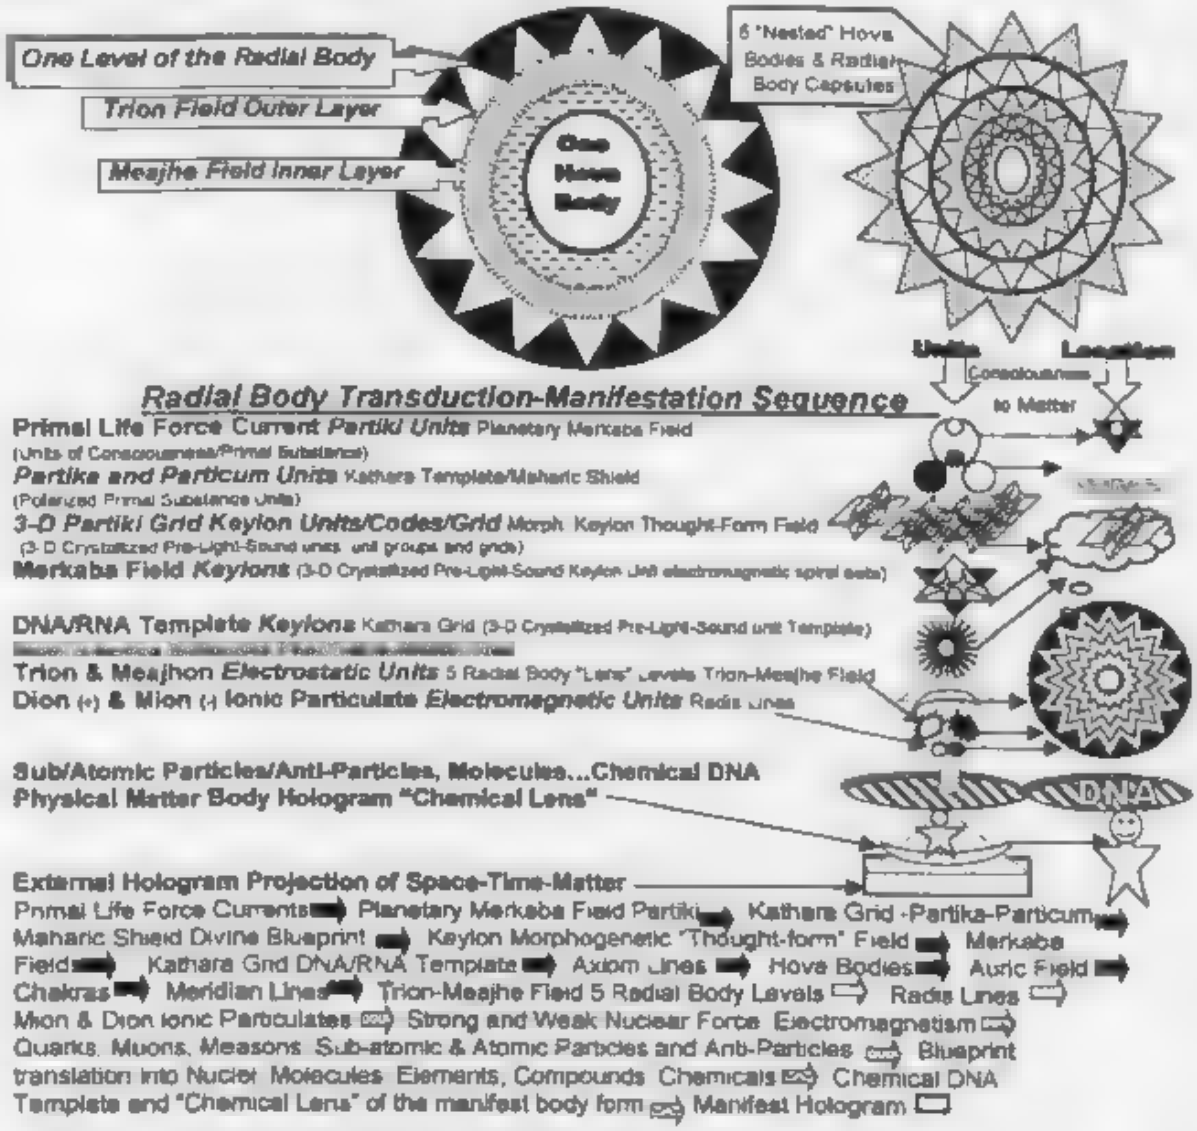
As multidimensional Life Force Currents pass through the Meridian Lines and into each of the 5 layers of the Radial Body, the energy currents and the consciousness carried upon them project the mathematical program of the Divine Blueprint into the Trion-Meajhe Field of each of the 5 Hova Capsules Within the Hova Capsule the individualized raw Life Force Currents enter a system of 3-dimensional energy conduits or **rivulets** called **Radis**, which are the "turnstiles" between "manifest matter" and "conscious energy" The Radis draw in the Life Force Currents with their manifestation program through the Trion-Meajhe Field, then polarize and break up the Trion and Meajhon units into negatively and positively charged electrical sub-units called **Mions** and **Dions** Partiki, Keylons Meajhons Trions Mions and Dions belong to a category of primal building blocks known as **IONIC PARTICULATES,** which are the building blocks of consciousness energy light, sound and scalar-wave-fields that form the blueprints upon which all matter manifests **Trions** are electrostatic particulates that have both a negative and positive electrical charge, which renders them neutral or static, they are the foundations of what becomes **Ante-matter** Primal Light particles of pre-visible gaseous light. Meajhons are static units of pre-sound standing waves also possessing neutral electrical charge that form the Primal Sound Fields of the Energy Matrix Within the structures of the Radial Body Radis rivulates, Trions and Meajhons are **polarized** into negative charged **Mions** ("Base Magnetic" vibrating pre-sound particulates foundations of negatively charged particles such as electrons, originating from the Universal Particle Particum field) and positively charged **Dions** ("Base Electrical" oscillating pre-

light particulates foundations of positively charged particles such as protons originating from the Universal Anti-particle Partika field). Together Mions and Dions create the **electromagnetic Ionic Particulate base field** within the Merkabic Form Constant through which particles emerge via Ionic Particulate accretion into tangible matter units.

The Trion-Meajhe Field Radial Body of any manifest form represents the 5-Density "Veil" through which consciousness-as-Primal Life Force moves into and out of externalized 3-dimensional manifestation. **Merkaba Fields are the "energy engines and consciousness carriers" by which Life Force and consciousness are circulated between the internal Kathara Grid scalar template and the Trion-Meajhe Field Radial Body "veil" as they pass into and out of external expression.** The perpetual polarization, electromagnetic expression and de-polarization of the Life Force Currents within the Merkaba Field Form Constant electromagnetic domain is the process by which the holographic projection of matter is perpetually brought into and taken out of perceptually experiential being. The **Radial Body** Trion-Meajhe Field receives, via Merkaba Field circulation, the template or "design" for its particle manifestation from the "instructions" held in the Divine Blueprint Maharic Shield and DNA Template of the Kathara Grid. Manifestation instructions pass from the Kathara Grid to the DNA Template via the Merkaba Field, then continue into the energy circulation systems (Axiom Lines, Hova Bodies, Chakras, Meridians) that deliver the instructions to the Radial Body for particulate manifestation. In biological life forms, the Radial Body and Radis then translate the scalar-wave blueprint of the DNA Template and Kathara Grid into the polarized Ionic Particulate Mion-Dion sub-units, which accrete following the DNA Template instructions to form sub-atomic, atomic, molecular, chemical DNA, physical matter form- the vehicles of embodied consciousness. The **Merkaba Field** also receives its instructions for energy circulation from the Kathara Grid and DNA Template.

The Radial Body Tissue Capsule, Radis
& the Mechanics of Manifestation

The **Radial Body** exists as a thin "***Tissue Capsule***" surrounding each of the **5 Hova Bodies**. Each of the **5 Radial Body Levels** are composed of an **Outer Layer** of electrostatic neutral-charge **Trion Primal Light Units** and an **Inner Layer** of **Meajhon Primal Sound Units**. Each of the 5 Levels of the Radial Body serve as the **polarizing filter** or "**lens**" through which **Multidimensional Primal Life Force Currents** flow, via **Merkaba Field** circulation, from the Kathara Grid and DNA Template, into manifest form.



Radial Body Transduction-Manifestation Sequence

1. From the **Planetary Merkaba Field** (via the Planetary Shield, Axiom Lines, Hova Bodies, Vortices, Meridian Lines and Radial Bodies), **rhythmic pulses of Conscious Primal Life Force Currents** enter the species and personal **Kathara Grid Core Template** as Primal Units of **Partiki**.

2. Within the **Kathara Grid Template** the **Partiki Units** pick up the **mathematical-geometrical program** from the **Maharic Shield** "Divine Blueprint" Template, **polarize** to form **Particum and Partika Units**, then **accrete** to form **3-dimensional** electro-magnetic **Partiki Grids** called **Keylons**. The Keylons group together mathematically forming complex templates of **Crystallized Keylon Codes** (or "***Keylon Thought-Crystals***"), which create a mathematically encoded **3-dimensional Morphogenetic Field ("Keylon Thought-form Field"** or Morphogenetic **"Keylon Crystal Grid"**) carrying the manifestation blueprint program of the Maharic Shield.

3. As the Primal Life Force Currents of the electromagnetic Keylon Crystal Grid interact with each other following the program of the D-12 Pre-matter **Universal Divine Blueprint**, they form **sets of spiraling electro-magnetic vortices** called **Merkaba Fields**, which carry the Maharic Shield-Kathara Grid Blueprint program into formation of the **DNA/RNA Template** Keylon Crystal Grid.

4. From the DNA/RNA Template held in the Kathara Grid, Primal Life Force Current carries the **Keylon Crystal Grid** of the blueprint into the **Axiom Lines, Hova Bodies, Auric Field, Chakras** and **Meridian Line** systems, finally carrying the Keylon Crystal Grid of the Divine Blueprint into the **5 Radial Body "Tissue Capsule" Levels**.

5. Within the **5 Levels of the Radial Body** the **Incoming Keylon Crystal Grid** translates into **electrostatic Trion-Primal Pre-Light Units** (gaseous pre-light Ante-matter) and **Meajhon-Primal Pre-Sound Units** (units of vibrating pre-sound energy) that possess a **neutral electrical charge.** The **Encoded Primal Life Force Currents** (PLF Currents+ Keylon Crystal Grid blueprint program) are converted into a **Trion-Meajhe Field blueprint replica;** a " Primal Light-Sound" translation of the original blueprint.

6. The **Encoded Primal Life Force Currents** then travel, **AS the Encoded Trion-Meajhe Field**, into the **Radis Lines** in each of the 5 Levels of the Radial Body. The Radis Lines first **replicate and store** the **mathematical blueprint encoding** of the **Trion-Meajhe Field**, then **polarize** the neutrally charged Trion-Meajhe units into **electromagnetic units** called **Mion** (-) and Dion (+) ***Ionic Particulates***. The replicated Trion-Meajhe Field blueprint becomes part of the "Primal *Pre-sound* vibration" ***Meajhe Field*** Inner Layer of the *Radial Body* Trion-Meajhe Field, serving as a living "***Memory Matrix***" composed of Meajhon Unit "Primal Pre-sound vibration". The polarized Mion/Dion Units become the foundations upon which the "Strong and Weak Nuclear Force", Electromagnetism, quarks, Muons, Measons, Sub-atomic Particles and Anti-particles etc. form. Particum-based Mions ("Base magentic) become particles, negative electrical charge units like electrons and sound spectra. Partika-based Dions become anti-particles, positive electrical charge units like protons and light spectra.

7. Blueprint Encoded Primal Life Force Currents in the form of a **Mion-Dion Field** then translate the original Kathara Grid Blueprint into **Quarks, Muons, Measons, Sub-atomic** and **Atomic particles** and **anti-particles**, which **accrete** according to the blueprint to form **molecules, elements, chemicals**, the **Chemical DNA Blueprint** and the **physically manifest body form**. As this occurs the **body image "flashes on"** into manifestation as a **Pulse of Life Force Consciousness** carrying the **Chemically Translated Holographic Image** of the body form template blueprint. This Pulse of Consciousness continues to expand from the Kathara Grid and DNA via the Transduction Sequence, through and beyond manifestation of the body image and into **projection of portions of the Dimensional Unified Field** that **holographically translate** into **individualized experience** within a perceived **Common Planetary Time Rhythm and Matter Field.**

NOTE: ***An individual will holographically perceive and experience only the portions of the Dimensional Unified Field mathematical-geometrical program that are encoded within the personal Maharic Shield, species Tribal Shield and Planetary, Galactic and Universal Shield aspects of the personal Kathara Grid and DNA Template.***

A **global population** experiences a **common planetary reality field and time continuum** because the Kathara Grid Template and DNA of all beings entering a planetary field **adopt the common imprint** of the mathematical-geometrical program of the **Planetary Kathara Grid** blueprint in order to enter into the electromagnetic domain of the Planet's Form Constant Hova Body structure for experiential manifestation. Members of a **singular species** share a common **species Tribal Shield** template through which a **common Chemical Body Form** and perceptual orientation holographically manifest. The imprint for **individuality** in biological form, life experience variation and the application of **Free Will Choice** is held within the mathematical program of the **personal Maharic Shield** D-12 Pre-Matter **Divine "Christos" Blueprint**. Imbued within the mathematical program of the **Human species Tribal Shield**, and that of some other species, is the imprint for **probability** to exist. The Human species Tribal and Maharic Shields carry a program that allows for **new programs of probable creation** to be **added** to the personal and species **Kathara Grid**, allowing the embodied consciousness to retain a **degree of direct influence** over what sets of mathematical programs will be called into personal experiential Holographic Expression from the personal Maharic Shield Template. **Creative variation** on the original personal, species, planetary and galactic Divine Blueprint is possible as long as the new probabilities do not deviate so excessively from the Pre-set programs and **Original Intentions** of the Universal Divine Blueprint that the **structural integrity** and **Source-God Will Intentions** for our Time Matrix become **irreparably compromised. Free Will thus exists within a pre-set framework of overriding Divine Will**, and is permitted free reign in the manufacture of **co-creative experiential probability** up to the point at which the Original Divine Will of Source and the creative framework itself become unduly jeopardized.

8. The physical body form serves as a **Chemical Lens** through which ***portions*** of the **Dimensional Unified Field** are perceived by the embodied consciousness as a **3-dimensional Hologram,** as the Primal Life Force Currents continually carry **pulses of the Individuated consciousness** through the ***Transduction Sequence*** from Kathara Grid, through the DNA, to the manifest Chemical Lens of the physical body structure and Holographic "external" reality field projection.

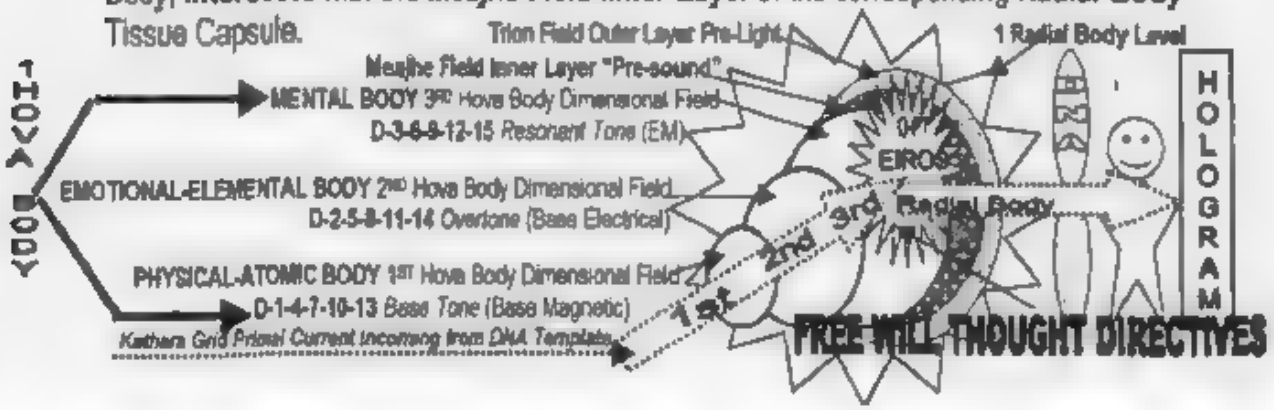
9. As a Keylon-Thought-Form blueprint traveling on one Pulse of Consciousness **fully expands** (fully "Activates") into the manifest externalized hologram, **another Pulse of Consciousness** is released from the synchronized mathematical programs of the Planetary Merkaba Field, which sets the Transduction Sequence in motion (initiates) for the ***next portion* of the personal mathematical blueprint.** The blueprint of the **Planetary Kathara Grid** regulates the **cyclic rhythms** at which **Pulses of Life Force Current** will be released through the **Planetary Merkaba Field**: the Planet releases **"Pulses of Time"**

NOTE: The linear time experience of life forms on a planet is synchronized into specific singular continua and cycles of time through the *DNA Template*: the species Tribal Shield, personal Mahanic Shield and DNA Template are imbued with the exact mathematical programs of the specific *Planetary Time Cycle* and Continuum or "Time Wave" into which the consciousness intends manifest embodiment. A singular *Time Wave* constitutes a *Time Continuum* within which there are specific repeating cycles of progressively accelerating *Pulses of Time* that collectively form the linear time-progression continuum of a *Planetary Time Cycle*.

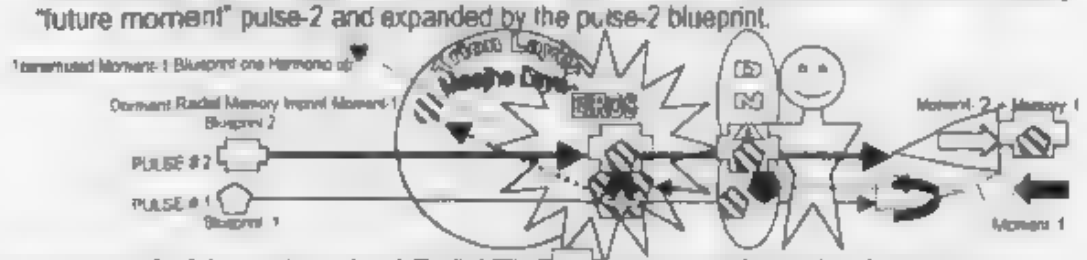
10. As one **Pulse of Time/Consciousness** brings its blueprint into manifest **Critical Mass Expansion** (fully activates specific portion of the blueprint in Holographic Expression), the Planetary Merkaba Field releases the **next "incoming" pulse** of Time, which carries the next portion of the Kathara Grid mathematical blueprint into the Transduction Sequence. As the new Pulse enters the Transduction Sequence and begins **Expansion** toward manifestation, the **first pulse** of the **fully expanded hologram** begins **Contraction**, entering a **back-return** through the **Reverse Transduction Sequence** (matter- *chemical* DNA-*Sub-Atomic units*- Radis *Mon/Dion units*- Radial Body *Trion -Meajhon units*- Meridian Line-Chakra-Auric Field-Hova Body-Axon Line-DNA Template-Merkaba Field-Morphogenetic Thought-form Field *Keylon Grids & Units*- Mahanic Shield Template & Kathara Grid *Partika and Particum Units*- Planetary Merkaba Field *Partia Units*)

11. As **pulse-1 contracts** its hologram program **moving backward** through the Transduction Sequence, creating the **"Remembered Past" moment**, the **pulse-2** simultaneously **expands** its hologram program **moving forward** through the Transduction Sequence, birthing the as-yet-to-come **"Future" moment.** The backward moving **"Past" pulse-1** and the forward moving **"Future" pulse-2 Intersect** at the **Radial Body Levels** in the Transduction Sequence. This **"past pulse-future pulse intersection point"** is called the **Eiron** (E'r-on) **Point**, also known as **"Zero Point"**, the **"Present moment of conscious focus within the hologram"**, or the **"Eiros** Conscious, Breathing Life-Force Stream" (Also referred to as the "Stream of Consciousness", the "Living Holy Spirit" or the "Breath of God" ,etc.).

12. The *Eiron/Zero Point*, or **Eiros**, is the **"Present Moment of Creation Power"** for the "manifest" conscious identity. It exists at the position where the **third dimensional field,** the electromagnetic **Resonant Tone "Mental Body"** field of a single 3-dimensional Hova Body, **intersects** with the **Meajhe Field Inner Layer** of the corresponding **Radial Body** Tissue Capsule.



13. As the backward moving **"Past" pulse-1** and the forward moving **"Future" pulse-2 intersect** at the Radial Body Meajhe Layer **Eiros** (Eiron Point) the returning **contracting pulse-1** passes through the Trion Layer and into the ***Meajhon blueprint replica,*** called a **" Radial TILE"** that it **left behind** in the Meajhe Layer **Eiros** during pulse-1 s **incoming** passage. Just as the returning pulse-1 retreats back through its Radial Tile, the **incoming pulse-2**, carrying the **next blueprint** coding **,simultaneously** passes through the **first Radial Tile, combining** the **"past" Radial Tile** mathematical-vibrational blueprint with the **incoming pulse-2 blueprint** At this moment-point, the hologram template from the "past moment" is adopted by the incoming "future moment" pulse-2 and expanded by the pulse-2 blueprint.



14. As pulse-2 picks up the pulse-1 Radial Tile the **retreating pulse-1**, which now **holds the Radial Tile blueprint in *reverse mathematical sequence* as *TRION Pre-light Units*** , collides with the incoming pulse-2. Both pulses carry the **common blueprint** of the first Radial Tile: the **incoming pulse-2** holding the blueprint in **forward** mathematical sequence as ***Meajhon Pre-sound Units*** the **retreating pulse-1** holding the blueprint in **reverse mathematical sequence** as ***Trion Pre-light Units*** . As the expanding/advancing and contracting/retreating pulses collide with blueprint **"sequence and anti-sequence",** the pulse-1 reversed **Trion Radial "Anti-Tile" fuses** with the original **Meajhon Radial Tile** and both Radial Tile and Anti-tile **completely de-manifest** or ***"Ascend"*** from their original Harmonic Universe by **TRANSMUTING** to become a ***Merkaba Field*** The **energy/ consciousness** once held by Radial T ile/Anti-tile then **replicates** its original blueprint via **Fission,** leaves a **dormant "Memory Imprint"** *Meajhon replica* in the Radial Body ***Meajhe Field,*** and **reappears** in faster oscillating form within the corresponding **Hova Body Form Constant** of the next Harmonic Universe up in the dimensional scale.

15. As transmutation of the "past" Radial Tile occurs in the Radial Body Eiros, the **incoming pulse-2** is momentarily held **static** as it leaves a **new Radial Tile** in the Meajhe Field, the new Radial Tile holds the **pulse-1+pulse-2** program. At this moment-point the **entire** externalized **Hologram** literally **"Flashes Off"** and de-manifests its energy **held in suspension** within the **Radial Body** Trion/Meajhe Field. When the first Radial Tile is transmuted the incoming **pulse-2,** carrying an **expanded imprint of the first Radial Tile,** progresses from the Meajhe Field Eiros to Trion Field then begins to **"Flash On"** its blueprint in manifestation. The embodied self perceives a **"Inner moment progression";** the ***pulse-1***program becomes **"memory"** of the **"Past"** moment, ***pulse-2*** the **"Present".**

The Radial Body, Mechanics of Manifestation, Healing and Human Potential

There is much more to be revealed regarding the subject of the *Mechanics of Manifestation*. Our introduction to the ***Radial Body anatomy***, the ***Transduction Sequence*** and the ***Mechanics of Manifestation*** represents a beginning in the quest for genuine mastery over the manifest experience. In this *Kathara Level-2 Introduction* we will **not yet address** the highly pertinent aspects of *Manifestation Mechanics* that pertain to **direct Creation of matter and events** through **Conscious Thought Projection** and applied personal **Will Intention**, nor will we yet investigate the complex realities of **Space-Time Travel**, **Star Gate Passage** and the **Spiritualized-science of Ascension**. All of these subjects and more are *intimately intertwined* with **personal healing** and the **Imprint for Health, attaining mastery** over Manifestation Mechanics and the Bio-Spiritual processes of genuine **Spiritual Actualization**. All of these abilities, and many others too numerous to mention, presently exist as **dormant evolutionary potentials** for the Human species, potentials that were once, long ago, fully actualized and commonly expressed. The ***Kathara Bio-Spiritual Healing System*** represents a body of Master teachings that focus upon the manifestation and maintenance of **Holistic Health through Bio-Spiritual Mastery and Spiritual Actualizaton**. Exploration of subjects such as ***Merkaba Mechanics***, ***Manifestation Mechanics*** and the ***Radial Body Trion-Meajhe Field*** is an intrinsic part of furthering our abilities to embody and practice the ideals of Healing and Health through Holism.

Before we can begin to actualize the exciting potentials of freedom, love, power and knowledge that await Human re-discovery, we must first focus upon **healing the obstacles** that have long stood in our way of actualizing true Human potential. Our study of *Merkaba Mechanics* in this *Kathara Level-2 Introduction* has included a *necessary introduction* to **Manifestation Mechanics** and **Radial Body Anatomy**, the greatest physical and spiritual difficulties presently facing Humankind emerge from a **HIDDEN ILLNESS** that has held our species hostage within a progressively deteriorating, **unnatural Mortal body form**. The **underlying cause of ALL Human Illness** is an **unnatural genetic mutation** that manifests THROUGH the **DNA Template** and **chemical DNA**. The **Casual Element** of this species genetic deviation from its original Divine Blueprint can only be found through study of the 15-Dimensional Anatomy, ***Primal Life Force Currents***, ***Kathara Grid***, ***Meharic Shield***, ***Merkaba Field***, ***DNA Template***, the ***Radial Body*** and the intimate interplay that perpetually exists between these interwoven systems. It is precisely this ***species genetic deviation***, which has progressed and increased for over **200,000 years**, that has kept Humanity bound to a finite, limited world, unable to express the potentials

that once existed as our birthright. Though the problem of this species "Internal Illness" is multi-faceted and highly complex, the **Soul-U-tions** through which progressive healing of the Human genome can be rendered are relatively simple. The **Soul-U-tions for healing** and restoring health to our species, and ourselves, **require familiarity with basic Kathara Grid, Manifestation Template, Radial Body, DNA Template and Merkaba Mechanics.** These are the elements of our 15-Dimensional anatomy within which the **Casual Element** of our genetic deviation is held, and thus these are the elements of our anatomy through which the **most rapid and permanent Healing Solutions** can be rendered.

In the following pages we will continue our investigation of the ***Transduction Sequence and the Miasmic Body***, in order to **identify** the regions of our 15-Dimensional Anatomy in which our hidden genetic mutations are created, stored and perpetuated. Once we can identify the regions in which the greatest healing is needed, we can then directly employ appropriate remedial measures. Working with the **Core Kathara Grid and Maharic Shield Divine Christos Blueprint** to reset the Imprint for Health (Kathara Level-1), while **simultaneously** working with the **elements of our anatomy within which the most significant remedial measures are needed**, will allow us to use Divine Blueprint technology to implement **expedited healing.** In this *Kathara Level-2 Introduction* we will examine the *Transduction-Manifestation Sequence* and how it's present **malfunction** creates the **Miasmic Body**, which creates the DNA Template distortion through which our **chemical DNA mutation**, and a phenomenon known as the "**Phantom**" or "**Shadow" Self** is brought into being within our manifest hologram. We will then continue our exploration of **Merkaba Mechanics** and **Radial Body Healing** applications, to discover the "**Secrets of the Veca Codes**", and Photo-Sonic and Photo-Radionic Radial Body Healing technologies, through which our Kathara and Merkabic Healing applications can be tremendously intensified, amplified and expedited.

⊘ **Miasms block energy flow and create a "Phantom-Shadow Self" running on opposite mathematical program; blocks natural energy flow.**

- The Personal ***Radial Body*** or Trion-Meajhe Field is composed of **5 Hova Body Capsules** that manifest as electromagnetic barriers or **"frequency fences"** between each set of 3 DNA Strand Templates, each set of 3 associated Axiom Lines, Chakras and Meridians and between each 3-dimensional layer of the Aunc Field and corresponding level of personal multidimensional identity
- Each of the **5** 3-dimensional **Harmonic Merkaba Fields** corresponding to the *5 Hova Bodies* of 15 Dimensional Anatomy *govern the function* of the corresponding **Dimensional Merkaba Fields**, **Radial Body level** and its imbedded **Memory Matrix**, via the mathematical program held in the personal Kathara Grid, Shields and **Crystal Body** template. The Kathara Grid program is passed from the **Keylontic Crystal Body** into the **DNA Template** via the **Dimensional and Harmonic Merkaba Fields** and the "mini-Merkaba Fields" of the Level-3 Kathara **Diodic Grid.**
- Each Hova Capsule **Radial Body level,** receiving its instructions from the DNA Template and 3rd dimensional Mental Body Hova Body level, in turn governs the function of the **chemically manifest DNA** and all body-consciousness systems that are built upon chemical genetic code
- The **Harmonic Merkaba Field** governs the **particle spin axis** (Angular Rotation of Particle Spin) ratios of the energy units that make up its corresponding 3-dimensional system. Each **Harmonic Merkaba Field** corresponds to one **Hova Body**, one set of **3-dimensions** and the Matter Density Level characteristic of that 3-dimensional system. Each Hova Body, and thus each Harmonic Merkaba Field Level and Radial Body Level, correspond to one set of **3 DNA STRAND TEMPLATES** within the Human12-Strand Template.
- Full activation of **one Harmonic Merkaba Field** creates reciprocal activation of the corresponding **set of *3 DNA Strand Templates***, which creates embodiment of corresponding levels of identity and consciousness (personality, Soul, Over-Soul, Avatar, Rishi etc). When one Harmonic Merkaba Field fully activates through natural activation of the corresponding **Shields** and **Crystal Body Keylons**, the Harmonic Merkaba Field becomes capable of **merging** with the Harmonic Merkaba Fields from other Density Levels, in a process frequently called **Transmutative Dimensional Ascension**

- During the process of "**Ascension**", (also called "space-time travel", "wave-riding", "Star Gate passage", "Teleportation" etc.) the **Harmonic Merkaba Fields** of more than one Density Level merge, progressively shifting the **two or more different sets of 3-dimensional particles** into a **common particle spin axis angle and spin speed**. The corresponding **Axiom Lines, Hova Bodies, Auric Field levels, Chakras, Meridian Lines** and **Radial Body Levels** also merge.

- When Harmonic Merkaba Fields, and their corresponding Inner Templar anatomy, merge, the **Fire Codes** between the corresponding **DNA Strand Templates activate, causing the DNA Strand Templates to merge,** which creates a reciprocal reaction called "**DNA Strand BRAIDING**" between corresponding **chemical DNA strands**. (The "Double Heli" configuration of "one strand" remains, as the chemical components of each strand overlay together to become a single Double Helix containing the chemical programs of multiple DNA strands.)

- When the **Fire Codes** between strands in the DNA Template activate, dormant sequences of chemical DNA called " **Transient Turnstile DNA Sequences**" "turn on" within the **Hydrogen Bonds** that link each DNA "Ladder Rung" together, producing a **transient trans-harmonic element** called **Celestalline** within the chemical DNA.

- Natural Braiding of the chemical DNA strands and activation of the chemical Turnstile DNA Sequences create a series of **sub-atomic bio-chemical DNA responses** that allows for Internal **Atomic Particle/Anti-particle Fusion** and **Fission. Natural Internal Atomic Fusion-Fission** enables the manifest atomic structure to temporarily de-manifest, returning to "*spirit form*", by re-entering the electrostatic **Trion-Meajhe Field** of the corresponding **Radial Body Levels.**

- During the Ascension process, the Harmonic Merkaba Fields of **2 or more Density Levels** merge, forming various **PHASES of Merkaba** activation that create a **Trans-Harmonic Merkaba Field** that is called the **Merkaba VEHICLE.** The 3-Dimensional **NETHRA Phase** Merkaba Field of Density-1accelerates in rotation speed to become the 6-dimensional **HALLAH Phase**, 9-Dimensional **Quatra Phase**, 12-Dimensional **Mahunta Phase** or 15-Dimensional **Rahunta Phase** Harmonic Merkaba Vehicle.

- As a phase of the Trans-Harmonic Merkaba Vehicle activates, the corresponding lower-dimensional **Hova Body and Radial Body Level dissolve**, their content of energy and consciousness **expanding** into the next Hova Body and Radial Body Level, forming a **Trans-Harmonic Radial Body "FORM CONSTANT"** within the **Merkaba Vehicle.**
- The Trans-Harmonic Radial Body and Merkaba Vehicle allow the consciousness and biological form to "de-manifest" from the lower dimensional Density Level. The identity can then **re-manifest** in another Density Level or space-time coordinate by projecting itself into the desired location, AS the *electrostatic* ***Trion-Meajhe Field*** **Trans-Harmonic Radial Body,** then returning the DNA Template activation level and Harmonic Merkaba Spin ratios to that of the new location for re-manifestation.
- When the Personal **Merkaba Field** is used to form the **Trans-Harmonic Radial Body** in the process of Ascension, the Merkaba Field is called a **MERKABA VEHICLE.** A ***Merkaba Vehicle*** is an electrostatic **Trion-Meajhe Field** of Primal Pre-Light-Sound through which the consciousness (AKA "spirit") can move itself, *and its atomic structure*, through **thought-projection**, to a desired location beyond the "veils" of the Planetary, Galactic and Universal Hova Capsule-Radial Body-Form Constant barriers.
- Conscious mastery of the Personal Merkaba Field, through which the organic **internally created Merkaba Vehicle** Trans-Harmonic Radial Body becomes available for conscious direction, implies **conscious control of DNA Template function.** The potentialities of **genuine Ascension** (etc...) and mastery of Bio-Spintual Consciousness are **inborn attributes** of the Human 12-Strand DNA Template. Due to a **species de-evolutionary genetic mutation** that compromises natural function of the Personal Merkaba Field and DNA, the reality of Ascension on a species level has been lost to all but a few on Earth for over 200,000 years (re: Masters Templar Coursebook).
- The potentials of **Bio-Spiritual Actualization** CAN be returned to humankind through **reverse-mutation** of genetic dysfunction within the human genome and DNA Template. Healing the genetic template can be achieved by **manually employing** specific practices of **Kathara "Maharic Shield" Core Template Dynamics** in **combination** with **Harmonic Merkaba Mechanics** through which the many eons of biological miasmic distortion can be progressively and rapidly cleared from the Personal Kathara Grid and DNA Template.

- Restoration of the D-12 Pre-matter Divine Blueprint within the Human Kathara Grid and DNA Template will eventually **free the Personal Merkaba Field** for use as a **Trans-Harmonic Merkaba Vehicle.** Kathara Healing applications, and use of the D-12 Pre-matter Maharata "Christos" Current to reset the biological D-12 Pre-matter Divine Blueprint, are the beginning steps in reclaiming Bio-Spiritual Mastery.

- The function of the personal **Merkaba Field** and **DNA Template** are not only associated with abilities of **Atomic Transmutation** and **Dimensional Ascension**, they are directly linked to **every aspect of body-mind-spirit function**, including **biological longevity** and **health, memory, intelligence,** and **metabolic, chemical, mental** and **emotional balance** and stability.

- Most significantly, the **Merkaba Field/DNA Connection** is the Bio-Spiritual conduit through which the consciousness of an embodied individual is directly linked to the common Perpetual Force of Energy and Eternal Source of Intelligent Creation that is "**God**".

- When a being's Merkaba Field and DNA Template are functioning upon the innate program of **Universal Primal Order**, as it is held within the Pre-matter **Universal Divine Blueprint** of the D-12 "Christos" Liquid-Light field, the natural and perpetual supply of **Primal Life Force Currents** and "spiritual" consciousness emanating eternally from Source-God, flow through an open energetic channel or "**Pillar of Light**", which is called the "Um Shaddai Ur" (Pillar of First Cause Light-Sound') into the manifest embodiment. Such a being is called a "**Christed Being**". This implies that the integrity of its original D-12 Pre-matter Divine Blueprint has not been structurally compromised, and thus the perpetual Life Force Currents, consciousness, sentience, intelligence, wisdom, power, Will and LOVE of Source can freely express through the Um Shaddai Ur, into the manifest hologram of the Time Matrix through the Christed embodiment.

- If the Kathara Grid, DNA Template and Merkaba Field of a being are damaged, and no longer carry the **original mathematical-geometrical program** of the **D-12 Divine Blueprint** through which the being entered space-time, the flow of Primal Life Force Currents, the Um Shaddai Ur Pillar and thus the active consciousness connection to God will be distorted, reduced or severed at the dimensional level to which the template distortion corresponds.

- A manifest being incapable of running the Primal Life Force Currents of the Um Shaddi Ur "Pillar" becomes **biologically finite**, its consciousness "trapped in the Time Matrix", even following death of the physical body. According to the **natural Laws of Creation Physics** as set by Source-God, this condition of **finite mortality** will remain until the being's **Kathara Grid Template and Merkaba Field connection** to the D-12 **Universal Divine "Christos" Blueprint** and Universal Trion-Meajhe Field Um Shaddi Ur Pillar is restored.

- Healing Core Template genetic distortions that are severe enough to cause dysfunction of the Personal Merkaba Field first require **resetting of the D-12 Divine Blueprint** through activation of the **Personal Maharic Shield.** Until the Body-Mind-Spirit system has reached a **Critical Mass** of D-12 Divine Blueprint holding through frequent and progressive manual running of the D-12 Maharata Current, healing Core Template genetic distortions **also requires** simultaneous, direct and repeated **manual realignment and restoration** of **Personal Merkaba Field function** and **Radial Body Trion-Meajhe Field** integrity.

- If there **are distortions within the Kathra Grid or DNA Template** of an individual or species, the Personal Merkaba Fields will not function in harmony with the **natural energy circulation rhythms** of the **Planetary, Galactic, Universal** and **Time Matrix Merkaba Fields** and Universal Kathara Grid. Such Kathara Grid distortions create tangible **genetic and consciousness mutation** within biological organisms, and can divert the **intended evolutionary destiny** of an embodied consciousness or species on to a divergent path of **de-evolution and consciousness fragmentation** unintended by the original plan encoded within the D-12 Pre-matter Christos Divine Blueprint.

- Distortions with the DNA Template and resulting **Miasms** can be purged through **manual resetting of the D-12 Pre-matter Divine Blueprint,** via repeated manual activation of the Personal **Maharic Shield** The activated Maharic Shield runs the Density-4 D-12 **Maharata Primal Life Force "Christos" Current** through the Kathara Grid and form embodiment, progressively resetting the original mathematical coding of the personal Divine Blueprint within the Kathara Grid and DNA Template. Use of the **Maharic Shield techniques** in *Kathara Level-1* sets this process of **Core Template Regeneration** in motion.

- The Core Template "Divine Blueprint" healing process can be expedited through applied **Christos-Merkabic Healing Mechanics** such as the ***Tribal Shield Activation*** (Technique-7), ***Merkaba Salutation*** (Technique-8), ***Merkaba Trinity Key Induction*** (Technique-9) and ***Kee-Ra-ShA Activation Sequence*** (Technique-12).

- Divine Blueprint Healing can be expedited further through **manual restoration** of the personal Trion-Meajhe Field **Radial Body** and its inherent **Memory Matrix. Radial Body Healing,** when **combined** with ***Kathara Maharic Shield*** and ***Christos-Merkabic Healing*** dynamics **is** the most powerful and rapid Holistic Healing technology available.

- **Radial Body Healing** dynamics, which also serve to progressively restore the organic **Memory Matirx**, involve use of the specific **mathematical programs** that govern formation of the **Radial Body Trion-Meajhe Field.** These mathematical programs are called **VECA CODES.**

- **Technique-10** ***Restoring the Trion Field-Photo-Radionic Healing*** **and Technique-*11Restoring the Meajhe Field-Photo-Sonic Healing,*** provide introduction to **Radial Body Healing Mechanics.** Use of these techniques, in **combination** with **Technique-2** ***The Maharic Seal and Liquid Light Cleanse,*** and **Merkabic Healing Techniques 6-12, will greatly expedite** the personal healing process while **significantly increasing** the body-mind-spirit abilities to **receive, hold/sustain and transmit greater quantity and quality** of interdimensional frequency in the Client Healing Facilitation process.

Radial Body Healing, the VECA CODES, DNA and Merkaba

- Veca Codes, also called the "I AM" or "**Immanuyana Sequence**" are very specific **SYMBOL CODES**, each possessing corresponding **Sound Tones** called ***Arieas*** and **energy movements** called ***Seurias***, which correspond to the Cosmic, Universal, Galactic, Planetary and Personal **Trion-Meajhe Field Radial Body Levels**.

- There are **5 categories of Veca Codes**, the Planetary **Low-Veca *Codes of Manu*** (Taurenic-Akashic Codes), the Galactic **Mid-Veca *Codes of Immanu*** (Akashic-Eckashic Codes), the Universal **Level-1 High-Veca *Codes of Immanuel*** (Dolaric-Rishic Codes), the Cosmic **Level-2 High Veca *Codes of Immanuyana*** (Triadic-Polaric-Eckatic Codes) and the God-Seed **Yunasai *Codes of Eckasha*** (Source Codes).

- Beginning applications of Veca Code Radial Body Healing begin with restoring the Trion-Meajhe Field Radial Body through resetting the ***Yunasai*-Eckasha and High Veca *Immanuyanas* and *Immanuel* Codes**, through **frequent manual Direct Induction** of the their corresponding **Symbol Codes** and **Sound Tones/Arieas**.

- The most powerful **Yunasai-Eckasha Codes** are **PHOTO-SONIC Codes**, carrying the Mathematical Programs of the ***Khundaray Current*** Primal Sound ***Meajhe Field*** AND their bridging **God-Seed vibration-rhythms** connecting to Source. The **Level-2 *Immanuyana*** and **Level-1 *Immanuel* High Veca Codes** are **PHOTO-RADIONIC Codes**, carrying the Mathematical Programs of the Trion-Meajhe Field **Khundaray Primal Sound** AND **Kee-Ra-ShA Primal Light Currents.**

- **Consistent use** of **Veca Code Radial Body Healing**, in combination with **Merkabic and Kathara Healing** applications, will progressively **clear the Miasmic Body** and heal, balance, re-integrate, and restore the Divine Blueprint within, the energies of the **Phantom-Shadow Self** in all levels of the Body-Mind-Spirit system.

- More advanced applications of Veca Code technologies include use of the **Mid-Veca *Immanu*** and **Low-Veca *Manu* Codes,** and the corresponding ***Seurias*** (body movements to direct frequency), following a period of initial induction and activation of the Yunasai and High Veca Codes. Full Spectrum Veca Code technologies are introduced in the "***Dance of Life***" Masters Spiritual Development Program.

- **Induction,** or **IMBEDDING** of the High Veca Codes into the 15-Dimensional Anatomy involves placing the corresponding **Symbol Code Sequence** (mathematical program) over the **regions of the physical body** that correspond to the appropriate aspects of the Kathara Level-2 **Crystal Seals Grid** and Level-3 **Diodic Grid.** Once the Symbol is in place, the **breath** is used to direct **D-12 Maharata Current** through each **Symbol Code** and **body region.** Use of the **Maharata Current** "carrier wave" (via **activation of the Maharic Seal/Shield**) is **required** to **induce** the code's **mathematical program** into the **Diodic** and **Crystal Seals Grid,** where the program will then naturally transfer into the corresponding areas of the **Level-1 Kathara 12-Tree Grid** core template.

- Once the High Veca and Eckasha Code Sequences are Imbedded/induced into the Level-1 Kathara Gnd, they are then **Activated** in the Kathara Grid by **TONING** the corresponding **Veca Code Ariea Sequence**. The longer toning is sustained, the greater will be the quantity and quality of Veca Code Activation.

- Once Activated, the Veca Code programs travel upward through the stages of the **Transduction-Manifestation Sequence** from the **Kathara Grid**, to the **Shields**, into the **Keylon Crystal Body Morphogenetic Field,** then into the **Merkaba Field**, **DNA Template** and **Hova Body/ Radial Body Levels**, temporarily restoring the **Christiac Merkaba Field**, **Radial Body** and **Memory Matrix Divine Blueprint**. **Frequent and continued use** of the Veca Codes will progressively build **Critical Mass** of the **Divine Blueprint program simultaneously** within **ALL levels** of the 15-Dimensional Anatomy, eventually culminating in expedited full restoration of the D-12 Maharic Shield blueprint within the Body-Mind-Spirit system, via the Radial Body Trion-Meajhe Field.

- Activation of the Yunasai and High Veca Codes within the personal body **prior to conducting a Kathara Client Healing Session** will cause the facilitator's **Level-3 DIODIC GRID to activate**, temporarily **transmitting Veca Code sub-harmonics.** This will cause the **minute Diodic Chakras** in the facilitator's **FINGER TIPS** to activate **if the Palm Chakras** have been activated with either pure **Maharata Current** or a selected **Triadic Phase Current.** The facilitator will then **automatically transmit** Veca Code sub-harmonics into the client's **Diodic Grid** while conducting general Kathara Healing applications, allowing the client to benefit from temporary **Radial Body healing support**, which will **amplify the effects** of all healing applications.

- A more **Temporary Imbedding and Activation** of the Veca Code program can be achieved through **OPTICAL-PINEAL INDUCTION**, whereby the **eyes** are focused for a time upon the **Image** of the **Symbol Code.** The mathematical Veca Code program enters the **Pineal Seals** through the **Optical Currents** and **6th Chakra**, an then travels for Imbedding/induction through the **Central Vertical Current** into the body regions and Crystal Seals Grid areas to which the Veca Code corresponds. The **Veca Tones/Arieas** are then used to Activate the Imbedded Veca Code Sequence.
- In **Optical-Pineal Induction**, the Veca Program looses a bit a **frequency charge/ strength** during is travel in the Central Vertical Current. This creates a **more temporary imbedding and activation** of the Veca Codes than that which is achieved through Direct Induction. Optical-Pineal Induction is useful for **daily amplification** of the Vecas, and for Kathara Healing Client Sessions and planetary grid "site work", when used in **combination** with the **full induction procedure** employed at least **once per week**.
- To receive **full benefit** of **Veca Code Radial Body Healing** applications, **Technique-2** ***The Kee-Ra-ShA Activation Sequence*** should be fully run at least **ONE TIME**. *Technique-2* can also be used occasionally thereafter if desired to create **intensification and amplification** of the Primal Life Force Currents during Kathara, Merkabic and Veca Code Healing technologies.
- Frequent use of **Technique-13: The "Song of Lyra"** Christos Invocation will amplify all Kathara, Merkabic and Veca Code Radial Body Healing applications.

Restoring the Trion Field-Photo-Radionic Healing

Regular use of this technique will strengthen and improve RRT Planetary healing Applications (excerpt from Kathara Level-2)

Creating a Personal Bio-field Link to the Universal Christos-Trion-Meajhe Field

Masters Merkaba Mechanics

© 2001 Ashayana and Azurlanya Deane

Exercise-1: Once per day do **Maharic Insta-Seal** then practice **each set of Veca tones** separately while fixating **visual focus** on corresponding **Veca-Code** symbol spend at least **three or four minutes** gazing at each symbol (optical-pinea induction) while **toning** corresponding tones (core template vibrational induction) With practice this will progressively expand the personal consciousness while activating the personal Christos-Trion-Meajhe Field of your Christos-Rishiac-Ascended Master identity levels within the cellular structure.

Exercise-2: Once per week directly after completing **Exercise-1**, place all Veca-Code symbols over designated body areas, activate Maharic Shield breathe **D-12** Maharata Current through each symbol and body area to **induce code** using the **Bi-Tri-Khu-Dha-Ra Sequence** then begin **toning** the corresponding tones following the Bi-Tri-Khu-Dha-Ra Sequence. Memorize the tone sequence of the 5 high-Veca codes as if it were a **"song"** and relax, close eyes and sing/tone this "song" (Psonn) for **5 to 10 minutes**. The longer you tone the more frequency power you build within the body and the stronger your link will be to the Universal Christos-Trion-Meajhe Field. This exercise can also be used with groups, either singularly to create and amplify Christos-Trion-Meajhe Field links or just prior to beginning RRT work. Frequent and consistent use of these two exercises will progressively develop the spin-rate capacity of the personal Christos Merkaba Field, while expanding higer consciousness within the body and progressively enhancing the health immunity and integrity of the Mind-Body-Spirit system.

Technique # 11

Restoring the Meaphe Field-Photo-Sonic Healing

1 **Use Technique-6** ***The Maharic Quick Seal*** to activate your Maharic Shield Seal and Maharata Current.

2 **Stare at image** of the **Eckasha Code** for a few seconds then gently begin to **"Cross Eyes"** until you can see a "**Double image**" of the *Eckasha* when looking at the image. **Hold " Eye Cross"** focus while taking **three rapid breaths** on each **EXHALE** projecting **a stream** of (D-6) **INDIGO current** from your 6th "3rd Eye" **Chakra** at forehead. (This braids D-6 Optical Currents into a D-12 Current to carry the Eckasha program into the Pineal Seals). Un-cross eyes, relax visual focus and close eyes for a moment or two.

3 **INHALE** several breaths of **Pale Silver D-12 Maharata Current** up from the **Earth Core** through your **Maharic Cord**, on each **EXHALE** depositing the Maharata Current in the **Pineal Gland** at the center of the brain, to form a Pale Silver **"Maharata Ball"** in the Pineal.

4 Breathe gently and **return visual focus to the image of the Eckasha focusing** upon the **Eckasha Core** ***REUCHE'*** (the "Double Circles and their content at center of Eckasha).

5 **EXHALE** while projecting **a stream of INDIGO current** from the 6th **Chakra** at forehead, into the **REUCHE** symbol before your eyes. **INHALE** while drawing the **INDIGO current stream** with the **REUCHE image at its end** back through the **6th Chakra** and into the **Maharata Ball** in the **Pineal.**

6 **INHALE** one more breath of **Maharata Current** up from **Earth Core** to the **Maharata Ball** at the **Pineal**, then use a forceful EXHALE to PUSH Eckasha-Reuche encoded Maharata Ball out to the right, to the "Mentor" position over the right shoulder. Visualize the Maharata Ball growing to the size of a "Basket Ball" over the right shoulder, and visualize the image of the Reuche as expanding to fill the inside of the Maharata Ball.

7 **INHALE forcefully** while drawing the **Maharata Ball** back to a position **centered around your head** then use **three breaths** to **INHALE Maharata Current** up from **Earth's Core to Pineal** and **EXHALE** the **Maharata Current outward** to fill **and expand the Maharata Ball.**

8. Visualize the **Maharata Ball** expanding outward from around your head until **the Maharata Ball fully encompasses your body and entire Chakra System** from **Chakra-14** 36" above head to **Chakra-13** in Earth Core. Imagine that your entire body is now surrounded by a 3-dimensional "Eckasha Tear-Drop" shaped CLEAR CRYSTAL CAPSULE. The Eckasha Code Photo-Sonic Capsule is now temporarily activated in your Inner Templar system.

- **Solar Salutations** (CW spin Top Electrical Merkaba Field Activation) **raise** the body's **Oscillation** (energy transmission-expansion), **lower** the body's **Vibration** (energy holding-contraction), making the body **Higher Frequency** and **More Electrical** (transmits more energy than it is drawing in).
- A **Higher Frequency Electrical Body** has:
  - **Lower Vibration**, Higher Oscillation/Frequency, **Less Matter Density**
  - More activated DNA Strands, more chromosomes, embodiment of more levels of consciousness.
  - **Slower** heart, breathing and metabolic rhythms (energy expansion and contraction rates),thus requires less food (burns fuel slower).
  - Greater **longevity** and **less sleep** (body can synthesize natural higher frequency energy and Stream of Consciousness for longer periods without taxing.)
  - Greater **Silica quantity** in **Silica-to-Carbon Ratio** of elemental composition and **larger size** (more space between cells; more expanded matter).
  - Perception of **expanded Space** and **slower Time** movement.
  - Greater **heat release**, thus **cooler** internal temperature.
  - Natural attribute of **transmitting** greater amounts of energy thrust into the Planetary Shields than it is drawing in/receiving from them. **Energy "giving".**

- The **Solar Salutations** "charge" the **Top Electrical CW Merkaba Spiral** to maintain its natural cycle of **33(⅓) rotations per 1 "trillionth" of a nano-second"**, through which the **Base-Electrical** systems of the body are naturally maintained.

MCEO teachings presently exist on Earth as a growing body of detailed information pertaining to the spirituality and science of creation and the history and evolution of humanity. MCEO teachings offer unique perspectives, techniques and technologies of mind and spirit that have potential to help people in the exploration and expansion of personal consciousness. Information contained within MCEO teachings represents a cohesive paradigm of ideas, beliefs and perspectives that, historically, have existed from people to people, which typically compose an alternative and inspirational point of view or world view regarding the peoples realities of spirituality, the existence of creation, the history of our universe and the potentialities of the human condition. Because popular "New Age" and "Traditional" paradigms of spiritual, scientific and historical beliefs many points of the concepts held within MCEO teachings may not be found in the framework of presently recognized spiritual/religious, scientific and traditional "facts" that can be verified through dominant contemporary scientific procedures. A Commitment to Quality and the MCEO Course-book Manuals

The authorized MCEO translators/authors, members of the MCEO, Azurite Press, Trustees, Regents Council, teachers and promoters of the MCEO Paradigm extend their greatest efforts in making MCEO teachings available for public exploration in **the most responsible and respectful manner possible,** whilst striving to maintain the **highest standards of integrity in MCEO text translation and teaching.** Intrinsic to such responsibility in presentation, authorized MCEO translators/authors members of Azurite Press Trustees, Regents Council and authorized teachers and facilitators of MCEO programs are all individuals who personally believe in the factuality of the MCEO Paradigm and who actively participate, for personal spiritual reasons in MCEO programs, including personal utilization of MCEO techniques and technologies. These individuals all share a **common commitment to achieving and maintaining integrity, quality and responsibility in public presentation of MCEO teachings;** this shared commitment arises from a commonly shared, individually held reverence, respect, appreciation for and belief in the validity of the MCEO Paradigm, its inherent teachings of personal spiritual self-discovery and the limitless potentialities of human consciousness that this paradigm suggests

On behalf of this commitment to quality, may it be understood that **MCEO Course-book Manuals** as featured within the *MCEO Kathara Bio-spiritual Healing Program, MCEO Maharata "Dance For" Programs, MCEO Masters Templar Stewardship Initiative Program* and other MCEO teaching programs, **do not represent completed books**, but rather exist as **companion text briefings** that are created in conjunction with **specific corresponding live workshop presentations** which are preserved via **audio/ video recordings** that are made available on the *Azurite Press Products List* as specific Program Sets. The Course-book Manuals that accompany some of these audio-video workshop programs **contain only the charts, graphs and most pertinent information pertaining to their corresponding audio-video program** and **do not contain the *many pages of dialogue and detailed explanation*** that is incorporated verbally within the audio-video program. Thus MCEO Course-book manuals are not intended to be used alone, but are rather intended for used as an **additional educational aid in conjunction with their corresponding audio-video workshop program.**

As new MCEO workshop materials are often released and translated during live workshop presentations, the corresponding Course-book Manuals and their inherent graphs and charts often reflect

the immediacy of the new information provided in that they are initially rendered "**in-the-rough**" often with portions of text in hand-written form not yet "perfected" for book publication with appropriate dialogue text detail typesetting computer graphics pagination and indexing As each new workshop since 1999 has introduced the next level of new, live MCEO data translations, there has been insufficient time to "move backward" and perfect the quality of production pertaining to MCEO Course-Book Manual texts from previous workshops The information and new MCEO teachings contained within each workshop program always reflect the standards of integrity and quality inherent to the MCEO Paradigm, but often timely public release of new materials is achieved at the expense of quality in product production. **The Azurite Press staff apologizes for any inconvenience that such "data-in-the-rough" may cause; however, if workshop programs were withheld from Product List release until their audio/video recordings and corresponding Course-book Manuals were "perfected" in terms of product production, it would be several years before these materials were released for public review.** As new MCEO teachings are often time-sensitive in regard to the unfolding of planetary events, especially since 2000, it has been of greater priority during this time to expedite availability of the MCEO teachings contained within the products, than it has been to demonstrate the standards of excellence in quality product production that remains a goal of Azurite Press.

For the time being, MCEO audio-video-Course-book Programs are in a **state of continued evolution,** as the small staff at Azurite Press with the assistance of numerous individuals who volunteer their time and talents, endeavor to compile dialogue transcripts and perfect typesetting computer graphics and format organization of previous MCEO workshop presentations in effort to fulfill the goal of creating "perfected" book publications that contain, and "do justice to" the vast body of quality teachings that have been presented during the 1999-2003 MCEO workshops. The commitment to achieving excellence in quality of production as well as quality of information, that is held by members of Azurite Press staff arises from the personal desires of staff members to "honor the spirit of the teachings" which they have found personally valuable, as well as from a desire to provide the best possible quality of product and service in spiritual respect to the public. Until the goal of achieving "perfected" product production quality is actualized, Azurite Press staff hopes that the public will share in the recognition that it is the **quality, and inherent substance, of MCEO information, more so than the "package that it comes in", which demonstrates the value of Azurite Press MCEO educational products.**

INTRODUCTION TO ANTHEM BIO-REGENESIS TECHNOLOGIES

COLOR, SYMBOL, SOUND AND BIO-REGENESIS TECHNOLOGIES

BIO-REGENESIS TECHNOLOGIES are tools to assist us in accelerating our expression of consciousness through natural, gentle stimulation of the personal DNA TEMPLATE, KUNDALINI ENERGIES, CHAKRAS AND MERKABA VEHICLE. Bio-Regenesis technologies are built upon the foundations of REVOLVING WAVE-HOLOGRAPHIC SCIENCE and advanced SCALAR MECHANICS, as understood by those who have evolved beyond the paradigms of current day technologies and validated by contemporary new science paradigms. Because Bio-Regenesis technologies are based upon what is viewed by modern earth science paradigms as unproven, rather than verifiable science, present Bio-Regenesis technologies are an option to achieve a manifestation.

Bio-Regenesis technologies were taught as "Common Knowledge" within the Ascension Schools of Pre-Ancient advanced human cultures and were utilized as standard practices pre-ancient time periods. Bio-Regenesis Technologies are based upon the natural laws of scalar wave mechanics. Bio-Regenesis Technologies are SPECIFIC APPLICATIONS OF CONSCIOUS ENERGY DIRECTION WITHIN THE MANIFESTATION TEMPLATE OF THE BODY that activate the activity dormant genetics of the personal Manifestation Template which allows for a natural, progressive and accelerated re-alignment of the personal ORGANIC EVOLUTIONARY BLUEPRINT of the 12th Dimensional Christ plan. Pre-matter Template. Bio-Regenesis Technologies simultaneously create cellular, mental consciousness within the interwoven energy systems of the DNA Template, Chakra System, Merkaba Field, Kundalini energies, higher dimensional consciousness and "Etheric Energy Body" anatomy.

In the Bio-Regenesis paradigm the tool that each technologies allow an individual to affect the function of the scalar wave template of the body, working co-creatively under the direction of the Individuality's own higher dimensional levels of consciousness. As the higher dimensional levels of personal identity, can access and connect with Source, greater life streams of love and wisdom, Bio-Regenesis Technologies are purposely safe and natural to the organic design of the human being. Using processes of Bio-Regenesis from the earth's conscious perspective expedites the natural procession of energy and consciousness by which the higher identity and earthly identity integrate to become one. In advanced ancient human cultures, Bio-Regenesis technologies represented a natural attribute of consciousness expansion into the realms of higher evolution and assisted biologically prepare humans for STAR GATE passages or "ASCENSION".

If we can understand that the HUMAN MIND is an energy force that CONTINUALLY GENERATES PATTERNS OF SCALAR WAVES through the process of "THOUGHT" it is not difficult to understand how APPROPRIATE, DIRECTED THOUGHT can directly influence the function of the personal Manifestation Template. Every thought we think has a unique, and distinct effect on the observable state of the mind-body-spirit system and the manifestation of events within the external Reality. THOUGHTS ARE THINGS. SCALAR WAVE CONFIGURATIONS of multi-dimensional energy patterns or BI-POLAR ELECTROMAGNETIC ENERGY RADIATION, which form SPECIFIC PATTERNS OF SCALAR FREQUENCY within the personal Manifestation Template.

Undisciplined thought creates chaotic patterns within the Manifestation Template, while thought directed through clear intention creates coherent patterns within the Manifestation Template. Thought directed with clear intention and KNOWLEDGE OF THE STRUCTURE OF SUBTLE-BODY ANATOMY is a very powerful form of SCALAR POWER. The presence of scalar energy treatments and therapy practices and the personal identification Template serves as ELECTROMAGNETIC OPERATIONAL INSTRUCTIONS within the Template, directly affecting the conditions that will be manifested and experienced. What we perceive as color is specific spectra of **LIGHT – RADIATION WAVES** that have a specific measurable **WAVELENGTH** and vibrational **ENERGY SIGNATURE**. In using the conscious mind to direct quantities of color we are **CONSCIOUSLY SELECTING SPECIFIC SCALAR FREQUENCIES** to add to the Manifestation Template. When we use the conscious mind to create images of **SYMBOLS** we are further **SPECIFYING THE ARRANGEMENT OF SPECIFIC FREQUENCIES** as they appear within the Manifestation Template. **SYMBOL FORMS** (even those that compose the alphabets of outer languages) represent **SCALAR-WAVE GUIDES**, and directly affect the contours of the scalar wave blueprint of the Manifestation Template. The Manifestation Template governs the function of the body and consciousness within the manifest experience, and so the "**Language of Scalar Waves**" is the medium through which we gain conscious access to the **CAUSAL LEVEL OF MANIFESTATION**. In using **color and symbol** to direct frequency, we are creating a pattern of energy that has a specific vibrational signature or "**TONAL SOUND SIGNATURE**" which directly interfaces with the energetic vibrational sound signature of the Manifestation Template's scalar grid.

In Bio-Regenesis technology, Color and Symbol are used to direct the **TONAL SCALAR ARRANGEMENTS** of the Manifestation Template to create natural, desired results within the body-mind-spirit system. There are many complexities within the process of conscious manifestation that one must learn to fully master the contours of space, time and matter. The beginning step is learning to give more finely tuned thought intention "**PROGRAMMING INSTRUCTIONS**" to the personal Manifestation Template. Thoughts and images rendered in external language and 3-dimensionally associated symbols affect the other layers of the Manifestation Template, but they do not provide as finely tuned manifestation instructions as do the "**scalar wave languages**" of Color and Symbol image, which direct the contours of vibrational patterns of SOUND. Mastery within the interdimensional spectrum progressively develops as one masters the core "**PROGRAMMING LANGUAGES**" of **Color, Symbol** and **Sound Vibration**.

In **MIND TECHNOLOGIES** such as **CREATIVE VISUALIZATION** and **VERBAL AFFIRMATION**, beginning skill in **SCALAR TEMPLATE PROGRAMMING** is developed through using emotionally charged images and precise sound patterns in the language to which we are accustomed, as methods to begin gaining conscious control over the processes of personal manifestation. Keyontic Science **BIO-REGENESIS TECHNOLOGIES** take us **ONE STEP DEEPER** into the manifestation process, by directly employing the **LANGUAGE OF SCALAR WAVES** and directing the **ENCODED INSTRUCTIONS** through **PRECISE LOCATIONS** within the body-mind-spirit system and the Manifestation Template upon which this system is built. Bio-Regenesis technologies take us from speaking the language of the 3-dimensional mind into speaking the intrinsic scalar-wave language of the Spirit which is the **CAUSAL ELEMENT** behind and within all manifestation.

Bio-Regenesis Technologies represent applications of Scalar Mechanics that utilize the inherent power of **SUBTLE WAVE FORMS** to create desired change within the core Manifestation Template of the body. Within the process, **COLOR** and **SYMBOL** become the **TOOLS** through which the 3-dimensionally conscious mind becomes empowered to participate in conscious co-creation with the Soul and higher dimensional spiritual portions of identity. **Color** and **Symbol** possess power as **MATHEMATICALLY ENCODED** directors of scalar frequency; the ultimate effect of this directed power is the ability to affect the scalar arrangements of the Manifestation Template. Intrinsically, scalar waves are specific points of vibrating bi-polar energy signatures. Vibration of energy units creates patterns of internal and external **SOUND** within and beyond the range of 3-dimensional detection. The Manifestation Template can be conceptualized as an **INTERWOVEN FABRIC OF SOUND FREQUENCY**, the "Silent Symphony" of personal and universal being. The tools of Color and Symbol affect the scalar-wave arrangement of the Manifestation Template, and thus alter the vibrational patterns of **SOUND TONES** within the personal blueprint. **COLOR AND SYMBOL are tools for the direction of SOUND**, and intentional application of **SPECIFIC SOUND TONES** can also be used in conjunction with COLOR and SYMBOL to further amplify one's power to interact with the Manifestation Template.

Along with the techniques of Color and Symbol direction, **TONING** or the **intentional generation of specific sounds to affect the Manifestation Template**, is also utilized in Bio-Regenesis technologies and spiritual expansion programs. "Toning Therapies" have emerged in recent years through the New Age and

Holistic healing paradigms and tools have applied for thousands of years within the practices of spiritual initiation in many religious traditions. SPOKEN LANGUAGE itself is a form of TONING, with its accompanying SYMBOLIC ALPHABET and rituals of Symbolic and Sound Toning. Our languages directly affect the personal Vibrational Template and the level of consciousness we can express through our lives. In ancient cultures, the powers of language were deified, and it was believed that they actively participated in creation and in the unfolding of human destiny. Particularly within the Priest-castes of ancient religions, language was considered a sacred tool, with sound-patterning that words, sounds and songs would directly affect the consciousness of the listener. Prayers, rituals and songs, some of which were also used as a means of altering consciousness, were practiced in spiritual development schools, where they actively assisted the individual in the exploration of possibilities.

The contemporary earth mission paradigm is only beginning to explore the powers of sacred language and the connection between sound, symbol and color as vital yet unexplored or neglected life activators. In ancient cultures, these sciences of Sacred Vibration were fully understood and utilized in the most powerful of ways. Color-Symbol-Sound technologies were not only used in Bio-Regenesis applications for personal health and consciousness expansion, they were also used among GROUPS OF PEOPLE to directly interface with the subconscious Vibrational Templates of the PLANETARY SHIELDS. We have, from Thomas, Elias Obelus, and Jesus and from many other spiritual traditions, learned that the creative Word and other light transmissions were all DIRECTED THROUGH THE FOCUSED mind utilizing knowledge of Color-Symbol-Sound Sacred Mechanics. Since the fall of ancient cultures, which came as a result of abusing the powers of these Sacred technologies, the Color-Symbol-Sound sequences once used to create massive amounts of power became the "HIDDEN AND FORBIDDEN SACRED KNOWLEDGE".

The COLORS, SYMBOLS and SOUNDS used in Bio-Regenesis techniques are not simply random stimuli. They are the [illegible] LANGUAGE OF "SCALAR BREAK" through which precise scalar frequencies are generated through specific Color-Symbol-Sound sequences to create very specific effects within the Vibrational Templates. The Bio-Regenesis technologies presently offered represent only the beginning of our remembering of the vast body of Sacred Science knowledge. Many Bio-Regenesis techniques utilizing Color-Symbol sequences and/or resonance are accompanied by a corresponding exercise in TONING. Within the applied structure between the [illegible] exercises, these Sacred Vibrational Tones are used to directly interface with the DNA TEMPLATE and the AURAL LINES of the PLANETARY SHIELD. On a personal level, through the specific series of Toning, dormant strands in the DNA, template could be progressively brought into activation, to expedite the process of SPIRIT AWAKENING. Holistic healing and polishing of the PERSONAL VIBRATIONAL VEHICLE within the bio-energetic field. On the planetary level, these Sacred Toning Sequences were used to ENERGETICALLY CHARGE the PLANETARY AURAL LINES for ELEGANCE, REPROGRAMMING AND ACCELERATING THE ACTIVATION of the PLANETARY SHIELDS. This series of Sacred Toning was collectively called "THE MUSIC OF THE SPHERES"

THE SONGS OF THE SPHERES

The MUSIC OF THE SPHERES represents the ORGANIC TONAL SEQUENCES of EACH DIMENSIONAL FREQUENCY BAND within the 13-Dimensional Time Matrix. The CONSOLIDATED CORE VIBRATIONAL SOUND SIGNATURES of each Dimensional Frequency Band. The [illegible] vibrational signatures of the 13 Dimensions in a Time Matrix. These core structures serve as the PRIMARY 13 TONAL SEQUENCES upon which each strand of the 13-Strand original human DNA Template and each AURAL LINE in the 4-Body Planetary Shields are structured. In using the Tone Sequences of the Music of the Spheres, the 13 Strand DNA Template can be PROGRESSIVELY BROUGHT INTO NATURAL ACTIVATION. Scalar-wave distortions within the Templates in the DNA Strands [illegible] previously inactive or genetic fixations, can be systematically RESTORED with the resultant effect of Dimensional ORGANIC IMPRINT. In using the Music of the Spheres, or with the Planetary Shields, each of the 24 AURAL LINES can be OPENED and BALANCED WITH THE PERFECT PATTERN OF THE

We have, from Thomas, Elias Obelus, and Jesus and from many other spiritual traditions, learned that the creative Word and other light transmissions were all DIRECTED THROUGH THE FOCUSED mind utilizing knowledge of Color-Symbol-Sound Sacred Mechanics. Since the fall of ancient cultures, which came as a result of abusing the powers of these Sacred technologies, the Color-Symbol-Sound sequences once used to create massive amounts of power became the "HIDDEN AND FORBIDDEN SACRED KNOWLEDGE".

Holistic healing paradigms and tools have applied for thousands of years within the practices of spiritual initiation in many religious traditions. SPOKEN LANGUAGE itself is a form of TONING, with its accompanying SYMBOLIC ALPHABET and rituals of Symbolic and Sound Toning. Our languages directly affect the personal Vibrational Template and the level of consciousness we can express through our lives. In ancient cultures, the powers of language were deified, and it was believed that they actively participated in creation and in the unfolding of human destiny. Particularly within the Priest-castes of ancient religions, language was considered a sacred tool, with sound-patterning that words, sounds and songs would directly affect the consciousness of the listener. Prayers, rituals and songs, some of which were also used as a means of altering consciousness, were practiced in spiritual development schools, where they actively assisted the individual in the exploration of possibilities.

The contemporary earth mission paradigm is only beginning to explore the powers of sacred language and the connection between sound, symbol and color as vital yet unexplored or neglected life activators. In ancient cultures, these sciences of Sacred Vibration were fully understood and utilized in the most powerful of ways. Color-Symbol-Sound technologies were not only used in Bio-Regenesis applications for personal health and consciousness expansion, they were also used among GROUPS OF PEOPLE to directly interface with the subconscious Vibrational Templates of the PLANETARY SHIELDS. We have, from Thomas, Elias Obelus, and Jesus and from many other spiritual traditions, learned that the creative Word and other light transmissions were all DIRECTED THROUGH THE FOCUSED mind utilizing knowledge of Color-Symbol-Sound Sacred Mechanics. PLANETARY PLASMA BEAM. Transmitting the 12th Dimensional MAHARIC SHIELD pattern directly into the Avalon Lines in the Planetary Shields is the most rapid method to stimulate the response of the PLANETARY ORGANISM throughout the 4 Density levels of the PLANETARY SHIELDS.

In ancient days, the Masters of the Universe used songs and sounds of specific geometrical frequency and resonance to program their Star Ships through the planetary Star Gates "Ascension" frequencies. The specific tone sequences for each SINGULAR DIMENSION which corresponded to the DNA Strand Templates in the 12-Strand blueprint and the numerous Dimensions of consciousness that would embody through activation of the Human race were called the "SONGS OF THE SPHERES". Each "SONG" contained very specific vibrational sounds from the 1st Dimensional Gaia Template to the 12th Dimensional Universal Template. Each specific "full spectrum" tone which generated specific Triune Blending Waves for melody, harmony and overtones. To be effective, the Songs had to be used through the HUMAN VOICE, externally or mentally as the "SINGING OF SONGS".

The Sacred Songs were sung in combination with directing specific corresponding COLOR and SYMBOL sequences through the bio-energetic field (or through the Planetary Avalon Lines for Planetary Shield work). The Songs served to "open" specific areas of the DNA Template, or specific Planetary Avalon Lines, to receive instructions directed by the Color and Symbol sequences. The tones of the Songs generated specific vibrational formations that triggered activation of codes according to sequences within the DNA Template and Planetary Shields. Activation or opening portions of the DNA Strand Templates or Planetary Shields would then cause the entire template or shield system to simply evolve. Color-Symbol-Tone wave interactions, through which Cosmic vibrations within the personal or planetary body, and within the external reality experience, could be "REPROGRAMMED" for transformation.

The SCIENCE OF THE MUSIC OF THE SPHERES was one of the most highly guarded "SACRED SECRETS" in pre-polar cultures due to the power of interdimensional freedom and conscious manifestation that could be obtained through knowledge and use of the SONGS.

Before the SONGS OF THE SPHERES will be fully released to the new race, our culture will need to undergo enough interdimensional spiritual evolution that we can begin to remember what we have been slowly returned to forever over past lives of light evolution on many Earth-Planetary Shield cycles of experience.

Dimensional MAHARIC SHIELD ORGANIC IMPRINT. One of the 12 SONGS OF THE SPHERES will be given to the Eleventh Order. The SONG is used to activate the Avalon Lines in the 9th DNA STRAND TEMPLATE, through which the process of activating the remaining 9th, 10th, 11th and 12th Strands of the 12-Strand DNA template can be accelerated, regarding the natural processes of higher dimensional spiritual body integration.

THE SONG to be used to open the 6th CROWN LINE in SAVA'S PLANETARY SHIELD to facilitate realignment of Earth's Planetary Shields from ETHERIC MATTER DENSITY-3. This SONG was given to the GROUPS can begin working directly with Melchizek, who will be directing specific Avalon Lines and Vortices in the planetary body to help bring Earth's Planetary Shield System Temporary into its organic alignment and balance. The SONG that was given is called the "Arise Khura Ma'A". The English language translation is: "THE SONG OF ORION". THE SONG OF THE 6TH SPHERE corresponds to the 6th dimensional level of the UNIVERSAL KATHARA GRID and the 6th PRIMARY STAR GATE. It also corresponds to the 6th PLANETARY AVALON LINE within the Etheric Matrix Body of GAIA PLANETARY SHIELD and to the 6th DNA STRAND TEMPLATE in the human body. The 6th Dimensional STAR GATE within the UNIVERSAL KATHARA GRID is the Star Gate that opens into the ORION STAR SYSTEM. The true name of the SONG OF THE 6TH SPHERE is "THE SONG OF ORION".

Soon the SONGS that correspond to the 11th and 12th Dimensional frequencies will be revealed. Aside from its use in planetary and body alignment, the "MANTRA" especially sung as a focus for the Arise Khura Ma'A serves to stimulate consciousness expansion into the higher dimensional fields and amplifies and expedites the effects of personal Bio-Regenetek techniques.

Attitudes & Responsibilities of Mastery

Part of the process of **Spiritual Integration** of our **Higher Selves** or **Expansion** of our **Consciousness** involves **"re-programming" the way we think**. Our thoughts create our reality and the life experience we have on the inside and the outside of us.

The following **Attitudes and Responsibilities**, when **embodied** and **"lived"**, will help to change our thought patterns, thoughts that we simply take for granted because they are part of the programming we currently carry. **Changing the thought patterns is actually changing the programming in the Personal Template.**

Twelve Attitudes of Mastery

(Introduced at the Dance for Life workshop 2002)

Study the 12 Attitudes of Mastery, make an affirmation meditation out of them, and try to make them your way of life.

1. **LOVE** - Recognition of the TRUTH of the ALL-ONE-ness.
2. **GRACE** - Allowing the ALL-ONE-ness to Be what IT IS regardless of whether it suits you. Living Perpetual Forgiveness.
3. **GRATITUDE** - Appreciating the ALL-ONE-ness; knowing your Alive-ness.
4. **REVERENT - RESPECT** - Acknowledging and giving to the ALL-ONE-ness.
5. **RESPONSIBILITY** - Co-Creating with, Serving and being able to Respond to the ALL-ONE-ness.
6. **TRUST** - Knowing the Power and Love of the ALL-ONE-ness.
7. **ACCOUNTABILITY** - Being in a state of TRUTH with the ALL-ONE-ness.
8. **IMPECCABILITY** - Upholding and Protecting the ALL-ONE-ness.
9. **MINDFULNESS** - Loving, Nurturing, and Being Attentive to the ALL-ONE-ness.
10. **FEARLESSNESS** - Recognizing the Eternal Infinite Nature and Unconditional Love of the ALL-ONE-ness.
11. **ENGAGED DETACHMENT** - Permitting the ALL-ONE-ness to BE without assigning Critique, Condemnation or Value Judgment; understanding the IS-ness of and Validating the ALL-ONE-ness.
12. **JOY** - Choosing to BE the embodied ALL-ONE-ness.

Twelve Responsibilities of Mastery

(Introduced at the Dance for Life workshop 2002)
Study the 12 Responsibilities of Mastery, make an affirmation meditation out of them, and try to make them your way of life

1 **SELF-ACTUALIZATION** Freedom from the "Victim-Victimizer Blame-Game" and willingness to be accountable for all perceivable manifestations as direct projections of intended learning from the personal Consciousness/DNA Template

2 **SELF-SOVEREIGNTY** Freedom from the need for approval from or the need to rebel against any form of "external authority" through understanding that you, as a manifestation of the God Spirit, have the ability to create personal freedom without violating the spiritual rights of others and without allowing others to violate your spiritual rights of being

3 **SELF-CONTAINMENT** Taking personal responsibility for, and realizing that at all times you are accountable for DIRECTING PERSONAL ENERGIES There is no one or no thing that "upsets you" and thus justifies or validates ANY personal spiritual misuse of reaction, idea, intention or action It is YOU who "upsets yourself" by allowing the emotional body to follow misperceptions of the mental body that tell you that your power lies outside of yourself At any given moment you can CHOOSE which words associations and ideas you will use as the filters through which you interpret an event "UPSET", "MAD", HURT" or any other category of labeling (conscious or subconscious) are all MENTAL BODY FILTERS that direct emotional and physical body function The self-contained individual recognizes that, at all times the freedom of interpretation exists, and thus a "negative" experience and its associated dis-harmonic energies of "upset" feelings can only exist as a personal interpretation of events Accepting any less responsibility for the direction of personal energies will place you directly into the Victim-Victimizer "Blame Game" which can only take place among people who are placing their personal power and responsibility for manifestation onto externalized sources Only you have the power to "upset yourself" Regardless of what others say or do you are fully entitled to your own interpretation No one or thing has the power to upset you unless you give this power away Self-containment comes when one recognizes that the direction of personal energies whether physical, emotional, mental (ideas beliefs, labels, interpretations) conscious or subconscious is an attainable level of personal mastery and exists as an implied responsibility that comes with the gift of free will choice The more responsible you become, the greater freedom and personal empowerment you will know

4 **SELF-DISCIPLINE** Accepting responsibility for directing personal energies toward rather than in opposition to, the outcomes you desire to experience The physical, mental and emotional bodies have long been directed by the subconscious forces of the hidden "shadow", creating within us urges, reactions thoughts impulses, perceptons and feelings that often work counter to the life creations we desire to manifest Part of spiritual mastery entails teaching ourselves to be consciously diligent in observing our own minds, emotions and physical body-talk, so that we may employ conscious redirection of subconscious shadow energies that run on "auto-pilot" If we learn to "catch ourselves" when "negative" thought patterns or emotions run through us, we can use that moment of recognition to reclaim this errant energy and consciously use the power of affirmative attitude remedial word choice and direct energy re-direction to direct opposing energies of the Self into fulfillment of desired constructive, spiritually mature creations It takes self discipline to become the "Lion Tamer" of the often roaring subconscious mind but we do have the intrinsic power to help our subconscious shadow to evolve through loving but firm redirection, into a "cuddly lap cat" that will gladly join us in our constructive co-creations Self-discipline emerges when we consistently

APPRECIATION Do you feel seriously, continually thankful to "experience" "appreciate" "be aware" "be grateful" "be in awe" "be amazed" at people and life? Do you feel that you have to "earn" appreciation by working hard, being successful, or doing something special? Or do you feel that appreciation is a natural response to the gift of life? SELF-LOVE It is our self-respect, or love and acceptance for ourselves through the Fruit of the Spirit gift of Divine Spiritual Power through us at every moment. Because God is not limited to form within and can only be gained through personal and conscious relationship to the eternal Source and to the eternal connection in all creation. There was love for the outside. In some it is like a universal consciousness or back within, we are also related, playing the "energy symphony" in many directions, we are seeking a substitute for our personal God-Source connection through tapping into the Source, we are also embedded within other people or beings. We are not one. It is "NEED" This implies the "LACK" of something essential, which is not true. Spiritual power and connection is God-Source Universal.

Consciousness. Each face can be filled by connection. Each one is filled by recognizing the God within you and us, as it is recognizing that you are a living and eternal and immortal love. Once this is recognized, you will HAVE the greatest love of all - God - love. And from that Position of Divine Power, you can go into the world, seeking those to whom you can give this love rather than seeking it as it is from whom you can get love. When love is separated through Self-Love, the motivation is to give joyfully, knowing that anything you might need can be made manifest through the Love of the entire God-Source that you carry within yourself. Self-Love is a responsibility of spiritual maturity.

SPIRITUAL INTEGRITY It is our personal responsibility to choose a set of spiritual principles of integrity at all times. These principles are to be universally available, be universal rights of all beings, regardless of how poorly they may treat us, treat to you. Spiritual Integrity requires at least (eight to) EIGHT which we SEEK to change in the way we live our lives. To our reality habits outside the place, some of it. Earth (in general) for our choices, thoughts, and judgments when we perform other people and other life forms? Do we "play the game of the times" and compete with ourselves in order to be successful and earn a certain income, and not question or ask what we are against the government by trying to "cheat" on taxes, or be "above reproach" in how you use your time and money and the resources entrusted to you? Do you "tell people what they want to hear" in order to gain their approval and support, even if it is not truly in alignment with your personal needs or feelings? Do you live in "pretense" in your home or in your work environment? Do you see someone in need and not help them, ignore, dismiss, or assume someone else will help them, due to your busyness, or attitude of "not my problem"? Do you see someone in need and not help them, ignore, dismiss, or assume someone else will help them, due to your busyness, or attitude of "not my problem"? Spiritual Integrity requires that we take a good look at some of our habits, attitudes, and choices and ask ourselves if we are performing actions that spiritual principles of integrity are incongruent with and therefore not bringing these areas of our lives into Spiritual Integrity. We does not "get through the gates of Heaven" in some type of ritual through one's connection to God or simply by "getting saved". Spiritual Integrity is a way of living and being in the world, seeking those to whom you can give this love rather than seeking it as it is from whom you can get love. When love is separated through Self-Love, the motivation is to give joyfully, knowing that anything you might need can be made manifest through the Love of the entire God-Source that you carry within yourself. If one is to become fluent in the art and science of Bio-Spiritual Healing Facilitation, it is necessary to become familiar with the primary structures of energy within which existence takes place. Without this understanding one will be unable to identify the true nature of systems and their intrinsic functions. If we do not understand the intrinsic order of a system and the elements that make up its parts, our ability to comprehend the organic functions of the system will be limited. Without comprehension of the intrinsic dynamics inherent to a system, our perceptions will be limited to observing the effects of systemic function, rather than perceiving the causal elements behind and within the apparent observable effects. In relation to the health and healing of the human body, it is wise to view the human Body-Mind-Spirit organism as a series of interwoven systems, each with inherent, implicit order, the perceivable and observable aspects of which represent the effects of systemic function. The observable effects of human condition emerge from an as yet undefined causal order, a hidden and mysterious source out of which the manifest effects of human existence emerge. Holistic healing approaches human health and healing in terms of the interdependent relationships between multiple interwoven systems. The Body-Mind-Spirit organism is viewed in terms of the intrinsic relationships that unite the multiple systems of the human being, rather than in terms of the observable boundaries that appear to separate and divide the multiple systems inherent to the human organism.

Holistic healing, and KATHARA Healing particularly, take the concept of intrinsic unity within the seemingly separate systems of the human being one step further than simple interrelationship between physical, mental and spiritual aspects of human experience. In the paradigm of Kathara Healing, the human organism is viewed as a set of interwoven systems that is itself part of a larger system of interdependent systems. The human individual is not only recognized as a singular set of unified parts, but rather as an intimate part of the species, planetary, galactic, universal and cosmic systems within which human existence finds context for being. The Cosmic Unified Field of Energy and Consciousness is viewed as the indefinable medium within which all reality takes shape and human existence is viewed in terms of its reciprocity to the greater whole-system of interwoven interdependent systems. The health and well-being of the human being is directly related to and affected by the systems-functions of the greater Unified Field. In order to better understand and facilitate the health and healing of the biological organisms, it is useful to understand the basic order and function of the UNIFIED FIELD in which life itself takes place.

Kathara Healing is an ancient system of Holistic Healing, dating back beyond presently identified recorded human history. The principles of Universal Order as taught within Kathara Theory present a broader context of universality than is presently recognized by contemporary western science. Kathara is built upon laws of Multidimensional Universal Physics, laws of intrinsic nature with which western science is not yet familiar. In Kathara healing the natural order of universal systems is recognized and the functionalistic of Kathara demonstrates the interwoven systemic functions between human being and the order of the Unified Field. To develop proficiency and genuine skill within the art and science of Holistic Healing, the basic order of the Unified Field must be understood. For with this understanding comes the ability to directly interact with and influence the causal elements of the human experience. For this reason the teachings of Kathara Healing begin with providing a basic format through which the CONTEXT of healing can be understood - a glimpse at the intrinsic order of the Universal Unified Field.

With foundations grounded in coherent systems relationships the Kathara Healing Facilitator has more knowledge, power and comprehension to bring to the art and science of healing and balance. Through comprehension of the intrinsic systems of universal order, the Kathara Facilitator progressively evolves to embrace the unity of SELF within the Unified Field, opening to an ever-expanding capacity of spiritual awakening and the embodiment of UNCONDITIONAL LOVE. The physical, mental and spiritual aspects of human existence represent one interdependent, interwoven system that is continually in a state of relationship to the Unified Field. This relationship must be acknowledged and embraced. True health and healing are to occur. Human evolution is a Bio-Spiritual process; the body and the consciousness - the biology and the spirit - are inseparably intertwined within themselves and within the greater order of the Unified Field.

Healing emerges through restoring order to the

THE HOLOGRAPHIC TEMPLATE

The externalization of the manifestation of matter and individuation of identity are HOLOGRAPHIC PROJECTIONS of CONSCIOUSNESS ENERGY SUBSTANCE created through an inherent order of energetic relationships. Energetic relationships represent interrelationships of consciousness, in its infinite manifest and de-manifest forms.

True Science has a spiritual core and true spirituality has its intrinsic foundation within the Laws of Energy that govern the manifestation of universal systems.

Reality is THOUGHT CONSTRUCTION. The core substance of the cosmos is CONSCIOUSNESS. Thought is an attribute of CONSCIOUSNESS the filter through which consciousness manifests itself into the Hologram of Form.

Nothing is truly solid. All things are composed of consciousness and their apparent solidity is determined by the relationship between the consciousness observing the form and the consciousness of which the form is made. Human consciousness emerges through an order of dimensional reality within which the human experience takes place. Human perception of reality and externalization is determined by the oscillation rates between dimensionalized units of consciousness. Consciousness is a complex form frequencies of energy which exist in specific relationships to each other. Human consciousness, the soul, spirit and human physical form are patterns of frequency formed by dimensionalization of units of consciousness. We perceive material solidity due to the relationship between the frequencies of consciousness of which we are made and those of the external field of Consciousness Energy around us. Humans perceive as solid the frequency bands that exist only in 3rd dimensional spectrums below the threshold at which the individualized, or collective consciousness is stationed.

The only difference between a thought and a manifest thing is the frequency of the consciousness of the observer. Manifest reality is thought projection made solid and externalized by relationships between the frequencies of our fields of attention and those of our projected thought forms. We perceive as reality the thought forms of the collective consciousness as they were placed within the frequency bands that are solid one dimension below the frequencies within which our present focus of collective consciousness is stationed.

- **Wave Substance:** The photon matter of PRIMAL SUBSTANCE units of corresponding energy called PARTICLE that exist as Omni-polar points of Wave vibration. Particle units are the smallest building blocks of matter and they form the template upon which complex ways to all these waves manifestations.

- Particle units are Omni-polar, combining the potentials for all polarities of wave types of vibrating energy (for perfectly cyclic back and forth between states of BI-POLAR LIGHT RADIATION (positive standing wave) and OMNI-POLAR SOUND VIBRATION.

- In the Omni-polar state, Particle units exist as invisible, fixed points of wave vibration, forming what is called an INTERDIMENSIONAL TRI-TONE WAVE. An interdimensional Tri-tone Wave is a single point of fixed vibration that is composed of 3 wave vibrations (tone one, overtone and resonant tone). When Particle units exist as Omni-polar cyclic living wave vibration-matter substance, the first vibration (tone one) vibration below 0 is positive standing wave. Through a process of Inhaling and Exhaling characteristic to their design, the Wave is back-and-forth from Primary wave, while maintaining their original Tri-tone Omni-polar design.

- In the Bi-polar state, two sub-vibrations of the Tri-tonal Standing Waves of Particle units break down into two sub-units, sub-tones called PARTICLE-Basic Tone and PARTICLE-Overtone, which are actual units of BI-POLAR RADIATION from Electromagnetic Scalar-Standing-Waves. The first vibration of the Tri-tone wave, the Fundamental Tone, remains as one continuous wave, which the polarized vibrations of Positron and Particle will transform through Internal Fusion.

- PARTICLE units form the energetic building blocks for PARTICLE TEMPLATES and PARTIMA units form the building blocks for simultaneously manifesting ANTI-PARTICLE TEMPLATES. Particle and Anti-particle templates are then activated, united by the Wave-matter PARTIMA units through which they manifest. The effects of ELECTRICAL AND MAGNETIC FORCE are set in motion through the EXPANSION AND CONTRACTION of energy vibration between Particle and Anti-particle matter units through the Wave-matter Particle and their units here.

- Positron-Particle units represent the CONTRACTION PHASE of wave-matter energy, with higher VIBRATION energy contracted and compressed by the Wave-matter template) and lower OSCILLATION energy expanded or transmitted from the Wave-matter templates and are considered BASE MAGNETIC. Particle-Anti-particle units represent the EXPANSION PHASE of Wave-matter energy, with lower Vibration and higher Oscillation, and are considered BASE ELECTRICAL.

- ELECTROMAGNETIC ENERGY is created through the combined cycling of energy, as the Omni-polar Wave-matter Tri-tone Wave of Sound Vibration projects its energy into Bi-polar Positron and Particle Scalar Waves of Light Radiation. Energy that responds like the Anti-particle Particle vibration joins to become Matter, which then contracts into particle Positron vibration point creating magnetic pull. Similar to original statement, when Anti-particle Particle units exist as the Wave-matter Tri-tone Wave, the energy takes a Bi-polar state. Through the draw of the Wave-matter Particle templates, Particle-matter particles and Positron-particles are brought into a state of Fusion. Upon fusion, the energy of the Positron and Particle ignites, the bi-polar Standing Scalar Waves of Light Radiation returning to their original Omni-polar Wave-matter state of Particle units. Once returned to the Particle state, the process repeats as the Particle creates Photon and replication.

PRIMAL SUBSTANCE

- A Particle-Particle template is made of PRIMAL SUBSTANCE particle units called PARTICLE that exist as Omni-polar points of Wave vibration. Particle units are the smallest building blocks of matter and they form the template upon which complex ways to all these waves manifestations.

- Particle units are Omni-polar, combining the potentials for all polarities of wave types of vibrating energy (for perfectly cyclic back and forth between states of BI-POLAR LIGHT RADIATION (positive standing wave) and OMNI-POLAR SOUND VIBRATION.

- In the Omni-polar state, Particle units exist as invisible, fixed points of wave vibration, forming what is called an INTERDIMENSIONAL TRI-TONE WAVE. An interdimensional Tri-tone Wave is a single point of fixed vibration that is composed of 3 wave vibrations (tone one, overtone and resonant tone). When Particle units exist as Omni-polar cyclic living wave vibration-matter substance, the first vibration (tone one) vibration below 0 is positive standing wave. Through a process of Inhaling and Exhaling characteristic to their design, the Wave is back-and-forth from Primary wave, while maintaining their original Tri-tone Omni-polar design.

- In the Bi-polar state, two sub-vibrations of the Tri-tonal Standing Waves of Particle units break down into two sub-units, sub-tones called PARTICLE-Basic Tone and PARTIMA-Overtone, which are actual units of BI-POLAR RADIATION from Electromagnetic Scalar-Standing-Waves. The first vibration of the Tri-tone wave, the Fundamental Tone, remains as one continuous wave, which the polarized vibrations of Positron and Particle will transform through Internal Fusion.

- PARTICLE units form the energetic building blocks for PARTICLE TEMPLATES and PARTIMA units form the building blocks for simultaneously manifesting ANTI-PARTICLE TEMPLATES. Particle and Anti-particle templates are then activated, united by the Wave-matter PARTIMA units through which they manifest. The effects of ELECTRICAL AND MAGNETIC FORCE are set in motion through the EXPANSION AND CONTRACTION of energy vibration between Particle and Anti-particle matter units through the Wave-matter Particle and their units here.

- Positron-Particle units represent the CONTRACTION PHASE of wave-matter energy, with higher VIBRATION energy contracted and compressed by the Wave-matter template) and lower OSCILLATION energy expanded or transmitted from the Wave-matter templates and are considered BASE MAGNETIC. Particle-Anti-particle units represent the EXPANSION PHASE of Wave-matter energy, with lower Vibration and higher Oscillation, and are considered BASE ELECTRICAL.

- ELECTROMAGNETIC ENERGY is created through the combined cycling of energy, as the Omni-polar Wave-matter Tri-tone Wave of Sound Vibration projects its energy into Bi-polar Positron and Particle Scalar Waves of Light Radiation. Energy that responds like the Anti-particle Particle vibration joins to become Matter, which then contracts into particle Positron vibration point creating magnetic pull. Similar to original statement, when Anti-particle Particle units exist as the Wave-matter Tri-tone Wave, the energy takes a Bi-polar state. Through the draw of the Wave-matter Particle templates, Particle-matter particles and Positron-particles are brought into a state of Fusion. Upon fusion, the energy of the Positron and Particle ignites, the bi-polar Standing Scalar Waves of Light Radiation returning to their original Omni-polar Wave-matter state of Particle units. Once returned to the Particle state, the process repeats as the Particle creates Photon and replication.

PRIMAL SUBSTANCE

- A Particle-Particle template is made of PRIMAL SUBSTANCE particle units called PARTICLE that exist as Omni-polar points of Wave vibration. Particle units are the smallest building blocks of matter and they form the template upon which complex ways to all these waves manifestations.

- Particle units are Omni-polar, combining the potentials for all polarities of wave types of vibrating energy (for perfectly cyclic back and forth between states of BI-POLAR LIGHT RADIATION (positive standing wave) and OMNI-POLAR SOUND VIBRATION.

- In the Omni-polar state, Particle units exist as invisible, fixed points of wave vibration, forming what is called an INTERDIMENSIONAL TRI-TONE WAVE. An interdimensional Tri-tone Wave is a single point of fixed vibration that is composed of 3 wave vibrations (tone one, overtone and resonant tone). When Particle units exist as Omni-polar cyclic living wave vibration-matter substance, the first vibration (tone one) vibration below 0 is positive standing wave. Through a process of Inhaling and Exhaling characteristic to their design, the Wave is back-and-forth from Primary wave, while maintaining their original Tri-tone Omni-polar design.

- In the Bi-polar state, two sub-vibrations of the Tri-tonal Standing Waves of Particle units break down into two sub-units, sub-tones called PARTICLE-Basic Tone and PARTIMA-Overtone, which are actual units of BI-POLAR RADIATION from Electromagnetic Scalar-Standing-Waves. The first vibration of the Tri-tone wave, the Fundamental Tone, remains as one continuous wave, which the polarized vibrations of Positron and Particle will transform through Internal Fusion.

- PARTICLE units form the energetic building blocks for PARTICLE TEMPLATES and PARTIMA units form the building blocks for simultaneously manifesting ANTI-PARTICLE TEMPLATES. Particle and Anti-particle templates are then activated, united by the Wave-matter PARTIMA units through which they manifest. The effects of ELECTRICAL AND MAGNETIC FORCE are set in motion through the EXPANSION AND CONTRACTION of energy vibration between Particle and Anti-particle matter units through the Wave-matter Particle and their units here.

- Positron-Particle units represent the CONTRACTION PHASE of wave-matter energy, with higher VIBRATION energy contracted and compressed by the Wave-matter template) and lower OSCILLATION energy expanded or transmitted from the Wave-matter templates and are considered BASE MAGNETIC. Particle-Anti-particle units represent the EXPANSION PHASE of Wave-matter energy, with lower Vibration and higher Oscillation, and are considered BASE ELECTRICAL.

Particle, Particulate and Particulate represent PHASES that Primal Substance energy passes through as it moves into and out of manifestation.

- The process by which Particle and Particulate move between Wave and Particle is called PARTICLE PHASING. Through repeated cycles of Particle Phasing, matter units "Electron" through "Proton" and "Neutron" are created.

Connectedness is the form of Particle. Units called PRIMAL SUBSTANCE of which the cosmos is structured. Particle Phasing is the perpetual PRIMAL ACT of reciprocal fission and fusion through which Primal Substance is brought into manifestation.
